THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 60 — BURLINGTON, KENTUCKY THURSDAY, JANUARY 2, 1936 — NUMBER 43

HIGH PRICE

RECEIVED FOR BOONE COUNTY TOBACCO—KENTON CROP ALSO GOOD

Boone county farmers, as well as those from other Northern Kentucky counties, this year have one of the best crops of Burley tobacco ever raised in this section, and as a result their tobacco commands attention on all markets at which it is offered.

Last week, in the final sales of the season before Christmas, some of the best averages received on the market at Lexington were for Northern Kentucky tobaccos, with both Boone and Kenton counties having crops to go through the sales for averages well above $30 a hundred.

The sales in Lexington last week were the heaviest of the season, totalling 9,380,488 lbs., that brought $2,138,368.55, an average of $22.79. Sales for the season on the Lexington market total 23,876,848 pounds sold for $5,153,569.75, an average of $21.59 for the season.

Among the Boone county crops on the Lexington market last week were the following:

W. T. Farrell and G. E. Porter, 1,342 pounds, $25.46 average; Carl Webster, 1,116, $32.45; Noah Souther and Holt White, 1,396, $33.14; E. D. Elliott, 2,534, $27.39; J. J. Myers, 2,140, $31.13; J. J. Myers and R. V. Gordon, 2,140, $26.49; G. W. Terrell and Cleve Piatt, 1,418 $27.23, Valentine Utzinger ond G. W. Terrell, Jr., 1,276, $26.15; Louis C. Littrell, 3,164, $28.49; L. Cook and Joe Shearer, 3,230, $26.20, and Pascal Bush, 950, $34.77.

Vernon Lawrence, of Kenton-co., sold 1,794 pounds in Lexington last week for an average of $33.89, and Joseph A. Northcutt, also of Kenton, sold 1,287 pounds for an average of $30.84.

TO CORRESPONDENTS

Due to a change in the method of obtaining news from certain localities of the county the services of a number of our corps of correspondents will not be needed. However, those who are retained will be sent stationery and ready addressed, stamped envelopes as in the past.

We sincerely appreciate the untiring efforts of our many correspondents who have so faithfully secured and sent to us the news items of their particular community.

You will, within the next few days, receive a notice concerning arrangements for the future.

Mrs. Zelma Clore and son Harold Kelly who are residing in Richmond, Ky., where Harold is a Junior at Eastern Kentucky State College, are spending their vacation with relatives here.

CONTRACT

GIVEN TO GEO. P. NICHOLSON AND SON, OF WALTON, FOR CONSTRUCTION OF THE NEW SCHOOL BUILDING AT INDEPENDENCE, KENTUCKY

The contract for the construction of a new school building has been given to Geo. P. Nicholson and Son, of Walton, at the bid of $148,800.00 excluding plumbing, heating and electrical equipment.

The new school building will be constructed on the LLL Highway near the intersection of the Kenton Highway.

The Walton Contractors should be congratulated on their securing this construction job as they were competitors to some of the largest firms of greater Cincinnati. They have constructed some of the most beautiful and artistic structures in Boone and Kenton counties in the past several years.

Construction of the new school will begin during the middle of January.

AUTO CATCHES FIRE

A customers car, while parked in front of Bob & Gene's Sandwich Shop, Florence, Friday night, became ignited and considerable damage was done before the flames were extinguished. The Erlanger fire department was called immediatly but the fire was under control before they arrived upon the scene. The owner of the car was not learned.

Miss Margaret Walton, of Burlington, has been confined to bed since Saturday of last week with a severe case of tonsilitis.

NEWS ITEMS TAKEN FROM FILES OF RECORDER OF 10 YEARS AGO WILL APPEAR IN PLACE OF "40 YEARS AGO"

In response to many requests which we have received from our readers we are replacing the column "40 Years Ago" with a similar column taken from our files of 1926. This will appear under the head of "10 Years Ago."

It is our belief that the news items of ten years ago will be of interest to a greater number of readrrs than were those of forty years ago.

The new column will contain the highlights of the entire publication rather than the usual local and neighborhood personal news items.

Miss Eunie Willis delightfully entertained with two tables of bridge ather home in Burlington on New Years Eve. The guests were Mrs. Carroll Croper, Mrs. Newton Sullivan, Mrs. Kirtley Cropper, Miss Mary BessCropper, Mrs. Garnett Tolin, Mrs. D. R. Blythe, Mrs. Geo. Porter and the hostess. The first prize was won by Mrs. Blythe and the second by Mrs. Porter

NEW BOOK

WRITTEN BY FORMER EDITOR OF RECORDER—"IN THE LIVING WAY"

Note—The following article sent to us from the Northfield Press, of Northfield, Mass., concerning Chas. Chambers Conner's new book, "In The Living Way," is being reprinted in this publication as Mr. Conner is a former Boone Countian and is well known by many here. Mr. Conner was a partner with the late W. L. Riddell founded The Recorder in 1875, but longing for a more open life Mr. Conner, as he stated in a former letter, "walked out the back door never to return again."

His present volume is distinctive, the contents of which adapt it to private oor public libraries for both reading and reference and it has been announced as "One of the most significant books in recent years."

We have a copy of Mr. Conner's volume in our library and can truly say that it is one of the greatest pieces of literary work that we have had the pleasure of reading.

There have been going lately from the local post office and from the publisher in North Montpelier, Vermont, cards of testimonials of a book "In the Living Way," by a local author.

The cards have had a threefold adaptation; a comparatively few to friends of the author in each place where he is known; more largely from the publisher to college libraries in all the states; and most largely to ministers of three or four denominations.

The testimonials on this card were from a Congregationalist minister, Methodist, Presbyterian, Quaker, Unitarian, Universalist, a Jewish rabbi, and a distinguished American poet.

Methodist ministers have been in the large majority recipients of the card, on the strength of the fine testimonial of Rev. Dr. Soockman, pastor of Christ Church, New York city, who has been here, in a past year, in attendance as a speaker at the General Conference.

Altogether as many as 1750 cards of testimonials have gone out, with the view of closing out the edition of the book. The last of them were mailed this week.

Since these cards were printed, comments on the book have continued to come to the publishr and the author. A minister who also is a lawyer in a Vermont town got a copy from the publisher soon after a card went to him, and afterward got two other copies to send to his two daughters. I enjoy reading the book," he said, "and have it on my desk here to refresh my mind after reading man-made laws."

An exchange of books has been made by Mr. Conner with Harry Elmore Hurd, a poet and freelance writer of Boston, New England born, but who spent some years in the wilds of the West, and has published an attractive volume with title "West of East." He writes "IN THE LIVING WAY is as cosmopolitan as life—if you cut it anywhere it would bleed—it is a book with which one might live. Ralph Waldo Emerson would like Mr. Conner's essays if he were still burning his lamp in Old Concord. Yes, "The creative is the truly prophetic"—this book is both a creation and a prophecy."—Northfield Press, Mass., Dec. 20, 1935.

REFUND

OF 1-3 GIVEN BY PRODUCERS CO-OPERATIVE COMMISSION ASSOCIATION

By action of the Board of Directors of the Producers Co-Operative Commission Association, Union Stock Yards Yards, Cincinnati, O., members of this livestock cooperative selling agency will receive one-third of their total paid in commissions or selling costs for the year. This service to those doing business with the Producers will amount to more than $50,0000.00 and will be paid to members some time the latter part of February. With the lighter receipts of livestock he leaders of this cooperative were pleased that they wnuld be able to refund 33-1-3 per cent of the selling costs this year. This is especially gratifying in light of the fact that approximately 20 per cent less total volume of business was handled during the year 1935 as compared to 1934—this loss practically all with hogs.

The Association this year is handling a little more than 35 per cent of the total receipts at he Cincinnai market. The value of the livestock sold during the year will be something over $7,500,000.00 while the value for a much larger volume of business last year was less than six million dollars.

The Directors and officers of the Association are Lloyd Nickels President, Connersville, Ind.; W. E. Swan, Vice-President, Oxford, O., George D. Robinson, Treasurer, Lancaster, Ky.; Lee R. Highlen, Indianapolis, Ind.; A. A. Toney, Washington, Ind.; J. M. Berry, Carlisle, Ky.; C. G. Fairley, Wilmington, Ohio; C. R. Titlow, Osborn, Ohin; R. Q. Smith Secretary-Manager, Cincinnati, Ohio.

Producers of livestock will be interested in knowing that the directors also approved payment to members in the year 1926, of their portion of the reserves set aside that year for operating capital. This amounts to $14,797.35. The total of the two years refunds from savings will amount to more than $60,000.00.

The time of the Annual Meeting of the Association will be Thursday, March 5th, 1936.

Shelby Cowen visited relatives here during the holidays.

DIRECTORIES

TO BE PUBLISHED SOON BY THE CONSOLIDATED TELEPHONE COMPANY

Plans have just been completed for the publication of 1936 telephone exchange directories which will be in the hands of their subscribers on or about February 1st. The new directories will contain all of the last minute changes in telephone numbers and names and the telephone company urges all parties who are anticipating installing a new phone to do so on or before January 15th, in order that your name may be alphabetically arranged in the new directory.

The contract to print the entire directory has been given to the Recorder.

HENSLEY—MILLS

Miss Elizabeth Hensley, the attractive daughter of Mr. and Mrs. Thomas Hensley, of Burlington, and Milburn Mills, Covington, were united in marriage Saturday evening at the home of Mr. and Mrs. A. B. Renaker, of Burlington, by Rev. R. L. James. The young couple plan to make their home in Erlanger.

WALTON MAN

IN AUTO MISHAP NEAR BULLITTSVILLE LAST TUESDAY

Harold "Peck" Shearer, Walton, Ky., accompanied by a friend, Thos. Henson, Lawrenceburg, Ind., were the victims of an automobile accident on the Bullittsville-Hebron pike when they failed to make a sharp curve which was covered with ice and snow, last Tuesday. Mr. Shearer suffered severe face and head cuts and Mr. Henson received fractured ankle and other minor injuries in the turnover.

They were taken to St. Elizabeth Hospital, Covington, in the Chambers & Grubbs ambulance where their condition was reported fair by the hospital authorities.

HENRY UTZ

PASSES AWAY AT THE AGE OF 99 YEARS AT HIS HOME IN COTTONWOOD, WASHINGTON.

NOTE—This article was sent to the Recorder by a relative of the late Mr. Henry Utz.

Cottonwood Wash. Aug 13—Chewelah's oldest resident, Henry Utz, father of Mrs. Sam Elkins, passed away Sunday morning at 9 o'clock at the home of his daughter, after a short illness. Mr. Utz had been here only a little over a year and was not very well known to many but it is easy to imagine all the wonderful stories he could have told about the changes whic' have taken place since he was born in Boone County, Kentucky, on the 16th of January, 1836. Had he lived five more months he would have passed the century mark.

Henry Utz was the eldest son of Johnathon and Mary Utz of Virginia and was one of a family of 13, the four oldest being only half brothers and sisters. He came of a family of long lived people. His father and nearly all of his brothers and sisters lived to a fine old age in the eigties and nineties. He was the last of the family. His youngest brother died about four years ago.

He lived in Boone County, Kentucky, until he reached young manhood at which time he moved to Gentry county, Missouri. There he met Miss Mary Woodring to whom he was married March 11, 1860. Their union was blessed with six children, two survive him, his daughter here and his youngest son Claude, at West Wood, California. His wife passed away in 1907.

He lived in Missouri working at farming and carpenter work until 1882 when the urge to come West became too strong to resist. The trip across the plains was made in a covered wagon train. Sometimes they were joined by many on the way and others dropped out from time to time. They were on the way from June until October. The trip was quite uneventful except for a few Indian scares which caused them to circle their wagons more than once but which didn't materialize into anything serious. He and his family landed in Colfax in

(Continued on Page 5)

REPORT

OF COUNTY ASSESSOR READY FOR STATE TAX COMMISSIONER

Again County Assessor, Wilton Stephens, has his report ready for the State Tax Commission's approval by January 1st, the time set forth by the statutes for same to be completed.

Intangibles and livestock show some increase over last year, while other property remained about the same.

The total assessment for State purposes: 1935 $10,377,290; 1934, $10,008,600. For County and school purposes: 1935 $8,910,495, 1934 $8,-894,035.

There were 2,230 dogs this year as compared with 2,248 last year.

Mr. Stephens feels with this slight increase for State purposes that the State Board will not ask for an increased tax this year.

If for any reason you have not been assessed you should see Mr. Stephens or the County Clerk at once.

The Boone County Board of Equalization will convene for a two weeks session beginning February 10, 1936. Anyone wishing to appear before this board should bear this date in mind.

EXTENSION

ON PURCHASE OF KENTUCKY AUTO TAGS TO MID-NIGHT JANUARY 15 IS GRANTED BY CHANDLER

Governor Chandler late Tuesday extended the deadline for purchase of 1936 automobile license to midnight January 15.

The action taken, according to Gov. Chandler, was in reaction to the many requests that he received from the County Clerks of the state. He said that numerous letters, phone calls and telegrams had been sent to him Tuesday requesting an extension on the time for purchase of the tags. However, granting this extension, the Governor said this would absolutely be the last extension.

INJURED

While attempting to crank his automobile Monday afternoon, Wilbur Stephens, head mechanic at Castleman Motor Car Co., Florence, received a broken arm. Mr. Stephens resides on Goodridge Drive, Flornce, and has been connected with the Castleman Motor Car Co., for some time. He reports that he was warned on three other occasions the same day while cranking cars. His injury, though somewhat serious, did not keep him from work on Tuesday.

F. H. Rouse entertained a number of his friends and relatives Saturday evening with a six o'clock turkey dinner. Some of those present were Mr. and Mrs. C. A. Fulton, Mr. and Mrs. C. E. Rector, Mr. and Mrs. M. E. Easyback and daughter, Mr. and Mrs. Lawrence Johnson, Mr. and Mrs. Hubert Rouse, Mr. and Mrs. Harry Fisk and daughter, Mr. and Mrs. A. E. Tanner and family, Dudley Rouse, Miss Mary Hedges, Miss Sarah Belle Wilson, Mr. and Mrs. Earl Schulker and some local friends.

SINGLE PRIMARY

LAW FAVORED AT COMMISSION MEETING — REORGANIZATION PASSAGE OF ELECTION STATUTE AT FIRST MEETING MONDAY

The enactment of a compulsory single primary law by the 1936 General Assembly was recommended by the Reorganization Commission meeting for the first time at Frankfort Monday.

The commission also voted in favor of a bill to give the Governor authority to request the Court of Appeals to give opinions as to the legality of important legislative bills before they are on finally. A committee was named to draft these bills.

The Commission which is comprised of fifteen persons, all of whom were present for the inaugural meeting, named as its executive committee former governor J. C. W. Beckham, State Auditor J. Dan Talbott. Senator Geo. B. Martin of Catlettsburg and Jos. W. Cammack, Jr., Owenton.

The executive committee in turn named two other committees to report on the budget and to report on penal and charitable institutions. The budget committee is composed of Dr. Charles J. Turck, president of Centre College, State Senator E. D. Stephenson, Pikeville; Retiring Superintendent of Public Instruction, and president of Murray State Teachers College, James H. Richmond and Shirley Haas, of Louisville. This committee will examine every estimate submitted for the next two years by the various State departments.

The committee on State Institutions is headed by Frederick A. Wallis, Paris, defeated gubernatorial candidate, who worked for Chandler in the second primary and final election. Other members are J. M. Alverson, publisher of the Harlan Daily Enterprise, and formerly publisher of a Georgetown paper; Bernard Coughlin, Maysville, former Senator Martin and Sam Caddy. Lexington, president of District 19, United Mine Workers of America.

Gov. A. B. Chandler informed the commission that the total indebtedness of the State of Kentucky Monday was $25,182,999.25, which he said represented an increase of approximately $13,000,000 during the last four years. The commission he said should work out a plan for the "orderly retirement" of this debt.

Gov. Chandler called attention to the fact that since he took office Dec. 10, he had struck off approximately 8,500 persons from the State payroll. Most of these he said were in the highway department. "I've paved the way for the reorganizing, you can do," he said. "We are now operating with skeleton forces in most offices. So far as I am concerned there is not a department or a commission that can't be consolidated or abolished. "The job is important, but I am certain it can be done," the youthful governor said as members of this commission sat around him at the mansion." "I'm not at all worried about the Legislature, if we submit to the lawmakers propositions that are sound." The Governor further said, "no effort will be made on the part of the Governor or this commission to cram down the throat of the people legislative bills they do not want."

The Governor declared he in-

(Continued on Page 5)

JACKSON-DAY

DINNERS TO BE HELD ON JANUARY 8TH—SPONSORED BY DEMOCRATIC CLUBS

Frankfort, Ky., Dec. 1.—The Young Democratic Clubs of Kentucky perfected plans at a meeting here at the office of Gov. A. B. Chandler for holding Jackson-Day dinners on January 8th, in thirty-three Kentucky cities, it is announced by Tom Logan, of Covington, State President of the organization.

This action places Kentucky in line with the effort being made by the National Domeocratic Committee to promote 3,000 dinners in observance of the natal day of the patron saint of the Democratic party.

Feature of the dinners will be the radio address by President Roosevelt which will be broadcast to all clubs from Washington where the No. 1 dinner will be held. Local speakers will address the dinners preceding the broadcast of the President's speech.

President Logan said: "Besides honoring two great leaders of Democracy, the fundamental purpose of the dinner is to raise a real war chest for the Democratic National Committee. A portion of the money paid for every ticket to the dinner will be forwarded immediately to James A. Fraley, chairman of the National Committee, together with a memorial signed by every diner present, which will be presented to President Roosevelt."

Tickets for the dinner will be sold at $10.00 a late, in accord with instructions from the National Committee, Mr. Logan exlained. The radiocast of the President's speech will be 9 o'clock C. S. T.

Cities in whic' it is proposed to hold a Jackson-dinner, which it is anticipated will be attended by Democratic leaders from recent counties, are as follows: Paducah, Mayfield, Hopkinsville, Princeton, Henderson, Owensboro, Madisonville, Bowling Green, Jackson, Louisville, Elizabethtown, Covington, Bardstown, Campbellsville, Glasgow, Williamstown, Carrollton, Lexington, Morehead, Frankfort, Danville, Richmond, Somerset, Harlan, Pineville, Whitesburg, Pikeville, Maysville, Ashland, Corbin, Cynthiana.

Others of the Young Democratic Club state organization who met with President Logan at the office of Governor A. B. Chandler were: Mrs. Sam Conner, National Committee woman; Auditor J. Dan Talbott, Ralph Gardner, Sebator Clarence Nickell, Robert Hensley, John Y. Brown, Hetcht Lackey, Keen Johnson, Ed. Bannon, Barry Bingham, Eugene Mosley, Ward Otes, Ray Kirchdofer, Alvin Buckley.

HEART ATTACK

PROVES FATAL TO OSCAR VEST —CARROLLTON MAN WAS A MEMBER OF STATE RAILROAD COMMISSION

A heart attack suffered by Oscar Vest, veteran member of the Kentucky Railroad Commission, at his home in Carrollton several weeks ago proved fatal to him last Thursday night.

Mr. Vest had been taken to Louisville for treatment after being stricken and had not been returned to his Carrollton home.

Beginning his public career as a page in the Kentucky Senate, Mr. Vest later becamesergeant-at-arms of the body, a member of the house of representatives from his home county and Gallatin county for two terms, then became railroad commissioner from the Second District. His ability and his great number of friends was shown recently when he was elected to that position for the third time.

He had been a citizen of Carrollton since his early 20's, when he moved from his native county, Owen.

Mr. Vest leaves his widow, a son Douglas Vest, prominent Carrollton County Attorney, died on New Year's Eve two years ago.

Mr. and Mrs. W. A. Pettit and family entertained with dinner Sunday, the following guests: Boyd Snow, Orville Sebree, Albert Sebree, Stanley Easton, Marvin Rouse, Jas. Ogden, Frances Finn, Edith Mae Eddins, Lena Pettit, Ida Pearl Gulley, Mrs. Vina Horton and Mr. and Mrs. James Brown.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY 1880

FOREWARNED IS FOREARMED

The Democratic Party has been given another trial in Kentucky and there is a suspicion among a great many Republicans that some of their own Senators and Representatives have been partially to blame. It is just as well to warn Republican members of the Legislature that they are on trial, too.

There are a number of counties and districts which are solidly Republican. Their people are tired of sending trading stock for politicians in Covington, Newport and Louisville to trade with the lobby for contracts, attorney fees or whatever they desire. The people in these Republican districts want something themselves. They want good government. That is what they send their Senators and Representatives to Frankfort for. If a Democratic Governor proposes anything for the benefit of Kentucky and its citizens, they want their Senator and Representatives to vote for it. If a Democratic Governor proposes something bad, they want their Senators and Representatives to vote against it.

Some of these Legislators are good men, but have had a feeling that the minority must stand together against the majority on evthing, as if that were good for their party, and they followed slick leadership blindly. They have been known to band together with some of the Democrats to kill good measures opposed by the better element of Democrats and put over bad [illegible] by the better Democrats. Then the Democrats blame the Republican Party for everything that goes wrong.

The lobby doesn't care about either party. It is hired by special interests. It has its agents right inside the Legislature. The lobby is crooked and will gouge its own employers. To make their employers put up more money, lobbyists will have bills introduced by their friends, so that they will be hired to defeat them. A little clique of slickers in Louisville and Northern Kentucky cities, posing as Republican leaders, try to organize the Republican caucus, and, if they succeed, they sell it out to the lobby.

When Republicans attacked the Democratic record in the last campaign, Democratic candidates produced the roll call of the Legislature and showed that the things exposed couldn't have been done without Republican votes. Republicans of the State have been watching the Democratic Administration. That put them on their guard. They are going to watch Republican members of the Legislature this winter. It is going to make a record at the 1936 session that is worthy of popular confidence or make its Senators and Repesentatives answerable for their betrayal. — Harlan Daily Enterprise.

LET'S QUIT KILLING!

The automobile death rate can be reduced. And the reckless and inconsiderate drivers, who are responsible for same 36,000 deaths a year in this country, can be curbed.

A number of cities have proven this. One of them is Portland, Oregon, which has been carrying on a "Let's Quit Killing" campaign that has produced fine results in a relatively brief length of time. Where the national automobile death toll during the first ten months of this year, was at the highest point on record, traffic fatalities in Portland declined about 25 per cent.

The "Let's Quit Killing" program can be carried on by any community. The campaign in Portland has been led by a newspaper, working with safety authorities and the automobile association. Pamphlets, such as the sensational "—And Sudden Death," have been widely distributed. Cartoons and statistical material have brought the horrors of ahtomobile accidents home to thousands of citizens. And the local judiniary has cooperated by levying sizeable fines and prison sentences against violators of the traffic laws.

The automobile, properly handled, is one of the most useful and pleasureable servants of man. The same automobile, improperly handled, is one of the most lethal of weapons. In the "control" of a drunken, irresponsible, congenitally reckless or incompetent driver it is as dangerous as a machine gun in the hands of a maniac.

The automobile, in its brief history, has killed more people in this country than all wars in which we have engaged. It is increasing the massacre every year. What are you as a citizen and an automobile driver, going to do to stop this carnage?

Editorial of the Week

CONGRESS

In less than three weeks, Congress will be at it again. The general hope is that the session will be short and snappy, but the same old signs preceding a hectic, busy meeting are present.

President Roosevelt has said he would like to limit legislation to two or three major bills in addition to the annual measures appropriating funds to pay government expenses. One will be a neutrality bill replacing the present temporary act. Ship subsidy legislation appears headed for a top place on the list. And there will, of course, be oratory and action on relief expenditures.

So far, the President has not discussed his program in detail with congressional chiefs. He did outline it in a recent talk at Warm Springs, Ga., with his Capitol Hill liaison man, Charles West, Undersecretary of the Interior.

Many who serve in Congress would like a short session. Early next usmmer, all of the 435 house members and a third of the 96 senators have to start active campaigns for election. The President will be doing the same thing. All want Congress out of the way by the time the Republicans and Democrats hold their quadresnial conventions in mid-summer.

EDITORIAL PARAGRAPHS

The New Deal is fixing up the money again. New $1 bills are being printed, bearing the Latin phrase "Novus Ordo Seclorum" which appears on the back of the Great Seal of the United States.

Secretary Morganthau of the Treasury interprets that as meaning "A New Order (or New Deal) of the Ages." The value of the dollar is still 59 cents.

During a single year more than 4,300 men who entered the C-C-C camps illiterate have been taught to read and write. Thus the emergency conservation work is teaching "larnid" to a lot of youths who dodged the truant officers.

We wonder what those fellows are thinking about and where their feelings are, that are leaving their cattle and horses out in this sub-zero weather.

If it is possible to drink our way back to prosperity—judging from the enormous amount of whiskey that was sold during the holidays, the "boom" days of '29 should be here.

ALMANAC

"Follow love and it will flee; flee love and it will follow thee."

what Irvin S. Cobb thinks about:

What They Want to Read.

CULVER CITY, CALIF.—Beautiful actress mysteriously dead. Crazed worker turns peaceful street into a shambles. Mother of three hanged for murder. Nurse suspected of inflicting "mercy deaths" on helpless patients. Confession by Hauptmann predicted. Rich man's son kidnaped. Former President Hoover tries to make humorous speech. . . All these tragic things on the same front page.

Irvin S. Cobb

Earnest thinkers who'll accuse the newspapers of sensationalism for featuring distressful happenings, forget that, to live, newspapers must print what people want to read about, not what professional uplifters and most publishers, and many editors, would like them to read. To publish any other sort of newspaper for popular consumption would require an endowment fund bigger than the average reformer's ignorance of human nature.

Extra: In the excitement, one more saddening headline almost was overlooked; Governor Talmadge of Georgia still thinks he's running for President.

• • •

The Living Dead.

Doctor Carrel is a bit late with his theory that human beings might be dried out and filed away for a matter of 200 years or so, and then brought back to life again. Only the other night I was speaking at a dinner where there were many who must have undergone the process—only they hadn't been brought back to life yet.

It used to be that I had better results, talking at banquets. But lately my audiences and I seem to be drifting apart. Or maybe it's merely poor old Mr. Cobb that's drifting apart.

Seriously, I think it would be a mistake to dehydrate a fellow the way Doctor Carrel suggests and set him aside in some quiet ratproof place for a couple of centuries and then return him to consciousness. He probably wouldn't notice much change in radio gags—they'll still be using the same ones—but, judging by the present rate of progress, think what taxes will be then!

• • •

Prospects of a Fight.

FOR a while it seemed that, when the Republicans meet next year, it would be for memorial services at Armageddon, and adjourning thence to the cemetery. Now it's settled they'll meet at Cleveland, and the official silver-lining locator, Chairman Fletcher, predicts it won't be any lodge of sorrow either.

Also, the Democrats, who not so long ago were figuring their 1936 to-do would merely be a grand ratification rally, replete with Farley and flags, are now inclined to go in for a regular convention, with resolutions deploring, among other things, the Literary Digest.

Well, a fight is better than a massacre. And upon the horizon of both parties looms the figure of old Doc Townsend, coming with a little plan, and if you don't think he's beginning to cast a shadow, ask grandpa. Meanwhile, the Ham Fish boom for President spreads like cold molasses.

• • •

Stamps and Such.

OWING to the Christmas rush, our Post Office department let an entire week slip by without turning loose any special stamp commemorating somebody or something. That means a double-header later.

If you're going in for new United States issues, you'd better figure on an addition to the little home-nest. You won't be able to get your collection in an album; you'll need a bowling alley. Because, when we run out of people or places or events to name stamps for, Big Chief Farley can draw on the alphabet and still be in the fashion.

My guess is the NRA memorial stamp will be printed in black and feature a picture of Gen. Hugh Johnson standing on his head.

• • •

Peace Prize for Sale.

STICKING up their heads just long enough to announce there'd be no peace prize for 1935, the judges ducked right back into the sub-cellar, out of the way of brickbats and night-sticks.

At the moment, all was quiet and harmony. With the exceptions of one large three-ring war and several smaller ones, and riots of one or more of the standard varieties—racial, religious, political, industrial or economic—going on simultaneously in seven major cities on four continents, which comes pretty close to being almost all the continents we have.

But before withholding the award, why didn't the judges take a quick glance in the direction of Greenland? There hasn't been a harsh word out of Greenland all year. I believe there was one other small country somewhere enjoying comparative peace but the name escapes me.

To trade—one white dove in an indifferent state of health for a set of brass knucks.

Lesson for January 5

MARY'S SONG OF PRAISE

LESSON TEXT—Luke 1:46-55.

GOLDEN TEXT—My soul doth magnify the Lord, and my spirit hath rejoiced in God my Savior. Luke 1:46, 47.

PRIMARY TOPIC—Why Mary Sang.

JUNIOR TOPIC—Why Mary Sang.

INTERMEDIATE AND SENIOR TOPIC—What Our Mothers Have Done for Us.

YOUNG PEOPLE AND ADULT TOPIC—A Mother's Vision and Influence.

Mary was a Jewish maid of the town of Nazareth. The first information we have of her is that she was engaged to be married to Joseph, a carpenter of the same village. It seems that the custom among the Jews was for betrothal to take place a year before marriage.

I. **The Occasion of** (Luke 1:26, 27).

1. Gabriel's announcement (vv. 26-37). During this interval of betrothal, God sent the angel Gabriel to announce to Mary that she was to be the mother of Jesus. Isaiah, more than 700 years before, prophesied that a virgin would give birth to a son, whose name should be called Immanuel, "God with us" (Isa. 7:14). Though at first perplexed, she accepted the annuncation with remarkable courage and devotion. To be told that she was to be a mother was nothing startling, for this was the normal desire of every married Jewish woman. Under the circumstances, she accepted motherhood at a tremendous cost. She was conscious of her virgin purity. She knew that to become a mother under such circumstances would expose her to suspicion and shame (John 8:41).

2. Mary's response (v. 38). Her faith was such that she responded with remarkable courage. She said, "Behold the handmaid of the Lord; be it unto me according to thy word." She accepted motherhood under these circumstances as God's command. It was made clear to her that the begetting was by the Holy Ghost and that the Most High would embody himself with humanity divinely begotten and that the resultant thing born would be holy and called the Son of God.

3. She visits Elisabeth (vv. 39-45). In her embarrassment she set out on a visit to an elderly kinswoman called Elisabeth. Having sought the sympathy and encouragement of her friend, her triumphant faith carried her beyond the misunderstanding, the scorn and shame which awaited her, and caused her soul to burst out in the most wonderful song of praise. This is called the "Magnificat" because of the first word in the Latin version, "My soul doth magnify the Lord." As pointed out by another, three features of her character stand out in this song.

a. Her purity of heart. Only a pure heart rejoices when God has come near.

b. Her humility. She forgot herself and gave her heart to God's praises.

c. Her unselfishness. She did not primarily think of the undying honor which through the ages should be attached to her, but the blessedness which would come to others.

II. **The Content of Her Song** (vv. 46-55).

1. For salvation (vv. 46-49). It was salvation for herself and others. There is no suggestion whatever in this song that she thought of herself as the mother of God. She praised God for the high distinction of being the channel through which the eternal Son of God was to make contact with the race and save it. This high distinction wrought humility in her soul.

2. For the divine character (vv. 49, 50). She praised God that he had almighty power, that he was absolutely holy and abundant in mercy.

3. For what the Savior shall accomplish (vv. 51, 52).

a. He was to scatter the rebellious, the unbelieving, and the proud. Though he is exceedingly merciful and patient, the time is coming when all who reject him shall be scattered.

b. He was to exalt the lowly. How wonderfully this has been accomplished through the centuries. Those who turn from sin and exercise faith in Jesus Christ are lifted up to places of honorable recognition.

c. He filled the hungry. It is through Jesus Christ that good is gained for the hungry. Indeed, all blessings come through him.

d. He sent the rich away empty. By the rich no doubt is meant those who have arrogated to themselves importance because of the possessions which he gave them.

4. For God's faithfulness (vv. 53-55). His faithfulness is shown in keeping his promises. That which was about to be realized was the fulfillment of the covenant promise made in Eden and perpetuated through Abraham.

Self-Denial

Simpler manners, purer lives, more self-denial, more earnest, sympathy with the classes that lie below us—nothing short of that can lay the foundations of the Christianity which is to be hereafter, deep and broad.

What Is Religion?

Religion is the fear and love of God; its demonstration is good works; and faith is the root of both, for without faith we cannot please God; nor can we fear and love what we do not believe.—Penn.

TEN YEARS AGO

From the Files of The Boone County Recorder

(ISSUE OF JANUARY 7, 1926)

Kirkpatrick—Congleton

Mr. Lamar Congleton, of Cincinnati, Ohio, son of I. A. Congleton, of near Lexington, Ky., and Miss Irene Kirkpatrick, only daughter of Mr. and Mrs. Elmer Kirkpatrick, of Bulington, were united in marriage by Rev. R. F. DeMoisey, of Walton, Ky., Dec. 23rd. After a trip through the Blue Grass they will make their home with Mr. Congleton's parents near Lexington. Mr. Congleton is a farmer and a very fine young man, and he is to be congratulated on securing for a wife one of our best young ladies. The Recorder wishes them a long and happy married life.

James L. Clore, a well known citizen of Hebron and Burlington, was stricken with paralysis at his home in Newport Wednesday of last week, and has been in a serious condition since. His many friends in Boone county wish for him a very speedy recovery.

Walton—Rice

Miss Missouri Walton and Orville Rice, of Belleview, were united in marriage Christmas day at the Baptist church in Belleview. The bride is the charming daughter of Mrs. Lulu B. Walton and the groom is a son of Robert Rice.

Hon. John J. Howe, our capable Commonwealth's Attorney, was re-elected Secretary and Treasurer of the State Commonwealth Attys Association at their recent annual meeting.

Union

Miss Susie Kathryn Bristow, of Georgetown College, spent the holidays with her parents, Mr. and Mrs. N. S. Bristow.

Miss Hazel Senour, of Erlanger, spent the week-end with Mr. and Mrs. O. E. Senour.

Idlewild

Mrs. Flossie Campbell Martin resumed her work as principal of Belleview High School Monday.

Miss Emelyn McCord returned to Lexington Sunday to resume her work as a student in Transylvania College.

Limaburg

Mr. and Mrs. James Pettit and family entertained the young people with a party Saturday night.

Mr. W. C. Rouse has been on the sick list the past week.

Constance

The river being full of ice the ferry has been laid up for over a week, which is very inconvenient for those employed over the river.

The new church is nearing completion.

Luther Hood and family moved to the city last week.

Local News

Albert Sebree, 11 year-old son of Leslie Sebree and wife while playing in the barn Tuesday fell from the loft, breaking one of his limbs.

Gulley & Pettit have just installed the latest improved model oof gasoline pump with a 500 gallon tank in front of their place of business.

Geo. A. Porter, local movie director, has been connfied to his home for more than a week with grippe. He is some better now.

Misses Isabelle Duncan and Mary Bess Cropper, of Ky., State University, spent the holidays with home folks.

FOR YOUR CONSIDERATION

1935 A Healthy Year

When the records are all in, 1935 will probably prove to be the healthiest year the nation has experienced in a long time, according to Dr. Chester T. Brown's statement before a national convention of life insurance presidents in New York. He estimates that there will be 34,000 fewer deaths this year than last.

Contrary to the usual trend, deaths from heart disease, cancer, Bright's disease, cerebral hemorrhage and some other maladies have decreased, while tuberculosis continues to decrease, as has been the case for several years. Of major causes of death, only influenza shows an increase. Deaths from external causes are fewer, and those from automobile accidents are expected to show a slight decrease from the tragic record in 1934, when more than 36,000 were killed.

Contrasting automobiles with the railroads with respect to accidents, Dr. Brown declared that not a single passenger of any railroad was killed during the first six months of 1935, and this he attributed to the everlasting and untiring campaign for railroad safety.

Mrs. Marion Coleman of Chicago bought a "police dog" to guard her home from thieves. When the thieves did come they took the dog as well as the loot.

News Tour

By Wm. C. Walton

In the stillness of late summer evenings in Shanghai China you often see children, or coolies of the working classes, hunting crickets in the fields. The children lured by their singing, seek them for their own amateur cricket fights. He, in turn may win a lucky wager later on when his cricket has been trained for combat. Sometimes, however the sportsman fears to leave the trapping of crickets to amateurs, lest clumsy hands inflict an unseen injury.

So equipped with candle lanterns, garden tools, a net and a tiny bamboo traveling case, he leads his servants to the music of a cricket song. Then skillfully and cautiously a swift stroke of the net covers the quivering insect who is now lifted with delicate tweezers and carefully deposited within a diminutive bamboo tube. Sometimes a Chinese fancier will invest a sum of money equal to the price of a valuable racing pony in a winner of many fights and give the insect his own special attendants, he keeps them well guarded in a round box of clay, lined with dry would and pierced with breathing holes on opposite sides. The crickets diet is varied, boiled chestnuts, rice and honey to give him much strength. The Chinese city, adjoining Shanghai foreign settlement lives its own ancient Oriental life, quite apart from ours, there almost deafened by the mingled noises of the thronging populace, you wander through the narrow crooked alleys, passing its busy tea and jade shops, restaurants, goldfish markets, wandering babers, filthy beggars and age blackened temples. We came to the cricket market lining a narrow alley, its stands piled high with the grey cricket boxes decorated with attracted designs of dragons or flowers, each shopman eagerly displayed any partiiular box in which he showed interest.

Earl Washmuth, Supt.

A HAPPY NEW YEAR

There's a knock on the door, at the midnight hour,
As the old year is saying goodbye
We hasten to open, and, greet with a smile,
The New Year with twinkling eye.

CARD OF THANKS

We wish to use the columns of the Recorder to express our sincere thanks and appreciation to our neighbors and friends for their sympathy and many kind attentions during the illness and at the death of our dear mother

ALICE SHINKLE

We especially wish to thank Dr. E. J. Love for his untiring efforts in her behalf, Rev. R. A. Johnson and Rev. Raymond Smith for their words of consolation, The Big Bone church choir for their music and songs, C. Scott Chambers for his kind and efficient manner of conducting the funeral services.

SONS AND DAUGHTERS

Mr. and Mr. Melvin Lietsch 11 years ago were married in Burlington, Ia. Today they have 10 daughters. They had hoped that the last baby would be a boy, but was disappointed.

By advertising in a Chicago newspaper that he was a former convict with two years experience in a penal institution of high standing a man received 14 offers of legitimate jobs.

HAVE YOUR EYES EXAMINED

Start the new year right. Better vision, complete eye comfort, freedom from headaches due to eye strain—this will greatly help to make you have a better and bigger 1936.

Avail yourself of our expert service and long experience. Let us give your eyes a deable examination and fit them with proper glasses.

Famous Cooking Authority

"LET'S make some candy." Is the children's cry these winter evenings when the family circle is more complete than at any other time of year. Nothing turns a dull evening into a festive occasion so quickly and so inexpensively as a dish of sweets made up on the spur of the moment. It's easy, too, with recipes like this one:

Chocolate Marshmallow Fudge

2½ squares or ounces cooking chocolate
3 cups granulated sugar
½ cup white corn syrup
¼ teaspoon salt
½ cup top cream or undiluted evaporated milk
2½ tablespoons all purpose margarine
1 teaspoon vanilla
¼ lb. quartered marshmallows

Cut the chocolate in bits; add to the sugar, corn syrup, salt, top cream or evaporated milk, and the all purpose margarine. Cook and stir over a moderate heat until boiling point is reached and the sugar is dissolved. Then continue to cook and stir until a little when tried in very cold water forms a soft ball. Remove from the heat, cool until the hand can be placed on the bottom of the pan without being burned, add the vanilla and beat until thick and creamy. In the meantime, spread the marshmallows on a good-sized margarined pan. Pour the fudge mixture in. When almost cold mark into squares.

WOULD PROTECT BANKING FIELD IN RURAL AREAS

American Bankers Association Announces Purpose to Combat Return of Excessive Number of Banks

CITES LAX CHARTER POLICIES IN THE PAST

Finds a Chief Cause of Bank Failures Was Too Many Banks—Existing Sound Banks Serving Communities Well

NEW YORK. — Existing sound banks, especially the small banks in the rural districts which are serving their communities well, should be protected from any return of the over-banked local conditions caused by former lax chartering policies, which were mainly to blame for the unfavorable failure record of the past, says the Economic Policy Commission of the American Bankers Association. This is brought out in a report covering an investigation by the commission of bank failures and public policies in chartering banks.

"The Commission's study gives an impressive revelation of how great a part mistaken public policies in the chartering of banks played in creating the unsound banking structure which finally collapsed with the Bank Holiday in March 1933," Robert V. Fleming, president of the association, says in a foreword.

"Over-production of banks, literally by thousands, over many years in the face of insistent warnings not only from bankers and others who recognized the danger, but even more so from the mounting records of bank failures themselves, is clearly shown to have constituted as a whole one of the greatest single economic errors in the history of the Nation."

A Recurrence Feared

He refers to fears of a recurrence of over-banking recently expressed by Federal banking authorities, to the powers given the Federal Deposit Insurance Corporation by the provision of the Banking Act of 1935 over the admission of banks to membership in the insurance fund, to strengthened state laws and to the policies now being followed by both national and state supervisory authorities aimed to safeguard the nation against over-banking.

"But sound laws and conscientious officials are not of themselves always sufficient safeguard in any field of our complex national life unless they have the active support of public opinion," he adds. "It is the purpose of the American Bankers Association to ... marshaling public opinion in support of both national and state supervisory authorities in their efforts to strengthen and protect the banking structure."

The Economic Policy Commission summarizes its findings in part as follows:

"The facts show a distinct causal relationship between the over-chartering of banks and the abnormal bank failure conditions that prevailed from 1920 to the bank holiday in 1933. It is desirable that studies be made on the basis of experience to develop standards governing the number of banks or the volume of bank capital which can be successfully operated.

"Such a study would embrace the question whether banking facilities can best be supplied to the rural districts by small unit banks or by branches from banks of substantial capital in larger centers. Existing sound banks, which are serving their communities well should be protected from any return of the over-banked local conditions caused in the past by lax chartering policies.

Banking Officials Queried

"An inquiry among state bank commissioners shows a preponderant opinion against increasing materially the number of banks, coupled with the fact that present laws give them sufficient discretion to prevent a repetition of the grave errors of the past.

"Under prevailing abnormal conditions, with the Federal Government extensively exercising loaning powers in competition with the banks, and with industry itself so largely supplied with funds as to render it to a great degree independent of normal bank borrowing, the banking structure even with its present reduced numbers, finds it difficult to support its existing capital investment and operating personnel.

"These are ...w factors, intensifying the need for highly prudent and restrictive chartering policies. We urge the retirement of the Federal Government from the banking business as rapidly as the return of normal business conditions warrant."

Conference on Banking

NEW YORK. — An eastern states conference on banking service will be held by the American Bankers Association in Philadelphia January 23 and 24 as a part of the organization's nationwide program on banking development, it has been announced.

Robert V. Fleming, president of the association, will preside over the meetings. It is stated that this conference will be the first of several to be held in various parts of the country presenting a program the details of which are now in the course of preparation.

The general topic of the conference will embrace the managerial, legislative and operative problems confronted by all classes of banks. An outstanding phase of the meetings will be the development of plans for promoting a general better public understanding in regard to bank functions and policies.

THIRD DEGREE TOO STRONG FOR TOUGH TONY THE STINGER

Found He Knew Too Much for Own Good So He Bumps Himself Off.

New York.—When any of Tony the Stinger's pals knew too much and were liable to talk, the rumor was, he bumped them off. When Tony found he, too, knew too much for his own good, he bumped himself off.

The third degree did it. After a former companion, probably a girl, put the finger on him so that New York police could pick him up on Broadway, detectives strapped Tony in a chair and gave him a rubber hosing. Such torture was not unusual to Tony the Stinger, properly called Anthony Cugino, Philadelphia's thirty-eight-year-old candidate for the infamy of Dillinger, Vincent Colli, and the like.

Before Tony killed dangerous enemies in his pack he often slitted their tongues, pulled out their fingernails or pushed burning cigarettes into their skin.

But Tony snarled back as the hulking circle of police pelted him with questions and then blows. He would admit only one of the eleven murders they were sure he had committed.

Wife Brought In.

Soon after they threw Tony sobbing and bruised into his cell, police brought his pretty wife, the former Frances Ul... of Philadelphia, In. They had caught her at a bungalow at Midland beach, the Cuginos' home for several months. They wanted her to tell what she knew about Tony's trail of blood.

She laughed and posed for photographers. Meanwhile, in the cell Tony was writing a note:

"My dear wife Frances: Please do not worry and just try to do your best to be happy. I'm going to end this life of h—l. I will meet you in the next world. Your husband, Jim."

"P. S.: Forgive Sally."

"Sally" was supposedly a jilted sweetheart who had a lover's revenge by tipping the police off.

The police had been most careful to see that Tony did not escape dead or alive. But they forgot their caution after he took the third degree without breaking. They had taken his belt and shoe laces but neglected to remove his tie. He hung himself with his tie and strips torn from his shirt. Neither he nor his wife was aware of the other's nearness. Frances believed it was a ruse when chagrined police discovered the body and told her.

Underworld Rejoices.

The underworld rejoiced to know that its worst enemy had taken the "easy way." Tony became a criminal at the age of twelve, and when he was twenty-two, killed a cellmate in Maryland state prison. Believing it was self-defense, a prison board paroled him in 1930. Then he joined the Little Agule gang in Brooklyn, but it could not stomach his cruelty and drove him out. He ran with the Purple gang in Detroit. The Purples didn't like his friendliness any better and put him on the spot. Then he went to Cicero in Chicago and teamed with Al Capone's men. They found out he was a double-crosser and Tony moved on to Philadelphia.

He became known as the real leader of the tri-state gang there, ostensibly led by Robert Mais and Walter Legenza. They were both electrocuted. The one slaying that Tony admitted was the killing of a policeman during a Philadelphia pay roll holdup.

Walks 30 Miles Every Day to Keep His Vow

New York.—Yenog Sahagian, seventy-eight, paused in the midst of his daily constitutional and, after turning a few cartwheels and somersaults, explained to reporters why he walks 30 miles a day.

Sahagian, a retired Armenian rug weaver, walks daily from Yonkers, N. Y., to lower Manhattan, where he indulges in a few calisthenics before starting home again. The round trip takes nine hours and a half.

It was in his father's house in Aintab, Turkey, in 1895, that his mother drew a rug over him and left him for dead—a supposed victim of frequent Turkish massacres.

He was unconscious from bullet and saber wounds. Three days later he regained consciousness and managed to get to the American hospital, where he vowed to devote his life to walking and praying if he lived.

Subsequent misfortunes destroyed his family and in 1900 he came to New York to live with his one remaining brother.

From 1917 until his retirement four years ago he walked 30 miles to work daily. Now he walks it each day to keep his vow to the Lord.

Cat Adopts Three Ducks to Join Her Four Kittens

West Chester, Pa.—Mrs. W. Ernest Styer's cat has adopted three baby ducks. And they get along perfectly with the cat's four kittens. They wander around and play with the kittens, and even get their daily baths from the mother cat. At night-time the ducklings cuddle against the cat and peacefully sleep with the kittens.

Talked Four Days

Kansas City, Mo.—A nervous ailment caused Lloyd Huffey, twenty-one, to talk four days without stopping to eat or sleep. He answered questions intelligently, and talked mostly of religion. His condition was caused by a shock.

DEVON

Jeral Dixon and wife are the proud parents of a new son.

Mrs. Maggie Glacken entertained Gaines L. Robinson and family Sunday.

Earl Carpenter has returned to his home from the hospital and is doing very nicely.

Mrs. Lois Dinn and daughters and Edgar Acra and Robert and Sarah McCardle spent Xmas day with Mr. and Mrs. Henry Clore.

Edgar Alan McCardle spent a week with his brother and sister Robert Owen McCardle and Sarah Louise McCardle.

John Malone and family spent Sunday with Mr. Harry Dinn and family.

Mrs. John Holtzworth and Miss Kathryn Holtzworth spent a few days during Xmas with friends in the city.

Henry Holtzworth and wife and Carey Carpenter and family spent Sunday with Elmer Carpenter and family.

John Crowley and daughter, of Lexington, spent a few days during Xmas here.

John Wood Carpenter and wife entertained their children and Mr. Carey Carpenter and family, Mr. Elmer Carpenter and family and Mrs. Maggie Glacken Xmas day.

Robert Owen McCardle, Miss Jessie Lee Dinn, Edgar Alan McCardle and Miss Sarah Louise McCardle called on Tommie Easton and family Friday night.

HOLIDAY BUSINESS SHOWED BIG INCREASE ALL OVER COUNTRY

A sweep of holiday buying during the week immediately preceding Christmas brought the season's volume to the highest level in recent years in some of the principal trade areas of the country, according to Department of Commerce reports from 32 cities just received by its Louisville District Office. At the same time the reports gave evidence of holiday travel that tested the capacity of transportation fatilities. New York reported Xmas witnessed extremely sharp gains over a year ago. Minneapolis reported holiday retail trade up 36 per cent with some country districts even better. Holiday buying in Los Angeles brought retail trade to a higher point than for any December in six years

SMALL PRODUCER PROTECTED UNDER CORN-HOG PLAN

A farmer with a corn base of 10 acres or more, or a market hog adjustment payment, especially, under the new two-year corn-hog contract.

A contract signer with a corn base less than the required 10 acres, however, may receive a hog payment if he has a market hog base of six or more hogs and if he complies with the terms of his contract and the administrative rulings. Likewise, a man with a market hog base of less than six hogs may be eligible for a corn adjustment permit.

If a contract signer's corn base is less than 10 acres and he wishes to receive a hog payment, he must agree not to increase his corn acreage above his base. If his base is between 10 and 15 acres, he may either make an adjustment and receive payment, or obtain an exemption from adjustment, and agree not to increase his corn aireage above his base. This will enable a producer with a small corn base who needs all corn produced on his base acreage to participate in the program by making necessary adjustment in his hog production.

A signer with a market hog base of less than six hogs may make an adjustment in corn acreage according to the terms of the contract and receive a corn payment if he agrees not to produce hogs in excess of his market base. And if his base is between six and 15 hogs, he may either make an adjustment and receive a hog payment, or not produce hogs in excess of his base and receive no hog payment.

Close Weaving Is an Art Common With Araucanians

Araucanian textiles are beautiful examples of the craft. They are closely woven and have a deep, rich nap. They are prized also for their characteristic designs, the blending of colors and the quality of their dyes. It is well to know quality, however, for aniline dyes have in recent years gained some favor with the natives and replaced to some extent the vegetable coloring used for centuries.

Close weaving is an art which nature forced upon the Araucanians, states a writer in the Washington Star. Persistent rains at certain seasons of the year have led them to fashion cloth and robes as waterproof as possible. A variety of colors and striking patterns, make the garments gay and lovely.

Ponchos usually are woven with stripes or rectilinear designs. Sometimes a Greek cross forms the center of the pattern, and others have small squares with zig-zag sides. The background is usually blue or black and in bringing out the pattern, the Indians use a method which has been followed for generations. Upon the wool that is to remain white, the craftsman ties strips of leather or resistant vegetable fiber. After the dyeing is completed, the coating is removed.

Mistletoe First State Flower

The mistletoe was the first state flower to be chosen, Oklahoma making the choice in 1893. Since that time many states have chosen flowers and have changed from one flower to another. Selections have been made by vote of the school children, by vote of the state legislatures and some stand by general adoption. A national flower still remains to be chosen, the dogwood, rose, mountain laurel, daisy, columbine and golden rod having been suggested. The wild rose was chosen for the United States by vote of the readers of Nature Magazine, but no flower has been officially selected. The rose is very popular in state-naming lists, the District of Columbia selecting the American Beauty rose, Iowa and North Dakota, the wild rose, New York, the rose, and Georgia, the Cherokee rose.—Detroit News.

There were quite a number of minor automobile accidents the past week. They were mostly due to the heavy snow which has drifted on the highways.

J. H. Clore, of Florence, was a business caller in Burlington, Monday. While in town Mr. Clore had his Recorder subscription moved up a year.

Girl Motor Thief Takes Girl's Car

Akron, Ohio.—Miss Bernice Elakna, twenty-one, of Akron, failed to "get her woman." While eating her lunch in a South Akron restaurant, Miss Elakna noticed a girl climbing into her automobile. Rushing up from her lunch, she darted outside and leaped onto the running board of the moving car. But after a few blocks, clinging to the wildly careening car, she lost her hold and fell off, suffering cuts and bruises. The feminine auto thief escaped, with the car.

NOTIFIES POLICE OF TRIPLE CRIME

They Find Three Slain and Informer a Suicide.

New York.—Capt. Thomas Rowe was quietly doing his turn on the Newark, N. J., police headquarters desk at 12:30 a. m. one morning when the telephone rang.

"I've just murdered three men and I am going to kill myself," said a man's voice.

"Where are you?" asked Rowe.

"At 938 South Twentieth street," the caller answered and hung up.

Captain Rowe marshalled detectives and police radio cars and sped to that address. The converging policemen found an apartment building. Neighbors told them of voices and four explosions in a five room suite leased by Orlando Le Van. No one answered there and the police crashed in the door. The living room lights were on. A body was on the couch. Nearby was a shotgun. In the kitchen were the bodies of three others, all riddled with buckshot.

After investigating all the angles, the police were able to reconstruct the crime:

Mrs. Orlando Le Van had died three weeks before at Easton, Pa., and had left her $30,000 estate to her husband, fifty-five, and named a nephew, John S. Geary, forty-one, as executor. Charles Geary, forty-three, a relative, was caretaker of the Le Vans' farm at Tobyhana, Pa. Mrs. Le Vans' body was entombed temporarily but Le Van and his brother, Benjamin, forty, unemployed, wanted it buried in a site already occupied by Charles Geary's mother, who had died 14 years before. Geary didn't want his mother's body dug up.

Taking a 12 gauge pump action shotgun and a .32 caliber revolver, he left his wife and two children on the Tobyhana farm and went to Newark. There he met Benjamin and visited a beer garden with him. They seemed on the best of terms. Then they argued about the burial. Returning to the apartment they found Orlando and John Geary and continued the dispute.

The police found three kitchen chairs overturned as though their occupants had risen hastily. The fourth chair was pushed up to the table, on which were four glasses and an empty bottle. From the position of the bodies police concluded that Charles Geary lined Benjamin and Orlando Le Van and John Geary r[illegible] before the kitchen door and then fired into their backs.

Then he telephoned his grim message and killed himself.

Fake Diamond "Racket" Exposed in Transvaal

Wolmaransstad, Transvaal. — The manufacturer of "diamonds" from broken bottles has been revealed here by the confession of a native. Claiming to be head of the concern, the native revealed that the "trade" was carried on in several parts of the Transvaal and the Orange Free State. A 30-carat "gem" made in the process had been sold for $750.

Working like scientists, the manufacturers of the fake stones take months trying to get the correct facets and luster on a piece of glass.

Heavy-bottom white bottles are used as raw material. When they are broken up, a piece the size of a quarter is taken from the thick bottom part and round facets are ground on an emery wheel. Diamond acid helps to make them more realistic.

The fake is then heated in an open fire and dropped into a bowl of sugar, where the sudden cooling causes minute cracks to appear. Water, instead of sugar, was used at first, but it was found that the cracks so caused were larger than those on a real diamond.

Boiled for a few days in water which contains old rusted iron, the piece of glass assumes the appearance of a rough average-quality diamond, when the rust has penetrated the small cracks.

After further treatment with diamond acid, the fake is ready for the market.

When preparing to sell a fake gem, the manufacturers obtain the confidence of the victim by opening the deal with small, genuine diamonds. Then they produce the "big one."

Polecat Becomes Pet

Cushing, Okla.—T. M. Jones, who lives southwest of here, has a two-months-old polecat for a pet. He answers to the name of "Jack." Neighbors report he is one of the most affectionate pets.

Jumping Bluegills

Topeka, Kan.—Bluegills that jump through a hoop to hit a piece of bread tied at the top, are the pride of Harry E. Gavitt, who has trained them. The fish will jump eight to ten inches for the bread.

Rod and Reel

By VIRGINIA E. STRONG

© McClure Newspaper Syndicate. WNU Service.

JOE HARKNESS and I met when a traffic jam caused our cars to lock fenders. His apologetic grin and our exchange of cards began a warm friendship. My games were architecture and golf; Harkness' steel and fishing.

By the time I had constructed their fishing lodge in Canada a few years later, Joe's wife was familiarly depending on me to be the extra man at her various entertainments.

Recalling it now, I believe the first time I noticed the fish hooks, the barb of one caught in the eye of the other, was during a fall visit at the lodge when rainy weather kept us indoors. They were tacked over the big stone fireplace.

When I found them in the city apartment my friends occupied while I built their Normandy chateau—the only hint of fishing in the room—I was mildly piqued. But when I saw them hanging between French paintings on the walls of their new home, I was intensely curious.

I couldn't tell the Harknesses that Corot and Millet would hardly enjoy sharing honors with fish hooks but I did ask what special significance they had.

Joe looked at them, a quizzical gleam in his eyes. "When is a fish story not a fish story?" he queried.

Sally made it a little more intriguing by replying in a low voice, "When it ends like a fairy tale."

"You see, Ken," Joe began, "long years ago, when Sally was young and beautiful—"

"He means, of course," Sally interrupted, "when I was young and gullible!"

The male Harkness chuckled. "Well, anyway, she doesn't dispute the young part, Ken. She was young, you know!"

He ducked the magazine she threw and continued. "Sal's dad and mine belonged to the same clubs. We were the only children of those widowers, so they took us around more than most parents do and Sally and I were thrown together quite a bit.

"We followed the same golf tournaments, watched the same swimming events, polo, tennis—oh, everything that went on. Well, McCrea, Sal's dad, and my old man had argued the golf championship of Valley club for over a decade. Neither one of them could win that extra game that would make the trophy his own."

"It was like a Kentucky feud after they'd been fighting for twelve years," Sally broke in with a pensive smile. "The feeling between them was so strong that the board of directors decided the winner for the coming event—which was to be the thirteenth tournament—would get the cup once and for all. Each of them had won it six times, you see."

"Well," Joe sighed, "it's a funny thing, Ken. McCrea died in the spring of the following year and it almost seemed that my dad couldn't stand the disappointment of not playing that final tournament, for he soon died, too!"

Harkness seemed lost in his memories for a minute and Sally carried on. "Their deaths were quite a blow to both of us and for a long time we were like fish out of water. But youth has a way of forgetting unhappiness and Joe and I—well, we just took up the battle where our fathers had left off."

"Yeah," my host agreed. "We tried golf at first but we were both so rotten we soon gave it up. Then trap shooting became the fad and Sally and I carried even scores for a long time. Both of us had been doing a lot of fishing, meanwhile."

"I think I never hated anybody quite as much as I did Joe Harkness," Sally confided, "the year the gang at the club complained that our inherited competition had degenerated to hot air." Sally smiled. And when Sally smiles you just naturally smile with her. "They said they were going to have a medal struck off with a picture of Ananias on it and present it to the winner!"

Harkness' face simply beamed as he went on with the story. "Anyway, Ken, for the first time in our lives we agreed on something; we both objected to being called liars. So we settled on a fishing party then and there that would decide which of us was the better man.

"We decided to cast on opposite sides of the same stream and went out the next day with fire in our eyes. We'd been at it for several hours with a couple of trout apiece, when I felt an awful tug on my line. I played it for a while, slowly reeling in, convinced that I had a whopper! My rod bent and I was having the time of my life. Finally I gave a long, steady pull that should have landed him, when I hear a—uh—respectably large splash."

Joe shook with laughter. "Sally, still hanging onto her rod, had been hauled in. Our hooks had caught just as you see them now, Ken. And that's the way they've stayed 'cause it was during that excitement that we realized our contest wasn't nearly as important as—as other things."

We were all grinning now. "Then nobody really won, did they?" I asked.

"Well, you see, Ken," Joe replied, a twinkle in his eyes, "we've never quite settled that. But since I actually had to pull Sally out of the stream, I'm inclined to believe I caught the biggest fish."

"And since I've been 'hooked' now for over fifteen years," Sally countered with affectionate sarcasm, "I'm inclined to agree with him!"

LOWER GUNPOWDER

Mrs. Manley Ryle, of Burlington, is spending a few days with relatives in this vicinity.

Joe Black and wife and Robert Arrasmith and wife spent Saturday and Sunday with Len Hubbard and family.

Willie Stephens, of Cincinnati, is spending the holidays with his sister Mrs. Tom Huff.

Tom Huff and wife and brother Willie Stephens, and F. H. Sebree and family spent Christmas day with Garland Huff and wife.

Miss Kiturah Shinkle has the lagrippe.

John Binder Jr., and sister Helen and uncle Henry Binder, all of Ill., are spending the holidays with relatives in Ky.

Jimmie Jones and sister Mary, are spending the holidays with theirgrandfather Harry Jones, of Erlanger.

Sam Walston and family spent Sunday with his parents at Petersburg.

Miss Mary Marksberry is staying with the Shinkle family.

Alma Schwenke spent last Sunday afternoon with Alberta Sebree.

Garland Huff and family spent Friday with home folks, F. H. Sebree.

Mr. and Mrs. Reuben Asbury are spending Xmas with home folks. We wish them a Merry Xmas and a Happy New Year.

Miss Velma Jean Ogden is spending this week with her grandparents, O. K. Hodges and wife, of Covington.

Conner Carroll had the misfortune to turn his machine over Christmas day, but no one was hurt.

Mrs. Schwenke spent Sunday afternoon with her sister Lena and mother, Mrs. Binder.

McCLURE—KETCHUM

Miss Vera McClure, daughter of Mr. and Mrs. Ezra McClure, of near Burlington, and Oakley Ketchum, Burlington, were united in marriage at Latonia, Saturday afternoon at 5:00 p. m. The bride and groom plan to make their home with Mrs. Ketchum's parents for the present. After the marriage ceremony Saturday evening the party enjoyed a delightful dinner at the Fire Side Inn, on the LLL Highway.

SINGLE PRIMARY

(Continued from Page 1)

tended to appear before the General Assembly when it convenes next Tuesday and said he desired that something be ready for the Legislature to start work on.

The commission expressed unanimously the view that the Sales Tax should be allowed to die at the expiration of its life under the present statue, June 30, 1936. It was explained that to repeal the law immediately, the budget for the current year would be thrown out of balance since it was based on income from the Sales Tax up to June.

HENRY UTZ

(Continued from Page 1)

October, 1882, which with only a sack of flour and ten cents. They lived in their wagon until buildings could be constructed. His life was one of many hardships brightened by the love and devotion of his family and the joy derived from overcoming difficulties and lending a helping hand to others to overcome theirs.

He was a member of the Home Guards in the Civil war but due to the loss of his discharge papers never received any compensation from the government. He homesteaded near Colfax but later moved to Palouse where he became a a real western pioneer.

His long life he claimed was due to the use of "plenty of tobacco and coffee." He began chewing tobacco at the age of six years from his father's tobacco fields in Missouri. He said he could remember when the farmers there raised porkers and hauled the meat fifty miles by wagon to market and received only two or three cents a pound.

Until eight years ago Mr. Utz made his home with his oldest son Mac, who preceded him in death only a few months. The grief at the death of this son saddened his few remaining months most poignantly. He was a member of the Baptist church in the East. He enjoyed a most active life and was never ill. The only time he was confined to his bed, except the last four weeks of his life, was about 35 years ago when he was thrown from a horse and was forced to spend a few days in bed while a sprained ligament healed. He never knew just where he put his glasses so he just read all day often times without them. Even this summer and to the last he carried on an extensive correspondence.

During his last few weeks his greatest worry was that the wood pile would run out before he got on his feet to cut more. He sawed and split all the wood and kindling and carried it in for the use in his daughter's home. The only time he felt misused was when they tried to persuade him that he was too old to do so much work. At the age of 87 he shingled a house and took delight in his work also, in having his picture snapped while at his work.

Besides his two children he is survived by 16 grandchildren; one being Kit Manring of Chewelah. 38 great grandchildren and at least 14 great great grandchildren. His body was laid to rest in Palouse cemetery beside his eldest son, Mac, today. Services were held ta the Rigg & Stapish chapel yesterday (Wednesday) with Rev. J. O. Streeter officiating.

A
HAPPY AND PROSPEROUS
NEW YEAR

We wish to take this opportunity to express our appreciatioon to our many customers and friends for their patronage and cooperation during the past year and we sincerely hope that the year of 1936 will even be a happier and more prosperous year for all.

A greater business in 1935 than in 1934 combined with fast growing indications of an even greater business in 1936 give us a desire to start the New Year with a very optimistic outlook.

Seen And Heard Around The County Seat

Arthur Maurer, of Florence, was a business visitor here Monday.

Solomon Winkle, of Waterloo, was at the county seat Monday.

Atty. O. M. Rogers, of Erlanger, was here on legal business Monday.

Miss Ruth Kelly, a government employee at Washington, D. C., spent the holidays with relatives here.

Senator O. M. Rogers, of Erlanger, was a business visitor in Burlington, Monday morning.

Edward Rogers, of Grant, was in the County Seat Monday on business.

L. C. Weaver, assistant postmaster, has been quite ill with a severe cold the past week.

J. P. Ryle, of Camp Ernst Road, was among the many visitors in Burlington, Monday.

Robert Hensley, a senior at University of Kentucky Law School, is spending his vacation with his parents, Mr. and Mrs. Thos. Hensley.

Two very interesting Christmas programs were given by the Methodist and Baptist chuches last Monday and Tuesday nights, respectfully. Large crowds attended despite the extremely cold weather.

D. R. Blythe, Wilford Rouse and Robert Maurer spent several days the past week in Green county quail hunting.

C. G. Lamb, of Morgan, Ky., a former teacher in the local school was in Burlington Friday and Saturday.

Judge J. M. Lassing is spending the holiday season with his family in Florida. Judge expects to return soon and resume his many duties here.

Leslie Voshell, of Richmond, Ky., is spending the holiday season with his parent, Mr. and Mrs. Frank Voshell.

D. C. Snyder and family, of Northside, Cincinnati, Ohio, spent Sunday with N. W. Carpenter and wife, of Burlington.

We are glad to report that Mr. Alvin Frank, of near Burlington, is improving from a three week's illness of pneumonia. Although his condition will not permit him to work he is able to be out.

Mr. and Mrs. Chas. Kelly and family spent Saturday with Mr. Galen Kelly, of Burlington.

Mr. Wm. Greenup and wife, of Union, spent the week with Mr. Greenup's parents, here.

William Phillips, of Lakeland, Ky., spent a few days with his family, of near Burlington.

Mr. and Mrs. J. R. Eddins and daughter Mrs. Myrtle Offutt, had as their guest Ida Houston, of Covington.

Russell Smith has been quite ill the past week.

Mrs. Bess Rouse and mother entertained Mr. and Mrs. L. Albeiz and Mr. and Mrs. Vick Resse, of Cincinnati, Sunday.

Fred Adams, mechanic at J. R. Eddins garage, and family, have moved to the house vacated by Lloyd Kelly and family.

Mr. and Mrs. Hubert Rouse and family entertained Mary Hedges, of Covington, Mr. and Mrs. Carl Rouse, Mr. and Mrs. Wilford Rouse and daughter, and Mr. Frank H. Rouse.

Rev. Cecil Tanner, of near Maysville, is spending the holidays with Mr. Ben Carpenter, of Florence.

Christmas Eve day guests of Mr. and Mrs. Clint Weaver were Mr. and Mrs. L. C. Weaver and son.

Elijah Stephens, rural letter carrier No. 1, was among the many victims of minor auto accidents caused by the slippery roads, Tuesday morning.

Mr. and Mrs. Harold Bentham, of Baltimore, Md., are spending the holidays with her parents, Mr. and Mrs. C. O. Hempfling, of Taylorsport.

Mrs. Geo. A. Porter, local telephone operator, has had a light case of tonsilitis.

Miss Mayme Hawes entertained Mr. Ed. Hawes and family, Xmas day.

Clarence Mitchell, of near Burlington, was in town Tuesday.

The State road employees have been quite busy the past several days clearing the streets and highways of the tremendous snow piles.

Mr. and Mrs. Mark Cook entertained Mr. and Mrs. Sam Ryle and son Jimmie, Mr. and Mrs. Howard Ryle, and Mr. and Mrs. Geo. Cook with dinner, Sunday.

Mr. and Mrs. Claude Greenup spent Christmas day with Mr. and Mrs. J. B. Walton.

Bailey Greenup, an employee at Central State Hospital, Lakeland, Ky., spent several days during the holidays with his family here.

Mr. and Mrs. Courtney Kelly and family spent Thursday with Mr. Kelly's parents, Mr. and Mrs. Chas. Kelly, near Locust Grove.

Mr. and Mrs. Sam Pettit entertained their children and grandchildren with a homecoming Xmas day.

Mrs. Vina Horton is spending a few days with Mr. and Mrs. W. A. Pettit and family.

Miss Pauline Holbrook entertained quite a number of friends with a party New Years Eve night.

Mr. and Mrs. Elbert Clore and family entertained Mr. and Mrs. Claude Greenup Sunday.

Born to the wife of Mr. Ira Long, of near Limaburg, a girl one day last week.

Mr. and Mrs. Ed. Anderson, of Hebron-Limaburg road, entertained their children and grandchildren Christmas day.

Mr. and Mrs. Galen Kelly, Miss Ruth Kelly, Mrs. Herbert Snyder and Harold Kelly Clore were in the city Monday.

The local saw mill is going at full capacity. Logs are being hauled from all parts of the county.

Quite a number of people are coming to the county seat buying new auto license and paying taxes.

Judge N. E. Riddell spent a few days in Louisville, last week.

Mr. and Mrs. Lloyd Kelly, who formerly resided East on Washington street, have moved to the late Nettie Hughes property, just south of Gulley & Pettit's store, which is now owned by J. B. Arvin.

Christmas day dinner guests of Mr. and Mrs. W. P. Beemon and family were Mrs. Lloyd Weaver, Albert Wm. Weaver, J. P. Duncan, Dr. and Mrs. Lawson and W. H. Ward.

Mr. and Mrs. Oakley Ketchum, who were married Saturday afternoon were given a shower by their many friends at the home of Mrs. Ketchum's parents, Mr and Mrs. Ezra McClure, Monday evening.

The heaviest snow since the winter of 1917-18 fell during Christmas week. The heavy snow combined with a hard wind and sub-zero weather has made it very unpleasant to those whose work necessites their being out.

Mrs. Bessie Stephens, of Union, spent Christmas day with Mr. and Mrs. Clifford Jones and family.

Mrs. Lillian Webster and little son Paul Alvin, of Vanceburg, Ky., spent Monday and Tuesday with Mr. and Mrs. Elmer Kirkpatrick.

Mr. and Mrs. Earl Copper are spending the holidays with his mother, Mrs. Lorena Cropper.

New Year's Eve guests of Mr. and Mrs. W. B. Cotton and family were Mr. and Mrs. A. J. Ogden and family.

IMMEDIATE RETURNS OF SEALS ASKED

R. V. Lents, R. D. 2, Ludlow, Ky., Chairman of the Christmas Seal sale of Boone county urges citizens and schools to make immediate returns on Christmas seals sent them. It i believed the sales this year will establish a record for Boone county.

Money derived through the sale of the seals is used for combating tuberculosis and providing medical treatment to the needy. Persons receiving the seals are requested to make returns to Mr. Lents.

THANKS

The Kentucky Tuberculosis Association and its Boone county chairman, R. V. Lents wish to thank each and every person who took part in the sale of the Christmas Seals, the schools for their hearty cooperation, the people who bought them, and the Boone County Recorder and the Walton Advertiser for the publicity given the sale.

Lewis Poole, the small son of Mr. and Mrs. Raymond Poole, has greatly improved from a recent illness.

Miss Rosalea Shinkle spent Tuesday with Miss Louise Rice.

Mr. and Mrs. Roy Butler and son spent Xmas day with Mr. and Mrs. James Rice.

Corrine and Bobby Lea Walton spent several days last week with their father Geo. Walton, Jr.

Mr. and Mrs. Noel Walton are receiving congratulations over the arrival of a fine son—born Saturday night, Dec. 28th.

Rev. and Mrs. Roy Black, Rev. and Mrs. Harold Black, were Sunday guests of Kite-Purdy family.

Mr. and Mrs. Met Kelly were Sunday guests of Mr. and Mrs. Ernest Brown.

Mr. and Mrs. Kelton Kelly are visiting with her parents, Mr. and Mrs. C. E. Bates, of Louisville.

Bud Burcham was the week-end guest of the Clore boys.

Alton Buckler, of Bellevicw, is helping Kite & Purdy strip tobacco.

Mrs. Lutie Clore called on Mrs. Ray Williamson Saturday afternoon.

AMONG THE COUNTY AGENTS

A large carry-over of lespedeza seed from last year will keep Henderson county's 25,000-pound 1935 crop from being inadequate.

Hamp Hensley of Harlan county produced 280 bushels of corn on 6½ acres, after liming and phosphat- the soil.

Garrard county homemakers are eliminating too large use of sweets from their meals, and using vegetables and milk instead.

Option has been procured on enough strawberry plants to serve 150 Ohio county farmers.

Demonstrations on cutting and curing pork, and canning meat, attracted approximately 150 Breckinridge county farm men and women.

E. T. Gaffin, of Nicholas county, is building a new colony house for his high-producing poultry flock.

The number of 4-H club members doing high type work was greater in Rowan county than in former years, reports the county farm agent.

During a revival of interest in cheese making, six Franklin county homemakers made 200 lbs., last month.

S. R. Reeves of Green county is getting a 50-bushel an acre yield of corn on land where lespedeza was turned under.

Lindsey Duncan of Oldham county had 200 tons alfalfa hay from a 40-acre field, and Forsee Long bailed 60 tons from 15 acres.

Henry county has been accredited as a T. B. free area in a dairy retest.

Posters, maps and scrapbooks are making the reading project interesting to Graves county homemakers.

KENTUCKY FARM NEWS

County-owned pressure cookers are being used full time in Simpson county, where homemakers are trying them for canning before buying cookers of their own. Advantages over the hot-water bath method are inducing many to buy.

J. F. Wilkinson, of the Indiana Nut Factory, Rockport, Ind., said at the nut show held at Bardwell that he had never seen better chestnuts than those grown in Carlisle county. Eighty-two exhibits of nuts were made.

It has paid S. E. Bierley, whose Lewis county farm is located on bottom land along the river, to fire-cure tobacco. A barn equipped with ridge ventilators and firecured has a crop worth approximately $10.00 per hundred more than a barn that receivd no firing, he estimates. Hitherto, four crops out of five have not been well cured.

Homemakers in Daviess county are canning many products, in order to save money to buy home equipment. With 129 women reporting, the canning record stands: 12,835 quarts of fruit, 9,377 quarts of vegetables, 2,559 quarts of meat, 4,188 quarts of preserves, 1,281 jars of jelly and 1,815 jars of pickles.

Three commercial hatcheries have cooperated in having poultry blood tested in Bath county, in order to raise the standard of the flocks from which they buy eggs. They pay a premium for eggs from purebred flocks.

Crop rotation and the live-at-home program has helped Christian county Negro farmer put three daughters thru high school. Advised by County Agent R. M. Story, he now has 33 acres of lespedeza, 12 acres of corn and two of alfalfa; he owns three cows, and has several hogs. Poultry and a garden completes his program.

HEBRON LUTHERAN CHURCH

Rev. H. M. Hauter, Pastor

Sunday, January 5, Bible School at 10:00 A. M. Morning Worship at 11:00 A. M. Subject of the Sermon, "The Keeper of Souls."

The Annual Congregational Meeting will be held at the church on Saturday, January 4, starting at 11:00 A. M.

HOPEFUL LUTHERAN CHURCH

Rev. H. M. Hauter, Pastor

Sunday, Jan. 5, Bible School at 10:00 A. M. Mr. John Surface, Supt.

Luther League Devotional Service at 8:00 P. M. Subject for discussion, "The Book of Ezekiel."

The Annual Congregational Meeting will be held at the church on Monday, Jan. 6, starting at 11:00 A. M.

The Ladies Aid will hold their regular weekly meeting on Tuesday, January 7.

SEEN and HEARD around the NATIONAL CAPITAL

By Carter Field

FAMOUS WASHINGTON CORRESPONDENT

Washington.—There is more unanimity—in private conversations among both Democrats and Republicans, New Dealers and reactionaries—that the silver policy of the United States government is weird than on any other controversial subject, probably.

There is not so much public criticism of it, for various reasons, mostly concerning the electoral votes of certain strategic western states.

But the truth is that no one explains it satisfactorily, probably because it is rather difficult for anyone to explain something he does not understand, and the only two persons credited with understanding the silver policy are President Roosevelt and Secretary of the Treasury Morgenthau. Neither of them does any talking, if one excepts the occasional retort of Morgenthau that he is "still buying silver" and is "carrying out the mandates of the silver law."

The most intelligent theory as to the actions of the administration runs something like this:

First, it was forced on the administration. Had it not been accepted, the probability is that congress would have rushed through some other inflation measure. It is not impossible that congress might have forced the use of printing press money to finance governmental needs, and pay the national debt, as many advocated.

Second, having accepted the silver law, the idea of a tremendous profit to the treasury developed in the minds of Roosevelt and Morgenthau. They had just made a profit in gold for the treasury of something like two billion, eight hundred million dollars. Incidentally six hundred million is still in the treasury, and two billion was converted into the famous but mysterious equalization fund, about which, like the silver policy, nobody knows anything except Roosevelt and Morgenthau, and they won't tell.

Profit Looked Good

So the idea of making a profit on silver of about two billion, to be made by buying and commandeering silver cheap, and revaluing it later—as gold was revalued—at a much higher price, was very appealing.

Up to this point, as a matter of fact, there is no doubt about the precise accuracy of what happened. Now comes the more nebulous part.

Having conceived the idea of a big profit, obviously the more cheaply silver could be bought, the greater the profit would be. So every now and then Morgenthau would act as though the silver buying policy had been abandoned. This always resulted in the price of silver falling, and from the standpoint of accumulating a lot of silver at a low price, everything was splendid. With the slight exception that the government has nearly always, since the policy started, paid more for newly mined silver produced in this country than the world price.

But as a result of his clever strategems to convince world silver holders that the price was not going to advance, the world gradually came to the conclusion that the whole silver price boosting objective of this government had vanished. So the world, believing the price of silver would fall as soon as the silver experimentations of the United States were concluded, began to dump silver.

With the result that if the United States tomorrow abandoned its whole silver policy (which it positively will not) the result would be a rather heavy loss to the treasury on its silver operations to date.

Whereas, if Morgenthau had complied with the spirit of the silver law, and kept up a brave front of forcing the price of silver up, the world would not be dumping silver now, but holding it for the alleged objective mentioned in the silver law—$1.29 an ounce.

Substitute for NRA

President Roosevelt is still convinced that there must be a substitute for NRA. Further, he is still convinced that an essential part of the advance program is to convince the American people that business cannot work out a satisfactory substitute—that it must be imposed by the government.

This is the status despite the obvious fiasco of Maj. George L. Berry's conference, which was far from satisfactory to the President, in that the major did not succeed to anything like the desired extent in simulating an impression of fairness.

No one inside the administration criticizes Major Berry's motives, nor his advance plan. There is a good deal of undercover criticism, however, of his lack of tact in handling the situation that developed.

Critics admit that they do not blame Berry for his frame of mind when the big meet was called to order. They know all about the preliminary meetings of groups of business men, the obvious desire of a great many industries to sabotage the whole movement, and the fact that many had actually come with more intention of stirring up trouble than of aiding in any conciliatory agreement or co-ordination of the various viewpoints.

So when several of the business representatives started the fireworks, they typified for Berry the spearhead of the whole force he was fighting against, and he lashed out.

It would have been much better, critics point out, had Berry restrained his feelings, and, after reminding the conference that nothing was on the agenda for this meeting but his outlining speech, then announced the meeting adjourned, but invited those who wished to talk to organize their own meeting and go ahead.

This would have left the business representatives who wanted to obstruct free to talk their heads off, but no particular harm to any administration objective would have been done.

Feared Speeches

Berry's own objection to this course was that speeches would be made at such a meeting, which might have "stolen the headlines" in the next day's papers. His critics admit this, but insist that the net result of the speeches would have been to show more conclusively than anything else could possibly have done the difficulty business representatives would have had in getting together.

Two courses are now open to the administration, and decision as to which will be followed will be made by Mr. Roosevelt himself.

One thing is absolutely essential to either course. The face of Major Berry must be saved. He is far too popular, especially with American Federation of Labor leaders, to permit of anything else.

One course would be to allow Major Berry to take all the letters he has had from business men of various shades of opinion, work them out, and finally produce a report recommending specific legislation for a substitute NRA.

Despite widespread objections to the whole idea of NRA on the part of many business man—especially since prices have begun to rise—plenty of justification could be produced in these letters in Major Berry's possession for such a course.

It is true that some of the letter writers have since changed their minds. A great many business men wanted some form of NRA restored while prices were still low. They wanted some form of government protection against chiselers. Now that prices are rising, the danger to their own selfish interests is not so frightening. So they would like to get rid of government interference and supervision, now that they no longer need, as they see it, its protection.

Hoover Vs. Borah

Will Herbert Hoover's strength at the Republican national convention be sufficient to stop William E. Borah's nomination if the Idaho Lion gets going good?

That question is being asked in many political circles, both Democratic and Republican, since the recent radio blast of the veteran lone wolf of the American house of lords. Particularly since, in preaching the "doctrine of plenty as against the doctrine of scarcity," he goes right to the heart of the problem which is the chief concern of every Republican anxious to get his own party in power, and to get Franklin D. Roosevelt out. To wit: the problem of what to offer the farm belt in place of the much denounced AAA farm benefits and processing taxes.

As a matter of fact, up until that speech, you could not find a Republican in Washington who really believed Senator Borah had a chance for the nomination. This was true despite the paucity of available timber for the G. O. P. nomination, and despite the fact that Borah has been running first in nearly every poll taken, beginning with that of Robert H. Lucas many months ago.

Borah was simply set aside for two reasons. One was his age. He will be seventy-one on June 29, next, just after the convention adjourns. The other was the strong group of individuals high in Republican ranks who object vigorously to his nomination.

Herbert Hoover is in a way the head and front of this group, but it is very large, and important. The opposition of those composing it is based on two things. Borah's political and economic philosophy, and what they call his "undependability."

A very prominent magazine editor has told many Republican leaders of his own negotiations with Borah for a long series of articles. The fees for the articles were to be huge. There was no limitation on what he could say—no attempt to dictate policies. Borah, the editor says, was frankly attracted by the money and the opportunity to reach such a large audience so easily. But he reluctantly declined the offer.

His explanation is the whole point. One article might be all right. Two might be right. But over such a period of time as was involved, he was likely to change his views so radically that the later articles might contradict the earlier!

It is this, rather than Borah's political philosophy, which today causes most of the opposition on the part of Republican leaders to Borah. It so happens that many of them would swallow his economic views without gagging if they could depend upon him, once in power—on the theory that anything would be worth trying to be sure of throwing Roosevelt out.

Copyright.—WNU Service.

HEBRON

Rev. Hauter called on Mr. and Mrs. W. T. McGlasson Thursday afternoon of last week.

Mr. Chester Anderson and Mrs. Myrtle Hill, of Harrison, Ohio, Mr. and Mrs. Frank Anderson and daughter, of Owingsville, Ky., and Mr. and Mrs. Bill Anderson spent Xmas day with Mr. and Mrs. Homer Anderson and daughter.

Mr. and Mrs. Clifford Tanner and son Earl and Mr. and Mrs. Jas. Tanner and family spent Wednesday with Mrs. Belle Tanner, of Taylorsport.

Miss Wilma Whitaker spent Saturday night and Sunday with Miss Evelyn Aylor.

Emmett Carroll and Melvin Jeryl Moore of Louisville, spent several days last week with their grandparents, Mr. and Mrs. Emmett Kilgur.

BELLEVIEW

The river is full of ice here.

There is quite a lot of sickness in this community.

Glad to report C. E. McNeely improving, also little Evelyn Anne Rogers, who has been very ill for several weeks.

James Lee McNeely who is attending school at Bowling Green, is home for the holidays.

The Xmas program at the Baptist church Tuesday evening was enjoyed by a large crowd.

Rev. Raymond Smith visited friends near Lexington during the past week.

Mr. and Mrs. James R. Huey spent their holiday vacation with Mrs. Huey's parents at Bowling Green.

Mr. and Mrs. Chancey Jacobs, of Owenton, are visiting Mr. and Mrs. Forest Brown and family.

Mr. and Mrs. C. R. Kite and family entertained Mr. and Mrs. John Maurer, Rev. mith and Mrs. Margaret Feldhaus at dinner Christmas day.

Mrs. Josie Maurer, of Burlington, is visiting her sister, Mrs. William Rogers.

James Ball, who has employment in Cincinnati, was home for the week-end.

The members of the Eastern Star Lodge held an all day meeting at the hall Saturday.

Mr. and Mrs. Alton Buckler returned last week from Platte City, Mo., where they spent several months.

C. R. Kite and sister, Mrs. Margaret Feldhaus and Mr. and Mrs. Chas. Brown were dinner guests Sunday of Mr. and Mrs. Richard Marshall.

Mrs. C. R. Kite is confined to her home with a severe cold.

Mr. and Mrs. Pepper Smith wish to extend through the Recorder their thanks and appreciation for the nice Xmas cards, good things to eat and everything that has been done for them during the holidys and while they are shut in because of illness.

Mr. and Mrs. Luther Smith and son spent Sunday with Mr. and Mrs. John Maurer.

Mr. and Mrs. Robt. Rice entertained with a turkey dinner Sunday to the following guests: Mr. and Mrs. Elmer Rice and Miss Marietta Harding, of Newport, Orville Rice and family, Mrs. Bernard Sebree and Mr. and Mr. and Mrs. Forest Boown.

Dona Gertrudis Peregrino of La Linea, Spain, is 100 years old, dances intricate "sevillanas," sews without glasses, and insists on high-heeled shoes.

POINT PLEASANT

Miss Lucille Beil is spending several weeks with her uncle Harvey Bell and wife and little son at Crescent Springs.

Mr. and Mrs. Jake Long are entertaining a new daughter at their home, near Limaburg.

Sorry to report that Mr. Herman Blaker is very low at this writing.

Dexter Carder and daughter attended the funeral of his uncle, Harrison Carder, who died at Hebron. The funeral was held at the St. Paul church at Florence on December 26th.

Chas. Carlisle, of Walton, was delivering oil in this neighborhood Monday.

John Beil wife and children spent Sunday afternoon with his brother Harvey and wife at Crescent Sp gs.

Mr. and Mrs. Russel Jackson, of Sand Run, took supper with J. S. Eggleston and wife Monday, Dec. 23.

Elnora Riddle and son J. D., entertained Xmas day her parents, J. S. Eggleston and wife and Charlie Lucas.

Geo. Darby and children entertained friends Xmas day om Aurora, Ind.

HAMILTON

The weather man did his best to help make an old fashioned Xmas here, which was enjoyed by all.

Mrs. Lillie Huff was the guest of her uncle and aunts, James Taylor and sister, Friday and Saturday.

Garland Huff and wife entertained with Xmas dinner in honor of their parents. The guests were Mr. and Mrs. Sebree and daughter Alberta, Mr. and Mrs. Tho. Huff and Geo. W. Stephens, of Cincinnati.

The river at Hamilton has a lot of ice in it, with plenty of shore ice formed on its banks.

Geo. W. Stephens, of Cincinnati, is the guest of his sister Mrs. Tom Huff during the holidays.

This correspondent wishes the editors of the Recorder and all its readers a Happy and Prosperous New Year.

Caught milking a neighbor's cow, Charles West of Burnham, Ill., was fined for theft.

Shot in the mouth, August Miguel, 16, of Gloucester, Mass., spit out the bullet and three teeth. Physicians said the teeth knocked out by the bullet probably saved his life.

TO TAKE MYSTERY OUT OF BANKING

By ROBERT V. FLEMING,
President American Bankers Association

The American Bankers Association has cooperated wherever it could properly do so in every measure for national recovery. It has offered constructive recommendations for such changes in banking laws as we recognized were necessary, and we now have a better law under which to operate. The Banking Act of 1935 affords us opportunities for broader service and, at the same time, retains the fundamentals which we believe are so vital to our national welfare and which have played a large part in bringing our country, in a comparatively short space of time, to the position of the greatest industrial nation on the earth.

R. V. FLEMING

The Public and Banking

It is necessary that the public have a thorough understanding of the functions of banks, what they can do and what they cannot do, for it must be recognized that to many people the business of banking is still somewhat of a mystery.

We should frankly explain these functions to the public, acquaint them with the laws under which we operate and emphasize the vital part which banks play in the economic life of the Nation. Therefore, in order that there may be the fullest cooperation and understanding between the bank and the people of the country, it will also be one of our objectives to take the mystery out of banking wherever it exists in the public mind.

Banking Conferences

A series of Regional Conferences on Banking Service will be held in strategic sections of the country, embracing all types of banking. The new banking laws and the regulations issued thereunder will be carefully analyzed so that our bankers will have a thorough understanding of the broadened services now made possible.

The question of public relations and how we can best serve the people of our communities will be another topic of discussion. Clinics or forums on specific questions of interest to bankers and the problems confronting them in their particular localities will also be included in these conferences.

PUBLIC ATTITUDE HELPS THE BANKS

Annual Bankers Convention Says People Have Had Confidence Restored—Recommends Changed Government Policy

The restoration of public confidence in banking has put it in the position where it can function fully and vigorously in playing its full economic part in the progress of recovery, said the American Bankers Association in its annual convention resolutions.

"The passage of a generally constructive banking law in the Banking Act of 1935 has stabilized the banking situation and enabled bankers to devote undivided attention to the normal administration of their institutions in promoting the business and public welfare of their communities," the resolutions said.

"We feel that it is a particularly important feature of this law that it aims to create through the revision of the Federal Reserve Board a Supreme Court of Finance which, with the nonpolitical appointment of exceptionally competent men, should constitute one of the greatest forward steps in building a sound banking and credit system for this country."

The Government in Banking

Another resolution said:

"We particularly emphasize the desirability of the retirement of government from those fields of extending credits of various types which can be adequately served by privately owned institutions. We recognize that the exigencies of the now passing depression made necessary a large participation by government for a time in the task of meeting the public's emergency financial needs.

"Those conditions have been largely remedied and the obligation now rests upon the banks and other financial agencies to demonstrate to the people of this country that they are fully able and willing to meet all demands upon them for sound credit cooperation. It is our duty as bankers to facilitate in every effective way the retirement of government agencies from credit activities by promoting public understanding of the proper function of privately owned banking."

ACCURATE RECORDS

The keeping of accurate records constitutes an essential part of any successful business management, whether manufacturing, merchandising or farming. It is quite generally conceded that any good business concern keeps adequate records, and this procedure is equally important in the business of farming, declares the Bulletin of the American Bankers Association Agricultural Commission.

GASBURG

Mrs. Harry Bayer and sons Harry, Jr., and Billy, spent the Xmas holidays with her daughter Mrs. Fred Soupe, of Cincinnati.

Mr. and Mrs. Hugh Baker called on Mr. and Mrs. Stanley Smith one evening last week.

Mr. and Mrs. John Burns, Miss Sarah Lucille Smith and Mr. Harry Bayer, were shopping in Aurora, Xmas eve.

Mr. and Mrs. Jacob Nixon were shopping in Aurora Monday.

Gasburg was quite cold during the holidays—the coldest report was 14 degrees below zero. This is cold enough.

Geo. Batchelor spent last Sunday with Mr. and Mrs. W. O. Rector.

Walton Rice spent the week-end with Aylor Bros.

Russell and John Harold Cook are sporting a new Dodge Sedan.

Mr. and Mrs. John Klopp, Miss Gladys Klopp and Mr. Steve Karhoff dined with the W. B. Arnold's Xmas day.

Mrs. Andy Cook spent Tuesday with her grandchildren while their parents, Mr. and Mrs. Frank Biddle were shopping in Covington.

The Aurora Ferry is forced to quit running on account of ice in the river.

Russell Cook is suffering from an infected jaw caused by having a wisdom tooth pulled.

Hugh Baker is the last in this neighborhood to butcher hogs.

Mr. and Mrs. Ivan Walston and family passed thru here Sunday on their way to visit relatives in Petersburg.

Miss Mary Rector spent Tuesday afternoon of last week with Mrs. Stanley Smith.

Jack Staggs, of Okmulgee, Okla., gave a worthless check for a marriage license, another for a taxi to the court house, and still another to the justice of the peace. On top of that he is charged with bigamy.

Queenie, a running dog turned and ran back to save her crippled master, Fred Hankins, of Ash Grove, Ill., when he called for help, and died with him beneath the wheels of the train.

Blood poisoning, which physicians said resulted from a cut inflicted when his false teeth accidentally lodged in his throat while he was asleep, caused the death of David Neol, of Chicago.

RABBIT HASH

Several Xmas dinners were served in spite of the snow and wind.

The river is now full of ice.

Services were held at the Baptist church Saturday eve.

The Ladies Aid met at the home of Mrs. F. L. Scott's Dec. 12th. All enjoyed the day making rugs. We were glad to have Mrs. Mary Williamson with us. The next meeting will be with Mrs. B. W. Clore on the second Thursday in Jan.

We of this community were very sorry to hear of the death of Mr. Leslie Wingate. His widow and children have our sympathy.

Wallice Stephens is very poorly at the home of his brother Mr. Joe Stephens.

Several folks are on the sick list.

Friday several folks gathered at the home of Dr. Shallenberger's to spend the evening. Several presents were given.

Joe Hodges and family and Willford Hodges, son of Robert Hodges, all spent Xmas in Indianapolis, Ind., guests of Mrs. Hodges sister, Mrs. Joe Riggs and family. They also visited other relatives while there.

Martin Williamson is driving a new car. He and Cliff Stephens and Miss Elizabeth Craig spent Friday evening with Miss Pauline Aylor.

Take Your Choice
$19.91 or $22.79
? ? ?

During the week before Christmas, the last week in which tobacco auctions have been conducted, all markets in the burley belt sold nearly 46,000,000 pounds of tobacco.

Of this amount, the markets outside of Lexington sold 36,600,000 pounds for an average of $19.91.

But Lexington sold 5,380,000 pounds, or more than 20 per cent of all the tobacco sold during that period, for an average of $22.79.

And during the week Lexington drew tobacco from every single section of the burley belt—it had to sell 20 per cent of all that was disposed of. Lexington's tobacco during the week came not only from all sections of Kentucky, but from all other burley states as well, including not just a few, but actually HUNDREDS of crops from Kansas, Missouri, Indiana, Ohio and Tennessee.

And while Lexington sold tobacco from ALL sections of the burley belt, it still was able to average EXACTLY $2.88 A HUNDRED MORE than did the other markets selling the same kind of tobacco.

Which would you rather have for your crop—the price you will get on some other market, or the EXTRA $2.88 that hundreds of growers who sold in Lexington received? Just figure what that EXTRA $2.88 a hundred would mean on your crop, and there you will have the answer.

Lexington's 24 big warehouses have room for 20,000,000 pounds of tobacco under roof now. So get the most money from your crop this season by selling it in Lexington, the market that has proven it sells $2.88 a hundred higher than all the rest. You have a neighbor who has sold in Lexington—just ask him.

LEXINGTON TOBACCO WAREHOUSE ASS'N.

LEXINGTON, KY.

Listen to station WLAP, Lexington, 1420 kilocycles, every night except Sunday ata 7:30 for reports from the Lexington tobacco market—LARGEST IN THE BELT BECAUSE IT IS THE BIGGEST IN THE BELT.

Homarus Americanus

By CAP'N TRUMAN ORDIORNE

© McClure Newspaper Syndicate. WNU Service.

BENT SAUNDERS chugs into Skulpin Cove in his lobster boat, puts his day's catch aboard the skiff and skulls ashore. A stranger at the landing hails him. "I say, captain, I would like a half dozen or so of your legal size Homarus Americanus."

Bent straightens up and growls: "What in 'ell you drivin' at?"

"I said I wished to purchase a half dozen Homarus Americanus. I presume you refer to them as lobsters."

"All engaged. None to spare," Bent tells him.

When he gets home he asks his daughter what Homarus Americanus has got to do with lobsters. She tells him it's Latin.

Sixty miles we will go to a big city where live Lydia Hawkins and her widowed mother. Cap'n Abel Hawkins, an old coastwise skipper, had left his wife and daughter comfortably well off. We find Lydia, at twenty-five, a teacher of French in the high school.

For a year she had been running around with a young man named Knowles. He drew a fair to middling salary with a big hardware concern, and had kept an eye on the stock market. He had run a shoestring into a bank roll and was some ten grand to the good. So he and Lydia plan to wed the next June.

Apple blossom time comes along and grassy June is just over the horizon. Then one evening A. Benton calls.

"Lydia," he said, "I have lost every dollar I had in the world and this morning I was given a month's notice at the office. I give you back your promise. I can't marry you now."

Lydia Hawkins liked A. Benton for himself and didn't have the slightest idea of heaving him over just because he'd gone broke.

"Bent Knowles, you damn' lobster! You're squealin' like a stuck pig. Where in h—l are your guts?"

"No woman can talk to me like that," he tells her. "I thought you were a lady." He steps to the hall, grabs his hat and is gone.

A. Benton goes home to his room, sits him down and considers. It was all off so far as Lydia Hawkins was concerned. He had heard that skipper Abel had been a hard swearing, hard driving master, and Lydia, in spite of her college training, was likely to break out in the mouth any time things didn't go to suit her. Next day he boards a bus and turns up at his Uncle Benton Saunders' cottage at Skulpin Cove. After a good lobster supper, pipes going, A. Benton tells Uncle Bent his troubles.

"Benton," he says, "do you think you can haul a lobster pot? We'll rig forty more pots and I'll let you in on shares."

Lydia Hawkins misses A. Benton and is sorry she lit on him so hard. She waits and waits but no word comes from him. In the meantime, she runs afoul of Prof. Alvin Barstow, who teaches Latin. One night he asks her to marry him. There is a lot about the professor that she likes. So she tells him that she needs time to think the matter over. But all the time she's hoping to hear from A. Benton.

Professor Barstow invites Lydia to go for a day's outing to a place down on the North Shore called Skulpin Cove. There they can procure some Homarus Americanus fresh from the sea.

One morning they make an early trip to Skulpin Cove.

"What a day," says Lydia. "We've got to go fishing!"

She hires a dory and drops her kelek outside of the breakers on Raggy Neck. They have luck. They've got half a dozen good sized rocklings when Lydia notes the professor turning a mite green round the gills.

Lydia makes a move to haul in the grab and row ashore with the professor when she sees she has anchored in too close to the point. Just then a motherly old sea curls over, the dory capsizes and Lydia and the professor are hove out.

The dory is bottom up but the grab holds. Lydia holds the professor by the collar, swims the few strokes to the dory, and hangs on. She has seen a fisherman in a power boat headed for the capsized dory, driving hard. He shuts off, reverses to a standstill, and helps the girl and the professor aboard.

As Lydia straightens up she says: "Gosh, Bent, your old boat stinks like h—l!" Then she wraps her bedraggled self around that fisherman and sobs for joy.

Bent Saunders, working in his fish house, sees them coming up from the landing. "Well, I'll be dod-diggered!" says Bent. "It's old Homarus Americanus!"

They dump the professor into his car. Bent takes the wheel and streaks it for his house. He strips the professor, wraps him in blankets and telephones for old Doc White.

A. Benton and Lydia come home in Bent's truck. What talk they have is not set down.

Professor Barstow and Lydia Hawkins drive back to the city next afternoon. He leaves her at her door and drives away without a word. He never calls again.

That evening, tobacco burning free, A. Benton tells Uncle Saunders the story. "She's got the right stuff in her," Saunders tells A. Benton. "Don't let her git away ag'n."

There are more matches made and mended along shore with the aid of salt water than are made and mended at country clubs with the aid of gin.

Public Enemy

By P. M. VAN SLYCK

© McClure Newspaper Syndicate. WNU Service.

THE shooting was over. The bullet-torn body had been removed to the morgue. The killer was dead.

"And a lucky break for us," young Dick Norby of the Star said jubilantly to his companion, Steve Carney of the News.

"Yea—for us," agreed Steve wearily. "Come on, let's leg it over to Nick's for a snifter. I could stand one."

With the drinks before them on the scarred table top, the younger man lifted his reflectively. "You're a lucky mug," he said with good-natured envy. "How'd you happen to be sitting in this dump when the cops plugged the killer? Have a tip off?"

"Nope. Just killing off time. Matter of fact, I had a date."

"A woman, huh?" Young Norby winked knowingly. "Funny, isn't it, what a chap'll do for a dame? Our late friend got his on account of a date with a skirt."

"That's what I heard."

"I'll say one thing for him," Dick offered, "he never shot a man in the back; he always gave him a break."

"So what?"

"Well,"—apologetically—"y'know, I haven't been at this game as long as you have. Kind 'a gave me a shock to see him laid out on the slab. Not a bad looking egg, was he, ever mug him before today?"

"Him? Outside of pictures, I'd never seen that face before in my life," Steve answered. "Have another?"

"No, thanks. Got to be going." He rose. "Just the same, it's tough to be knocked off that way: no warning—nothing."

"Maybe. Maybe not. Worse things can happen to a man than getting rubbed out, Norby."

Alone, Steve Carney sat in moody silence. At this early hour the place was almost deserted. Cold sober he felt, depressed. He poured himself a drink.

He was getting old, soft. Yes, that must be it. This shooting now—it had got on his nerves. In fancy he again heard the muffled fusillade, the taut silence which followed. Then a pounding of many feet along the street outside, and he had bounded from this very room to follow, his every sense alert. A crumpled figure lay on the sidewalk. Dead. An unfamiliar face stared up at him. Flash news. Headlines. And his story had gone in first. But it had got him, this violent death. Rudely it pierced his callous indifference to life and death.

So he gave Norby a pain, did he? Just a thick hided ex-doughboy, was he? H—l, what did Dick know about it? A swell kid, Dick, but young. To him, the war was at once a glamorous crusade out of the past and a mercenary venture to be made light of.

Steve's eyes held a far-away look. The years rolled back.

Death. He'd laughed at it that slate gray day off the Irish coast when the troop ship, torpedoed, reared itself in mortal agony and plunged, bow down into a hungry sea. Clinging with him to a raft, the Jolsey kid caught his eye and grinned back. There was a guy, the kid! Game.

A brooding look softened Steve's tired face.

And glamour. There had been little enough of glamour in that shell-torn night fifteen—no, sixteen years ago. Or was it seventeen? Never mind.

The very air mouldy with death. Crouching, crawling, now lying flat against the broken, gas tinged ground, the raiding party advanced.

Then, sudden contact with the enemy! A flash of steel through eerie darkness. Beside him, the kid slumped down. His own gun spoke.

A dirty hand-to-hand fight it was while it lasted. Then it was over. Sweating, cursing, he somehow managed to get the unconscious kid back to their lines.

The bayonet wound was bad. On the way back he'd taken a slug in the head. A corpse, Steve thought bitterly, looking down at him with hopeless eyes.

But the kid was tough. Miraculously he pulled through, and in time rejoined the outfit. The same, he was, and yet different. His head still bothered him at times, he said.

At Camp Merritt they parted. The kid's last words were: "I'll be seein' y'u th' foist chance I get. I ain't fergot th' night y'u pulled me outa that mess. You'n this ring I got to t'ank Steve."

And for the hundredth time he held out his finger with its ring; his talisman, his most prized possession. Steve had never seen another one just like it.

Yes, they'd planned to meet again. But he'd moved, lost track of the kid. Life itself moved on. And yet, he'd thought, some day. . . .

His reverie was interrupted by Nick. "Swell story you wrote on the killer," he complimented. "Pretty smart, he was. That plastic surgeon sure fixed his mug up so's his own mother wouldn't know him."

A pause. Then, curiously:

"Funny ring you got there, Mr. Carney. Don't know's I ever saw one like it before. Yours?"

"It's mine now. It belonged," Steve explained slowly, "to a kid I used to know. He phoned me to meet him here today."

"And he never showed up?"

"No. He tried to, but he couldn't—quite—make it."

Pets Shun Camphor

The odor of camphor is disagreeable to cats and dogs.

ESTABLISHED 1875

VOLUME 60 | BURLINGTON, KENTUCKY THURSDAY, JANUARY 9, 1936 | NUMBER 44

STATE FARMER SECTION

ADDED AS SPECIAL FEATURE FOR OUR RURAL SUBSCRIBERS

As Section Two of this issue of The Recorder, we present in full rotogravure, a new editorial feature—The State Farmer Section, an agricultural supplement dedicated to the development of the farming interests of this community.

In addition to a wealth of agricultural information our monthly rotogravure feature carries two full pages of pictures, a two-page section devoted to the interests of our women readers and a special feature page.

The agricultural pages of this issue deal with the subjects of poultry, livestock, tobacco, cotton and outline detailed steps in a soil erosion prevention program.

Activities of our 4-H Clubs and Future Farmers are given proper attention. National farm news is briefly reviewed.

Of interest to any tobacco grower is the outstanding article by R. H. Milton, of the University of Tennessee.

Every parent of a boy or girl reaching college age will read with sympathetic interest, the cooperative housekeeping story on page six of our State Farmer Section.

Our women readers will find much of interest and value in the homemaker's section, particularly the style revue presented on page seven.

The Recorder takes great pride in presenting this rotogravure section as an added service of this publication for our readers.

PROMINENT LADY

PASSES AWAY AFTER SHORT ILLINESS AT AGE OF 54 YEARS —ENTIRE LIFE SPENT IN BOONE COUNTY.

Mrs. Bessie Smith, aged 54 years, a life-long resident of Boone county passed away after a short illness of pneumonia Friday, January 3, at 7:00 a. m.

Mrs. Smith was a member of the Belleview Baptist Church at an early age and later moved her membership to Petersburg Baptist Church, where she remained in the faithful service of her Lord until death. She was married to Henry Smith Nov. 8, 1899, and to this union three children were born, Sarah Lucille, Stanley Rue and Mrs. John Burns. Her husband preceded her to the grave ten years ago.

She is survived by her three children, three sisters, Mrs. John Ryle, Mrs. A. O. Rouse and Mr. Lydia Wingate, three brother, Mr. Chas. Rue, Irvin Rue, both of Norwood, and Geo. Rue, of Hooven, Ohio, five grandchildren and many other relatives and friends.

Funeral services were conducted at the Petesburg Baptist Church Sunday, January 5, at 1:00 p. m. by Rev. Dunnaway. After short services at the church interment followed at the Belleview cemetery.

Steir and Williams, of Aurora, were in charge of the funeral arrangements.

Willis Berkshire, electrical contractor of Walton, was a business caller at our office Monday. Mr. Berkshire has been doing electrical and plumbing work throughout Boone county for a number of years and is known for his competent work. Notice his ad. on another page of this issue.

TAX PROBLEMS

DISCUSSED AT UTOPIIA MEETING. DISCUSSIONS LED BY JOHN E. CRIGLER, FORMER PRESIDENT OF THE CLUB.

Boone County's tax problems and their relations to adjoining counties were discussed capably by Wilton Stephens, Boone County Tax Commissioner, at the regular Utopia Club meeting held at Burlington. Mr. Stephens pointed out the values of property for taxes in the various counties and their relative advantages and disadvantages to Boone county.

Group discussions of farm problefs was led by John E. Crigler, former president of the Utopia Club. Thirty members were present at the meeting.

FLORENCE AND BURLINGTON TO TANGLE ON HARDWOOD

The local fans will have an opportunity of seeing the Florence boys and girls perform against the Tomcats and Kittens at the Burlington gym Friday night. Rivalry, though friendly, is always intense between these teams.

Two good games will give lovers of the sport good returns for their time and money. These contests mark the beginning of basketball, after the holidays for the local school. The games will start at 7:15 promptly, Burlington time.

POULTRY SCHOOL

TO BE HELD AT BURLINGTON COURTHOUSE, FRIDAY, JANUARY 17. SCHOOL TO BE OF SPECIAL INTEREST TO POULTRYMEN.

The Annual Boone County poultry school will be held at Burlington Courthouse, Friday, January 17th, according to H. R. Forkner, County Agent.

The school this year will be of special interest to all poultrymen. Special discussion on factors affecting the hatchability of eggs, growth and maturity of young birds, disease control and factors affecting higher egg production will be discussed.

Speakers on the program include Prof. Jim Humphrey, poultry field agent from the College of Agriculture, William Insko, research worker in poultry husbandry and Dr. T. P. Polk, field veterinarian from the College of Agriculture and leading poultrymen.

The school is for the benefit of all poultrymen of the county and all who are interested are invited to attend. The meeting will begin at 9:30 a. m. and close at 3:00 p. m.

NON-TRICK POLL GIVES PRESIDENT 2-TO-1 LEAD

A poll by Drew Pearson and Robert S. Allen, Washington newspapermen conducting the Washington Merry-Go-Round column in many newspapers, shows President Roosevelt leading, the percentage favoring him being 69.7.

Instead of the trick question used by the Literary Digest: "Do you now approve the acts and policies of the New Deal to date?" the Washington Merry-Go-Round poll simply asks: "Should President Roosevelt be reelected?"

Messrs. Pearson and Allen state that 32.3 per cent of those voting for Roosevelt disapprove of one or more of the President's policies, but believe he should be re-elected.

REV. W. T. SPEARS

Rev. W. T. Spears passed away Wednesday, January 1, 1:00 p. m. at the age of 87 years, 5 months and 18 days.

Mr. Spears had been in feeble health for some time. He developed pneumonia and lived only a few days thereafter. He leaves his widow, Mrs. May Norman Spears, and a host of friends to mourn his passing on.

Funeral services were conducted from the Union Presbyterian Church Friday morning at 10:00 a. m., by Rev. W. H. Hopper, of Louisville, who paid homeage to his, Rev. Spear's christian life, after which his remains were laid to rest in the Rice cemetery. Pall bearers were: Chas. Chambers, Watson Rachal, C. N. Bristow, Wm. Smith, Wood Roberts, Tom Huey, and Dick Black. Chambers and Grubbs were in charge of the funeral arrangements.

MRS. NANNIE GAINES

Mrs. Nannie E. Gaines, widow of the late B. R. Gaines, passed away Sunday evening following a few days illness from pneumonia at the age of 87 years, and 12 days at her home in Petersburg.

Funeral service was conducted from her late home in Petersburg Tuesday at 2:00 p. m. by her pastor, Rev. Don Walker in the presence of her loved ones and friends. She leaves one sister, Mrs. Woodward, of California, three nephews and one neice to mourn her going. The remains were laid to rest in the family lot at the Petersburg cemetery.

Pall bearers were: Eugene Berkshire, J. B. Berkshire, Ed Stott, L. S. Chambers, Estin Snyder, and E. B. Terrill. The Chambers and Grubbs estabishment were in charge of the funeral arrangements.

FISCAL COURT

MEETS FOR FIRST SESSION OF THE NEW YEAR. COUNTY AGENT APPOINTED FOR ANOTHER YEAR.

The Fiscal Court was in session Tuesday, only routine busines was before the court. H. R. Forkner was employed for 1936 as our Agricultural Agent. Mr. Forkner submitted his annual report showing that a large amount of business transacted through his office. He has made Boone county a high class agent and the court appreciated his efforts by reemploying him without a dissenting vote. The county assisted in keeping the relief office open by the employment of Mrs. Elizabeth Hensley Mill until February 1st.

A number of claims for sheep killed and injured by dogs were presented to the court. Upon investigation it was found that the claims presented were greatly in excess of the assessed value of the sheep killed and injured. The court decided that all claims for damage for sheep killed and injured must not exceed the assessed value except during the months of December, January, February and March when an additional allowance may be made on account of the lambing season. Claims on the sheep fund have far exceeded the income to that fund.

The will of John W. Early, Petersburg, Mrs. Charles Finnell, Walton, Mrs. Lyda Newman, Union, and Rev. J. S. Spears, Union were probated in the County Court.

Monday, the commissioners in the condemnation proceeding, seeking to condemn land in Constance belonging to John Dolwick and Robert S. Hood, filed their reports, which will be finally passed upon in ten days. This way made necessary in order to make the junction of the Hebron-Contance road and the Consance-Taylorsport road, wider and safer for public travel. It is expected that the order for the contractor on that road to begin work will be issued in a short time.

AMATEUR CONTEST

Time for which entries may be received for the amateur contest which is being sponsored by the Florence P. T. A. at the Florence school building on January 23 has been extended for one week, making Friday, January 17,the last day in which applications will be received.

This contest presents to the amateurs of Boone County who have any entertaining ability a golden oportunity to further steps along this same line that will bring both fame and fortune. Each and every amateur owes it to himself to enter this contest. All amateurs who are anticipating entering the contest should make applications on or before the above mentioned date.

CONSTANCE P. T. A. NOTES

The regular meeting of the Constance P. T. A. will be held Wednesday, January 15th at 2:30 Members and visitors are cordially invited to attend.

GOOD RECORDS

MADE BY BOONE COUNTY POULTRYMEN FOR THE PAST MONTH. BOONE COUNTY HAS DECIDED ADVANTAGE IN POULTRY PRODUCTION.

Two large demonstration poultry flocks make good egg production records for the past month, according to H. R. Forkner County Agent. The 578 hen flock of Walter Robinson and Sons of near Rabbit Hash, produced 8385 eggs during the month or an average of 14.5 eggs per hen. The 996 hen flock of Grant Maddox of near Florence produced 11,608 eggs, or an average of 11.65 eggs per hen.

Boone county has a decided advantage in poultry production where certain important factors are observed. The great disadvantage in the past has been too many folks went in the poultry business without early hatched chicks, improper feed and and housing and failed to observe certain fundamentals in clean ground and disease control. These important factors will be discussed at the Annual Poultry school held at Burlington on Friday, January 17th.

L. C. Weaver, who has been very ill the past week is somewhat improved. He is able to be at his post as assistant postmaster.

BURLINGTON TEACHER OF AN ATTACK OF APPENDICITIS

Miss Mary Laubish, teacher of the 5th and 6th grades of the local school, was the unfortunate victim of an attack of appendicitis last Thursday. She was taken to the Good Samaritan Hospital, Covington, where her condition, after an operation, is reported fair.

Mrs. R. N. Lawson, Burlington, has been appointed to fill the vacancy until Miss Laubisch is again able to resume her duties.

NOTED BISHOP

TO SPEAK AT FLORENCE SOON

Bishop U. V. W. Darlington, of Huntington, W. Va., is to speak for the Methodist Congregation at Florence, Kentucky, on January 19th at 11:00 A. M., Eastern Standard Time.

In order to accommodate the crowd expected in attendance, the services will be conducted in the High school auditorium. The choir from the Walton Methodist Church will assist in the music. Members and pastors from various congregations of Northern Kentucky are expected to be pesent to hear this outstanding speaker.

Bishop Darlington is considered a great preacher and orator and Boone County church members should feel honored by having his services offered here. He will be accompanied by Dr. O. B. Crockett, Presiding Elder who will assist in the services. A great occasion is anticipated and the entire public is cordially invited.

HERD LEADS ASSOCIATION

The Jersey herd of O. R. Russ of near Burlington led in Shelby, Boone and Carroll County Dairy Herd Improvement Association the past month. The nine cow herd of 590 pounds of milk per cow and average 30.1 pounds of butter fat and placed second in the entire association of 24 herds.

The fifty seven cow herd of P. B. Gaines, produced an average of 727 pounds of milk per cow and 39.4 pounds of butter fat, led both the Tri-County Association and the State for the month. Five Boone County dairymen, O. R. Russ, Joel Gray, W. G. Kite and Purdy, Ben Nichting and Robert Youell, are members of the Shelby, Boone and Carroll County Dairy Herd Improvement Association. All these breeders have high producing pure-bred herds.

SCHOOL BOARD MEETING

The Boone County School Board met Monday, January 6, at which time a considerable amount of business concerning the board was transacted. J. L. Jones, Florence, and Roy Kinney, Beaver, were sworn into office by County Judge N. E. Riddell. Date for the regular meeting of the Board was set for the first Wednesday after the first Monday of each month.

Mr. and Mrs. Edson Maurer, of Maysville, were the week-end guests of Mrs. Josie Maurer and family.

UNCLE SAM'S

MARINE SERVICE AFLOAT, ASHORE AND IN THE AIR

Macon, Ga., Jan. 2—The United States Marine Corps District Recruiting Station located here has been authorized to enlist 202 outstanding applicants in January between 18 and 25 years of age and not less than 5 feet 6 inches in height.

Applicants are enlisted for general service only, and after completion of basic training are assigned to Marine Corps infantry, machine gun, artillery, motor transport, signal or aviation units, or to duty afloat with the Marine detachment of an airplane carrier, battleship or cruiser. No other branch of the military service affords this opportunity for consideration for later specialization, when a vacancy exists; as does the Marine Corps. Correspondence courses in all subjects from Navigation to Agriculture are available to the entire enlisted force without any expense whatever, after completion of basic training.

Fully qualified applicants who desire to be enlisted this month should write immediately to Leiut. Colonel H. W. Stone at the Municipal Auditorium, Macon, for application blanks and full information.

SUPREME COURT RULES AAA PROGRAM INVALID

ALL ACTIVITIES OF THE TRIPLE A PROJECTS TEMPORARILY HALTED IMMEDIATELY FOLLOWING DECISION OF THE SUPREME COURT

The Supreme Court ruled unconstitutional the Agricultural Adjustment Administration Act on Monday of this week. The decision wrecked the AAA temporarily. The blow was too sudden and too devastating to get any clear opinion developed. It is not known what will be the immediate effect on the Smith-Kerr Tax, as well as the Cotton, Sugar and Potato Acts. Government agents at the warehouses were continuing to collect the Smith-Kerr tax on tobacco according to last reports.

The Supreme Court decision was received by Boone county farmers with discouragement. Boone county farmers have been strong supporters of the AAA, having in force 17 wheat contracts, 189 corn-hog contracts and 865 tobacco contracts which in one form or another cover approximately three-fourths of the farm land of the county.

Boone county farmers cooperating in these programs received more than a billion dollars in benefit payments and $250,000,000.00 are due farmers for their past compliance. Since the beginning of the program hog prices have increased from an average of $3.22 per hundred to more than $10.00 per hundred; wheat from 34.5c per bushel to more than $1.00 per bu.; corn from 20.6c per bushel to $1.00 per bushel; Boone county tobacco crop averaged $7.55 per hundred in 1933, with benefit payments would average approximately $25 per hundred this year. General business activity has increased in proportion to the increase in farm incomes.

While the decision of the Supreme Court is shocking and its results argued by many farmers, the majority feel that agriculture has been greatly injured. Hopes and expectations are that his session of Congress will enact some set-up to take the place of the AAA.

The County Agent received the following telegram Tuesday morning:

"Pending further notice action various control programs is suspended. As federal employee you will take charge immediately of all production control association forms, records and property. This material should be carefully preserved until further information is given you. This telegram is your evidence to Control Committees of authority to take action. To save telegraphic expense advise County Control Committees to discontinue work and that no expense must be incurred against control budgets pending further information. We shall send them written notice to this effect today. Wire collect acknowledgement these instructions immediately upon receipt."

All AAA clerical help was suspended at the County Agent's office following the receipt of the above telegram. The County Agent announced the regular extension program will be conducted and at the same time the office will remain open to advise with farmers on their AAA contracts.

B. H. Berkshire and son, Norris, of Petersburg, were calling on friends in Burlington, Monday.

LINOTYPE OPERATOR ILL

Howard "Jake" Kirkpatrick, linotype operator of the Recorder, has been unable to be at his post for the past several days due to a severe cold. Fortunately, however, the services of Raymond Combs, a former employee of the Recorder and now connected with the Grant County News, has been obtained to eleviate the present conditions.

NOTICE

As many member as can, are urged to be present at the Burlington Masonic Hall, Thursday night, January 9th at 7:00, Burlington time.

1t-ch. (Signed) Master.

PRESS MEETS

TO BE HELD AT LOUISVILLE

Lexington, Ky.—The annual midwinter meeting of the Kentucky Press Association will be held Jan. 16, 17 and 18 in the Brown hotel at Louisville, according to an announcement in the current issue of the Kentucky Press. The editors are expected to arrive on Thursday afternoon, the 16th, for registration and at 6:30 o'clock will be guests of the Brown hotel at a buffet dinner on the roof garden of the hotel. An attendance of 150 is expected.

The first business session will be called to order by President A. Robbins, editor of the Hickman Courier, at 6:30 a. m., Friday, January 17, when Mayor Neville Miller, of Louisville, will make the address of welcome. J. P. Gozder, editor of the Campbellsville News-Journal and chairman of the K. P. A. executive committee, will respond to the welcome address.

The president's annual address will be delivered and addresses will be made on newspaper topics, including a roundtable discussion on "Advertising Rackets," led by J. L. Bradley, editor of the Providence Enterprise.

At 12:30 p. m., the editors will be guests of the Courier-Journal and Louisville Times at a luncheon at the Pendennis club.

On Friday afternoon the speakers will be selected to discuss the following subjects: "Essentials of Cooperation"; "Rural Correspondents and Circulation"; "Profitable Job Printing"; "Free Publicity."

The editors will be the guests of the Louisville Board of Trade at a banquet dinner at the Brown hotel at 6:30 p. m., Friday, when some outstanding men will speak. The banquet will be followed by a floor show and dancing.

On Saturday morning, Jan. 18th, the first speaker at the business session will be Col. H. Dorsey Newson, chief of the newspaper division of the Federal Housing administration, Washington, D. C., who will make a brief address on the work he is doing in co-operation with the newspapers.

Editor George A. Joplin, Jr., state representative of the National Editorial association, Somerset, Ky., will make a short talk on the N. E. A. and then introduce Robert M. Pritchard, president of the National Editorial association and editor of the Weston (W. Va.) Democrat, who will deliver the principal address of the morning.

Following the annual financial report of Secretary-treasurer J. Curtis Alcock, Danville, Ky., and the report of the committee on resolutions the meeting will adjourn.

The editors will leave Louisville at one o'clock for Frankfort, where they will be guests of Governor A. B. ("Happy") Chandler and Lieut. Gov. Keen Johnson at a reception at the governor's mansion. Mr. Johnson is editor of the Richmond Daily Register and a former president of the Kentucky Press Association.

APPLICANT

FOR DEPUTY UNITED STATES MARSHAL FOR NORTHERN KENTUCKY.

Interest in the appointmen of a Deputy United States Marshal for Northern Kentucky was revived last week when it became known that Gordon Souther, Boone County, near Erlanger, is an applicant for the position. Souther, who is widely known and whose family connections extend throughout Northern Kentucky, has a numoer of excellent indorsements from outstanding men in his own and adjoining counties. He is well qualified for the position, as are a number of other applicants.

Read Fox's clearance sale advertiement.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1880

WHEN BANKS WERE TOPPLING THRE WAS NO CLAMOR, NO WHISPER, AGAINST ANY EXPEDIENT OF THE NEW PRESIDENT

"Rich and powerful interests are at work seeking to break down the processes of rehabilitation," said Chairman James A. Farley of the Democratic Nationaal Committee, in a speech in Portland, Oregon a few days ago. I know they are gladly spending millions of dollars in this effort. You and I know, because of the testimony brought out before an investigating committee in Congress, that they actually disbursed two million dollars in their endeavor to prevent enactment of a single law aimed to break the grip of parasite holding companies on industries from which they expected enormoust fortunes for themselves to the detriment of share holders and rate payers alike.

"It is from such sources that we hear such expressions as that our present approach to prosperity is in spite of the New Deal and not because of it. I doubt if there was ever a more insolent bases thought expressed in any political campaign. Roosevelt's advent in the House found the country, as you know, in the throes of one of the worst crisis in its history.

"The enemies of the administration try to convey to you that our President is pursuing a revolutionary course. This talk of a revolution is childish. But it was not childish when banks were toppling all over the country, when millions of people were threatened with starvation and our whole economic structure was reeling. At that time you heard no clamor, not even a whisper, against any expediene the incoming President might suggest.

"It was only when the returning tide of prosperity had emboldened them that Big Business linked hands with his political adversaries and is now seeking to regain control of affairs at Washington. Control which led us straight to the verge of destruction and which inevitably would dump us back into the hole in the course of a few more years.

"Those who seek to smash the fabric the President has erected are given to pointing to the NRA as a sample of governmental blundering. The Supreme Court did declare the NRA processes as outside the Constitution. In that decision there was no criticism of the goal sought to be won through the NRA. They merely decided that under the written terms of the Constitution there was no warrant for the codes.

"Of course that was a setback but let us not forget that during the valid as it was useful, it helped two years we thought NRA was as millions; it harmed nobody. The NRA and its twin brother the AAA gave business the impetus it required; made farms and factories assets instead of liabilities. I do not think the men and women who got jobs through the illegal NRA feel badly because they were accomplices in lawmaking. Nor do I think the business firms that were temporarily freed of unfair competition by employers of child labor and sweatshop methods, and so were able to stave off bankruptcy, are very much disturbed.

"And never by any chance do you find one of these time-serving lawyers of the Liberty League or their clients or the Republican high command, which takes its orders from them, admitting that by any possibility the President can do a right thing. Their creed is that if it proceeds from Roosevelt, it's wrong. But I am glad to say that there are Republicans who have realized that the value to the public of the Roosevelt measures for recovery and reform are more important than mere party affiliation."

Editorial of the Week

GIVE US THIS DAY OUR DAILY AIR

Air is the last of our three necessities of life to receive consideration. The average daily requirements of a person are about 3½ pounds of food, 4 pounds of water and no less than 34 pounds of air. We insist upon pure food and water, yet we breathe in any old, dirty air we happen to find around, according to American Houses, whose prefabricated homes are all air-conditioned. The Climateers, a club of leading air-conditioning experts of the country, starting a Carribean cruise together, stated in New York just before sailing that air-conditioning is on the edge of becoming one of our great American characteristics. General Electric engineers report a nation-wide interest in it. It may be our next great industry; and if you go into figures and calculate that 120,000,000 Americans breathe over 4 billion pounds of air daily, you see its importance.

THE PIPER WILL BE PAID

Who's going to pay most of the federal debt which stands today at thirty billion dollars and may pass thirty-four billion by the end of June? The man who makes less than $5,000 a year. He's got to; he's the only one who has the money.

Recently, the United States News, a non-partisan weekly newspaper published in Washington, emphasized these facts:

In 1934, individuals with incomes under $5,000 a year made $7,500,000; those with incomes between $,000 a year made $7,500,000,000; those with incomes between $5,000 and $25,000 made $3,500,000,000; those with incomes over $25,000 made $1,500,000,000.

In that same year, Uncle Sam took in direct incomes taxes nearly a third of the money made by those in the $25,000 group, one-thirtieth of what the $5,000-$25,000 group made, and one-two-hundred-and-thirtieth of the income of those in the less than $5,000 classification.

The late Henry T. Rainey, once Speaker of the National House of Representatives, expressed this as the ideal tax philoophy; "To get the most feathers with the l east squawking of the goose." In recent years, legislators have been spending freely and boosting taxes only on big incomes, because there are fewer big incomes and therefore less squawking. But here's something to think about:

A federal debt of $34,000,000,000 means a debt of $272 for each man, woman and child in the United States. Some day taxes will haave to be assessed to pay that debt. Taxes are levied only against things that promise returns. When the time of reckoning came, where are the legislators going to turn? To the group that made $1,500,000,000? Or to the group that made five times that much, namely the less-than-$5,000 a year man?

EDITORIAL PARAGRAPHS

The rural population trend of Boone county for the period of 1900 to 1935 shows a 14 per cent decrease. It appears that a number of people would be better off if they would move to the farm than to loaf in the towns and cities.

ooooo

For a great many years this country has had a utility problem. It has occupied column upon column in the newspapers, commanded hour after hour of the attention of congressional committees, and usurped for weeks without end the debates in the nation's legislative halls. NOW it is in the courts.

ooooo

The one time scarcity of Doctors in this county is a worry of the past. At present there are approximately a dozen Md.'s besides a number of Chiropractors.

Lesson for January 12

SIMEON'S PROPHECY

LESSON TEXT—Luke 2:25-35, 40.

GOLDEN TEXT — Mine eyes have seen thy salvation, which thou hast prepared before the face of all people. —Luke 2:30, 31.

PRIMARY TOPIC — When Simeon Saw Jesus.

JUNIOR TOPIC—Why Simeon Rejoiced.

INTERMEDIATE AND SENIOR TOPIC—What Jesus Can Do for the World.

YOUNG PEOPLE AND ADULT TOPIC—Jesus, the Hope of All Nations.

The occasion which brought Simeon to recognize Jesus as the Messiah was his being offered to the Lord by Mary and Joseph. According to the Jewish custom (Lev. 12), at the age of eight days the male child was circumcised and thus made a member of the covenant nation. In this case the child was given the name "Jesus" which indicated his mission (vv. 22-24). Then at the end of 40 days he was offered to the Lord on the basis of the original redemptive purpose, which was the priesthood of the first-born, and not according to the Levitical order (Exod. 13:2; cf. 32:26). The offering in such case was a lamb for such as could afford it, but for the poor a pair of turtle doves or pigeons was adequate. The Savior thus came to the level of the poor.

I. Simeon's Character (v. 25).

1. Upright. He sustained a right relation to his fellow men. He was "just."

2. Devout. He was of such a character as to enjoy personal fellowship with God.

3. Waiting for the "consolation of Israel"—Messiah. Waiting for the fulfillment of the divine purpose in the coming of Messiah had a blessed effect upon his life, inducing righteousness and godliness. Waiting for the second coming of Christ is set forth in the New Testament as having a salutary effect upon believers (I John 3:3; I Thess. 1:9, 10).

4. Under the sway of the Holy Spirit. One thus enabled would be in a condition to recognize the Messiah. A spiritual mind is absolutely essential in order to discern the divine purpose (I Cor. 2:14).

II. Simeon's Revelation (vv. 26-28).

He was assured that he should not die until he had seen the Lord's Christ. When Christ was brought to the temple, the Holy Spirit upon Simeon enabled him to discern the babe as the promised one. Happy is the one whose character and spiritual experience is such that he can discern the presence of the Lord. Truly it is in him that we live and move and have our being. To be in this state is to practice the presence of God. So definitely was he led by the Spirit that when Mary and Joseph brought Jesus into the temple, he took him up in his arms and blessed God, indicating his personal and affectionate appropriation of the Messiah as his Savior and Lord.

III. Simeon's Song (vv. 29-32).

This is the song known as the "Nunc Dimittis," so named from the Latin words with which it begins.

1. He prays for a peaceable departure (v. 29). Perhaps it was more than a prayer; it was praise to God that now he is having a blessed departure out of this life, having seen and handled the Savior. Truly blessed are the dead who died in the Lord.

2. He praises God for a world-wide salvation (vv. 30-32). The "Nunc Dimittis" is the universal song, thus widely differing from the "Magnificat" in that it is wider than the Jewish hope. Simeon saw Christ as the Light to reveal salvation to the Gentiles. This is the true glory of Israel. It is in keeping with the divine purpose in calling and disciplining this nation to make it the channel through which he might bless all the peoples of the world (Gen. 12:1-3).

IV. Simeon Blessed Joseph and Mary.

The revelation through Simeon caused them to marvel. To have such wonderful predictions made concerning their Babe filled them with amazement. His blessing contained wonderful and even dark words of prophecy.

1. "This child is set for the fall and rising again of many in Israel." This means that Christ was to be a touchstone—destiny would be determined by the attitude of the people toward him. How definitely this has been fulfilled in the experience of that people!

2. "A sign which shall be spoken against." This had definite fulfillment in Israel and is being fulfilled today among many peoples.

3. A sword was to pierce Mary's soul. This perhaps refers to her suffering as she entered into sympathy with his unutterable suffering as he went to the cross, and her desolation afterward.

The Day of Rest

God's altar stands from Sunday to Sunday, and the seventh day is no more for religion than any other—it is for rest. The whole seven are for religion, and one of them for rest, for instruction, for social worship, for gaining strength for the other six.—H. W. Beecher.

Happiness

One of the first steps to contentment and happiness is to learn not to begrudge other people the things they have because you cannot have them.

what Irvin S. Cobb thinks about:

The Lord's Shock Troops

WESTWOOD, HILLS, CAL. —In peace: I knew streets in New York where citizens went at their own risk, and policemen walked in pairs. But some were as safe as though they'd been in church—a doctor with his kit; a nurse in her uniform; a priest or a nun; a preacher or a rabbi, and always a Salvation Army worker.

In war: Ask any veteran what organization, no matter how big its personnel, or how fat its purse, outdid the Salvation Army in service to our soldiers, whatsoever the race or the creed or the color.

Irvin S. Cobb

At Christmas: Who sent Santa down cold chimneys to gladden the hearts of children at hearthstones that elsewise would be desolate? Who brought a measure of holiday cheer to the misery-laden, putting clothes on the backs and dinners in the stomachs of the naked and the hungry?

So, for their eleventh-hour drive for their Christmas fund, thank God for the Salvation Army. Every cent went where it should have gone when you gave it to them, for verily I tell you, as one who knows, these are the shock troops of the Lord.

* * *

That Marvelous Hen

WHATEVER became of the hen which from time to time hauled off and laid an egg with mysterious initialing on it? In my days on a country newspaper this gifted fowl was a regular journalistic feature. Her output might be soft-shelled and shy a yolk, but always the cryptic writing was there.

Once she produced an egg bearing letters which many translated as prophesying "war." But somebody pointed but that if you read the message the other way it spelt "raw," which also seemed to cover the case.

This barnyard phenomenon died too soon. How the New Deal boys could use a hen capable of turning out weird alphabetical combinations and then going off and forgetting them!

Afterthought—Among all the office seekers or office holders who have been or may be mentioned for a Presidential nomination next year—or even for Vice President—you will search in vain for the name of Governor Hoffman of New Jersey.

* * *

Destroying a Skunk

I'VE just been reading—until I stopped to gag—the latest novel of one of the new school of authors; you know, those so-called realists who mistake filth for fiction and lewdness for literature. I wouldn't say this person was much of a writer, but he certainly is a practical dirt-farmer.

I've never believed in censorship for creative work; and as regards this group, I've always gone on the theory, paraphrasing an old line of an old ballad, that they were more to be pitied than censored.

But for the individual offender against common decency—well, when I was a younster down South, they told me the surest way to destroy a skunk was to pen him under a barrel and just let him smell himself to death on his own personal perfumes.

* * *

Our Younger Generation.

IN THE paper I see where, for their Sunday sermons, three ministers preached on modern youth—with particular references to the shortcomings of same.

I haven't a doubt that the first caveman, surveying the antics of his coltish brood, remarked in tones of gloomy resignation to his hairy mate:

"Well, mommer, the world's done pretty well while we ran it. Look at the hole in the roof to let the smoke out, that I thought up right out of my own head, be-gee! And now when I get the trick of this new throwing-stick worked out, civilization will just about have reached her peak. But heaven help the poor old earth when that bunch of crazy kids yonder takes hold!"

Before we start blaming the oncoming generation for everything, including its own sins, which are sufficiently manifest already, let's go back to where this buck-passing habit started. Let's go back to Adam, the derned old experimentalist!

Fish Wanted

There are fish in Lake Titicaca, the highest in the world, but not enough, says the Philadelphia Inquirer. They are of a coarse, native variety, and the larger number of natives who live on the lake's shores would like more refined fish, although the water is said to be too cold for most European varieties. The Bolivian and Peruvian governments have therefore signed a "formal diplomatic agreement" whose object is to create a fishing industry on this sheet of water set in the Andes 12,000 feet above sea level and 5,000 square miles in area, and re-stock it. It is confidently expected that foreign experts will find some species of fish that will be able to bear the intense cold, even though the natives, who from time immemorial have fished from frail boats made of reeds, refrain from learning to swim because they cannot stand the cold themselves.

TEN YEARS AGO

From the Files of The Boone County Recorder

(ISSUE OF JANUARY 7, 1926)

(ISSUE OF JANUARY 14, 1926)

New Farm Agent Moves Here

The new County Farm Agent, H. R. Forkner, with his wife and household goods arrived in Burlington last Friday at noon, and are now domiciled in John J. Duncan's residence on Gallatin street. We gladly welcome Mr. and Mrs. Forkner as citizens. Mr. Forkner will have his headquarters at the Farm Bureau in Burlington where he can be found and ready to respond if he can be of service to you.

Equalization Board Will Meet Soon

B. H. Berkshire, John B. Cloud, Al Rogers, J. H. Walton, W. M. Whitson, and W. B. Johnson have been appointed members of the County Board of Supervisors of tax. They will meet in the court house in Burlington, Monday, Feb. 8th, to enter upon the discharge of their duties.

Personal

Born—To Elijah Horton and wife, Monday, January 11, a fine baby boy. This is the first visit of the stork in this part of the county in 1926.

Mr. A. Yelton, who has passed his 75th birthday, father of Dr. M. A. Yelton, fell down a flight of steps at his home Sunday morning and bruised himself considrably, but fortunatly no bones were broken.

Since the first of the year several of the old citizens have passed away.

"Uncle" Asa Cason, who is nearing the 86th milestone, and who hopes to be able to pass the 100th milestone and then some, is hale and hearty, and when in an reminicent mood is able to make many of the younger men ashamd when talking of the happnings of long ago.

Hebron

Mrs. C. V. Lucy was called to the bedside of her mother Mrs. Scales, of Independence, last week.

A miscellaneous shower was given Mr. and Mrs. Paul Poston last Monday night at the home of Mr. and Mrs. O. C. Hafer.

Mr. and Mrs. Lester Aylor entertained Rev. John Slater at dinner last Sunday.

Richwood

R. Wood Carpenter has accepted a good position with the C. & O. Railroad at Silver Grove, Ky.

One of the landmarks of our city has been razed. The red house on the Dixie Highway north of Tewell's store has been wrecked and hauled away.

Petersburg

Misses Helen Bolen and Frances V. Berkshire spent Wednesday in Cincinnati.

After a lingering illness Mr. W. T. Ryle passed away at his home, January 9th.

Limaburg

Miss Mildred Schwarts spent Saturday and Sunday with Mr. and Mrs. William Gross.

Mr. and Mrs. Clyde Anderson spent Tuesday with Mr. and Mrs. Ed. Anderson.

Beaver Lick

The citizens of Beaver are now enjoying electric lights.

Miss Annie Cleek writes from Florida that they are enjoying themselves seeing the country and fishing.

Hopeful

Mrs. Frank Vaughn is very ill at this writing.

Hiram Long of the Price pike, spent Sunday with his brother Geo. Long.

Belleview

Mrs. Belle Clore spent from Saturday until Monday with Mr. and Mrs. Ed. Studenburg, of Cincinnati.

Wm. Rogers, Jr., returned to Russellville Monday after spending the holidays with his parents, Mr. and Mrs. W. B. Rogers.

FOR YOUR CONSIDERATION

1. The percentage of negro population of Boone county is approximately 4.

2. This percentage has dropped from approximately 7 since 1900.

3. The 1930 Negro population of Kentucky constituted 8.65 per cent of the total population. The percentage of negro population of the one hundred and twenty counties vary from zero in Martin county to 34.1 per cent in Christian county.

4. In 1900 the negro population of Kentucky numbered 284.706 and represented 13.24 per cent of the total population. During the next thirty years the negro population decreased in numbers 58.866, or 20.7 per cent, to 226,040 which represented 8.65 per cent of the total population.

5. The counties showing the highest percentages of negroes are those of the Inner Blue Grass centering around Fayette, while the lowest percentages of negroes seem to be those in which farming is the least productive.

JAMES J. HENNESSY

James J. Hennessy, age 79 years, passed away, Wednesday morning (Christmas Day) at Good Samaritan Hospital, Cincinnati, Ohio after several months illness with cancer of the right jaw. His remains were removed to the Taliaferro Funeral Home for preparation.

He is survived by two sons, John Hennessy of the Dixie Highway, near Erlanger, with whom he made his home, and James Hennessy of Cleveland, Ohio and one daughter, Mrs. A. O. Lefler, of 18th and Scott Streets, Covington, Ky.

Funeral was from the Taliaferro Funeral Home at 8.3. A. M. Saturday with requiem High Mass at the St. Henry's Church at 9 A. M., interment following in St. Mary's Cemetery.

MRS. LYDIA NEWMAN

Mrs. Lydia Newman, age 75 years passed away Friday night at the Clarke, 1230 Scott Street, Covington, home of her daughter Mrs. Wayne Ky. after an illness of several weeks. The remains were taken to the Taliaferro Funeal Home for preparation.

In addition to Ms. Clark, she is survived by one other daughter, Mrs. R. V. Lents, of Constance, two sisters, Mrs. Molie Rouse of Florence and Mrs. Anna Boyce of Elsmere.

The funeral was from the residence on Scott St., with services at the Hopeful Lutheran Church Monday at 11 o'clock, by the Rev. Chas. Hamilton, after which she was laid to rest in the nearby cemetery by the side of her husband, Robt. C. Newman, who passed away in December, 1934.

Funeral Directors Philip Taliaferro had charge of the funeral arrangements.

OWL HOLLOW

Mr. and Mrs. Hayes Feldhause entertained New Year's Cecil Presser and Wife, Owen Presser, Mrs. Daisy Presser, Harold and Norma Presser.

Mr. and Ms. Fred Beyser and son, spent Sunday with Chas.. Abdon and family.

Laura Arrasmith is spending a few days with her sister Mrs. Chas. Abdon.

Albert White, and wife entertained the young folks with a dance New Year eve. All reported a grand time.

Norma Presser, spent a few days the past week with Cecil Presser and family.

Edward Clements, spent a portion of the Holidays with his father N. H.Clements.

Dave Wallace Miller and family, Robert Smith and wife, Leonard Riggs and wife, James Smith and Donald Berry spent Sunday with Raymond Smith and family.

Hayes Feldhaus spent Sunday with his parents of East Bend..

Laura Arrasmith, was caling on Mrs. Hayes Feldhaus, Thursday afternoon.

S. W. L. M. SOCIETY

The Sophia Webster Lloyd Memoria Society met at its home on Shelby Street, Florence, on Saturday. January4tn.

Plans have been laid for a busy year and many interesting projects are to be caried out by the society.

The next regular meeting will be Saturday, January 18, at which time every member is urged to attend.

GASOLINE TAX COLLECTION INDICATED FOR 1935

The State of Kentucky collected $927,386.19 in gasoline tax for the month of October which is $81,-270.05 more than was collected in October 1934, an increase of 9.6%. The total collections for the first ten months of 1935 were $8.397,-893.84. This is an incresae of $721,-060.49 over the first ten months of 1934 when collections were $7,676.-833.35. This is a 9 39% gain over last year. The total collections for the twelve months of 1934 were $9.207,196.37. If the months of November and December show the same rate of gain as the previous ten months, the Kentucky gasoline tax will produce $10,071.752.11 in 1936. This will be a gain in excess of eight hundred thousand dollars over 1934 and on increase over 1933 of over one and three-quarter million dollars. Gasoline tax collections for the past four years are as follows:

1932	$8.203.822.70
1933	8,316,249 03
1934	9.207,196.37
1935 (estimated)	10,071,752.11

1935 gasoline tax collections will represent tax on approximately 201,435,000 gallons of gasoline. If the gasoline tax rate in Kentucky was 4 cents instead of 5 cents a gallon, the state would have realized $8.057,0000, almost as much as the 5-cent tax produced in 1932 and 1933.

Kentucky gasoline consumers will also pay the federal govern 1c per gallon on the 201,435,000 gallons of gasoline used in 1935, amounting to $2,014,350.00. Kentucky's total gasoline tax bill will doubtless be well over $12,000,000.00 in 1935.

RESOLUTIONS OF RESPECT

Whereas, it has pleased our Heavenly father to remove from our midst a sister member, Alice Shinkle be it resolved,

First;

That we, the members of the W. M. U. f Big Bone Baptist Church have lost a faithful member,

Second;

That we express our deepest sympathy to the bereaved family.

Third;

That a copy of these resolutions be placed on our minutes, and one sent the bereaved family.

Signed

Big Bone W. M. U.

FLORENCE

Thomas Nead has been quite ill the past week.

Mr. and Mrs. C. C. Ashcraft and children, of Ludlow, enjoyed a visit with Mrs. Ashcraft's parents, Mr. and Mrs. E. T. Sine, of Florence.

Mr. and Mrs. L. C. Beemon entertained on New Year's Day in honor of their son, Robert and wife of Covington.

Mr. and Mrs. Stanley Ryle and children entertained with a dinner on New Year's Day in honor of about twenty of their relatives.

The many friends regret to hear of Mrs. Stanley Aylor being confined to her home the past week suffering with a severe case of tonsilities.

Mrs. Mary E. Rouse and son, Carl, spent a pleasant day with Dr. Elbert Rouse and family, of Ludlow, Sunday.

Mrs. Rufus Tanner and Mrs. Jas. Calvin Layne, of the Erlanger Woman's Club attended a meeting of the Walton Literary Club, Friday.

Mr. and Mrs. Ambrose Easton spent Sunday with James Tanner, of Hebron.

Harold Aylor, of Shelby St., entertained on Saturday evening in honor of Chas. Beall, Guy Aylor and Louis Aylor.

Mr. and Mrs. Ben Floyd, of U. S. Highway 42 spent Sunday with Mr. and Mrs P. J. Allen.

EWES NEED GOOD FEED AND WATER

Losses of pregnant ewes often experienced among sheep raisers several day to a few week before lambing time are caused by improper feeding, poor management and irregular watering, according to the conclusions reached by Drs. W. W. Dimock and F. E. Hulls of the University of Kentucky College of Agriculture and published in circular No 274, "Pregnancy Disease of Sheep."

It is necessary that ewes have a good supply of water, that they run on pasture so as to have green feed, and that they are given one to two pounds of hay and a quarter of a pound of grain each daily. The exact amount of feed will depend on the condition of the ewes. A part of the hay should consist of a legume, as alfalfa, lespedeza, red clover, soybean, cowpea, clover mixed with timothy, or any good mixed hay.

Perhaps the best grain mixture is equal parts of corn, bran and oats, with linseed oil meal in the proportion of 1 to 7. However, where a grain grown on the farm is available, a larger quantity of it may be used. Ewes in poor condition should be fed a grain mixture containing a larger quantity of corn.

Some persons think sheep can go several days without water. They can go longer without feed than without water, without suffering ill effects.

The pregnancy trouble often occurs following a sudden drop in temperature, a cold rain or asnowstorm. At such times the ewes may be temporarily cut off from free access to the water supply, green feed may become unavailable and shelter may not be adequate. This sudden change in methods of feeding and management, together with exposure and a restricted water supply, may upset poorly nourished ewes that otherwise would not have developed pregnancy disease.

RECORDER 1 YEAR $1.50

NOTED SPEAKERS FOR FARM, HOME MEETINGS

Noted speakers obtained for the annual Farm and Home Convention at the University of Kentucky College of Agriculture January 28-31 include L. J. Taber master of the National Grange; J. B. Hutson, director of tobacco and other commodities in the Agricultural Adjustment Administration; Ernest Rice, president of(the Louisville Federal Land Bank; Dr. Michael Davis, community health authority; Dr. Henry H. Sweets and Mrs. James H. Spilman, prominent church workers; Dr. H. H. Bennett, soil conservationist and Grace E. Frysinger of the U. S. Department of Agriculture.

Separate sessions for men and women will be held each of the four days, when many subjects affecting farm and home life will be open discussed. All meetings will be open to the public.

This will be the 24th annual gathering of farm men and women at the State College of Agriculture at Lexington.

THE PROPOSED CONSTITUTIONAL AMENDMENT

A great deal of debate is still going on concerning the possibility of a new constitutional amendment to give Congress and the Executive powers which the Supreme Court, in the NRA and similar cases, has decided they do not now posses.

A short time ago Walter Lipman, the well-known publicist, challenged an editor who has often written in favor of the amendment, to put it into words—that is, to prepare the text of such an amendment in the clear and legal form in which it must be submitted to the people. It was Mr. Lipman's expressed belief that no one could do it—and his belief was partially proved when the editor replied that the job was beyond him.

The actual preparation of such an amendment would seem a task almost beyond human power. How coud we further centralize and augment powers of the Federal government—and at the same time preserve the rights of states, which are at present guaranteed by the Constitution? How could we give to the government at Washington absoulte and dictatorial powers over commercial and industrial life —which is what the sponsors of the amendment want—and at the same time keep operative the existing Constitutional guarantees that protect the lawful activities of individual initiative and enterprise? How could we give into the hands of politicians sweeping authority over our basic social and economic institutions—and at the same time make sure that such fundamental principles of democratic government as freedom of press, speech and action were not infringed?

The Constitution has existed for more than 150 years. It has made possible our growth from a handful of relatively unimportant colonies to the greatest power in the modern world. It has preserved, in the face of a hundred onslaughts, the human rights and liberties for which men have fought since the dawn of time—liberties which have been entirely destroyed in other nations. It has given us the highest standard of living for the masses, in the world. Perhaps those who would emaculate and change this document are less wise, less foresighted, less in tune with the forces that make for freedom and progress, than were those great men who wrote it.

What are the motorist going to use for an excuse when they have an accident since the snow and ice has melted away? ? ? ?

January 3, 1936

Editors, Boone County Recorder
Burlington, Ky.
Gentlemen:

I am taking the liberty of enthe issue of The Atlanta Georgian of January the first, containing a pleasant reference to myself.

You may know that I was reared in the Bullittsville neighborhood, in which neighborhood I taught school two terms before coming South. Mrs. B. C. Graddy of that neighborhood is my sister, and W. Lee Cropper of Burlington, James A. Huey, of Union and Mrs. Mary V. Gaines, of Bullittsville are first cousins.

When a youth, I was Bullittsville correspondent of the Recorder, which I have been taking all these intervening years.

I would be pleased if you might make reference to it in your paper. I am,

Very truly yours,
W. W. Gaines,

W. W. GAINES OBSERVES BIRTHDAY

W. W. Gaines, attory, Wednesday had double cause to observe a holiday.

New Year, he observed his 69th birthday anniversary.

The anniversary was spent at his home, 762 Capitol Avenue, S. E., where dinner included fresh meat seat by relatives in Kentucky.

Mr. Gaines, a native of Boone County, Kentucky, came to Atlanta 44 years ago. He has been president of the school board, president of the library board, chairman of the City Democratic Executive Committee and a leader in prohibition and religious movements.

NEWS IN BRIEF

Sen. Ralph Gilbert, Shelbyville, tipped as Senate floor leader . . . Minimum of $2,700,000 needed for Old-Age Pensions in state . . . State labor leaders approve of Chandler's plan to use Convict Labor . . . New Governor dismissing hundreds daily from state payroll . . . John T. Murphy and Stephen L. Blakely dissolved partnership . . . Italy expands African Force, 27,000 more sent to front as Ethiopia prepares for big fight.

QUESTION — What particular part of the present day automobile causes the majority of our wrecks?

ANSWER—The nut under the wheel.

BACK TO THE BEDROCK OF ECONOMY

Reorganization of the mechanism of state government so as to effect economy of operation without impaired efficiency, is the task which Governor Chandler has delegated to that group of Kentuckians whos services he has commandered for the Advisory Commission he recently designated.

There should be general approval of that fact that the first concern of the new administration is to find out how little money the state govcan be operated on before throught is given to rasing the revenue. After a sincere effort has been made to eliminate such wast as is disclosed, after the payroll has been pruned as closely as appears prudent, after the cost of government has been deflated, then it will be possible to determine how much revenue must be raised in order to balance the state budget. Such is the course which the new Governor has charted.

Every throughtful citizen realizes that it will be necessarry for the forthcoming legislature, under guidance of the Governor, to impose tax levies to replace the income which for the last two years has been produced by the sales tax. Revenue must be raised to finance all essential agencies of state government on a plane of prudent economy. It will be necessary to finance a modest program of old age pensions.

After the government has been reorganized on the bedrock of economical operation, the citizenship should not then object to paying such taxes as are necessary to maintain those administrative agencies which are for the welfare of all the people. Govenor Chandler has given assurance that such tax measures as are enacted will be equitable and fair, that no effort will be made to coerce the General Assembly.

And those who beslege the Governor for jobs should ponder the wisdom in his statement that "the job I have to do is more important than any job I have to give." The citizens who servant the Governor is, should respect his request that he not be besieged by those seeking jobs, or those asking an audience with him on matters that may be deferred until the pressing responsibilities of the legislative session have been discharged.

Seen And Heard Around The County Seat

Sherman Burcham, of Belleview, was a business caller here Monday afternoon.

Now is the time to supply your home with good reading material for the year. See our clubbing rates. Several magazines, a daily paper and the Recorder all at an amazingly low price.

Les Barlow, the jovial insurance agent of Union, was in Burlington, Monday.

We have a few of the rotogravure agricultural sections in reserve. Call and you may have one for the asking.

Save money—See Fox's ad.

Rev. Robert R. Rose, pastor of the Florence M. E. Churches was a caller here, Monday.

Mrs. Vernon Pope has been quite ill the past week.

Mr. and Mrs. Harley Sprague, of Maysville, spent the week-end with relatives and friends in Boone county.

Huey Aylor, of Hebron, was a caller at the County Seat Monday. Mr. Aylor is in search for his dog which was lost last week.

Miss Ruby Cotton, Harold Ogden and Donald Kirkpatrick were Sunday guests of Miss Francis Finn.

Notice the Big Round-Up of subscriptions in this issue..

Mrs. B. C. Grady, of near Burlington, was among thenumerous callers in Burlington, Monday.

Ladies, see Fox's ad in this issue.

John Batchelor, of near Burlington, has been confined to his home the past several days due to illness.

W. L. Kirkpatrick butchered a number of hogs, Monday.

Mr. and Mrs. Frank Walton and daughter, Margaret, entertained Rev. Wm. Smith, wife and two daughters, and his mother, Mrs. Smith, of Warsaw, Mr. Orville Rice and son and Mr. and Mrs. John Walton, New Year's Day.

Mr. John Whitaker, of near Hebron, was operated on one day last week for gall stones at the St. Elizabeth Hospital in Covington. At this writing his condition is not reported serious.

Don't miss the big cattle sale to be given Saturday, January 11, on Wilton-Beaver Pike, 3½ miles west of Walton. The sale is being sponsored by O. W. Cleek and Robert Slayback.

William Doyle and Ross Russ were visitors to the Hub Monday nite.

H. C. Gaines, of Williamstown, is staying with his parents, Mr. and Mrs. Bert Gaines, at the present.

Mr. Earl Cropper spent the week end with his mother, Ms. Lorena Cropper, of Burlington.

Mr. and Mrs. J. A. Fothergill, of Union, were in Burlington on business Saturday. Mr. and Mrs. Fothergill formerly resided in Carroll county.

Mr. Al Stephens, of Petersburg, was a caller in Burlington on Monday.

Raymond Holbrook is spending a few days with his mother, here.

D. R. Blythe and Mark Holliday are spending several days in Adams County bird hunting. Mr. Blythe is one of the County's outstanding sportsmen and it can be truthfully said that no one enjoys a good hunt mores than does "Dud."

There is a large amount of tobacco in this county to be stripped. Most of the farmers have marketed some of their crop.

Mr. and Mrs. Earl Sullivan and daughter spent Sunday with A. L. Nichols and family.

Donal Kirkpatrick is now imployed at D. R. Blythe's store.

Prof. E. E. Kirkwood is the owner of a new Cheyrolet car since the new year.

Don't miss the public sale of J. B. Walton's, which is to be held Saturday, four miles west of Burlington, on the Belleview pike.

Stock sale, Saturday, January 11th, four miles west of Burlington. J. B. Walton.

C. F. Blankenbeker, of Florence, was a busines visitor at the county seat, Monday.

A number of local people attended the funeral of Mrs. Bessie Smith of Petersburg, Sunday.

Edgar Aylor, of Florence, was among the many County Seat visitors, Saturday.

Bruce Ryle, of Union, was calling on friends in Burlington, Saturday.

Carroll Cropper purchased a new terraplane from J. R. Eddins last week.

L. C. Acra, of Florence, was a caller at our office Saturday.

Russell Craddock and family, of Union, called on W. W. Craddock and wife Sunday afternoon.

Raymond Combs, employee of the Grant County News, of Williamstown, spent Saturday in Burlington.

Lillard Scott, of Grant, was a business visitor here Monday.

Kirtley McWethy has purchased the Sheely farm, known as the Satchell farm, on the Big Bone pike. The farm consists of 87 acres on which there is a beautiful 6-room house and good outbuildings. Rel C. Wayman, of Covington, closed the deal.

Charles Hughes, of the Fort Thomas CCC camp, was the week-end visitor of Elmo Aylor.

CARD OF THANKS

We wish to hank our neighoors and friends for their sympathy and kindness shown us in the loss of our darling little daughter, Mary Frances. Especially do we thank Rev. DeArmond and Rev. Dunaway for their consoling words and the undertaker, Williams for the splendid manner in which he conducted the funeral.

—Mr. and Mrs. Frank Antras and Sister, Lola Pearl.

When you know something about and tell others—it's gossip—if you send it to us and we print it—it's NEWS.

RABBIT HASH

There has been a considerable amount of sickness in this community the past week.

Born to the wife of Noel Walton on the 27th of December, a fine baby boy, David Gaines Walton.

Several from here attended the funeral of Mrs. Bessie Rue Smith at Petersburg Sunday.

Chas. Batchelor and wife have been entertaining their grandfather and neices, the past week.

Juanita Ryle, Galen and Joyce Acra visited H. M. Clore and family a few days the past week.

W. B. Stephens visited his brothers, Joe Stephens, and Wallace Stephen, who are quite ill, Sunday.

Mrs. Frank Cunningham was the Sunday guest of her father and mother, Mr. and Mrs. Jamison.

Mrs. Mollie Ryle is on the sick list, also Mrs. Chas. Stephens and Mrs. Lon Van Ness.

By Carter Field

FAMOUS WASHINGTON CORRESPONDENT

Washington.—Representative James P. Buchanan, chairman of the house appropriations committee, is far from the rebel, bedeviling President Roosevelt, that he has been made to appear in the recent dispatches from Warm Springs and Washington.

Actually he is a member of the team, and at the moment is doing yeoman service for the "quarterback," as Mr. Roosevelt sometimes likes to style himself. His present play of forcing the President's hand on economy and budget balancing, his hopes that the President will eventually be in agreement with him, despite his own admission that he—Buchanan—is a "fanatic" on budget balancing, is all part of a very shrewdly calculated drama, not entirely unconnected with the election campaign next year.

For Roosevelt himself is thoroughly convinced not only of the necessity for making a very strong play toward economy in his budget message next month, and of painting a picture indicating that the budget will be balanced in due time, but also of the necessity of some extraordinary method of making the country believe he means it.

He has been told very frankly that the very interests he most wants to placate—to win over to the conviction that, from an economic and fiscal standpoint, he is perfectly safe—distrust his words. He has been told that it will take a great deal of skill to convince them he really intends to do what he may promise in that budget message.

Hard-boiled cynics are very difficult to convince by mere words, especially when some of those cynics believe firmly that the speaker of the words has fooled them before. So the problem was to stage a little drama in advance of the budget message, which would lead up to it, and pave the way for its being believed.

Would Cut Budget Deficit

It wasn't just a trial balloon which the Texas congressman sent up when he talked about cutting the budget deficit down to half a billion dollars for the year beginning July 1, next, and to scratch for the following year, after which expenditures were to be kept within income.

The idea is to have the country read the President's budget promises next month with the knowledge that the head of the house appropriations committee wants to go oven further toward budget balancing than the President himself!

If the New Dealers had figured for a month they could not have devised a more convincing plan for persuading the country—not just of the President's intentions, but that they would be carried out.

For Mr. Buchanan is far from being just a congressman. He is chairman of the one committee in the house that handles all appropriations. Subcommittees appointed by him and working under him scrutinize the proposed expenditures for every governmental department and agency. House members as a whole are very prone to follow the recommendations of the house appropriations committee. For one thing, it provides them a very simple and effective alibi for their votes. It saves lots of embarrassing explanations to critical constituents.

Moreover, business is perfectly aware that at the other end of the Capitol, the appropriations committee is presided over by Carter Glass of Virginia, who was so worried about national credit and the administration's spending policies that he wanted to cut the famous four-billion-dollar bill last year to two billion dollars. Senators do not pay as much attention to committee recommendations as do house members, but Mr. Glass and Mr. Buchanan will both be on the conference committee that will iron out differences between the two houses.

Lewis Vs. Green

That John L. Lewis, president of the United Mine workers of America, has all the cards in the inter-union labor battle, as far as issues are concerned, most labor leaders here privately agree, and would win the fight promptly if his name were William Green.

Or to put it more succinctly, if he had Green's personality, and Green's background, and Green's friendships.

The American Federation of Labor is marching toward vertical, or industry unions, and away from the old form of craft unions. But the oligarchy of the federation leans heavily toward Green, their president. Not only do the majority of the leaders distrust Lewis, but they include many who actively dislike him.

Lewis, many of them say privately, has been a successful fighter for the United Mine Workers. He has been aggressive, battling every moment. But he never knew when to lay his fighting manners aside. As a result, in conferences of labor leaders he has tried to ride over his colleagues just as though they were nothing but capitalists, and with all the contempt in his expression, both facial and by words, as if they were trying to starve his followers into submission.

Entirely aside from all this personal feeling, many of them point out that battling for the Mine Workers, successful as it has been so far as winning each battle that came up was concerned, has proved rather disastrous for the workers in the long run.

If Lewis had been head, for instance, of the automobile workers, and they had followed him with the same percentage of loyalty that the coal miners have demonstrated, the story would be very different.

For in the case of the automobile industry, it has been expanding year by year. Every season it needed more workers than the season before. Not only was the demand for its product growing, but there was no other industry competing with it—taking away its markets.

Success a Backfire

In the coal industry, however, there has been active competition from oil, both for ships and for factories, and even for homes. There has been the rapid development of gas and electrical competition. For example, the electrification of the Pennsylvania railroad from New York to Washington. And there has been a very heavy slump in international trade, which accentuated the slumping curve of railroad coal consumtion, as shipping, especially the big trunk lines leading to ports.

So that in boosting the price of coal by increasing wages, Lewis' success has had a decided backfire. This is not the sort of point that usually gives labor leaders much pause. But they cite it as showing that Lewis lacks judgment.

However, several very large employers, who have been operating virtually open shops for some time, have told labor leaders privately they do not object to letting their present company unions—forced by NRA—into vertical or industry unions. What they are worried about is having to deal with twenty to thirty different craft unions, which frequently, they have observed in other concerns, get into quarrels among themselves and produce strikes which are not to be blamed, even by the workers, on their employers.

They want to be able to settle all their labor troubles with one set of officials—with one union. And they have served notice that they will fight to the death against the organization of their workers into the present craft unions.

Farley Shocks Them

The brain trust wing of the administration, as distinguished from the practical political wing, was shocked beyond words at the remarks of Postmaster Jim Farley at Denver before the Colorado Democratic central committee.

Mr. Farley's words, which so aroused the brain trusters who have been made sick at heart again and again at having their legislative ideas "mangled" on Capitol Hill, were:

"The second error is that the delegation in the national legislature are expected to be mere rubber stamps to carry out the will of the President. On the contrary, let me assure you that the member of independent habit and judgment is the one most appreciated by the administration. It is the President's function to recommend legislation. To advise congress what he deems requisite for the welfare of the nation. Those who have faith in his judgment go along with him, but there is neither pressure brought on the congressmen to follow the President's lead, nor hostility or reprisal for these who differ with him. It is rare that any important measure goes through without amendment. So much for that!"

The exclamation point at the conclusion of this paragraph appears in the official text, and most people at Washington, of whatever political persuasion, and in whatever office, agree that the punctuation is correct.

What bothers the brain trusters is not the accuracy or lack of it in the historical part of the paragraph. They chuckled at that part. But not at the intimation that what Farley insisted had been done would be the policy in the future.

Turning on the Heat

Now if ever in the history of Presidential dealing with Capitol Hill more heat was turned on by the White House to win senators away from the Glass-Adams side of this controversy, and get them to vote for the nearly five billions which the administration wanted, old-timers around Washington do not remember it. And remember that Mr. Adams, just praised by Farley, was one of the ringleaders of the move to cut the appropriation in half!

But that was then, while now is something else again. Farley is not worried about legislation next session. He is worried about the election. That is his job. At the time of the four-billion-dollar fight Farley, as a matter of fact, was in the midst of it. He did his utmost to help the White House dragon the reluctant senators into voting for a bill which Glass and Adams thought was too great a strain on the national credit.

And this is no time, from Farley's point of view, to bring up the merits of that controversy. President Roosevelt's every effort is being bent, at the moment, to the task of making the next budget look more reassuring to the business interests of the country. Hence all the talk about the blue pencil being freely used on estimates for appropriations.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

SETTLEMENT WITH W. B. COTTON, SHERIFF OF BOONE COUNTY FOR THE YEAR 1934 ON ACCOUNT SCHOOL AND COUNTY FUNDS COLLECTED BY HIM FOR SAID YEAR.

I find the Sheriff is charged with the following sums to-wit:

DELINQUENT 1933 FRANCHISE TAX, PENALTY & INTEREST	$105.37
Total	$105.37

The Sheriff is entitled to credits against this amount as ollows:

Receipt of A. B. Renaker, Treasurer of Boone County	$23.08
Receipt of A. B. Renaker, Treasurer of Boone County	78.08
Sheriff's Commission	4.21
Total	$105.37

Leaving no balance in Sheriff's hands of delinquent 1933 tax collected.

OMITTED TAX JUDGMENTS $1.74

The Sheriff is entitled to credits against this amount as follows:

Receipt of A. B. Renaker, Treasurer of Boone County	$1.41
15% paid B. H. Riley, County Attorney	.26
Sheriff's Commission	.07
Total	$1.74

Leaving no balance in Sheriff's hands of Omitted Tax Judgments collected.

The total assessed value of the property of the County for the year 1934 as reported by the Assessor was, less property not subject to County purposes and Bank Shares as follows:

Value of Real Estate	$8,285,034.
Value of Omitted Real Estate assessed by County Clerk and reported to the Sheriff	6,790
Total	$8,291,824
Value of Real Estate released by County and Fiscal Court Orders	11,170
Balance	$8,280,654
Value of Tax List sold to State	391,925
Balance	$7,888,729
Value of Tangble Personalty Property	310.795
Value of Omitted Tangible Personalty Property assessed by the County Clerk and reported to the Sheriff	25
Total	$310,820
Value of Tangible Personalty Property released by County and Fiscal Court Orders	8,440
Balance	$302,380
Value of Tangible Personalty Property on Tax List sold to State for non-payment of taxes	1,325
Balance	$301,055
Net Value of Property subject to County Tax	$8,189,784

The County levy as fixed by the Fiscal Court for the year 1934 is as follows: For Roads 35c, Sinking Fund 20c, and General Expense Fund 15c on each $100.00 of taxable property under the law subject to said tax. The Sheriff is charged with a tax of 70c on each $100.00 or $8,189,784.00 assessment, making a tax of $57,328.48.

The Sheriff is also charged with 20c on eacn $100.00 of the value of Bank Snares. The assessment of Bank Shares is $388,845.00 ,making a tax of $777.69.

The Sheriff also collected Franchise Tax from the following Corporations as follows:

GRAND TOTAL OF ALL FUNDS IN SHERIFF'S HANDS	$189.98

I have examined all charges to the Sheriff and checked all vouchers and receipts and find them to be correct in this settlement to July 1, 1935.

I find that the Sheriff has in his possession a Quietus from the State of Ky. and the total cash balance now in the hands of the Sheriff as shown by his settlement of $189.98 is on deposit in the Peoples Deposit Bank, Burlington, Ky., as of July 1, 1935.

C. L. CROPPER,
Commissioner appointed by Boone County Fiscal Court for the 1934 Sheriff's Settlement.

CENTRAL 4-H DISTRICT SHOW AND SALE HELD

Ira Wash, Jr., of Woodford-co., is the new 4-H club tobacco project champion of the central district. His crop of 900 pounds sold for $39.58 per hundred following the Central Kentucky 4-H club show and sale at Lexington. He will receive an all-expense trip to the National 4-H Club Congress in Chicago. Kelly Cook, Fayette county, won the reserve championship with a 666-pound crop selling for $42.97.

Club members from 21 counties exhibited and sold approximately 70,000 pounds of tobacco, averaging $27.17. In the county exhibits, Woodford county placed first, followed in order by Jessamine, Johnson, Franklin and Magoffin.

The first place winner in each county was awarded a free trip to Junior Week. Those winning these trips were Raymond Jones, Clark county; Kelly Cook, Fayette; Albert Proctor, Franklin; Ford Harvey, Garrard; Robert Simpson, Jr., Jessamine; Delvia McKenzie, Johnson; Walter Moore, Laurel; James Graves, Madison; Finley Tipton, Magoffin; Lloyd Stephenson, Nicholas; Lynwood Linville, Robertson; R. A. Hamilton, Rockcastle; C. D. Graves and Otis Wright, and Ira Wash, Jr., Woodford.

Winners in the record book class were Reginald Prather, Woodford; Wm. Thomas Prather, Jr., Woodford; Kelly Cook, Fayette; Lynwood Linville, Robertson; Net Litch, Franklin; Carlos Locker, Garrard; Billy McWilliams, Jessamine; Erie Blanton, Johnson; Norman C. Jones, Owen and Mable Lewis, Woodford. Highest average crop awards went to Kelly Cook, Fayette; Albert Proctor, Franklin; Reginald Prather, Woodford; Tom Simpson, Jessamine, and W. T. Prather, Jr., Woodford.

MODERNIZED DAIRY BARN MODEL OF SANITATION

One of the primary factors in be considered by the suburban or rural dairyman is the maintenance of hygienic conditions about his barns, stalls, and water troughs.

In many communities the problem of sanitation of dairy farms is controlled by ordinances, and regular inspection by public schools. Whether sanitation is compulsory or not, the dairyman will find from experience that there are profits to be derived from proper cleanliness in the preparation of his product.

Dairy barns should be built with the following factors taken into consideration: Floors that are easily cleaned and kept clean; walls of solid structure that are easily washed and do not provide nooks and crannies where bacteria may germinate; door knobs and similar fixtures of porcelain or like nature that are easily cleaned; plenty of sunlight well distributed (it is recommended that there should be window glass space equivalent to at least 10 per cent of the floor area).

Ventilation is an important factor in the dairy barn. Steam and water frequently make the dairy house damp, which quickens deterioration and adds to the growth of mold and bacteria. Proper ventilation keeps the air in a dairy barn dry and sweet and minimizes the possibility of tainting the milk. Venilation flues are desirable in some barns. Forced ventilation with electric fans may be desirable in others. All doors should be well screened and the floor provided with drain outlets. Dairy farmers may obtain funds with which to make such improvements from private financial institutions operating under the Federal Housing Administration's Modernization Credit Plan.

Many dairy farmers have found that the maintenance of proper sanitation of their properties has resulted in increased sales and prestige because of the purity of their product.

After a poultry flock belonging to Leroy Samples, of Carlisle county, was culled, the 96 remaining hens averaged 25 eggs a day.

Shelby county 4-H club members made a moderate profit on calves sold for a price ranging from $8 to $11.75.

The snow of last week replenished the cisterns and creek with very fine water.

Miss Eunie B. Willis left for Charleston, West Virginia, Sunday.

Turkeys Make Hill Farms Pay

By C. A. LEWIS

Five hundred men and women from 12 northern Kentucky counties recently spent a half-day at the O. C. Rankin poultry farm in Nicholas County, where they saw an outstanding demonstration in using turkeys to make profitable a hill farm that for years had been of little use to anyone.

Purchasing 300 acres of rough land at a comparatively small price, yet too much when handled in the ordinary manner, Mr. Rankin will be able to pay for it from his profits from turkeys in three or four years. He raised 2,150 turkeys this year, which brought $3 each, on the average. That does not mean $3 profit, by any means, but it probably does means more than $1 each clear money.

Eighteen hundred birds were still on hand when the meeting was held at the Rankin farm. Those to be sold for meat were in the final stages of finish. Mr. Rankin sells a large part of his production for breeding purposes, as at the head of his flocks are some of the best-bred males of the Giant Bronze breed.

Divided Into Three Flocks

The flock was divided into three parts, like Gaul, and on Gaul-like land. Approximately 600 birds in each flock had the range of about 100 acres. Each of the three farms, which in reality were just divisions of the same farm, had its own brooder houses, shelter houses, and pole roosts in the open.

Ordinary poultry brooder houses are used to carry the poults along to seven or eight weeks of age, when they are transferred to open-front shelter houses to "harden" before they are turned out to range the rest of their days. The shelter houses are high sheds with pole roosts and wire-covered fronts to keep out varmints. After the birds have been three or four weeks in these shelter houses they are ready to travel a hundred miles or so daily in search for bugs, worms, berries and all else that the big bird devours.

For roosting, after the birds are turned on range, Mr. Rankin erected long rows of poles, eight to ten feet off the ground, out of reach of the ordinary prowling animal that preys on turkeys. Here the big birds spend their nights in delight under the stars or in the rain.

No Elaborate Equipment

One of the most outstanding facts about Mr. Rankin's plan of operation is his relatively small investment, not only in land but in equipment. There is no elaborate equipment, and in reality no need for any. Other than brooder houses, investment in equipment is indeed small.

The hills on the farm furnish ideal ranges during wet weather. The shelter houses and open roosts are put on high hills. This serves the purpose of keeping the birds on dry land most of the time and affords natural protection both day and night from wild animals and from thieves.

Specializing in purebred Giant Bronze, Mr. Rankin produces his own eggs and does his own hatching and brooding, thereby reducing costs and insuring the quality of his stock.

Persons not wholly familiar with turkeys often do not realize their feed consuming capacity, especially in the latter days of their existence. A flock of 1,800 birds devours literally tons of grain and mash, which, at present feed prices, soon runs into money and may even endanger profits. While range provides some feed, it is of use principally in developing the poult to a place where he can be finished in confinement, or semi-confinement. Mr. Rankin does not employ the much-heralded method of raising turkeys or even finishing them in close confinment. They have the run of the range until the very last, but of course do not wander far from the feed hoppers, especially as they near the market stage. Corn, wheat and mash are kept before them at all times during the finishing period.

Expanding Markets

The outstanding feature of Mr. Rankin's turkey raising venture is again listed as that of turning unprofitable land into a paying investment. Many men have tried goats for the hills, and in Kentucky many have found sheep profitable, but there is increasing evidence that turkeys offer a real opportunity. The question of good markets will quickly arise, should turkey raising be materially expanded into the hill country of Kentucky. The answer is that turkeys would return profits at a much lower price than people are accustomed to pay for them. And people will consume an unbelievable amount of turkey meat when its price conforms to that of other poultry and other livestock.

Turkey has without reason too long been considered a luxury. A comparatively few people could afford a turkey for Thanksgiving. They never thought of eating it at any other time of the year. If the industry were properly managed, turkey might be as common as chicken seven months in the year.

The market question should not worry farmers with hill land. The initiative and willingness to work and learn turkey raising from the ground up are far more important to the man who would use the big birds as a way to make his farm pay.

Tennessee 4-H Champions - Topnotchers Among 35,000 Enrolled Members

Reading from left to right: Meta Killebrew, Margaret Harrison, Hayden E. Phebus, Luciel Vise and Margaret Bean.

THESE young people reflect high credit on their leaders and the practical and cultural value of their training to fit them as successful members of their community.

Hayden E. Phebus, Rives, Obion County, is state livestock champion at 17. He has completed five years of calf club and three of corn club projects. His financial record certified by County Agent Franklin Yates, of Union City, shows a total sales return of $2,936.00. Sales from this season's calf and corn projects brings the total well over $4,000.00.

Luciel Vise, 18, or Decaturville, Decatur County, state champion in the Kerr canning contest. Miss Vise has six years of project work in gardening, four in canning, cooking foods and health projects. This year she grew 21 different vegetables in a one-acre garden, canning 358 quarts. Her grand total of six years canning work is 3,388 quarts.

Meta Killebrew, 15, Clarksville, Montgomery County, state champion in home economics, has completed five years of projects in gardening, canning, cooking, sewing and health. Her record includes the winning of $340.75 in prizes on 216 exhibits made at county, district and state fairs.

Margaret Harrison, 17, Gillises Mills, Harden County, state food preparation champion. Miss Harrison has completed three years of projects in gardening, canning and three other subjects, including health. Outstanding among her contest successes was winning in the best menu competition at the Memphis Mid-South Fair the past two years.

Margaret Bean, 19, Cleveland, Bradley County, state champion style revue girl selected by State Leader Margaret A. Ambrose on the basis of eight years of clothing projects in addition to the same number in three other subjects. Her record shows 56 garments completed and prizes won on the same. In 1931, she was awarded a trip to the state club camp.

All of these outstanding Tennesseans represented the state at the Fourteenth National 4-H Club Congress in Chicago, November 30-December 7.

State 4-H Officers

Four Steps Given to Check Soil Erosion

Farm management specialists of the University of Tennessee Agricultural Extension Service point out four definite steps that must be taken for satisfactory results:

No. 1, Mechanical Control. Terraces properly constructed and maintained will prevent gulleying. Terraces make the water walk down hill instead of running in an uncontrolled manner.

No. 2, Cover Crops. Experimental evidence has shown that very little soil is lost from a field that has a good growth of cover crop. Cover crops are needed to complete protection on terraced land. Winter cover crops, such as small grain, crimson clover and vetch prevent sheet erosion.

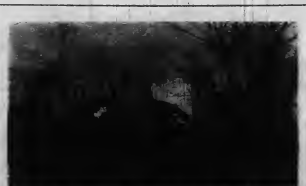
No. 3, Crop Rotation. A proper crop rotation not only helps to controll soil washing and build up the land but helps control plant diseases and injurious insects.

No. 4, Land Use. Steep slopes should not be planted in clean cultivated crops. Such land should be kept in pasture and hay crops or trees.

Water-Proofing Saves House and Equipment

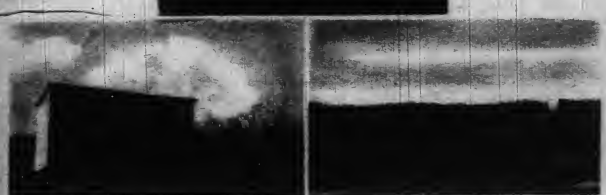
By JESSE B. BROOKS

Kentucky College of Agriculture



Besides the general discomfort that comes from a wet or damp basement or cellar there are many other disadvantages. Joints, flooring and sills of the house rot rapidly under humid conditions. It is difficult to keep fruit and vegetables under such conditions.

If the basement contains heating equipment, it will rust rapidly and have to be replaced much more often than where the basement is dry. Sometimes, where the drainage is extremely poor, the basement becomes flooded and the furnace is completely put out of business.



Under such conditions, probably the most urgent remodeling job is that of water-proofing the basement. A water-tight floor is essential to a dry basement. This necessitates a water-proof joint where the floor and wall meets. A narrow space may be left between the outside walls and the new floor, and then

Two acres of fine burley tobacco, Green County, Tennessee.

Hauling tobacco to the barn.

STRAIGHT TALK *to* Dark-Fired Tobacco Growers

By R. H. Milton

Extension Specialist in Cash Crops, University of Tennessee

ANOTHER tobacco marketing season is at hand. As this is written in December, tobacco growers are getting nervous. Their year's work is hanging in the barn getting the finishing touches in curing or has already been bulked and is now being stripped and prepared for market.. The question in every grower's mind is this: How many dollars per hundred pounds will my tobacco bring? He should be interested because the price obtained, in too many cases, determines his manner of living in 1936. Common tobacco always means poor living for the farmer who grows it.

What a grower gets for his tobacco depends to a large extent on its quality. What are the factors that influence the quality of the leaf? Is there anything that can be done that will add dollars to the selling price? Those factors which affect the quality of the dark leaf may be mentioned; first, character and condition of the soil on which it is grown; second, fertilization of the land on which it is transplanted; third, variety, size and evenness of the plants; fourth, stand of plants obtained; fifth, methods of cultivation; sixth, degree of insect control; seventh, degree of ripeness at harvesting; eighth, location of the curing barn; ninth, construction and ventilation of the curing barn; tenth, methods and care exercised in curing; eleventh, preparation for market, and twelfth, order of the tobacco at the time of sale.

Then there is the demand and supply factors that also affect the price,. but until the coming of the AAA, farmers had not been able to do much about the supply. Controlled production is here and unless the writer misunderstands the sentiment of the growers, it is here to stay sometime. If farmers were turned loose to grow all the tobacco they can or desire to grow they would "glut" the market the first year. A heavy surplus always means low price to the producers.

Farmers have a habit of getting into too great a hurry to get it down and into the bulk for stripping. The dark-fired grower has a long time to prepare his tobacco for market. He is not rushed like the burley grower who is compelled to market his crop in about six weeks. It does behoove him, however, to be ready to deliver his crop when all the buyers get their orders and get onto the market.

Sorting Table Needed

Better bulking can be practiced in putting the unstripped tobacco down. This is a mixed crop. There are bright stalks, brown stalks and brindle stalks on the same stick. A sorting table is needed. These stalks should be separated when they are removed from the stick and each separate color should be bulked into a separate bulk. This will go a long way toward preventing the mixing of grades and at the same time enable the grower to speed up his sorting considerably. The different color and thickness of leaves should be kept separated in the hand; in the bulk, on the load; and on the loose leaf floors.

The tobacco auction. A familiar scene throughout the Tennessee - Kentucky tobacco area.

World demands are changing and local methods of buying are changing with them. The writer can recall the time when Italy was buying 15,000,000 to 25,000,000 pounds of dark-fired tobacco annually. Today she is growing her own and selling some in competition with our American grown product. The type of tobacco which Italy bought is not desired by other countries. Each country has built up a demand for a particular type. That country's buyer or agent knows that type. Not many buying firms are in the speculating business any more. They buy to fill an order. That means the snuff people do not want Italian regie, French nor binder mixed up in their purchase. That is the main reason why the snuff people like to buy at the barns. They can find some barns of leaf that fills their bill or demand in toto. They like to buy from those farmers. It is more satisfactory than going onto the loose leaf floors and buying mixed baskets. Farmers must learn to match (1) colors, (2) texture, (3) body and (4) length of leaves.

Better Tying Demanded

Improvement can also be made in the tying. Too many farmers make a practice of tying with a non-descript lug, frequently of another color. The writer could, in most crops, find enough low grade leaf of the same color to tie all the leaf and then have some left over. The same applies to the seconds and nobody would tie lugs with the good leaf. That might be permissible this year if the grower had a good brown lug. Brown leaf should be tied with brown leaf and green leaf with a green leaf. Then brown tobacco must not be tied with bright leaf. A few growers have a habit of tying with very wet leaves. This is a bad practice. Frequently the heads mold in the bulk or the hogshead. Even though a more attractive tie may be made with a wet leaf, too wet ones should not be used.

Grading Teaches Farmer

Federal grading has come into vogue in the dark-fired district in recent years. It looks like it is here to stay. Growers have much to gain and nothing to lose by its coming. Federal grading teaches a farmer what he has in his barn. It teaches him the character of tobacco he is growing.

Federal grading enables the farmer to keep up with the market from day to day and week to week. It tells him when to reject his tobacco. He has the past week's and the season's average to guide him. Of course, some mistakes are made by the grader but he (the grader) does not make nearly so many as the grower. Frequently he has poor light and poorly sorted tobacco to grade. No grader can satisfy a farmer who mixes grades on a basket. The pulls he makes do not look alike. Graders have been too severely criticised in the past in the dark-fired district. They are trying to do the job right. Better sorting should be more universally practiced. The growers have much to do in this field.

The first essential in sorting tobacco into the different grades is a good light; second, a sorting table on which to do the job; and third, a protected place in which to do the job. They call the latter a stripping room or sorting shed. Usually it is a lean-to placed on the north side of the barn so the grower can get a northern light on his tobacco. It has skylights or window sash running its whole length. Then it has a stove for heating the room in times of cold weather.

AAA Officials Make Public 1934 Tobacco Totals For Tennessee

Tennessee tobacco growers sold 95,729,7[illegible] pounds of burley and dark types in 1934, for a total of $11,299,109.80, it has been announced by state AAA officials in Tennessee.

This valuation was made on the eve of the opening of markets for the 1935 crop and does not take in AAA payments of almost $1,000,000.

Fire-cured growers of middle Tennessee produced 49,099,775 pounds of this type tobacco, selling for a total of $5,400,975.25, or an average of 11 cents.

Burley growers of middle and east Tennessee raised and sold 44,581,333 pounds for a total of $5,734,245.27, or an average of 16.9 cents.

The dark air cured production, confined mainly to four middle Tennessee counties, was 2,048,616 pounds, netting $163,899.28, or an average of 8 cents.

President Talks to American Farmers

AFBF Supports AAA Program And Demands Extension Of Many Features

Franklin D. Roosevelt, President of the United States, addressed the farmers of America at the opening session of the 17th Annual Convention of the American Farm Bureau Federation in Chicago, on Monday, December 9th.

The American Farm Bureau's 17th Annual Convention continued through the 10th and 11th of December with the organization considering all matters generally affecting the welfare of agriculture and went on record with resolutions outlining the Federation's program for 1936.

E. A. O'Neal, Pres. American Farm Bureau Federation

In general, the organization strongly endorsed the Federal Administration's agricultural program and urged further extension of many features on this program.

M. L. Wilson, Assistant Secretary of Agriculture, for Federal Agencies; F. W. Peck, Cooperative Bank Commissioner of Farm Credit Administration; Chester C. Davis, Administrator, Agricultural Adjustment Administration, were representatives of the Administration addressing the Farm Bureau Convention at its various sessions.

The 17th Annual Convention of the Farm Bureau was preceded by a two-day meeting of the Associated Women of the American Farm Bureau Federation.

Farm Bureau Defends AAA Processing Tax

Early in December, oral argument was heard by the United States Supreme Court in the famous Hoosac Mills case testing the constitutionality of the processing tax feature of the AAA.

A 116-page written brief was filed by the Hoosac Corporation attacking the process tax features of the act.

"Taxation without representation," "insidious effort," congress has abdicated," and "bureaucrats," were among the phrases denouncing the AAA, in the document filed by the company.

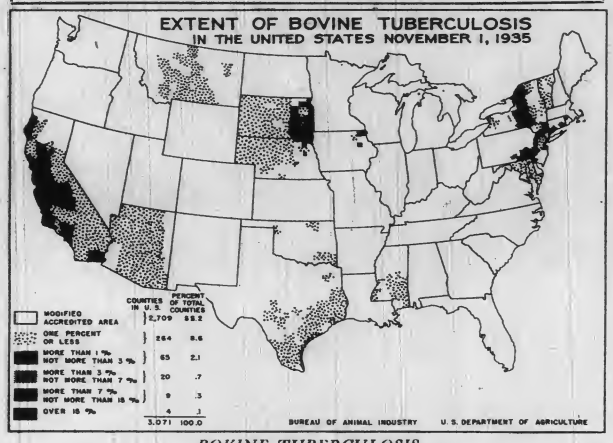
The Corporation brief asserted the amendments were a "fraud, in essence, upon the powers declared to congress by the people".

The filing of this brief was followed by a "friend of the court" brief filed by the American Farm Bureau Federation defending the processing taxes and holding them comparable to protective tariffs for industry.

Farm Bureau lawyers maintained that the taxes are intended to provide for the general welfare, and asserted that the determination of congress as to what constitutes the general welfare "is one for which courts will rarely, if ever, substitute their own judgment."

Japanese Cotton Imports Alarm U. S. Planters

Continued increases in shipments of cotton cloth to the United States by Japan is causing considerable apprehension among both cotton planters and domestic textile interests.



In October of 1935, Japan sent seven times as much cotton cloth into the U. S. as in the corresponding month in 1934. And this comparison was roughly true for the first ten months of 1935.

Early in 1935 quiet efforts were started in the Department of State to persuade Japanese exporters to voluntarily limit their shipments to this country.

During the first ten months of 1935 the net gain in importations of cotton cloth from all countries was actually less than the increase in Japanese imports. This indicates that the Japanese gains have been made at the expense of other foreign supplies.

American cotton growers are particularly concerned with this situation since government figures show that Japanese consumption of American cotton fell off 100,000 bales last year. Japan is turning to India as a source of cotton. Total cotton consumption in Japan increased sharply last year, in spite of the large decrease in purchases of American cotton.

South Winning Bovine T. B. Fight

BOVINE TUBERCULOSIS

Southeastern states generally rank high in the campaign for the eradication of bovine tuberculosis, according to recent reports of the Bureau of Animal Industry of the Department of Agriculture.

The states of North Carolina, South Carolina, Florida, Virginia, West Virginia, Tennessee and Kentucky are all 100 per cent modified accredited area. Maryland is thirty-nine and one-tenth per cent accredited, and sixty-six and seven-tenths of the area in Delaware is accredited. Accredited areas are practically free from bovine tuberculosis (less than one-half of one per cent as shown by official tuberculin testing.)

On August 1, 1930, only three states in the United States had all their counties accredited. On May 1, 1934, there were thirteen. On November 1, 1935, there were thirty-one states. In this area was included 2,700 counties, parts of four counties, District of Columbia, one hundred and five towns in Vermont, and one municipality in Puerto Rico.

Trade Agreement Meets With Both Support and Opposition

Throughout December, the Reciprocity Trade Agreement between the United States and Canada signed November 15, 1935, was a subject of considerable controversy among farm leaders and others interested in agriculture.

Immediately on the heels of the signing of the pact, National Grange delegates at the 69th Annual Convention of that organization in Sacramento, California, went on record opposing the treaty as "certain to prove injurious to the growers of many American farm products."

George Peek

Henry A. Wallace, Secretary of Agriculture, in a press statement felt that the agreement would benefit the "whole of agriculture."

Citrus growers in Florida anticipated an increased Canadian market to result from the treaty and felt that it balanced Florida losses from the Cuban Trade Agreement in so far as it affected the Florida vegetable industry.

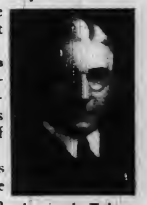
Henry A. Wallace, Secretary of Agriculture

George N. Peek, Special Advisor to President Roosevelt on foreign trade and president of two federal Export-Import Banks, resigned his federal positions on December 2nd.

Peek was known to be in sharp disagreement with the Secretary of State Hull's foreign trade policies and especially the Canadian trade pact.

Under the agricultural concessions in the Canadian agreement, Canada reduces the duties applicable to the United States on a large number of fruits and vegetables, livestock products, poultry and eggs. The principal concessions made by the United States are in the form of duty reduction on cattle, cream and certified seed potatoes. In each of these cases, the duty reduction applied only to a special quantity of imports. Other Canadian agriculture products upon which duties were reduced included cheese, live and dressed poultry, horses, grass and other forage crop seeds, maple sugar, turnips, hay and certain fruits.

In a release for publication, the United States Department of Agriculture states "a large part of the decline in our agricultural exports to Canada from $50,000,000 to $15,000,000 in the past five years should be recovered in consequence of the Canadian trade agreement.



Secretary Wallace, commenting on the Canadian pact said in part "there are a few farm groups which will fear their being held by the new agreement, but actually in these cases the tariff reductions are moderate, and in addition, there are quota restrictions of such a nature that imports from Canada cannot affect the American price structure by more than 1 percent. This small effect in my judgment will, as a rule, be more than offset by the increased payrolls of industries established along the northern border and in the northeastern states."

Grange Outlines National Policy

National Group Oppose Canada Trade Pact; Ask For AAA Amendments

In Sacramento, California, in November, the National Grange held its 69th Annual Session. Thirty-five states were represented in its voting body which deliberated for nine days on the varied needs of rural people.

Seventeen hundred members of the organization at Sacramento received the highest degree of the Grange. At the biennial election the organization endorsed National Master Louis J. Taber for another two-year term following his progressive leadership for the past 12 years.

Louis J. Taber, Master, National Grange

Has 800,000 Members

The Grange represents 8,000 subordinate units with a dues paid membership of 800,000.

Outstanding actions taken by the Grange in their annual session included demands for amendment and simplification of the Agricultural Adjustment Act, better agricultural financing facilities, restriction of holding companies, extension of rural electrification, reduction in rural unemployment, rigid economy in Government and a balanced budget, and the elimination of political influences from the administration of farm organizations.

The Grange went on record opposing reciprocal trade practices or favored national treaties using industrial products to the disadvantage of agriculture and especially condemned the reciprocity treaty with Canada.

Opposes Resettlement

The Grange also opposed the Resettlement Program except "when carefully considered and guided by sound common sense." It also opposed reduction of present tariff rates on seed potatoes, hay and other farm staples.

President Franklin D. Roosevelt, a member of the Grange for a quarter century, sent a personal message of greeting to the Sacramento convention.

Ask AAA Amendments

In regard to the AAA, the Grange asked that the act be amended to increase farm control and eliminate bureaucratic methods. It also asked that a reward be given farmers for growing crops for which there is a shortage, and for development of new crops; crop insurance for thrifty farmers to the extent of a return equal to seed and labor investment; prevention of crop signers from growing crops of which there is a surplus.

Permanent features of a definite agricultural program endorsed by the Grange looked to the development of cooperative marketing; diversion of agricultural products to industrial uses; a sound land use program with definite efforts to check soil erosion; reforestation, and the debenture method to open foreign markets.

Fat Cattle Shows Reflect Progress

Uptrend in Livestock Industry Demonstrated in Kentucky-Tennessee Events

Over a thousand animals furnished by 4-H Club members, vocational agricultural students and adult farmers from thirty counties representing all sections of the state competed for the $1600 in prizes at the eleventh annual Tennessee Fat Cattle Show and Sale, Union Stock Yards, Nashville, on December 11-13.

Preceding Tennesee, the fourteenth annual Kentucky Show was held at the Bourbon Stock Yards in Louisville, with 2,000 head of highly finished cattle on display. Entries in Kentucky included 700 head of 4-H Club calves from 34 counties, 222 head of Future Farmers of America calves, and over a thousand head by adult farmers from both Kentucky and Tennessee.

Bring Good Prices

The Tennessee sale brought excellent prices with buyers representing the leading meat packers of the country taking an active hand in the bidding. Prizes were provided by the Tennessee State Department of Agriculture and the Hereford, Angus and Shorthorn Breeders associations.

The animals entered in the Tennessee event were on feed from early in 1935, under the direction of county agricultural agents and vocational agricultural teachers all working in cooperation with L. A. Richardson, University of Tennessee extension livestock specialist.

There were five classes for junior farmers consisting of 4-H Club members and agricultural students, and four classes for adult exhibitors.

Wins For Eleventh Time

In Kentucky, the carload grand champion, for the eleventh time in the 14 shows, went to the Garrard County 4-H Club on a load of Angus calves. Miss James Charlotte Sanders, of the Garrard club, showed the grand champion single calf. This is the sixth time that Garrard County has won this award.

In the Kentucky Future Farmers division, the Liberty High School at Prospect, had the champion carload, and Nelson E. White, Clark County High School, Winchester, the champion calf.

In the adult classes, Bottorff Bros., Goshen, had the champion heavy carload of steers, and J. D. Gay & Son, Pine Grove, the champion light load.

Trips As Well As Cash

In addition to the large cash awards, the Kentucky show distributed to 4-H Club members, trips to the National 4-H Club Congress and the International Live Stock Exhibition in Chicago. These trips were awarded by American Angus, Shorthorn and Hereford Breeders associations. Miss Sanders won the Angus trip; Miss Anna Mae Jones, Fayette County, the Shorthorn award; and Charles Carr, Fayette County, the Hereford award.

Miss James Charlotte Sanders and her grand champion calf at the Bourbon Stock Yard show.

Poultry Experts *Give Rules for* GREATER PROFITS

Breeding-Feeding Are All-Important Factors

Breeding of good healthy stock, carefully selected and properly mated, is the first step in securing high producing poultry flocks according to A. J. Chadwell, University of Tennessee extension poultry specialist.

The male is most important from the breeding standpoint, and should be selected with great care, Mr. Chadwell states. It may not be possible at this season of the year to make the final selection of cockerels to be kept for breeders. It is therefore, well to keep about double the number that will be needed for breeding purposes. In selecting cockerels, look for vigor, early maturity, type and color.

Feed During Moulting

In discussing the increasing importance of poultry in Tennessee, Mr. Chadwell emphasizes the necessity of proper feeding. He points out that it is a mistaken sense of economy that induces poultrymen to feed their hens sparingly during the moulting period. Attempts to save feed at this time costs the poultrymen more in the long-run. When hens are fed scratch feed alone or only a limited amount of mash, the moulting period is prolonged and they do not put on the necessary weight to carry them through the next laying season.

The result, says Mr. Chadwell, is a drop in egg production that more than offsets the money saving by skimping on feed.

Moulting hens which have passed through a heavy laying period are low in weight and vitality. They are also losing feathers which must be replaced. They need a balanced diet with plenty of protein to build up muscular and glandular tissue. A balanced mash and liberal ration of scratch feed should be before them at all times.

Above: J. Holmes Martin, Professor Poultry Husbandry, University of Kentucky, and Director Poultry Work Kentucky Experiment Station.

Below: A. J. Chadwell, Tennessee Extension Poultryman

Green Feed Best

Green feed has long been regarded as one of the best feeds for poultry of all kinds, according to Mr. Chadwell. It increases the rate of growth, egg production, hatchability of eggs, and resistance to disease which are most important. It lowers the cost of producing a pound of poultry and the cost of a dozen eggs.

From October to March represents the period that poultry raisers fatten turkeys and capons and when egg prices reach their peak. This time a small field or patch of crimson clover, small grain and ryegrass furnishes excellent green feed.

Skimmilk Source of Protein for Chickens

By J. HOLMES MARTIN
Kentucky College of Agriculture

The hen's egg is composed of two-thirds water, one-eighth egg white which is largely protein, one-tenth yolk which contains all the fat, and one-tenth of the weight of the egg is shell. If you expect to obtain the best results from your hens you must give them feed containing these essential nutrients. Here I wish to discuss the problem of supplying protein to the flock.

Milk contains minerals, vitamins, water and many other elements necessary to life, but for chickens it is fed primarily for its protein element. Since the advent of the cream separator much of the skimmilk has been used on the farm to feed the hogs and chickens. Repeated experiments conducted here at the Experiment Station Farm have proven the value of skimmilk and buttermilk as sources of protein for chickens. In one of the most interesting of these experiments we compared the value of corn alone; corn and oats; corn and wheat; corn, wheat and oats as grain mixtures for laying hens, when supplemented with skimmilk as the chief source of protein.

Milk Drinkers Laid

Barred Plymouth Rock pullets were used in these tests. Grit and oyster shell were kept before all the pens at all times, as well as skimmilk. No water was given. In comparing the results in egg production it was found that the pen receiving the mixture of corn 2 parts and wheat 1 part in addition to all the milk they would drink, laid the most eggs over the three-year period. Next highest was the pen fed on corn, wheat and oats in a 3-1-1 ratio. Corn and oats gave the next best results. Profit over feed cost was also the best from the pen receiving the corn and wheat along with

(Continued on Page 11)

Cooperative Council Seeks to Coordinate all Commodity Groups

Culminating three years of conferences, Kentucky now has an active cooperative council, having for its purpose the coordination of the activities of the state's cooperative organizations, of which there are about 300.

The council was organized following the 1935 cooperative conference at the College of Agriculture. Thomas E. Johnson, Elkton, manager of the Eastern Dark Fired Tobacco Association, is president; Gaston Coke, Auburn, president of the Louisville Livestock Marketing Association, vice-president, and Frank Taylor, Lexington, secretary of the Burley Tobacco Growers Cooperative Association, secretary.

Three Directors Named

The board of directors is composed of these officers and R. R. Giltner, Eminence, president of the Kentucky Lespedeza Growers Association; Ben Allen Thomas, Shelbyville, president of the Falls Cities Cooperative Milk Producers Association, and Boone Hill, Benton, president of the Western Dark Fired Tobacco Association.

The department of markets and rural finance at the State College of Agriculture is to be closely associated with the council, and L. A. Vennes and E. A. Johnson of that department are acting in an advisory capacity to the council.

The by-laws of the council state in part that its purpose shall be:

(a) To promote, foster and encourage agricultural cooperation.

(b) To encourage and promote a closer mutual relationship between all farmers' cooperative business associations * * *.

(c) To aid in the development and maintenance of a spirit of cooperation * * *.

Will Assist Co-Ops

(d) To assist farmers' cooperative associations engaged in marketing farm products, purchasing of farm supplies, credit, and other business activities among farmers, Federal and State research, teaching and extension officials, and other agencies such as the Farm Bureau, Grange, etc., in the State, in the promotion of educational methods which will insure a better understanding on the part of growers and the public generally of the principles and practices of cooperative business organization.

(e) To encourage the formation and maintenance of soundly planned cooperative associations * * *

Farm-Home Meeting Program Announced

Ky. Convention at Lexington January 28-31 To Have Many Noted Speakers

The 24th annual Farm and Home Convention will be held at the College of Agriculture, University of Kentucky, at Lexington January 28-31.

There will be two general sessions—one for farmers and one for homemakers. The women's meetings will conclude with the annual conclave of the Kentucky Federation of Homemakers on Friday.

The tentative program of speakers include Dr. C. C. Taylor, Washington, president of the American Country Life Association; Dr. Michael M. Davis, Chicago, advocate of cooperative medical care in rural communities; Dr. J. R. Sampey, Louisville, president of the Southern Baptist Theological Seminary; E. Parmalee Prentice, Williamstown, Mass., cattle breeder; C. C. Davis, chief of the AAA, Washington, and Dr. J. B. Hutson, chief of the tobacco section of the AAA; Dr. E. G. Nourse, president of the Brookings Institute, Washington.

Other speakers will be: Morris L. Cooke, administrator of the Rural Electrification Administration, Washington; Ernest Rice, president of the Louisville Federal Land Bank; Ben Kilgore, secretary of the Kentucky Farm Bureau Federation; Mrs. Robert Bingham, wife of Robert Bingham, ambassador to Great Britain, and others.

Homemaker's Pages

4-H Girls Keep House

By MRS. JOHN LAND

This is the second year twenty former 4-H Club girls have done cooperative housekeeping at Shelby House, University of Kentucky, Lexington. In this way a college course is within the reach of a number who could not otherwise meet the expenses. The idea was so successful the first year that there was a waiting list this year.

The girls do all the work, dividing the tasks into eight divisions and the girls into teams so as to avoid monotony and broaden the training in home-making. Credit is given at current prices for any supplies that may be brought from home. The total cost per girl the first year of the experiment was $152, the food averaging twenty-five cents per day per girl.

Shelby House was named for the first governor of Kentucky, having been built for his daughter as a present from him. It has been modernized by up-to-date electrical equipment so the girls have the benefit of time- and labor-savers.

The ages of the girls occupying the house run from 16 to 20.

Miss Anita Burnam, Field Agent in Club Work, and a house mother have supervision of the project. Among the girls occupying the house are a national champion in canning judging, state and county champions in canning, sewing, cooking, and livestock projects.

These girls are courageous and ambitious enough to undertake cooperative housekeeping in order to attend college. They do all the housekeeping and use many of their home products at current prices. Food costs during the first year of the undertaking averaged twenty-five cents per day per person.

Home Industries Revived

REVIVAL of home industries has received considerable attention of rural educational sources during the past year, and many county and state fairs hold striking displays of a wide variety of home handicraft reflecting a high degree of artistry and skill both in design and in craftsmanship. Hooked rugs, quilts, rag rugs, carpets and many other time accomplishments are coming back into their own. Many articles of furniture such as stools, chairs, tables, book-shelves and other things are being turned out in mountain homes and are finding ready sale.

Sweaters are made from native wool dyed with vegetable colors obtainable in this immediate vicinity have been a recent addition to the handicraft activity.

It has been predicted that this revival of home industries may lead to a widespread interest in homespun jeans, a fabric once widely used for men's clothing.

The restoration of homecrafts is important not only because of the monetary return it brings to rural sections, but also because it marks a determination to follow the live-at-home program, advocated by the educational agencies. Of deeper significance is the cultural implication.

Farm Women Meet

A program of interest to farm women of the nation was presented at the first annual convention of the Associated Women of the American Farm Bureau Federation in Chicago, December 6 and 7.

The convention dealt broadly with subjects of primary importance to farm homes and farm home-makers.

Miss Mary Sue Wigley, of Alabama, lecturer on economic problems of the home and citizenship; Miss Ella Gardner, Washington, D. C., formerly of the Children's Bureau, Department of Labor, and now in charge of applied recreation, United States Department of Agriculture; Mrs. Emily Newell Blair, Washington, D. C., Chairman, Consumers' Advisory Board, were among the featured speakers on the two-day program.

Associated Farm Women is an organization formed under the auspices of the American Farm Bureau, a year ago. Mrs. Abbie C. Sargent, Bedford, N. H., served as first president, Mrs. Ellsworth Richardson, Iowa, vice-president. Mrs. Florence B. Bovette, Nevada, secretary, and Mrs. Charles W. Sewell, Indiana, administrative director.

The organization is set up in 33 states. Among the state leaders were, Kentucky, Mrs. W. M. Oliver, Paducah; Maryland, Mrs. Harry Williams, Worton; Tennessee, Mrs D. W. Bond, Jackson; Virginia, Mrs. Guy Roop, Snowville; West Virginia, Mrs. John G. Lang, Bridgeport.

In this December meeting, rural housing, homestead beautification, recreation for the farm family, preservation of native home industries, and legislation affecting women and children were subjects given careful consideration.

By proper cooking, savory and relatively cheap dishes can be prepared from the shoulder, breast, flank and neck of lamb. The flavor of lamb combines especially well with certain relishes and vegetables. Salads and flavorful dressings also may be used.

Above: Two women frequently work together on one rug.

Left: Basket weaving instruction is frequently included in the program of farm women's camps.

Below: A Home Demonstration group at Forest Grove School. Rappahannock County, Virginia, making hooked rugs.

Cold Weather Menus

Cold winter days throw a double burden on the planning of the daily menu, not only due to the more robust appetites of the entire family but to fortify bodies against colds, flu, grippe and the rigors of the weather.

Roasts provide especially nourishing, sustaining dishes for the main meal of the day. Baked ham, roast fresh ham, crown roast of lamb, roast chuck, stuffed shoulder of veal and baked stuffed spareribs provide a series of meals that will win the family applause.

From the housekeepers' standpoint roasts are satisfying since leftovers can be used to provide a number of attractive dishes. Sliced beef in mustard sauce from the remains of a roast makes a second appetizing dinner; then there is veal ramekins, meat pie, American chop suey, and any number of other ideas that clever cooks employ.

Griddle cakes give a little heavier breakfast, very satisfactory for January mornings. Happily there are an endless variety, all the way from plain griddle cakes through sour milk cakes, blueberry cakes, rice cakes, meat cakes, bread cakes and on and on.

Soups, too, meet the requirements of a winter diet. Both chowder and cream soups satisfy hungry January appetites. Chowder, by the way, is properly a stew rather than a soup. Originally made with clams, although any kind of fish can be used. The story goes that a party of French voyagers shipwrecked on our eastern shore, saved some potatoes, onions, bacon and a few tins of sea biscuit and one big pot of "chaudiere." They dug some clams and put them in the

Dainty and Demure

IN a striking contrast with styles of 1936, this charming costume, the height of fashion on southland plantations in the 19th Century, was designed by Travis Banton, to be worn by Margaret Sullavan (pictured on page 12) in the Paramount picture, "So Red the Rose." With a grey crepe foundation, an over-dress is made of grey organdy folds. The tucked organdy collar and cuffs are trimmed with neat little bows of black velvet ribbon.

pot with the potatoes, onion and bacon. When this concoction was cooked tender they added the sea biscuit and ate the dish with such relish that they continued the impromptu recipe and thus was born chowder.

One soup that is good in warding off colds is made with one cup of raw spinach one quart of milk 2 tablespoons of flour 2 tablespoons melted butter and a tespoon of salt. The spinach should be chopped or ground finely, be sure not to lose the juice. Heat the milk to the boiling point, add flour and butter, then the spinach and salt—cook about ten minutes.

Sliced Beef in Mustard Sauce

2 Bouillon cubes
3 tablespoons butter
2 medium onions
3 tablespoons of flour
1 tablespoon minced parsley
2 tablespoons prepared mustard
12 thinly cut slices roast beef
salt and pepper.

The onions, chopped fine, should cook in the butter until yellow. Flour, parsley and bouillon should then be added. Stir until thickened, then add mustard, salt and pepper.

Veal Ramekins

3 cups bouillon
1 cup rice
½ pound diced cooked veal
1 tablespoon chopped parsley
8 mushrooms, cooked, chopped
3 tablespoons white sauce
2 eggs
salt and pepper.

Cook rice in bouillon until tender, drain. Mix with veal and tongue cut in strips with parsley, white sauce and mushrooms. Add egg yolks and whites well beaten. Line small ramekins with the rice, fill with the meat mixture and steam for twenty minutes. Serve hot with tomato sauce.

Smart Styles For Late Winter

Patterns of these distinctive 1936 styles may be obtained from the Pattern Department of THE STATE FARMER, by sending 25 cents with the coupon below.

EASY TO MAKE

Pattern 3087. One of the most charming features of this Misses' smart daytime frock is that it is easy to make. The sleeves are shirred in at the shoulder and drape softly over the top edges of wide stitched cuffs. Cuffs cut with points to harmonize with new deep pointed stitched collar. Pattern available in sizes 12, 14, 16, 18, and 20. Corresponding bust measurements 30, 32, 34, 36, and 38. Size 14 requires 4⅜ yards of 39 inch or 2⅝ yards of 54 inch fabric.

Above:

AFTERNOON FROCK

Pattern 3095. Hollywood sponsors this stunning afternoon frock worn by Paramount's lovely Gail Patrick. It features a novel halter effect shirred to the collar and fastened in the back. The waist underneath is completed in one piece. Sleeves cut fashionably full add a finished touch. Pattern available in sizes 12, 14, 16, 18, and 20. Corresponding bust measurements 30, 32, 34, 36, and 38. Size 14 (32) requires 4¼ yards of 39 inch fabric.

SLENDERIZING

Pattern 3010. Printed shantung serves for this unusually wearable and attractive house frock which features a slimming panel all the way down the front. Easy to make, this cotton frock will stand a world of service without losing its appeal. Pattern is designed for sizes 34, 36, 38, 40, 42, 44, and 46. Size 36 requires 5 yards of 35 or 39 inch fabric.

SUNBURST PLEATS

Pattern 3089. Sylvia Sidney, Paramount star, featues this dazzling sunburst pleat creation. From turned-down braided collar, the lines are gracefully carried by full kimono sleeves with braiding around the waistline, and the simplicity of the skirt serves for many different occasions. Patterns available in sizes 12, 14, 16, 18, and 20. Corresponding bust measurements 30, 32, 34, 36, and 38. Size 14 (32) requires 3¾ yards of 54 inch fabric.

Patterns of dresses pictured above 25c. Please remit in coins or stamps (coins preferred). Give your name, address, pattern number and size. Mail order to Pattern Department, State Farmer Section, Fletcher, N. C. The new 32 page Fall and Winter Pattern Book available at 15c each, or if bought in combination with pattern, 35c for pattern and book.

Agents Make Plans For 1936 Program

Twenty-first Annual Meeting Largest Ever Held in Tennessee

At their twenty-first annual meeting in Knoxville, early in December the County Farm and Home Agents of Tennessee reviewed the work accomplished during 1935 and outlined the program for 1936.

The meeting brought together the largest group of workers in the history of Tennessee Agricultural Extension Service which had its beginning in the state in 1914. There are now 223 agents employed.

The marked expansion in recent years is due, in a large measure, to the administration of the AAA, cooperation with the TVA and other agencies in the soil conservation program and other similar activities.

"Better Homes on Better Farms" is the slogan of the Agents in Tennessee.

Water-Proofing Saves

(Continued from Page 2)

later filled with a hot asphalt compound, or water-proof cement mortar.

Drain Tile Recommended

Basements located where natural drainage conditions are poor are likely to become wet even though the walls and floors are cemented. Where surface water or ground water seeps through the walls or floors, a tile drain should be laid, provided an outlet can be obtained within a reasonable distance. If the walls are of masonry or field stone, they are likely not to be water-tight, unless void spaces between the rock and from the bottom of the foundation to the surface of the ground are thoroughly filled with a good mortar. A mortar composed of one part of cement to 3 parts of sand should be used. If the basement is dug on poorly drained land, in addition to laying a tile drain it is well to use a waterproofing compound applied to the outside surface of the walls.

Jesse B. Brooks

The usual practice is to lay a 4-inch agricultural drain tile around the outside walls. After digging the trench for the tile, and before laying the tile, if the walls are to be water-proofed, they should be thoroughly cleaned. The water-proofing treatment consists of painting or coating the outside wall surface with an impermeable film which seals the walls so the water cannot enter.

SOIL EROSION CONTROL UNIT ON THE JOB

This terracing was done last summer on a rolling farm in Rutherford County, Tenn., by a crew using tractor bought by the County Erosion Control Association, a cooperative of farmers. Rutherford County is one of many counties in Tennessee which joined the soil erosion control program sponsored by the University of Tennessee and TVA.

Erosion Control Groups Organized

Terracing Work to be Expanded During 1936; To Include All Counties

TERRACING of Tennessee farmlands, as the first step in soil erosion control, received a sharp impetus the past year, with the organization of community and county soil erosion control associations.

While it has been the policy of a certain type of farmers to employ terracing, over a period of years, by far the larger percentage permitted washing of topsoil to continue, and made no serious effort to check the deepening and widening of gullies.

All Forces Combined

In the past year, however, county agents and soil erosion experts of the Tennessee Valley Authority have joined in the state, to check erosion. Organization of soil erosion control associations has been the work of county agents, with the result that last fall, organizations owning tractors or horse-drawn terracing machines were "booked up solid." By pooling funds and scaling down costs, some unusual records of low cost terracing have been reported.

In a number of TVA counties a series of demonstrations were conducted with small individual terracing machines, using power available on the farm. Terracing machines were used with 6-, 7-, and 8-ft. blades. In one such test in western Kentucky a total of 1870 feet of terrace was built in 5 hours and 40 minutes. The cost was at the rate of $12.75 per mile. Approximately 20 acres were protected at a cost per acre of 22 3/5 cents.

The policy, in forming the associations, was to hold a terracing demonstration upon a tract that could be considered typical in contour, for the community or county. Talks were made in line with the land utilization program of the U. S. Department of Agriculture and Extension Service. Organization of soil erosion control associations followed.

Work Started Early

Demonstrating began in the early summer, and more than a dozen counties of middle Tennessee turned to this new way of terracing before the summer was over. In west Tennessee, the same procedure was under way, and in east Tennessee it had started earlier, due to the TVA.

At present terracing plans have been incorporated into the general land planning program of the extension service for 1936 and will be expanded.

Kentucky Youths Take High Honors

17 Outstanding Delegates Attend 14th National Club Congress

Seventeen outstanding Kentucky representatives of 4-H Club work for 1935 attended the 14th National Club Congress in Chicago, taking part in national contests and enjoying the hospitalities and sightseeing opportunities presented.

One of the big events for the Kentuckians was the national style revue in which Mary D. Porter, Hopkins County, winner of her county and state contest was their entry. She acquitted herself admirably, placing in the Blue Ribbon runner-up group.

Sarah Jane Potter

Contest Is Exciting

The contest proved to be one of the most exciting Miss Porter had ever taken part in as all of the contestants were scrutinized in every detail for the workmanship and appropriateness of their garments and the grace in which they wore them. The judges comprised state club leaders and Chicago stylists, including Miss Jane Alden of the Chicago Mail Order Company, which sponsored the revue for the sixth year.

Prominent in the delegation and representing the most all around record in a girls' work was Sarah J. Potter of Rich Pond, Warren County. At 18 she had completed six years of club work, four of which were in foods, three each in canning and clothing, two in room improvement and one each in poultry and swine.

Captures Many-Prizes

Prizes she had won on 140 articles at county and state fairs earned $69 in cash premiums and three trips to state junior week.

Miss Potter was chosen by State Club Leader J. W. Whitehouse to receive the Montgomery Ward free educational trip to Chicago and was a contender for the $400 scholarship for national championship which was won by an Oregon girl.

Near Top at St. Louis

Three Kentucky boys, students in the College of Agriculture at Lexington, won third honors in judging cattle at the great National Dairy Exposition in St. Louis, outclassing teams from a host of other states.

Eugene Culton

The three boys are Eugene Culton, of Parksville; Maurice Meshew, Arlington, and Noel Watson of Somerset.

Eugene Culton was the third best individual judge of all breeds. The team was trained by George M. Harris, extension field agent in dairying for the College of Agriculture.

First at American Royal

Kenneth Anderson, a member of the livestock judging team from the Picadome Consolidated School in Fayette County, Kentucky, was the best judge of dairy cattle at the American Royal Livestock Exposition in Kansas City, Mo. His reward was a $300 scholarship to an agricultural college.

The Picadome team was trained by Watson Armstrong, Smith-Hughes vocational agriculture teacher.

JEST A-WHITTLIN' AN' A-THINKIN'

BY PETE GETTYS

Along about quittin' time after following a 14-inch plow all day, did you ever stop and wonder how many pounds of dirt you had turned over during the day? It's easy to figure—if you're in a figurin' mood. An acre of soil one foot deep is called an "acre foot." Sandy loams weigh 3½ million pounds per acre foot; clay lands 3¼ million pounds; garden soils 2½ million pounds. So if you have done an honest day's work—one and eight-tenths acres—and have been turning the garden — when you knock off at quittin' time you will have lifted exactly 3125 tons, if you are plowing a foot deep—and believe me, your tired old back knows it!

—o—

Thinkin' about turkeys, along comes the Department of Agriculture and tells us of a series of experiments in trying to breed a new model turkey — sorter streamlined. The experiment seeks a turkey with—bad news for Willie—smaller legs, with—good news for dad—broader backs, and with—great news for the entire family—plum breasted bodies.

"The more we can get this turkey to look like a duck, the better we will like it," said one official at the department's research center at Beltsville, Md. That may be all right, but it'll look mighty funny to see an old duck-legged gobbler waddlin' around—don't look like there's any use for a cow's legs being so long, either—'cept you'd have to jack her up to milk her.

The Department says that what most house-wives seem to want is a fully grown bird weighing from 12 to 15 pounds dressed. Also cooking ovens and pans now-a-days will not accommodate a dressed turkey weighing more than 18 to 20 pounds.

—o—

And talkin' about figurin' — do you know what it costs not to have a machine shed, or if we do have one, what it costs to leave the plow in the fence row? A study of machinery on 21 farms in Ohio showed that the average investment in equipment was $773.92. Under good management this equipment will last 14 years, but without a machine shed it will last but 8 years. It won't take much of a figurer to show what any farmer is paying to leave his machinery out in the weather.

—o—

'Course going to church don't make a Christian any more than a bank account makes a man successful — but they are powerful good signs. Cow testing ain't going to guarantee a man success with his dairy herd—but it's a pretty good indication of what kind of a dairyman or breeder he is. Nor does testing make a cow give any more milk, as an old-timer argued the other day, and that's true—but testing proves pretty conclusively whether she should go back in her stanchion or to the butcher's — and that's something right important to know.

The Tag End *of the* Hunting Season

By DICK WOOD

Looking over the sportsmen's calendar, I am dismayed to note that the hunting season went out with the old year in about half of the southern states. Nevertheless small upland game shooting is still legal in the neighboring states of Virginia, North and South Carolina and Tennessee.

The decrease in feathered game the past few years has reached alarming proportions. The annual duck kill has been falling off at the rate of about two million ducks per season, which is not attributed to lack of activity on the part of sportsmen. The ducks simply haven't been there to kill.

Expect Increase

Severe droughts, ever increasing drainage projects, and more persistent hunting have contributed to bring this situation about. However, now that the Federal government has regulated wildfowl shooting to a 30-day season, put the ban on automatics and pump guns holding over three shells and the use of live decoys, and closed the season entirely on some species, we may expect a gradual increase in wildfowl tribes.

Rabbits, squirrels, quail, doves, grouse and turkey may be hunted this month, in accordance with local laws in the states above mentioned. Be sure to familiarize yourself with the laws before going afield.

There is no more exhilarating, healthful sport than upland shooting. It calls into play every muscle in the body, in climbing fences, jumping ditches and walking countless miles of uneven terrain. This mid-winter hunting comes at a time when farm work is slack, and the farmer needs a little leg stretching.

The Gun For Upland Shooting

I am a keen addict for the 20 guage shotgun for upland shooting. A twenty requires closer shooting, and therefore gives the game a slight advantage over the use of a 12 guage, yet patterns are close, hard hitting and equally effective in making clean kills. The pattern is not so wide and the range may average ten yards less, otherwise the advantages are on the side of the smaller bore.

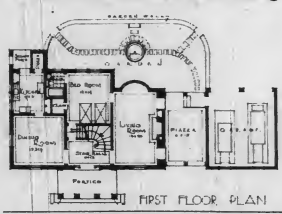
Of course, the 16 guage is perhaps a slightly better all-around bore, and if you must limit yourself to one scatter gun, a sixteen would be a sensible choice. However, like the position the 28 guage occupies between the 20 and the 410, I've always felt the 16 is a sort of odd size.

If you're buying a new gun, you may find it difficult to choose between a double and a single barrel, pump or automatic. Now that Federal law limits the latter arms to three shots, I would prefer the advantages of two barrels, of diffeent chokes, particularly if my range of shooting extends from quail to wildfowl or turkeys. A 12 would be preferable for this widespread shooting; for the smaller game, a twenty; either bore 26 inch barrels, right modified or improved cylinder, the left full choke. By all means, automatic ejectors, if you can afford this improvement.

True to the Traditions of the Old South

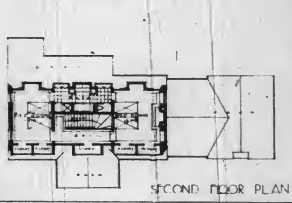
Inspired by larger ancestors, the plantation houses of Maryland and Virginia, this Southern Colonial Cottage admirably fills the needs of a small family of today. The tall columns and broad steps of the stately little portico bid all to enter and enjoy the gracious hospitality of plantation days.

The main body of the house is very compact and easy to live in. The garage might have been the detached kitchen in Colonial times and the piazza follows the same details as the covered passageways used by Washington at Mount Vernon. The over-sized brick laid in Flemish bond with white cement mortar and very narrow joints. The roof will look well covered with a medium weight, rough butt, black slate, and the exterior woodwork should be painted a flat white.



In addition to the exterior appearance the plan arrangement has much to recommend it. The entrance is made up the broad stone steps, across the flagged floor of the portico, through heavy paneled double wood doors into the central stair hall. This little hall has the advantage of a twelve foot width and contains a half winding stairway as well as sufficient wall space for the required furniture.

To the left of the hall is the dining room behind which is the kitchen. The kitchen has a storage pantry and a service porch in addition to the cabinet space shown within the room proper. A composition tile floor and base having a washable paper wainscot above would be very pleasing in this space. The walls above the wainscot, the ceiling and the woodwork all being enameled. The dining room might well have a wood wainscot up to window stool height and a scenic paper above that point, the ceiling being plastered.



The living room is just to the right of the stair hall. The fireplace side of the room is wood paneled to the ceiling, the mantel being of wood and the doors to the piazza are heavy paneled and set in deep, paneled wood jambs. The other walls are papered using a colonial print paper with small figures. The room has a bay window at the south end that overlooks the garden which is enclosed in a high brick wall. The odor of boxwood, jasmine, and magnolia together with the smaller flowers of the garden will always fill this room.

Average approximate construction cost, $8,500.

Complete plans, blueprints and specifications for this cottage will be furnished for $25.00. Address, Home Plan Department, STATE FARMER SECTION, Fletcher, N. C.

Tennessee Turkey GrowersCooperate In Selling Birds

1000 Farmers Shipped 19 Cars To New York Market At Thanksgiving

By A. J. SIMS,
Extension Editor, University of Tennessee

In the Fall of 1932 the leading growers of Greene County made the first cooperative shipment of live turkeys consigned direct to the New York market, shipping the week before Thanksgiving for the Thanksgiving market. This shipment was so profitable to the farmers that similar movement was started in Washington County for the Christmas market, and again the farmers of both counties were highly pleased with the prices returned. An experimental shipment of poultry was made in January of 1933 and the farmers decided to organize a shipping association for handling both turkeys and poultry, as a result the Tennessee Poultry Producers' Association, Inc., was organized, a farmer-owned and controlled organization.

This organization has grown from these two counties shipping nine (9) cars in 1932 through spring of 1933, to sixteen counties, ranging from Obion County in West Tennessee to Sullivan County in East Tennessee, shipping since Thanksgiving 1934, through May 31, 1935, forty-two (42) cars of poultry, selling for $139,256.60, which was distributed to the 3,000 members over the State .

A total of $196,420.89 has been paid to the members of the Tennessee Poultry Producers' Association, Inc., and the rapid growth of the organization indicates that the wide-awake poultrymen of Tennessee are fully aware of the benefits that are available through the cooperative marketing of their poultry.

More than 1,000 Tennessee farmers, representing 17 counties, shipped nineteen carloads of turkeys in a cooperative shipment to large consuming centers in the East, principally New York, for the Thanksgiving holidays, this year. The shipment netted growers $58,840.50. Hens netted 22½ cents per pound and toms 20 cents.

The shipment was the largest cooperative shipment of turkeys ever to leave the State. . The turkeys were loaded in specially built poultry cars where they can be properly fed and watered. Counties consigning turkeys were: Campbell, Claiborne, Clay, Cocke, Grainger, Greene, Hawkins, Hancock, Hamblen, Jefferson, Johnson, Lincoln, Overton, Putnam, Sullivan, Washington and White.

The officers of the association are: J. M. Alexander, President; Ralph Carson, Vice-President; and R. H. Bible, Secretary-Treasurer. The office of the association is in Morristown, Tennessee, and all poultry is paid for through this office. There were 3,855 checks issued through this office last season. An accurate record of each shipment is kept, with a complete card index on each member, showing date and car number of shipment. The consignor's receipt is made in triplicate, the member receiving the last copy at at car when the poultry is weighed in, and the following week the second copy is mailed to the member along with his check. The original copy is retained at the office as a permanent record.

By having the farmers deliver their poultry to the car and by buying feed in large quantities the association has been able to reduce the handling charges to a minimum considerably lower than is possible on a single car basis.

Central Feed Barn and Laying House at Lexington

Skimmilk Source of Protein for Chickens

(Continued from Page 5)

the skimmilk, oyster shell and grit.

It was concluded from these experiments that corn with skimmilk and oyster shell was a satisfactory ration for egg production. Wheat in the ration for laying hens reduced slightly the amount of feed consumed and returned a profit over feed cost, in comparable pens, equal to or greater than that of pens receiving no wheat. Oats in the grain ration for laying hens increased feed costs and reduced the profits over feed cost per hen. This was especially true in the case of oats of low quality, since they are high in fibre and light in weight.

Two other pens were added during the last two years of this experiment. One pen received granulated buttermilk instead of the skimmilk and the other received in addition to skimmilk a mash made up of bran, shorts, corn meal, and tankage. The grain was the same in both pens namely, corn 70 percent and wheat 30 per cent. The results showed that granulated buttermilk increased the cost of feeding a hen and did not return as much profit over feed cost as skimmilk. It must be remembered that sour skimmilk was fed and kept before the birds at all times. They consumed it at the rate of about four gallons per day for each 100 hens. No water was given to drink as long as milk was available.

Balance Not Complicated

We may conclude that a balanced ration is not necessarily a complicated one, since very satisfactory egg production can be secured from a ration consisting of shelled corn, sour skimmilk and limestone chips or oyster shell. Chickens fed only shelled corn for grain and no mash, but with sour skimmilk always available continue in production throughout most of the year and do not tend to get overly fat. A ration containing in addition to the grain mixture, a mash of ten per cent meat scrap or tankage and all the milk that the flock will consume, will give best results. If you want your flock to produce the maximum number of eggs give a mash containing from 5 to 10 per cent meat scrap and all the milk the hens will drink along with grain and oyster shell or limestone chips.

Another experiment conducted here at the Experiment Station Farm showed that it costs practically twice as much in feed to produce a dozen eggs where no skimmilk was fed. The use of milk not only increased the number of eggs but reduced the cost in feed. A comparison of the net return over feed shows that the profit from the flock is greatly increased by the use of milk.

Increases Fertility

Still other experiments have shown the value of milk in the diet of the chickens in increasing the fertility and hatchability of the eggs as well as the growth of young chicks. Then, too, experiments and practical results obtained on farms throughout the state have proven over and over again the value of milk in the diet of the baby chicks and growing stock. For example, a simple all-mash that has been used most widely during the last four or five years here in Kentucky is composed of only ground yellow corn, wheat middlings, bone meal and skimmilk. Some of the best chickens in the state have been produced on this simple ration up to 12 weeks, then changed to a laying ration.

It doesn't matter if skimmilk is fed sweet or sour; the birds enjoy it either way. Our experiments show that a gallon of skimmilk or buttermilk is worth as much as a pound of tankage or meat scrap in poultry feeding. This means that you dairymen can market your skimmilk through poultry at 2½ to 3 cents a gallon. A good flock of chickens is a dependable source of income for the farmer who markets cream and has skimmilk available.

1935 Cotton Brings Growers $30,162,908

Valuation of the last four cotton crops in Tennessee has been set as approximately $95,000,000.

We are informed of this by the office of C. E. Brehm, Tennessee AAA director, which estimates the 1935 crop as worth $30,162,908, including rental payments and parity benefits. The 1935 crop in Tennessee was approximately 380,000 bales.

In 1932, the state produced 480,352 bales. The average price a pound ranged in the vicinity of six cents. Thus, despite a crop which totaled 100,000 bales in excess of the present crop, Tennessee growers received only $14,410,560..

The year 1932 was the last crop season ahead of the AAA. The price in 1933 per pound averaged nine cents. That year the state's crop valuation climbed to $20,700,000. AAA benefit payments were $3,201,260.

In 1934, the state's total production stood at approximately 400,000 bales. Its value was fixed at $24,120,000. Cotton growers, for signing AAA adjustment programs, received $2,938,509 in rental and $873,714 in parity payments. The total value, therefore, was $27,932,223.

Now in 1935, the crop alone is valued at $26,600,000. And to that is added $2,504,400 in rental payments. And to that, also, is included the item of $1,058,508 in parity payments.

FARM AND HOME FACTS

Clean up and spray the orchard this winter and count your blessings in more and better fruit next fall.

Fall fresh cows pay best. Breed them in November, December or January to freshen next September, October and November.

The poultry house should be more than merely a place for the hens to roost. It should be dry, light, clean, and free from drafts

It is the little things with sheep that make for success or failure. The most important thing that can be given them is the eye of the flockmaster.

A pedigree gives an animal a record, something the owner or buyer can investigate—determine the history of its ancestors just as he might some person.

CLASSIFIED DEPARTMENT

If you have anything to sell or trade, you will find a small classified advertisement in these columns will bring you gratifying response. A postal card addressed to THE STATE FARMER, FLETCHER, N. C., will bring you complete details as to cost, circulation, etc. Why not plan today to utilize this service?

BABY CHICKS

LEADING PACKING HOUSES AND POULTRY RAISERS TELL Why St Paul TO RAISE CARTER'S CHAMPION CHICKS

If you raise chickens to make money, read these facts. FIRST: Egg and poultry buyers—packing companies of national prominence have gone on record as preferring CARTER and brothers from Carter flocks. Their letters are in our catalogue. Read them. SECOND, miners say: "I sold $1262.36 worth of eggs from 400 pullets. Netted $47.67 on 127 roosters. I have the books to show this"—Beatrice Ellis, New York. A. M. Swisher, West Virginia: "Sold 67 roosters at 45c a lb.—2½ lbs. at 10 weeks. The pullets never miss a day laying—never saw such large eggs. Last January I got 60 dozen eggs (from 23 pullets)." Mrs. E. Schoenfeld, Texas: "I bought 250 Leghorns and had just wonderful luck. Out of 120 hens I got as much as 120 eggs a day—my eggs always went for Class A—between 900 and 960 worth of eggs each month. I CAN'T possibly quote all our customers' letters here. If you want PROFITS in any breed, and REASONABLE CHICK PRICES write at once. Send chicks, also. CATALOG FREE. CARTER'S CHICKERY, Box 252, Eldorado, Ill.

VOLUME 60 | BURLINGTON, KENTUCKY THURSDAY, JANUARY 16, 1936 | NUMBER 45

FARM LOAN GROUP TO MEET

BOONE CO. NATIONAL FARM LOAN ASSOCIATION PLANS MEETING OF MORE THAN 200 FARMER-BORROWERS IN BURLINGTON JANUARY 21.

Secretary-Treasurer A. B. Renaker of the Boone County National Farm Loan Association has issued aninvitation to all Federal Land Bank and Land Bank Commissioner borrowers who are located chiefly in Boone County to attend the 14th annual meeting of the Association scheduled for next Tuesday January 21st in the hall over the Peoples Deposit Bank in Burlington, beginning at 10 o'clock A. M. slow time.

Both morning and afternoon sessions will be held with a buffet luncheon served at noon in the hall.

Business to come before the meetion of five Directors to serve for the coming year. Reports will be presented by the Secretary-Treasurer on the financial condition of the organization and the business transacted during the past year. Stockholders also will participate in discussion and decision concerning policies to be followed during the forthcoming year. One or more representatives of the Federal Land Bank of Louisville will be present and take part in the program, and will be available for consultation with individual members on matters affecting their Federal loans. Other speakers will be Mr. F. H. Rouse, Secretary of the Farmers Mutual Fire Insurance Company, on the subject "The Imporance of Renewing Policies and Paying Assessments Promptly;" H. R. Forkner, County Agent, subject, "Farm Management." It is also being planned to have a few surprise talks of 5 or 10 minutes each.

The Boone County National Farm Loan Association was chartered in December 1921, under the provisions of the Federal Farm Loan Act. There were 10 charter members who applied for long-term, first mortgage loans totalling $36,000.00 and subscribed $1800.00 to the original capital stock.

The Association is now servicing 180 Land Bank Loans in the amount of $693,900.00 and 128 Commissioner loans in the amount of $265,000.00. Some borrowers have both Federal and Commissioner loans which reduces the number of actual individual borrowers to 219, to whom invitations have been sent for the meeting January 21st.

The officers of the local association are anxious to have every borrower attend the meeting, as much time is being devoted by the Secretary-Treasurer to the program and arrangements for the event.

FARM ACCOUNT BOOKS AVAILABLE

AT COUNTY AGENT'S OFFICE FOR THOSE INTERESTED IN KEEPING FARM RECORD

Every Boone County farmer who is interested in keeping complete farm account records during 1936 is urged to get a farm account book at the County Agent's office in Burlington immediately.

Farm account books are of two types. The AAA farm account books are for general distribution for farmers not interested in a complete farm enterprise comparison. The Kentucky farm account book is for those farmers who desire special farm record service and agree to keep records in cooperation with the Kentucky farm account project. All record books and service are supplied free of charge to interested farmers.

Mr. R. E. Proctor, Farm Account Specialist from the College, will be in Boone County Monday and Tuesday, January 20th at 21st to assist Kentucky farm account book cooperators in completing their 1935 records and starting 1936 farm account records.

NOTICE

The Boone County Fish & Game Club will meet Monday night, January 20th, 7:00 P. M., at the Court House in Burlington. All members are urged to be present as business of importance is to be transacted.

J. G. SMITH, Pres.

PROPOSED STRUCTURE OF NEW METHODIST CHURCH TO BE ERECTED AT FLORENCE

The above is an architectual drawing of the proposed new Methodist Church at Florence, Ky. It is Gothic design and is to be constructed of brick at an estimated cost of $8,000. The drawings are by Mr. H. H. King, chief architect of the Board of Church Extension, Methodist Episcopal Church, South, Louisville, Kentucky.

While the proposed new structure is simple in design it is considered to carry over the traditional features of the past, yet is quite modern in equipment, furnishing adequate facilities for the Church School, young peoples' work, and the social life of the church. Exclusive of the sanctuary, which is somewhat adjustable to meet the size of varying congregations, there are a number of Church School rooms, a balcony, a parlor, banquet hall, kitchen, furnace room, fuel bin, and toilets. The building is thirty-five by sevty feet in exterior dimensions. and is to be located on the Dixie Highway, near the center of town.

The congregation was forced to abandon the century old framed house of workship on ank Lick St., and is now worshiping in the Odd-Fellows Hall.

Bishop U. V. W. Darlington, Huntington, W. Va., will speak in the high school auditorium at 11:00 A. M. (fast time) next Sunday, January 19th. A large audience is expected not only from the town of Florence and community, but from neighboring churches 'round about. The Presiding Elder, Dr. O. B. Crockett, Ft. Thomas, Ky., will be present and will have part in the services. Other ministers are also expected. Rev. R. R. Rose, who is experienced in church building enterprises, is the pastor and will preside at the services, Sunday. The members of the building committee are: Rev. Rose, chairman, Carl Keim, secretary, J. G. Renaker, treasurer; John Fossett, Owen Bethel, C. A. McKibbens, and Russell Mitchell.

The choir from the Walton Methodist Church will assist in the music and is to render a special number.

KERR-SMITH TAX IN FORCE

ACCORDING TO OFFICIAL REPORTS RECEIVED HERE

The Kerr-Smith tax non signed tobacco is still in force and being collected according to official reports received at the County Agent's office the past week. Contract growers who sell excess tobacco are also required to purchase excess allotment cards.

The purchase of excess allotment cards at the county office the past few days has been largest since the opening of the tobacco season. Contract signers are advised to sell no tobacco that is not recorded on their allotment cards, as so doing will violate their contracts. While it is not known, there is a possibility that the remaining payment due may be paid.

Contract signers who did not sell up to their allotment may be benefitted more by selling their remaining allotment to a contract signer who has excess tobacco to sell. When a producer with excess buys the unused allotment of a deficiency producer it is necessary that both parties call at the County Agent's office to make this transfer.

IT WASN'T THE MAKE-UP MAN'S ERROR

In last week's issue of the Recorder the advertisement of Gulley & Pettit's store which was purposely inverted complying with the firm's desire has caused considerable comment. The Recorder make-up man has had a great amount of enjoyment since the paper was published hearing these various comments. He was somewhat reluctant when informed on the arrangement of the ad....anyway he wa[illegible] the subscribers to know that it wasn't an error.

JUDGE J. M. LASSING ILL

Word was received here Tuesday morning of the serious illness of Judge J. M. Lassing, who was visiting his family at their winter home in St. Petersburg, Fla. According to reports Mr. Lassing was the victim of a nervous breakdown and has been ordered by physicians to remain in bed from eight to ten weeks. He left Boone county several weeks ago in what appeared to be almost perfect health with the intention of returning after a brief visit with his family but his present condition will probably delay his return.

TWO LOCAL FARMERS RECEIVE HIGH AVERAGE FOR TOBACCO AT TRI-STATE WARE HOUSE.

Word was received, Wednesday, from the Tri-State tobacco ware house, Covington, that Earl Sullivan and Roy Barnes, two local farmers, received exceptionally high averages for their tobacco crop at that house this week. Mr. Barnes had 1,318 pounds which netted him an average of $38.01 per hundred and Mr. Sullivan s crop of 1,612 averaged $34.51.

CALL MEETING

BOONE COUNTY FARMER MEMBERS OF LOAN COOPERATIVE TO MEET

All Boone county farmers who are members of the Northern Kentucky Production Credit Association have received a call issued by President A. Threlkeld and Secretary-Treasurer Richards to attend the second annual meeting of stockholders of the corporation at Williamstown on January, 17, 1936, beginning at 10 o'clock in the forenoon and continuing with an afternoon session. Election of two directors for three-year terms is an important item of business to come before the meeting. The present directors whose terms are expiring are W. H. Parker of Carroll county, and C. A. Kelly of Pendleton county. Hold-over directors are A. Threlkeld of Grant county, H. W. Webb of Grant county, and C. Liston Hempfling, of Boone county.

Each borrower from the association owns voting stock in it, and has one vote in electing directors, Secretary-Treasurer Richards explained. "Every member should be present and vote for the most capable men available for directors, thus to assure continued good management of this permanent farm credit cooperative," he stated.

A representative of the Production Credit Corporation of Louisville will be present, and will have a part in the meeting. The program will include report of the Secretary-Treasurer, a review of the past year's business and discussion of plans for 1936. An outstanding feature of the proceedings will be a clear analysis and simple explanation of the entire operations of the association during the year as shown on charts and explained by association executives.

Mrs. F. Johnson and R. H. Marston of Elsmere were calers at our office Wednesday nite.

GAME WARDEN REAPPOINTED

BY GOVERNOR CHANDLER — COMMENDED FOR EFFICIENCY

The good news of the reappointment of E. M. Johnson, Walton, as District Game Warden became known last week, when Mr. Johnson was notified by Martin E. Walker, chief executive of the Kentucky Game and Fish Commission, that Governor Chandler had reappointed him.

Mr. Johnson was commended by Walker for his competent work and his efficiency in the manner he carried out his duties as Game Warden.

Boone County is fortunate in having the services of such a sportsman as Mr. Johnson serving them and his reappointment should ad impetus to the growing desire for conservation of wild life in the county.

NOTED HUMORIST

HEARTILY FAVORS PROJECT OF COLLCTING DATA FROM KENTUCKY FOR THE AMERICAN GUIDE.

Louisville, Ky., Jan. 13.—With seventy-five writers actively engaged in collecting data in the various counties in Kentucky for the American Guide, sponsored by the Works Progress Administration, the project was given added impetus today in the form of a letter from Irvin S. Cobb. His letter follows:

"To give a helping hand to needy writers, and at the same time to perpetuate the real story of our State in the printed word, seems to me to be about as fine a double-barreled idea as I, off-hand, can think of.

Kentucky has so romantic a historical background—part of which has never properly been recorded for the generation now alive and the generations to come, that I can imagine no richer field for authorship.

"With my very best wishes for the success of the undertaking—

"Yours cordially,
(Signed)
"IRVIN S. COBB."

Particularly enticing values will be found in the piece goods drapery, hosiery, underwear, and shoe departments.

See their ad. in this issue.

LOCAL QUINTETS

LOSE BOTH ENDS OF DOUBLE BILL WITH FLORENCE

In two of the most interesting basket ball games that this writer has had the pleasure of seeing for some time, Friday night the Florence Knignts and Nightengales, in fashion deserving a seat at King Arthur's Round Table, returned home from the Burlington hardwood—Nightengales with wings as long and Knights with armor a bit more shiny, after two brilliant victories over the local quintets.

The scores of neither of the games indicate the closeness and fervor shown throughout the engagements. The Kitten-Nightengale contest at the half way mark stood 20 to 9 in favor of the latter and ended 43 to 21 with the same team having the advantage. Both teams displayed a quality of basket ball deserving of credit and showed a tremendous improvement over early season play.

The Tom Cat-Knight clash which was conceded to the Florence aggregation without much of a tussle by most of the pre-game critics proved a surprise to many. The first stages of the game showed both teams on even terms but the longer Florence team pulled away to what seemed a safe lead at the half. At that point the score stood 24 to 12 in favor of Florence. The third quarter, however, brought all spectators, the towel boys and coaches to their feet as the Tom Cats, led by some brilliant shooting by Orville "Duck" Sebree, who made ten points in that period, brought the score to a deadlock, 26-26. But, again the larger Florence team, turned loose to score 18 points while Burlington could collect but one foul shot in the last quarter, thus making the final score 44 to 27. Grayson was high point man for the Knights with 12 points being followed by R. Scott with 9 and points with 8.

On Friday night, January 17, the Tom Cats and Kittens will be host to Williamstown and the local independent team will clash with the strong South Side Baptist team. Three good games are in store for the local basket ball enthusiast so so come out and get behind the fast improving Burlington teams.

NEW YORK SUN PUTS OUT GIGANTIC BUSINESS ISSUE

Last Thursday the Recorder received a copy of The New York Sun of Saturday, January 4th, one of the most unusual publications in the history of journalism. It is known as the "Voice of Business" edition and consists of 140 pages, the single copy weighing two and a quarter pounds. The entire edition used up 800 tons of paper and nine tons of printers ink. It is estimated that if the pages of every copy of the edition were laid end to end they would extend for 36,000 miles or once and a half times around the globe.

BANK REPORTS

A complete report of the condition of the various banks, of the county, will be published in the next issue of the Recorder.

POULTRY MEETING TO BE HELD HERE FRIDAY

Good attendance is expected at the Annual Winter Poultry School to be held at Burlington Court House, Friday, January 17th. Three good speakers from the College of Agriculture and leading poultrymen from the county will be on the program.

The purpose of the poultry school is to discuss the problems of diseae, parasites and low production and to give facts on known proven practices that are paying and will make profitable poultry raising. The school begins at 9:30 A. M., and closes at 3:00 P. M. Everyone interested in poultry production is invited to attend.

FARMERS PLAN FOR MEETINGS

DURING NEXT TWO WEEKS—TO PLAN AN AGRICULTURAL IMPROVEMENT PROGRAM

Leading Boone county farmers will meet in a series of community planning meetings during the next two weeks, according to H. R. Forkner, County Agent. The purpose of these meetings [illegible] be to plan an agricultural improvement program to be carried out in each of the various communities during 1936.

The place and dates of the various meetings scheduled todate are as follows:

Walton—At Wa[illegible]on Equitable Bank, Thursday, Jan. 16th, 1:30 P. M.

Verona—At Verona Bank, Jan. 18. 1:30 P. M.

Petersburg—At School house, Saturday, Jan. 18, 7:00 P. M.

Florence—At Tanner's Feed Store Tuesday, Jan. 21, 7:30 P. M.

New Haven — At School house, Thursday, Jan. 23, 1:15 P. M.

Hamilton — At School house Thursday, Jan. 23, 7:00 P. M.

Grant—At Grant Bank, Friday, Jan. 24, 1:30 P. M.

Burlington—County Agent's Office, Saturday, Jan. 25th 7:00 P. M.

Hebron—Hebron Bank, Monday, Jan. 27, 7:30 P. M. (slow time).

All farmers interested in local community agricultural improvement programs are invited to attend. A chairman will be elected at each community meeting to help plan and organize the county agricultural improvement program for 1936.

Mrs. Louise A. Graves

Mrs. Louisa Ann Graves, aged 91 years, passed away Monday morning at her home on Bartlett Ave., Erlanger, after a long illness. The remains were removed to the Taliaferro Funeral Home for preparation.

She is survived by her husband, Joseph Graves. She was the daughter of Addyston and Ann Harrison Graves, who were among the first settlers and principal land owners of what is now the town of Erlanger.

The pallbearers were W. P. Gardner, Courtney Walton, J. W. Taliaferro, L. A. Bentler, L. L. Childress, Carl Price.

Funeral services were held at the Taliaferro Funeral Home Wednesday afternoon at 2 o'clock, by the Rev. F. E. Brown, after which she was laid to rest in Highland cemetery.

HIGH AVERAGE

RECEIVED FOR BOONE COUNTY TOBACCO LAST WEEK AT LEXINGTON MARKET

That the Boone county farmers who are selling their tobacco this season on the big market at Lexington are receiving their full share of the high prices being paid there is evidenced by the reports of the averages recived on tobacco offered there.

Last week quite a few Boone county crops were sold in Lexington, with some of them averaging high enough for the Lexington newspapers to include them in their daily best crops list. Of these crops, the highest from this county was that of A. T. Hunt, who sold 3,762 pounds for an average of $35.49.

Sales in Lexington last week, the fifth of the season, totalled 7,988,798 pounds that brought an average of $21.62. Some of the Boone county crops included in this sale were the following:

A. T. Hunt, 3,762 pounds, $35.49 average; E. B. Elliott, 4,206, $22.67; Finn Bros., 1,226, $32.32; Sebree Bros., 1,300, $29.42; William Bill and Edward Black, Jr., 1,620, $34.18; S. B. Sleet, 2,808, $33.06; G. W. Hoard, 1,008, $29.60; William Hill, 2,540, $27.59; Boone Rose, 3,148, $28.63.

HARRY MURRAY RUSHED TO HOSPITAL AFTER ATTACK OF APPENDICITIS.

Harry Murray, of the Burlington-Belleview pike, was rushed to the St. Elizabeth Hospital, Covington, last Thursday evening by Dr. Lawson, attending physician, for an emergency appendicitis operation, at which place his condition is reported good.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

SHARE WHAT WEALTH?

Some surprising figures have just been made public by the Brookings Institution showing the cash benefit to each individual if the nation's wealth actually were distributed equally.

In 1929, said a report by Harold G. Moulton, president of the Institution, total wealth in the United States was $460,000,000,000. By 1935, that had shrunk to $300,000,000,000. Redistribution, he calculated, would give each family in the land something like $15,000.

"Four hundred and sixty billion dollars, however, is merely the value placed on our farms, mines, railways, factories, etc. It includes not only private property but also that owned by the government. A physical redistribution of the nation's wealth would be impossible. We cannot divide a railroad track or a telephone line, a coal mine or the Empire State Building."

Since wealth itself cannot be physically redistributed, he then suggests a look at income. An equal distribution of income, he calculated, would give each person "$673 in the most prosperous year we have ever known.

Apply Dr. Moulton s yardstick to one of the biggest industries in the nation—steel. Its properties, wealth include such things as plants and mills. If all could be converted into cash and that cash equally distributed, it would mean only $40 for each person.

"These things are wealth," Dr. Moulton added, "only because they produce income." In plainer words, the steel industry in its present form means year-round jobs for nearly 450,000 men; redistributed on a share the wealth basis, it would mean about 75 cents a week to each individual.

YOU PAY!

Who pays for political attacks on industry?

The public pays, in destroyed opportunities, in lost jobs, in higher taxes, in reduced purchasing power.

Who pays for tax policies which levy punitive "class" or special taxes against essential business?

Again the public pays—and thru the nose.

An excellent example of the fact is provided by the special taxes against chain stores which have been levied in various states, and are advocated in others. These taxes are usually of the progressive variety—a merchandissing organization pays, for example, a $10.00 special tax for each of its first ten stores, $20.00 for each store thereafter up to fifteen, and then $500 per store, or some other exorbitant figure for each store over twenty.

What is the result of such a tax? It is just another legislated boost to living costs. It means that the overburdened householder must pay more than he would otherwise for his food, his drugs, his gasoline, etc.

There are 125,000,000 people in this country. Every one of them is a consumer. Every one of them must occasionally use drugs, must buy clothes. A tax against mercandising systems that cut selling costs by reducing the spread between producer and consumer, is a tax against every one of these 125,000,000 people. It is a tax that is inevitably reflected in a thinner public pocketbook, reduced purchasing power for all commodities other than necessities. Thus do special class taxes strike all business.

No form of merchandising, chain or grouped independents, should be penalized to benefit another. All should be treated with fairness and equitableness. Only in that way can the great consuming public receive the service it deserves—and benefit as well from the economies that come from more efficient methods of producing, distributing and retailing commodities.

THE DAIRY INDUSTRY

Dairying is the most important agricultural in the United States.

In recent years, sales of dairy products have amounted to about 25 per cent of the cash income of all agriculture. And in 1934, the cash income from dairying was higher than the combined cash income from wheat and cotton. It was almost as high as the combined cash income from hogs, cattle and calves, a part of which is represented by dairy cattle.

It is an interesting fact that American dairy farmers have been among the most progressive of all farm groups in forming and supporting cooperative organizations. In the great eastern area, for example, dairy farmers are served by a pioneer co-op, the Dairymen's League Cooperative Association, Incorporated. In other areas, large and strong dairy co-operatives are helping to bring better times to the farmer. The pre-eminent place of dairy co-operatives—but those organizations have done and are doing a mighty important work in behalf of their members and the public at large.

THIRTEEN-POINT PROGRAM IS PROPOSED BY GROUP WHICH WILL WATCH LEGISLATION IN KENTUCKY

Frankfort—Those who are interested in putting into effect the old-age pension law voted by an overwhelming vote last November figure that it will take $2,700,000 of state funds to secure the aid which has been promised from the government.

Dr. A. T. McCormack, Chairman of the Kentucky Social Security Commission, told Governor Chandler's Reorganization Commission what the state would have to provide.

The old-age pension question must be considered in the state's tax program.

EDITORIAL PARAGRAPHS

A recent interview with the majority of the business houses of Burlington shows that business in 1935 was from 20 to 45 per cent better than it was in 1934.

An announcement made by William Green, President of the American Federation of Labor, says that there are still 11,672,000 persons out of employment in the U. S.

Six men from the Georgetown University and the National Geographic Society will travel half way around the globe to witness a two-minute eclipse of the sun, June 19, 1936.

Organized labor has ok'd the plan of putting convicts to work in the road gangs....It might appear then that a convict has a better chance of getting work on the state road than a voter who was on the wrong side of the fence.

FOR YOUR CONSIDERATION

A SALE 85 YEARS AGO

An interesting list of property owned by a Kentucky farmer in the middle of the last century is given in an old sale bill preserved by C. P. Cunningham, of near Avalon. It read as follows:

"One buck nigger, 25 years old, weight 210 pounds; four nigger wenches from 18 to 24 years old; three nigger boys; ten nigger hoes; one pine sled; six yokes of oxen, well broke;.....25 one-gallon whiskey jugs; one hundred gallon of cider.....Col. W. H. Johnson, Auctioneer; Bill Crawford, Clerk; Joe Cooley, Owner.'

what Irvin S. Cobb thinks about:

Us Present-Day Sissies.

SANTA MONICA, CALIF.—Our ancestors, the men and women who whittled this country out of ramping wilderness—they were different, although perhaps difficult to get along with. They'd fight you over almost any issue—their personal rights, their public wrongs, their national principles, their private prejudices, their outer boundaries, their internal policies. They fought one another; they fought foreign powers. But, excusing politicians and professional whiners, they didn't do such an awful lot of fretting over the painfully primitive conditions of a pioneering life. We, their children, with too many laws we won't enforce, too many criminals we won't punish, too many unjust taxes we won't rebel against—we complain about everything. It's as though a race of eagles bred a breed of worms that turn only to turn the other cheek. I guess we're getting peevishly flabby.

Irvin S. Cobb.

I woke up this morning feeling as flabby as a cold flapjack, and I don't know when I've been peevisher. So I sat down and wrote this.

N.B.—And never mind telling me that a worm hasn't any cheek. I know that as well as you do.

* * *

Van Sweringen's Passing.

GRANTED, that in these shifting times there is a somewhat prevalent tendency to regard it this way and be governed accordingly: for a man to have been a success is a crime, but to have been a failure is a profession.

Even so, there's still a thrill, reading of the career of M. J. Van Sweringen. Horatio Alger might have written him. He starts life as a newsboy in Cleveland. Today, at fifty-four, he lies dead there.

How many millions he left, nobody knows. Probably he didn't much care. It must have been the sport and not the size of the game-bag that made him a dominant figure in railroading and finance.

That's one side of the American picture. The other side is that almost every one of us knows, or has heard, of a former reputed millionaire who'd like to get a good job somewhere selling newspapers.

* * *

The Source of an Idea.

I RAN across it the other day—this ancient one.

Shipwrecked mariners in crisis. Sea rising, life raft sinking beneath them, no rescue craft in sight. Situation seems to call for professions of faith. But nobody can quote from the Scriptures, nobody can sing a hymn, nobody even knows a prayer. Desperately, the mate speaks up: "Men, we gotta do somethin' pious—let's pass the hat."

I read that antique wheeze and in a flash the puzzle was solved. Now I know where they got the original idea—those economic wizards in and out of congress, who, in times like these, bob up with various theories, but all aimed at the same purpose; namely, that financial security can be restored not by giving industry a chance to recuperate, but by taking away the previous fruits of industry.

* * *

Hollywood's Newest Grievance.

HOLLYWOOD sentiment is that those alleged polygamists recently on trial over at Kingman, in Arizona, should be penalized for breaking the rules. You see, the curious colony up there in the desert favors having a lot of wives all at once, whereas the Hollywood championship team prefers various wives, one at a time, which prevents confusion and works out to the same gratifying high scores in the end.

But no matter how the law may serve those Arizona husbands, I would put in a plea for the female co-defendants charged with marrying 'em so copiously. For I've just seen some newspaper pictures of the male prisoners. Gentlemen of the jury, if they be true likenesses, those poor near-sighted women already have suffered enough. Talk about being more sinned against than sinning.

* * *

That Banker's Identity.

IF THE President won't name him, I shan't. But I'll bet anything—anything I have left, I mean—that the distinguished banker who told him this country could safely go in debt for quite a lot more billions is the same financial wizard who counseled me about my dainty little investments in the blithe, braw days before 1929. It certainly sounds like the same fellow.

On second thought, maybe not. Because the last I heard of my banker, he was sitting by the steam-pipes at a county poor-farm back East, telling the other inmates about an infallible system for beating those stock market boys. You see, he was sucker enough to follow his own advice. Can you imagine?

Lesson for January 19

JESUS PREPARES FOR HIS WORK

LESSON TEXT—Luke 3:21, 22; 4:1-13.

GOLDEN TEXT—Thou shalt worship the Lord thy God, and him only shalt thou serve.—Luke 4:8.

PRIMARY TOPIC—When Jesus Grew Up.

JUNIOR TOPIC—When Jesus was Tempted.

INTERMEDIATE AND SENIOR TOPIC—Making a Right Start for Life.

YOUNG PEOPLE AND ADULT TOPIC—Finding God's Way for Life.

The statement of the subject of this lesson is not quite satisfactory. His baptism and temptation were not means of preparation, but were respectively his formal entrance upon his work and the first conflict with the devil, whose works he came to destroy.

I. Jesus Entering Upon His Mediatorial Work (Luke 3:21, 22).

1. His baptism (v. 21). In his baptism we see the symbolic act of Jesus dedicating himself to the work of redemption through the cross, or the act of consecration on his part to the work of saving the world through his death and resurrection. His baptism did not mean his obedience to the law of God, but his entrance upon the sacrificial work which on the cross of Calvary made a real foundation for full righteousness.

2. His anointing (v. 22). As he thus dedicated himself to the task of bringing in a righteousness, he was anointwith the Holy Spirit.

3. The heavenly recognition (v. 22). This act of devotion to the divine will was attended by the declaration of divine approval. "Thou art my beloved Son; in thee I am well pleased."

II. Jesus' First Conflict With the Devil (Luke 4:1-13).

Jesus went from the place of anointing and heavenly recognition as the Son of God to meet and to spoil the arch enemy (Heb. 2:14). Instead of the temptation, therefore, being a preparation for his messianic work, it was a demonstration of the inseparableness of the divine and human natures in the incarnation. It is to be noted that the Holy Spirit, not Satan, led Jesus into the wilderness to be tempted.

1. The place (v. 1). It was in the wilderness of Judea. The first man, Adam, was tempted in a garden, with the most pleasant surroundings. The second man, Jesus Christ, was tempted in a barren wilderness, surrounded by wild beasts (Mark 1:13).

2. The method (vv. 2-12). Christ as the world's Redeemer sustained a threefold relationship: the Son of man, the Messiah, and the Son of God. Therefore, Satan made each one a ground of attack.

a. As Son of man (vv. 2-4). Satan made his first assault upon Jesus as a man by appealing to the instinct of hunger. Satan urged him to use his divine power to convert a stone into bread. Hunger is natural and sinless. Real human life experiences hunger. The appetite of hunger was normal and right. The temptation was to satisfy a right hunger in a wrong way. To have yielded in this case, though his hunger was desperate, would have been to renounce the human limitations which he had taken for our sins. To use divine power to satisfy human needs would have been to fail as Savior and Mediator. To do right in a wrong way is to fail.

b. As Messiah (vv. 5-8). Here the temptation was to grasp his rightful dominion by false means. The devil offered to surrender unto him the world, if he would adopt his method—worship him. The force of this temptation was in the fact that the kingdoms of the world are Christ's by God's covenant with him. God's method by which Jesus was to possess the world was the sacrificial death on the cross. The temptation which Satan is placing upon the church today is to get possession of the world by other means than that of the cross.

c. As Son of God (vv. 9-12). Here Satan tries to induce Christ to presume upon God's care. He quotes a messianic psalm to induce him so to act. To do the spectacular thing in order to get publicity is to fall into Satan's temptation. For Jesus to have placed himself in danger in order to get God's special help in delivering him would have been to sin. To test God as to whether he will keep a promise is the greatest distrust; it is to sin and fall.

d. Christ's defense (vv. 4, 8, 12). It was the Word of God. He met every onslaught of the enemy with "It is written." Our defense is God's Word. May every Sunday School teacher and believer know how to use it.

e. The issue (v. 13). Satan was vanquished. If we but trust God and use his Word, we too can overcome the devil.

Burdens

Bear your burden manfully. Boys at school, young men who have exchanged boyish liberty for serious business—all who have got a task to do, a work to finish—bear the burden till God gives the signal for repose—till the work is done, and the holiday is fairly earned.

The Best Way

Choose always the way that seems the best, however rough it may be. Custom will render it easy and agreeable.—Pythagoras.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF JANUARY 21, 1926

E. M. Johnson, Boone County's Representative in the Legislature, has been assigned to the following committees: Confederate Home, Education No. 1, Fish and Game, State Fair, Insurance, Life and Acciden and Chairman of the committee on Printing.

The Burlington lodge of Knights of Pythias, after several ineffectual efforts to reorganize, held a pep meeting last Saturday evening with quite a number of the old members present.

Officers for the ensuing year were elected as follows: N. E. Riddell Chancellor Commander; N. Sullivan, Jr., Vice Chancellor; A. B. Renaker, Prelate; Russell Smith, Master At Arms; Earl Smith, K. R. S.; W. D. Cropper, M. E.; Albert Pettit, I. G.; Chas. Birkle, O. G.

Petersburg

Mrs. Laura Chambers is visiting her son Mr. Scott Chambers, of Walton.

Mr. and Mrs. A. L. Stephens had as their guest the latter part of the week, Mrs. Bess Kelly of Burlington.

Hebron

J. C. Garnett moved from Kitty Smith's place to Frank Aylor's last week.

W. C. Rouse and two children and his mother-in-law, Mrs. W. R. Garnett, left Sunday night for St. Petersburg, Fla., on a business trip.

Rabbit Hash

The river stays full of ice, being more ice in the river this winter than has been since the winter of 1917.

D. C. Pope is carrying a broken arm, caused by cranking a car, but it is doing nicely under the care of Dr. Elfers.

Hopeful

Adrain Sorrell and wife (nee Alta Beemon) on the Burlington pike, have been entertaining a little baby daughter at their home since the 14th.

Local

Jesse Kirkpatrick's new house is nearing completion.

The rain of last Saturday and Sunday cleared the ground of the snow that has been present since the 8th of January.

News Tour

By Wm. C. Walton

It was in October 1926 that I witnessed an actual cricket fight,. That night my obliging escort took me far within the Chinese city to a native Doctor's house, entirely given up to opium smoking and cricket fighting. By the light of matches we slowly groped our way thru its long narrow twisting hallways, whence occasional open doors revealed glimpses of reclining figures enveloped in thick clouds of smoke with the heavy sickening sweetness of opium, finally we came to an iron-barred door, and after light rapping we were admitted into a large room where it was evident that we were expected. The place was packed with a constantly increasing crowd of Chinese men. I sat upon a high stool and was offered many bowls of steaming tea, I fully realized this was a disreputable dive, but in spite of the strong anti-foreign feeling that existed at that time there was nothing to excite my fear. Well dressed young men in long silk robes were constantly arriving, smiling in anticipation of entering their insects, which they carried in round clay boxes covered by knotted squares of blue cloth. Near the door two men weighed and measured all crickets, taking them in turn from a long table where they awaited classification, this accomplished, the crickets were returned to their respective boxes, an attendant sealing each cover with a strip of white paper and tabulating it with a brush and ink as to size and weight and owners name. Loud ballyhooing on the part of the holder of the bets proclaimed the first fight. The names of the contesting insects, written in weird Chinese characters across a placard, were held high above the crowd. I watched it spread and quickly transform each apathetic Chinese face to one of quivering excitement.

Kenney Motor Car Co.

CHRYSLER & PLYMOUTH SALES & SERVCE. CHOICE OF 75 CARS TO CHOOSE FROM, ALL TRADE-INS ON CHRYSLERS OR PLYMOUTHS RANGING IN PRICE FROM $25.00 TO $900.00 ON EASY TERMS, ON THE 6% PLAN. 20 MONTHS TO PAY ON USED CARS.

With office located at 631 Madison Avenue, in Covington, telephone Hemlock 0535 is an optometrist whose efficient service has brought a large clientele from the city and surrounding territory.

Your eyes are two of the most delicate organs and when irritated require the attention of a scientific expert.

Dr. L. J. Metzger can fit you with glasses of the correct power and shape for your individual case. And back of his work stands professional reputation and experience. You cannot be too careful with your eyes. If they are giving you any trouble, it will pty you to visit him. Some minor cause may be discovered and may be corrected now with glasses. Some serious trouble may have affected your sight and he may be able to correct it.

He has attained a well-mesited reputation in the correction of troubles which affect children's eyes and his success in this important work deserves the highest commendation.

Be careful to have your eyes examined and fitted by an optometrist who knows his business.

It is, indeed, a pleasure in this edition to refer all our readers to this well-known man whenever the eyes require help. His past reputation guarantees satisfactory service.

Dr. L. J. Metzger

OPTOMETRIST

With office and new car show room at 25 East 5th Street, in Covington. Used car store located at 24 East 5th Street, and used car lot at 26 East 5th Street, telephone HEmlock 0468 is one of the firms in this section of the state that is rendering an essential service in a business that deserves your careful consideration, enjoying a large and well merited patronage from the city and surrounding territory.

The real worth of a good used car is apparent. Intelligent buyers have been known to pay practically the price of a new one for a used car when delivery was too long deferred. The dividing line between new and really good used cars is steadily vanishing. The fact is now accepted that SOME used cars are better investments than SOME new ones because the first depreciation, which is heavy, is avoided.

However, in purchasing a used car the word GOOD must be emphasied because any other than a GOOD USED CAR is a heart-breaking and a ridiculous waste of money.

Now if the seller knows his merchandise and handles nothing but a good quality piece of goods he will sell it to you under conditions that will eliminate the gamble for you and make it perfectly safe for you to purchase his merchandise.

In getting out this issue we desire to say that this firm meets the demands of the public and we take great pleasure in recommending them and their used cars to all our readers.

Ostrow's

RETAILERS OF KELVINATOR, CROSLEY SHELVADOR REFRIGERATORS; PHILCO, ZENITH, CROSLEY, GENERAL ELECTRIC, R. C. A. VICTOR RADIOS; APEX & MAYTAG WASHING MACHINES AND ESTATE GAS RANGES.

Conveniently located at 711-713 Madison Avenue, in Covington, telephone Hemlock 4255 and 4256 is one of the most up-to-date stores in Covington. Electricity is no longer a convenience but is also a necessity in the modern household and this establishment has provided a large stock of electrical merchandise from which to choose including modern appliances which are designed not only to lighten the work but also to lessen the cost and turn housekeeping from an unpleasant job into an attractive task. These electrical appliances can be bought at Ostrow's on easy terms to suit you. They pay the sales tax from the proceeds of their business. They are open evenings ,til 9 P. M., and Saturdays til 10 P. M.

This establishment secured the sales and service from many of the leading manufacturers of refrigerators, washing machines and radios and thus is in a position to furnish anything in this line that would complete the modernization of the home from an electrical standpoint.

The radio in the way of usefulness has proven a big impulse to aeronautics, shipping, etc. From a standpoint of entertainment, it is unexcelled.

Go in and let them demonstrate these wonderful radios and you will enjoy the same entertainment at a small cost as thousands of other people are doing.

We desire to refer Ostrow's to all other readers and to say that the reputation of the past has been maintained and to suggest that you see them for your next refrigerator, washer or radio.

Scott Motor Car Co.

STUDEBAKER, HUDSON-TERRAPLANE & WILLYS SALES & SERVICE. A LARGE SELECTION OF RECONDITIONED USED CARS TO SELECT FROM ON EASY TERMS, RANGING IN PRICE FROM $25.00 to $500.00.

Located at 235 Scott Boulevard, in Covington, telephone HEmlock 6866 is one of the livest automobile firms of this part of the country and is prepared to take care of the demands of every class of purchaser with cars which prove the superiority of the "high grade used car.'

These cars are offered on the best terms possible. You do not need to have all cash as this firm is ready to take care of the account and you can be using the car while you are making payments. This is a great accommodation to the public and the excellent policy has met with great favor.

This establishment has become known far and wide as a leading one dealing in used automobiles. They have many satisfied patrons in all surrounding country who have learned real "motor car economy" throughout their service. They are pleased to give you any and all information about the cars they offer and their word is as good as a bond.

This firm has built up an admirable growing business through the policy of selling high grade used cars that add to their reputation and as their business is at stake, every car sold is further evidence of their wise policy of offering only the best and guaranteeing each car to be exactly as represented.

We take pleasure in this edition in directing your attention to the Scott Motor Car Company at 235 Scott Boulevard in Covington.

AMONG THE COUNTY AGENTS

Prizes totaling $57 were won by Jackson county 4-H club members for corn exhibited at a corn and nut show at London.

Three Butler county homemakers are giving meat and vegetable canning demonstrations with pressure cookers.

A portable lime pulverizer has been bought by Trigg county farmers for cooperative use.

More than 30 Hopkins county farmers are keeping farm accounts, as a means of studying their farm businesses.

Australia goes in for the movies in a big way, having more motion picture theaters than any other country, population considered, or one such theater for every 5,287 persons. The United Kingdom has one for every 9,333 persons, while the United States has one for every 10,400.

—o—

An odd paragraph in the account of a revival meeting appeared in an Iowa newspaper, which read: "Last night Evangelist Scoville spoke on "The Bible Hell" and Mr. Deloss Smith sang "We Will Meet you There."

Ross Motor Coaches

(INCORPORATED)
TRAVEL BY BUS

Whose headquarters are at 1616 Madison Avenue, in Covington, telephone Hemlock 1168 meets the demand for prompt transportation service over this territory. All buses run on time and handled by careful drivers.

This firm operates one of the most popular bus lines in this part of the state and has left nothing undone in their effort to provide a service that is both modern and satisfactory. They maintain a regular service schedule between points on their lines and their fleet of 15 buses run at stated and regular intervals. You can always depend upon their buses being on time and they are operated so frequently that you can ride at your own convenience. The buses themselves are uniform both in size and make as well as color and are modern motor transportation vehicles especially designed to meet the requirements of the company and its passengers. They are large and roomy; well ventilated at all times and well heated in winter and are equipped to render your ride a smooth and comfortable one. They were the first company to introduce uniformed drivers who are very careful, courteous and cautious at all times. This is the first bus company to operate between Covington, Kentucky and Government Square in Cincinnati, Ohio. Mr. Floyd Ross operated as an individual The Pioneers of Northern Kentucky Bus System before the forming of the present Ross Motor Coaches, Incorporated by the buying out of several of the individually owned bus lines. Charter a bus by calling Hemlock 1168. The rates are very reasonable.

In this business review we wish to compliment Mr. Floyd Ross on the manner in which this concern is operated and to suggest to our readers that a good way to promote the future progress and expansion of this community is to patronize the buses of this reliable company.

Madison Ave. Auto Parts Co.

"SI" CORBIN, PROP.
NEW AND USED PARTS FOR ALL MAKES. CARS BOUGHT, ANY CONDITION

Conveniently located at 1205-1207 Madison Avenue, in Covington, telephones HEmlock 7480 and 0684 is one of the strictly up-to-date and highly efficient auto wreckers of this section and they are prominent citizens.

Motorists, garage men and the general public have learned from experience that this firm has a large stock of parts for all standard makes of cars. They have a large stock of gears, axles and other parts also. They make a special feature of carrying a large stock of generators, starters, batteries and other electrical equipment.

They buy old and used automobiles, paying the top of the market for them. It makes no difference what the name or the model of your car, if you need a part for it see them, and if you want to dispose of it don't worry if it is about "all in." Just see this firm and you will be pleased and surprised at the price they offer.

We take pleasure in this edition in directing your attention to this concern. The proprietors are some of the well known business men of these parts and take an active interest in the onward progress of this section of the state and merit the leading position now held in the business life of Covington and surrounding territory.

Dr. W. Howard Kirtley

CHIROPRACTOR
DR. KIRTLEY IS NOW TAKING 130 HOURS OF POST GRADUATE WORK IN BASIC TECHNIQUE.

Now located at 22 East 20th Street, in Covington, telephone HEmlock 0093-W is one of the leading professional men in this section. He is an expert in analysis and offers the people the highest type of professional service. Many people from all over this part of the country are visitors at his office and receive very beneficial treatment.

The work of the chiropractor is to correct sublaxations found in the spinal column. This is done by an adjusting movement performed by the hands only in a scientific manner, which in time returns the bony segments to their normal articular relation and releases the pressure their former deviations caused on the nerves affected. When such adjustments are complete mental impulses will flow unretarded and health will result naturally.

Dr. W. Howard Kirtley is a professional man of extraordinary power of understanding of the individual and noted for his quick and correct analysis. Then he possesses a natural aptitude for the correction of all causes of diseases.

We wish to compliment Dr. W. Howard Kirtley upon the very valuable work that he is doing in this section and direct your special attention to his efficient methods.

Reliable Monument Co.

NORTHERN KENTUCKY'S LARGEST MONUMENT ERECTORS

In Covington, at 1618 Madison Avenue, telephone Hemlock 0384 and at 530 Hodge Street, in Newport, telephone South 3635 are extensive dealers in monuments of granite and marble. Every grave should have a marker.

If you are looking for marble and granite monuments of any description you should consult with this company, and get your orders in so the work can be gotten under way.

Here will be found a large selection of finished work ready to letter, to make your selection from, at bottom prices. This firm does their own work, selects the best grade of stock and has one of the best equipped shops.

The plant is equipped with the latest inventions for producing work of this kind in the best and most economical manner, enabling them to finish and handle products at the minimum expense. Lettering and carving are produced by the latest method.

When you want a monument or marker of any kind, it will pay you to drop a card to the Reliable Monument Company and they will be pleased to take the matter up with you. In this edition we are pleased to call our readers attention to this progressive business firm and their up-to-date establishment.

Marshall county farmers are planning to use more limestone during 1936 than last year.

Several poultry raisers of Elliott county report that their flocks are paying their daily living expenses.

Milt Kitchen, of Lawrence county, had his flock blood tested and accredited in order to sell hatching eggs.

Early selection and drying of seed corn, and testing by the rag doll method, have been stressed in Metcalf county with good results.

Improperly fed sheep owned by Mercer county farmers developed acidosis; so proper feeding and watering were explained in community meetings.

REPEATS SPRAY FOR SCALE SUGGESTIONS

The University of Kentucky College of Agriculture repeats its suggestion that oak trees, particularly pin oaks, be sprayed during the winter for scale, which has been especially bad this season.

Use of a power sprayer is recommended for applying any one of the following solutions: 1 part of miscible oil to 5 parts of water; 3 per cent oil emulsion; or lime sulfur, 1 gallon of the concentrate to 7 gallons of water.

The dormant season also is a good time to dress up shade trees; that is, to remove dead and broken limbs and to thin out heavy tops.

REDUCED

DON'T SACRIFICE A GOOD CAR TO WINTER DRIVING!

DEPENDABLE MOTORS

Harry Heidt

412 MADISON HEM. 4444

Jas. H. Pennington.

"WE WON'T BE UNDERSOLD."

Even in the early period of the auto industry a far-seeing person might have discovered the distant advantages time would acrue from the establishment of a business which would serve as a sort of clearing house for the partially used cars. The record made by Dependable Motors is a convincing proof that such a concern was needed. The business house that can offer all styles and makes of cars at low prices fills a place as essentil as does the factory which turns out new cars. The remarkable feature is the possibility of buying used cars, in the newest models at prices which not so many years ago would have sounded ridiculous. It is greatly due to the broad guaged policy of doing business on a large scale and of meeting the public half-way in every sense that this proposition is made so attractive to the man looking for a car, without wishing to break his bank account. Dependable Motors well deserves the confidence of the motor-buying public. The cars obtained from them are really worth more than they cost. A glance at their stock of cars at their headquarters at 412 Madison Avenue in Covington is convincing.

T. W. Spinks Company

WHOLESALE AND RETAIL DEALERS IN COAL, CEMENT, PLASTER, LIME, SAND, GRAVEL, STONE, SEWER PIPE, FERTILIZING LIMESTONE DUST, ETC.

With main office located at 1512 Russell Street, in Covington, telephone Hemlock 0063 and branch located on the Dixie Highway at Erlanger, telephone Dixie 7049 has become an important factor in the development of this section of the country. The guiding influence of this empany has always been the determination to furnish the highest grade of coal and building material at reasonable prices, so that the extension and beautification of the community can progress rapidly.

Let them serve you with your next order of coal or building material and you will get the good burning coal and the good, permanent well seasoned sort of building material that builds for permanancy, rather than increased costs that occur when the buildings have to be gone over when the structure settles.

There is no one establishment in this this community that has greater influence for the betterment of the building industry. Contractors and the public in general have come to know that whatver they desire in the building supply line can be secured from this firm, with a knowledge that it will be of the best grade, consistent with price.

The management extends to the people of this community a cordial invitation to call at their yards and any information will be gladly given, no matter whether you wish to buy at this time or not.

We are pleased in this edition to give commendable mention to the T. W. Spinks Company and assure the public that they will receive the best service and it is to your advantage to transact business with them in the coal and builders' supply lines.

Radio Twins

WHOSE SLOGAN IS—
YOU MUST BE SATISFIED"
AMPLIFIERS SERVICED AND FOR RENT FOR ALL OCCASIONS
1822 MADISON AVENUE, COVINGTON, KY.
PHONE HEMLOCK 0007.

Realizing that the proper installation of the aerial and general maintenance of the set are of the utmost importance for the finest results this firm operates a complete radio service. No job is complete until the set is properly adjusted and working perfectly in accordance with the practice of the best radio engineers.

Many people of this community who own fine radio sets find trouble in keeping them in proper adjustment, and as a consequence miss many interesting programs. Call the Radio Twins on the phone or write them, and immediately an expert radio repair man will come and put your set in perfect working order.

The service of this firm is a available for the erection and alteration of aerials, repairs and testing of sets and free suggestions as to the newest hook-ups, selection of suit able accessories, Etc. It is under the direction of expert management that is enthusiastic in the radio field and keeps abreast of the newest developments as they appear.

A radio serves its full purpose in the country or suburban home. The Radio Twins have become so proficient in their chosen field that we do not hesitate to recommend them to any of our readers who may need their radio sets repaired or adjusted.

A striking illustration of how sound traffic engineering saves life and limb is seen on Michigan avenue in Chicago, where a rearrangement of the signal system caused a drop of 46 per cent in pedestrian accidents, 27 per cent in all accidents, and 57 per cent in property damage. At the same time traffic was speeded up about 15 per cent.

According to a Mexican newspaper, all the revolutions fought in Latin-America during the last hundred years have cost only about 418 million dollars, or about as much as the Allies spent every four days during the World War. Backers of Latin-American revolutions seem to get more for their money than those who finance wars elsewhere.

Friends Of The Burley Tobacco District

Dixie Wholesale Grocery

(INCORPORATED)

SERVING YOUR NEIGHBORHOOD GROCER

With headquarters at 31 West 8th Street, in Covington, telephones Hemlock 4744 and 4745 has many satisfied patrons througnout this part of the country and renders a valued and essential service; being one of the foremost wholesale grocery houses and offering the highest grade of pure food products.

No review of the business, agricultural and industrial interests of this section of the state would be complete without prominent mention of this company which aids in no little measure the progress and prosperity of this community, and is undoubtedly one of the progressive and popular establishments in this section, that daily ships many consignments all over this community.

It is a well known fact that there is no one institution in the community that has met with greater favor with the public than this well known establishment. By reason of the fact that the management has had wide experience in every feature of this business and because of the comprehensive knowledge of every branch of the trade this company has continued to witness the increase in the number of its patrons.

They deal at wholesale on a large scale and their activity is conducive to the progress and expansion of the community in no small degree.

There are no more public spirited citizens in the community than the management of this well known concern and in making this review of this section, we wish to compliment them and to direct your attention to their establishment which has aided in the development and progress of this part of the state. Patronize your neighborhood store that carries their products.

The Martin Foundry Co. Incorporated

SPECIALIZING IN SEWER, STREET AND DRAIN CASTINGS OF ALL KINDS.

With headquarters at 3rd Street and C. & O. Railroad Bridge, in Covington, telephone HEmlock 4480 is one of the most praiseworthy industries in this community. The owners are men who are familiar with every phase of the business. They are indeed experienced foundry men.

They are absolutely dependable and reliable. Whether it is just a small casting to replace a broken piece or a large quantity of castings needed in the manufacture of large machinery, you will find this company will take care of you most satisfactorily. If you are on the farm and have broken some parts of your machinery, you will save time and effort by coming to this firm and having them make a new casting. You will be more than pleased with their service and workmanship.

They specialize in the making of sewer, street and drain castings of all kinds and are very proficient in these lines. The castings made for these purposes are of the best materials and workmanship and it will pay any one interested in these products to see them first before placing an order.

Theirs is a general foundry, where service, quality and workmanship make their rank foremost among the industrial organizations of this community.

In this edition we are happy to compliment the management upon their efficient business methods and suggest that our readers give them a trial when in need of anything in their lines.

Vogelmann Bakery

(Incorporated)

HOME OF LEADER BREAD. 1620 GARRARD STREET, COVINGTON, KY. PHONE HEMLOCK 1593.

So great has been the care in their effort to give the people the most wholesome food, their host of customers have learned to refuse goods from any other establishment, because they have confidence in their products.

Their bread is always crisp and fresh. It supplies strength and energy and is protected by a sanitary wrapper.

Their bakery goods are the best that money will buy. They are baked under the most wholesome conditions and the best of ingredients used. All goods are sold in the very freshest condition. Their excellent service has brought them much praise and commedation.

Those who have never tried the products from this bakery are missing one of the accompaniments of the perfect meal, as hosts of people are praising the work of this concern and are demanding that their supply house carry this excellent line of pure food products.

The standard of this institution is the best grade flours, pure shortening, sugar, salt, milk and other ingredients, mixed and baked under clean, sanitary conditions by skilled workmen.

The manager has been closely allied with the large business interests of this section of the state for some time and the institution should receive the patronage of the entire people.

Mrs. M. Gardner

SERVING DELICIOUS HOME COOKED MEALS—HOME STYLE—ALL YOU CAN EAT FOR 35 CENTS.

Conveniently located at 2007 Madison Avenue, in Covington, telephone Hemlock 7105 is excellently located and known as the place "where things to eat are different."

This is a very popular place for discriminating people to meet for lunch or evening dinner and has an excellent patronage.

At Mrs. Gardner's one comes in contact with real American cooking, the kind that is practiced by the mothers and daughters of the best families of the period, and one mission that this place is performing is the preserving of this art in the public life of the period.

Many ladies express delight in dining at this uptodate place, not only because they are relieved of the cares in serving the meal, but also because the food is prepared in a manner which is exactly fitting to their own home.

The great popularity of this place has been largely due to the unusual ability of Mrs. M. Gardner, the manager, whose wide experience and broad knowledge has well provided for the demands of a most discriminating trade. Nothing has been left undone to satisfy the demands of a most fastidious taste of any exacting guest.

In writing this series of articles we are glad to compliment the management upon the position it occupies in the business and social life of the period and to call the attention of the people to the fact that it is one place where the desire for real American home cooked food can be thoroughly satisfied.

CAR WASH KING

(Kenney Motor Co.)

Formerly located at 24 East 5th Street, Covington, is now operating in the building of the Kenney Motor Car Company at 25 East 5th Street, Covington, Ky., and is still washing cars for 95c.

Gatch Roofing Co.

(Incorporated)

HAROLD C. TRUITT, Mgr.
BUILT UP GRAVEL, PITCH AND ASPHALT ROOFS

In Covington, at 11 East Fifth Street, telephone Hemlock 3952 and Residence Hemlock 3973-R is one of the leading firms of the community, roofing many places and furnishing the latest scientific asphalt, gravel and pitch roofing at fair and reasonable prices. Their slogan is "Results, not excuses."

They have covered many of the roofs in this section of the state and the work has met with the commendation of the purchasers in every case. To anyone interested they can give these as references and will show you the roofs as they stand today. It is very important that the wood supply of the country be conserved, especially at the present time, and it behooves everyone contemplating the roofing of any establishment to look over and investigate their products before letting a contract.

We are pleased in this edition to refer all our readers to them and to compliment them upon their work in this section of the state.

A. D. YELTON,
M. C. B. C. C.

Maria Kondrea, 38, after being caught, confessed that 71 unsolved Paris burglaries had been committed by the gang of which she was the leader.

The Boone-Kenton Lumber Co.

(INCORPORATED)

DEALERS IN LUMBER & BUILDING MATERIAL. PLANING MILL WORK A SPECIALITY. SASH, DOOORS, MOULDING, FLOORING, CEILING, INTERIOR FINISH, SHEET ROCK, WALL BOARD AND FRAMING.

With office, yard and mill located at 219 Crescent Avenue, in Erlanger, telephones Dixie 7138 and Erlanger 37 is known throughout this section as leaders in the manufacture of sash, doors, mill work and allied lines. In their years of experience this firm has attained great fame through their progressive business methods and superiority of their products. They are recognized throughout the country and add to the progress and prosperity of this section.

They make a specialty of mill work of all kinds, and can supply you with sash, doors, special mill and wood work of all kinds.

In the mill work from this concern you are guaranteed honesty of design, material and workmanship. Once a custome, always a customer. Or better stin; they have built up their business on the high quality of merchandise they furnish.

A novel feature in ordering from this concern is that you can see them manufacture daily the many pieces of wood you wish for your home. Here also you can pick your design out of their stock and know exactly what you are getting.

The Boone-Kenton Lumber Co., Incorporated know the needs of the people and provide for every modern improvement to better the manufacture of their line. We, in this series of articles, wish to compliment them upon the very valuable service they are rendering and point to the members of the firm as leading citizens of our community who merit your liberal patronage.

Scram Printing Co.

Established 1909
JOB AND COMMERCIAL PRINTING.

Located at 407 Madison Avenue, in Covington, telephone Hemlock 1298 has many satisfied patrons in this part of the state through their earnest endeavor to serve the public in a most reliable and satisfactory manner. They are prepared to handle job printing or any kind of special work.

The institution has gained a foremost position in the business life of this community through the efforts of a management who believes that a satisfied customer is the best influence for the good of the concern. The wisdom of his policy is best exemplified in the fact that they have firmly held their list of old customers through the flow of passing years.

They carry a large stock and are equipped to supply the public with stationery and printing at fair and reasonable prices. The equipment is modern in every respect and no job is too large or small for them to handle.

We wish to refer the establishment to our readers as one of the distinctive features of the commercial efficiency of the community and as headquarters for high grade printing work.

Old Southern Barbecue

BOTTLED BEER

Conveniently located at 214 Scott Boulevard, in Covington, telephone Hemlock 6978 has attained a great popularity among people from over the surrounding territory as they offer the best of genuine barbecued meats.

On your next auto ride, stop in and take home a dozen or so barbecued sandwiches for light lunch.

They feature the most modern equipment and no matter whether hot or cold lunch is desired they can serve you. They also carry a complete line of all the popular bottled drinks.

This barbecue is one of the popular establishments of the district where metropolitan service is rendered and the excellent and courteous treatment they are giving the people is winning for them a large patronage of which they may well be proud.

Motoring parties are a special feature with them and if you want your party to be a success just drive to the Old Southern Barbecue and have some real barbecued meats. Here you will find everything pure and wholesome and deliciously appetizing.

In this edition we wish to compliment them upon the character of the place which is rendering a much needed and highly appreciater service to the public, and to say that the people will always find there the best in barbecues. We recommend this place without hesitation to all our readers.

Barnes' Service Station

COMPLETE AUTOMOTIVE SERVICE, TIRES, BATTERIES, ACCESSORIES. FEATURING STOLL GOLDEN TOP GASOLINE AND VISCOYL MOTOR OILS.

Located conveniently at 718 Dixie Highway, in Erlanger, telephone Erlanger 210 is a very popular stopping place for local motorists and tourists from all the states as they offer a most convenient and complete service.

This service station handles good gasoline and motor oil. Their excellent line has been tested and found to be among the very best on the market today; in fact, just a little better than what you thought was the very best. The great satisfaction that they are giving is winning new customers all the time.

It makes no difference whether it is for the passenger car, truck or tractor, you will find they have fuel that will suit your needs. They have made a study of this feature of the trade and especially of the kinds of oil demanded for this climate.

A thorough familiarity with the various makes of automobiles and their requirements, tires, batteries and the many accessories, with a sincere desire to please motorists of every class, has made this station one of the most prominent and popular in this section.

They are authorities on the roads and tours of this section of the state and are ready to give any and all information desired as to detours and all other detail of travel.

In this edition we are pleased to compliment Barnes' Service Station on the service they are rendering the people of this section.

HAMILTON

Mr. Orrin Mahorney and family have the sympathy of this community in the death of his wife.

Miss Catherine Estes visited her sister, Mrs. W. L. Brown, Sunday.

KENTUCKY'S CAVE MAN

The recent discovery of a prehistoric man, perfectly preserved, in the depths of Mammoth Cave in Kentucky, may prove to be one of the most important anthropological finds ever brought to light, according to the Louisville Courier-Journal, which states that not only the body, but the clothing and tools of the man were preserved in the cool, dry air of the great cave.

This ancient man, who lived perhaps several thousand years ago, was evidently a miner, who was crushed to death by a falling boulder under which his body was found, and is believed to have been engaged in chipping gypsum crystals off the wall of the cave when disaster overtook him. His clothing was wooven from fibers which appear to be the inner bark of a tree.

Scientists have been sent by the government to investigate the find and make further explorations, in the hope that the "mummy" may disclose hitherto unknown facts concerning primitive man on the North American continent.

FLORENCE MISSIONARY SOCIETY AND LADIES AID MEET

The missionary Ladies of Florence M. E. Church met with Mrs. Geo. Miller Wednesday, Jan. 8th. Likewise, the Ladies Aid met the same day. The meeting was opened with the beautiful old song "Blest Be The Tide.'

A great bit of business was transacted and an enjoyable time was spent by the entire group.

The Ladies Aid will give their monthly bakery sale January 25th at Antens Grocery.

(Hack) Walton and son Tommy, of near Petersburg, were in town on business last Friday.

BOONE COUNTY WOMAN'S CLUB

The Boone County Woman's Club met with Mrs. Clara and Mrs. Neva Sebree at their regular monthly meeting in December.

A very interesting Christmas program was conducted and the meeting was attended and enjoyed by a large number of the members.

The program was as follows:

Scripture reading—Mrs. Clara Sebree.

"December" — Mrs. Franklin Huey.

Reading—Mrs. Josie Maurer.

Song—Mrs. Neva Sebree.

Poem—Mrs. J. W. Goodridge.

History of Christmas Seals—Mrs. Walton Rice.

The New Church Organ—Mrs. Lulu Huey.

Christmas Songs—Entire Club.

After the regular program was completed a number of contests were held and gifts were exchanged between the various members.

Delicious refreshments were served at the close of the meeting.

Mrs. Frank Voshell will be hostess to the club at its Jan. meeting.

WOOLPER HEIGHTS

Herman Wingate and family, of Erlanger, spent Sunday afternoon with Mr. and Mrs. Ed. Easton.

Watt Walton has been on the sick list for the past week.

Omer Porter called on Ed. Easton and Earl Mudman Sunday morning.

Mrs. Dawson Day has accepted a position at Goldsmiths in Cincinnati.

Mr. and Mrs. Cabil Beemon and sons Wilbur, Ivan and Clayton, called on Owen Beemon and family last Sunday evening.

Carl Alge has been on the tobacco market the past few days.

Due to the rain of the last few days the roads of this community are barely navigable.

WARREN FARMER HAS OUTSTANDING HERD

Richard Floyd of Oakland, Warren county, owns one of the best herds in the dairy herd improvement association operating in Warren, Simpson and Logan counties, according to Woodrow Coots, tester. His herd averaged 50 pounds of butterfat and 549 pounds of milk in a month, and one cow produced 252 pounds of fat in five months.

"The Floyd herd is an outstanding example of the results of a good feeding program, wise selection in breeding stock, and proper management and testing as the measuring stick for a better dairy herd, ' comments the dairy department of the College of Agriculture, University of Kentucky.

1936-1937 CORN-HOG CONTRACT IN BRIEF

Duration of Contract—
Two years—December 1, 1935, to November 30, 1937.

Bases—
Establishment by community committees. Review, to assure uniformity, by county allotment committees. Both appraisal and review to be in accordance with standards prescribed by Secretary.

Corn Adjustment in 1936—
From 10 to 30 per cent of corn base, with exact percentage at option of producer. Planting of not less than 25 per cent of base acreage required.

Hog Adjustment in 1936—
To receive maximum payment, producer shall raise not less than 50 per cent and not more than 100 per cent of his market hog base.

Corn Adjustment in 1937—
Rate to be announced by Nov. 30, 1936. Planting of more than 25 per cent of his corn base or adjustment below 75 per cent of that base not to be required.

Hog Adjustment in 1937—
To secure maximum payment, producer will not be asked to raise more than 60 per cent nor make a downward adjustment of more than 25 per cent of his assigned market base.

Corn Payments—
In 1936, two instalments, about August 1 and about December 31, at rate of 35 cents per bushel, times the appraised yield, times the adjusted corn acreage. The 1937 rate per bushel to be not less than 30 cents; announcement of rate by November 30, 1936.

Hog Payments—
In one instalment as soon as possible after an compliance check at close of each year. The 1936 rate will be $1.25 per head for each hog in the market base. The 1937 rate will not be less than the 1936 rate.

Division of Corn Payments
Tenant and landlord share according to respective interests in assigned corn base and as the corn crops under the lease are divided on each separately owned tract. As an alternative method, subject to approval of allotment committee, tenant and landlord may make division according to number of adjusted corn acres on each separately owned tract.

Division of Hog Payments—
Tenant and stock-share landlord divide payments as they divide hog crop or proceeds from sales of hogs under the lease.

Otto Purnanen of Fergus, Falls, Minn., tried to commit suicide by shooting a bullet into his left breast. Doctors say he will recover because his heart happened to be on the other side.

Taken into court in Belleville, Canada on charges of stealing a hog, Clarence Way testified that as he was driving past the farm of a neighbor a hog ran into the road and leaped right into his truck.

COMMISSIONER'S SALE

COMMONWEALTH OF KENTUCKY

The Federal Land Bank of Louisville, Ky., Plaintiff

VERSUS

Cleveland L. Woodward, et al., Defendant

By virtue of a judgment and order of sale of the Boone Circuit Court rendered at the Dec. Term thereof 1935. In the above cause, I shall proceed to offer for sale at the Court House Door in Burlington, Kentucky, to the highest bidder, at public auction on Monday, the 3rd day of February....1936 at One O Clock P. M., or thereabout being County Court Day), upon a credit of 6 and 12 months, the following described property to-wit:

Lying and being in Boone County, Kentucky, consisting of 146½ acres and situated 2 miles west of Richwood on the Big Bone and Independence Road.

TRACT No. 1—A certain tract of land lying and being in Boone County, Kentucky, and being Lot No. 1 in Parcel D in the division of the lands of W. E. Carpenter, deceased, and bounded and described thus:

Beginning at a stone in the Big Bone and Richwood turnpike road a corner with H. A. Hicks; thence South 80¼ degrees West 2.92 chains to the northeast corner of the Toll Gate lot in said pike; thence with the line of said lot South 10¼ degress West 4.47 chains to a stone South of the old road; thence N. 87½ West 1.9 chains to a corner of said lot in the Union and Richwood Church Road; thence with said Road South ½ West 12.26 chains; South 1½ degrees East 6.35 chains; South 17¼ degrees East 3.28 chains to a stone in said road, a corner with Geo. Slayback; thence with a hedge row South 86½ degrees East 33.5 chains to Geo. Wolf's corner in the center of the Big Bone and Independence Turnpike Road; thence with the turnpike road North 44½ degrees East 9.5 chains to a point in said road; thence North 47½ degrees East 17.35 chains to a stone near a creek; thence North 33 degrees East 2.78 chains to a stone, a corner between the James Marshall and Rice tracts of land; thence North 87 degrees West 80 links to the center of the turnpike road; thence with its center South 38 degrees West 4.8 chains to a corner of James Rice's heirs in the center of said road, evidenced by a stone on the northwest side thereof; thence along the northwest side of the new turnpike road; North 47½ degrees West 4.82 chains; North 54½ degrees West 81 links; North 71¾ degrees West 12.52 chains to a stone, a corner to James Rice's heirs; thence South 22¾ degrees West 26 links to the center of the new turnpike road; thence with its center North 82 degrees West 22.41 chains to a stone, a corner of Lot No. 2, thence with a line of Lot No. 2 North 8¼ degrees East 27.40 chains to a stone, a corner of Lot 3, North 87 degrees West 8.4 chains No. 2, thence with a line of Lot No. to a stone in the road, also in a line of H. Hicks; thence with his line South 6¾ degrees West 26.33 chains to the beginning, containing 134 acres, 2 roods and 31 poles.

There is excepted from the conveyance and out of the above survey ¼ acre of land heretofore conveyed to Charles B. Rice, see Deed Book 43 Page 14.

There is also excepted 23 acres heretofore conveyed to John E. Dennady, see Deed Book 37 page 54. The mount of land actually hereby conveyed being 111 acres, 1 rood and 31 poles, being the same land conveyed to M'gor. by deed from Bell R. Cleveland recorded in Deed Book 62 Page 634 of the office of the Clerk of the Boone County Court.

TRACT No. 2—A certain tract of land, lying and being in Boone County, Kentucky, and on the waters of Mud Lick Creek, and bounded thus: Beginning at the East corner of the Richwood Parsonage Lot or tract of land, in the center of the Big Bone and Independence Turnpike Road, opposite a stone on the northwest side; thence with the center of said road, North 42 degrees, East 12 poles; thence N. 54½ degrees East 13 poles; thence North 43¼ East 453-5 poles to G. N. Wolf's corner in the center of said pike; thence North 53½ West 32 poles and 22 links to a stake near a drain; Wolf's corner in L. B. Stephen's line; thence with said line North 87½ degrees; West 104 poles to a stake in the center of the Union and Walton Road; thence with the center South 8½ poles; thence South 24¼ East 10 9-10 poles to a stake in the center of said road and corner to said Parsonage; thence with a line of said Parsonage North 53¼ degrees East 49 1-3 poles to a stone; thence South 43 degrees East 27 poles to the beginning. The survey contains 2 acres adjoining Geo. N. Wolf and belongs to said Wolf and is fenced off of the above survey by a pailing fence. Said 2 acres is not sold or conveyed by the deed, but is hereby excepted. The above survey contains 35 acres, 1 rood and 16 poles besides the two acres excepting as belonging to Wolf. The purchaser will pay all taxes assessed or accruing against the foregoing property.

Or sufficient thereof to produce the sum of money so ordered to be made. For the purchase price, the purchaser must execute bond, with approved security....bearing legal interest from the day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale—$806.81

COMMISSIONER'S SALE

COMMONWEALTH OF KENTUCKY

Guy Eckman, et al. Plaintiff

VERSUS

Mattie M. Griffith, et al., Deft.

By virtue of a judgment and order of sale of the Boone Circuit Court rendered at the Dec. Term thereof, 1936. In the above cause, I shall proceed to offer for sale at the Court House Door in Burlington, Kentucky, to the highest oidder, at public auction on Monday tne 3rd day of Feb. 1936, at 1 o'clock . M., or thereabout (being County Court Day), upon a credit of Six Twelve and Eighteen months, the following described property to-wit:

Beginning at a stone bearing suth 21½ degrees W. 53 links from a black walnut, a corner with the John W. Griffith tract of land; thence with the center of the T. P. Road 60½ E. 11.81 chains to a stone, a corner of Lot No. 3 of the Bedinger Estate; thence passing a stone 23 links S. 7¼ degrees E. 39.50 chains S. to a stone in a line of Lot 5; thence with the line of Lot No. 5, S. 79 degrees W. 11.81 chains to a stone in a line of the John W. Griffith tract of land; thence with the line of said tract N. 6 degrees W 36.03 chains to the beginning, containing 42 acres, 2 roods and 34 poles. This parcel and the succeeding parcel being the same property conveyed to the grantor by Daisy B. Gregory and husband by deed dated March 6, 1905, and recorded in Deed Book 47, page 573.

Also the following tract, beginning at a stone in the center of the Beaverlick and Richwood T. P. Road bearing 7¼ degrees W 23 links from a stone on the S. side of said T. P. Road, also a corner of Lot No. 4 in the above mentioned division; thence with the line of said T. P. Road, N 60½ degrees E. 9.95 chains to a stone, a corner of Lot No. 2; thence with a line of Lot No. 2 passing a stone 23 links S. 8¼ degrees W. 42.90 chains to a corner of Lots No. 2, 5 and 6; thence with a line of Lot No. 5, S. 79 degrees W. 10.05 chains to a stone, a corner of Lot No. 4; thence with a line of Lot No. 4, N 7¼, W. 39.50 chains, passing a stone 23 links to the beginning, containing 39 acres, 2 roods and 32 poles. These two tracts of land are lots No. 3 and 4, in the original division of the estate of Davis Bedinger.

These two tracts constitute tract No. 1, containing approximately 81 acres.

Lot No. 3 described thus, beginning at a corner of Lot No. 2 in the Beaver and Richwood turnpike road; thence with the line of said Lot S. 32½ E. 72.55 poles; N. 73¾ E. 7.64 poles to a stone in a hedge, S. 3 E. 20.5 poles, S. 68 W. 12 poles, S. angle 63 W. 8 poles to a stone including a spring of water; thence N. 80 W. angle 3.56 poles to another hedge, S. 66 W. 75 poles to a stone, corner to Lot No. 5; thence N. 21 W. 78.8 poles to the center of said turnpike road; thence with the center of said road N. 57¾ E. 86 poles to the beginning, containing 47 acres, and being the same property conveyed to the grantor by J. W. Griffith by deed dated July 5, 1873, and recorded in Deed Book 28, page 456.

Two tracts and parcels of land lying and being in the County and State aforesaid, beginning at a stone a corner between the lots formerly laid off for W. H. and J. O. Griffith; thence N. 20 W 76 3-5 poles passing a stone on the southeast side to a corner in the center of the Beaverlick and Richwood turnpike road, J. O. Griffith's corner; thence with the center of said road S. 58 39 3-10 poles to a stake west of said road in Sibbs and Young's old line; thence with said line S. 82¼ poles to a stone a corner of Wm. H. Griffith's purchase; thenc with the lines thereof N. 73½ W. 12¼ poles to a stone west of a branch; thence N. 67¼ E. 6 2-3 poles to the beginning, containing 26 acres, 2 roods, 12 poles.

Beginning at a stone, corner to Lot No. 1 in Bedinger's line; thence N. 32½ W. 72.55 poles to the center of the Beaver and Richwood Turnpike stone; thence with the center of said Turnpike road N. 57½ E. 103 poles to Bedinger's corner; thence with Bedinger's line S. 8½ E. 99.66 poles to the beginning, containing 46 acres, and being the same property conveyed to the grantor C. L. Griffith and wife by Deed dated April 10th, 1893, and recorded in Deed Book 39, page 555.

These three parcels constitute tract No. 2, containing approximately 119 acres.

Or sufficient thereof to produce the sum of money so ordered to be made. For the purchase price the purchaser must execute bond, with approved surety bearing legal interest from day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale $21,790.30.

ALSO, the following property, by virtue of the same judgment and order of sale of the Boone Circuit Court, rendered at the same time, in the above styled cause, I shall offer for sale at the Court House Door in Burlington, Ky., to the highest bidder, at public auction on Monday, the 3rd day of February, 1936, at One O'Clock P. M., (C. S. T.) or thereabout (being County Court Day), for CASH, the following described property to-wit:

TEN SHARES STOCK OF THE WALTON EQUITABLE BANK AND 18-500 UNDIVIDED INTREST IN THE ASSETS IN THE HANDS OF THE PLAINTIFF'S AS TRUSTEES FOR THE DEPOSITORS OF THE FIRST NATIONAL BANK AND TRUST COMPANY, OFVINGTON, KENTUCKY.

Or so much thereof as may be necessary to produce the sum of money ordered to be made. Bidders will be prepared to comply with these terms promptly. Amount to be raised by sale $1744.21.

A. D. YELTON,
M. C. B. C. C.

CARD OF THANKS

We wish to thank our friends and neighbors for their sympathy and kindness shown us at the death of our dear mother, Mrs. Bessie R. Smith, also those who gave the beautiful floral offerings, Bro. Dunaway for his consoling words, Dr. Love for his untiring efforts and undertaker Williams for the manner in which he conducted the funeral.

The Family.

D. E. Ogden, of near Union, was a caller at the County Seat Friday morning.

MRS. ADDIE MOREHEAD

Mrs. Addie Morehead, aged 71 years, passed away Thursday night at her home Rosebud Ave., Erlanger, after a short illness. She had a stroke of paralysis Christmas morning. The remains were removed to the Taliferro Funeral Home for preparation. She is survived by one son, Irvin Morehead, of Paw Paw, Illinois, five daughters, Mrs. Roxie Lemon and Mrs. E. Wehrmeyer of Erlanger, Mrs. S. York, Moores Hill, Ind., Mrs. L. J. Flerlage, Cincinnati, and Miss Cecile Morehead, Cincinnati, two brothers, Homer J. Northcutt, Postmaster, of Covington, Ky., and James E. Northcutt, Covington, three sisters, Mrs. T. J. Bennett, Mrs. Thomas Sherirf and Mrs. Lucy Finnell. She was a faithful member of the Erlanger aptist church.

Funeral was from the Taliaferro Funeral Home, with services at the Erlanger Baptist church Sunday afternoon at 2 o'clock, by the Rev. R. D. Martin, pastor, after which she was laid to rest in the Williamstown cemetery, by the side of her husband R. C. Morehead.

John Anderson, who was carrying a gallon can of gasoline along a Minnesota road, was seriously burned when the gasoline was ignited by a bolt of lightning which struck a nearby tree.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 60 — BURLINGTON, KENTUCKY THURSDAY, JANUARY 23, 1936 — NUMBER 46

LOAN MEETING BIG SUCCESS

IS REPORT OF SECRETARY AND FEDERAL LAND BANK REPRESENTATIVES

The Boone County National Farm Loan Association in a meeting at Burlington, Tuesday, attended by more than 100 members, reelected B. E. Aylor, Karl Rouse and Thos. Hensley, all of Burlington, as directors for the coming year. Immediately following the meeting the board organized for the forthcoming year by re-electing E. A. Martin, president, John H. Grimes, vice-president and A. B. Renaker, secretary-treasurer.

Declaring that an informed and interested membership is essential to the continued success of any farmers' cooperative organization, W. H. May and W. V. Perry, of The Federal Land Bank of Louisville, urged stockholders to regard seriously their duties as members and to use their best judgment in choosing directors capable of managing the association and able to devote sufficient time and energy to the task.

Mr. May and Mr. Perry described the Farm Credit Administration and the complete credit system which it affords to farmers through the land bank and national farm loan associations for land mortgage credit, the production credit system and the intermediate credit bank for short-term farm operating and the Louisville Bank for Cooperatives for the financial service to well-managed farmers marketing and purchasing organizations. The speaker declared that farm mortgage loans by The Federal Land Bank of Louisville, endorsed by the national farm loan associations of the district, have increased from $114,000,000 early in 1933 to $210,000,000 at the close of 1935.

The annual report of Secretary-Treasurer A. B. Renaker showed that at the close of 1935 the association had 180 members with farm mortgage loans outstanding to the amount of 693,0000 in addition to which 128 Land Bank Commissioner loans for $265,000 have been made and are serviced by the association.

The report showed that but two members of the association are delinquent in payment to a total amount of only $33.22. The repayment situation, said Mr. Renaker has shown marked improvement during the past two years, with a constantly diminishing amount of delinquency.

TWO DEFEATS

IS FATE OF BURLINGTON TEAMS IN CONTESTS WITH WILLIAMSTOWN QUINTETS—HAMILTON DEFEATS THE WALTON BEARCATS.

The Burlington Tomcats and Kittens, who have yet to taste the joy of victory this season, fell prey to the strong Williamstown hoopsters at the local floor Friday nite. Final tabulations of the girl's encounter showed the Grant county girls victorious by the score of 40 to 28. Kinman and Taylor were high scorers for the visitors with 18 and 14 points to their credit respectively, while Alberta Pettit appeared the best for the losers with 14.

The boys game which was won by Williamstown by a score of 32-26 was a somewhat more interesting game. The count at the half was 17-13 in favor of coach Moore's Burlington boys, but the more experienced Williamstown lads outplayed their opponents in the last half and thus Burlington a yet-to-be-winner. Perry was leading point maker for the visitors and again "Duck" Sebree the active "Woolper" boy showed best for Burlington, amassing a total of 18 points.

The Hamilton Farmers, considered the dark horse of the county, and really a strong contender for county laurels gave the Walton Bearcats a 26-20 trimming at the latters court last Tuesday nite. The Walton girls, however, fared better as they emerged victors over the Farmerettes 24-11.

January 24 will be the last home game this season at the Hamilton floor when they tangle with the Cold Spring netmen.

Ben Black, of Big Bone, was a business visitor here Tuesday.

BURLINGTON AND BELLEVIEW CHAPTERS OF O. E. S. HOLD ENSPECTION.

Mrs. Ann Pemberton, Worthy Grand Matron, O. E. S. of Kentucky was in Burlington last Wednesday evening inspecting the local chapter and Belleview chapters, the two grouping together for the occasion.

There was quite a large crowd of visitors present from Covington and other nearby localities including Mrs. Bertha Kerler, Deputy Grand Matron, of district No. 3, Mr. Ernst Dunkle, past Grand Matron, Mr. William Brewer and Mrs. Lutie Dunkle, Grand committeemen.

The Worthy Grand Matron complimented the two chapters on their splendid work. Mrs. Britton Monroe is Worthy Matron and Mr. Elijah Stephens Worthy Patron of the Burlington chapter and the respective offices of the Belleview chapter are held by Mrs. Joe Stephens and Mr. Wm. Lorch.

An addenda was given before the chapters opened in which the Grand Worthy Matron was presented with gifts from them. At the close delicious refreshments were served.

C. C. Regan, Kentucky Game and Fish Commissioner was guest of the Boone County Game and Fish Protective Association at a meeting in Burlington, Monday night.

CONSTANCE MAN SERIOUSLY HURT

IN AUTO MISHAP WHILE RETURNING HOME FROM WORK

A. E. Connelly, 38, a Southern Railroad Company fireman, while enroute to his home from work Friday night was seriously injured when his car skidded and turned over in midair as it plunged down a 10-foot embankment on the Lower River road two miles west of Bromley.

Hospital attaches reported that Mr. Connelly suffered a possible skull fracture, extensive scalp lacerations and left wrist fracture. He was still unconscious Saturday.

Another motorist saw his auto leave the road and called the Ludlow life-saving squad. They gave first aid and removed him to the St. Elizabeth hospital. The passing motorist said Connelly's body was found approximately 35 feet from his auto, which was on its top and badly damaged.

IDEAL LOCAL ITEM

A certain speaker at the Kentucky Press Association meeting gave the following news item as his idea of a real personal news item. He gathered it from a Kentucky weekly publication.

"There was a fire down on Main Street last Friday and we (the reporters) were anxious to get to the scene in order to see the new fire engine manipulate, but before we could get there some smart-elic put it out with a bucket of water.

UNIFORM GAME LAWS ADVOCATED

BY MEMBERS OF THE BOONE COUNTY GAME AND FISH PROTECTIVE ASSOCIATION AT A MEETING REPORT OF CLUB'S WORK GIVEN

At a meeting Monday night at the court house in Burlington the Boone County Game and Fish Protective Association at the suggestion of C. C. Regan, Kentucky Game and Fish Commissioner, whole heartedly indorsed Gov. Chandler's program for a reorganized Game and Fish program and urged that the organization be made stronger in order to join with other conservative clubs in promoting uniform or model game laws.

A motion was made, second, and carried by the various members of the club to apply at once for membership in the League of Kentucky Sportsmen. The functions of this organization was thoroughly explained by the president of the Kenton County Game and Fish Association, who represented his club at the league's formation.

Mr. Regan in his address urged the members of the local organization to petition the representative and senator of this district to vote for the passage of the bill now pending in the legislative body at Frankfort for the uniformity of game laws. He reported that the Governor, like President Roosevelt, sees the need of such a program and is one of the chief backers of it. A reorganization of the Game and Fish Commission was one of Gov. Chandler's selected points in his program.

A decrease of 16,500 in license bought in Kentucky the past year according to Mr. Regan was due to the change in the dove law which was moved from the first of October to the 20th of the same month. It is his belief that this is the period in which the dove migrates to to a warmer climate and as there was such a scarcity of the bird that the dove hunting enthusiast were forced to give up this sport.

Reports by several members of the local organization showed that approximately 50 pheasants and a like number of quails have been released on the game refuges in the county during the past year and 20,000 fish put into the streams.

COMMUNITY. PLANNING MEETINGS—ATTENDANCE GOOD

Community planning meetings were held the past week in Walton, Verona, Petersburg and Florence communities and attendance was good considering the weather conditions, according to H. R. Forkner, County Agent.

Similar meetings are scheduled to be held in the various communities as follows:

New Haven School House—Thursday, Jan. 23rd, 1:15 P. M.

Grant Bank—Friday, Jan. 24th, 1:30 P. M.

County Agent's Office—Saturday, Jan. 25th, 7:00 P. M.

Hebron Bank—Monday, Jan. 27, 7:30 P. M., (Slow Time).

Hamilton School House—Tuesday Jan. 29th, 7:00 P. M.

ERLANGER MAN TAKES OWN LIFE

AT HIS HOME IN ERLANGER EARLY WEDNESDAY MORNING

Mr. Edward Wayman, citizen of Erlanger and well known throughout Boone county, ended his life by shooting himself at his home on Erlanger Road, Erlanger, Ky., early Wednesday morning.

Mr. Wayman was at the time of his death employed by the Fehr Brewing Co., as truck driver and was known throughout Boone county. "Ed." as he was known by all his friends, always had a very pleasant smile, thus making many friends through his connections here and other parts of the county, and the report of his death was received with considerable shock to everyone knowing him.

At this writing it was learned that he was united in marriage several years ago to a sister of Mrs. Elmore Ryle, of the Waterloo neighborhood. He was 58 years old and has lived in Erlanger for several years.

Mr. Wayman has been very despondent since the passing of his aunt, Mrs. Mary G. Perry, and this is the only known reason for his act.

LARGE CROWD ATTENDS POULTRY SCHOOL

Thirty Boone county poultrymen attended the Annual poultry school held at Burlington last Friday. The attendance was good considering the weather and road conditions, according to H. R. Forkner, County Agent.

Local poultrymen gave good discussions of their poultry problems. Prof. Jim Humphrey of the College pointed out there would likely be an increase in poultry production this year but good practices will pay a profit. Mr. Insko advised on means of securing better hatches and stronger chicks thru use of certain ingredients in the rations. Control of manure and flies was considered essential in parasite control by Dr. T. P. Polk. He recommened the use of the government fly trap as one help in control of flies.

Mrs. Cad Sullivan, Grant Maddox and J. F. Cleek were appointed on a committee to arrange for a summer tour and field meeting to study production and disease control practices.

FORMER BOONE COUNTY FAMILY ON RETURN FROM GERMANY.

Word was receved by friends in this county from W. G. Finn and family, who have been in Europe the past year, that they were leaving Berlin, Germany, January 15 to sail to New York.

Mr. Finn has been making an extensive study of agricultural conditions of the various European countries in connection with the United States Department of Agriculture.

BOONE COUNTY BOYS TAKING ACTIVE PART IN COLLEGE ATHLETIC ACTIVITIES AT EASTERN STATE

A news report to the effect that three Boone county boys, H. K. Clore, Leslie Voshell, and Paul DeMoisey, all students of Eastern State College, Richmond, are stepping out in the college athletic circles was received here one day last week. Mr. Clore has been selected head sports editor of the college biweekly publication, which is one of the choice duties to perform on any college paper, while Mr. Voshell, a former Burlington Tomcat basket ball star, and Mr. DeMoisey, a former Walton Bearcat star, are holding down regular positions on the Freshmen and Varsity quintets, respectively.

DEMOCRAT CLUB TO GIVE DANCE

FEBRUARY 21 AT ZIMMER'S CLUB HOUSE—ADVANCE SALE OF TICKETS INDICATE LARGE ATTENDANCE

The Boone County Young Men's Democratic Club have turned their thoughts, at present, from politics to social activities and are sponsoring a dance at Zimmer's Club House, Dixie Highway, near end of car line, on the evening of February 21.

Music for this gala occasion will be furnished by Sammy Duvall and his orchestra. An eight-act floor show will be given as an added feature to the program.

The dance will begin at 9:00 P. M., and continue until 2:00 A. M., subscriptions selling at $1.00 couple.

The advance sale of tickets indicates a large attendance, however, it is a big place and the more that comes the more enjoyable the evening will be so make arrangements for your ticket soon.

HEBRON SCHOOL NEWS

Among the clubs which are striving to reach the highest of heights is the Debate Club. The subject for debate this year is "Resolved—That the several States should enact legislation providing for a system of complete medical service available to all citizens at public expense."

This subject is a very interesting one also large crowds are anticipated. The first decision debate will be with the Alexandria negative team at Hebron at 8 o'clock E. S. T. Tuesday evening, Jan. 28.

People will want to know why these youthful "Douglases" think that medical care should or should not be provided much like public education. Like Sir Roger de Coverley all debaters think that "much can be said on both sides" and the patrons of Hebron school will be pleasantly surprised at the logic of their school's debaters.

So come on out and listen to these "pros and cons." The question is of vital economic importance and THERE WILL BE NO CHARGES. Further announcement will be made concerning future debates.

While enroute from the Recorder office to the court house, Tuesday the news editor came in contact with Chas. Pepper and W. W. Mills, two local tobacco growers, who just returned from Lexington with their returns. Mr. Pepper's crop of 1410 pounds averaged $35.75 and Mr. Mills' crop averaged $34.87. According to Mr. Pepper Chester Lancaster, another local weed grower, had a crop of 1900 pounds which netted him $36.00 per hundred. The expression on the faces of these men indicated that they were well pleased with farming conditions and prices—or at least more so than in the past.

LOCAL TOBACCO RETURNS GOOD

AT LEXINGTON MARKET—AVERAGES WITH HIGHEST ON FLOOR

Despite the reported "break" in the market during the past ten days, Boone county tobacco continues with the highest on the market at Lexington, and in the sales on that market 20 individual consignments from this county, weighing a total of 34,774 lbs., brought averages ranging from 24 to $33 a hundred.

One basket of leaf from this county, a pile in the crop of Flick Bros., was sold in Lexington last week for $41 a hundred, and several other growers had baskets to bring $40 during the auctions.

The sales in Lexington last week totalled 7,106,421 lbs., that brought in $1,368,403.60, an average of $19.25. Season's sales in Lexington total 41,373,442 pounds, and the season's average is $21.29.

Among the better Boone county crops sold in Lexington last week, with the names of the producers, the number of pounds and the averages were:

S. B. Sleet, 698, $32.19; W. B. Sallee, 1,004, $25.06; W. E. Knox, 2,064, $25.10; Mrs. D. B. Wallace and Roy Henderson, 3,402, $28.01; Flick Bros., 2,040, $27.10; John L. Vest and Geo. Crutchfield, 1,364, $25.28; Chas. Dennler, 710, $24.49; Helen Tomlin and T. E. Ryan, 2,866, $25.68; T. E. Ryan, 1,946, $25.85; Ed. Vest, 2,052, $27.99; L. C. Littrell, 1,744, $32.67; D. L. Roberts, 1,028, $33; R. T. Ward, 1,020, $32.31; J. T. Roberts and Tom Brewster, 2,122, $27.07, H. R. Fisher, 2,170, $25.88; A. M. Slack and A. M. Howard, 2,558, $28.13; W. B. McCormick, 1,000, $27.68; Geo. Powers and Luther Kirtley, 1,548, $28.29; S. H. Riley and Silas Locke, 3,088, $34.42, and W. R. and F. Seninger, 350, $24.22.

INTERESTING CALLER

Mrs. Frances Johnson, Beauty Shoppe operator, who is conveniently located at 111 Garvey Ave., Erlanger, was a very interesting caller at the Recorder one evening last week. Mrs. Johnson has a number of customers from Boone county. See her ad for beauty work.

YOUTH AND SEX

IS SUBJECT OF LECTURE TO BE GIVEN BY LOCAL MINISTER AT THE BELLEVIEW BAPTIST CHURCH.

Rev. R. Lee James, pastor Burlington Baptist church, will deliver a lecture to men only at the Belleview Baptist church next Tuesday evening at 7 o'clock on the subject of Youth and Sex. All men and boys above 15 years of age are invited to attend.

This lecture is a plain discussion of a vital problem. It was given at Burlington a short while ago and received a considerable amount of favorable comment by the large crowd in attendance.

Invaluable information for fathers and sons is given. The subject is to be treated from a christian viewpoint.

HEBRON LUTHERAN CHURCH

Rev. H. M. Hauter, Pastor

Sunday, Jan. 26, Bible School at 10:00 A. M. Mr. V. B. Dolwick, Supt.

Luther League Devotional Service at 8:00 P. M. A debate will be held on the subject, "Resolved: that the miracles of Jesus drew more men unto Him, than His parables." Affirmative debaters are Mary Louise Rouse and Kathryn Jane Casper; and negative, Helen Wahl and Delilah Dolwick.

HOPEFUL LUTHERAN CHURCH

Rev. H. M. Hauter, Pastor

Sunday, Jan. 26, Bible School at 10:00 A. M. Mr. John Surface, Supt.

Morning Worship at 11:00 A. M. Subject of the sermon, "The Obedient Servant.' Holy Communion will be celebrated at this service.

Word was received here today that Harold Kelly Clore would speak over WHAS radio station some time today. Good luck to you Kelly. You can't keep a good man down.

Highlights Of The Kentucky Press Association Meeting

Approximately 150 interested men and women....meeting held at the Brown hotel, Louisville, Ky., January 16, 17, and 18. Business session called to order by A. Robbins, President Kentucky Press Association, The Courier, Hickman, Ky....Invocation by Rev. Richard W. F. Seebode, First Unitarian Church, Louisville, Ky....Address of Welcome by Mayor Neville Miller, Louisville....Response by J. P. Gozder, Chairman K. P. A. MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1880

Editorial of the Week

THE BOONE COUNTY FARMER

According to statistics from the report of the State Planing Board 60 to 70 per cent of the people of Boone County are gainfully employed in the industry of agriculture, with 10 to 30 per cent engaged in manufacturing or otherwise, therefore it is agriculture that we should deal with primarily. And it is the very industry of agriculture that is being overlooked and trampled upon. With the exception of the assistance the Boone County farmer gets from the County Farm Agent's office (which is unsurpassed in few counties) and the meager cooperation of a few clubs and publications he is a "rugged individualist. '

Approximately 95 per cent of the total area of Boone County is in farm land divided into 1600 farms being tended by 1800 families, or more. Of this land which is in farms approximately 65 per cent is tillable, however, due to low prices, no market discouragement and numerous other difficulties, over which the farmer has no control, individually, only about one half of this is really under profitable cultivation.

In a comparative measure to show how Boone County farms rate with farms of other counties of the state these figures are given: The value of lands and buildings per acre of farm land is given at $85, being surpassed only by ten counties; the gross value of farm products per acre in Boone County is given at $10 or more, thus placing in the upper 1-3 of the counties in this respect; the value of farm products per capita engaged in agriculture is above $300 while the average for the state is $195. These statistical records seem to indicate that the Boone County farmer has the choice occupation of the county. Personally, I think he has, but it is too much of a burden for the farmer to have to work from sun up to sun down, the entire year, combined with the eternal worry of selling his produce for a decent living standard.

Being strategically located are we are, having the cities of Covington, Newport and Cincinnati as a magnetic wall; having more miles of the Ohio River touching our banks than any other county in the state, a fair railway system and a number of trucking lines, all which aid our transportation; and an unthought of number of other advantages that many other counties of the state do not have, the Boone County farmer should be a happy and contented man with a pocket full of cash. BUT this is going to remain an impossibility until harmony between all agencies of the government, agricultural institutions, the "middle man" the consumer, and last, but MOST IMPORTANT, the farmers is successfully attained.

THE FALSE AND THE TRUE

The Christian Science Monitor quite pertinently remarks that "those countries in which the democratic ideal has had such brief flowering were lands in which it has not had time to root." ¶

Quite true; only it remains to be added that their type of democracy was false in conception, and hence a failure in practice.

Right here in America are many well-meaning folk who have little or no appreciation of the meaning of democracy in its true significance.

The finest and best statement of American democracy is to be found in what is practically the initial statement of the Declaration of Independence, written by Thomas Jefferson:

First, all men are created equal —equal before the law

Second, all men—not some but all—are endowed by their Creator with certain inalienable rights—rights with which government has NO business to meddle, among which are life, liberty and the pursuit of happiness.

Third, to secure these rights—these God-given rights—Governments are instituted among men —note, please, that the man comes before the government; it is his creature; and subject to his will.

Fourth, the government derives its just powers—dwell on that word "just"—from the consent—a world of meaning in that word—of the governed or of the people as a whole.

The purpose of the Constitution is to hold the majority, temporarily in control of the government, within the bounds described in the foregoing statements.

WHAT IS A LIBERAL?

The self-styled " liberals" in Washington are off again, making three times as much noise as their numerical strength justifies and shouting to the heavens that only they can save the nation from perdition.

They crop up every election year. They bellow like a herd of gored bulls. They forget facts and figues, and any intelligent reasoning, just so they'll have an argument. They want inflation, lower taxes, greater expenditures—in short, an impractical Utopia.

Just what are they, anyhow? Webster says they should be: "Broadminded; free from bigotry; friendly to suggestions, or experiments or reform."

They do welcome experiments. But can anyone contend that the average man who calls himself a liberal, without any qualification, is broad-minded and free from bigotry? There are, of course, some honest liberals who fit the definition. Outstanding, however, are the many who contend, without even being willing to listen to reason, that they alone are for "human rights" and those who disagree with them about anything must, therefore, favor "property rights' and nothing else.

Historically, the United States the government was something has been liberal. The very form of new. Significently, though, it wasn't the self-styled liberals—who run for office as Republicans or Democrats because that is the only way they can get in—who have been responsible for the United States' progress since its inception.

That credit must go to the great mass of sober, thinking people who estimate the consequences of action and who even now won't be misled by a tag appropriated by a calculating politician.

NAVY "SELECTIVE RECRUITING"

Lieutenant Carson R. Miller, Officer in Charge of the U. S. Navy Recruiting Station located in the Post Office Building, Fifth and Main Streets, Cincinnati, announced today that the method of selective recruiting employed by the Navy since 1928 is producing most beneficial results as shown by the quality of recruits being obtained, a marked decrease in losses from preventable causes and a substantial increase in the percentage of reenlistments.

Under old canvassing methods of recruiting a recruiter had to develop the art of persuasion and master its principles, but under present conditions it is unnecessary to urge in order to obtain recruits. A man who has been persuaded to enlist may afterwards feel that he enlisted under alluring inducements and mis representations.

Due to the awakening of curiosity in the minds of many young men, followed by their interest in the Navy as a career, and desire to enlist, all of which has been brought about by efficient and truthful presentation to the public of facts or knowledge regarding the Navy, selective recruiting has taken the place of the old time "sales talk.'

Selective recruiting is based on three essential factors; first the type of personnel ordered to recruiting duty; second, on making contacts only with prospects of desirable quality, and third, on a thorough investigation of all applicants.

Selection of personnel is a fundametal because of their primary duty as representatives of the Navy.

Searching investigation of applicants is necessary in order to insure that they are of good character, industrious and of proper intelligence.

With the above in mind, selective recruiting may be defined, in general terms, as that system which eliminates from consideration for enlistment in the Navy all but those who are possessed of at least normal intelligence, have a reasonably sound education and who have been brought up in a good environment and under satisfactory home conditions.

Recruiting officers constantly bear in mind the fact that standards for enlistment in the Navy cannot be too high. This is particularly important because, with a treaty Navy limited personnel, excellence of personnel is essential in order to maintain the Navy at the highest efficiency. In addition, in the event of national emergency, the enlisted personnel of the Navy will be the nucleus on which the Naval forces are expanded and many attain to warrant or commissioned rank.

In the generally accepted sense of the word, so-called "salesmanship" has no relation to present day recruiting. The recruiting service may best be compared to a purchasing organization and the applicant to the one whose endeavor it is to "sell" himself to the Navy. The conduct and appearance of personnel on recruiting duty will always be more effective than all of the "salesmanship" that may ever be applied. The essence of selective recruiting is the circularization of prospects who, it may be assumed, possess the necessary qualifications for enlistment. Street solicitation is unnecessary and undignified. The Navy offers well recognized opportunities to boys of high character and in the procurement of recruits it is only necessary for the recruiting service to convey this information to the public through personal contact and proper publicity channels.

Great stress is laid on investigation of the applicant's antecedents and his character as established in the community. It is now the practice to accept only those applicants who have resided for several years in a given locality. This procedure largely eliminates "floaters," and subjects the past records of applicants to full investigation. Only those applicants are enlisted who are vouched for by at least three reputable citizens of the community. The questionnaire which they fill out has special reference to the industry, honesty and good conduct of the applicant.

No applicant with a police or juvenile record, involving moral turpitude, is knowingly enlisted.

Physical examinations of applicants are thorough and most of the applicants are rejected for physical defects, chiefly defective teeth and flat feet. Last year only one applicant in 20 was accepted for enlistment.

EDITORIAL PARAGRAPHS

A new bill to stimulate the American merchant marine has been introduced in Congress. It would grant to ship builders in this country a subsidy equal to the difference in the costs of construction here and abroad.

—o—

The Annual budget just submitted to Congress asked $8,600,000 to erect a new building for the office of Comptroller General J. R. McCarl. He is the man who decides whether proposed expenditures actually may be made under laws passed by Congress.

—o—

Many American who are willing to wirte a new Federal Constitution have never bothered to even read the present one.—The Sojourner.

—o—

Those who say that business and industry are not better than they were—don't want them any better.

—o—

A newspaper is not similar to the car that always has room for one more. After the 48 columns of an eight page six column paper are filled....that's all—it just won't squeeze in.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for January 26

JESUS DECLARES HIS PURPOSE

LESSON TEXT—Luke 4:16-30.

GOLDEN TEXT—The Spirit of the Lord is upon me, because he hath anointed me to preach the gospel to the poor; he hath sent me to heal the broken-hearted, to preach deliverance to the captives, and recovering of sight to the blind, to set at liberty them that are bruised, to preach the acceptable year of the Lord.—Luke 4:18, 19.

PRIMARY TOPIC—Jesus Preaches to His Home Folks.

JUNIOR TOPIC—Jesus' First Sermon.

INTERMEDIATE AND SENIOR TOPIC—Choosing a Life Purpose.

YOUNG PEOPLE AND ADULT TOPIC—What Jesus Came to Do.

I. Jesus in the Synagogue (v. 16).

On the Sabbath he went into the Synagogue according to his custom. He no doubt went that day with a new and definite purpose, but how refreshing to know that it was according to his habit. Many young people have been safeguarded from the pitfalls of the world because of the habit of reading the Bible, praying and going to church.

II. Jesus Reading the Scriptures (vv. 17-19).

1. The book handed to him (v. 17). It was not only his custom to attend the place of worship, but to take part in it. This privilege was not confined to the rabbis (Acts 13:15). Jesus, therefore, used the liberty accorded him.

2. The passage read (Isa. 61:1,2). It is not entirely clear as to whether this was, providentially, the Scripture reading for the day, or whether it was specifically chosen by him for that occasion.

3. The content of the passage (vv. 18, 19).

a. The mission of the Messiah (v. 18).

(1) To preach the gospel to the poor. The good tidings which Jesus proclaimed are peculiarly welcome to the common people. By "poor" in this case is primarily meant those who were poor in spirit (Matt. 5:3).

(2) To heal the broken-hearted. The gospel of Christ meets the needs of those whose hearts are crushed by the weight of their own sins or by a burden of sorrow and disappointment.

(3) To preach deliverance to the captives. This meant deliverance from the bondage of the Devil (John 8:36).

(4) Recovering of sight to the blind. Christ did actually make these who were physically blind to see (John 9:6, 7) and also opened the eyes of those who were spiritually blind (I John 5:20).

(5) To set at liberty them that are bruised. The power of Christ can free the most utterly hopeless ones.

(6) To preach the acceptable year of the Lord. The primary allusion is to the year of jubilee (Lev. 25:8-10).

b. The special endowment of the Messiah (v. 18). He was the anointed one predicted by Isaiah, the Messiah.

III. Jesus Expounding the Scriptures (vv. 20, 21).

1. He closed the book and sat down. It seems to have been the custom of the Jewish teachers to sit while teaching.

2. "This day is this scripture fulfilled." This statement is no doubt but the gist of what he said. He thus declared that he was the Messiah.

IV. Jesus' Reception by the People (vv. 22-30).

The critical hour had come. The people were amazed. They admitted his gracious words but were unable to admit his claims. His reception was characterized by

1. Ignorant prejudice (v. 22). They said, "Is not this Joseph's son?" as if to say, "This is our fellow townsmen with whom we have been acquainted for years. Surely, he cannot be the Messiah."

2. Unbelief as to his supernatural power (v. 23). They challenged him to exhibit examples of divine power,

3. Personal jealousy (v. 24). Jealousy often prevents us from seeing the essential worth of men in our midst.

Jesus adduced two outstanding examples of the willingness of foreigners to believe God.

a. Elijah was sent to a widew at Serepta (vv. 25, 26). Many widows of Israel were passed by, doubtless because they would not have received the prophet.

b. Naaman, the foreigner, of the many lepers, was the one cleansed. (v. 27).

4. Violent hatred (vv. 28-30). This comparison of the Jews with foreigners so offended their pride that they tried to kill him. He showed them that just as Elijah had brought blessing to one who lived in Sidon, and Elisha to one in Syria, while the people of Israel went on suffering, even so the Gentiles would receive the blessing of his saving power, while they, the chosen nation, would suffer in unbelief.

Pity

Pity and forbearance, and long-sufferance, and passing the gentlest sentence, are as certainly our duty, and owing to every person that does offend and can repent, as calling to account can be owing to the law; and he that does not so is an unjust person.—Jeremy Taylor.

Hurt by Little Things

Little minds are too much hurt by little things. Great minds perceive them all, and consequently are not touched by them.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF JAN. 28, 1926

W. W. Conner, Dead

W. W. Conner, a prominent citizen and farmer of Union died Monday night, after a lingering illnes. He was a son of Reuben Conner and a brother of J. W. Conner, of Erlanger and Mage Conner of near Walton.

Man With Big Heart

Burlington pedestrians have been relieved beyond measure, during the two recent heavy snows, by Mr. George Blythe's snow plow. His industrious grandson "Pete" was the jockey and he certainly did a good job.

L. C. Weaver Re-elected Manager of Farm Bureau at Burlington—Tie at Florence.

The annual meeting of the Boone County Farm Bureau and the election of officers for the coming year was held at the headquarters in Burlington Monday and the following directors were elected: F. H. Rouse, Jerry Quigley, Clem Kendall, Lewis Weaver and J. M. Eddins.

The newly elected directors selected Mr. L. C. Weaver as manager of the Burlington bureau. A tie vote on those nominated for the Florence post caused a postponement on the selection of manager for that division.

Joe Berkshire, who has a position at the Covington Loose Leaf Tobacco Warehouse, spent Saturday night and Sunday with his father, Clyde Berkshire.

The announcement of the death of Judge R. G. Williams, last Sunday morning, at his home in Fort Mitchell, was a shock to his many friends in Burlington, where he was well and favorably known. Eight hours after his death word was received that his mother, Mrs. Mary Williams, 83, had died at her home in Mt. Vernon, Ky.

Hopeful

Gilbert Vaughn, of Birmingham, Ala., was called here last week by the death of his step-mother Mrs. Frank Vaugnn.

Geo. Robbins, of Berea, Ky., spent the week-end with his father, S. J. Robbins.

Beaver Lick

The many friends here extend their congratulations to Mr and Mrs. John A. Roberts on their marriage which took place Friday.

News Tour

By Wm. C. Walton

I now moved close to the fighting table and watched the two little adversaries imprisoned in a minature boat-shaped cage. In order not to excite them the attendants had placed strips of felt outside the ivory rods, completely shutting out their view. However, from above we could look down upon them, crouching miserable. Everything ready, the felts were removed and each trainer began the process of delicately tickling his cricket with a wisp of dried grass, brushing him in just the right spot to arouse his ire. Immediately both started chirping loudly. At the right moment the slide was drawn up, leaving them facing each other. Lunging simultaneously, their strong mandibles shot out in fury, thrusting and biting in a death struggle. The braggadoco chirping on the part of the survivor now pro nounced him victor and frenzied calls from the winners declared the first over. The sport continued until the morning hours, sometimes a cricket turned yellow, cowered, refuses to fight. No glory for him. His life career was at an end and he was crushed beneath an angry foot. As the night wore on fight after fight was staged and speedily won or lost. Perspiration ran down every face and attendant coolies wedged their way hither and thither with bowls of tea and dirty steaming towels with which to mop off the perspiration. Cricket fighting is not confined to the poorer classes, it premeates all ranks of Chinese. Poor little gladiators snatched from cool green fields, betrayed by their soft cherry song to captavity or untimely death, no wonder that high ranking title of general was often conferred upon them when they won vast fortunes for their owners—and sometimes at the end they were laid to rest in small silver coffins with pompous ceremonies.

GASBURG

(Delayed)

Madames Charles White and Audy Cook attended the W. M. U. of the Petersburg Baptist church Friday at the home of Mrs. Lyman Christy.

Mr. Cleve Aylor is quite ill with pneumonia. His sister Mrs. Lulu Stephens, is helping nurse him.

Mr. and Mrs. Andy Cook and daugnter Emma Frances, and son Russell and Miss Mary Rector were business visitors n Cincinnati and Covington, one day last week.

Glad to report that little Evelyn Ann Rogers is improving and hopes to soon return from the hospital.

Mr. and Mrs. Wilson Leek called on Mr. and Mrs. E. E. Klopp last Monday evening.

The school children in thisneighborhood are enjoying an extended holiday vacation because of the dyphtheria scare in Petersburg.

Miss Emma Frances Cook spent Friday afternoon with Miss Mary Rector.

Glad to reportMr. Webb Rogers and Hazel Lee McNeely are better.

Mrs. E. E. Klopp spent Wednesday and Thursday nights with her parents, Mr. and Mrs. Earl Leek, of Petersburg.

Mr. and Mrs. Tom Rice and son and Mr. and Mrs. Luther Smith spent Sunday with Mr. and Mrs. Andy Cook.

Miss Mary Rector called on Mrs. Fritz Shinkle, of Idlewild, Saturday afternoon.

Mr. and Mrs. Ott Rogers and son Edward, called on Mr. and Mrs. Willis Rogers and Mr. Webb Rogers Sunday afternoon.

Mr. and Mrs. John Klopp and daughter called on Mr. and Mrs. W. B. Arnold Sunday afternoon.

Mr. and Mrs. Stanley Smith and son spent Sunday with Mr. and Mrs. H. W. Baker, Rev. and Mrs. Dunaway, Miss Sarah Lucille South also were there.

Callers on Mrs. Harry Bayer Sunday afternoon were Madames Lee Craddock, Stanley Bonta and W. O. Rector, Misses Mary Rector and Frances Bonta and Messrs. Arnold and Harold Craddock.

Mr. Frank Klopp and sin Billy, were isitors in Madison, Ind., Sunday.

Mrs. Jacob Nixon and children called on Mrs. Harry Bayer Friday evening.

Mr. Carol Rice, of Burlington, and Mr. Charles Poerner, of Covington, made several calls in Gasburg Saturday afternoon. They are selling radios for a Cincinnati firm.

Mr. and Mrs. Ira McCool called on Mr. and Mrs. John Burns Sunday afternoon.

Mr. Charles Knipfer, of Covington, spent the week-end with Geo. Batchelor and family.

Mrs. Jacob Nixon was shopping in Aurora, Friday morning.

PETERSBURG

The home of Mr. and Mrs. B. J. Crisler was the scene of a happy event Sunday, the occasion being Mr. Crisler's 79th birthday. Those who were present to assist in making the occasion a happy one were: Mr. and Mrs. L. D. McGlasson and sons, Ben and Paul, of Constance; Miss Edith Heist, of Covington; Mr. and Mrs. W. H. Crisler and Misses Rose, Mary and Elizabeth Zapp, of Lawrenceburg; Mr. O. N. Scott, Dr. and Mrs. E. J. Love, Edward Helms and Mrs. Mary Berkshire, of Petersburg.

Mrs. L. E. Keim and Mrs. H. E. Arnold were Saturday night and Sunday guest of Mr. and Mrs. K. H. Keiw, of Florence.

Rev. Don E. Walker spent Saturday and Sunday with Mr. and Mrs. E. B. Berkshire.

Mr. Chas. Beemon is quite ill.

Mrs. W. T. Berkshire returned home Friday from a pleasant stay with Mr. and Mrs. V. P. Shinkle and family, of Aurora, Ind.

Harold Utz had the misfortune of getting his car wrecked Saturday evening when he collided with another car. Fortunately no one was injured in the mishap.

Mrs. Lou Allen Grant has been quite ill the past week.

O. N. Scott has returned home from a visit with relatives.

Reduction Made In Long Distance Telephone Rates

Special Sunday rates for long distance calls and, also, reduced person-to-person rates after seven o'clock every evening have been placed in effect by the Bell Telephone Company, according to E. G. Stephenson, manager of the Consolidated Telephone Company.

Before these new rates became effective night rates were available only on long distance calls by number (station-to-station.) Now, calls made to a particular person (person-to-person) also are reduced after 7 p. m. In addition, the night rates on both types of calls are in effect all day Sunday, and include the hours from 7 p. m., Saturday until 4:30 a. m., Monday.

The reduced rates which have been in effect on station-to-station calls after 7 p. m., and are now extended to all day Sunday, apply to most calls on which the day rate for three minutes is more than 35 cents. The reductions range from about 10 per cent on some of the shorter calls to 40 per cent or more on distant calls.

Marjorie Sullivan, small daughter of Mr. and Mrs. Earl Sullivan, has a severe case of bronco-pneumonia.

COMMISSIONER'S SALE

COMMONWEALTH OF KENTUCKY

Guy Eckman, et al. Plaintiff
VERSUS
Mattie M. Griffith, et al., Deft.

By virtue of a judgment and order of sale of the Boone Circuit Court rendered at the Dec. Term thereof, 1936. In the above cause, I shall proceed to offer for sale at the Court House Door in Burlington, Kentucky, to the highest bidder, at public auction on Monday the 3rd day of Feb. 1936, at 1 o'clock P. M., or thereabout (being County Court Day), upon a credit of Six Twelve and Eighteen months, the following described property to-wit:

Beginning at a stone bearing suth 21½ degrees W. 53 links from a black walnut, a corner with the John W. Griffith tract of land; thence with the center of the T. P. Road 60½ E. 11.81 chains to a stone, a corner of Lot No. 3 of the Bedinger Estate; thence passing a stone 23 links S. 7¼ degrees E. 39.50 chains S. to a stone in a line of Lot 5; thence with the line of Lot No. 5, S. 79 degrees W. 11.81 chains to a stone in a line of the John W. Griffith tract of land; thence with the line of said tract N. 6 degrees W. 36.03 chains to the beginning, containing 42 acres, 2 roods and 34 poles. This parcel and the succeeding parcel being the same property conveyed to the grantor by Daisy B. Gregory and husband by deed dated March 6, 1905, and recorded in Deed Book 47, page 573.

Also the following tract, beginning at a stone in the center of the Beaverlick and Richwood T. P. Road bearing 7¼ degrees W 23 links from a stone on the S. side of said T. P. Road, also a corner of Lot No. 4 in the above mentioned division; thence with the line of said T. P. Road, N 60½ degrees E. 9.95 chains to a stone, a corner of Lot No. 2; thence with a line of Lot No. 2 passing a stone 23 links S. 8¼ degrees W. 42.90 chains to a corner of Lots No. 2, 5 and 6; thence with a line of Lot No. 5, S. 79 degrees W. 10.05 chains to a stone, a corner of Lot No. 4; thence with a line of Lot No. 4, N 7¼, W. 39.50 chains, passing a stone 23 links to the beginning, containing 39 acres, 2 roods and 32 poles. These two tracts of land are lots No. 3 and 4, in the original division of the estate of Davis Bedinger.

These two tracts constitute tract No. 1, containing approximately 81 acres.

Lot No. 3 described thus, beginning at a corner of Lot No. 2 in the Beaver and Richwood turnpike road; thence with the line of said Lot S. 32½ E. 72.55 poles; N. 73¾ E. 7.64 poles to a stone in a hedge, S. 3 E. 20.5 poles, S. 68 W. 12 poles, S. angle 63 W. 8 poles to a stone including a spring of water; thence N. 80 W. angle 3.56 poles to another hedge, S. 66 W. 75 poles to a stone, corner to Lot No. 5; thence N. 21 W. 78.8 poles to the center of said turnpike road; thence with the center of said road N. 57¾ E. 86 poles to the beginning, containing 47 acres, and being the same property conveyed to the grantor by J. W. Griffith by deed dated July 5, 1873, and recorded in Deed Book 28, page 456.

Two tracts and parcels of land lying and being in the County and State aforesaid, beginning at a stone a corner between the lots formerly laid off for W. H. and J. O. Griffith; thence N. 20 W 76 3-5 poles passing a stone on the southeast side to a corner in the center of the Beaverlick and Richwood turnpike road, J. O. Griffith's corner; thence with the center of said road S. 58 39 3-10 poles to a stake west of said road in Sibbs and Young's old line; thence with said line S. 82¼ poles to a stone a corner of Wm. H. Griffith's purchase; thenc with the lines thereof N. 73½ W. 12¼ poles to a stone west of a branch; thence N. 67¾ E. 6 2-3 poles to the beginning, containing 26 acres, 2 roods, 12 poles.

Beginning at a stone, corner to Lot No. 1 in Bedinger's line; thence N. 32½ W. 72.55 poles to the center of the Beaver and Richwood Turnpike stone; thence with the center of said Turnpike road N. 57½ E. 103 poles to Bedinger's corner; thence with Bedinger's line S. 8½ E. 99.66 poles to the beginning, containing 46 acres, and being the same property conveyed to the grantor C. L. Griffith and wife by Deed dated April 10th, 1893, and recorded in Deed Book 39, page 555.

These three parcels constitute tract No. 2, containing approximately 119 acres.

Or sufficient thereof to produce the sum of money so ordered to be made. For the purchase price the purchaser must execute bond, with approved surety bearing legal interest from day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale $21,790.30.

ALSO, the following property, by virtue of the same judgment and order of sale of the Boone Circuit Court, rendered at the same time, in the above styled cause, I shall offer for sale at the Court House Door in Burlington, Ky., to the highest bidder, at public auction on Monday, the 3rd day of February, 1936, at One O'Clock P. M., (C. S. T.) or thereabout (being County Court Day), for CASH, the following described property to-wit:

TEN SHARES STOCK OF THE WALTON EQUITABLE BANK AND 18-500 UNDIVIDED INTREST IN THE ASSETS IN THE HANDS OF THE PLAINTIFF'S AS TRUSTEES FOR THE DEPOSITORS OF THE FIRST NATIONAL BANK AND TRUST COMPANY, OFVINGTON, KENTUCKY.

Or so much thereof as may be necessary to produce the sum of money ordered to be made. Bidders will be prepared to comply with these terms promptly. Amount to be raised by sale $1744.21.

A. D. YELTON,
M. C. B. C. C.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

Now In Effect
Special Sunday Rates

FOR LONG DISTANCE CALLS
AND
REDUCED PERSON-TO-PERSON RATES
AFTER 7 EVERY EVENING

The Bell System now extends to all day Sunday the same reduced rates which have been in effect on long distance station-to-station calls after 7 p. m., each evening. The reductions apply to most calls on which the day rate for three minutes is more than 35 cents, and range from about 10 per cent on some of the shorter calls to 40 per cent or more on distant

The Bell System also now offers reduced rates on per-to-person calls EVERY NIGHT after 7 p. m., and ALL DAY SUNDAY. They apply, in general, on long distance calls on which the day station-to station rate is more than 35 cents. The discount on most person-to-person calls is the same in money as on station-to-station calls between the same places.

In both social and business affairs, these new Sunday and night rates offer you a broader service at a lower cost. They widen your telephone's usefulness.

WHY

IS LEXINGTON THE LARGEST MARKET IN THE ENTIRE BURLEY TOBACCO BELT ? ? ?

BECAUSE

LEXINGTON IS THE HIGHEST MARKET IN THE ENTIRE BURLEY TOBACCO BELT ! ! !

You Have A Neighbor Who Sells in Lexington - - Just Ask Him!

Thus far this season, including all sales of last week, Lexington has sold 41,373,442 pounds of tobacco for an average of $21.29—and this tobacco has come from every section of the burley belt.

IT WILL PAY YOU TO SELL THE REST OF YOUR CROP IN LEXINGTON, TOO.

LEXINGTON TOBACCO WAREHOUSE ASSOCIATION

Lexington, Kentucky

Kentucky Farm News

The Mercer County Sheep Growers' Association has completed one year of good work in preventing sheep losses from dogs, and paying for losses. Two hundred and fifty-four dollars were paid for 35 sheep. One hundred and ten members insured 6,474 sheep at a cost of seven cents a head.

J. W. Fegenbush, of Jefferson county, applied 500 pounds of fertilizer to land planted to sweet potatoes, and obtained an increased yield of about 90 bushels an acre on relatively fertile ground. Other potato growers reported similar successful results.

Ben Wilson, of Meade county, fed 331 western lambs during the fall a ration of alfalfa hay, corn and cottonseed meal, with a resultant average gain of 24½ pounds a head. The lambs had 350 bushels of corn, 15 tons of hay, 1,500 pounds of cottonseed meal, pasture and plenty of fresh water.

Philip Preece, a Lawrence county booster of korean lespedeza, estimates that 10,000 acres were seeded to hay and pasture in that county last year, with approximately 100,000 pounds of seed used. Preece had good results from 1,500 pounds of seed used on his farm.

Caldwell county farmers have agreed on the following poultry program as a way to increase profits during 1936: clean chicks to start with; satisfactory, clean equipment; clean ground for houses and range; feeding balanced ration, and careful management.

Fisher Mark and L. H. Peed, of Sideview community in Montgomery county, reported the largest yield of korean lespedeza seed in the county. They threshed 425 pounds of seed an acre. The average yield of Montgomery county farmers was 100 to 125 pounds.

Mrs. Wallace Clore is nursing Mr. B. B. Grant, who is very ill with pneumonia.

Mrs. M. L. Riddell was visiting friends in Burlington Tuesday.

Two women fruit venders in Chicago peeled policeman Wm. May with rotten fruit when he attempted to stop their quarrel.

—o—

"I'm jinxed," declared Jas. Reddish of Des Moines, Ia., when he surrendered his license. Within eight weeks, he said, he had been in two car accidents.

COMMISSIONER'S SALE

Federal Land Bank of Louisville Plaintiff

VERSUS

Beatrice H. Brownfield, et al Deft.

By virtue of a judgment and order of sale of the Boone Circuit Court rendered at the Dec. Term thereof 1936. In the above cause, I shall proceed to offer for sale at the Court House Door in Burlington, Kentucky, to the highest bidder, at public auction on Monday, the 3rd day of February, 1936, at One O'Clock P. M., or thereabout (being County Court Day), upon a credit of 6 & 12 months the following described property to-wit:

Consisting of 110.33 acres, and situated 1 mile east of Florence, Ky., on the Bank Lick Road.

TRACT No. 1—Lying and being in Boone County, Ky., beginning at a stone in the public road in the line of David Buffington, a corner with lot No. 1; thence with a line of lots No. 1 and 2, North 19 degrees west 34.10 chains to a corner of Lot No. 2 in the Bullock Pen Branch Road, thence with said road or nearly so, South 72½ degrees east 11.41 chains; south 83½ degrees east 4.7 chains; South 63½ degrees east 12 links to a corner of Lot No. 3; thence passing a stone on the south side of the road south 18 degrees east 26.52 chains, passing a stone on the north side of a branch to a corner with Lot No. 3 in a line of David Buffington; thence with his line south 80 degrees west 3.72 chains; south 68½ degrees west 6.50 chains, south 89 degrees west 3.05 chains to the beginning, containing 40 acres.

TRACT No. 2—Being Lot No. 4 in the division of lands of Milton Wilhoit, deceased, lying and being near the town of Florence and on Bullock Pen Branch; in Kenton County, Ky., beginning at a stone a corner with Lot No. 3 on Bullock Pen Branch, in a line of the John Goodridge tract of land; thence with a line of said tract north 89½ degrees east 2.33 chains; south 67½ degrees east 5.75 chains to a stone; thence south 89¼ degrees east 6.73 chains; south 7.84 chains; south 36½ degrees east 3.03 chains; south 55¼ degrees east 18 links to a stone in a line of William McClure; thence with his lines up a branch south 35¾ degrees west 6.10 chains; south 25½ degrees west 5.30 chains; south 18½ degrees west 1.82 chains; south 55½ degrees west 2.04 chains; north 12 degrees east 22 links to a point in said branch, a corner with David Buffington; thence with his lines north 87½ degrees west 8 chains; north 8½ degrees west 3.28 chains to a corner of Lot No. 3; t hence with a line thereof passing a stone on the north side of a branch north 5 degrees west 22.84 chains to the beginning, containing 35.33 acres.

TRACT No. 3—Lying and being in Boone and Kenton Counties, Ky., and being Lot No. 3 in the division of the lands of Milton Wilhoit, deceased; beginning at a stone a corner with Martha C. Wilhoit's dower in the Bullock Pen Branch Road; thence with said road or nearly so and with the lines of Ezra Wilhoit; south 63 degrees east 5.13 chains; south 82½ degrees east 8.66 chains; north 69 degrees east 6.45 chains; north 89½ degrees east 7 links to a corner of Lot No. 4; thence with a line of Lot No. 4, passing a stone on the south side of the road south 5 degrees east 22.84 chains passing a stone on the north side of a branch to a corner of Lot No. 4 in a line of David Buffington; thence with lines north 86½ degrees west west 4.61 chains; south 80 degrees west 8.62 chains to a corner of the dower; thence with a line thereof north 18 degrees west 26.52 chains to the beginning, containing 35 acres.

Being the same property conveyed to Beatrice Hulbert Brownfield by deed from Lizzie B. Sanders etc., dated October 6th, 1930, recorded in Deed Book 69, page 300 Boone County Records and deed Book 237, page 521 Kenton County records, less 49-100 of an acre conveyed to the Cincinnati Southern Railway by deeds recorded in deed books 148 and 160, pages 493 and 90 respectively, Kenton County Records.

The purchaser shall assume all unpaid taxes against the said property which became due and payable in 1935 and thereafter.

Or sufficient thereof the sum of money so ordered to be made. For the purchase price, the purchaser must execute bond, with approved surety—bearing legal interest from the day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale—$3,112.22.

W. P. A. PROJECTS

OF KENTUCKY ARE HIGHLY CONSTRUCTIVE — IN THOROUGH KEEPING WITH PRESIDENT ROOSEVELT'S ORIGINAL PLAN.

Louisville, Ky., Jan. 13.—The Works Progress Administration in Kentucky, as of December 31, was operating 1,554 highly constructive projects of a permanent nature within the State giving employment to 63,223 heads of families at a security wage. Of the total number of projects 187 employed 7,427 women exclusively.

The bulk of the projects now being prosecuted in Kentucky, Geo. H. Goodman, administrator, said are farm to market roads and highways, schools, sewer systems and various public buildings. "Every bit of the work going on in Kentucky," Mr. Goodman aid, "is in thorough keeping with President Roosevelt's original idea that all projects should be highly constructive, permanent and add to the wealth of the State."

Mr. Goodman also pointed out that the Works Progress Administration had fulfilled its mission in Kentucky by now actually employing 63,224 heads of families when the original quta for the State was 67,300. The variance represents workable men who have found regular employment, due to improved business conditions throughout the country. As projects are completed, Mr. Goodman said, others would be opened to care for those whose jobs run out.

Funds amounting to $15,420,416 from Washington. As of December for 2174 projects have been received 31, Comptroller General McCarl had approved the total amount of $17,184,732 for Kentucky.

The January meeting of Womans Missionary Society of Burlington Baptist church met at the home of Mrs. Robt. Clore at 2 o'clock with Mrs. Alice Yelton president, presiding.

Hymn—Lead on King Eternal.
Lesson discussed by President Mrs. Alice Yelton.
Prayer—Mrs. James.
Thy Kingdom Come—Mrs. Catherine Easton.
The King and his subjects—Mrs. Anna Gaines.
Song — Come Thou Almighty King.
Prayer—Mrs. Bess Huey.
It is Precious like a Pearl—Mrs. Pauline Smith.
It Grows like the Mustard Seed—Mrs. W. B. Cotton.
Sentence Prayers.
Enemies of the Kingdom—Mrs. Kathryn Brown.
The Needs of the Kingdon—Mrs. Stella Gaines.
Closing Prayer—Mrs. Anna Gaines

Here's an important roof improvement—a long lived, fine looking shingle with a thick cork back. It INSULATES against summer heat and winter cold, increasing comfort and cutting fuel costs. And you save money, for Carey Cork Back Shingles cost only about HALF what you would pay for ordinary shingles and separate insulation.

Ask us about this beautiful double duty shingle—we'll gladly supply samples and quote prices.

BOONE-KENTON LUMBER COMPANY

Erlanger, Kentucky

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 60 — BURLINGTON, KENTUCKY THURSDAY, JANUARY 30, 1936 — NUMBER 46

INVITATION EXTENDED

TO HONOR STUDENTS IN JUNIOR AND SENIOR CLASS OF BURLINGTON HIGH SCHOOL TO ATTEND SERIES OF CAMPUS LECTURES AT UNIVERSITY OF CINCINNATI

Junior and senior honor students in the Burlington High School have been invited to attend a complimentary series of six weekly campus lectures on "Applications of the Physical Sciences" offered by the University of Cincinnati.

This will be the second annual series of its kind. Attendance will be limited to high school juniors who stand among the upper ten per cent in their classes in chemistry, physics, and mathematics.

The 660 members of the high school audience of last year were drawn from schools in Greater Cincinnati. This winter the University is extending the invitation to pupils in schools within a twenty-five mile radius of the city.

New subjects have been chosen for the 1936 series by Dr. S. B. Arenson, associate professor of inorganic chemistry, who is in charge. Dr. S. J. M. Allen, professor of experimental physics, will open the current series with a lecture and demonstrations on "The Physics of Air in Motion" Saturday morning, Feb. 8, at 10 o'clock.

Other lectures will be held following Saturday mornings in Wilson Memorial Hall, on the University campus, according to this schedule: February 15, "Clay and Clay Products," by Harold S. Nash, professor of ceramics; February 22, "On Oxidation and Combustion," by Dr. Henry M. Goettsch, professor of inorganic chemistry; February 29, "Diesel Engines," by R. L. Smith assistant professor of mechanical engineering; March 7th, "Preventing University of Cincinnati.

"Soil Erosion," by Dr. John L. Rich, associate professor of economic geology, and March 14, "Reactions of Organisms to Radiation," by Harold J. Kersten, assistant professor of mathematics, and Geo. G. Snider, instructor in zoology.

University authorities point out that this method of honoring talented high school pupils is believed to be unique among American institutions of higher learning..

The campus lectures not only serve to supplement high school courses along these lines but also assist students interested in the physical sciences to orient their points of view on the applications of these sciences.

EIGHTEEN FARM RECORDS KEPT

BY BOONE COUNTY FARMERS DURING PAST YEAR

Eighteen Boone county farmers kept complete Kentucky Farm Account Book records during 1935 in cooperation with the Kentucky Farm Account project, according to H. R. Forkner, County Agent. Each of these farmers will receive a complete farm analysis with comparsions with some fifty other Northern Kentucky farmers who conducted similar type farming during the past year.

The farmers who completed their 1935 farm account books are: W. A. Brown, P. J. Maddin, S. B. Sleet, Walter Ferguson, Grant Maddox, Wm. Cox, Sterling Rouse, Alvin Dringenburg, Henry Seikman, B. C. Stephens, Wilton Stephens, Virgil Campbell, Shelby Beemon, G. P. Tillett, Leroy Voshell, T. W. Rice, Elmo Jergens and Robert Graves. New cooperators who have been listed for the farm account project are Orville Y. Kelly, R. B. Branham, G. E. Garrison Wm. Moore, Will Waller and Hayden Hendy.

The Boone County Farm account project plans for from 20 to 30 farmers who are interested in keeping complete farm account records as a means for studying their farm business thru comparison of receipts, expenses and net returns on similar type farms in Northern Kentucky. Those farmers who have been keeping these records for several years show more improvement as a group than any other class of farmers.

Record books are available at the County Agent's office for those farmers who are interested in this project.

IMPORTANT ANNOUNCEMENT TO THE CAR OWNERS OF BOONE COUNTY!

The new BOONE CO. SERVICE STATION will be open for business, Saturday, Feb. 1, with a complete line of Nationally advertised products, including Blue Sunoco gasoline and oil, General Tires, Atlas Tires, and Tubes, complete lubrication for all cars, also accessories of all kinds.

This station will be operated by local management with Donald Kirkpatrick in charge, ready to serve you at all times

It has been the urgent need of motorist of this section to have a modern station, whereby they can receive the up-to-minute service at no additional cost.

We feel that such a service will be upbuilding to the community and refer our readers of this locality to patronize this new business.

A number of Boone county farmers attended Farmers Week at the University of Kentucky on Wednesday and Thursday of this week.

4-H MEMBERS SHOW AND SELL TOBACCO

Several hundred thousand pounds of tobacco, grown by 4-H club members in their project in learning the production of high-quality tobacco, were exhibited and sold at a series of shows and sales over the state.

Seventy thousand pounds from 21 counties averaged $27.17 at the Lexington 4-H club tobacco show and sale. Ira Wash, Jr., Woodford county, made the top, selling 900 pounds for $39.58 per cwt.

Club members from Campbell, Kenton, Grant, Boone, Pendleton and Bracken counties showed 28,552 pounds at Covington, with the price averaging $22.33. Highest honors went to Harold L. Ogden of Boone county..

Fifty-five club members from Carroll, Gallatin, Trimble and Owen counties showed 30,560 pounds at Carrollton. The price averaged $26.24, with Perry Wilson Scudder, Gallatin county, receiving the highest crop price, $36.16 per cwt. for 758 pounds.

The Shelbyville show attracted 54 crops totalling 20,250 lbs., from Shelby, Spencer, Henry and Oldham counties. Average price was $18.87. Tom Marshall had the best crop from Shelby county and J. W. Smith from Spencer county.

At Bowling Green 57 crops totalling 23,541 pounds were exhibited from Warren, Allen and Simpson counties. The price averaged $18.60 with Roger Thomas Petty, Warren county, receiving the top price of $39.60.

A Harrison county show attracted 14,940 pounds produced by 41 club members, selling for $21.18. Billie Barns had the high basket, $42, and Billie Bedford the high crop, $36.98.

Hart county club members sold 8,000 pounds for an average of $34 at their annual show at Horse Cave.

RICE—SULLIVAN

Miss Ruth Rice, nurse at St. Elizabeth hospital and former graduate of the Burlington High School, was united in marriage to Mr. Laverne Sullivan, rural mail carrier of Union one day last week.

Miss Rice is the attractive daughter of Mr. James Rice, of near Waterloo, and Mr. Sullivan is the son of Mr. Leslie Sullivan of Union.

We wish to take this opportunity to join with their many friends in wishing them a long and prosperous married life.

DECISIONS TO BE GIVEN

IN DEBATE CONTESTS BETWEEN LOCAL TEAM AND OTHER OUTSTANDING NORTHERN KENTUCKY TEAMS

"Resolve that the several states should enact legislation to provide a system of complete medical care available to all citizens at public expense" is the subject for debate among the various high schools for the present school year, and it is this question that will be debated between the local debating team and several of the outstanding teams of northern Kentucky during the month of February in the form of decisioned debates.

The local team which was considered one of the best in this section last year is made up of Elmore Ryle, Senior, Howard Garrison, Senior, Harry Cook, Senior, Harold Garrison, Freshman, and Louella Cason, Sophomore. Cook, Ryle and Howard Garrison have had considerable "pro and con" experience during the past two years but are being pressed by the new comers. So far this year Ryle and Howard Garrison have seen action in all three of the contests that the school has particitpated in with Cook performing in two and Cason in one.

Those schools which the local team has had non-decisioned debates with this season are Hebron, Beechwood and Independence. The schedule for decisioned debates for the coming month are: Feb. 4 Independence there; Feb. 11th New Haven, there; Feb. 18th Beechwood, here; and Feb. 25 Crittenden here.

MRS. MATTIE SCHWEIBOLD

Mrs. Mattie Schweibold, aged 38 years. passed away Sunday at her home near Florence, Ky., after a years illness. The remains were taken to the Taliaferro Funeral Home for preparation.

She is surbived by her husband, Albert Scheibold, four daughters, Mrs. James Michels, Mrs. Morris Middendorf, Sophia and Alma Schweibold, five sisters, Mrs. John Broughton, Mrs. Wm. Moss, Mrs. Gus Bebhard, Mrs. Lillian Conners and Mrs. Everett Haskell, 3 brothers, Charles, Fred and Jos. Reisch, besides many othhr relatives and friends.

Funeral was from the late residence at 8:30 a. m., Wednesday with requiem high mass at St. Paul church, Florence, Ky., at 9 a. m. Interment following at St. Mary s cemetery,

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

POSTPONED

The amateur show which was to be given at the Florence Hi School Auditorium last Friday night has been postponed until tonight (Thursday night Jan. 30) because of the frigid weather according to Professor Dean Caton, of Florence. This program promises to be one of the best of its kind ever staged in Boone county.

LIVESTOCK VALUES UP

AT UNION STOCK YARDS

Final report of the total business handled by the Producers Cooperative Commission Association, Union Stock Yards, Cincinnati, Ohio, has just been released for the year 1935. Values of livestock handled by this cooperative association have materially increased. Unit average values for the year are the highest since 1931. Total value of livestock sold the past year is $7,757,558.62. In all, the Association sold 6265 decks or an average per deck value of stock sold $1238.23. Values in 1934 for 8022 decks total $5,346,-718.76, or $ 28.63 average per dock. In 1933, the largest volume of any of the eleven years' operations of the Cincinnati Producers, there was handled 8393 decks with a sales value of $5,375,198.17, or an average value per deck of $640.43. The year 1932 is more comparable in volume to that of 1935 when the Producers handled 6449 decks valued at $4,-367,981.85 or, average value per deck—$677.31. This shows a decreased valuation of three million four hundred thousand dollars, with some 200 more decks of livestock sold as compared to 1935. During the past year about 20 per cent less total business was handled by the Association than in 1934 but the increased valuation of livestock sold amounted to one million nine hundred thousand dollars. Of the 6265 decks handled in 1935, or its equivalent by truck, 2499 were received from producers in Ohio, 1978 from Indiana, 1586 from Kentucky, 113 from Illinois and 89 other states. Of the total volume coming to the Union Stock Yards, the Producers Association handled 35.2 per cent.

By action of the Board of Directors, refunds to members of this cooperative amount to $50,574.99. It is planned that this work will be completed and payments made to members by the last of February. The balance of the net savings of the Association amounting to $12,-106.94 has been placed in the reserves to be used for working capital. Another item of savings to the members and patrons of the Association is that of reduced commission costs as compared to previous selling; costs, which has saved those doing business with the Association for the year, $22,843.63. This amount is in addition to the savings of the Association and the refund for the year to members. Early patrons of the Association will be pleased to know that the Board of Directors authorized the amount set aside for reserves in the year 1926, to be paid to members of that year. This amounts to $14,597.35. Checks for amounts due members were mailed from the Producer office on January 22nd.

The Eleventh Annual Meeting of the Association will be held at the Netherland Plaza Hotel in Cincinnati on Thursday, March 5th. Chris L. Christenson, Dean of the College of Agriculture, Madison, Wis.. and Louis Bean, Bureau of Agricultural Economics, U. S. Department of Agriculture, Washington, D. C., will be the principal speakers.

CHARITY FOR THE BIRDS

A number of Boone County farmers are thoughful enough at the harvest season to leave a portion of their grain crop standing for the non-migratory birds and a number of other citizens of the county are thoughtful enough to buy grain and place it in spots where birds feed, but the majority of our citizens never realize "hard times" among wild life. The prolonged cold weather and snow blanket have made it unusually difficult for the wild game to survive, therefore, it is our duty as citizens, whether sportsmen or not, to do our part to eleviate this condition. Game Warden Edwin Johnson, has at his disposal a supply of feed for use over the entire county and will gladly distribute it to the needy spots. If you know where there is a covey of birds that do not have access to a grain patch please get in touch with Game Warden Johnson or James G. Smith, President of the Boone County Game and Fish Protective Association and they will they will come to the rescue.

RETIRED PILOT PASSES ON

AT HIS HOME IN NEWPORT—WAS ONE OF THE MANY RIVER MEN FROM BELLEVIEW

Captain Jacob Lindenburn, formerly of Belleview the town of noted "River men," passed away at his home, 738 Linden Avenue, Newport, Saturday, at the age of 73 years.

Mr. Lindenburn or "Jack" as he was known to his many friends here spent fifty years on the river and was known not only locally but sectionally as a great pilot and captain. Most of the time he was an employee of the Cincinnati and Louisville Packet Company. He was captain of the City of Cincinnati for more than 10 years. Later he navigated smaller boats until he retired five years ago.

He is survived by a brother, Henry Lindenburn, who has seen forty-five years of service on the riv-Union Barge Line of Pittsburg, and er and who is now a pilot for the a niece, Lucille.

Services were held at the residence at 2 o'clock Tuesday afternoon before scores of relatives and friends. Interment followed in the Evergreen cemetery, Southgate. A. C. Dobbling and Son, of Newport, were in charge.

MRS. PHOEBE ANN NELSON

Mrs. Phoebe Ann Nelson, aged 30 years, passed away Friday at her home in Lethridge, Alberta, Canada. The remains arrived in Erlanger Monday and were taken to the Taliaferro Funeral Home. She is survived by one daughter, Mrs. Allen Wood, of 604 Garvey Avenue, Elsmere, Ky., three sons, Jas. Nelson of Lethridge, Canada, Rella Nelson of Lexington, Mo., and Raymond Nelson of Arlington, Colo.

The pall-bearers were Mrs. Connelly, Mrs. White, Mrs. Hoard, Mrs. Pennell, Mrs. Roland and Mrs. Isaac.

Funeral services were conducted Tuesday afternoon at two o'clock by the Rev. Roy Johnson, at the Taliaferro Funeral Home, interment following by the side of her husband in Hopeful cemetery.

A GOOD LUNCHEON HELPS TO MAKE A GOOD MEETING.

Reports from those who attended the Boone County National Farm Loan Association meeting in Burlington, last Tuesday, indicated that the luncheon prepared by L. A. Conner, local restauratur, was one of the most delicious that they have had the pleasure of attending for some time. It is understood that Mr. Conner prepared approximately 200 plates and that there were only about 150 in attendance —nevertheless they consumed most of the food.

Mr. Donald Kirkpatrick has recently accepted a position as attendant in the new Service Station to be opened in Burlington soon.

It was learned here today (Wednesday) that Judge J. M. Lassing, of St. Petersburg, Fla., is not recovering from an illness, which has prolonged his stay in the tropical state.

Lutheran Mission Project

The Women's Missionary Society of Hebron Lutheran church has memoralized the name of Mrs. Clyde Hafer, by a gift of $25.00 to the Women's Missionary Society of the United Lutheran Church in America.

Mrs. Hafer died in 1931, after having worked faithfully and lovingly in her missionary society and her church for many years.

The present members feel that this is a fitting tribute to pay to one who has done so much for the cause of spreading the Gospel of Christ; so that her work may not have stopped with her death, but goes on, thru our gifts.

There are several reasons for the existance of an In Memoriam Department in the Lutheran Women's Missionary Society. Among them are these: Because we wish to honor the memory of our dear ones who have "gone before." many of whom have given years of consecrated service to the cause of missions; Because we desire to pay tribute to the faithful officers and workers in our Missionary Society, or in other branches of our church work; Because we will aid the mission treasury of the General Society with the Membership fees. These fees become a part of the General Fund which finances the

The General Fun itself covers a great deal of territory—mission work in five foreign countries, and mission work here in our own country among many mission churches, work in the West Indies and Virgin Islands just off our coast, work among the Jews, among the American Indians, among mountain folk, and in institutions such as hospitals and orphanges. Thus we can feel we are doing something very much worth while, to have a small part in such a great work of our church.

No generation is sufficient of itself. Its own roots date into the past and the blessings it enjoys have, mostly, been created by the constructive energy of men and women of days gone by. A wise people treasures its heritages.

To pass on this heritage, untainted and clean, to those who will follow should be the ambition of every generation of church members. "For all the saints who from their labors rest,
Who thee by faith before the world confessed,
Thy name, O Jesus, be forever blessed."

FOUR ANSWER FINAL CALL

IN BOONE COUNTY DURING PAST SEVERAL DAYS

Mrs. Myrtle Rogers, wife of Clarence Rogers, of Belleview, died suddenly Sunday morning at her home from an attack of acute indigestion. Mrs. Rogers had been seemingly good health before this fatal attack. She is survived by her husband, one son, Clarence, Jr., one daughter, Isabelle Mae, Father, Mother and a host of other relatives and friends.

Her funeral was conducted from the Baptist church Tuesday at 10:00 a. m., by Rev. Raymond Smith. Chambers & Grubbs were in charge of the funeral arrangements.

Mr. Chas. L. Griffith, aged 78 years, died in the home of his son, Elmer, at Walton on Friday, Jan. 24, 1936, following an illness of chronic neuritis.

Funeral service was conducted from the Walton Baptist church Sunday at 2:00 p. m., by Rev. D. E. Bedinger, after which his remains were conveyed to New Bethel, Verona, for burial. Chambers & Grubbs in charge.

Miss Martha Hudson, 87 years old, passed away Thursday morning at her home in Walton. Funeral service was conducted from the home of Mrs. J. J. Hudson Friday at 2:00 p. m., by Rev. D. E. Bedinger. Interment followed in the family cemetery. She leaves to mourn her going two sisters, other relatives and many friends. Chambers & Grubbs were in charge of arrangements.

Mrs. Harriett Baker, age 77 years, widow of Judge Ed. Baker, passed away Thursday morning from a severe case of dropsy. She leaves one son, Cleveland Baker, and one daughter, Miss Htteitt wok wakw daughter, Miss Hettie Baker and a number of relatives and friends to mourn her going. The funeral service was conducted from the Big Bone Baptist church by Rev. Roy Black. Interment followed at the Big Bone cemetery. Chambers & Grubbs were in charge.

CHURCH NEWS

In order that the news of the various churches of the county may be put in a special column, be put in a special column, the Recorder is asking that the news be mailed or delivered so that it will be in our hands Monday evening.

LIEUTENANT GOV. AUDS CHANDLER

IN SUBSTITUTION ADDRESS FOR THE GOVERNOR AT TRAVELERS CONVENTION

In a speech at Winchester before a dinner meeting of the United Commercial Travelers Association of America Saturday night Lieut. Governor Keen Johnson, who at the time was acting Governor while Gov. Chandler was filling a speaking engagement before a group of Ohio Democrats, praised the Chief Executive for his efforts and headway in carrying out his program.

Friday night Johnson also filled the Governor's speaking engagement before the Mercer Chamber of Commerce at Harrodsburg, where he asserted Chandler was a potential candidate for vice President. "It is not as a partisan, but as a Kentuckian, that I plead for your support of the far-visioned program which Gov. Chandler has outlined for the advancement of Kentucky," Johnson told the audience.

He also stated that the present legislature was further advanced at this period of the session than ever before in Kentucky's history. This he said was due to the effort to translate into law those measures advocated by the Governor.

Lieut. Governor Johnson's short time as acting Governor passed very quietly.

ATLANTIC CITY CHOSEN FOR SCOUTS' MEETING

The 26th Annual Meeting of the Boy Scouts of America which will call together members of the National Council and volunteer workers in the Movement, will be held in Atlantic City, New Jersey, on May 21-22, 1936.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

ADVERTISING BENEFITS THE PUBLIC

Prior to the advent of the so-called chain grocery store, there was little general advertising by grocery or drug stores. The people bought potatoes or they bought physic. Volume business with resulting lower prices was not encouraged by publicizing the merits of different products in order to increase their sale and use.

But when the chain store idea was evolved it was found that advertising was essential and indispensable in order to move goods and create interest in new products. It was not long before the advertising policy of chain stores influenced other merchants to reach their customers in the same manner, in an effort to increase sales by offering the public household necessities or luxuries in attractive forms and at reasonable prices.

The mass distribution idea reacted to the benefit of the buying public and today essentials of life are transformed from producer to consumer at a price which would have been impossible except for the volume consumption created by intelligent advertsiing.

These savings for the family pocketbook have increased purchasing power for other lines of business. The result has been a greater sale of additional comforts and luxuries which, in turn, involve advertising by many branches of business.

QUESTION AND MORAL

On the national issues there is exactly the same bitter feeling in Washington that is found in cities, towns and cross-roads. Political parties appear to come first and America, afterwards. Moral: Reverse that condition, no matter what party you belong to!

ANYHOW — PROGRESS KEEPS STEPPING!

Gold was probably the first metal known, as it occurs in a free state. Copper, tin and bronze were used by the ancients. Iron and quicksilver made their bow among the Egyptians, Greeks and Romans. In the fifteenth century there was almost a complete break in the progress of the metal industries until the fifteenth century when Bessemer discovered that by blowing a blast of air through iron in a state of fusion and with the additions of a manganese carbon alloy that he could produce steel.

Those are matters far more important than a lot of the frothy news that makes first pages; and meanwhile there is just as great progress in the use of aluminum which has stepped up absolute security and safety in bearings for automobiles and railroad cars from a few thousand miles so that these bearings, and automobile piston rods, last as long as any part of the machinery. These facts have been explained by Chas. B. Bohn, a prominent manufacturer of aluminum materials and a leader in this new development in metallurgical science, who explains that the new light-weight metal cut the frictional drag on axles and bearings to the minimum, so that if the motor is kept oiled-up a car will run faster with less waste of power and fuel than has ever before been possible.

Thus the metal industries keeps stepping over though Governments may bump and lag. Witness how the scientists keep right on going —giving us such things as radio, talkies, air-conditioning and a hundred new permanent improvements on human life and comfort.

SOME TAX FIGURES

Last year the expense of federal, state and local government in the United States amounted to about 16 billion dollars, while the entire national income was less than 60 billion dollars. In other words, considerably more than one-fourth of the money earned by the American people goes for taxes of one kind or another.

An illustration of how this affects certain industries is given in a recent issue of the Industrial News Review. Taking the electric utilities as an example, it is shown that they pay a tax bill of more than 200 million dollars a year. In the case of most companies this this tax bill amounts to from 12 to 15 per cent of their gross income.

Even with this handicap, it may be added that privately owned electric companies render service at rates generally below those charged by tax-free municipally owned plants, with but few exceptions. In fact, the cost of electricity is about one-third less than in 1913, in spite of the ever increaing burden of taxation.

As the Review truly says, "had government been as efficient and economical as the utility industry we would have no tax problem today."

BANKERS, TRADE AND WAR

Senator Nye's committee has been hatching out details but it remains a question of which was the hen or the egg—the international bankers, or "commercial activity as a whole" as Nye describes our participants in foreign trade. In any event the facts are clear that if the United States Government curbs the greed for trade and clamps down on profitable war trade that it will do the only one industrialists from mixing our own thing that will check bankers and nation in the affairs of Europe. Congress and the Administration seem inclined "not to be fooled again," no matter what happens among theMde oq koy kawagawk among the Mediterranean's "unfriendly neighbors' where Italy makes faces at England and France.

EDITORIAL PARAGRAPHS

YOUTH takes another jump as King Edward VIII occupies the throne of England, the largest empire of the world.

The American Automobile Association has announced that its triple (AAA) emolem is still valid.

Information comes from a source, while not guaranteed, is believed to be reliable, that Mr. Roosevelt passed the pork to Chief Justice Hughes at the White House dinner the other night. It is further alleged that Mr. Hughes grunted in response.

Present day folks are willing to listen to serious subjects provided the lecture is snort and ample refreshments are served.

The American memory is said to be very bad, but most of the people remember to turn up promptly at meal time.

It is considerably more economical to keep a warm fire than it is to pay a doctor's bill.

The school autnorities of the county used good judgment in closing down the schools this sub-zero weather. It was not only the uncomfortableness of the temperature that the pupils had to face but also the risk of safely transporting them over the slippery roads.

Ivan Szallki, a peasant near Odessa, owns a full-grown horse with five legs.

EAST BEND BAPTIST CHURCH

Raymond Smith, Pastor

Regular services will be conducted Feb. 8th and 22nd by Rev. Harmon Eggleston. Sunday school each Sunday at 10 a. m.

OBITUARY

Samuel Leslie Wingate, son of John and Laura Marshall Wingate, was born Jan. 8, 1881, departed this life Dec. 19, 1935, age 54 years, 11 months and 11 days.

He was united in marriage to Myrta O'Neal Feb. 27, 1895. To this union were born five sons and three daughters. Besides his wife he leaves the five sons, Spencer, William Herbert, Robert, Searcy and John; one daughter, Mrs. Estel Johnson; two daughters having died in infancy. Also he leaves one brother, Blufe and one sister, Mrs. Ray Conner and many other relatives and friends.

He was a life long citizen of Boone county and will be sadly missed by all who knew him.

OWL HOLLOW

This community was saddened by the death of Mrs. Baker, Thursday. She had been bedfast for several years with dropsy. She was the mother of Cleveland and Hettie Baker, both of whom lived with her.

Laura White and Rosanna Napier called on Cathryn Abdon last Thursday evening.

No school from here Thursday and Friday, due to snow drifts and cold weather.

Lillian Sacca spent Saturday nite with Norma Presser.

Robt. Smith spent Sunday afternoon with his parents, Raymond Smith and wife.

Miss Laura Mae Pettit continues ill at her home here.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for February 2

JESUS ENLISTS HELPERS

LESSON TEXT—Luke 5:1-11, 27, 28.
GOLDEN TEXT—They forsook all and followed him.—Luke 5:11.
PRIMARY TOPIC—Jesus Finds Some Helpers.
JUNIOR TOPIC—Jesus and the Fishermen.
INTERMEDIATE AND SENIOR TOPIC—How Jesus Calls Us.
YOUNG PEOPLE AND ADULT TOPIC—Our Call to Serve With Christ.

The work of Jesus had now progressed far enough to make more workers necessary. He, therefore, called and trained the helpers needed. The spread of Christianity depends upon the testimony of men and women who have come into an experiential knowledge of Jesus Christ.

I. Jesus Teaching by the Seaside (vv. 1-3).

His fame was now so widespread that the people pressed upon him to hear the Word of God. The manner and matter of his teaching gained the attention of the people, for he taught as one having authority and not as the Scribes. The people came to hear the Word of God. It is true today that people will flock to hear the preaching of the Word of God. The people will not flock to hear the preacher discourse on politics, literature, current events, and human philosophy. These people were hearing the living Word expounding the written Word.

II. The Mighty Draught of Fishes (vv. 4-7).

Before these disciples were called into the Lord's service, it was necessary that, in a most concrete way, they be shown the wisdom and power of Jesus Christ.

1. Christ's command (v. 4). It was to launch out into the deep and let down their nets for a draught of fishes. It was necessary for them to learn that if fish were to be caught they must cast their nets where the fish were.

2. The disciples' hesitant obedience (v. 5). Peter as spokesman explained that they had a night of disheartening failure. They had given themselves to a whole night of exhausting toil, with no success. While they acknowledged their failure and unwillingness to continue on the ground of their own judgment, they expressed willingness to proceed on a new ground of action; namely, "At thy word." Happy are they who are willing to go forth with unfaltering courage on the ground of Christ's commandment.

3. Reward for obedience (vv. 6, 7). By Jesus' guidance they were able to take such a draught of fishes that their nets broke and the boats were in danger of sinking. Abundant success will crown the efforts of the disciples who render implicit obedience to the commands of the Lord Jesus Christ.

III. The Disciples Called to Higher Service (vv. 8-11).

1. The effect of the miracle upon the disciples (vv. 8-10). This miracle was so manifestly the work of supernatural power that Peter acknowledged himself to be in the presence of a divine being, even expressing the fear that comes to all when brought face to face with God.

2. Their new vocation (v. 10). Jesus not only spoke words of good cheer to the disciples, but made clear to them their work in the coming years. They no longer were to spend their time in catching fish, but henceforth were to be fishers of men. Literally, they were to catch men alive. This is the exalted calling of every one who is Christ's real disciple.

3. Response to the call (v. 11). They left all and followed Jesus. They had such a marvelous demonstration of wisdom and power of Christ that they were now willing to give up their temporal interests and give themselves to the new work; that of winning men to Christ. Obedience to Christ meant not only sacrifice, but a life of fruitful service in winning souls for him.

IV. The Calling of Matthew (vv. 27, 28).

Matthew was a despised tax-gatherer. He was called from a remunerative position to give up all and follow Jesus. He, together with James, John, and Peter, gave up all to follow Jesus. He had the courage of his convictions, for he made a great feast to which he invited his old friends so that he might introduce them to Jesus Christ. This act of Matthew was a result of mature deliberation, for considerable time had elapsed since his call. His experience with Jesus was so blessedly real that he desired that his friends should have a like blessing. Men and women of reputation and influence should capitalize on them for the salvation of the lost, introducing their friends to Jesus Christ. Christ is not only able to save all kinds of sinners, but to use them when saved in his work.

Prayer

Prayer without watching is hypocrisy; and watching without prayer is presumption.—Jay.

The Depths of Beauty

The fountain of beauty is the heart, and every thought illustrates the wall of your chamber.

Goodness

He whose goodness is part of himself, is what is called a real man.—Mencius.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF FEBRUARY 4, 1926

Local

Preparations are being made by members of the "Hog Wallow" debating Society to celebrate Asa Cason's 86th birthday next Friday, February 5th. On objection of some of the members to the name, "Hog Wallow," the Society hereafter will be known as the "Kant Knock Klub." On this day and date officers will be elected to serve the ensuing year, and there will also be a change made in the by-laws of the club.

Alexander Yelton, son of Dr. M. A. Yelton, left last Saturday evening for Washington, D. C., where he will take a course in a school preparatory to entering the Naval Academy at Annapolis, through an appointment by Congressman A. B. Rouse. Alex is a splendid young man and his many friends in Burlington wish for him success in his undertaking. He expects to graduate from the local school this semester.

Petersburg

Robert Lee Mathews of Transylvania University, Lexington, Ky., spent the latter part of the week with his mother Mrs. H. C. Mathews and family.

Mrs. B. J. Crisler left Sunday for a visit with Mr. C. Gaines and family of St. Petersburg, Fla.

UNION

William Worh Conner, son of the late Senator Reuben and Patience Carpenter Conner, died at his home in Union, Ky., Jan. 25th, 1926. He was 69 years of age. United with the Richwood Presbyterian church in 1883. He was married to Miss Ida May Riley, to this union was born seven children. Two dying in infancy. Surviving Henry and Jack of California, Robert, of Middletown, Ohio, Mrs. Lyman Rice, of Erlanger, and Miss Addie Conner. His wife passed to her reward when the children were very small. So he was both father and mother to them. With the help of his oldest daughter Virginia he raised them to manhood and womanhood. During the last few years of his life he was a very great sufferer and was tenderly cared for by his daughter Addie. The large crowd of neighbors and friends that attended his funeral was evidence as to his standing as a citizen of the county. Services were conducted by Rev. W. T. Spears Jan. 28th, 1926. at the home. He was laid to rest by the side of his wife in the Union cemetery.

News Tour

By Wm. C. Walton

(By Wm. C. Walton)

The separateness of North and South or central China, which lies at the bottom of the vast Far Eastern problem, is given emphasis at the two gateways to China-Tientsin and Shanghai. Ordinarily one enters China from America through Shanghai and sees the Bizarre and fascinating spectacle of the New York of the cast: a cosmopolitan city which outdoes New York at least in the gaiety of its great white way—for its ladies of the evening are more numerous and champagne is cheaper, its hotels and restaurants quite as good, naturally it has more atmosphere for the American visitor. But when one enters through North China from Japan the crossing is made through the difficult and hazardous strats that lie off the Korean coast. Then one's introduction to China is made through a band of men called coolies. All of the palaces of the emperors are at Peiping the forbidden city, the summer palace of the empress dowager the temple of heaven, where only the emperor could pray to heaven; the temple of Confucius are now open to the foreign visitor. To me the buildings of London, Paris, Rome or Vienna are nothing compared to the palaces and temples of Peiping. As a sight I think there is nothing comparable in Europe to the Great Wall Sprawling over the mountains that lie between China Manchuria and Mongolia; fifteen hundred miles of wall completed more than 2,000 years ago and in perfect condition today.

(Continued)

HEBRON

Elmer Goodridge has a bad case of quinsy.

Miss Evelyn Conrad spent Tuesday night with Mrs. Eldora Rouse.

Barney Turner moved to the property of the late W. W. Tanner.

School was closed here Thursday and Friday owing to the extreme cold weather and snow.

Harold "Peck" Shearer, Walton, and Miss Della Roberts, Crittenden, were married at Lawrenceburg, Indiana, January 11th. They will make their home at Lawrenceburg where Mr. Shearer is employed.

The basket ball games between the local teams and Williamstown which was to be played at the latter's floor last Friday night was postponed due to the cold weather.

COMMISSIONER'S SALE

COMMONWEALTH OF KENTUCKY

Guy Eckman, et al. Plaintiff

VERSUS

Mattie M. Griffith, et al., Deft.

By virtue of a judgment and order of sale of the Boone Circuit Court rendered at the Dec. Term thereof, 1936. In the above cause, I shall proceed to offer for sale at the Court House Door in Burlington, Kentucky, to the highest bidder, at public auction on Monday the 3rd day of Feb. 1936, at 1 o'clock P. M., or thereabout (being County Court Day), upon a credit of Six Twelve and Eighteen months, the following described property to-wit:

Beginning at a stone bearing suth 21½ degrees W. 53 links from a black walnut, a corner with the John W. Griffith tract of land; thence with the center of the T. P. Road 60½ E. 11.81 chains to a stone, a corner of Lot No. 3 of the Bedinger Estate; thence passing a stone 23 links S. 7¼ degrees E. 39.50 chains S. to a stone in a line of Lot 5; thence with the line of Lot No. 5, S. 79 degrees W. 11.81 chains to a stone in a line of the John W. Griffith tract of land; thence with the line of said tract N. 6 degrees W 36.03 chains to the beginning, containing 42 acres, 2 roods and 34 poles. This parcel and the succeeding parcel being the same property conveyed to the grantor by Daisy B. Gregory and husband by deed dated March 6, 1905, and recorded in Deed Book 47, page 573.

Also the following tract, beginning at a stone in the center of the Beaverlick and Richwood T. P. Road bearing 7¼ degrees W 23 links from a stone on the S. side of said T. P. Road, also a corner of Lot No. 4 in the above mentioned division; thence with the line of said T. P. Road, N 60½ degrees E. 9.95 chains to a stone, a corner of Lot No. 2; thence with a line of Lot No. 2 passing a stone 23 links S. 8¼ degrees W. 42.90 chains to a corner of Lots No. 2, 5 and 6; thence with a line of Lot No. 5, S. 79 degrees W. 10.05 chains to a stone, a corner of Lot No. 4; thence with a line of Lot No. 4, N 7¼, W. 39.50 chains, passing a stone 23 links to the beginning, containing 39 acres, 2 roods and 32 poles. These two tracts of land are lots No. 3 and 4, in the original division of the estate of Davis Bedinger.

These two tracts constitute tract No. 1, containing approximately 81 acres.

Lot No. 3 described thus, beginning at a corner of Lot No. 2 in the Beaver and Richwood turnpike road; thence with the line of said Lot S. 32½ E. 72.55 poles; N. 73¾ E. 7.64 poles to a stone in a hedge, S. 3 E. 20.5 poles, S. 68 W. 12 poles, S. angle 63 W. 8 poles to a stone including a spring of water; thence N. 80 W. angle 3.56 poles to another hedge, S. 66 W. 75 poles to a stone, corner to Lot No. 5; thence N. 21 W. 78.8 poles to the center of said turnpike road; thence with the center of said road N. 57¾ E. 86 poles to the beginning, containing 47 acres, and being the same property conveyed to the grantor by J. W. Griffith by deed dated July 5, 1873, and recorded in Deed Book 28, page 456.

Two tracts and parcels of land lying and being in the County and State aforesaid, beginning at a stone a corner between the lots formerly laid off for W. H. and J. O. Griffith; thence N. 20 W 76 3-5 poles passing a stone on the southeast side to a corner in the center of the Beaverlick and Richwood turnpike road, J. O. Griffith's corner; thence with the center of said road S. 58 39 3-10 poles to a stake west of said road in Sibbs and Young's old line; thence with said line S. 82¼ poles to a stone a corner of Wm. H. Griffith's purchase; thence with the lines thereof N. 73½ W. 12¼ poles to a stone west of a branch; thence N. 67¼ E. 6 2-3 poles to the beginning, containing 26 acres, 2 roods, 12 poles.

Beginning at a stone, corner to Lot No. 1 in Bedinger's line; thence N. 32½ W. 72.55 poles to the center of the Beaver and Richwood Turnpike stone; thence with the center of said Turnpike road N. 57½ E. 103 poles to Bedinger's corner; thence with Bedinger's line S. 8½ E. 99.66 poles to the beginning, containing 46 acres, and being the same property conveyed to the grantor C. L. Griffith and wife by Deed dated April 10th, 1893, and recorded in Deed Book 39, page 555.

These three parcels constitute tract No. 2, containing approximately 119 acres.

Or sufficient thereof to produce the sum of money so ordered to be made. For the purchase price the purchaser must execute bond, with approved surety bearing legal interest from day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale $21,790.30.

ALSO, the following property, by virtue of the same judgment and order of sale of the Boone Circuit Court, rendered at the same time, in the above styled cause, I shall offer for sale at the Court House Door in Burlington, Ky., to the highest bidder, at public auction on Monday, the 3rd day of February, 1936, at One O'Clock P. M., (C. S. T.) or thereabout (being County Court Day), for CASH, the following described property to-wit:

TEN SHARES STOCK OF THE WALTON EQUITABLE BANK AND 18-500 UNDIVIDED INTREST IN THE ASSETS IN THE HANDS OF THE PLAINTIFF'S AS TRUSTEES FOR THE DEPOSITORS OF THE FIRST NATIONAL BANK AND TRUST COMPANY, OFVINGTON, KENTUCKY.

Or so much thereof as may be necessary to produce the sum of money ordered to be made. Bidders will be prepared to comply with these terms promptly. Amount to be raised by sale $1744.21.

A. D. YELTON,
M. C. B. C. C.

Mr. and Mrs. William Rudicill spent Sunday evening with Mr. and Mrs. Luther Smith.

LOWER GUNPOWDER

Len Hubbard and family spent Saturday evening with John Felthause and family.

John Rich has been spending a few days with John Felthause and Len Hubbard.

Wallace Ryle and Solon Earl Ryle spent Thursday night with their brother Bruce Ryle, of East Bend.

Henry Black and family spent Saturday evening with John Felthause and family.

Donna Jean and Loretta Ryle spent Thursday night with their sister Mrs. Dora Walston.

The P. T. A. play was delayed until next Thursday on account of the local weather conditions, and school was closed from Friday until Monday.

Mrs. May Hubbard and Mr. Oth Hubbard are staying with the Shinkle family at the present time.

Mr. Lucian Black and MissDortha Reese we hear are married. We extend congratulations.

FLORENCE

Floyd Roberts has been confined to his room the past week, due to illness.

Mrs. Fannie Clutterbuck left the past week for a visit with Mr. and Mrs. Hal Highhouse of Ludlow.

Mrs. Marvin Kendall, Miss Minnie Baxter and Mr. Wahl were the lucky winners of the beautiful pink sets of dishes given away at Anten's store in Florence.

Miss Grace Eddins has been quite ill the past few days, suffering with a case of tonsilitis and a cold.

Mrs. Mose Rouse received the sad news of the death of her uncle Charles Griffith, of Walton, Saturday.

Mrs. A. M. Yealey and grandson, Bobbie Tanner, and Mr. and Mrs. Russell House who left several days ago for Florida, have arrived in that state safely. They intend to spend the remainder of the winter there.

Mr. and Mrs. P. J. Allen spent a pleasant day Sunday with her parents, Mr. and Mrs. Ben Floyd, of near Florence.

REPLACING THE AAA

The Administration has a new farm relief measure before Congress. "Uncle George" Norris, who is a sort of patron saint at the White House says the plan is unconstitutional. There is a tendency to listen to the Senator's warning and draft a fresh law that will be air-tight.

It has taken a long time to convince the politicians that they must bring the farmers' dollar up to an even parity with that of industrial interests. If—in the awakening, Congress is wise enough to furnish commonsense and business-like aid to the farmers it will be evidence that the wandering minds on Capitol Hill are getting back to "normalcy." In such a way Congress will earn public approval and gratitude—they ll need it in the next election, no matter what their party is tied to.

NOTICE

The Bi-County Farm Bureau Association's carload of fencing will come to hand the latter part of February. Get your orders for fencing to me just as soon as possible.

AAA TOBACCO GROWERS SELL ENTIRE CROP

AAA tobacco contract signers may now sell their entire crop without paying three cents per pound on the excess produced, according to official information received at the County Agent's office the first part of this week.

Previously contract signers were required to pay three cents per pound for all excess tobacco sold. This new ruling allows growers to sell their entire crop on their old allotment card without paying for the excess. Growers with excess tobacco who have turned in their cards may secure them at the County Agent's office in Burlington.

While he slept soundly, thieves took $10 and a watch from the trousers of B. B. Burrough, deputy sheriff of Hugo, Okla. The trousers were under his pillow.

—o—

When Ernest Anderson, nine, of Jefferson, O., had the mumps, his dog Freckles refused to leave his master, so he also caught the disease.

Important Notice

TO

TOBACCO GROWERS

For all Tobacco Growers who have signed up!

The 3c per pound excess tax has been taken off by government. If you have signed up and have an excess weight over your allotment, you can sell this without paying the 3c per pound penalty.

Seen And Heard Around The County Seat

Word was received here this week that Judge J. M. Lassing, who has been quite ill at his winter home in St. Petersburg, Florida, is much improved.

Harry Murray, who was taken to St. Elizabeth hospital several weeks ago for an appendicitis operation, returned to his home Monday. Mr. Murray is now on the road to good health again.

Mrs. R. N. Lawson, who has been serving in the capacity of substitute teacher for Miss Mary Laubisch in the local school, has accepted a position at Williamsburg, Ky.

Thos. R. Underwood, general manager of the Lexington Herald, is the new president of the Lexington Board of Commerce.

R. S. Hensley's store at Grant caught fire last Thursday evening from an over heated pipe. Fortunately, however, a number were present and soon had the fire under control.

C. Scott Chambers and Scott Jack, of Walton, were business visitors in Burlington, Monday.

Bailey Greenup, attendant at Central State Hospital, Lakeland, Ky., is spending the week with relatives here.

Raymond Combs, of Williamstown, was a business visitor in Burlington Friday and Saturday.

John Young Brown, Lexington, A. O. Stanley and M. M. Logan have announced as candidates for the United States Senate this year.

Due to the cold weather, quite a few pupils were abosent from the local school this week.

Mr. A. D. Yelton, Circuit Court Clerk, was in Carrollton, Monday, on business.

Mr. and Mrs. W. L. McBee and son, Billy, were visiting his mother at Mt. Zion, Ky., Sunday.

Liston and C. O. Hempfling were business callers at the County Seat Monday.

W. H. Ward has been the victim of a severe cold the past week.

Wendell Easton, local school bus driver, was one of the many who could not overcome the slippery highways as they have been the past week. While returning home from his daily run Tuesday Mr. Easton's bus skidded off the road. Fortunately there were no pupils in the bus at the time and Mr. Easton escaped injury.

Mr. and Mrs. Claude Greenup moved into the residence recently vacated by Wm. Greenup and wife, on Washington street.

A number of the state highway employees have been detained from their work the past several days due to the unbearable weather conditions.

Mr. and Mrs. Milburn Mills spent Tuesday night with Mrs. Mill's parents, Mr. and Mrs. Thos. Hensley, of near Burlington.

The Burlington basket ball teams will entertain the Warsaw quintets on the local floor Friday night.

The Recorder will appreciate if all news pertaining to the churches of the county be sent so that it will reach our office not later than

The local saw mill has been closed down for a few days—another case where weather out-does man.

Federal Deposit Insurance Examiners C. C. Croup and E. L. Walters and State Examiner G. C. Ransom were examining the Peoples Deposit Bank last week from Tuesday until Saturday. These examiners conduct examinations of banks in a courteous and gentlemanly manner.

The Federal Land Bank and the Boone County National Farm Loan Association sold the 470 acre B. L. Rich farm near Big Bone Church a few days ago to Mr. W. M. Wilson of Lexington and B. L. Rich Jr. Mr. Wilson taking 420 acres and Mr. Rich the balance of 50 acres. Total purchase price being $17,200.00.

Don't forget the amateur show to-night (Thursday) at Florence High school.

Mr. Calvert Kirkpatrick, of Ludlow, was visiting friends and relatives in Burlington, Tuesday of this week.

Roy Barnes, of near town, is the proud owner of a new Chevrolet car.

Miss Martha Blythe, who is employed as clerk in the John R. Coppin store in Covington, is spending a few days in the city, due to the very cold weaher.

Wilbur Ryle, of near Waterloo, was a business visitor at the County Sat, Wednesday.

Elizabeth Holbrook has been ill the past week.

Charles Black was a business visitor here Friday.

Coal hauling has been very much in evidence the past few days, due to the recent cold spell.

Albert Sebree is ill with tonsilitis at his home on Woolper creek.

Warren Kirkpatrick is improving after an attack of grippe.

Mr. Sterling Rouse was in Burlington Wednesday delivering some of his fine Golden Delicious apples. If you want some good apples, see him. He delivered some here.

Gulley & Pettit killed hogs for Mr. F. H. Rouse Wednesday of this week.

Mr. Robt. Gulley, of Gunpowder, delivered his tobacco crop today. Mr. Gulley reports a fine crop this year, but he has been unable to sell same as the weather has not permitted a truck to reach his farm.

Charles Benson, son of C. D. Benson, has been ill for the past several days with a severe irritated troat.

Miss Katherine Denniston of near Belleview, has been confined to her home and unable to attend school because of a severe cold.

Don't forget the basket ball games this week—Warsaw boys and girls here Friday night—Hebron, there Saturday night.

The local school debate scheduled with Piner for last Tuesday nite was called off because of the cold weather. This was to be the first decision debate in the Northern Kentucky Debating League and will be held at a later date.

COVINGTON, = KENTUCKY

Miss Marksberry of Florence, is substituting for Miss Mary Laubisch at the local High School. Miss Laubisch is improving rapidly and expects to be back on the job soon.

Report comes from the local principal that the attendance has been very small during the cold weather, but that the heating system is much improved over past years.

A number of young folks enjoyed a fish fry at the Old Grist Mill, at Limaburg, Sunday afternoon.

Mr. C. C. Regan, who recently addressed the Boone County Game & Fish Protective Association, was appointed chairman of the State Game and Fish Commission this week.

GONE—BUT NOT FORGOTTEN

A number of people are inquiring about Mark Cook, who has been unable to be at his post at Blythe's store. Some of these inquirers are wagering that Mr. Cook will be seen on Feb. 2nd, while others believe that the sun will appear that day and Mr. Cook will not show himself for another six weeks.

KENTUCKY NEWSPAPERS

According to the University of Kentucky publicity bureau there are 204 newspapers being published in the state at the present time. They are a combination of dailies including Sunday, dailies, weeklies, and semi-weeklies. This group does not include negro or specialized newspapers.

Walter Morris, colored, who knelt on a street in Buffalo and asked the law to take him in, was given three months on a vagrancy charge.

Mr. and Mrs. Albert Sheets had as house guest last week their granddaughter Miss Ella Aylor, of Covington.

Sub-zero weather accompanied by heavy snow and high winds closed New Haven school for several days the past week.

Mrs. W. T. Spears entertained over the week-end her kindred Mr. and Mrs. W. M. Rachal, of Cincinnati.

Mr. and Mrs. Fielding D. Norman, of Anniston, Ala., and Mr. Victor Norman, of Birmingham, were called here last week by the death of their sister Mrs. James S. Asbury.

Miss Sara B. Melvin is having a most enjoyable visit in St. Petersburg, Florida with her grandparents, Mr. and Mrs. W. L. H. Baker.

Mr. and Mrs. M. T. Gridley came out from Cincinnati Wednesday to attend the funeral of their friend Mrs. James S. Asbury.

The much regretted death of Mrs. James S. Asbury occurred Monday January 20th at the home of her daughter Mrs. J. W. Burton, Cincinnati.

Funeral service held in the Presbyterian church in the village Wednesday, conducted by Rev. Martin, of Erlanger. Interment in Rice cemetery.

Mrs. James Addison Huey returned Saturday from a much enjoyed visit in Louisville with her daughter Mr. J. O. Taylor and Mrs. Taylor.

Mr. and Mrs. Robt. Green, of Beaver community were guests last Sunday of Mrs. Emmerson Smith, who is now convelescent from an attack of saryngitis.

Mr. and Mrs. Lloyd Weaver and interesting children were out from Latonia Sunday for the day with their parents, Mr. and Mrs. Lewis Weaver.

Mr. and Mrs. B. L. Norman entertained with a delightful dinner Tuesday complimenting their relatives Mr. Victor Norman and Mr. and Mrs. Fielding Norman, of Alabama.

GASBURG

It seems that old man winter has hit Gasburg full force. Last Thursday morning the temperature was 20 degrees below zero which was our coldest record.

Mr. Hugh Baker is working as pilot on the Aurora Ferry boat.

Messrs. Andy Cook, Russell Cook and W. O. Rector spent last Saturday in Burlington. While there Andy had several teeth extracted.

Mr. Wilford Lee Rector was a caller on Mr. and Mrs. W. O. Rector Tuesday evening.

Mr. Jacob Nixon called on Andy Cook Sunday morning.

Mr. Charlie Knipher, of Covington, spent the week-end with Geo. Batchelor.

The report says that Cleve Aylor is improving, much to the delight of his friends.

The Ohio river is full of ice and the ferry boat is tied up on that account.

Miss Mary Rector spent Friday afternoon with Miss Emma Frances Cook.

Mr. and Mrs. John Klopp and daughter spent Sunday with Mr. and Mrs. W. B. Arnold and family.

Mr. Geo. Batchelor called on Mr. Chas. White Sunday.

POINT PLEASANT

Mrs. Elnora Riddle and son J. D. spent Thursday night with her parents.

Barney Turner and family moved from Rosco Newman's house to the late W. W. Tanner place last week.

J. S. Eggleston called on his brother Tom and family last Sunday.

There will be preaching Sunday Feb. 2, at the Christian church by Rev. Clyde Wheeler, of Lexington.

Rosco Newman is planning on tearing down the Walton house and building an up-to-date house in the spring.

Stop at the Boone Co. Service Sta.

SEEN and HEARD around the NATIONAL CAPITAL

By Carter Field

Washington.—Roosevelt is going to cash in, next month, in his budget message, on spade work which goes back for two years to his first budget message, in January, 1934.

His first message asked for extraordinary appropriations of $3,100,000,000. No one thought at the time that he could possibly spend it, and he didn't.

The following budget message, January, 1935, asked for the eight hundred odd million left over, and $4,000,000,000 additional.

Again everybody knew that he couldn't spend it all during the fiscal year, and many did not hesitate to say so. This time he asked for many of the appropriations to be made for two years.

Best calculations available at the moment are that not less than $1,000,000,000 will be left at the end of this fiscal year, June 30, next. Which means that in appropriations to be asked for in next month's budget message the President will be able to make a magnificent showing so far as working toward a balanced budget is concerned.

But that is only part of the picture. The President did his utmost to paint the picture, one year ago, in its darkest possible shades. With the result that almost any picture painted next month will appear to be a long step forward. For example, there was no reference whatever in last year's budget message to the $2,000,000,000 profit on gold, which had been locked up in the secret stabilization fund. There was no intimation to be found that any of the billions loaned out by the RFC and other government agencies are an asset, although as a matter of fact if the RFC books were closed today, and the paper it holds auctioned off in the open market, not only would the government recover 100 cents on the dollar, but there would be a profit.

Dramatic Touch

As though all this were not enough, the President just recently added another dramatic touch to the picture, which is intended to reassure business and taxpayers and meet the criticism of such Republicans as Former President Hoover and Governor Landon about too much spending by the federal government.

This was his statement that he had been assured by bankers that the federal credit would not be in much danger until the national debt reached a total of from 55 to 70 billions.

As the President knew it would before he made the statement, it roused a flood of comment, criticism, and curiosity. Bankers here and there denied they had made any such statement, and demands poured in that the President name his informant.

All of which accomplished perfectly the President's objective in making the statement—to attract a lot of attention—rivet national attention on the huge figures—and—inevitably—bring about a different impression entirely from what might otherwise have been the case when his budget message figures are given to the country.

So that when the figures come out the country will be reassured, instead of being freshly alarmed. And the total of national debt that will be disclosed, together with the prospect that it will be very slightly increased if the New Deal program goes forward, will seem much smaller than the same figures would have appeared without this preliminary flurry.

It's the kind of thing Mr. Roosevelt likes very much. He gets the same sort of kick that someone else might get from a shrewdly calculated attack in chess. It's the same thing he worked during the campaign of 1932 on the people who kept heckling him on the soldier bonus.

Victory for Hull

Lots of conservative business men are going to pat George N. Peek on the back, and sympathize with the "gross stupidity" which he fought in vain on the international trade policy. Some of them will really mean what they say, but a very considerable majority will be trying to pour oil on fire instead of oil on water. Their real object will be to inflame Peek to the point where his attacks on the administration will be red-hot.

For the truth is that most conservative business men interested in international trade agree with Secretary of State Cordell Hull, and not with George Peek. Hence they approve the action of President Roosevelt in awarding the victory in this long drawn out battle to Hull.

This is not a discussion of the merits of the controversy. Its merits have nothing to do with the political point involved. But it is not guesswork that most business men interested in international trade approve the Hull reciprocity treaty plan, and enthusiastically favor maintaining the "most favored nation" clause.

Two-year old Helen Murray of San Diego, Cal., fell 25 feet and landed on her feet. She suffered only slight bruises.

Mrs. Norman Craddock and son are spending a few days with her parents, Mr. and Mrs. Sam Barnes.

Mrs. Ida Brown and daughter Edith, and son Herbert, and Robt. Cave were calling on John Whitaker Friday afternoon.

Mr. and Mrs. Clint Riddell entertained the following guests last Thursday night: Mr. and Mrs. E. J. Aylor, Mr. and Mrs. Joseph Aylor, Mr. and Mrs. J. C. Aylor and family, Mr. and Mrs. Frank Wohrley, Mrs. Fred Seikman and son Wilford, and Geo. and Raymond Webster.

Miss Ella Mae Cave is spending a few weeks with Miss Louise McHorney.

Mr. and Mrs. Jess Barnes and family spent Sunday with Mr. and Mrs. John Whitaker and family.

W. H. Eggleston was calling on John Utziriger and family Wednesday afternoon.

COMMISSIONER'S SALE

Federal Land Bank of Louisville Plaintiff

VERSUS

Beatrice H. Brownnell, et al Deft.

By virtue of a judgment and order of sale of the Boone Circuit Court rendered at the Dec. Term thereof 1936. In the above cause, I shall proceed to offer for sale at the Court House Door in Burlington, Kentucky, to the highest bidder, at public auction on Monday, the 3rd day of February, 1936, at One O'Clock P. M., or thereabout (being County Court Day), upon a credit of 6 & 12 months the following described property to-wit:

Consisting of 110.33 acres, and situated 1 mile east of Florence, Ky., on the Bank Lick Road.

TRACT No. 1—Lying and being in Boone County, Ky., beginning at a stone in the public road in the line of David Buffington, a corner with lot No. 1; thence with a line of lots No. 1 and 2, North 19 degrees west 34.10 chains to a corner of Lot No. 2 in the Bullock Pen Branch Road, thence with said road or nearly so, South 72½ degrees east 11.41 chains; south 83½ degrees east 4.7 chains; South 63½ degrees east 12 links to a corner of Lot No. 3; thence passing a stone on the south side of the road south 18 degrees east 26.52 chains, passing a stone on the north side of a branch to a corner with Lot No. 3 in a line of David Buffington; thence with his line south 80 degrees west 3.72 chains; south 68½ degrees west 6.50 chains, south 89 degrees west 3.05 chains to the beginning, containing 40 acres.

TRACT No. 2—Being Lot No. 4 in the division of lands of Milton Wilhoit, deceased, lying and being near the town of Florence and on Bullock Pen Branch, in Kenton County, Ky., beginning at a stone a corner with Lot No. 3 on Bullock Pen Branch, in a line of the John Goodridge tract of land; thence with a line of said tract north 89½ degrees east 2.33 chains; south 67½ degrees east 5.75 chains to a stone; thence south 89¼ degrees east 6.73 chains; south 7.84 chains; south 36½ degrees east 3.03 chains; south 55¼ degrees east 18 links to a stone in a line of William McClure; thence with his lines up a branch south 35¾ degrees west 6.10 chains; south 25½ degrees west 5.30 chains; south 18½ degrees west 1.82 chains; south 55½ degrees west 2.04 chains; north 12 degrees east 22 links to a point in said branch, a corner with David Buffington; thence with his lines north 87½ degrees west 8 chains; north 8½ degrees west 3.28 chains to a corner of Lot No. 3; thence with a line thereof passing a stone on the north side of a branch north 5 degrees west 22.84 chains to the beginning, containing 35.33 acres.

TRACT No. 3—Lying and being in Boone and Kenton Counties, Ky., and being Lot No. 3 in the division of the lands of Milton Wilhoit, deceased; beginning at a stone a corner with Martha C. Wilhoit's dower in the Bullock Pen Branch Road; thence with said road or nearly so and with the lines of Ezra Wilhoit; south 63 degrees east 5.13 chains; south 82½ degrees east 8.66 chains; north 69 degrees east 6.45 chains; north 89½ degrees east 7 links to a corner of Lot No. 4; thence with a line of Lot No. 4, passing a stone on the south side of the road south 5 degrees east 22.84 chains passing a stone on the north side of a branch to a corner of Lot No. 4 in a line of David Buffington; thence with lines north 86½ degrees west west 4.61 chains; south 80 degrees west 8.62 chains to a corner of the dower; thence with a line thereof north 18 degrees west 26.52 chains to the beginning, containing 35 acres.

Being the same property conveyed to Beatrice Hulbert Brownfield by deed from Lizzie B. Sanders etc., dated October 6th, 1930, recorded in Deed Book 69, page 300 Boone County Records and deed Book 237, page 521 Kenton County records, less 49-100 of an acre conveyed to the Cincinnati Southern Railway by deeds recorded in deed books 148 and 160, pages 493 and 90 respectively, Kenton County Records.

The purchaser shall assume all unpaid taxes against the said property which became due and payable in 1935 and thereafter.

Or sufficient thereof the sum of money so ordered to be made. For the purchase price, the purchaser must execute bond, with approved surety—bearing lega. interest from the day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale—$3,112.22.

RECORDER 1 YEAR $1.50

what Irvin S. Cobb thinks about:

Seeds of Lawlessness.

WESTWOOD, CALIF.—For our lawlessness we're forever blaming hot-headedness, the innate high temper of the races behind us. But did you ever notice this? Members of those identical breeds somehow manage to control their homicidal impulses better in countries where cold-blooded murder means the rope within four weeks, as in Canada; manage to be more honest in countries where deliberated felony means a full term at hard labor, as in Great Britain; or where the run of crimes means stern confinement in real prisons, as in various Scandinavian and Teutonic countries. And did it ever occur to you that the proverbial mush-headed sentimentality of American juries—and overly sympathetic judges and delayed trials, and prolonged appeals and reversals on trivial technicalities, and postponement of punishment through legal devices; and publicity-seeking governors, and crooked lawyers in cahoots with known criminals; and perjury-mills, and wardens who think penitentiaries should be playhouses for coddling naughty boys and girls; and most of all, the prospect of quick release for chronic offenders, regardless of what outraged prosecutors or thwarted police authorities may think about it—might have some bearing also? Before we diagnose the fruitage, let's analyze the seeds.

Irvin S. Cobb

* * *

Paroles and the Death Penalty.

SOMETHING I said here the other day brings an impassioned telegram from a gentleman who demands to know how I stand on the summary releasing of prison inmates, and my position on the infliction of the death penalty.

Well, nobody except the party in question may be deeply interested in my opinions, still this seems as good a place as any to answer him. Since any convicted criminal has the right to appeal from the verdict against him, I'd like to see a law in every state giving the citizens in the community where he was tried the right to appeal from the act of any parole board in turning the said criminal loose again.

And I'm sure more of us would be against capital punishment if only we had reasonable assurance of some punishment for murderers, kidnapers and degenerate beasts who attack women and children.

I forgot to say the message came "collect." So I judge the gentleman is not only curious, but frugal.

* * *

The New Champion Bride.

BEFORE she seemed to despair of ever getting a start on husbands again and sort of slowed up, I used to think Peggy Hopkins Et Cetera Joyce had the best claim to the title, "The Bride of Her Country." But a new champion has arisen.

So rally around, you earnest Hollywood contenders for the All-American Matrimonial sweepstakes, and salute your queen. She's Mrs. Virginia Overshiner Patterson Stark Seeger Gilbert Kahn Cogeswell Gould-Porter, who has just been coaxed to the altar for the eighth time in that many years. And she still but a mere chit of a girl.

If ever that record-busting lady holds a family reunion, won't there be a crowd! And, if she keeps on marrying around, to and fro, the day is coming when the rest of her name will have to run as a second section.

I wonder how it happened she never met any of the Mdivani boys?

* * *

The Santa Anita Races.

I'M HOPING those American archeologists who are digging into ancient Troy find Ulysses' famous wooden horse. It would help me to confirm a theory that a wooden horse must have been the original model for some of the entries I've been betting on at Santa Anita track.

I recall one reluctant nag whose name escapes me, but it certainly should have been Bide-A-Wee, out of Virginia Creeper by Stationary Engine.

Everybody here goes out there. Some of the actors own race horses or some of the race horses own actors, I'm not sure which. And you see all the studio playwrights pranking about. I'm pranking about. Well, it's a great place to write plays—a race track is. I quit going after the first few days. It made me so late for dinner at night—waiting for my horse to come in.

* * *

Midgets in the House.

YOU remember what happened the time before this when J. P. Morgan appeared at Washington to tell a senatorial investigating committee how patriotism might be combined with profits in such a way as not seriously to damage either? A sideshow dwarf came and nestled in his lap.

If, on the present visit, Mr. Morgan craves a repetition of that gladsome incident, I can think of fifty members of the house, not to mention many office-holders, any one of whom could play that Lilliputian's role and nobody would notice the difference. Both midgets and congressmen seem to be running to the smaller sizes these times.

IRVIN S. COBB.

North American Newspaper Alliance.

McVILLE

Sorry to hear of the very sudden death of Mrs. Tom Rogers. Sympathy is extended to the bereaved family.

Mary Emalyne, little daughter of Mr. and Mrs. Howard Presser, has been real sick the past week. Also others that are on the sick list are: Mrs. Stanley Stephens and son Edward, Joe Norman Jonnson and Miss Florence Newman.

Mrs. Ivan Ryle and sons spent a few days the first of last week with her father, Mr. Robert Aylor and wife.

There is lots of ice in the river here.

Miss Louella Cason visited over the week-end with Mr. and Mrs. Lillard Scott.

Mr. and Mrs. Hubert West were shopping in Aurora last Tuesday.

Miss Martha Jane Hightower visited from Wednesdey until Saturday with her grandparents, Mr. and Mrs. J. L. Williamson and family.

Mrs. Kathryn Clore called on her mother, Mrs. Lutie Aylor, Tuesday afternoon.

WATERLOO

Nearly all the tobacco in this community has been put on the floor.

Lou Williamson purchased a nice team of horses the past week.

All the local schools have been cleosd on account of cold weather the past few days.

Mrs. O. W. Purdy and daughter Nellie Jo, and Mr. Bert Scott have been on the sick list the past week.

Mr. and Mrs. Melvin Kelly and daughter Joyce, spent Sunday with Mr. and Mrs. Kelton Kelly.

There has been quite a bit of sub zero weather here, which has been hard on stock not in shelter.

Mr. and Mrs. Ray Williamson called on Mr. and Mrs. Bert Scott Sunday afternoon.

Word was received here last week of the marriage of Miss Ruth Rice, nurse of St. Elizabeth hospital, and Laverne Sullivan, of Union, Ky.

Mrs. Lou Williamson and Mrs. Lutie Clore were calling on Janette Purdy Saturday afternoon.

BELLEVIEW

Mr. and Mrs. Allen Rogers returned home Monday afternoon with their little daughter from St. Elizabeth hospital where she had been a patient for several weeks. She is regaining her strength very rapidly.

R. S. Hensley's store caught fire Thursday evening from an over heated stove pipe. Fortunately he hadn't closed up for the night—and as there were several men present they quickly put out the fire.

There was no school here Thursday or Friday because of the extreme cold weather and the bad condition of the roads.

The alarm was given out Saturday nite that the house belonging to J. J. Maurer on his farm on the upper river road was on fire, but it proved to be only a flue burning out.

Everyone in this community were both shocked and saddened early Sunday morning by the sudden death of Mrs. Tom Rogers at her home near town. She leaves beside her husband two small children grandfather and many other relatives and friends to mourn her passing.

Rev. Roy Black, of Cincinnati, held services in the Christian church here Sunday.

Rev. Raymond Smith will leave in a few days for Denton, Texas, where he will preach in the Pre) Millennial Baptist Tabernacle there durning the month of February.

While assisting a friend in removing his truck from a snow drift last week Jailer, Elmer Kirkpatrick froze his ears. They have caused him much suffering and pain but are now showing signs of improvement.

Prof. and Mrs. J. F. Moore were Sunday guests of his brother, Mr. A. B. Moore, of Union.

CAREY CORK INSULATED SHINGLES

EXTRA VALUE without Extra Cost

A Mineral Surface
B Waterproof Asphalt
C Waterproof Felt
D Waterproof Asphalt
E CORK LAYER

Houses are cooler in summer and warmer in winter when protected by Carey Cork Insulated Shingles, and the attractive colors and unusually heavy body add greatly to the appearance of the building.
Are these superior shingles costly? On the contrary, they are money savers, costing *much* less than ordinary shingles plus the price of separate roof insulation. Let us show samples and quote prices.

CORK INSULATED SHINGLES

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00

NEW GYPSY CLASS COMES INTO BEING

250,000 Quit Paying Rent to Live in Their Autos.

New York.—A new gypsy class is coming into being in the United States and a survey just completed shows that already no less than 250,000 persons have stopped paying rents anywhere to live on wheels all the year round, the Woman's Home Companion reveals. By summer time it is believed 500,000 will have quit their homes to see America from house-cars and trailers.

"Today, 22 companies, chiefly in Ohio and Michigan, are busy manufacturing all sorts of models of motor vans," Theodore Pratt, the magazine's investigator of this new social trend states. "There can be no doubt that the growing appeal of outdoor life, the construction of great camps, the steadily expanding network of fine roads, are temporarily or permanently converting all sorts of people into motor gypsies."

To take care of these modern American nomads "trailer-cities" have been and are being erected on real estate developments. Other units are municipally owned, and there is a federal chain of camps for both trailer and other motor tourists set out chiefly in the great parks.

Largest trailer camp in the United States, according to this authority, is at Sarasota, Fla. Covering 31 acres of ground, this one elaborate plant at one time last winter sheltered over 2,000 such tourists.

Eskimo Children Like Their Own Tongue Best

New York.—If anyone has any good ideas how to get Eskimo children to speak English, E. B. Dell, teacher at Hooper Bay, Alaska, would like to have them.

Dell appealed to the teachers college of Columbia university for advice in teaching Eskimos. For eight years he has attempted in vain to teach Eskimo children the English language.

Refusal to use English makes the children backward, Dell said in his appeal. It isn't because they're stubborn, he explained, but because they are so bashful and shy that they seldom try to use the new words.

Dell, field service worker for the United States Department of Interior office of Indian affairs, believes if he could get the children to use what English they know their vocabulary would soon increase.

Teachers college will arrange for children in schools here to correspond with the Eskimo pupils, but that isn't going to help much because there's no mail service three times a day in Hooper Bay.

He Finally Found Shoes, Size 16, to Fit His Feet

Augusta, Maine.—The largest pair of shoes—size 16—ever made in Maine was presented by a shoe company to Willie Jackson, seventeen-year-old negro, who has the largest feet of any man employed on the Passamaquoddy tidal power project.

For weeks Willie had been crowding his feet into shoes which were at least three sizes too small for him, with the result that the top tip had to be cut away and his toes encased in burlap.

"Boss," Willie told Capt. Edward E. Blodgett, "this is the first time I've been comfortable in years. Thank you, Cap'n and thanks, everybody."

One in Each 1,000 Is a Policeman in America

Washington, D. C.—Approximately one policeman to every 1,000 inhabitants is the average in most cities over 100,000 population, the federal bureau of investigation reports.

In many large cities the average is less than one policeman and in others it ranges up to as high as three policemen per 1,000 persons, the bureau says. The statistics were compiled upon reports from the police departments of 70 cities with a population totaling nearly 20,000,000.

Crimes of murder, robbery, and auto theft have declined steadily over the last six months, the bureau revealed.

Nazi Sterilization Law Includes All Foreigners

Berlin.—Foreigners residing in Germany are subject to the German sterilization laws, the hereditary health court, in agreement with the ministry of justice, ruled.

The laws provide for the sterilization of the hopelessly ill or habitually criminal.

Foreigners may escape their provisions by leaving Germany.

Comprehensive forms on which doctors must list scores of intimate details of the private lives of German couples before they can marry were published.

Speeders Pay Cost of Warning Signs

Louisville, Ky.—Traffic rule offenders are to pay for a new set of warning signs on Louisville streets, and a plate hanging on the sign will give the offender proper credit. Fines will pay for the signs and on each sign will be appended something like this: "John Speedster paid for this sign. He was fined for running through a red light at this corner."

AGRICULTURAL IMPROVEMENT PLANNED NINE COMMUNITIES ORGANIZE

Boone county farmers are planning Agricultural improvement thru Community Extension Association projects organized in nine communities the past two weeks, according to H. R. Forkner, County Agent. These projects include work on soils improvement and curing tobacco to 4-H Club work.

Brief summary of the programs planned are as follows:

WALTON

Korean Lespedeza—3 demonstrations in the growing of wheat and rye as winter companioncrops—crops—Albert Parker, Leader.

Soils — 7 demonstrations with lime and phosphate on newly seeded permanent pastures and hay crops—J. C. Bedinger, T. F. Heile and B. W. Franks, Leaders.

Sheep—6 demonstrations intestinal parasite control—John Noel, B. W. Franks and G. W. Moore, Leaders.

Tobacco—1 curing demonstration and field meeting—J. C. Bedinger, Leader.

4-H Club Work—25 members—Prof. Raymond Beverly, Leader. B. W. Franks, Chairman.

PETERSBURG

AAA Production Control—John Klopp, Lawrence Chambers and J. H. Huey, Leaders.

Truck Crops—Marketing work—John Cox, Leader.

Tobacco—1 Fusarium wilt control demonstration—John Klopp, Leader. 1 curing demonstration and meeting—J. H. Huey, Leader.

2 curing demonstrations on tobacco—John Cox, Leader.

Soils—9 demonstrations in pasture and hay improvement through use of lime and phosphate—B. H. Berkshire and Hugh Baker, Leaders.

Soil Conservation—1 demonstration—O. W. Rector, Leader.

4-H Club Work—25 members—Prof. Geo. Cook, Leader, J. H. Huey Chairman.

VERONA

Soils—10 pasture and hay improvement demonstrations through use of seeding mixtures, lime and phosphate—Robt. Porter, J. R. Worthington and O. K. Powers, Leaders.

Tobacco—1 curing demonstration and meeting—J. R. Worthington and J. D. Powers, Leaders.

Sheep—15 men treat flocks once each month from May to November. Circular letter on approved treatment to each producer. Five purebred rams. Walter Johnson and O. K. Powers, Leaders.

Dairy 100 per cent elimination of Bang's Disease thru testing herd—Jesse Wilson, Chas. Dennler and H. A. English, Leaders.

Farm Accounts—2 demonstrations—W. A. Brown, Leader.

4-H Club Work—20 members—Miss Lamn, Leader, J. R. Worthington, Chairman.

FLORENCE

Hay—2 alfalfa and lespedeza hay demonstrations—T. C. Bonar, Leader.

Pasture—4 demonstrations on use of lime and phosphate—Harry Tanner and Ira Tanner, Leaders.

Tobacco—15 growers attend curing demonstration meeting—L. D. Rennacker and Chester Tanner, Leaders.

Corn—1 demonstration Hybrid Cross—Harry Tanner, Leader.

Dairying—1 D. H. I. A. and 1 Bull Association demonstration — O. R. Russ, Leader.

Farm Accounts—2 demonstrations—Sterling Rouse, Leader.

4-H Club Work—40 members—Prof. Caton, Leader, T. C. Bonar, Chairman.

GRANT

Tobacco—2 demonstrations in curing an field meeting—S. B Scott and L. W. Rogers, Leaders.

Sheep—5 demonstrations in parasite control and letter of recommendations to all producers—Will Aylor, and S. B. Scott, Leaders.

Hogs—1 parasite control demonstration—Chas. Kelly. Leader.

Melons—Wilt Resistant—Variety Test—L. W. Rogers, Leader.

Soils—5 demonstrations in pasture and korean improvement thru use of lime and phosphate—S. B. Scott, Chas. Kelly and L. W. Rogers, Leaders.

Dairying—1 D. H. I. A. demonstration—W. G. Kite, Leader.

4-H Club Work—40 members—A. S. Burcham, Leader, A. S. Burcham, Chairman, S. B. Scott, Assistant Chairman.

BURLINGTON

Dairying—Grow more legume hay—T. W. Rice, F. H. Rouse and Joel Gray, Leaders.

Soil Improvement—4 demonstrations in pasture and hay improvement thru use of lime and phosphate—F. H. Rouse and Joel Gray, Leaders.

Fruit—Winter meeting — F. H. Rouse and J. W. Goodridge, Leaders.

Tobacco—1 curing demonstration and field meeting—W. T. Carpenter, Leader.

Farm Accounts—3 demonstrations—B. C. Stephens, Leader.

4-H Club Work—50 members—Prof. E. E. Kirkwood, Leader, H. E. White, Chairman.

Hebron, New Haven and Hamilton agricultural leaders are to hold community planning meetings early this week.

Miss Dorothy Timler of Chicago had Ralph Mack arrested for calling her "sweetie" without an introduction.

AMERICAN NEWSPAPERS

Perhaps in no other industry is there such a variety of conditions as in the newspaper business. Totalled indiscriminately, there are some thing over 14,000 newspapers in the United States, ranging from the smallest country weekly, which prints only two pages in its own shop, with additional pages printed by a syndicate, to the greatest metropolitan dailies which employ thousands of persons each.

For the smallest probably not more than 25 pounds of paper is required each week, while the Chicago Tribune uses for one Sunday edition all the paper produced from timber grown on 240 acres of land.

According to Grove Patterson, the well-known writer, the New York Times employs 3,100 persons, with a payroll of $25,000,000 a year. Hearst's newspapers and magazines use more than $40,000,000 worth of paper a year in normal times.

But in spite of the disparity between the smallest and the largest of American newspapers, the publisher of the small country weekly need not be overawed by the size of his metropolitan rival. The local newspaper has a place in the life of its community which the great dailies cannot usurp if the local publisher is alive to his opportunities and makes the most of them.

Now, as always, the home town newspaper is the best and cleanest exponent of constructive journalism.

W. C. Weaver, one of our local painters, has been busy the past three weeks decorating the interior of the County Innrmary. Mr. Weaver says it has been quite a task.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 60 | BURLINGTON, KENTUCKY THURSDAY, FEBRUARY 6, 1936 | NUMBER 46

CANDIDATE FOR U. S. SENATOR

A. O. STANLEY

MAINTAINS THAT THE FUNDAMENTAL PRINCIPLES OF PARTY AS NO LESS BINDING UPON THE CONDUCT OF A PUBLIC SERVANT THAN HIS OATH OF OFFICE

Co-existent with our national life, Democracy has endured thru pace and war, adversity and prosperity, victory and defeat; while other political organizations born of the ephmeral exigencies of an hour have, after a brief period of dominance, passed one after another into oblivion.

I am convinced that my political faith has outlasted the century because of the verity of its principles and that they like all great general principles, while immutable are not rigid or static, and are perfectly adapted to the expansion of faith has outlasted the century be an empire and the changing needs of the times.

During the whole of my official life, I have regarded the maintenance of the fundamental principles of my party as no less binding upon the conduct of a public servant than his oath of office.

After the lapse of the years, it is most gratifying to find many friends who once advised me to do that which seemed expedient rather than that which I believed to be right, now commanding my constant adherence to principles admittedly democratic, without regard to personal aggrandizement or to my political fate, now felicitating me upon the fact that my party in National Convention assembled and my great and honored Chieftian in the White House have expressly endorsed the stand which for a time found little favor among many of my constituents.

With those time-honored guarantees of freedom of personal conduct, of conscience, of speech and of the press, every informed democrat is familiar. There is another right, however, alike essential to the security, the happiness and the prosperity of the citizen, i-e—freedom of the market place, the right of every man who toils to dispose of the thing he has produced in the sweat of his face and upon which his livelihood depends, in an honest and open mart.

To lessen or impair this right by any illegal or inequitable manipulation of the processes of exchange, by monopoliistic control, by combinations in restraint of trade, or by an arbitrary interference with the freedom of commerce in the interest of one class to the detriment of another, is and since the days of Jefferson always has been, in direct violation of the precepts and practices of the Democratic party. Obviously the greatest sufferer by such abuses of power or violation of law, is the agriculturalist.

To the detection and prevention of such abuses I have devoted the best years of my life and I am now persuaded to the point of moral certainty that this unexampled depression is due in a greater measure to the wanton violation of this fundamentally democratic principle than to the aftermath of war.

Agriculture has been deprssed to the point of utter prostration by a huge and unsalable surplus. This market was destroyed, this surplus created and more than eight billions of profitable commerce was driven from the high seas by a stupid and arbitrary embargo—the Smoot-Hawley Tariff Act — condemned by informed and discerning men of every political faith.

The President and Congress in an earnest endeavor to relieve an intolerable situation attempted first to decrease this surplus, and second, to restore those happy commercial relationship formerly maintained. In this work our great President and his capable associates merit and I am assured will receive the commendation of their countrymen.

I am convinced that much of the condemnation of these attempts to secure immediate relief for our agricultural interests is due to a failure of the Administration's critics to envisage the whole picture.

As aptly stated by Secretary Wallace in a recent and able address—

"We do not claim that the action taken under th Agricultural Adjustment Act, or the National Recovry Act, or any otner of the emergency acts, helpful as they may have been temporarily, constitute a fundamental plan for American Agriculture.

"We must engage in the delicate processes of adjusting basic production downward, until our people have the vision to adopt a long-time world trading policy which is in keeping with our position as creditors."

To the same beneficient end, one of the greatest Secretaries of State of any administration or any time —Cordell Hull—has devoted his splendid talents and tireless energies.

No court has questioned the constitutionality of this program and no true democrat will fail to endorse it.

This great work requires something more than a simple acquiescence on the part of Congrss, it demands affarmative, efficient and courageous coopration.

Having given more than twenty years of my life to the study of such problems and to the enactment of measures which have proven of practical benefit to our agricultural interests, I am persuaded that at this time the field of my greatest usfulness lies in a return to the duties of a legislator.

Congress should lend effective aid to the President and his accomplishes. Secretaries of State and Agriculture by breaking down these trade barriers that are bankrupting the world, and in restoring those trade relationships which have been sedulously fostored by every democratic administration from Jefferson to Roosevelt, and which have insured the prosperity not of agriculture alone but of all other activities directly or indirectly affected by it.

If elected to the Senate, I shall earnestly endeavor to maintain the principles and render loyal support to the leaders of my party. My record as a public servant in the past is the earnest of my conduct in the future.

LETTER BOX

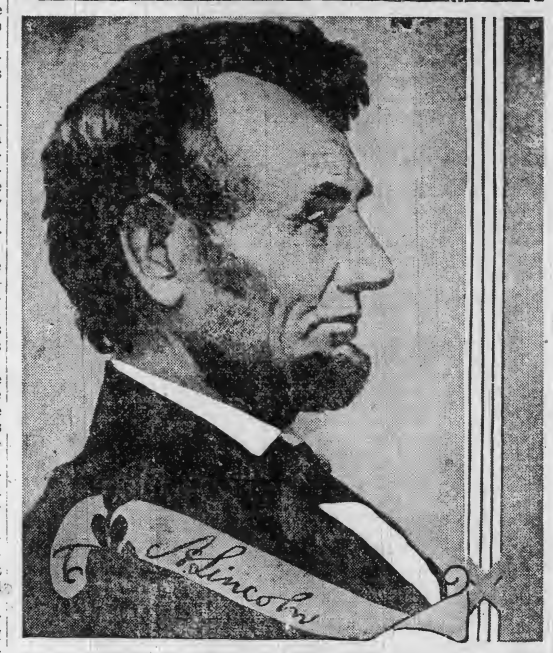
La Cygne, Kan.,
Feb. 1, 1936.
Editors of Boone Co. Recorder,
Burlington, Kentucky

Will you please send me a copy of the Boone County Recorder? I was born and reared at Big Bone Springs, Boone County. My father was a subscriber to the Recorder for years and was a representative of the Singer Sewing Co., for at least 30 years, until he received a commission as a government store keeper under the Harrison administration.

I am now planning to return to my old Home State, the best State in the Union, to settle on a farm. My two sons and myself are veterans of the World War and hope to put our bonus money in Kentucky land. Any information you could give us in regard to farms for sale will be greatly appreciated.

Yours truly,
J. B. CAYTON.

Brownstown, Ind., Jan. 27, 1936.
A. E. Stephens & R. G. Maurer,
Burlington, Ky.,



Dear Sirs:

Please find enclosed $1.50 for which please send me the Recorder for another year. It is 47 years since I left my Old Kentucky Home, I am still greatly interested in Boone county. My father, the late William H. Hayes, was a subscriber to the Recorder, as long as he lived, after hi, death my mother was a subscriber till her death, eight years ago, since then I have been a regular subscriber. Best wishes for your success.

Gittie H. Cribb.

Si Corbin, proprietor of the Madison Avenue Auto Parts, was a business visitor in Burlington, Monday. Mr. Corbin has many friends and customers in this county. His business from here is fast increasing.

Our Beloved Patriot

RHYTHM BAND WINS CONTEST

SPONSORED BY FLORENCE P. T. A.—CONSTANCE TRIO SECOND

One of the most entertaining programs ever staged in this county was given by the Florence P. T. A. at the Florence high school auditorium Thursday night, Jan. 30, in the form of an amateur show with approximately twenty groups of contestants competing for high honors. As was expected, with this group of amateurs, a really entertaining evening was the outcome and according to reports the large crowd which attended, despite the extremely cold weather, were not disappointed.

The Second and Third Grade Rymth Band, of Walton, carried away first honors. This group of young musicians not only were the choice of the judges but were the favorites of the audience. Second prize went to Esther Regenbogen, Avalon Hood and Vivian Hood, of Constance, who performed as an instrumental trio. Third and fourth places went to Jennie Bell Retschulte and Mrs. Crouse and daughter, respectively.

Cash awards were as follows: First prize, $15; Second, $5; third, $3 and fourth $2.

LEGION OPENS OFFICE HERE

TO AID VETERANS IN MAKING APPLICATIONS FOR BONUS PAYMENTS

Boone Post No. 4, American Legion has established an office in the Court House at Burlington for the purpose of assisting all Ex-service men in Boone County make applications for their Bonus payments.

This office will be opened Thursday night February 6th and will be open each Tuesday and Thursday nights until all Boone County Veterans have been taken care of, and will be in charge of members of the Legion without cost to the person making application.

It is very important that each Veteran bring his Discharge and Bonus Certificate, or pink slip, if he has borrowed on the Certificate, as the application can not be completed unless we have these papers.

The office will be open each Tuesday and Thursday evenings at six-thirty Central Standard Time.

If you are interested in making your home work easier and making your home more modern, don't fail to attend the meeting Feb. 11, at 2:30 p. m., at the court house in Burlington.

SUDDEN DEATH OF AGED MAN

WAS SEVERE SHOCK TO HIS MANY FRIENDS AND RELATIVES—HUBERT LOGAN BEEMON WAS KNOWN THROUGHOUT THE COUNTY AS A CITIZEN AND GENTLEMAN

The sudden death of Hubert Logan Beemon, of the Florence-Burlington pike, Monday at 1:00 p. m., was a severe shock to his many friends and relatives throughout this county. Mr. Beemon's death occurred just a few yards from his residence, without warning to those nearby.

He is survived by his widow, three daughters, one son, 4 grandchildren, two brothers, one half sister and a number of other relatives and friends.

Funeral service was conducted from the Hopeful Luthran church Wednesday at 2:00 p. m., by his nephew, Rev. Harold Beemon, assisted by Rev. Hauter in the presence of a concourse of friends and relatives. Interment followed in the Hopeful cemetery with Chambers and Grubbs in charge.

Mrs. Virginia Monroe was visiting in Burlington this week-end.

ORGANIZATION OF 4-H CLUBS

FOR 1936 WILL BEGIN NEXT WEEK—STRIVING FOR GREATER INTEREST AND BETTER PROJECTS

Boone County 4-H Clubs will begin their organization for 1936 next week, according to H. R. Forkner, County Agent. The program this year will be enlarged for both better project work and greater interest among members.

Our 4-H members have been doing a splendid job of work with many members the past year making from $200.00 to $300.00 from their projects. Every boy or girl between the years of 10 and 18 inclusive is eligible for membership provided he agrees to carry an agricultural or home economics improvement project. A full series of special events including Spring Rally, Junior Week, 4-H Club Camp Tours, Project Shows and Sales will be available to all members who satisfactorily carry their project work thru to completion. Enrollment cards may be secured at the organization meetings in schools or at the County Agent's office in Burlington.

Melvin Jones, of Florence, was transacting business in Burlington, Monday.

PT. PLEASANT SCHOOL WINS

CHRISTMAS SEAL SALE—TAYLORSPORT IS SECOND

The Point Pleasant school won first prize for selling the most Christmas Seals for the Kentucky Tuberculosis Association, and the Taylorsport school took 2nd place prize according to an announcement made by R. V. Lents, Chairman of the Sales Committee of Boone county.

All records were shattered this year by Boone County according to Dr. I. E. Smith, Executive Secretary of the Kentucky Tuberculosis Association. The sale of the seals amounted to $256.25 in the entire county which is an increase of over 100 per cent over any previous year.

The following list represents the sale of the seals by the different schools:

Name School	Amt. Sold	Per Pupil
Point Pleasant	5.50	.344
Taylorsport	7.00	.269
Constance	16.04	.239
Garrison	5.78	.231
Petersburg	14.00	.147
Florence Consolidated	59.47	.162
Burlington Consolidated	31.08	.143
New Haven Consolidated	28.44	.119
Hebron Consolidated	18.00	.110
Hamilton Consolidated	18.00	.110
Belleview	5.00	.063
Burlington Colored	1.32	.038
Walton-Veront Graded	15.76	.045
Florence Catholic	3.61	——
Beaver Colored	Unreported	
Miscellaneous	8.00	——
Total	$256.25	——

The following pupils won prizes in their individual schools for selling the most Christmas seals:

Janice Eades, Florence.
Carl Craven, Constance.
Emil J. Sedler, Garrison.
Corra Lu Huey, Petersburg.
Alice K. Moore, Burlington (Col.)
Hazel Lee Craig, Hamilton.
Henrf Bell, Point Pleasant.
Betty Williams, Anna Lou Ralston, Hebron.
Martha Lindenschmidt, St. Paul, Florence.

The other schools failed to report the pupil selling the most seals. Those not reporting, report at once to R. V. Lents, R. D. 2, Ludlow, Ky.

The Florence Consolidated school won a grand prize for selling over $50 worth of seals.

The schools are to be commended for the fine work they did. This is a criterion by which the way all their work may be judged.

NOTICE

Due to a misleading statement in the printers copy of the Bank Statements which appeared in this paper the week of January 16th, 1936, there was an error made in several of the statements. These have been sent to the Banking Commission at Frankfort, and as soon as we hear from them a corrected form will appear to verify this error.

Mrs. Anna Dement

Mrs. Anna Dement, aged seventy-six years, passed away Tuesday at her home in McVille, Ky. The remains were removed to the Taliaferro Funeral Home in Erlanger, Ky., for preparation.

She is survived by one brother Reuben West and Mrs. Robt. Bradford.

Funeral services were conducted at the Belleview Baptist church Thursday afternoon at 2 o'clock by the Rev. James, pastor of the Burlington Baptist church, after which she was laid to rest in the Belleview cemetery.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

Darlington P. Riley

Darlington P. Riley passed away Saturday morning in his 90th year at his home in Walton, Ky. He was a member of the Walton Christian church for a number of years and was one of the town's most beloved citizens. Funeral service was conducted by Rev. Jack Ervin his pastor, at Wellington Baptist church in the presence of his relatives and friends. Burial in Wellington cemetery. Chambers and Grubbs were in charge of the funeral arrangements.

P. E. Gulley, of near town, was a caller in Burlington, Saturday.

FIRST WINS REGISTERED

FOR CATS AND KITTENS OVER WEEK-END AS FORMER TRIMS WARSAW AND LATTER TAKES HEBRON

The previous disastrous attempts of the local basket ball teams to enter into the won column was overcome du[r]ing the past week-end as the Cat[s] took their initial victory from [the] seemingly superior Warsaw ag[g]regation on Friday nite, at the loc[al] floor, by a score of 23-22 and [the] Kittens followed on Saturday [night] by defeating Hebron on th[e] losers floor by a score of 26-21.

The Cat-Warsaw game was conceded by m[ost] of the spectators to the Gallati[n] county boys and the score at th[e] half way mark stood 13-11 in th[eir] favor, but first class work and [so]me sharp shooting in the last ha[lf] made way for victory for the Cats. Hon looked best for Warsaw with 10 points while Sebree amassed 15 for the winners.

Led by Harold Snow, who made 9 points, the Burlington reserves defeated the Warsaw reserves in a curtain raiser 15 to 8.

On Saturday night the Cats and Kittens journeyed to Hebron where another even break was the outcome, however, on this occasion the Kittens did the clawing and the Cats were charmed by the Cardinals. At the middle mark the Burlington girls held a 17-9 lead over Hebron and finally emerged victorious 26-21. Eddins, by some beautiful guarding, and Pettit were outstanding for Burlington, the latter scoring 12 points. Grant, of Hebron led with 10.

The Cardinal-Cat fray was as expectd a victory for Hebron, who with a more seasoned quintet and numerous dependable reserves had a smoewhat easy battle. They led at the rest period 18-9, but with several regulars retiring in favor of the reserves in the last half the still determined Burlington team put on a rally which netted them 10 more points while Hebron could collect but 8, thus the final count was registered at 26-19 in favor of Hebron. Wohrley, of Hebron, with 12 and Sebree, of Burlington, with 9, led the scoring parade. Shinkle and Burton, of Hebron, also showed well.

ROTOGRAVURE FARM SECTION

PRESENTED IN THIS ISSUE OF RECORDER AS A SPECIAL FEATURE FOR FARMERS AND HOUSEWIVES

This edition of the Recorder contains as a special feature to the farmers and housewives the State Farmer section in full rotogravure form. This feature will appear monthly in an effort to better acquaint the farmers and housewives with up-to-date methods and procedures. It likewise contains many artistic pictures and gives bits of historical information.

We received a numbering of interesting comments on the initial section which accompanied the January 9th issue. It is our firm belief that this section, which is something peculiar to a weekly publication, is being read and appreciated by our readers.

T. V. A. PHOSPHATE

The Boone County Soil Improvement Association received a [c]ton car of Tennessee Valley Authority triple super-phosphate at Erlanger last Monday. The phosphate will be distributed to farmers and Utopia Club members who have signed agreements to conduct pasture and hay demonsrations this year. The only cost to cooperators is the paying of the freight and handling charges.

Forty Boone County farmers and seven Utopia Club memberes have agreed to carry pasture and hay improvement demonstrations this year, according to H. R. Forkner, County Agent. Boone county farmers with 92,000 acres of pasture and 37,000 acres of crop land are becoming soil conscious. The greatest single agricultural improvement from a production stand point lies in the improvement of our pasture and hay crops. Lime and phosphate is the solution so far as plant food is concerned.

R. Z. Cason, of Middle Creek, was calling on friends here Saturday.

Editorial of the Week

AL AND AAA

I don't know who told Al Smith that the good Lord inspired the supreme court in arriving at its decision on the AAA case. What about the three justices who dissented? Evidently they were not taken into the confidence of the Lord as were Smith and the six majority justices. But the court has had the last say and, right or wrong, their decision is now the law and as law abiding citizens the people of the United States will abide by it and profit by it. Congress will now find some other means of accomplishing the purpose. There will be no religion. No one wants to overthrow the government or hang the old gentleman whose views did not agree with those of the dissenting justices.—Osgood Journal.

GOING TO MARKET

What do you want when you go to market?

You want quality foods—but you don't want to pay an excessive price.

You want low-priced foods—but you don't want to sacrifice quality.

The greatest problem of up-to-date food distributors is to combine the twin virtues of high quality and low price.

It is doubtful if the public realizes how much thought, time and energy have been expended to save them money—or how much has been achieved in their interest.

As an aftermath of the World War, there was widespread public demand to reduce waste and excessive charges between the producer and consumer. With food prices again rising, this question once more becomes a paramount issue.

For fifteen years wide-awake merchandisers have struggled with the problem of cutting the spread between the price paid to the farmer and manufacturer, and the price charged the consumer. Remarkable success has been attained. Today that spread is smaller than it ever was, and it is steadily shrinking. Food store advertising in local newspapers has been a tremendous force in securing mass distribution and resulting lower costs to consumers. The farmer is not penalized. But wasteful overhead and unnecessary middleman activities are constantly lessened. And the family pocketbook is the gainer.

A ten per cent saving in food prices alone, actually releases hundreds of millions of dollars of family income annually for the purchase of other necessitities and luxuries, with resulting increased employment and business in all lines.

UPS AND DOWNS OF THE RAILROADS

The railroads of the country appear to have been forced to resist control of their important affairs by the Government, while at the same time they have been borrowing from the Federal treasury until their indebtedness is approximately $500,000,000. Railroad executives have been slow in learning that you can't talk back to the money-lenders. Railroad securteiis have become poor investments, and about one-quarter of the entire mileage of the lines is in the hands of receivers and trustees. It is not strange that one often hears the prediction, in the National Capital, that the Government may take over the railroads.

In this upheaval of transportation methods the railroads have lost one of heir great assets. Formerly they controlled legislatures in most of the States, and dictated to the Federal Government; whereas these same railroad interests now have to take orders from commissions, and bureaus at Washington. It is asserted that this results in considerable misrule. The railroads literally have their backs to the wall.

The country is likely to take definite notice of the improvements in railroad management that have furnished better service, faster trains, a degree of safety that is almost perfection. Finally there is the good news that the railroads are beginning to pick up freight at the shippers' doors and deliver it to residences and places of business. Efficiency in railroad management has made remarkable progress, but the job of working for the railroads has lost a good deal of its attractiveness. In the face of existing conditions it is little wonder that interest appears to mount in the question of Government ownership.

PARAGRAPHER: PRINCESS ALICE

Alice Longworth Roosevelt, leading lady in political society of Washington ever since she used to cut capers in the White House when her great father was President, writes a piece for tle papers every day. Heretofore, she has always maintained silence, never submitted to interviews, and her power has always been among the rich mysteries of "invisible government." As usual, she puts lustre and brilliancy into her work as one of "we" newspaper writers. Her stuff is pungent, sarcastic and very human. Everybody in Washington seems to like it, and her cousin still welcomes her to the White House.

EDITORIAL PARAGRAPHS

With M. M. Logan, A. O. Stanley and John Y. Brown already announced as candidates for U. S. Senator and the possibility of Fred Vincent announcing gives the voters of Kentucky a group of well qualified men to choose from.

To those who think that the weather is not the most talked abo t subject—I wish you would sit in our office just one day and then form your opinion.

Ben Johnson should be an experienced State highway Commissioner—this is his third term at the job.

One of the Cincinnati daily papers carried the Head "Hell Freezes Over," one day last week. Hell is a little town in Northern Michigan which is practically deserted and really was frozen over. Since then we have heard that Rabbit Hash is frozen stiff and the residents of Big Bone are really chilled to the bone....and then to this one was added when one of our nearby Gunpowder residents saw the above mentioned head. "According to the thermometer then it was colder than Hell this morning."

The Florence P. T. A. deserved much credit for their efforts in promoting the recent amateur show which was given at the Florence high school auditorium. It proved that there is really an abundant of entertaining talent in the county and that the people of the county appreciate this local talent.

A tourist that thought he was on U. S. Route 42 pulled into Burlington last Friday night—and when informed that there was no hotel, no theatre, ect. in town undertook to tell me what the town needed. "What this ? ? ? ! Burg needs is a hotel, a theatre, a better street lighting system, a couple of restaurants, some tourist camps and a "heck' of a lot more things that you haeen't got." I kindly informed the gentleman again that he had gotten off of his route and that he was in Burlington not Louisville.

The Churches

Give to him that asketh thee, and from him that would borrow of thee turn not thou away. St. Mat. 6-42.

Lesson for February 9

JESUS INSISTS ON RIGHTEOUSNESS

LESSON TEXT—Luke 6:39-49.
GOLDEN TEXT—Why call ye me, Lord, Lord, and do not the things which I say?—Luke 6:46.
PRIMARY TOPIC—Jesus Tells Us What to Do.
JUNIOR TOPIC — Jesus' Code for Helpers.
INTERMEDIATE AND SENIOR TOPIC—Overcoming Our Faults.
YOUNG PEOPLE AND ADULT TOPIC—The Test of Our Religion.

In verses 20-26 Jesus sets forth the inner spiritual condition of those who are members of his kingdom. In the lesson text for today he sets forth the principles governing the life of his followers.

I. Love Your Enemies (v. 29).

Love here is not mere natural affection. Love is not sentiment but is the sincere desire for the welfare of another, and the willingness to do all in one's power to accomplish that which is good for the individual. To love friends is easy, but to love enemies is only possible to those who have been born again.

II. Do Good to Them Which Hate You (v. 27).

Love is positive in its nature. The disciple of Christ will not merely refrain from doing injury to one who hates him, but will be concerned with and engaged in doing good to him.

III. Bless Them That Curse You (v. 28).

To bless means to speak well of, to invoke a blessing upon.

IV. Pray for Them Which Despitefully Use You (v. 28).

It is obligatory upon the Christian to pray for those who heap abuses upon him. The best commentary on this is Christ's own example. "Father, forgive them; for they know not what they do" (Luke 23:34). When Christ was reviled he reviled not again; "When he suffered, he threatened net; but committed himself to him that judgeth righteously" (I Pet. 2:23).

V. Patiently Endure Wrong and Injury (v. 29).

The Christian is not to bristle in defense of his rights, but rather to suffer insult, injury, and even loss. This expresses the law which governs the individual's action and should not be pressed so far that evildoers go unchecked. Rightly constituted government has been ordained of God for the protection of the innocent and punishment of evildoers (Rom. 13:1-8).

VI. Give to Every Man That Asketh of Thee (v. 30.)

This text does not authorize promiscuous giving, neither does it mean that any request made by the idle, greedy, and selfish should be granted. There is a giving which injures the one to whom the gift is made. It would not be proper to give a man money to buy whisky. The principle enjoined is to give the thing needed to the one asking. The supreme need of every able-bodied person is to be given a way to earn his living.

VII. Do to Others as You Wish Others to Do to You (vv. 31-35).

This is called the Golden Rule. It is the sum total of Christian duty as it pertains to human inter-relations. If this rule were lived up to, the problem of capital and labor would be solved, war would cease, international relations would be peaceably adjusted, and all profiteering in business would end.

VIII. Be Merciful (v. 36).

This means to be filled with pity and compassion; to enter into sympathy with every need of others. Our supreme example is the Heavenly Father.

IX. Censorious Judgments Condemned (v. 37).

This means that the evil or false in others should not be sought out. We should not sit in critical judgment upon the action of others. This does not, however, prohibit the estimation of others by their deeds.

X. Compensations of Right Living (v. 38).

The believer who gives freely of money, loves sincerely, makes the Golden Rule the standard of his life, shows mercy and kindness to others, and refrains from impugning the motives of others, will be fully rewarded.

XI. Danger of Following False Teachers (v. 39).

The teacher who does not know God and the way to heaven will lead others into ruin. Only such as know God should be followed.

XII. Those Who Reprove Others Should Live Blameless Lives (vv. 41, 42.

Evil doing should be removed from our lives before bringing others to account.

XIII. The Sin of Profession Without Fruitbearing (vv. 43-46).

The one who is in fellowship with God will practice the principles which reveal God's nature.

A Rose

Every rose is an autograph from the hand of the Almighty God. On this world about us he has inscribed his thought, in those marvelous hieroglyphs which sense and science have been these many thousand years seeking to understand. The universe itself is a great autograph of the Almighty.—Theodore Parker.

A Good Book

A good book is the best of friends, the same today and forever.—Tupper.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF FEBRUARY 11, 1926

Locals

Winfield Waters, six year old son of William Waters, of Limaburg, created quite a sensation in the fiddlers contest at Keith's in Cincinnati last week.

Dr. M. A. Yelton and L. C. Weaver attended a meeting of the Ohio Field Trial Association at the Sinton Hotel in Cincinnati, one evening last week.

Belleview

T. B. Cason is suffering with an attack of appendicitis since Saturday.

Mr. and Mrs. Wallace Clore spent Saturday night and Sunday at the bedside of their nephew William Stanley, oldest son of Mr. and Mrs. Stanley Clore.

Hebron

Another home has been made sad and lonely by the death of Mr. Elijah Tanner, who passed away Sunday afternoon about 5 o'clock, Jan. 31st.

The Helper Circle will meet with Mrs. John Dye Wednesday afternoon about 5 o'clock, Jan. 31st.

The Helper Circle will meet with Mrs. John Dye Wednesday afternoon Feb. 17th, at 2 o clock.

Idlewild

Bruce Campbell, who is associated with the National Life Insurance Co., of Chattanooga, Tenn., is very much pleased with his position.

Mrs. Max T. Gridley, of St. Louis, who is visiting ner parents, Mr. and Mrs. J. B. Berkshire of Petersshire, of Petersburg, spent the midweek with Mrs. J. S. Asbury.

Union

The many friends of Ivan Clements, son of Mr. and Mrs. Nathan C. Clements, of Hathaway, and Miss Della Booth, were surprised to hear of their being married last Wednesday.

Henry and Jack Conner, of California, who were called here by the death of their father W. W. Conner, have returned home.

ISSUE OF FEBRUARY 9, 1898

Petersburg

Uncle Ross Randall has been more feeble than usual for about a month. At one time his friends were very uneasy about his condition, however, he is thought to be gaining ground.

Richwood

A large crowd attended and enjoyed a supper given at the residence of Mr. Daniel Bedinger, last Friday night.

CAMEL'S HILL

Feb 7.—Born to Sam Shinkle and wife, a girl.

A number of farmers have not finished gathering their corn.

Florence

Robt. Huey, Elbert Rice and Pat Norman, of Union, were guests of friends here, Sunday.

Rev. Dennis has returned from Staffordsburg and will commence a revival at the Methodist church, Sunday, Feb. 13th.

Verona

Last Thursday was the coldest day that we have had. The mercury stood at zero.

Esq. Ben O'Neil claims to have the best fox dogs in the county. He challenges Union for a fox chase. Will make the chase at Union or Verona or even on a neutral grounds, with picked dogs or any other way.

News Tour

By Wm. C. Walton

Undoubtedly the prodigious drama tragedy of China emphasis to the story these ancient glories have to tell. Crossing from Japan one has left a little island empire where everything is in order, where the neatness, daintiness and picturesqueness of the native life afford the charm. Only the mountains of Japan have grandeur. The scenery set against them is a little stage set perfectly and exquisitely fashioned. But China at the north on sea coast is a vast flat land, stretching to far horizons, and there is poverty, suffering, filth and disorganization scattered endlessly. I met few Europeans in North China who did not accept occupation and acquisition of northern provinces by Japan as inevitable. To the visitor it appears that the Japanesee ar pursuing their policy by the almost deliberate disorganization of Chinese life. For instance China is endeavoring to reorganize her currency, which is one of the weakest and most demoralizing influence in her economic and social life. But Japan is opposing that attempt strenuously. So here in a vast country of wretched poverty and great illiteracy is a superior military power constantly intervening in a way that further disorganizes and demoralizes a political control that is weak and futile at best.

(Next week the great wall of China)

SONG OF THE FLIVER

(By Blanche C. Bigler)

I go to haunts for which you yearn;
I make a sudden sally;
I rattle, shiver, twist and turn;
I bicker down the valley.

I run, I glide, I bump, I jump;
I miss, backfire and quiver;
I overheat and skid and pump;
I shake your heart and liver.

I rattle underneath the stars;
I rumble on the bridges;
I squeak at many little jars;
I grind o'er sundry ridges.

I tremble when I go to stop;
I tremble when I'm running;
I tremble till I lose my top
And then you get a sunning.

I am the flivver, don't you know?
My way's not smooth—no never,
But cars may come and cars may go
Yet I go on forever.

RADICALS TODAY— CONSERVATION TOMORROW

Stern opposition to the soldiers' bonus raged through three administrations. The conservatives of Congress finally yielded to the popular demand to pay the bonus. But the proposal was too radical for Harding, Coolidge and Hoover when these gentlemen were in the White House.

HAMILTON

Geo. W. Stephens, of Cincinnati, returned home Monday after a few days spent with his sister, Mrs. Tom Huff.

Everett Jones Star Mail Corrier, and Henry Pitcher's machines collided on the Wood Miller hill last Tuesday morning, damaging both cars.

The P. T. A. and Amateur Show to be held at Hamilton school the past week has been postponed until February 13th.

Mr. Jack Acree, of Rabbit Hash, is seriously ill at this writing. Others reported sick are Bertha Mae Carroll and Connie Mae Edwards, and Mrs. Bender. We hope for the speedy recovery of all.

Tom Huff and wife entertained their son Garland and family and Rev. Johnson with dinner Sunday.

Reports came to this place this afternoon that the river was blocked with ice at Warsaw.

Harry Huff made a business trip to Covington Saturday.

Prof. Asbury and Garland Huff were in Burlington Saturday.

McVILLE

This community was saddened last Tuesday evening when we learned of the death of Mrs. Anna Dement. She had been sick but a few days. Her funeral was held at the Baptist church at Belleview on Thursday afternoon where she attended so faithful.

A number from here attended the funeral of Mrs. Clarence Rogers Tuesday morning.

Mr. Harold White, who is attending school at Lexington, is visiting home folks here for a few days.

Mrs. Stanley Stephens still remains ill. Mary Josie Stephens has also been real sick.

We want to extend congratulations to Mr. and Mrs. Laverne Sullivan (nee Miss Ruth Rice) who were recently married. Mrs. Sullivan was formerly from this community.

Mr. and Mrs. Hubert West spent Friday with her parents, Mr. and Mrs. Bert Smith in Rabbit Hash neighborhood.

Miss Florence Newman visited over the week-end with Miss Helen Grant at her home in the neighborhood.

Mr. T. C. Sutton visited his sisters Mrs. Stella Scott and Mrs. Grace Brown Saturday night and Sunday.

Mr. and Mrs. Robt. Aylor, and Mr. and Mrs. Will Aylor were visitors with Mr. and Mrs. Paul Aylor and family of Rabbit Hash, neighborhood, Sunday.

Mrs. Les Shinkle is on the sick list.

Mr. and Mrs. Cad Berkshire called on Mr. and Mrs. Les Ryle Sunday afternoon.

Mr. and Mrs. Percy Ryle visitd home folks here over the week-end.

Born—To Mr. and Mrs. Les Ryle on Sunday afternoon Feb. 2nd, a baby boy.

OWL HOLLOW

FACTS AND FANCIES FROM FRANKKFORT

(By Emma May Frank)

Frankfort, the little capitol city of the proud old Commonwealth of Kentucky, snuggled down in its encircling hills and slashed in three parts by a meandering river, has a charm and a fascination all its own for the great majority of people who visit it only upon rare occasions. Perhaps an inauguration draws them to it and they recall ever afterward with a shiver the chill wids that whipped through furs and top coats and reached even to the marrow of their bones. Or it may be a trip in midsummer to see the Governor, to plead for a job or a pardon for a constituent. Coming in from the shimmer that turns the blistering stretch of walks and steps that make the approach to the new Capitol a thing of beauty if you're riding, and an everlsatingly long walk if you're on Shank's mare, you find yourself in the cool dim interior and you glance up at the towering bronze statue of Lincoln—Republican or Democrat, it gives you a thrill to know that here was a Kentucklan.

It's about the real Frankfort I will write, not the town one sees on a casual visit, but the underlying elements of the place, its everlasting hills, its cemetery which is called Kentucky's Westminster Abbey, it's old Capitol as well as its new Capitol, the personalities that go to make up its citizenry, a cosmopolitan cross-section drawn from every village and hamlet from Mills Point to the Big Sandy.

My memory of the Governors runs back to the time when, as a little curly-headed girl of five, all starched and beribboned and out for a walk with a beloved aunt, we met the young man who soon was to stop an assassin's bullet, whose last words were, "Tell my friends to be brave and fearless and loyal to the great common people." He was, of course, the martyred Goebel. On through the fine administration of Beckham, who started the building of the new Capitol only to have it occupied by a successor of a different political faith, Governor Wilson,—then Gov. McCreary, come again to reclaim it for the Democrats. Who can ever forget the eyelash of that race between two doughty knights of oratory, Augustus Owsley Stanley and Edwin Porch Morrow of hallowed memory? Governor Stanley it was who guided the Commonwealth through those stormy years when a world was aflamé with war and, at almost the end of his administration. when he went to Washington as United States Senator, Lieutenant Governor James D. Black, dubbed "the little giant of the mountains," completed his term. Ed. Morrow's gallantry and sportsmanship in the race four years previously was not forgotten, and the people made him their next Governor. No more beloved character has ever graced the mansion than "Howdy Ed" and the soil of Frankfort welcomed him to its bosom when "taps" sounded for him only recently. Remember "Honest Bill from Olive Hill? ' That was Governor Fields, who was followed by the man the Democrats chose to call "Flim-Flam-Flem." But of all the courtly gentlemen, immaculately groomed, who ever ruled Kentucky, Governor Sampson was "tops." Our last Governor and our new one are still "Front Page." Governor Laffoon was the inspiration for the coining of the word "ruby," for the sales-tax penny, but the memory of man being what it is and the sales tax being as dead as the dode, we may soon be explaining to a new crop of children what a "ruby," means to a Kentuckian. The thing that has surpassed me is how quickly the term "Happy" has changed to. Governor Chandler. He is perhaps the most colorful personality to flash across Kentucky's political horizon in a half century. It was his very youth and audacity and endurance and smile that made him the idol of his fellowmen. And the manner in which he has grasped the helm of the hip of State has amazed many of the old-timers who've seen Governor's come and go. And I've seen them come and go, too. I've seen them ride up to the Capitol to the shouting cheers of friendly thousands, and I've seen them ride away after four years to the ominous mutterings of discontent and disapproval.

So I'd like to write you a weekly letter, relating for you some of the interesting tales all Frankfort knows, sometimes of its past, sometimes of its present, in the hope that you will enjoy them and will come to see for yourself what makes the wheels go round. For there's action taking place with the reorganization of the Government under way, new personalities coming to the fore. While youth seems to be in the saddle, still there's the guiding hand of Governor Beckham and his advisory committee to be reckoned with. Kentucky history is in the making, and you'll get some unusual sidelights on Frankfort as she was and as she is, and perhaps a vision of what she will be if you follow up your correspondent's weekly letters.

UNION

Mr. and Mrs. William Greenup have moved from Burlington to the village and are located in the Smith residence on Maint St.

J. M. Huey, third year student at University of Kentucky, Lexington, is enjoying the between-semester recess with his parents, Mr. and Mrs. Joseph A. Huey.

Members of the Community Card Club were entertained Friday nite at the hospitable home of Mrs. Marvin Gaines, of Walton.

Mr. and Mrs. Lyman Rice, of Gunpowder community, Miss Jane Shelton Bristow and Mrs. Maud N. Rachal, were guests Sunday of Mrs. W. T. Spears.

Congratulations are being showered on our young townsmen Laverne Sullivan and his recent bride by their host of friends, who join in wishing them a useful, happy married life.

Mrs. Emma A. Judge lost all of her canned fruits and vegetables during the sub-zero weather of the past weeks.

Dr. Nestley, of Covington, has purchased the W. D. Newman farm on Mt. Zion Road. His tenant for the year is Frank Worthington, of Verona.

Rev. J. M. Hoover, of Louisville, was the guest Saturday night of Mr. and Mrs. Raymond Newman.

Mr. and Mrs. Austin Schwind's small daughter, Violet, was quite ill the past week, though now somewhat improved.

Miss Dorothy Newman, Miss Ella Aylor, of Covington, Messrs. William and James Feldhaus, Mrs. Charley Hedges and Rev. J. M. Hoover were dinner guests Sunday of Miss Lucy Newman.

Messrs. Dickerson and Greenup are operating the general store recently purchased by them from P. P. Neal. Mr. and Mrs. Neal are now located in Williamstown.

Mrs. Walter Ferguson entertained a group of congenial friends with a charmingly appointed dinner Saturday night at the family residence—lovely Elm Tree Place.

POINT PLEASANT

Chas. Eggleston, of Petersburg, spent last Saturday with his parents.

Mr. Harvey Beil, of Crescent Springs, called on his brother Jno. and family, Sunday morning.

Chester Long, of Piner, has gone to work for Mr. Ben Michels of near Erlanger.

Mrs. John Beil called on Mrs. J. S. Eggleston Wednesday.

Mr. and Mrs. Geo. Wernz and sons spent Wednesday evening with their daughter Mrs. Carl Beil and husband at Bromley.

Mr. and Mrs. Will Gross called on Mr. and Mrs. J. E. Kenton last Sunday evening.

Mr. and Mrs. Geo. Wernz called on Mr. and Mrs. Fred Garnett at Constance, Sunday evening.

Mr. Geo. Cook, of Bellevue, Ky., was a visitor at church here Sunday.

Mr. and Mrs. John Beil and children spent Sunday evening with his brother Carl and wife at Bromley.

Mr. Hobert Roberts called on Miss Mary Elvenia Tupman Sunday evening.

Mr. and Mrs. J. E. Kenton entertained Sunday evening Mr. and Mrs. Will Gross, John Darby and Deliha McClough.

Several loads of tobacco passed through here Monday enroute to Covington.

WATERLOO

Mrs. Geo. Shinkle has been on the sick list the past week.

Mr. and Mrs. Willie Presser and family entertained at supper Saturday night, our local merchant Geo. Walton and children, Bobby and Corrine.

Mr. and Mrs. Cecil Cobb and daughter Bobbie and Mrs. Ruth Rector and children were calling on friends in McVille Sunday afternoon.

Miss Mildred Kittle spent the week-end with her parents, Mr. and Mrs. West Kittle.

Little Ruby Mallicoat who was burned severely one day last week is improving at this writing.

Miss Louise Rice has been confined to her home the past week with a severe cold.

Mr. and Mrs. Cam White butchered some nice hogs Saturday.

Uncle Bill Black purchased a mule from Jake Cook one day the past week.

Mr. Jake Hopkins was calling on friends in the burg Saturday.

Rosanna Williamson spent Saturday afternoon with her aunt and uncle Mr. and Mrs. Don Williamson.

Mr. and Mrs. Jas. Brown called on Mr. and Mrs. Ernest Brown, Saturday afternoon.

Little Bobby Lea Walton is spending this week with his grandparents, Mr. and Mrs. G. H. Walton.

Stanley Stephens, of McVille, was in town Monday.

THE last word in muffins will never be said so long as the talented housewives of America retain any of their culinary ingenuity—for in any household a new kind of muffin is a new treat. Every so often some woman meets the challenge by producing a new and delectable muffin. It was a genius who created Cranberry Flakes Muffins—and I, for one, salute her, —whoever she may be.

Cranberry Flakes Muffins

1½ cups sifted flour; 4 teaspoons double-acting baking powder; ½ teaspoon salt; ½ cup sugar; 1 cup coarsely chopped cranberries; 2 eggs, well beaten; 1 cup milk; 4 tablespoons melted butter or other shortening; 1 cup bran flakes or Grape-Nuts Flakes.

Sift flour once, measure, add baking powder, salt, and sugar, and sift again. Add cranberries to ½ cup flour mixture. Combine eggs, milk, and butter; add to flour mixture, beating only enough to dampen all flour. Fold in cranberries and flakes. Bake in greased muffin pans in hot oven (425°F.) 25 minutes, or until done. Makes 12 muffins.

ONLY ONE INCOME TOPS FIVE MILLION

Earnings Between $6,000,000 and $9,000,000.

Washington.—America had one man whose net income was somewhere between $6,000,000 and $9,000,000 in 1934, Treasury department figures disclose.

The identity of the country's wealthiest man in 1934 was a closely guarded secret, as were the names of the other 31 persons who were shown by a previous treasury report to have had incomes in excess of $1,000,000 during 1934. In its attempt to screen the richest man's identity the treasury reported only that his income was "over" $5,000,000 and it tried to cloak him further by lumping figures on his income and taxes with those of five other wealthy persons.

That the richest man's taxable income was not less than $6,000,000 and not more than $9,000,000 could be discovered from the treasury's figures, however. Whether this person was the same unnamed individual who also had an income of approximately this same size in 1933 could not be learned at the treasury.

"Average" Net Incomes Climb.

The "average" man who filed an income tax return on his 1934 income had net taxable earnings of $3,123, compared with an average of $2,903 for 1933, according to the treasury's survey of income tax returns. Incomes disclosed by the returns varied all the way from an average income of $1,899 shown on nontaxable returns of persons reporting less than $5,000 up to an average net income of $3,005,982 shown by six persons in the highest brackets, including the one richest man.

Of the 3,988,269 returns filed up to August 31, 1935, however, 2,237,426 showed net incomes so small they were not taxable. All of the federal income tax on individuals, amounting to $506,000,000, was paid by the remaining 1,750,943 persons filing returns. They paid an average tax of $126, or 4 per cent of their net income, compared with an average tax of $101, equal to 3.4 per cent of their incomes for 1933.

Among the 32 persons whose taxable incomes for 1934 were over $1,000,000, 20 had incomes ranging between $1,000,000 and $1,500,00, the treasury disclosed; these 20 incomes combined amounted to $23,238,035, on which the persons receiving them paid a federal income tax of $12,614,130, equal to 54.28 per cent of the net incomes.

Tax Soars to 57.4 Per Cent.

The remaining 12 millionaires were scattered over five brackets. Four had incomes between $1,500,000 and $2,000,000, six had incomes between $2,000,000 and $3,000,000, one had an income between $3,000,000 and $4,000,000, and one had an income in excess of $5,000,000.

To conceal the identity of the two men at the top of the income scale the treasury lumped figures on their incomes and taxes with those for the four persons having incomes between $1,500,000 and $2,000,000. These six incomes combined totaled $18,035,892, but, since the other five incomes included in this total could not amount to more than $12,000,000 nor less than $9,000,000, the total disclosed that the largest income of them all was somewhere between $6,000,000 and $9,000,000.

Out of their combined incomes of $18,000,000 these six persons paid $10,355,449, or 57.4 per cent, to the federal government as income taxes.

First Bank of England Note Made From Shirts

London.—The first £5 note issued by the Bank of England 142 years ago—numbered 1 and dated April 15, 1793—was recently bequeathed to the governor and company of the Old Lady of Threadneedle street by a wealthy Londoner.

This old banknote was made from English shirts, as the paper on which Bank of England currency is printed is made from white linen rags, and in the old days Britons wore white shirts, which when discarded furnished the rags.

Today, however, practically every Englishman wears colored shirts, with the result that foreign shirts, mostly from France, where white linen is still genteel, are relied upon in the making of banknotes.

After the French peasant has worn his shirt to its utmost, and after his thrifty wife has cut it down into night shirts for the children, it is sent to the Laverstoke mill and turned into Bank of England notes.

For more than two centuries the paper for Bank of England notes has been made at a factory in the little Hampshire village of Laverstoke. This factory, in which practically all the villagers work, belongs to the Portal factory, descendants of a Huguenot who arrived in England hidden in a wine-cask.

Nerve Expert Classifies Reactions to Temblors

Toronto, Ont.—If earthquakes frighten you, you're normal, according to Dr. H. H. Hyland, neurologist.

If you suffer a headache after the temblors, your nerves are extremely susceptible, and you're probably too high-strung.

If you laugh and think it's fun, you're either a good actor or the personification of reason.

Tailless Planes

Berlin.—Tailless airplanes are now appearing in Germany. One of them, carrying two passengers, has averaged a hundred miles an hour in test flights.

WHO'S GOING TO PAY FOR THESE SHEEP?

To whom do the group of canines, mongrels or what ever they are, that roam the streets of Burlington belong to? Who's going to pay when this pack of curs, as they are mostly likely to do, attack someones flock of sheep? County tax payers will undoubtedly be the unfortunate ones. These very ones on whom the burden will fall probably will have never even as much as seen these parasites.

Of course, the man in town should have the right to own a dog, but he has no more right to own a dog and fail to license him than he has the right to own a car and fail to license it.

Likewise, a score of dogs half-starved, shabby, and sometimes vicious do not appeal to a visitor. And to, there been a number of farmers greatly embarrassed, to say nothing of placing him in a dangerous position, by these dogs who are continually nipping at the farmers team as he passes thru town and picking a fight with his dog, which naturally follows.

Sheep are too valuable to Boone County Farmers for Burlington to be Ho Bo Heaven for the Dog Kingdom.

PETERSBURG

The many friends here of Mrs. Laura Norman Asbury were grieved to learn of her death which occurred Jan. 20th at the home of her daughter Mrs. John W. Burton at 5551 Donaldson Place Northside, Cincinnati.

Dr. and Mrs. E. J. Love entertained at dinner last Friday evening Mr. and Mrs. Norris Berkshire, Mrs. Will Helm, Mrs. Mary Berkshire in compliment of their mother Mrs. Mary Love.

Mr. and Mrs. B.E. Stephens and children spent last Sunday with Mrs. Grace Stephens and daughter.

Miss Edna Berkshire received word last Saturday that her cousin Mrs. Helen Parker Allen, of Downey, Cala., had passed away on Jan. 23.

Mr. and Mrs. R. R. Witham delightfully entertained Friday evening January 31st with dinner-Bridge. Quite a number were present.

Mrs. Mayme Stephens and Mrs. Nora Souther spent Thursday with Mrs. Grace Stephens and Miss Nell.

Mrs. Mary Berkshire left Saturday for a week's visit with Mr. and Mrs. E. Weindel Keim and family of Covington.

Owing to the extreme cold weather Bro. Walker canceled his appointment at the Christian church for Sunday, but hopes to be with that congregation on Sunday, Feb. 9th.

Glad to see Burgess Howard on our streets again after his recent illness.

Mrs. H. C. Mathews spent Friday in Newport with her son Henry and wife.

Donald Mathews and Edward Helm made a business trip to Cincinnati Saturday.

Mr. and Mrs. John E. Berkshire have moved to the farm of the late Wm. Kenney near Idlewild.

BIG SALE

For some real bargains, don't fail to attend the sale of Rachal & Norman, which will be held at their store in Union Saturday, Feb. 8th.

MOVIES GO ROUND AND ROUND:

Probably the biggest song hit of the year or 1936 will be the little ditty "Music Goes Around and Around" written by Mike Riley and Ed. Farley, a couple of fellows who were just leaders of another orchestra in New York a few months ago. Now to top the success of their sensational song they have been signed for the Harry Richman flicker which is scheduled to go before the cameras soon. They will arrive here with the entire Onyx Club Orchestra and the Richman picture will be titled, "The Music Goes Round and Round." If you haven't heard their recording of this song then you're missing something mighty fine.

THEY ADVERTISED TOO

Editors Note: The following sale ad was submitted to the Editor by Gene Long, of Florence. Mr. Long says the clipping was taken from a Lexington paper dated 1830. And from the style of type used and faintness of the copy we have no right to doubt the statement.

PUBLIC SALE OF CORN, &c.—

The subscriber will offer for sale at his late residence on North Elkhorn, on Wednesday, Nov. 17th, a quantity of Corn, of the last and present years' crop—also hay and oats in stack, and an excellent Wagon and Gear. Terms—Twelve months credit with bond and approved security, for $10.00 and upwards less than that sum, cash in hand.

W. L. BRECKENRIDGE

LOWER GUNPOWDER

Among those on the sick list are Mrs. John Binder, Bobbie Black, Paul Acree, and we wish them all a speedy recovery.

Brother Johnson took dinner with Mr. and Mrs. Tom Huff, also Mr. and Mrs. Garland Huff and daughter.

Conner Carroll's little boy, M. C., has bronchitis and Connie Mae Edwards has bronchitis also.

Dallis Ogden's small son has the croup.

Dr. Ryle was called to see Mrs. Binder Sunday. Dr. Love was called to Mr. Ogden's, Mr. Henry Blacks and the Shinkle family.

Mr. and Mrs. Jas. Robt. Huey attended church at Belleview last Sunday.

F. H. Sebree and wife spent last Thursday with R. O. Rouse and wife.

Mr. and Mrs. Jimmie McCubbins spent Sunday with Mr. Mode Hodges and family.

A BROKEN PLEDGE

When Congress granted Philippine independence it promised the Filippines that they could send in free of duty 448 million pounds of coconut oil annually. Later Congress violated this pledge by placing an excise tax of three cents a pound on all Philippine coconut oil. This tax was equivalent to a hundred per cent tariff duty on the Philippines' second most important export crop.

This oil, because of its lauric acid content, is needed by American manufacturers in the production of soap, in the tanning of leather, and in the making of automobile tires and other rubber products. We produce nothing in this country wnich contains lauric acid.

President Roosevelt favors the repeal of this tax. The Guffey-Dockweiler bill now before Congress provides for its partial repeal, retaining the tax on coconut oil used for edible purposes which might compete with cotton seed oil, butter, etc., but allowing tax-free imporation for the manufacture of non-edible products. All oil imported for such usage is to be denatured.

Passage of the bill is also advocated by prominent newspapers in the cotton states, including the Birmingham Age-Herald, the Atlanta Journal, the San Antonio Express the Charleston Post, and many others, whose editors understand that the tax is ruining Philippine producers, who are customers for American goods, while it benefits no one in the U. S. The tax provides no federal revenue. It does not even go to the federal government, but is given to the Philippine treasury.

Congress should redeem its broken pledge by passing the Guffey-Dockweiler bill immediately, thereby aiding the distressed Filipinos, benefitting American consumers, and stimulating trade between this country and the new Philippine commonwealth.

Mr. J. J. Kirkpatrick of Burlington has recently announced that he will be authorized agent during 1936 for Westinghouse Refrigerators. Watch this paper for further details.

INFORMATION CONCERNING SHEEP CLAIMS

When sheep or other livestock have been killed or injured by dogs the law requires that the owner shall report in writing, under oath, the damage to the County Judge or Magistrate within 24 hours. The County Judge or Magistrate shall appoint two land owners to appraise the damage. The appraisers will investigate and report the damage done and the names of the owners of the dogs, and if the damage was caused by dogs, the claim will then be returned to the County Judge or Magistrate who appointed the appraisers. If the foregoing is not followed claims cannot be allowed. Blanks for the making of claims are in the hands of the officers.

FERRY CHANGES OWNERSHIP

For the second time in the past several weeks the Aurora Ferry has changed ownership. The ferry was recently purchased by G. R. Van Landingham, of Madison, Indiana, from Chas. Klopp and sons, Petersburg, however, last week Mr. Van Landingham sold the ferry to H. W. Baker and E. E. Klopp, of Petersburg. This ferry is considered one of the most reliable on the Ohio river and serves as a convenient outlet to the many residents of the Petersburg and surrounding communities.

MRS. SUSIE DUNAWAY

Mrs. Susie Dunaway, widow of the late Albert Dunaway, passed away Sunday morning at 2 A. M., following an illness from carcemonia of the stomach. Funeral service was conducted from the home Tuesday 2 P. M., by Rev. C. C. Cleveland in the presence of her many relatives and friends. Interment followed in the Independence cemetery. Chambers & Grubbs were in charge.

FRUIT MEETING

Two Annual Boone County fruit meetings will be held next Wednesday, February 12th, according to H. R. Forkner, County Agent.

The first meeting will be held at the home and orchard of J. W. Goodridge of near Burlington at 10:15 a. m. The second meeting will be held at the home and orchard of Emmett Riddell of Hebron-Constance State road at 1:00 p. m. slow time. The above meetings have been planned by leading fruit growers in Burlington and Hebron Agricultural Improvement programs of work. Mr. W. W. Magill, Orchard Field Agent from the College of Agriculture and leading growers will give discussions on latest fruit problems.

All fruit growers and others interested are invited to attend one or both of these meetings. The programs are of a strict educational nature. Leading growers each year enjoy both the social and educational advantages of these meetings.

ATTEND FARMERS WEEK

Mr. and Mrs. J. C. Bedinger, of Walton, Hubert White, John Crigler and H. R. Forkner of Burlington and J. H. Huey of Petersburg, were among the Boone county folks attending thee Annual Farm and Home Convention held at the University of Kentucky, Lexington, Ky., the past week.

The discussion of J. B. Hutson, Chief of the AAA Tobacco Sction, on Thursday was one of the chief interests. Dr. Hutson outlined the success of the program todate and some of the possibilities of the future.

Miss Olive Louise Poston entertained Virginia Sullivan, Ruby Cotton, Allen Burcham, Alvin and Wm. Clore at dinner, Sunday.

Seen And Heard Around The County Seat

Mr. Raymond King left Saturday morning for Louisville where he is to be employed.

Mr. and Mrs. John Conner attended a wedding supper given in honor of Mr. and Mrs. Cecil Conner (nee Marie Wernz) at the home of Hubert Conner, of Hebron, Ky.

Mr. Ben Grant is improving from a case of pneumonia which has kept him bedfast for several weeks.

Nick King, of the Erlanger Electric Shop, was a business visitor in Burlington, last Friday.

Ross Russ, of Limaburg, was calling on friends in the County Seat, last Friday.

William Phillips, attendant at Central State Hospital, Lakeland, is spending this week with friends and relatives here.

A number from Burlington attended the amateur show given at Florence last Thursday night.

Miss Laura Mae Pettit, who has been confined to her home the past week, is able to out again.

The local basket ball teams will entertain the Piner quintets at the local floor Friday night, Feb. 7th.

Don't fail to see the basket ball games between Piner and Burlington at the local court, Friday night.

"The Rolling Stone," a play to be given at the Burlington school auditorium, Saturday night, Feb. 8, by Petersburg P. T. A.

Miss Mary Louise Renaker spent the week-end with her parents, Mr. and Mrs. A. B. Renaker, here.

Among the visiting attorneys at County Court Monday were Walter Vest, Judge Sidney Gaines, Judge John B. Dillon, Chas. Riley and D. E. Castleman.

Paul Tanner, of Florence, is spending a few days with friends and relatives during mid-semester session of The University of Kentucky.

Mr. and Mrs. Edson Maurer, of Maysville, have returned to their home there after a brief visit with relatives in this county.

Attorney D. E. Castleman, of Erlanger, was among the many county court day visitors at Burlington, Monday.

Born—To the wife of Mr. Wallace Ryle, of Burlington-Florence pike a baby daughter, Saturday night, February 1st.

One of the largest county court day crowds for some time were present at Burlington, Monday. There was quite a bit of legal business transacted.

Dr. and Mrs. S. O. Nunnelley, of Hebron, were calling on Mrs. Ida Balsly, Monday.

Mr. and Mrs. Chas. Meyers, Sr., of Ft. Mitchell, were visiting Mr. and Mrs. Chas. Meyers, Jr., and Mr. L. T. Clore, Sunday.

Miss Beatrice Cahill, of Florence, spent Wednesday night and Thursday as the pleasant guest of Mr. and Mrs. Newton Sullivan.

Robt. Hodges, of Rabbit Hash, was meeting his many friends at the County Seat, Tuesday.

Elijah Stephens, the popular Rural Letter carrier on Route No. 1, is the owner of a new Dodge car.

Mr. Jos. Fisher and son, of Verona, were business visitors here, Monday.

Willis Berkshire, of Walton, is wiring the home of Charles Hawn, which is located on the Petersburg pike, just out of town.

J. S. Eggleston, of Pt. Pleasant, was a caller in Burlington, Wednesday.

The Petersburg P. T. A. are sponsoring a play at the local auditorium Saturday night, Feb. 8. Don't miss it. The local P. T. A. receive one-half of receipts.

A number of Burlington's croquet enthusiast could hardly refrain from viewing the local court, Wednesday. The warm sun seemed to bring back memories of the hectic games which were played last year.

Mr. and Mrs. Thos. Rice spent Sunday afternoon with Mr. and Mrs. Luther Smith.

T. B. Cason, of the Middle Creek neighborhood, was a friendly caller in Burlington, Wednesday.

A considerable number of severe colds and attacks of tonsilitis have been reported to us during the prolonged zero period.

Dawson Day, of the Woolper neighborhood, was a business visitor in Burlington, Monday. Mr. Day is planning to have a public sale at his residence Saturday of this week as failing health prohibits him from farming. See his ad on another page.

Wm. Hill, of Idlewild, was a very interesting caller at the Recorder office last Thursday. He tells us that there is one particular job that requires thirteen months each year to complete and that is the raising of a tobacco crop, BUT, he likewise insinuated that he didn't care if it was a fourteen month job if his crop would average $30.50 for 7,400 lbs., yearly, as it did this year. The crop was sold on the Tri-State floor, Lexington, Ky.

Many farmers who came to town Monday morning with their teams hitched to sleds were disappointed when they were ready to return. The fast rising temperature melted away the snow, which has covered the highways for some days, in a very short time.

NOTE: A column of this nature will be published weekly in order to better acquaint the citizens of Boone County with historical scenes and places of the county. If you have a particular scene in mind that you believe would be of interest to others in the county let us know and we will give a brief historical sketch of the same.

The Hughes Chapel Methodist Episcopal Church, South, located at Beaver Lick, Ky., was organized in 1878 by Rev. Geo. Buffington, a local preacher. The first building was a grange hall purchased from the grangers by J. C. Hughes, Sr.

The present building was built by Rev. George Froh in memory of Jos. C. Hughes, Sr., and dedicated by Bishop H. H. Kavanaugh in August, 1883.

Notice this historical spot when driving on U. S. Highway No. 42.

Next Week—Anderson's Ferry, Constance.

Clifford Sutton, a former resident of this county, who now resides in Cincinnati, was a business visitor in Burlington, Tuesday. Mr. Sutton reported that he seldom has an opportunity to come to this county and that the Recorder furnishes him with a great amount of news.

Lloyd Hankins, of Hebron, was in Burlington a short while last Saturday morning. Mr. Hankin's car failed to keep gait with cold weather on preceding night and he was forced to stay overnight at a farm house, near town. That proves that there is still Kentucky hospitality.

ELECTION

The Florence P. T. A. will hold an election of officers at their meeting Feb. 13th, at which time Mrs. Bessie Doerr, State Chairman of Founders day, will be the guest speaker. Members are requested to attend.

"THE ROLLING STONE"

For some real entertainment, don't fail to see "The Rolling Stone," to be given by the Petersburg P. T. A. at the Burlington school auditorium, Saturday night, Feb. 8th. 50% of receipts go to local P. T. A.

FIRE DESTROYS HOME

Fire destroyed the frame residence of Mrs. Mamie Stephens at 9 o'clock near Bullittsville Wednesday night. All furniture except one room was saved. It was known many years ago as the Willis Clore residence.

Play—HOW THE STORY GREW—at Belleview School Saturday evening 7:30. Feb. 8th. Proceeds to be used for Light Fund Admission 20 cents.

TWO NATIONAL HOLIDAYS IN THE MONTH OF FEBRUARY

February 12th is Lincoln's birthday and the 22nd is Washington's birthday. All banks and public offices will be closed on these two days.

A SATISFIED TOBACCO GROWER

Robert Gulley, one of the county's industrious farmers, who resides on the historical stream of Gunpowder, is now among the many who see the light of a new agricultural period—a period where farmers can come to town on Saturday afternoons with a roll of cash to deposit to his account. Mr. Gulley sold his 1,012 lb., crop of tobacco on the Tri-State floor last Thursday morning for an average of $37.03 per cwt. Bob was highly elated over the returns—and who wouldn't be.

The Sophia Webster Lloyd Memorial Society will hold a special meeting at the Lloyd home on Shelby St., Florence, on Friday afternoon, Feb. Important business is to be discussed and all members are urged to be present.

Sarah Markesbery
Publicity Chairman.

DEMONSTRATION OF PRESSURE COOKER

A pressure cooker, which it is claimed, will cook a meal in ten minutes, will be demonstrated in Covington every day this week at the Sears, Roebuck and Co. store 13 West 7th Street, according to announcement made today by J. G. Sugar, manager of the store.

"A nationally known demonstrator of the pressure cooker will come here especially to help our demonstration plans," said Manager J. G. Sugar. "We are going to turn a part of our store into a kitchen, as much of a kitchen as we shall need to stage this cooking school, and we shall actually cook the meal at the demonstration. The cooking school is open to the public. We shall give demonstrations at 10 o'clock Saturday morning and at 2 o'clock and 4 o'clock Thursday and Friday afternoon. We shall also stage a special demonstration at 7 o'clock on Saturday evening."

It is estimated that a million women have agreed on the KOOK-KWICK pressure cooker as one of the most effective labor savers among modern cooking devices. Water is not required for cooking fruits or vegetables in the Kook-Kwick, and because no water is added, these foods retain their own juices, with the full flavor and valuable mineral salts provided by nature. Not only is their health value very much increased, but their flavor is improved. Tough flank steaks, pot roast and brisket, which have to be cooked for hours with ordinary cooking methods, require only a few minutes in the pressure cooker.

Not only has the pressure cooker shortened the time necessary to prepare a meal but substantial economics may be effected thru greatly reduced fuel bills through the preparation of less expensive foods and through the home canning of vegetables, fruits, fish, meats and poultry.

The United States Bureau of Agriculture, an authority on the canning of vegetables and meats, states that the only safe way to can meats or non-acid vegetables is with a pressure cooker. Ordinarily, open kettle and cold pack, hot water bath are adequate systems for canning jellies and acid fruits, but as Mr. Sugar pointed out, non-acid vegetables and meats frequently harbor harmful bacteria which escape the sterilizing effects of boiling or hot water processing and produce poisons inside the sealed containers.

"Because of this danger," said Mr. H. T. Mitchell, "food chemists and home economics experts have issued the warning that except for acid fruits, pickles and similar products, it is safest to can all foods under steam pressure. The higher temperatures of compressed steam process foods completely and render them absolutely safe."

THE LETTER "E"

Every printer knows that the "E" is the most important of the entire alphabet. About 50 per cent more Es are used than any other letter. Someone has figured it out that the character E is important because it is always out of cash, forever in debt, never out of danger and in hell all the time. But we call attention to the fact that Es are never in war and always in peace. Without it there would be no meat, no life, and no heaven. It is certain of honesty, makes love perfect and without it there would be no editors, devils or news.—Xx.

What Irvin S. Cobb thinks about:

Middle Age and Painless Dentistry.

CULVER CITY.—Especially to those nearing middle age—the age when you begin to exchange your emotions for symptoms—it's gratifying to hear a New York scientist has hit on a formula for really painless dentistry. If he's right, the operation will only begin to hurt when you get the bill. Time was when you could hang onto your stately ruins until there was English ivy growing on them. Nowadays, no matter what ails you, they X-ray your teeth which is a mistake to begin with, because I never yet saw an X-ray photograph that was flattering. And the next thing you know, you've a taste in your mouth like a druggist's dishrag; and your face looks like an old-fashioned buckskin purse, with the draw-string coming undone; and, on the inside, feels as empty as a haunted house.

Irvin S. Cobb.

Still, getting the upper plate from a mail order house has its compensations. Hot soup no longer makes blisters in the palate. Just a slight smell of burning rubber—that's all.

And a beautiful brilliant new set, shimmering from a tumbler of water alongside the reading lamp, certainly does brighten up the boudoir.

* * *

A True Maker of Melodies.

THEY gave a dinner here to the son of desperately poor immigrants, a modest, kindly little man who started life as a singing waiter in a bowery bar-room. The dinner celebrated his silver jubilee as a maker of melodies. It has been just 25 years since he set the toes of the nation to tingling with "Alexander's Ragtime Band."

I can think of an occasional popular composer, who might be defined as a person who has a good memory and hopes no one else has; just as now and then—but this is a trade secret—you strike a writer who is getting by not because he is such a good writer, but because he has been such a close reader.

But for Irving Berlin, it may be said that his lyrics are his own and his airs are his own and his ideas are his own. Maybe that's why his tuneful output is so good—it reflects the spirit of an authentic creator, a genuine minstrel bard.

* * *

The Great Republican Hope.

I NEVER thought the stocks that licked the desert and the Apaches would be slackers, but neither in Arizona nor in New Mexico can I find trace of an authentic Presidential boom for any home-grown statesman. On the other hand, the sheep crop is reported good.

Maybe it's just as well. Already there has been more than one favorite son boom that reminded me of a new trunk store on a side street—you know, the kind that always opens with a grand closing-out sale.

Republicans here speak highly of Governor Landon of Kansas. Still, you never can tell. If you can believe what the Sunday papers print when the editors can't think of anything else, tragedy always followed owning the Hope diamond or digging into King Tut's tomb. But being indorsed for office by W. R. Hearst is pretty fatal, too, seems to me.

* * *

A New Kind of Inflation.

WHEN one of the New Deal groups—the President's consumers' council—announced the other day that Americans have larger hips than formerly, I just said: "Well, I'm glad things are expanding. There were several years when nothing I owned showed a tendency to go up except my blood pressure, and if hips are spreading, it merely means wider detours for a fellow when dancing on a crowded floor."

But now another White House pet, the Works Progress administration, gives a real thrill by promising to expose spinach, proving there are plenty of vegetables just as good for the diet, that taste like something and not like spinach. Maybe they'll yet find a use for spinach—by applying it externally, say? Personally I'd rather wear it in my hair than try to eat it. So would you, reader, if you were only brave enough to come out with the truth.

* * *

England's New King.

IN THE matter of their ruling monarchs, the English are luckier than some. The crown is never tarnished nor the people ever shamed, for all their kings are gentlemen and all their queens are queens. That's why, I think, Britain will keep her royal line, while we keep our flag, which ought to be quite a long spell, in case any communistic person should ask you.

So, to the witty and engaging youngish gentleman, who picks up the mantle that slipped from the tired shoulders of a kindly and gracious elderly gentleman, we over here offer our best wishes. We know Your Majesty invariably will show good taste, and whilst you may not always do the right thing—that would be asking too much of any man—we're dead sure you'll always say it.

IRVIN S. COBB.

BELLEVIEW

Perlie Rice went to Cincinnati last Monday to see his sister who was in the city for a few days. He rturned home Tuesday.

Mrs. Robert Rice spent last week with her daughter Mrs. Bernard Sebree, who has been very ill.

The funeral of Mrs. Anna Dement was conducted in the Baptist church here Thursday afternoon at 2 p. m., by Rev. R. L. James, of Burlington. Undertaker Philip Taliaferro, of Erlanger had charge of arrangements.

Miss Dorothy Cason spent Thursday with her aunt Mrs. Richard Marshall.

Forest Brown made a business trip to Frankfort Friday.

Mrs. Spinney Smith and little grandson are both quite ill of lagrippe.

Mr. and Mrs. Ephriam Clore entertained Rev. Walker, Sunday.

Rev. Walker, of Erlanger preached two good sermons for us Sunday. He will supply the pulpit at the Baptist church during the absence of our pastor who is in Texas.

HEBRON

Mrs. Belle Quick and Mrs. Robert Aylor who were on the sick list last week, have improved.

Mary Lee, little daughter of Mr. and Mrs. Leo Jarmen, was taken to a Cincinnati hospital Friday, where she was left for treatment.

Ivan Conrad's family were quarantined Saturday for scarlet fever.

Hubert Conner and son Cecil attended a sale in Indiana last week where they purchased two young horses.

Mr. and Mrs. Wilford Tupman and son of Erlanger, were the Sunday guests of his parents, Mr. and Mrs. Vernon Tupman.

Dr. L. C. Hafer, of Ft. Mitchell, was calling on friends here Sunday afternoon. He and his wife and Mrs. Hafer's sister, Mrs. Bessie Harding, are leaving in a few days for Florida.

Miss Dorothy Rouse and Clifford Fogle, of Ludlow, were the guests of Mr. and Mrs. W. R. Garnett last Sunday.

Mr. and Mrs. Geo. Moore and family of Louisville, spent the week-end here with their parents.

Mr. and Mrs. Ed. Ernst had as their guests Sunday Mr. and Mrs. Raymond Ernst and children of Mt. Auburn.

Miss Marie Wernz, daughter of Mr. and Mrs. Harry Wernz, of near Ludlow, and Mr. Cecil Conner, son of Mr. and Mrs. Hubert Conner, were married Saturday afternoon at the home of Rev. Mills, of Covington. We wish this young couple a long, prosperous life together. Mr. and Mrs. Conner will make their home with his parents.

Mr. and Mrs. Hubert Conner entertained with a six o'clock turkey dinner Sunday evening in honor of their son Cecil and bride. Those who enjoyed the delightful affair were Mr. and Mrs. Cecil Conner, Mr. and Mrs. John Conner, Mr. and Mrs. Ralph Jones, Miss Dorothy Conner, Miss Nannie Lodge, James Conner, and Vaughn Hempfling, and the host and hostess.

U. K. PROFESSOR TO SERVE AS CHAIRMAN OF KENTUCKY TAX COMMISSION

A University of Kentucky faculty member, Dr. J. W. Martin, professor of economics and director of the Bureau of Business Research at the state university, has been appointed chairman of the State Tax Commission by Hon. A. B. Chandler, governor of Kentucky. He will be granted a leave from the University to serve the state.

Doctor Martin is an authority on taxation problems and was research director of the interstate commission on conflicting taxation in 1934 '35 issuing the report, "Conflicting Taxation," for the American Legislators' Association. He is the editor of the status division of "Tax Systems of the World," annual publication issued by the Commerce Clearing House, and is president of the Southern Economic Association.

Mr. and Mrs. Henry Siekman had as Sunday guests Mr. and Mrs. Fred Siekman and family; Mr. and Mrs. Lloyd Siekman and daughter, all of Hebron; and Mr. and Mrs. Howard Acra, of Ft. Mitchell.

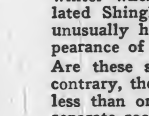
Mr. and Mrs. Wm. Aylor and Mr. and Mrs. Robt. Aylor spent Sunday with Mrs. Emma Stephens.

Mrs. Cad Berkshire has been spending several days with her daughter, Mrs. Less Ryle, of McVille.

Word was received here last week of the death of Mrs. Carrie McConnell, of Danville, Ky. She was formerly a resident of this county.



Mrs. R. T. Stephens has been ill this week.

NOTICE TO HOME MAKERS

Women of Burlington and near communities are you interested in learning new ideas and methods to make your house work more modern and pleasant? Miss Gillespie, Asst. Home Agent of Kenton County, will meet with all interested local women Tuesday Feb. 11, at 2 P. M., at the Court House. She will be assisted by an Agent from Kentucky University and will give us a definite demonstration of some phase of Home work at that time. Women, please, come and bring your neighbor and if it seems worth while, we will discuss a local organization.

Kathryn Brown.

Mr. R. T. Stephens, of near Burlington, was a caller here, Monday. Mr. Stephens seldom comes to the County Seat, but is always a welcome visitor.

Erlanger, Kentucky

Carey
CORK INSULATED SHINGLES

SEEN and HEARD around the NATIONAL CAPITAL

By Carter Field

Washington.—There is more desire on the part of President and Secretary of State Hull to co-operate with the League of Nations in the sanctions against Italy than has appeared on the surface. Both regret exceedingly that the neutrality law passed by congress did not go further. They wish that the word "munitions" had been used instead of "arms, ammunition and implements of war," which phrase is so narrow in its strict definition that it could not possibly be stretched to include oil, or copper, for example, without subjecting the administration to another upset in the courts.

But despite this lack of legal authority, the government has been bearing down hard on exporters and would-be exporters of war materials. One of the latest incidents is that the shipping board bureau of the Department of Commerce—survivor of the old shipping board—warned a certain concern about to ship a cargo of oil to Italy that the proposed shipment was "disapproved."

The excuse here was that the ship and cargo would have to run the gauntlet of the League sanctions, and the government had an investment. It so happened that the ship the would-be exporter desired to use had been subsidized.

As a matter of fact, the only risk involved is that in the time elapsing after the sailing and before the ship reached her Italian destination an actual blockade of Italy might be declared. For up to now there has been no more than a hint of actual blockade. No ships have been stopped by British or French warships in the Mediterranean. No threat has been made that any will be.

Nevertheless, insurance on ships traversing the sea that Mussolini claims the British now dominate, but that the Italians ought to, has jumped tremendously. For example, an American importing firm, which brings cargos of figs and dates from Persian gulf ports, has been seriously considering sending this freight overland to Atlantic ports, or else around the Cape of Good Hope.

Change World Cruises

Further, most world-cruise ships for the last month or more have been advertising visits to South Africa, and have been eliminating the Mediterranean entirely, although normally most world tourists want particularly to visit Italy and Greece and the Holy Land.

So that the government, in this raise of insurance rates, which is interpreted naturally enough as a danger signal, is perfectly within its right in seeking to restrain shipments. Yet everybody knows that this is not the real reason at all, but merely an excuse: For the government could be just as much protected in its investment—through subsidy—in ships making the journey through the "war zone" as it is from any other maritime danger.

Questioned about the situation, officials of the shipping bureau replied blandly that the bureau "must conform to administration policy." That is the real answer, although the interesting fact is that the policy has never been stated. It has merely been hinted.

The first hint came when the State department, with no hint of publicity, sought to restrain the Standard Oil from shipping oil to its Italian subsidiary. The company made the thing public by giving out its answer. Standard's real point is also concealed. It would be perfectly willing to stop shipping oil to Italy if it were protected by public action on the part of this government against its Italian subsidiary.

Keen observers here figure the government will do something to restrain copper shipments also, perhaps using the same tactics.

Copying Wilson

President Roosevelt is taking a leaf from the book of Woodrow Wilson in talking over the shoulders of the diplomats to the peoples of the world. The President and his advisers know perfectly well that there is going to be no curtailment of armaments at the disarmament conference to be held in London. It has been a long time since there was the slightest hope of it. Hence the administration's objective has been switched to the future, and from the world's rulers to the world's peoples.

While there is considerable pessimism about this accomplishing anything, no one is particularly disposed to criticize it publicly. Army and navy officers have some bitter words about it in private. They agree with the general feeling that no one now living will be here when the fruit is borne, if ever. But they add that this propaganda will also reach the taxpayers, and through them the congress of the United States.

Hence, they fear, the net result may be to make no change whatever in the armament spending of any other nation, but to tend very directly to slow down such spending by the United States.

In particular, they point out that the one nation which has given less heed to world opinion than any other, for some years, has been Japan. Naval officers, especially, have always believed, and still believe, that war between the United States and Japan is inevitable.

It is commonly known that the Japanese are oppressed by very heavy taxes to carry their armament load. But there is not the slightest indication that the Japanese people intend to rise in their might and demand that their government curtail its military expenditures. On the contrary, all indications are that the Japanese people approve Nippon's militaristic course, believe it to be essential to their future, and are fiercely willing to make any sacrifice for their country.

Military Rule in Japan

Even those most optimistic about America's contention that armament cost should not be increased by any nation concede this. What they hope for is a change of sentiment, perhaps a year from now, perhaps later, on.

The answer of the army and navy to this is that if the opinions of the Japanese did change, it would not make any difference. It has been demonstrated too often, they insist, that the Japanese people believe what they are told, and are absolutely under the thumb of the military oligarchy.

In this respect, in the American military view, they differ sharply from two of the most military powers in Europe—Germany and Italy. For the present there is no one to oppose the will of Hitler in Germany or Mussolini in Italy. But no one knows what will be the situation in either country ten years from now. Or even one year from now.

Italy and Germany are each dominated for the time being by one strong man. And no one can venture a prophecy as to what would happen after that strong man passes from the stage.

There is nothing comparable to that in Japan. In Nippon it is a group of high army and navy officers who dominate. The death of any ten of them makes no material difference in the general objective. The policy has been adhered to for many years. It is to dominate China, and make Japan a world power. Ever since the Russo-Japanese war it has been one forward step after another, with an occasional sidestep such as the abandonment of Shantung after the Washington armament conference.

The navy does not even feel that the freedom of the Philippines lessens the danger of war between the United States and Japan.

Canadian Treaty

Down underneath all the clamor against the Canadian reciprocity treaty, expert detectors of popular sentiment here believe the country will approve it. Further, they believe that if the treaty is approved in Ottawa—which incidentally seems by no means certain despite the majority by which MacKenzie King so recently came back into power—the net effect will be a Roosevelt asset at the polls.

Should Ottawa reject the treaty, on the other hand, feeling here is that the net effect will be injurious to the administration in the election next year.

This is based on a fundamental political factor—human nature. Many business men, economists and experts in international trade have figured that if the reciprocity treaty negotiated with Canada in the Taft administration had gone into effect, the net effect would have been beneficial. But no politician who was active at the time doubts that it was a serious handicap to Mr. Taft when he faced re-election.

Had the treaty gone into effect, it is reasoned, and had the opposition to Mr. Taft promised the country to abrogate the treaty, then every one who was directly benefiting under the treaty would have been driven to Taft's defense, to protect their selfish interests.

But there was no possibility, as it appeared when Taft was running for re-election, that the treaty could be revived. Hence there was no selfish element to be driven to Taft's aid, while all and sundry who thought they would have been hurt by the treaty were still resentful at what they thought Taft had tried to do to them, and were easily inflamed against him. This was especially effective in the Northwest.

Lumber Interests Howl

This time the loudest outcries are coming from the Pacific Northwest, where the lumber interests think they would be badly hurt by the treaty. Applying the 1912 chapter to the present situation, if the treaty is rejected the northwestern lumber interests will influence a heavy vote against Roosevelt next year for what he tried to do to them. It is not a question of big special interests affecting the electorate. No one ever accused former Senator Clarence C. Dill of Washington, representing the big interests. He worked for a high lumber tariff because it would benefit his state, and he figured the folks out there would appreciate it. So much has been said by Dill and others that a very considerable segment of the Washington voters are now convinced that Roosevelt simply is not the type to understand their problems.

On the other hand, if the treaty is ratified by Canada, although the feeling in Washington and Oregon on lumber, and perhaps in upstate New York and Wisconsin on that million and a half gallons of cream which may be brought in at reduced duties, will be no different, there will be offsets. For example, the orange growers of California, to say nothing of the producers of other fruits, will want to know if the opposing candidate proposes to abrogate the treaty—to take away the advantage they will be enjoying under it.

MARKET LIGHT

Lexington, Ky.—Sales last week on the Lexington burley tobacco market were sufficient to push the total volume of leaf disposed of here this season to 50,288,290 lbs., sold for $10,252,046.50, an average of $20.38.

Last week's sales totalles 4,034,344 pounds that brought $630,706.63, an average for the week of $15.63 a hundred, and while the average last week was the lowest for any like period this season, the quality of the leaf offered also was the poorest seen on this market since sales began last Dec. 2.

Prices last week ranged from $1 to $44 a hundred, but with relatively few baskets of a quality that would command top levels. Good tobacco continued to sell actively, with the level well in line with the season's averages.

All grades remained on a firm basis, with the offerings consisting chiefly of medium and tail-end tobaccos brought to the market by growers who previously had disposed of the best portion of their crops and are now either filling out allotments or disposing of excess production. Many of the individual consignments being sold now include only red leaf and tips.

Tobacco grown in states outside of Kentucky has been well represented in the auctions during the past week, especially Kansas and Missouri. Tennessee also was well represented in the sales, as were Ohio and Indiana. Almost all of the Central Kentucky tobacco has been marketed now, and of the Kentucky tobacco being sold at present, most of it is coming from the Ohio river section of north Lexington.

Season's sales throughout the burley belt by February 1 stood at slightly more than 225,000,000 lbs., and in all probability no more than 5 or 10 additional million pounds will be sold during the remainder of the season. Receipts have been light in Lexington for the past two weeks, and from now until the end of the season, around the middle of February, every one of the 24 warehouses on this market will have a sale every day.

HERE AND THERE

Mrs. Ira Kittle spent Saturday afternoon with Mrs. Russell Kittle and son.

Mr. Samuel Delph spent Saturday evening with the Gray-Delph family.

Samuel Shinkle visited his aunt, Mrs. Lewis Hodges and family, a few days last week.

Edward Delph spent Saturday afternoon with his parents.

Willard and Dempsey Hodges, Samuel Shinkle and Luther Gray spent Thursday evening with Ed. Kippler and family.

Mr. Mark Keaton spent a few days last week with Mr. and Mrs. Ed. Black.

Mr. Wm. Bowman spent Sunday with his daughter, Mrs. Wm. Gray and family.

Mr. and Mrs Wm. Bowman celebrated their golden wedding anniversary Jan. 26th. We wish them many more happy years together.

We are glad to welcome Mr. and Mrs. John Berkshire to our neighborhood. He has moved to the Kenney farm near Idlewild.

Several in this neighborhood are ill with colds.

Mr. Bruce Campbell made a business call on Samuel Delph Tuesday.

CARD OF THANKS

We wish to express our sincere thanks to our many friends, who, by their many acts of kindness helped us to bear our burdens during the illness of our bereavement, when God called to eternal rest our loved one, Mrs. Annie Dement, who departed this life Jan. 28th, 1936.

We also wish to express our thanks to the singers, Mr. Tallaferro and Dr. Love for their cooperation during this period.

The Family.

Dr. M. A. Yelton is the owner of a new 1936 Dodge.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00

Lights of New York
by L. L. STEVENSON

Meanderings and meditations: A push-cart gay with flowers bringing a bit of brightness to old Broadway . . . Florists, windows doing the same thing . . . and I can remember when football players' heads were as shaggy as those big chrysanthemums . . . The bare rocks of Central park . . . With youngsters imitating the goats that used to roam among them . . . Wonder what that shoestring peddler in the shadow of the Columbus monument is thinking about? . . . His mind evidently isn't on his business since he doesn't hail passersby . . . A closer view makes the reason apparent . . . The man is blind . . . Art students with their easels and paint boxes going into the Metropolitan museum . . . The big vacant Carnegie home . . . What a playground those large grounds would make for youngsters . . . and how Fifth avenue neighbors would howl . . . A young couple embracing on a bus top . . . Romance knows no seasons.

* * *

Another penthouse for rent . . . The demand has fallen off sharply . . . Once there was a scramble for them . . . Terrace apartments have the call now . . . Bare trees along Riverside drive . . . But just as many nursemaids out as usual . . . and just as many blinds leading police dogs . . . A gentleman in an Elbert Hubbard hat . . . and with a flowing tie . . . He's not an artist but a peanut peddler . . . Two sailors, their hands in their pants pockets . . . and looking mighty lonesome . . . Trash cans in front of Seventy-second street brownstones . . . Collectors have a choice of brass beds, tables and a broken sewing machine . . . A black cat perched on a window ledge, eyeing a canary singing in a cage across the street.

* * *

Strawberries in a restaurant window . . . Seems as if they grow all the year now . . . Giant frog legs from away down South . . . But not as big as those down at Guadalupe . . . Tom Mead, a former Michigan boy, who now tells a bunch of newsreel photographers where to go . . . To get good shots, of course . . . John Sloan, the artist, who, after 31 years, has deserted Greenwich Village . . . He now lives in the West Twenties . . . Despite all the nut stores here, it's a long time since I've seen hickory nuts . . . But even if I could find them, they wouldn't taste as they did fresh from the trees . . . and my mouth waters at memories of mother's hickory nut cake! . . . Thomas A. Hannaberry, who was awarded a gold medal by the American Society for the Prevention of Cruelty to Animals . . . Because he climbed to the roof of a Times Square church and rescued a pigeon.

* * *

The narrow streets of downtown Manhattan . . . Breeches-flapping Dutchmen used to wander here . . . Now the crowds are concerned mostly with finance . . . A withered chewing gum peddler . . . Whose wares look just as woe-begone . . . A pitchman selling spectacles . . . Not the colored kind, either, but the kind supposed to aid sight . . . Wish a customer would come up . . . I'd like to see how he fits him . . . No luck for either of us . . . Dino, the head waiter, who was a pilot in the Italian air corps during the World war . . . But who holds that not even Napoleon could get him to cross the sea to take part in the present war.

* * *

Arthur Hopkins, whose luck is bad . . . After two costly theatrical flops, he fell and injured his hip . . . C. W. Grenecker, the dean of all the Broadway theatrical press agents . . .

* * *

In one of the big Fifth avenue stores, I noticed what looked like a telephone booth glorified with buff, chromium and opal glass. Inquiry developed the fact that it is a chamber constructed so that the particular woman may sample various perfumes with no distractions. A push of a button is followed by a rush of fresh air and then comes a breath of perfume. Another push, another rush of air and another perfume. The thing works on the principle of a dial telephone and when the lady leaves, she carries with her no trace of the odors she has sampled.

* * *

The other evening, Manuel Bernard, pianist, was reading a newspaper as he rode up in the elevator in the apartment house in which he lives. The colored operator, noting his attention was fixed on war news, remarked, "Fightin' them Ethiopiums is bad stuff." And then, after a moment of reflection, he added the sage opinion, "Opium ain't nothin' to mess with."

"Misplaced Eyebrow" Mustache Is Banned

Columbus, Ohio.—"Misplaced eyebrow" mustaches must go in the state division of insurance, ruled Robert L. Bowen, chief of the division, following an epidemic of lip covering among state insurance examiners. Twenty-eight of the young examiners will have to shave before their next interviews with factory officials in Ohio, said Claude Beals, who directs the examiners.

MAY PROLONG LIFE WITH HEAVY WATER

Recent Discovery Bared by California Scientist.

Moraga, Calif.—Ponce de Leon, who wore himself out in a search for a fountain of eternal youth, may have had the right idea after all, according to Dr. Stephen J. Tomer, dean of the school of science at St. Mary's college.

A recent discovery of science, heavy water, Doctor Tomer believes, may hold the key to the elixir of youth and also to that other elusive object of science, a cure for cancer.

Deuterium oxide, which is the overweight name for heavy water, differs from the ordinary variety of the fluid in its greater density, caused by the extra weight of hydrogen. There are said to be ten different types of heavy water.

"All available evidence," says Doctor Tomer, "points to the fact that heavy water slows down the normal chemical life processes. I am inclined to believe that as our frontiers of knowledge in this respect are pushed back we will find that the accumulation of heavy water in the tissues may tend to prolong youth rather than to induce premature old age."

With regard to the possibilities of the newly discovered liquid in the treatment of cancer Doctor Tomer said:

"If cancer is nothing more than a wild and uncontrollable growth of cells, developing out of proportion to their normal cells, then I sincerely believe that heavy water in concentrated form may be just the thing to inhibit this growth."

Chief handicap to adequate research in heavy water is its high cost, Doctor Tomer revealed. It costs $20 to manufacture a single gram of 99 per cent pure heavy water.

Chorines, Co-Eds Make Best Wives, Savant Says

Cambridge, Mass.—A way to a man's heart is through his stomach. Or is it?

Dr. Henry Odbert, Harvard research fellow, as a result of his recent tests at the university psychological laboratories, believes that college girls and chorines are those best suited for marriage.

The perfect co-ordination, Doctor Odbert revealed, that is necessary in the successful chorus type is responsible for better taste, more originality and more emotional stability than in those whose muscles move slowly, he explained.

Girls of high academic standings, according to the experiments—the college honor student type—exceed in originality and emotional intensity the girls whose academic ratings are not up to standard.

Doctor Odbert also found in his experiments girls who rate high in muscular speed or intellectual capacity make the best dressers.

Reading of poetry aloud, making designs, manufacture, scribbles, composing business letters, arranging pictures according to their likes and dislikes were some of the tests given by Doctor Odbert.

A question he forgot to find out about was, "Can they cook?"

Berlin Cabaret Holding School to Teach English

Berlin.—A school for English has been opened in one of the best known cabarets in the West End of Berlin. Waiters, page boys and bar maids come to this cabaret in the afternoon. Across the front of the bar a blackboard has been put up and a teacher stands before it.

The pupils sit around little tables at which, a few hours later, guests sip wines. They repeat in chorus the English phrases: "Good evening, sir," "What would you like to drink?" "Here is your change, sir," 'Auf Wiedersehen—good-by.".

The staffs of 40 cabarets, bars and restaurants in Berlin are joining in the special English courses as part of the preparations for the Olympic games here next year.

Truck Driver Reverts to Candle for Lights

Wellesley, Mass.—Police stopped Frederick Taylor, truck driver, because his truck did not carry the minimum headlight candle power. Taylor said the electrical system went dead. He placed a candle in each lamp. The law requires a minimum of 21 candle power in each lamp.

Lost Dog Register

Chicago.—A dog registration bureau to facilitate the restoration of lost dogs to their owners has been set up here by the Illinois Anti-Vivisection society.

Federal Men Prove Skill to Skeptic

San Diego.—The San Diego exposition had an extra thrill for admirers of the Department of Justice. A booth was set up by the department, and anyone could have a full set of fingerprints made free of charge.

An interesting feature arose when the department received a letter with merely a set of fingerprints attached. The letter stated, "You're so good, let's see you write me and tell me who I am."

The same day a letter was in the mails correctly addressed to the person who had sent the letter.

WHEN THE MERCURY DROPS, FIREMEN SWEAT!

Strange as it may sound—the colder it gets, the hotter the firemen and insurance adjusters become! That heat, of course, is not caused by the weather; it is brought about by more work.

Statistics compiled by the National Board of Fire Underwriters reveal that severe winter weather causes an epidemic of fires. It is not difficult to see why this is so. In an effort to be comfortable, people force their furnaces to the limit and also use makeshift heating agencies. Under these conditions, it is natural for more fires to break out and this means more work for the fire departments and more losses for the insurance companies to adjust. Hence there is an etra amount of work for all who handle the reports and other matters incident to the claims.

If you don't want your house to become so hot that you have to park outside, you should exercise the utmost care in operating your heating plant—especially when the mercury drops to low temperatures. Far better to take more time for increasing the heat in the house, than to suffer a destructive fire from an overheated stove or chimney! "Forcing" a furnace is definitely dangerous.

A little time spent inspecting a heating plant is a good step, too. If, for any reason, you do not feel that absolute safety is assured, you will do well to call in a heating expert and follow his advice.

RECORDER 1 YEAR $1.50

Mark Cook, who has been employed as clerk in D. R. Blythe's store for several years, has been forced to quit on account of ill health and will farm the coming year. His many friends in Burlington are sorry to see him give up his work as clerk and hope that he will soon regain his health.

Jennings Craig, of Rabbit Hash, was a very pleasant caller at the Recorder office Wednesday.

The **STATE FARMER** *SECTION*

AGRICULTURAL FEATURE OF

THE BOONE COUNTY RECORDER

BURLINGTON, KY., THURSDAY, FEBRUARY 6, 1936

TRAPPING HAS BEEN GOOD this winter but prices low. Six years ago, these furs would have brought $600 —today, only about $200. (Photo by Acme)

JUST A LITTLE SNOW could not stop Eleanor Whitney, sensational tap dancer in "Millions in The Air" from celebrating the holidays. "Laughing at the Weather Man" is one of the tunes to which Eleanore danced in her first picture. (Paramount).

JUST A COUPLE OF KIDS on the sands at Miami Beach, Fla. Phyllis Jones, from frigid New York, enjoys Florida's tropical sunshine. (Acme)

Below:
GOOD PRICES FOR DRAFT HORSES have stimulated interest in 4-H Colt Clubs among farm boys throughout the nation. Pictured here is a group of colts owned by Washington County, Maryland 4-H boys.

Left:
WILD WEST DAYS LIVE AGAIN among the cow-hands on the Half Circle B Ranch in the mountain country of North Carolina. This ranch has introduced western ranch cattle production methods to the southeastern mountain country.

JUST A HORSE OF ANOTHER STRIPE, but a tough customer, as his convict's suit implies, this zebra is causing considerable trouble for his rider, Laffin Leslie, 18-year-old English midget. This photo was made near Berkshire, England. (Acme)

NOW SHE WANTS TO STOP GROWING. Having reached a haighth of 7 feet and the weight of 317 pounds, Carolina Rascon, of Chihuahua, Mexico, is in the United States to see if doctors can find why she is growing so fast. She is pictured here as an El Paso dressmaker fitted her for a gown. (Acme)

Such ramshackle farm buildings as this are being replaced with modern, comfortable, efficient structures.

Resettlement Program Restores 3200 Tennessee Farm Families

DURING 1935, a total of 3,200 families, or approximately 19,000 persons, traveled the comeback trail toward a better agricultural life, piloted by the Rural Resettlement Administration in Tennessee, largely through its agency, the Rural Rehabilitation Corporation.

This rehabilitation work was not one of relief. Its policy centered entirely in helping families with a farm background, to help themselves. It guided, rather than ordered, and this month the listing of 7,000 families eligible for rehabilitation, through the same supervisory process, is under way in the state.

L. H. Halton, acting director of the RRA in Tennessee, in relation to the rehabilitation program of the RRA, has reported that repayments on loans advanced by the Rural Rehabilitation Corporation, financing agency which through the year, although in process of liquidation, are near the $100,000 mark and will probably exceed $200,000 when all cash crops, such as tobacco, corn and cotton, are sold.

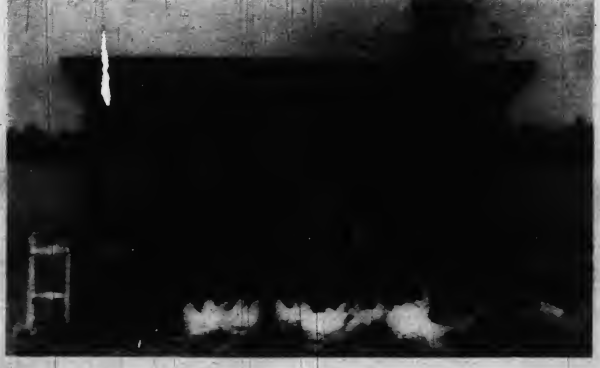
Clients Planted 44,250 Acres

Farmers financed by the RRA or RRC, in Middle Tennessee last year planted 44,250 acres, consisting of corn, cotton, tobacco, potatoes and truck, as well as other crops. In the state there were 82,000 acres planted, with corn amounting to half the total tilled acreage. The work was done by clients' own stock, or with the 3,000 mules and 1,500 horses advanced them by the rehabilitation agency, all this stock being secured by mortgage.

Last fall, working with RRA regional authorities at Raleigh, N. C., and field representatives from Washington, liquidation of the RRC, or Rural Rehabilitation Corporation, was begun, with reorganization of the RRA after Rex Tugwell was placed in charge. At present, the rehabilitation section of the RRA is gradually taking over the setup and now is seeking acreage for new clients, under the 7,000 quota given Tennessee.

Cultivated Under Lease

Land cultivation by RRA clients in 1935, was through the standard rehabilitation lease, very similar in nature to a tenant's agreement. The RRA—or RRC—supplied financing for necessary stock, as enumerated above and capital goods, such as feed, harness, seed, tools and hardware. Subsistence goods were also advanced. The average to a farm client was $350.



Recently 1,000 families were dropped from the rolls of those eligible for rehabilitation. These families, it was reported, had not proven ability to operate a farm, or otherwise justify further advances. The WPA accepted the list for its work payrolls.

New Plans for This Year

New plans, to be in operation this year, provide for about $400 a year advances on the average client-families, and a more balanced system of providing capital goods and subsistence throughout the year. While this work is going on, through county supervisors, field workers and district setups answering to state RRA headquarters, the woman's division is shaping its course for 1936.

In 1935, under charge of Miss Sue Taylor, the woman's division supervised home and community canning activities, oversaw the making of pickles and kraut, the drying of fruit and putting away other sorts of foodstuffs for the winter. Field representatives of the woman's division also looked after care of poultry flocks and worked with farmers' wives who wanted to plan the storing of food for the winter.

More poultry for home use is one of the aims of the Resettlement program in bettering the living conditions of farmers in the southern states.

Care of the Cream Separator

By J. O. BARKMAN
Acting Head, Dairy Department, Kentucky College of Agriculture

An average of 100 cream separators are tested every month in Kentucky by the men in charge of dairy improvement associations. About half of these tests show losses from faulty installation, or improper operation or care.

Attention must be given to certain fundamentals in connection with the installation, operation and care of a cream separator if quality cream is produced. Some people think that after they have invested in a separator, they need give no more attention to the subject of cream separation.

Life Depends On User

Most separators are of durable construction and are as substantial as possible in all their features, but the length of life and the cost of upkeep depends largely upon the user.

To begin with, the machine must be properly installed. It is necessary to provide a firm foundation upon which to fasten the base of the separator. Leveling the bowl is very important and should not be attempted except with the use of an accurate spirit level. Thin strips of cardboard or wood can be used under the base of the separator to attain the proper level and the base then securely fastened to the foundation screws. Remember that the proper level is of little importance if the floor is constructed so as to allow the machine to vibrate. A slight vibration may be responsible for poor skimming as it will soon cause uneven wear on the spindle and bearings.

Next, learn to operate the separator properly. In assembing the separator it should be borne in mind at all times that the bowl parts are made to fit perfectly and will go together without forcing. If the bowl nut seems to screw on exceptionally hard, do not force it, but examine the machine carefully to see that all parts are assembled as directed. It is important not to drop the bowl into position, as rough handling may injure the bowl, its support or spindle, causing it to swell and bind in the lower bushing. Rough, careless operation leads to unnecessary expense and repairs.

Start Slowly

In starting the separator it is necessary to turn the crank slowly, keeping the pressure equal and even. The practice of exerting undue pressure in order to start the bowl rapidly or extending undue pressure on any one point on the circumference of the handle causes excessive friction and wear on the separator. The separator should be started by gradual pressure, increasing until the bowl reaches its proper speed. This will usually require three minutes. Securing the proper speed before the milk is turned into the separator bowl and maintaining this speed to the end of the run will give the greatest efficiency in skimming.

At the end of the run after the separator has been flushed, allow the machine to run down itself. Do not attempt to stop it in any other way. Removing the spouts while the separator is in motion is very poor practice because of the danger of parts coming in contact with the rapidly moving bowl. Pressure on the separator bowl with the hands to slow down the speed is likewise a poor practice as it exerts an uneven pressure on the spindle and bushing and will cause uneven wear.

In learning to operate the separator the directions furnished by the maker should be followed exactly and fully. By so doing the lowest cost of operation will be assured.

Now let's consider the care of the separator. Keeping the separator clean and oiled at all times will add materially to its efficiency and greatly extend the period of its usefulness. In the daily use of the separator, all parts that come in contact with the milk should be cleaned thoroughly. Too much care cannot be exercised in this respect, not only for the sake of the machine, but also for the quality of the dairy products.

Metal Will Corrode

If the parts of the separator that come in contact with the milk are not cleaned after each run, bacteria will develop which will cause a corrosion of the metal. This will soon require a replacement of parts and an added expense. The practice of separating more than once without thoroughly cleaning the separator is the cause of great loss to the cream producer, and a sure way to produce a poor quality of cream. The fresh milk passing over the uncleaned separator parts are certain to start bacterial development that produces many off flavors in cream, which will result in lower quality butter and lower prices.

In conclusion may we suggest:

First, that the separator be installed on a firm foundation, leveled, and securely fastened to reduce vibration to a minimum.

Second, that you learn to operate your separator properly by carefully following the instructions for the particular machine you may have.

And finally that you care for your separator by keeping it clean. This will not only insure the greatest skimming efficiency but will materially aid you in your efforts to produce cream of the very best quality.

Seed Bed Location Aids Mold Control

Several Beds Better Than One, Overcrowding Avoided by Lighter Seeding

The proper location and management of tobacco plant beds is an important factor in the control of downy mildew, or blue mold.

Each year, says Luther Shaw, extension plant pathologist at the North Carolina State College, the beds should be located in a new place to prevent infection from disease organisms left in the soil by previous crops.

Numbers Provide Safety

Several small beds widely separated on the farm are better than one large bed, he added, as they give a better chance for some of the plants to escape blue mold infection.

Locate the beds in a warm, sunny place with a southern or southeastern exposure rather than a northern or northwestern exposure, Shaw advised.

Fertilize the soil in North Carolina with 200 pounds of an 8-4-3 mixture for each 100 square yards of plant bed. Do not place on the beds any tobacco trash or manure containing tobacco leaves, stalks, or roots, as they may infect the soil with mosaic, black root rot, or Granville wilt.

One Teaspoonful Enough

Do not seed the beds too heavily, as this will cause the plants to be overcrowded. One teaspoonful of cleaned seed is enough for 100 square yards of bed.

Crowded plants remain moist for a considerable time after dews and rains, Shaw explained, and thus make conditions favorable for the development of blue mold.

If blue mold appears on the plants, remove the cover of the plant bed during the day to admit sunlight and air as soon as the weather will permit. Light applications of quick-acting nitrogen will often hasten recovery from blue mold.

Pull only healthy plants for transplanting. Plants which have recovered from blue mold are safe, but those which are just beginning to show the disease should not be transplanted.

Dairy Industry Steadily Growing in Tennessee

By SAM CARSON
Asst. Editor University of Tennessee Extension Service

THE dairy industry in Tennessee came very near a gross income of $20,000,000 in 19395, estimates from various governmental agancies show.

This represents a gain, steady in ratio over the two preceding years. Part of that gain, of course, is due to increased values of milk products. But there was a gain in the number of dairy cattle also. As reported by the 1935 year book of agriculture, there were 513,000 cows with an average annual production of 2,930 pounds of milk.

The outlook for 1936 is good indeed. For one thing, the distribution of dairy cattle is fairly general in the three grand divisions of the state. Another is the fact that under the AAA, there was a spread of pasturage, such as lespedeza and alfalfa, so much that in 1935, the state had sufficient pasturage for its livestock. Previousy, it has been a hay purchasing state.

This cooperatively managed cheese plant is typical of a number in East Tennessee. Manufacture of cheese contributes materially to increasing demand for milk.

The steady growth of creameries, cheese plants, condensing and powdered milk plants, has increased demand. Herds are being improved. Work at the University experimental farms, and the state department of agriculture, cooperating with the agriculture extension service, is being reflected in the development of farm dairies.

At present, there are 42 creameries, 18 cheese factories, 3 milk condensing plants and 2 powdered milk pants operating in Tennessee. The creameries are located in Memphis to the extreme East Tennessee counties. It is estimated that 63,000 head of cattle, around 90 per cent Jerseys, supply milk to these creameries and plants alone.

While Tennessee, particularly in the Central Basin of Middle Tennessee, the East Tennessee valley, and a half dozen counties of West Tennessee, long had been known favorably for grazing possibilities, real dairy development did not come to the state until the years 1913 and 1914. The Agricultural Extension Service gave dairying its first impetus in the state. But the next big step came with the creation of the AAA, when pasturage was advanced as a logical use of idle acres, both for increasing the state's hay output, and in soil building.

In 1933, the estimated value of dairy products in Tennessee was placed at $18,000,000. In 1934, dairy products brought $19,303,000.

Tennessee has the oldest cooperative creamery in the south, begun at Winchester in 1910. It was three years later before the Rutherford county creamery was established.

A strong factor in early dairying history in Tennessee, was the state Jersey cattle association. In fact, early Jersey breeders of the state published the first butter test book in the country.

While there are herds of Guernseys and Holsteins, around 90 per cent of all registered cattle in the state are Jerseys.

With such herds as that of Henry Waters, of Middle Tennessee, of Fortland Farm, also in the same section, and scores of others, with foundation stock of long standing, with the steady growth of commercial plants, it is no small wonder that farm leaders are recognizing the opportunity afforded them for cash income through this source.

Whereas, a few years ago, even towns of from 1,000 to 2,000 population had difficulty in getting milk deliveries at all, today towns of this size have from one to four routes, supplied by farm dairies. Travel any main highway and you see familiar cans waiting for pickup trucks, out before farm gates, bound for creameries, or the various processing plants.

Lespedeza, in a way, has been quite a factor in this more even distribution of milk cattle stock recently. Distribution, let it be known, is still not satisfactory to dairy specialists. Right now a problem is beginning to be faced in the milk supply of urban centers. That is the need for removing herds to more distant locations from these urban centers. Distribution of milk itself, quite naturally, benefits by nearby herds. But insufficient pasturage tends to minimize the advantages of nearness to market. And so a movement is now begun to have farmers obtain pasturage lands farther removed from cities. With the rapid development of all weather roads, this movement is possible.

A line on the production record of Tennessee cattle, can be obtained from

This outstanding herd of purebred Jerseys was photographed on the farm of J. F. Erwin, White County, Tenn., farmer. Of unusual interest is the fact that Erwin began terracing his fields as early as 1919, restoring fertility to what was regarded as a wornout farm. Today, with both alfalfa and lespedeza, there is ample pasturage and hay for the dairy cattle on the farm.

state's entries at Waterloo last year, competing in the Dairy Cattle Congress against choice herds from the Middle West. Tennessee, with 10 entries, ranked second, with a rating of 93.01 per cent. The state was placed above Wisconsin.

Dr. V. L. Fuqua, of the state department of agriculture, reports that Tennessee cattle are freer than at any time in history from tuberculosis. He said that control of Bangs disease is progressing with marked results, and gave as his belief that the climate, increased pasturage and other factors were such that dairying can go no way but up in the future. "The farmer, with land turned back to such crops as lespedeza and alfalfa, is thinking about the cash revenue from milk."

O. E. Van Cleave, state commissioner of agriculture, was identified with Jersey cattle and dairying before taking his post. He has worked consistently to upbuild the industry.

It is significant that foundation animals of the Hood Farm herd, of Lowell, Mass. and the leading producing cows of the Waikiki Farms, Washington state, were imported from Tennessee.

Testing Associations Build Kentucky Herds

By GEO. M. HARRIS
(Kentucky College of Agriculture)

ALTHOUGH Kentucky does not rank as a leading dairy state, the dairy enterprise lends itself well to the farm management set-up on many Kentucky farms. The latest available statistics on milk production credit Kentucky with the production of 1,742 million pounds of milk annually. Approximately 51 per cent is consumed on the farms where it is produced while 29 per cent is sold as butterfat and 20 per cent as whole milk.

Geo. M. Harris

The average dairy cow in Kentucky produces annually approximately 3,220 pounds of milk and 138 pounds of butterfat, while the average production per cow in the United States as a whole is 4,030 pounds of milk and 158 pounds of butterfat. A total of 2,220 cows in 98 herds that finished a year's test in Kentucky dairy herd improvement associations in 1935 produced an average of 6,852 pounds of milk and 303 pounds of butterfat.

During 1935, forty-nine of the 98 herds completing a year's dairy herd improvement association test averaged 300 pounds of butterfat more. During the 1934-35 dairy herd improvement association testing year, 22.8 per cent of all cows tested were culled and sold for beef. This represents a larger percentage than for any year since the testing program started.

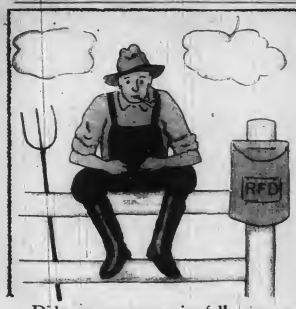
Of the entire group of 98 herds tested during the year, 94.9 per cent are using registered bulls. This represents a higher percentage than has previously been reached and is an indication that dairymen are gradually realizing the importance of using registered bulls of good breeding.

An analysis of dairy herd improvement association records for 1935 points out also that dairymen are learning the value of legume hay as a roughage for dairy cows. Alfalfa hay was fed to 50 per cent of the herds on test in 1934-35 and each of the 98 herds received either alfalfa hay or some other type of legume hay. In the entire group of herds on test 61.2 per cent were fed silage, 80.6 per cent were fed grain on pasture, while in 68.3 per cent of the herds, dry cows were fed grain, thus enabling them to build back their body reserves in preparation for their next lactation period.

In this connection attention is called to a demonstration of what can be accomplished in the way of herd improvement. Ed. Warren, a Jersey breeder in Graves county, joined the Purchase Association, completing the first year's record on his herd of fourteen cows in the fall of 1929. His herd at that time averaged 254 pounds of butterfat per cow. Not satisfied with this kind of a record he immediately went to work to improve his herd. He has kept his herd on test in the dairy herd improvement association continuously since 1929. In 1930 his herd of sixteen cows averaged 310 pounds of butterfat which was an increase of 56 pounds over his previous year's average. Mr. Warren continued to raise his herd average until by 1934, after six years of continuous testing, his herd of nineteen cows produced an average of 375 pounds of butterfat per cow. His herd recently competed a year's record in 1935 of 387 pounds of butterfat per cow. Thus, in a period of seven years, Mr. Warren has raised his herd's average production 133 pounds of butterfat per cow, an increase which alone is approximately equal to the total production of the average dairy cow in Kentucky.

It is interesting to note further that Mr. Warren's herd has never ceased to be a paying enterprise, even during the period of the depression. His cows have paid off at the rate of $47 a head above feed cost every year for the past seven years. In addition to netting such an income above feed cost, his dairy herd has furnished him an excellent market for his home-grown feed.

On December 1, 1935, there were in Kentucky seven dairy herd improvement associations in active operation with 158 herds and 2,987 cows on test while on December 1, 1934, there were but six associations operating with 91 herds and 2,198 cows on test. The dairy herd improvement association is an agency that directs the way to higher producing herds and the members of a dairy herd improvement association who takes advantage of all the factors that are now available in association work has his dairy enterprise on a sound basis.



Dairy herd improvement association members have in recent years taken an active interest in proving their herd sires by comparing the production records of the daughters of the sire with the records of the dams of the daughters.

Through the use of associa-

JEST A-WHITTLIN' AN' A-THINKIN'

BY PETE GETTYS

Did you ever see a city feller in your life who did not say, "Wish I had a farm where I could have my own cow and raise me a garden and some chickens"? That's sorter like many of our prayers—we're asking for things that if given to us we wouldn't know what to do with 'em. The ordinary city feller would starve, even if some one planted his garden and cured his meat. He'd pull half the garden truck at the wrong time, and couldn't cut a slice of bacon—and he'd die of lonesomeness the first long rainy spell.

—o—

It's sorter worrisome to see the loss from the way manure is handled. Barnyard manure spread on the fields during the winter is worth seventy cents a ton more than when left and spread later. Experiments over thirty years prove that winter spreading increases corn yield 3¼ bushels, wheat ¾ bushel and clover hay by 400 pounds per acre. Guess if only two farm machines could be selected, a manure spreader would come first choice, then a rake.

—o—

Did you ever notice that a pig, more than any other animal looks like many people you know? The moment you see a new pig you have a dozen names in your mind—and every one fits perfectly.

—o—

Intelligent feedin' is one of the biggest problems we have. Th Scotch have a saying, "Give a steer a gallon of meal and it is a gallon wasted. Give him two and he will pay for three." We always have to remember that it's only the feed above the amount required to keep an animal alive at normal weight that returns a profit.

—o—

And can't agriculture take losses and still be the happiest and best business in the world? Read one time that erosion in this country destroys soil equivalent to the total tillable area used for the growing of crops in the entire nation of Japan, and Japan feeds millions of mouths. And some fellow figured out that more than 6,000 known species of insects are costing farmers each year something like *two billion* dollars—and losses traceable to weeds amount to *three billions*—and add another billion and a half chargeable to plant diseases and you have 6 billion 500 million dollars. Don't know what the erosion bill is in dollars and cents—but we in the farming fraternity ought to feel that we are in a pretty rich business to lose all them billions every year and still have some meat in the smokehouse.

And what a business it is of farming—the papers say the farmers' gross income in 1935 was over 8 billion dollars, and net income 4 billion dollars—about 3 times the depression low-water mark.

The American Marsupial

by Dick Wood

Not everyone knows that the lowly opossum is the only American marsupial, which carries its young in a pouch, but it is a certainty that every country boy and farmer has at one time or another hunted this little fur bearer with dogs at night.

The opossum is the most typical Southern fur bearer, its name invariably associated with hound dogs, darkies and yams. It is omnivorous, nocturnal and exceptionally prolific, having as many as three litters of five to fifteen young a year. Naturalists recognize three varieties, named ,according to habitat, Virginia, Florida and Texas.

When I was a boy on a Tennessee farm, our best night hunting "varmint" dog was a mixture of shepherd and bloodhound. He had the trailing abilities of the hound, and would fight his weight in wildcats. Many moonlight hunts were enjoyed over the hills of Tennessee; and "Old Shep's" bark invariably meant game, for he was a silent trailer.

The opossum is father of the saying "playing 'possum," for when overtaken he will feign death, and, indeed, stand considerable mauling from a dog before "coming to life." I've seen cruel boys bring 'em to life *pronto* by sticking a lighted match to one's tail.

During my night hunting days, we recognized two varieties, the regular size weighing up to eight or ten pounds, which came out soon after dark, and a small, dark furred sort we called "midnight 'possums" because they were usually taken about that time. The opossum is especially fond of persimmons and wild grapes, and hunters usually look for them where these wild fruits abound.

A fat opossum, properly dressed and baked, flanked by sweet potatoes, is quite delicious. In normal seasons 'possum hides afford farm folk with spending money. The fur is prime during the months of November to February, inclusive.

BETWEEN THE ROWS

by Roy H. Park

Along about this time of the year the Tall Story Club elects a new champion.

I hope the judges haven't overlooked Walter Hughes, 71, a farmer of near Edenton, N. C., who recently told a group of newspapermen that while he was hauling logs a big rattlesnake struck at his mules but missed them and bit the tongue of his wagon.

"And," affirmed Mr. Hughes who has been a life-long leader in Sunday School work and who has never taken anything stronger than water, "the tongue began to swell up so fast that I had to grab an axe and cut it off to save the wagon."

Then there's the farmer up near Luray, Va., who, as John Harden tells it, had for years permitted his hogs to pass from one field to an adjoining one by removing several rails from the fence and then replacing them after the hogs had passed through.

After thirty years of this a neighbor asked why he didn't build a gate and save time.

"Shucks," he replied, "what's time to a hawg?"

For the benefit of our male readers—the female ones already know it—this is Leap Year. And this makes timely a story my bachelor friend Alex Newton told the other day.

Alex is doing highway location work in the eastern part of Tennessee. He stopped by a mountain home the other day to get a drink of water and as he turned the windlass he heard the 16-year-old mountain daughter sigh to her mother—

"Oh, mother, I actually heard his heart throbbing last night when he told me of his undying love—"

"Are you sure," interrupted the older woman as she kept right on with her washing, "that it wasn't his dollar watch? I got fooled thataway with your father."

Alex made it clear to me that the girl was not talking about him!

Mr. James M. Rae, of Medicine Hat, Canada, is what I would call a very smart man as well as a philosopher.

He wrote the other day asking for a sample copy of this publication. Along with the letter, he enclosed a full-sized sheet of white paper with these 15 words mimeographed in the center:

"I had no shoes and complained—until I met a man who had no feet."

And now I'm just dying to know if Mr. James M. Rae, of Medicine Hat, is a philosopher just for the joy of being one or whether his 15 words were placed on the paper just to get me interested in him—and perhaps later in something he is selling.

Tom Jimison, of Charlotte, who calls himself "The Bishop," told the other day of the eccentric woman in Cherokee County (N.C.) who left a portion of her estate to God. After the will had been put on record one of those interested in the proper division of the property consulted the late Ben Posey, famed mountain attorney, as to how to proceed.

Posey told him to file the usual sort of suit, making the Almighty a party thereto, and to have the sheriff return on the summons. "After due and diligent search God cannot be found in Cherokee County."

At least, such a will is on file in Cherokee County.

FRANK FARMER Says ---By A. B. Bryan

Ignorance is certainly not bliss in modern farming, and it's folly to be unwise as to better methods.

• • • •

My primary aim this year will be better farm products at lower cost to insure greater profits.

• • • •

My New Year resolutions included one about pure seed for bigger yields and better quality products in 1936.

• • • •

Mistakes on paper are cheaper than mistakes on land, so I am planning my work by careful study and calculations.

• • • •

A 4-H Club boy and his new ideals are not soon parted.

• • • •

It takes feed to make milk even from superior cows.

• • • •

My scrub livestock became infested with parasites, so I got rid of the scrub livestock.

• • • •

Permanent prosperity is within the reach of only the farmer who practices permanent farming.

• • • •

Numberless Southern farm families have learned that chickens will help keep the wolf from the door.

• • • •

Erosion control will make it true again that the best security on earth is THE earth itself.

• • • •

The manifold luxuries of my own vegetable garden makes me scorn the corner grocery store stuff.

• • • •

Every community needs reading farmers who will serve as leading farmers toward more progressive and more satisfying farming.

• • • •

The road from the one-crop farm to market is not likely to be hard-surfaced with profits from the farm.

• • • •

Now as never before a farmer with a definite organized program will be a farmer with a profit.

• • • •

Yes, my farm machinery is expensive, but it pays for itself and also leaves me time for more work and more leisure.

• • • •

There is mighty little satisfaction in a dairy cow that returns a dollar's worth of milk for a dollar's worth of feed.

• • • •

I wonder timidly what obligation has the Southern farmer to grow cotton for a world market at starvation prices.

• • • •

Keep thy forests and thy forests will keep thee, is the new watch-word of the far-seeing land owner.

• • • •

It is better to pay bills for fruit, vegetables, and milk than to pay doctors' bills. Better still to grow your own health-giving food.

• • • •

"Agriculture cannot thrive in a co-operative society as a philanthropic enterprise."—H. A. Wallace, Secretary of Agriculture.

Kentucky Agricultural College Men Honored

J. S. McHargue

J. M. Feltner

International honors again came to Kentucky when Dr. J. S. McHargue, head of research chemistry at the Agricultural Experiment Station at the University of Kentucky, received the first prize in the $5,000 awards sponsored by the American Society of Agronomy. Dr. McHargue's outstanding work in investigating the importance of iodine, manganese, copper, zinc, nickel and other minor chemical elements in the development of plants and animals won for him this high award and placed him among the outstanding scientists of his time.

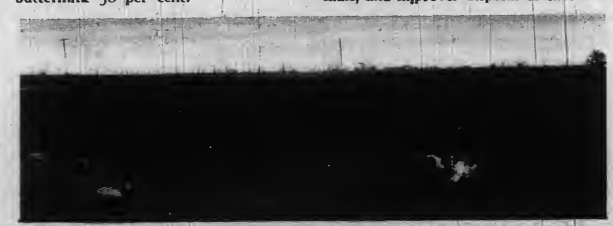
It long has been known that nitrogen, phosphorus; calcium, magnesium and potassium are necessary in the soil in sufficient quantities to promote proper plant growth, and that through plants and food these elements are passed along to animals and man. It also had been observed that the tissues of plants and animals contained small amounts of the minor chemical elements, including iodine, manganese, copper, zinc and others. Whether soils always supplied these minor elements had not been extensively investigated until the Kentucky Experiment Station's department of research chemistry under the direction of Dr. McHargue began its investigations. This work revealed that some soils are deficient in the minor elements just as they are in the major elements.

Second prize in the awards also went to a native of Kentucky, Dr. James E. McMurtrey, formerly of Burkesville, now a scientist in the United States Department of Agriculture. Both Dr. McHargue and Dr. McMurtrey are graduates of the College of Agriculture.

J. M. Feltner, London, Ky., is one of three persons in the central states honored for their outstanding contributions to agricultural education. Mr. Feltner is superivsor of 4-H Club work in eastern Kentucky, and has been assistant state leader of club work for the Kentucky College of Agriculture for 18 years. He really began extension work in agriculture in 1910, when he established a soil experiment field at London for Sue Bennett College, in cooperation with the Kentucky College of Agriculture. Four-H clubs in his region have an enrollment totaling more than 10,000 farm boys and girls from 10 to 18 years of age.

A certificate of achievement was awarded to Mr. Feltner by the Epsilon Sigma Phi, national honorary agricultural extension fraternity.

Corn Alone is not Sufficient for Sow



Care Before Farrowing Produces Strong, Sturdy Pigs and Profit

Strong sturdy pigs are more resistant to disease and the ones that yield their owner the largest profit, say swine specialists of the Agricultural Extension Service. The feed and care given the brood sow before farrowing largely determines the strength of her litter.

Quality of feed must be combined with variety in the sow's ration in order to insure the best litter. A sow does not have to be fat at farrowing time but she should be in a good strong condition, which condition can only be secured by careful feeding. Corn is the basis of practically all hog feeds but the "corn alone" ration is perhaps the cause of more small litters and weak pigs than any other feed. Corn should be fed in connection with pasture and additional feeds like milk, tankage, shorts, oats.

Some good rations for pregnant brood sows are as follows:

1. Corn 90 per cent, tankage 10 per cent.
2. Corn 50 per cent, chopped legume hay 50 per cent.
3. Corn 50 per cent, skim milk or buttermilk 50 per cent.

(At right and below)
Beef cattle in Kentucky pastures. There are more cattle in Kentucky than in years.

Hayden E. Phebus, of Obion county, Tenn., is shown here with one of his cross-bred baby beeves, at left, and its mother, a purebred Jersey, at right. The sire was a purebred Angus.

4H Boy Contributes to Progress of Tennessee Livestock Industry

FIVE years ago, Hayden E. Phebus, 17, of Obion county, borrowed money to buy a calf. That fall he won fifty dollars at the Obion county fair. He took the money and bought two more calves.

The next year he won $100. And at the beginning of the third year from the time he bought his first calf, young Phebus bought a half interest in 21 animals which he fed out with his father.

At the end of the year his individual profit was $420. In addition, his entries at the county fair placed third, fourth, fifth and sixth.

The fourth year he fed out three calves and realized $120. With that money he bought 14 calves, which he is still feeding.

For his efforts, young Phebus, in 1935, was awarded a $50 gold watch as state champion in the national 4-H club meat animal livestock project contest sponsored by the Thomas E. Wilson Packing Company, of Chicago.

In the case of this state winner, Hayden has been recognized in other ways. In 1935 he won a trip to the National Club Congress in Chicago, for doing the best all around cub work in his county. He has been president of his club and has done outstanding crop work.

Keep Livestock Free From Disease

IT is an important factor in successful farming to keep all livestock healthy. There are three simple rules to follow to accomplish this:

First, keep all farm buildings, yards and feeding utensils clean, and see that the animals are living under sanitary conditions.

Second, if an animal becomes sick, diagnose and treat the disease to the best of your ability.

Third, if the animal's condition does not improve, or grows worse consult a reliable veterinarian.

Certain conditions which are found on many farms from which diseases may be spread are:

Stagnant pools; filthy and poorly ventilated barns; filthy pens; running water through premises; straw stacks; swamps; poorly drained barn lots and feed lots; unrestricted movement of infected animals, and improver disposal of carcasses.

On the average farm there is too little consideration given to the control and eradication of live stock diseases, from the standpoint of sanitation, states Dr. M. Jacob, head of the animal husbandry department of the Tennessee State College of Agriculture. This may be accounted for by the fact that the farmer has not associated the presence of disease to the existing unsanitary or filthy conditions until forced to it by the rather sudden occurrence of losses among his stock.

State and Federal forces are working to control and eradicate infectious and contageous livestock diseases and while a great deal is already being accomplished the final results will largely depend on the cooperation of the individual farmer. It is up to the farmer to assume the responsibility which his choice of business has placed upon him and should, therefore, become familiar with those things which tend for healthy and disease-free livestock.

The diseases producing the greatest losses are caused by germs (infections) which cannot be seen with the naked eye, and their spread from animal to animal or from place to place may occur without our knowledge until an animal shows up sick.

Increased pasturage has been followed by increasing numbers of cattle in Tennessee.

Homemaker's Pages

Top of page: The well becomes a decoration. Picture taken on the farm of Mrs. Alice Dugger Grimes, near Wake Forest, N. C.

Top of page, right: "William Manor" country home of Simon Williams, Franklin County, N. C. Showing what can be accomplished with shrub, flowers, crepe myrtles, spirea, forsythia, Japan quince, cosmos, iris, roses, narcissus, jonquils, daffodils, and holly.

Right: A Tennessee home demonstration agent demonstrates training ornamental plantings. Picture made in Madison County.

Summer Thoughts *for February Days*

WITH Saint Valentine's Day upon us and Washington's Birthday hard by, it is time that we gave thought to next summer's flower garden and our yard beautification program.

To those lucky ones who have already established an outdoor living room, there is the joy of planning its further development. While the rest of us can give serious thought to the possibilities of creating in a private nook of our yard a beauty spot where the family can spend its leisure hours.

Indeed the outdoor living room has become an essential to the happy farm home. In planning such a room, privacy is the first essential. It should be screened by plants and trees and set off by shrubbery and flowers. Most of our colleges of agriculture have worked out specific plans for outdoor living rooms, that may be obtained by writing directly to the colleges.

Starting The Window Box

In planning our flower beds, it is generally agreed that it is most satisfactory to start both the annuals and perennials in window boxes. After the seed are planted in the box, a cloth laid directly on the soil and kept moist will keep the top soil from becoming too dry, will hasten germination and increase the number of seed that grow.

One reader of The State Farmer Section said that if she only had a few cents to spend on her flower garden, she would buy five small packets of seed—phlox, cosmos, zinnia, petunia and larkspur. All of these would re-seed themselves but the zinnia.

Use Gourds For Decoration

Recently the decorative value of the humble gourd has been recognized. Of the more than 200 varieties, most decorative are the pear, orange, nest-egg, bottle-neck, calabash or pipe, Turk's turban and dipper. Gourds require the same culture as cucumbers. They should be watered until they start to make a good vine.

Within the last year or two, several seed houses, in cooperation with manufacturers of mulch paper, have placed on the market "planned flower beds." These consist of a strip of mulch paper in which holes have been cut and several packages of seed. Each hole is numbered to correspond with a packet of seed. The paper is placed over the prepared bed, the seed are planted in accordance with instructions through the holes in the paper. The paper prevents the growth of weeds. It conserves moisture, too.

Rolls and Buns can be *Really DELICIOUS!*

Florence Imlay, of the Kentucky College of Agriculture, makes a number of suggestions for yeast bread variations to be made with soft wheat flour. First of all, there is the foundation plain roll dough, and the foundation sweet roll dough that are the basis for a number of interesting recipes.

The foundation plain roll dough is made in this way:

2 c. scalded milk	1 cake compressed yeast
2 T. sugar	¼ c. lukewarm water
2 T. fat	2 t. salt
8-10 c. soft wheat flour	

Scald the milk, add the sugar, salt and fat and allow to cool until lukewarm. Add yeast cake, dissolved in the ¼ c. of water and sufficient flour to make as soft a dough as can be handled. Knead lightly a few minutes to obtain a smooth surface. Place the dough in a well greased bowl, brush with melted fat and cover with a cloth. Set the bowl in a warm place and allow to rise until the dough has doubled in bulk. Shape the rolls and place on a greased pan. Set in a warm place and allow to rise until light and bake.

The foundation sweet roll dough is made as follows:

2 c. milk	yeast
2 T. sugar	¼ c. lukewarm water
2 T. fat	2 t. salt
2 eggs	8-10 c. soft wheat
1 cake compressed	flour

4-H Girls Learn Art of Sewing

Home sewing is no lost art in the homes of more than 500,000 farm girls enrolled in 4-H sewing projects. Each of the 500,000 is keenly interested in the climax of the year's sewing effort—the Annual Style Revue. First, there is the competition within the county. Then state winners are selected, and finally, at the National 4-H Congress national honors are awarded.

Pictured here are the 1935 winners in the national and class contest of the 4-H Club Style Revue. From left to right: Clarabeth Zehring, of Germantown, Ohio, 17-year-old "National Champion," wearing wool crepe dress and brown and tan plaid swagger coat. Irene Kracht, Aurelia, Iowa, winner in the "Wash-Dress" class; Carol V. Clark, Cohoes, N. Y., winner in the "Party-Dress" contest, and Mary Yeager, Terre Haute, Ind., the "Best Dress" champion, weaving a gold dotted brown silk crepe dress with gold flat crepe collar and bestee.—(Acme Photo).

Spring is Just Around the Corner!

and it's not too early to plan your Spring wardrobe

Patterns of these distinctive 1936 styles may be obtained from the Pattern Department of THE STATE FARMER, by sending 25 cents with the coupon below.

JACKET FROCK

Right:

Pattern H-3116. This sophisticated little affair is the number one entry in the 1936 fashion parade. Designed primarily for youthful figures and those who can wear smaller sizes, the style emphasis is in the snugly-fitted, cutaway jacket with two rows of silver buttons to accent the double-breasted jacket. Patterns available in sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 (32) requires 2⅞ yards of 54-inch fabric plus ⅜ yard of the 39-inch contrast for collar and cuffs.

BETWEEN-SEASON BLOUSE

Left:

Pattern H-3114. Elissa Landi, Paramount star, features the smart neck treatment of this clever blouse. The collar can be worn high or low. Sleeves have a deep pointed cuff. Patterns available in sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 requires 2⅝ yards of 35 or 39-inch fabric.

TWO-PIECE FROCK

Right:

Pattern 3047. The canny woman who looks ahead to spring needs will find this inexpensive and versatile frock a gratifying investment. It features a high neckline with self fabric tab tie, the front panel running the length of the blouse and the skirt — the pattern is easy to follow. Polka-dots are smarter than ever for the coming season. Patterns available in sizes 12, 14, 16 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 requires 4 yards of 35 or 39-inch fabric.

Scald the milk, add the sugar, salt and fat and allow to cool until lukewarm. Add yeast dissolved in lukewarm water and about one-half of flour. Beat the egg well and add to mixture. Add enough flour to make as soft a dough as can be handled. Place in a well greased bowl, cover and set in warm place until the dough has doubled in bulk. Shape rolls and place on a greased pan. Set in a warm place, allow to rise until light and bake.

Among the interesting recipes timely for this season are:

Hot Cross Buns

Add one cup of seedless raisins or one-half cup currants to the recipe for sweet foundation dough. When dough is light, shape buns about the size of a large egg. Brush with melted butter and place close together on a baking sheet or 2 inches apart if individual buns are desired. Set in a warm place and allow to rise until light. Cut a cross on the top of each bun with a sharp knife. Bake in a hot oven (375 to 400 degrees F.). Just before removing from the oven brush cross with powdered sugar icing.

EASY TO MAKE

Pattern H-3128. The simple lines of this youthful shirt-waist frock make it easy for your own hands to impart the hand-tailored look that fashion dictates this season. The model shows a light-weight wool jersey with inverted pleats at the center front and back which give extra fullness to the skirt. Long or short sleeves as you prefer. Patterns available in sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 requires 2½ yards of 54-inch fabric plus ⅛ yard of 39-inch contrast.

Patterns of dresses pictured above 25c. Please remit in coins or stamps. Give your name, address, pattern number and size. Mail order to Pattern Department State Farmer Section, Fletcher, N.C. The new 32 page Spring and Summer Pattern Book available at 15c each, or if bought in combination with pattern, 35c for pattern and book.

ORCHARD SPRAY

SPRAYING POTATOES

STOPPING LEAKS in the Orchard

By W. W. MAGILL
Kentucky College of Agriculture

IN practically every orchard there is some infestation of a meadow mice or pine mice. These mice are far different from the house or granary mouse in their feeding habits. They have the ability to kill an apple tree in less time than any pest common in the orchard today. They are far more destructive than San Jose scale and have doubtless killed more valuable trees during the past five years than any one other cause.

Unfortunately, many apple growers have the opinion that mice damage only young trees. And yet every year I find mature apple trees with a capacity of 40 bushels or more completely girdled just below the ground line. Often the lateral roots are completely barked a distance of several feet from the trunk.

I especially recall visiting a 15-acre apple orchard in Boone county, Kentucky, last February. This orchard had produced a few thousand bushels in 1934. Examination showed that it had been ruined by the ravages of meadow mice. Since then the whole orchard has been grubbed out and is now in other crops. I could recall similar injury in many Kentucky counties, where 20 to 100 trees have been killed by mice.

Snow Starts Them

Mice attacks on trees often start when there is a heavy snow-fall, such as occurred this winter. Once started, they continue to feed on the trees.

The mice have winter quarters in the soil, usually 4 to 8 inches below the surface of the ground. They emerge from their burrows during the day to feed on green weeds, grass and weed seeds. As snow covers up these sources, they begin to feed on the green bark of the trees. Heavy rainfall also will force the mice out of their burrows.

The control method is poison, but these mice are particular what they eat, and are not attracted to bait like the common house mice. The U. S. Biological Survey has developed a poisoned bait that does the trick. It consists of crushed oats, steam treated with strychnine and then coated with paraffin. It may be purchased from the U. S. Biological Survey, Lafayette, Ind., for 15 cents a pound in five-pounds lots. A pound is usually sufficient for an acre of trees. Commercial firms handling orchard supplies also sell a similar bait.

Mice Like Wax

A few spoonfuls of the bait in placed in the natural runways of the mice. To protect the bait from damage by rain, wrap it in waxed paper, like comes on bread. The mice like the wax, and will eat through the paper into the poisoned oats.

The average orchard owner does not become interested in the mouse problem until several of his most valuable trees are damaged, probably beyond repair. Each of these trees may be worth $50 or more each; yet a few cents, or a few dollars at the most, would save his trees from these pests.

Preferences Are Shown

I suggest that tree owners scrape the trash away from the trunks and examine them closely for mouse damage. Examine carefully Grimes Golden and Golden Delicious varieties, for mice seem to prefer them. However, they attack most other varieties almost as readily.

Clear away all weeds, straw, manure and other trash from the tree trunks, where it affords mice some protection from the cold and enables them to make their winter quarters handy to a feed supply.

Another costly leak is that of losing time when a spray should be applied. This means that now is the time to examine and repair all spray equipment, test all parts, replace gaskekts, corroded valves, pressure gauges, and the like, so the outfit will be completely ready to go the day the spray should be applied.

Good Seed Is Foundation *of* Potato Crop

By JOHN S. GARDNER
Kentucky College of Agriculture

POTATO land should be fertile, well laden with moisture-holding humus, and, further to enhance its water-retaining capacity, deep. A good gauge for proper potato land is that it should produce 50 bushels of corn to the acre. The seed-bed should be deeply prepared. It is a significant fact that growers who consistently produce yields of from 300 to 600 bushels of potatoes to the acre plow deeply; some of them 14 inches.

Fifty-bushel corn fertility is not adequate for potatoes, however, for potatoes make their growth while the soil is still too cool for soil fertility to become useful. Fertilizing with manure is not adequate, either, for manure is not balanced to the potato's needs, and besides, using manure may induce scab. The best way to fertilize potatoes is to use commercial fertilizer such as 5-10-5, under the seed, at the rate of a pound to 25 feet of furrow. To prevent seed burning, the fertilizer should be mixed into the soil.

Good seed should be used always, free of the diseases that cause poor yields. The only way to be sure is to use nothing but certified seed, for certified seed is assured healthy, by removing from the growing field all plants that are in any way suspected. This work is done under the supervision of reputable agencies, such as colleges of agriculture, state departments of agriculture, or state seed commissioners. Certified seed bags always bear tags on which appear the name of the certifying agency, as well as the specifications under which certifying is done. Purchasers will do well to carefully study the tags on the sacks of seed potatoes purported to be certified

All seed potatoes, whether certified or not, should be treated, to control the diseases black scurf and common scab, even though no signs of these troubles are visible. Seed pieces should be thick and blocky, and they should weigh between 1 and 1½ ounces. They should bear at least one eye; more do not matter.

Potatoes should be planted deeply; 5 inches is not too much. Planted deeply, level, shallow cultivation should be followed, and no hilling is needed, except possibly to close the cracks the bulging tubers may make. Thus, labor is reduced to a minimum. Besides, buried deeply, the roots find optimum moisture and temperature conditions, plain to appreciate when it is recalled that a potato is a cool crop.

Cotton Grows In Half of Tennessee Farming Areas

Cotton is grown in half the various farming areas of Tennessee, according to a soil study of the state, completed at the end of last year by statisticians of the University of Tennessee Extension Service.

From 1879 to 1935, cotton production in Tennessee never exceeded an acreage of 1,000,000 save in 1929, according to most available statistics. The average for the three score counties in which it is grown, has been in the neighborhood of 750,000. It was 722,562 in 1879. It dropped to an acreage of 623,137 in 1899, then to 807,700 acres in 1919, and the peak of 1,045,051 acres in 1929. Under the AAA control program, the figure was 758,589 in 1934, and was stationary in 1935.

Showing the value of fertilizer in cotton production. This grower holds in his right hand a plant from a fertilized plot, in his left hand a plant from the adjoining unfertilized plot.

Cotton production an acre, however, reached a peak in 1934 with an average yield of 262. This was 21 pounds an acre more than the average production in 1929, the peak acreage year.

It is unusual for any cotton state to have more than three soil types producing staple in a sizeable amount. The Mississippi delta area, of course, is the state's No. 1 cotton producing soil type. This area includes Lake, two-thirds of Dyer, a third of Lauderdale, and smaller segments of Tipton and Dyer counties.

The West Tennessee brown loam area takes in the largest cotton producing territory of this section. Fayette and Haywood counties are entirely within this area. Shelby is about four-fifths brown loam, Hardeman a half, Carroll the same proportion, with lesser amounts brown loam in Gibson and Madison.

Next largest soil type in which cotton is produced, is the West Tennessee silt and sandy loam area, which covers McNairy, half of Hardeman, seven-eights of Chester, about the same protions of Carroll, Hardin, Decatur and Benton counties.

Strangely enough, the Highland Rim, encircling the Central Basin of Middle Tennesse, produces cotton along its southern border. Part of Hardin, sections of Decatur and Perry, about half of Wayne, all of Lawrence and parts of Giles and Lincoln counties fall in this area. The Central Basin has several counties, such as Rutherford and Bedford, in which cotton is produced to some extent.

Cotton is produced in the Southeast Tennessee Valley, embracing almost all of Bradley county, all of McMinn, and portions of Monroe and Polk county. It will be seen, thus, that cotton actually is produced in every county along the state's southern border, but in small amounts of Hamilton and Marion counties. Along the northern border, Lake county, to the extreme west, is the largest producer of the area.

Agricultural Brevities

Farm Income

Agricultural gross income from farm production for 1935 is estimated at $8,110,000,000, the largest in any other year since 1930.

In 1934 it was $7,266,000,000, and in 1932 $5,337,000,000.

Cash income for 1935 production was about $6,900,000,000, a 10 per cent increase over 1934. The value of goods retained for home consumption is estimated at $1,200,000,000 or about 16 per cent more than in 1934.

There was a pronounced increase in income from both crops and livestock from 1934 to 1935.

In the southern states, the larger production of cotton and tobacco and the increased income for livestock offset the lower prices for tobacco and cotton and the total income shows an increase over 1934.

The Department of Agriculture reports that the increased income of farmers in 1935 has been accompanied by marked increases in purchases of commodities, both for the family and for production. The increase has been most noticeable in the case of clothing, house furnishings, farm machinery, automobiles and building materials. Retail sales by general stores in towns under 5,000 averaged 19 per cent above 1934.

* * *

Increases in rural purchasing power have contributed about 40 per cent of the industrial improvement, according to a statement made by the U. S. Department of Commerce.

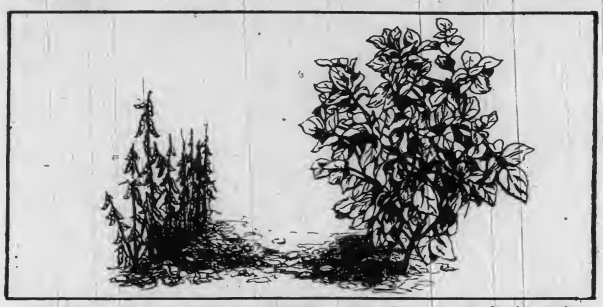
The figures of the department show that from 1929 to the first quarter of 1933, farm cash income dropped 61 per cent, and rural retail sales fell 57 per cent.

From the bottom of the depression to the present time, farm cash income has advanced 86 per cent and rural retail sales 93 per cent.

* * *

Livestock

Pig production which increased last fall will show further increase this spring according to the Bureau of Agricultural Economics. This increased production of pigs will be reflected in increased hog slaughter, which will wipe out the present deficit in pork by midsummer.



* * *

An increase of about 31 per cent in the fall pig crop of 1935 over that of 1934, a decrease of 5 per cent in the combined spring and fall crop of 1935 from that of 1934, and a prospective increase of 24 per cent in the number of sows to farrow in the spring of 1936 were shown in the Department of Agriculture report based upon returns from December and June pig surveys, made in cooperation with the Post Office Department through the rural mail carriers.

* * *

Crops

The United States Department of Agriculture warns that soybean farmers in southern states who shop for bargains when they buy Mammoth Yellow or Laredo seed for planting, may find that they have purchased instead early maturing yellow Macoupin or Norredo (formerly called Early Laredo or Early Indiana Laredo).

This illustration was made from pictures taken in late summer. It shows the appearance of early soybeans as compared with late southern varieties both grown in the south.

Neither variety is adapted in the south, although they are desirable in the north. It is almost impossible to distinguish the seed. Mammoth Yellow and Laredo are well adapted in the south, but either of the two when planted in the south mature too early. Because seed of these unadapted varieties usually sell for less and there is temptation to substitute the cheaper seed with loss to the grower.

* * *

Japanese Beetles

L. H. Worthley, in charge of Japanese Beetle quarantine enforcement for the U. S. Department of Agriculture, reports that Japanese beetles in large numbers during 1935 spread more solidly over certain areas in the eastern part of the United States.

The area now subject to plant quarantine regulations to keep this costly pest of gardens, orchards, and fields from overrunning new territory, lies in Connecticut, Delaware, Maine, New York, New Jersey, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia.

Mr. Worthley stated that his department had found light infestations in 34 places where the pest had never been found before; eight in North Carolina, 11 in Virginia, 4 in West Virginia, 9 in Ohio, 1 in Maryland, and 1 in Maine.

Beetle gains were recorded at Greenville, S. C., where the number of beetles trapped jumped from 89 compared with two caught last year.

Dr. C. H. Hadley, entomologist at the Japanese Beetle Laboratory, Moorestown, New Jersey, at a meeting of the Federated Shade Tree Commission expressed little hope that the Japanese beetle could be brought under control at any near future date. Dr. Hadley told of the new aluminum sulphate mixture which has been developed as a non-poisonous spray for early bearing fruit trees.

Foreign

On January 1, 1936, a new textile spinning law became effective in Germany. This law places all of the fibre spinning industry on a regulated quota basis. The government will fix basic mill consumption contingents for all factories using animal and vegetable fibres for spinning. This law is expected to result in a limited use of imported fibres.

In China the 1935 cotton crop is estimated at 2,161,000 bales of 478 pounds each. This compares with a final estimate of 3,125,000 bales in 1934.

This estimate indicates a crop much below consumption requirements of the past two years. In 1934-35 mills in China consumed 2,235,000 bales.

Stocks of cotton in Chinese mills are low, and with the 1935 crop estimated at 31 per cent less than the 1934 crop, China may be compelled to increase purchases of foreign cotton this year.

* * *

Rural Electrification

Under the Rural Electrification Administration in Virginia, charters are being granted to cooperative companies that are formed to purchase electric current in bulk at lower rates from power companies.

This will permit a widespread use of electricity by fruit and vegetable growers in all sections of the state.

Heretofore, it has been necessary for growers to erect their own lines and pay heavy charges for light and power in grading and packing sheds where much night work is done.

* * *

Farm Credit

Figures released by the Farm Credit Administration on 1935 operations indicate an optimistic outlook in farm real estate. Over 6,400 farms were sold by the Federal Land Banks to farmers and other investors in the first ten months of last year.

Farm real estate sales during ten months in 1935 amounted to $22,154,000 with a recovery of 101.2 per cent of the carrying value, according to the Farm Credit Administration.

A part of the new interest in farm purchases came from provisions of the Farm Credit Act of 1935 which authorized the Land Bank Commissioner to make first or second mortgage loans for farm purchases in amounts up to 75 per cent of the appraised normal value of the property to be purchased.

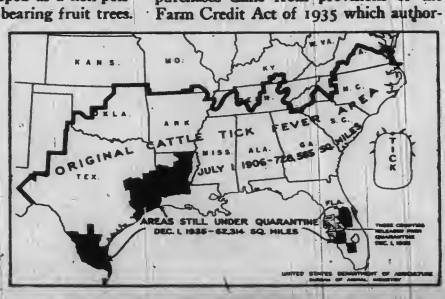
* * *

S. D. Sanders succeeded F. W. Peck as Cooperative Bank Commissioner, on the 1st of January.

Mr. Sanders has been president and general manager of the Washington Cooperative Egg and Poultry Association for 13 years, and has achieved a national reputation as a leader in the cooperative movement.

As Cooperative Bank Commissioner, he will direct the operations of the Central Bank for Cooperatives at Washington and the 12 district banks that cover the entire United States, including Puerto Rico.

Mr. Peck resigned to resume his duties as Director of Extension at the University of Minnesota, as his leave of absense terminated on December 31, 1935.



Organization

With the invention of the automobile, the National Grange commenced an agitation for Highway Safety and for the protection of the rights of all who use the highways. In 1928, in cooperation with the National Automobile Chamber of Commerce and the Highway Educational Board, a Highway Safety Contest was started for the purpose of interesting the Granges of the nation, and especially our younger members in the problems of Highway Safety. The first prize was a free trip to the annual session of the National Grange. A number of national prizes were also offered, and in addition, one silver and three bronze medals were given to the best essay writer in each state.

The results have been worth-while. Eight thousand Granges have considered the problem of Highway Safety in their regular Grange meetings. Hundreds of thousands of people have heard programs dealing with the subject; but more important, boys and girls have been brought face to face with the serious problem of safety on our highways.

The War on Cattle Ticks

Cattle fever tick area in the United States has been cut down in less than 30 years to only nine per cent of the area that was infested with the tick when the Department of Agriculture started to drive it out of the country. On July 1, 1906, nearly 730,000 square miles in 15 states were under Federal quarantine. On December 1, 1935, about 62,000 square miles remained under quarantine—all in Florida, Louisiana and Texas.

SAVE Your HAIR

Do you want, FREE, a trial box of KOSKOTT that is satisfying so many men and women? If so, you need only answer this ad by post card or letter. The reason for its popularity is that the ingredients are selected to awaken the natural resources in the scalp which normally restrain superfluous dandruff, save the hair from excessive loss, and scientifically delay depleted growth known as BALDNESS. If you need an auxiliary because YOUR HAIR is slowly being destroyed through faulty distribution of scalp sustenance, why not try KOSKOTT?

KOSKOTT COMPANY A-180 STATION F. NEW YORK

I WANT MEN for TEA AND COFFEE ROUTES

ROUTES PAY UP TO $42.50 A WEEK

Big, reliable, national company needs more men immediately to take charge of local Tea and Coffee Routes. No experience necessary, but you must be willing to put in a fair day's work for a fair day's profit. Routes pay up to $42.50 a week to start.

BRAND NEW FORD SEDANS GIVEN PRODUCERS as a bonus—besides regular earnings. We send everything you need. Expand your business on our capital. Send for free facts about a route in your locality. Rush name on postcard—do it now.

ALBERT MILLS
1816 Monmouth Ave. Cincinnati, Ohio

GIVEN AWAY

YOUR CHOICE: Rifle, Camera, Watches, Clocks, Football, Roller Skates, Dinner Sets, Musical Instruments, Electrical Appliances, and 20 other big prizes given for selling only 20 packs of our Beauty California Garden Seeds at 10c a large pack. SEND NO MONEY—We trust you—Write today for Seeds and Premium Catalog.

CALIFORNIA SEED PREMIUM CO., Dept. B-106 ANGELES, CALIF.

Gullies - *The Acre Thief* - How to Control Them

POINTING out that various methods are required in the control of the different types of gullies, officials of the Soil Conservation Service in the southern states have issued these recommendations:

For the small shallow type of gulley: This is a form of sheet erosion which can be controlled very simply. Work the ground thoroughly either by a plough or disk. Seed to lespedeza in the early spring and then mulch lightly with broom sedge, hay, leaf litter or some such material. Strips of sod may be used in shallow gullies.

Gullies from two to eight feet in depth: Build small brush check dams at intervals in the channels of such big gullies. This slows up the water and results in soil particles being lodged in the brush, tending to form a solid bank of soil behind each brush dam. In early spring seed the area to lespedeza and later on plant to trees. Plant yellow poplar or catalpa in the richer soil behind the brush dams, and black locust and short or loblolly pine on the sides and top.

The reason for seeding the area and planting it to trees is to get a ground cover established, since this will help hold the soil from washing away. The area is covered with a light mulch as in the other case. This tends to protect the seeding and seedlings from severe climatic changes which may be detrimental to them.

Gullies from ten to thirty feet in depth: Use treatment similar to the one above, although it may be advisable to use dynamite in some cases in sloping and it may be necessary to build log or rock dams in place of the brush dams. Vines such as kudzu and honeysuckle may be used on the steep vertical banks. Vines should not be used on areas with trees for eventually the vines will kill the trees.

Gullies thirty to forty feet: Such badly eroded land can never be returned to cultivation. The best thing to do is to get a permanent growth of timber on such land.

These gully banks near Spartanburg, S. C., look almost worthless—they represent the toll of soil erosion.

By sloping the banks and through use of proper terracing and strip-cropping, what was once a gully will soon be productive again.

Two decades of terracing work erased gullies on the farm of J. F. Erwin, White County, Tenn., and restored fertility that provides ample pasturage and hay for the Jersey herd kept on the farm—this is a typical alfalfa field.

The First Step in Gardening

By JOHN S. GARDNER
Kentucky College of Agriculture

NO matter with what care the garden plan and the garden budget have been worked out, disappointment and even catastrophe may result if careful choice is not exercised in making wise choice of varieties. The seed catalogs offer lists from which proper choice may be made, but in the wideness of the choice offered may lie danger, at least for the average gardener, for the description of each variety may be equally tempting.

Generally, it is best to stay with old-time sorts, but there are many novelties that are real improvements over old favorites, and these should not be overlooked. A safe rule, in this regard, is to use no novelty that has not appeared in the same seed catalog for at least three years, or that is not listed by three seedsmen in the same year.

In order to aid the gardener who finds himself in a quandry as just what to select, a list of vegetable varieties, tried and found reliable in Kentucky, follows:

Cabbage: Wakefield, Golden Acre, Succession, Drumhead.

Tomatoes: Earliana, Bonny Best, Greater Baltimore, Wins All, Ponderosa.

Bush Limas: Fordhook, Henderson, Sieva.

Pole Limas: Yopp's, King of the Garden.

Bush Beans: Stringless Valentine, Stringless Greenpod, Full Measure, Stringless Refugee.

Pole Beans: Kentucky Wonder (green and wax), Lazy Wife, Golden Cluster.

Salisfy: Sandwich Island.

Parsnips: Guernsey.

Salsify: Sandwich Island.

Beets: Crosby, Detroit Dark Red.

Carrots: Chantenay.

Swiss Chard: Lucullus.

Mustard: Giant Curled.

Spinach: Viroflay, King of Denmark, Long Standing.

Radishes: Scarlet Button, French Breakfast, Lady Finger, Rose Chinese.

Turnips: Strap-leaved, Purple Top Globe.

Late Greens: Siberian Kela, Seven Top.

Onions: "Yellow sets," American Prizetaker, Giant Silverskin slips.

As for the minor vegetables, there could be: Calabrian Green broccoli; Snowball cauliflower; Fordhook pimento, Chinese Bullnose (sweet) and Chili or Birdseye (hot) peppers; White Velvet okra; Green Curled Endive; Long Green cucumbers, for both slicing and pickling; Golden Crookneck and Straightneck and White Bush summer squash; and Missouri and Table Queen squash and Mammoth Cheese pumpkins for winter storing.

In garden where repeated failure is met in producing tomatoes because of the wilt disease, the tomato list should read thus. These are wilt-resistant. Marglobe. These are wilt-resistant. Likewise, in gardens in which the Yellows or Wilt has made it impossible any longer to grow cabbage, these special varieties should be used instead of those given above: Yellows' Resistant, Early Jersey Wakefield, Marion Market, Wisconsin Hollander (No. 8). Not all seedsmen carry these special varieties, but they can get them if they are reminded in time.

Some garden troubles are introduced through using diseased seed; wise gardeners will dip the seed they plant in a bichloride of mercury solution made of 7½-grain tablet in a pint of water, and washing and drying it, thereafter. Dipping times are: Tomatoes, 10 minutes; the cucumber family, 5 minutes; and the cabbage family, 20 minutes.

Easing Farm Credit Reflects Progress On Kentucky Farms

The year 1935 marked the third consecutive year of substantial progress for Kentucky farmers, Dr. H. R. Price, head of the department of markets and rural finance in the State College of Agriculture, is quoted in a recent interview.

The season was generally favorable for the production of crops and livestock. Markets for the major income-yielding products were more satisfactory than in other recent years. Farm income was better and farm purchasing power improved.

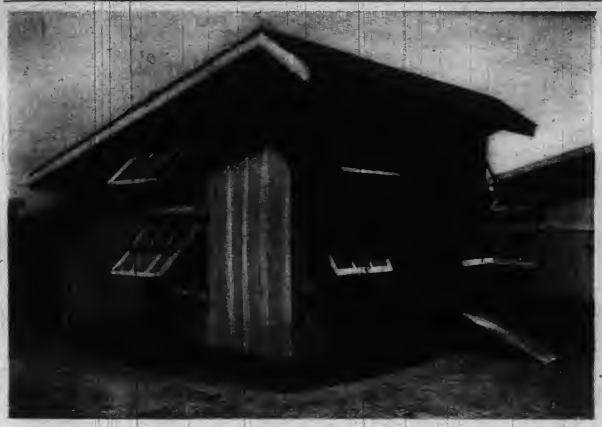
Dr. Price also mentioned other factors indicative of better days. Financial conditions are easier; increased income in 1935 enabled more farmers to pay off their current obligations and even make some reductions on old debts. More farmers will have money to finance their operations this year, to buy seed, work stock and machinery.

Credit Helps Farmers

"An ample supply of credit at increasingly favorable interest rates is helping farmers," he continued. "New low interest rates for both mortgage and production credit have been registered, thus reflecting both an abundant supply of investment and commercial credit and a renewal of confidence among leading institutions in the future of agriculture.

"Under the continued leadership of the Farm Credit Administration, emergency financing of pressing debts is now declining. Many loans for the purchase of farms are being made by both private and public loan agencies. Sales of repossessed farms by the Louisville and other federal land banks reached new high levels in 1935, and at considerably higher prices than in 1934.

Banks Provide More



"Country banks, merchants and federerally sponsored credit institutions have provided more credit, and on better terms. In Kentucky, the volume of loans granted by production credit associations was more than twice that of last year and country banks were conspicuous by their greater willingness to finance farm operations. At the same time real progress was made in the working relations between the various types of lending institutions and a better understanding of their proper fields of operations."

Testing Associations Build Kentucky Herds

(Continued from Page 3)

tion records a total of nine sires were proven in Kentucky dairy herds during 1935. Dam-and-daughter record information on a number of other sires is beginning to accumulate and a number of additional sires will be proved in 1936. Among the entire group of sires proved in Kentucky to date one sire stands out as a truly great transmitter of high levels of production and seems worthy of mention at this time. This bull is Waddington King 108744 sired by Veda's May King of Edgemore 52112 and out of Raider's Imperia of Waddington 70836 and is owned by and in service at Walnut Hall Farm, Donerail, Kentucky.

Waddington King has nine daughters whose records have been compared with those of their respective dams. All records of both dams and daughters were made on twice-a-day milking in 305 days or less and computed to a mature equivalent basis for comparative purposes. He was mated to cows that averaged 6,180 pounds of milk and 317 pounds of butterfat. His nine daughters from this group of cows averaged 8,863 pounds of milk and 475 pounds of butterfat.

One of twenty experimental poultry houses at Kentucky Agricultural Experiment Station, Lexington

Mere Roosting Place Is Not Enough For Hens

Extension Specialist Describes Home For Profitable Egg Production

Hens should have a house that is not merely a place to roost where they are safe from night marauders, but a real home where they may spend their days, as well as nights in comfort, says A. J. Chadwell, University of Tennessee Extension Poultryman. The house should be large enough to keep the hens shut in during bad or cold weather and still give them plenty of room for exercise. There should be plenty of straw, hay or some sort of litter on the floor, in which to bury the grain feed. Here is where our modern hen gets her exercise and we should furnish her plenty of material to scratch in.

The poultry house should be built and arranged to give those conditions under which the hens will thrive and work to the best advantage. There are a number of requisites the hens demand. They are dryness, light and air, cleanliness, roominess and freedom from drafts.

Need 4 Square Feet of Floor

In flocks of one hundred or more, the hens need 4 square feet of floor space per hen. For dryness, light air and freedom from drafts in this climate the house should face the south or southwest with about one-third of the front of the house open to let in the sun and air. If all other parts of the house are well built, all cracks well battened and other openings well closed there will be no draft to give the hens cold, croup and other diseases that are prevalent in a dark, damp, drafty house.

Such a house, well sprayed against mites, will save feed and will return its cost in increased egg production in a few years, and it is built for a lifetime if its position is carefully chosen.

Arrangement of the Interior

The arrangement of the roosts, feeding hoppers and water vessels will mean much to the busy poultryman and once placed correctly will save time and trouble. Since floor space is valuable, a platform should be built under the roosts to catch the night droppings. The roosts should be built on the level and if one wants clean eggs to send to market, fasten poultry netting below the roosts and down to the droppings board in front so the hens cannot walk in the droppings. The frame holding the roosts should be hinged at the back so they can be fastened up with the droppings board. Since one of the important rules for best egg production is feed, the house must contain a good sized self-feeder to hold the mash feed that should be always before your hens. This should be placed in the center of the house, so the hens can feed from either side and should be about 1½ to 2 feet above the floor. The nests should be placed in the ends of the house and may be several tiers high. There should be one nest for every six hens. The water vessels should be large enough so that there will be plenty of this very important element in egg production before them at all times.

Kentucky Takes Part In Poultry Program

Kentucky is playing a major part in the nation-wide poultry improvement program, according to Dr. J. Holmes Martin, head of the poultry department of the state experiment station.

Under the supervision of the College of Agriculture, official inspection will be provided and assistance given in the selection of breeding stock, disease testing and kindred subjects.

In general, the plan provides for the development of high producing flocks of disease-free poultry. Five stages of flock development are possible under the national plan: (1) U. S. approved flock; (2) U. S. verified flock; (3) U. S. certified flock; (4) U. S. record of performance flock; (5) U. S. record of merit flock.

Under the program it is expected to eliminate guesswork in building up flocks by providing sources of good stock, where persons interested in improving their flocks may know just what they are buying.

The Kentucky Poultry Improvement Association is giving full cooperation to the program in Kentucky. Cooperation on the part of the individual producer and hatchery operator is purely optional.

Dress Away 25 Per Cent

Well-finished young turkeys dress away approximately 25 per cent in weight, according to records kept of 38 birds of various breeds, raised at the Kentucky Agricultural Experiment Station and marketed last fall.

Grayson Increases Profits

Under the guidance of their county agent, the farmers of Grayson County, Kentucky, are increasing their poultry profits. This county now boasts of three National Record of Performance flocks, 14 U. S. Certified flocks, and 15 U. S. Approved flocks.

Many farmers in this county are receiving an extra price for hatching eggs. Hens have been entered in Florida and Georgia laying contests where 26 made records of 200 or more eggs each in a year; two laid 284 eggs each.

CLASSIFIED DEPARTMENT

If you have anything to sell or trade, you will find a small classified advertisement in these columns will bring you gratifying response. A postal card addressed to THE STATE FARMER, FLETCHER, N. C., will bring you complete details as to cost, circulation, etc. Why not plan today to utilize this service?

BABY CHICKS

CHICKS on 30 Days Trial

guarantee. Money refunded on any chicks not true to breed. No need to take chance. You get 30 days to make sure chicks are as represented. Make as many chicks furnished. Low prices. All varieties. Mo. Accredited. Blood Tested. Egg Farms. Also baby ducklings, guinea keets. Chicks Shipped Prepaid. FREEPORT STATE HATCHERY, Box 206, BUTLER, MO.

BUY OUR MASTER BRED CHICKS. They cost you no more. Every chick is backed by livability guarantee. Purebred sturdy stock. Selected, Bred, mated 30 years by one of America's oldest established firms. Assures more and larger eggs, bigger broilers, more profits. Bloodtested. Master Bred Single Comb Reds, Barred, Buff, White Rocks, Buff Orpingtons, White Wyandottes 50—$4.75, 100—$8.45, 500—$41.75, 1000—$82.50; Minorcas $8.95; Large type White Leghorns, Brown, Buff Leghorns 50—$4.50, 100—$7.95, 500—$39.25, 1000—$77.50; (Minorcas and Leghorns are $6.95 for February) Giants, Brahamas, New Hampshires $9.45; Heavy Assorted $6.00; Prepaid. Can ship C. O. D. Guarantee 100% live arrival and replace any you lose first two weeks half price. Order direct from this ad. CLOVER VALLEY POULTRY FARM, Box 85, Ramsey, Ind.

LING'S CHICKS—T. B. TESTED, yet cost you less than many without this health protection. Also B. W. D. Tested. Illinois Approved. Winners in national chick and egg laying contests. Low early order prices. Sexed Chicks, if desired. All leading Breeds. Catalog Free. LING'S POULTRY FARM, RFD 42, Oneida, Illinois.

LONG ILLNESS

PROVES FATAL TO GRANT MAN—"PEPPER" SMITH WAS ONE OF THE COUNTY'S MOST HIGHLY ESTEEMED CITIZENS

BY H. R. H.

Belleview community was stricken with sorrow last Saturday morning by the passing of one of its best loved citizens, John C. Smith. He was born near here, March 21, 1864, being almost 73 years old at the time of his death.

He was united in marriage to Elizabeth Berkshire January 16th, 1887 and had he lived another year they would have reached their 50th wedding anniversary.

"Pepper" as he was called by his friends had spent his entire life in this community and was loved by every man, woman and child who knew him, because of his loving, generous nature. His health began to fail in the summer of '34 and in August of that year he underwent an operation at Christ Hospital. He recuperated to some extent and was able to get about town and mingle with his friends again. But last November he became worse and it was necessary for him to remain in bed most of the time until his death. During his illness the many friends who called were a true testimony of the esteem in which he was held. His bright smile and hearty handshake, together with his manifestation of patience and resignation were an inspiration to all who visited him.

He united with the Belleview Baptist Church in November, 1910, during a revival held by Rev. Occar Huey and was baptized by his pastor Rev. H. B. Hensley. He had the characteristics of a true Christian gentleman, and was held in high esteem by his brothers in Christ. He was also a valued member of Alline I. O. O. F. lodge and Evergreen Rebecca lodge at this place. He was an outstanding character in theactivities of the community, taking a keen interest in the welfare of his fellowmen.

But very few facts about his early life are known to this writer. Most of the few that are knwon are remembered from conversations heard around gathering spots of Belleview, where friends meet to exchange words of close fellowship, and circles where "Pepper's" presence was usually found in his later years.

His favorite sports and hobbies were: first, base ball which he entered into as a player at an early age and as long as he remained active as a player, sportsmanship was his main admiration for the game. When he reached the age that an active part as a player must cease he became even more active as a follower and promoter of true sportsmanship. To this favorite sport he remained a follower even through the last base ball season. Next among his most loved sports and hobbies were hunting and fishing. And of these fox-hunting ranked first with him. Swimming must also have been one of his favorite sports because he has often gone to the river for a swim with the boys of this community who are still in the process of growing up.

While yet in his teens "Pepper" began what later to become his life work. At this age he began working in tobacco and a few years later started buying tobacco from the local growers for resale. He soon was recognized as one of the leading tobacco buyers of northern Kentucky and was looked upon far and wide as an authority in judging and dealing in tobacco. In this business which he was in until only a few years ago, he applied a motive which won him the admiration of all who dealt with him. That application was in making his business a means of livlihood and not a means of collecting wealth as so many engaged in the same business have done.

His funeral was held Tuesday afternoon, at the church of which he was a faithful member, in the presence of a large crowd of sorrowing relatives and friends. In the absence of his pastor Rev. Raymond Smith, the service was conducted by Rev. D. B. Estep, of Latonia, assisted by Rev. O. M. Huey of Louisville.

He leaves to mourn his departure, his wife, who so faithfully cared for him until the end, his two sisters, Mrs. Sophia Clore, and Miss Julia Smith; two nieces, Mrs. Alline Brady, and Miss Julia Buchner and one nephew, Geo. Buchner, also one great niece, Mary Jane Brady, besides other relatives and a vast number of friends.

4-H LEADERS CONFERENCE

Boone County 4-H Club Leaders will hold an all day training conference at Burlington on next Friday week, February 21st. Adult leaders from each club in the county will be invited to the conference.

Mr. E. E. Fish and Miss Anita Burnam, Club Specialists from the College of Agriculture, will meet with the leaders and discuss ways and means of making the junior agricultural and home economics improvement programs in their communities more effective.

FOX'S SHOP OPENS NEW MILLINERY DEJARTMENT

Fox's Dress Shop, 426 Madison Ave., Covington, anounces in this issue of The Recorder the opening of a new millinery department.

An introductory sale of spring millinery is being held, offering regular $1.00 and $1.50 values at only 45c. This includes all new spring colors and all head sizes.

BOARD OF TAX SUPERVISORS

NOW IN SESSIOON EQUALIZING ASSESSMENTS MADE BY TAX COMMISSIONER.

The board of Tax Supervisors, Hugh Stephens, Hubert Coner and L. D. Renaker are now in session, equalizing the assessment made as of July 1st, 1935, by Wilton Stephens, Tax Commissioner.

Mr. Stephens recently received the following letter from the state tax commission:

Mr. Wilton Stephens,
County Tax Commissioner,
Burlington, Ky.
Dear Mr. Stephens:

Having examined the original recaps from your county, the Tax Commission is making the following suggestions:

We suggest that an increased valuation of land properties be increased $100,000; town lots should be increased $25,000; tangible personal property should be increased $100,000. We are requesting and expect an equalization which will increase total valuations by $225,000 as indicated by the above items.

Yours very truly,
James M. Martin, Chairman.

P. S.—Please present to the Board of Supervisors.

The board will be in session the remainder ofthisweekasBoard 44s remainder of this week as probably several days next week, therefore, any person having complaints to make may appear at any time.

FINAL CALL ANSWERED

BY MRS. GEORGIA MARKSBERRY—YOUNG MOTHER LEAVES TWO SONS AND TWO DAUGHTERS.

Ms. Georgia Marksberry, aged 37 wife of Luther Marksberry and daughter of Mr. and Mrs. R. T. Ward, passed away Wednesday morning at the home of her parents, on Mt. Zion Road, following an illness from acute neyocarditis.

She leaves her husband, two sons, two daughter, father and mother, one sister, six brothers, and a number of relatives and friends to mourn her passing. Funeral services were conducted from Richwood church on Friday at 2:30 p. m., by Rev. Johnson, of Covington, assisted by Rev. D. E. Bedinger, of Walton. Burial followed in the Richwood cemetery. Chambers and Grubbs were in charge of the arrangements.

MRS. KATHERINE BINDER

Mrs. Katherine Binder, age 69, passed on Wednesday morning at 1:00 a. m., following an illness from ulcers of the stomach. She leaves 3 children, 14 grandchildren and a host of reatives and friends to mourn her going.

Funeral service was conducted from her late home at Hamilton on Friday morning by Rev. Raybom, pastor of Hughes Chapel, in the presence of her relatives and many friends, after which her remains were conveyed to Highland cemetery and laid to rest along side of her husband who preceded her to the grave six years ago.

Chamber and Grubbs were in charge of the funeral arrangements.

CATS SUFFER TWO DEFEATS

DURING PAST WEEK — PINER AND LLOYD TEAMS TOO MUCH FOR LOCAL HOOPSTERS

Burlington Tom cat basket ball team, one of the most unsuccessful that have ever donned the Blue and White for the local school inasmuch as victory is concerned, added two more games to their list of defeats during the past week. This team, however, deserves much consideration as only one player had seen regular service prior to this season. The other men, several of which had not played in a regulation game until this season, have fast developed into clever floor men and their eye for the basket has shown determined effort.

A vast improvement in their type of play has been the outcome from week to week and it is probable that they will enter the tournament with a team that will well represent the Blue and White colors.

The first defeat of the week was at the hands of Piner, Friday night, when the Cats were totally outclassed by a taller and more experienced team. The final count was 39 to 16. At the half way mark Piner was leading 21 to 5. Dickerson, one of the classiest players in northern Kentucky, led the Piner attack with 19 points, with Hempfling ringing up 12. Sebree led for Burlington with 12.

The Piner reserves fell prey to the Burlington seconds by a count of 35-23.

On Tuesday night of this week the Cats fell before the fast stepping Lloyd team of Erlanger by the count of 42-27. Lloyd piled up a 13-5 lead by the end of the first quarter and at the half was out in front 27-15. H. Johnson was the best offensively for the winners with 14 points and again "Duck" Sebree the spark plug of the Burlington offense led with 8 field goals and one free shot for a total of 19 points.

HEAVY SALE OF TICKETS

FOR DANCE REPORTED BY THE YOUNG MEN'S DEMOCRATIC CLUB—SAMMY DUVALL'S ORCHESTRA TO FURNISH MUSIC

In a meeting at Florence Catholic Church Auditorium Monday night, attended by approximately sixty members, the Young Men's Democratic Club made final arrangements for their Washington-eve dance, which will be given Friday night, Feb. 21st, at Zimmer's Club House, Ft. Mitchell, with Sammy DuVall and his orchestra furnishing the music.

Reports Tuesday indicated that more than 160 subscriptions to the dance had been sold and that the number is expected to far exceed 200.

A really entertaining occasion is expected by the many who have made arrangements to attend. An eight-act floor show will be an added attraction.

Tickets may be obtained from members of the Club for one dollar.

EXPLOSION

Early Wednesday afternoon an oil stove in the cafeteria of the local school exploded and for a time it was thought that the blaze would reach inflamable objects, but with the assistance of a number of townspeople the blazes were soon extinguished.

HARVEY A. BABB TO BE INAUGURATED

The formal inauguration of Harvey. A. Babb as president of Morehead State Teachers College will be held on May 5, according to an announcement from the president's office. Leading educators of Kentucky and bordering states will be on hand for the ceremonies. Definite arrangements have not been completed.

FINAL SEAL REPORT

The final report on sales of Xmas seals by Boone County School children for the past campaign amounted to $258.58, according to D. H. Norris, County School Supt. The Beaver Lick school (colored), the last to report on their sales, sold $2.33, an average of .06 per pupil.

This shattereed all former records and is an accomplishment of which every pupil and teacher should be proud.

SEARS FIRST BIRTHDAY

IN THIS COMMUNITY TO BE CELEBRATED THIS WEEK—NATIONAL CELEBRATION IS UNDER WAY THROUGHOUT NATION DURING ENTIRE YEAR.

Announcement was made last evening that Sears, Roebuck & Company, Covington are planning to celebrate their first personal birthday in this community, Friday and Saturday of this week. Mr. John G. Sugar, store manager, and his entire personnel are prepared with special values for this birthday celebration.

Sears, Roebuck & Company is celebrating its 50 years in business throughout the United States during the entire year of 1936. Merchandise designed and perfected in our own laboratories is being offered for the first time during the Sears Golden Jubilee.

Along with their National Golden Jubiee pricesl Sears, Roebuck & Company, Covington will offer addtiional buys in conjunction with their local birthday.

Sincere and appreciated heartfelt thanks are extended to each and every person in Northern Kentucky from the entire personnel of Sear, Roebuck & Company, Covington.

Herbert Kirkpatrick, of Idlewild, was a business visitor to the Hub Thursday morning.

AGED WOMAN PASSES AWAY

AT COUNTY INFIRMARY FOLLOWING ILLNESS OF PNEUMONIA.

Rebecca Hudson, age 75, died in the County Infirmary Thursday morning, Feb. 5th, after an illness from pneumonia. Her remains were removed to the home of Mrs. J. J. Hudson, Walton, Ky., and her funeral was conducted there on Saturday morning at 10:30 by Rev. D. E. Bedinger in the presence of her relatives and close friends, after which hr remains were laid to rest in the family cemetery along side her sister, Martha, who preceded her just two weeks ago.

Chambers and Grubbs were in charge of the funeral arrangements.

The Consolidated Telephone directory which is being printed at this office, will be completed in the next few days.

ROLAND FAMILY REGRETS VOTES CAST FOR "AL AND RUBY"

I am submitting to you something which I think would be worth your while. It is so unusual I thought perhaps it would be interesting, not only to you but to your readers.

This is a Kentucky family of Rolands, consisting of eight brothers, ranging in age from 56 to 78 years, making a total of 551, an average of 68 years per man. Each one of the brothers average 6 feet in height.

Not a one of the eight brothers was ever known to scratch or bolt the Democratic ticket and the only regret they have to express and the two greatest mistakes they have ever made in the History of the Roland family—first, they voted for Alfred Smith for President of the United States in 1928—second, they voted for Ruby Laffoon for Goverhor of the State of Kentucky. They hope to live long enough that God will pardon them for committing—as they term it—the unpardonable sin, and this entire Kentucky family are hoping to live to see President Roosevelt inaugurated for President of the United States.

Yours very truly,
R. T. ROLAND

FARMERS TO HAVE NATIONAL PLANS OF OWN MAKING

LOCAL FARMERS START WORK ON VAST PROGRAM. EVERY COMMUNITY TAKING PART IN EXTENSION PROGRAM FOR 1936.

Farmers representing every community in the County met Thursday at Burlington to begin work on the National Agricultural Planning Program and to discuss and complete the Boone County Extension Program for 1936.

R. E. Proctor, of the Farm Management Department at Lexington, and H. F. Link, District Agent, explained the work before the meeting as being a part of a country-wide plan by which the Department of Agriculture at Washington hopes to furnish the farmer a sound foundation for planning his operations choosing the crops best suited to his section, determining how much he can profitably grow, and at the same time maintain the fertility of his land.

It is intended that this planning program shall start at the farmer's own door, building it up from each community, by county and state into a national plan. This is not actually a part of the new adjustment program on which the farm leaders are now working at Washington, but it will be in line with the Soil Conservation and land use features expected to be important in any new adjustment act.

Farmers attending the meeting included B. W. Franks, Walton, Hubert White, Burlington, J. H. Huey. Petersburg, Robert Graves, and Hubert Conner, Hebron, Jake Cleek and S. B. Sleet, Beaver, August Trapp, Hamilton, Listen Hempfling, Constance, Hugh Stephens, Hamilton, Joel Gray, Burlington, T. C. Bonar, Florence and A. S. Burcham, Grant.

1936 Plans Extensive

A part of the day was given to completion of the Boone County Extension program for 1936. Under the leadership of County Agent Forkner the plans recently made at a series of community meetings were summed up for the whole county, and a number of county-wide projects included. The 1936 Extension Program includes the following projects among the nine commuities into which the county is divided for this work, with leaders and a chairman for each: Pasture and hay improvement with lime and phosphate, Korean, Soil conservation, tobacco, dairy fruit, truck crops, farm accounts, poultry, sheep, 4-H club, hybird corn hog worm control and community fairs. The work will comprise many demonstrations in each community and by the farmers themselves, with the help of the leaders, chairmen and county agent of new crops, varieties methods; field meetings, tours, increasing of membership in stock improvement and testing associations and demonstrations of such things as parasite and disease control by specialists from the Experiment Station.

A definite goal has been set up for each community and every farmer in the county will have an opportunity to take part in and benefit from this work.

Officers for the County Extension Association, sponsors of the program, were elected, with B. W. Franks, president; Hubert Connor, Vice-president; A. S. Burcham, Secretary.

Under the County-wide projects are winter and summer schools for poultrymen, poultry disease control, wool pool, the Soil Improvement Association, in charge of the TVA phosphate demonstrations, Truck Crops marketing, Cattle Association, Bang's Disease control, Utopia Club, Variety Studies of Tobacco, Horse and Jack Stock improvement.

CORRESPONDENTS WANTED

As a step in making the Recorder a better County weekly paper, the Editors deem it necessary to obtain the services of a number of well educated, journalistic proned correspondents, who will take an interest in writing news from their various communities and submit it for approval, weekly.

For this service a liberal compensation will be paid.

Qualifications: 1. High school education or equivalent thereof.
2 Sincere desire to write.
3. Handwriting must be legible.

For applications, write or phone the Boone County Recorder.

Watch for further details.

NEW BANK ORGANIZED

IN ERLANGER WITH CAPITAL OF $15,000

The town of Erlanger will be the location of a new bank it was disclosed yesterday when papers were filed in County Clerk, Sam Furste's office at Covington Tuesday.

The new business house will be known as The Community Bank. It is capitalized for $15,000, divided into 1,500 shares of $10 per value.

According to reports the executives of the bank are M. J. Mitchell, Andrew Scheben, Phillip Taliaferro, C. F. Blankenbeker and O. M. Rogers. They are to conduct the affairs of the bank until the regular election of bank officers in January.

The papers which were filed show that a great part of the stock has been subscribed.

Plans for the establishment of the new financial house have the approval of D. R. Dorman, State Banking and Securities Commissioner.

NEWS BRIEFS

J. T. Murphy pushes bill to allow the Public Service Commission and municipalities to deal with the Tennessee Valley Authority for electric current....Chandler starts an investigation at reformatory....Frederick A. Wallis reports to Gov. Chandler that conditions at reformatory are pitiful...lack of organization....loose discipline..zero wave continues grip on Midwest; fuel and food famine faced..Army bill biggest in peace-time history ....half billion exceeded in plan to strengthen defense....Lloyd Presseer, Grant, receiving nation-wide publicity as a marooned government laborer in quarterboat on Ohio River....Cold wave temporarily halts up-climbing barometer of business....House votes, 75-0 in approving move for press liberty ...Bill to legalize dog racing in Kentucky beaten for second successive time..Two administration measures, lowering of auto license and state wide registration, have been passed by both houses and are now in the Governor's hands for approval.

Mr. C. W. Jones, Club Specialist is to speak to Utopia Club members on State Utopia Plans for 1936 at their regular February meeting to be held at Burlington next Wednesday night, February 19th at 7:15 p .m.

Utopia members have been allotted 2 tons of 48 per cent superphosphate for pasture improvement projects planned last spring. The project allotments will be made at the meeting.

NEW COMMISSIONER

Frank L. McCarthy, of Lexington, was appointed Railroad Commissioner for the second District yesterday (Tuesday) by Governor Chandler to succeed the late Oscar Vest, who died two months ago.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1880

Editorial of the Week

IF YOU DRIVE, DON'T DRINK

If you drive, don't drink; if you drink, don't drive. It works both ways.

If that maximum, in its simplicity of expression and significance in observance of the rule of safety first, could be enacted as a law in every State, with rigid test imposed and adequate punishment prescribed, leaving no loopholes for favoritism or fear of social political influence in tribunals, the death rate on streets and highways would greatly decrease.

Daily the list of accidents or arraignments due to drunken driving increases. High powered cars geared to greater speed, filtered had doubly distilled gasoline, strong an exhilarating liquor, exuberant reckless nature combines to strew the highways of this country with cripples and corpses more numerous daily than can be counted upon the average battlefield after a spirited engagement.

One drink may not affect this driver, while that one might become wholly irresponsible after taking just that much. There is no way to determine the exact amount that means danger. Habitual drunkards may prove that they have had but a single glass of beer before having traffic troubles. Men who have never drank a drop have been held accountable in some States for riding with drunken motorists, on the theory that, if not condoning his conduct, or abetting in results, the passenger was remiss in failing to notify officers.

There is only one safe rule to follow with reference to the combination joys of drinking and driving, and that is to keep them entirely separate. If you drive, don t drink; if you drink, don't drive.—Kentuckian-Citizen.

NO SUBSTITUTE FOR MILK, EGGS

For farm families, there is no substitute for plenty of milk and eggs in the diet, as they can be procured rather easily and cheaply. The younger children, as well as those of school age, should have a quart of milk and an egg daily. Nutrition courses in the home economics department of the College of Agriculture, University of Kentucky, stress the use of these two foods as growth-promoting and increasing resistance to disease.

As a standard, seven quarts of fresh whole milk should be provided weekly for every child under 2 years of age, and one to 3 quarts for adults. If adults use skim milk instead of whole, extra butter should be used, to supply vitamins removed with the butterfat. One quart of milk daily for a child under 7 years old will safeguard him as to the amount of protein needed. Later, other foods such as eggs or lean meat are an essential.

When a child is 3 to 4 years old, a poached or soft-boiled egg may be fed to him regularly. Eggs are never a substitute for milk, but they are of great value when used in addition to it. They contain vitamins that are of help in preventing rickets, a disease due to dietary. If the egg supply is limited, the children should be considered first. It is never so easy to correct a bad physical condition as it is to prevent it in the first place, and children are especially in need of a full and balanced diet while they are growing.

A person's attitude and contribution in life depends in many respects upon proper nutrition. Solving of food problems, particularly for children, is worth time and effort.

THESE FIGURES TELL SOMETHING

The average business man who over a period of two years finds that his volume of trade is being constantly expanded and his income steadily increasing, as a result of the adoption of some policy by the local, State or Federal Government, is not liable to register displeasure. He would not go to court about it.

But that would be the average man, of whom President Roosevelt has spoken many times. The private power companies in the area wherein the Tennessee Valley Authority "yardstick" was established felt differently. For months before TVA was st up, the President expressed confidence that as a result of the reductions in rates which the TVA would encourage, the utilities of the vast valley would profit enormously. And despite their efforts to invalidate it in the courts, that is precisely what has happened.

The Alabama Power Co., for example, nas asked the Suprme Court to wreck the TVA, yet it has far outstripped its class since iis rates went down under the TVA example. In the number of meters served, it stands fortieth among the nation s utilities, yet it ranks 4th in the entire list in the number of sales of elecuric refrigerators since it came down in its rates.

And what about the other two private power companies in the TVA area?

The thirtieth ranking power company in the country is the Tennessee Electric Power Company in the number of domestic meters, yet after TVA "pointed the way" it has risen to the first place in the entire United States in increased kilowatt hours sold per residential consumer. Also it ranked first in electric ranges sold, second in electric refrigerators sold and third in electric water heaters sold. Not just in the Tennessee Valley area, but in the country as a whole.

The Georgia Power Company ranks twenty-third in the United States, but at the end of the first year of its rate reductions it had sold more electric refrigerators than any other power company in the entire country. It was first in electric water-heater sales and second in electric ranges. It is 60 per cent above the national average in sales of kilowatt hours per customer and in this respect ranks first among all companies east of the Rocky Mountains.

The report on th Georgia Power Company reveals that during the first yar of the ratee reductions its electric refrigeator sales increased 176 per cent; its sales of electric ranges increased 576 per cent and its sales of electric water heaters increased 1,472 per cent.

And during 1935 these companies all showed "increasing progress."

These figures are interesting in the light of the representations made to the Federal courts that the TVA is a "menace" to private power companies and that its "destructive competition jeopardizes" every utility company in the Country.

EDITORIAL PARAGRAPHS

Three more Hobo dogs registered in Burlington over the week-end. We have it figured that they are either going to have a political convention or a strike———A suggestion—get along little doggie....

BUSINESS IN SOUTH GAINS MOST IN 1935

The relative increases in sales of general merchandise in small towns and rural areas were fairly uniform in the different regions of the country for the year 1935 as compared with 1934, according to estimates received by thee Louisville District Office of the Department of Commerce. Figures indicate that sales in the South showed a slightly larger increase than in other parts of the country, its gain being 20 per cent above 1934 as compared with an increase of 19 per cent for the country as a whole. Gains in the other three regions ranged from 17 per cent to 19½ per cent. The increase in sales for December 1935 over December 1934 was largest in the East where a 20 per cent gain was recorded, and smallest in the Middle-West where an increase of about 13 per per cent was shown. Sales for December as compared with November 1935 showed increases ranging from 17 per cent for the South to 35 per cent for the East.

RABBIT HASH

Mr. L. L. Stephens spent Sunday with Mr. Hubert Ryle and family.

Mr. Wilson Conner was at Glencoe, Ky., last week.

Mr. Wallace Stephens remains very ill.

Sorry to hear of the death of Mr. John Smith at his home in Belleview, which occurred on Friday morning. His widow has the sympathy of this community.

Dr. Schallenberger was called to see Mrs. Jamison Saturday evening.

Mrs. R. T. Stephens still remains very ill.

Mr. E. L. Stephens celebrated his birthday Sunday. All of his children were present.

Glad to see Elizabeth Craig out again after being ill.

Ivan Ryle and wife and Walter Ryle and wife each entertained with a music party last week.

Miss Rosanna Williamson visited her uncle Cecil Williamson and family last week.

Miss Sarah E. Ryle was a visitor at R. L. Hodges a few days the past week. Miss Bessie Hodges returned home with her for the week-end.

Mr. Wm. Stephens was the Sunday guest of B. W. Clore and family.

F. L. Scott and wife were Wednesday guests of Hugh Stephens and family, and Friday guests of Ray Williamson and family.

Lesson for February 16

JESUS' REPLY TO JOHN THE BAPTIST'S QUESTION

LESSON TEXT—Luke 7:19-28.
GOLDEN TEXT—I believe; help thou mine unbelief.—Mark 9:24.
PRIMARY TOPIC—Jesus Answers John's Question.
JUNIOR TOPIC—Jesus Answers John's Question.
INTERMEDIATE AND SENIOR TOPIC—Meeting Doubts With Facts.
YOUNG PEOPLE AND ADULT TOPIC—How Jesus Answers Honest Doubts.

The title, "Jesus Helps a Doubter," given by the lesson committee, is not a good one. John was not a doubter, though somewhat perplexed. Jesus specifically defends him against such a charge (see Matt. 11:7-11 as well as the present text). It is to be hoped that no teacher will perpetuate this error. John was a great man. In announcing his birth the angel said, "He shall be great in the sight of the Lord." He was great, also, when measured by the standards of men. In teaching this lessor a survey should be made of John's life and work.

I. John's Birth and Ministry Foretold (Isa. 40:3; cf. Matt. 3:3).

He was thought about and his work planned long before he was born. He came as God's messenger.

II. John's Character.

1. Humble (Luke 3:4). He did not seek human praise and commendation, but shrank from them. His supreme concern was to proclaim Christ.

2. Courageous (Luke 3:7). He faced a great multitude and struck hard at their sins. He did not trim his message to suit the crowd.

III. John's Preaching (Luke 3:3-8).

1. He sounded forth a ringing call to repentance (vv. 3-6). Suddenly emerging from his seclusion, he came into the region of the Jordan as a messenger of God, calling upon the people to repent as a means of preparation for the coming of the Messiah.

2. He demanded proofs of penitence (vv. 7, 8). He insisted that their false prophets had to be abandoned, their sinful hearts had to be renovated, showing them that the vile passions of their souls must be uprooted. The turning of a soul from sin to God, was necessary.

IV. John Sent a Deputation to Jesus (Luke 7:19-23).

1. Their question (v. 19, 20). "Art thou he that should come? or look we for another?" Because John did not see the interval between the sufferings of Christ and the glory that should follow—between the cross of Christ and his second coming—he was perplexed; therefore, he sent a deputation to Jesus for light. This perplexity was not something culpable in John because the prophets did not see, or at least did not make clear, the interval between the crucifixion of Christ and his second coming. The Messiah, he knew, had to be the Lamb of God which taketh away the sin of the world (John 1:29). The trend of events puzzled him. It was not a lack of faith, but confusion of mind, that prompted his inquiry. There were two lines of predictions concerning the Messiah; the one set him forth as the suffering One, as in Isaiah 53; the other as an invincible conqueror, as in Isaiah 63. Indeed, in Isaiah 60:1, 2 the two are joined together (Luke 4:17-20).

2. Jesus' action (v. 21). In that same hour, doubtless in the presence of John's disciples, Jesus cured many of their infirmities and plagues, and of evil spirits, and to many that were blind he gave sight.

3. Jesus' message to John (vv. 22, 23). Jesus said to them, "Go your way, and tell John what things ye have seen and heard."

V. Jesus' Defense of John (Luke 7:24-28).

1. He declared that John was not vacillating like a reed swayed by the wind (v. 24).

2. John was not doubting because of the hardship of prison life (v. 25).

3. John was not a mistaken prophet (vv. 25-28). He makes John equal to the greatest of the Old Testament prophets by declaring that among those born of women there hath not arisen a greater prophet than John.

4. The response of the people (v. 29). The people who heard this defense, even the publicans, accepted it as a vindication of John. They justified God. They not only accepted the vindication, but were baptized with the baptism of John.

VI. John's Martyrdom (Mark 6:14-29).

While John was in prison Herod had frequent interviews with him. John boldly told him that it was unlawful for him to have his brother's wife. He did not mince matters even with a king. This so enraged the licentious Herodias that she caused his death.

Love and Faith

As love is deepest in the being of God, so faith is the mightiest principle in the soul of man. Let us distinguish their several essences. Love is the essence of duty, faith is the essence of humanity which constitute it what it is.

Humility and Pride

Humility is the true proof of Christian virtues. Without it, we retain all our faults, and they are only hidden by pride, which conceals them from others, and often from ourselves.

TEN YEARS AGO

ISSUE OF FEBRUARY 18, 1926

BOONE COUNTY BASKET BALL STARS AT LEXINGTON

Quoting the Lexington Herald of last Sunday: "For Transylvania Miss Walton was probably the star, keeping the Louisvillians out of her territory most of the time by intercepting passes and thwarting nearly every attempt they made to score a field."

Miss Margaret Walton is the eldest daughter of Mr. and Mrs. Earl Walton, of Petersburg.

Terrell Riley, son of E. C. Riley, formerly of Petersburg and Burlington, is a star of the Lexington high team which has not lost a game this season.

Local

Lee Utz, colored, who lives down on Gunpowder, reports that the robbins are numerous in that vicinity.

Claud Littrell, auctioneer, of Walton, visited us last Saturday and left an adv. which may be seen in this issue.

L. R. McNeely and Waite Cross and their families are now citizens of Burlington.

Constance

Mr. John Hempfling, who was seriously ill at his home here, is improving.

The bus is quite a convenience to persons wanting to go to Ludlow and Covington.

Beaver Lick

Idlewild

The sheep raisers are having exceptionally good lck with their lambs this season.

The creeks were higher in this vicinity than they have been for some time.

"Day in and day out our roads are growing worser and worser."

A lashing rain accompanied by a heavy electrical storm visited this section, Saturday night.

Petersburg

Rev. W. A. M. Wood, of Erlanger, occupied the pulpit at the Baptist church Sunday night.

Miss Gene Miller of Florence, spent the latter part of the week with Mr. L. E. Keim and family.

ISSUE OF FEBRUARY 16, 1898

Hathaway

A mad dog passed thru here, last Monday, and created much excitement. It bit several dogs, but was finally killed near the lower ford of Gunpowder.

Oscar Ryle accompanied W. E. Vest while surveying for Mrs. C. E. Presser, several days last week. She divided her farm among her children.

Union

Miss Nannie Bristow will begin a spring school at the public school house February 21.

Charley Baker struck a $4.05 hog market and sold over $600 worth, last week. He has purchased forty more hogs and 150 barrels of corn to be ready for the next rise.

Walton

A few nights ago Mrs. Lyons, of the Phoenix Hotel, and Mrs. Kennedy had nearly all of their clothes stolen from the line on which they were hanging to dry.

Rabbit Hash

Several from here attended the dance given by Thomas Clore, last Friday night.

Limaburg

James Utz sowed his tobacco seed last week.

Claude Rouse will open Everett Dixon's sugar camp in a few days.

Florence

Mr. and Mrs. John Goodridge, of Richwood, were visiting Mrs. Henry Tanner, Wednesday.

News Tour

By Wm. C. Walton

The great wall of China is one of the seven wonders of the world, it was built in the third century B. C. It extends along the northern frontier of China, and from the northern part of the gulf of Pechill bn the Yellow Sea, north of Peiping in a zigzag course to Syning on the border of Turkestan. The total length of the great wall including spurs, curves, and loops is 2,500 miles and has 25,000 watch towers. These watch towers are built into the wall, and in addition there are 15,000 detached watch towers. And where the wall reaches the sea at Shanhaikwan to the pan-handle of Kansu Province it is 1,145 miles. The wall is 17 feet and 6 inches thick and 16 feet high made of two face walls of large brick, filled between with earth and stone. There is a tower at the Claidean cit the base of the tower is 300x300 feet and 300 feet high. There are smaller towers some are 195x150 feet at the base. This region was thickly peopled over 4,000 years before Christ. The royal tombs date from 3500 B. C. in these tombs which gave evidence of human sacrifice on a lavish scale. The bodies of kings and queens, soldiers and domestic servants. This great wall stands today in perfect shape and there is little history as to the building of it. It is a wonderful sight to see as I have visited it at both ends. There seems to have been great masonry work in the world B. C. In Ninevah, capital of Assyrian, on the Tigris river there is a aqueducts built 312 B. C. and 140 miles long and it looks like the same work as the great wall of China.

McVILLE

Sorry to learn of the death of Mr. "Pepper ' Smith. We extend deepest sympathy to his bereaved wife and relatives.

The sick in this community are slowly improving.

The little son of Mr. and Mrs. Less Ryle has been named Jerry Wallace.

Mr. and Mrs. Robt. Aylor visited her mother Mrs. Emma Stephens at Rabbit Hash, Sunday.

Mr. T. C. Sutton purchased the property belonging to Mr. Robert Aylor adjoining McVille, last week.

Mr. and Mrs. Hubert West spent Saturday night and Sunday with relatives in the Habbit Hash neighborhood.

FARM CONVENTION ATTRACTS CROWDS DESPITE WEATHER

Despite severe winter weather, attendance was nearly normal at the recent 24th annual Farm and Home Convention at the University of Kentucky Agricultural Experiment Station. A large number of subjects of vital interest to farmers and homemakers were discussed.

J. B. Hutson, who directed the tobacco adjustment programs, told farmers that they must decide whether they want an agricultural adjustment program in the future.

L. J. Taber, master of the National Grange, presented a 10-point program for agriculture.

In a discussion of soil conservation, J. Phil Campbell of the Department of Agriculture said that 10 per cent of the land in Kentucky has been ruined by erosion.

Cooperative plans to employ doctors and maintain hospitals in rural sections were presented by Dr. Michael M. Davis of the Julius Rosenwald Foundation.

Lectures and demonstrations by Mrs. Evelyn Tobey, New York fashionist, were a feature of the homemakers' programs.

Dr. C. C. Taylor, sociologist and assistant administrator of the Rural Resettlement Administration, discussde land planning.

With only 3 per cent of the farm homes of Kentucky using electricity, W. E. Herring of the REA told of plans to make electric power available to rural areas.

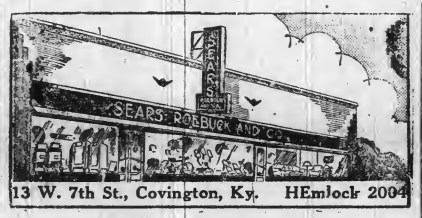
CAREY CORK INSULATED SHINGLES

Save the Cost of Roof Insulation



When houses are protected with this remarkable shingle, the result is a thoroughly insulated roof, and you save the high cost of separate insulation.
In addition to making homes cooler in summer and warmer in winter, Carey Cork Insulated Shingles are most attractive in appearance. Their beautiful colors and deep shadow lines are always admired.
We'll be glad to supply samples and a free estimate for any building.

Versus—NOTICE
W. W. Tanners, Heirts et al., Defts.

Notice is hereby given that the undersigned Master Commissioner will on the 22nd day of Feb., 1936 between the hours of 10 O Clock A. M., and 4 O'Clock P. M., Central Standard time sit in his office, in the Court House in the Town of Burlington, Kentucky, for the purpose of receiving and ning claims against the estate of W. W. Tanner, deceased. All persons having claims against said estate will file them on this day, properly proven according to law.

A. D. YELTON.
Commissioner Boone Circuit Court
o20 Feb

BELLEVIEW

The river is rising rapidly and continues full of ice.

Mrs. Ephriam Clore went to Rising Sun, Ind., last Monday and stayed until Wednesday with her sister, Mrs. Chas. Thies. She had to go by way of Cincinnati as it is impossible to cross the river here because of the ice.

Al Rogers and Forest Brown sold a fine crop of tobacco on the Covington market Tuesday. One basket selling for $50 per hundred. The general average was $29.00 per hundred.

W. B. Arnold, who has been quite ill is able to be out again.

Mrs. Spinney Smith continues quite ill.

Miss Betty Brashear and Mrs. Richard Marshall spent the day Thursday with Miss Anna Cason.

Edward Rogers, Jr., entertained the members of the Sr., B. Y. P. U. with a social Thursday evening.

Mrs. Robt. Rice returned home Friday, bringing her daughter, Mrs. Bernard Sebree, who is ill with her.

Captain Elbert Clore is visiting home folks here.

"Pepper" Smith, one of the best loved citizens of our town, died Friday night after a lingering illness of more than a year. He leaves his widow, two sisters and nieces and nephews who were all devoted to him. His funeral was conducted in the Baptist church of which he was a member, Tuesday afternoon by Rev. D. B. Estep, of Covington. Undertakers Chambers & Grubbs, of Walton had charge of the arrangements. Deepest sympathy is extended to Mrs. Smith, his sisters and all those who were dear tohim.

Mr. and Mrs. Ed. Lampkin, of Sayler Park, Ohio, were visitors here Saturday afternoon.

The play given by the school Saturday night was enjoyed by all those who were present.

Miss Hilda Ryle spent Sunday with Miss Lucinda Burcham.

Mr. and Mrs. John Maurer entertained Rev. Walker Sunday.

Mr. and Mrs. James Ransom, of Falmouth, visited over the week-end with Mr. and Mrs. Sherman Burcham and family.

Mr. and Mrs. Elmer Rice, of Newport, spent Sunday with Mr. and Mrs. Robert Rice.

FLORENCE

The Missionary Society of the Florence M. E. Church met at the home of Mrs. Ralph Bauer, Dorthea Ave., Feb. 5th. The meeting opened with songs followed by an interesting program on Worship and meditation, continuing with other business and open discussions. The society will again meet on March 4 at the home of Mrs. McKibben.

The usual Baker sale sponsored by the ladies of the M. E. church will be held Feb. 22, at Anten's Store.

Mr. Paul Tanner, who is attending school at University of Kentucky, spent the week-end with his parents, Mr. and Mrs. Lonnie Tanner of the Dixie Highway.

We are very proud of the Florence Knights and Nightengales who are receiving many commendations on their victories over Hamilton and New Haven basketball teams, Friday and Saturday nites, respectively.

The fish and oyster supper given by the men of the M. E. Church was a success and they wish to thank all who helped to make it thus.

Residents of this community extend their deepest sympathy to Andrew, C. Collen upon the death of his wife Annie Callens. Mrs. Collins was former teached in Boone county and was Principal of the John G. Carlisle Jr. High School, of Covington, at the time of her death.

Mr. and Mrs. M. M. Graham spent Sunday with her family Mrs. Geo. B. Miller.

Very glad to hear that Mrs. Chas. Fulton, of Burlington Road, is improving.

Mrs. Dora Cole remains ill at the home of Mr. and Mrs. Will Bradford.

S. L. Lucas, of Detroit, Mich., was at his home here this week-end.

Orville Wilford, Florence, and Miss Lavena Ward, Erlanger, were married Feb. 1st, at Erlanger. They are making their home with his mother.

Miss Evelyn Highhouse was the hostess Saturday night of a well planning party enjoyed by Mr. and Mrs. H. Riegler, of Erlanger, Mr. and Mrs. Carl Aylor, of Covington, Mr. and Mrs. R. B. Reeser, Florence, Misses Mary Louise Ryle, Ruth Groger, Frances Hoffman. Messrs. Alan Holtzworth, Ira Owens, Hubert Ryle, Paul and Wilbert Robinson, Jno. Richards, Joe er Duke Scott, Duane Reeser, Joe Satchell, Robert Groger, Jimmie Schieler and Freddie Highhouse.

DEVON

Mrs. Gladys Carpenter and Irvin Carpenter spent Saturday and Sunday with Mr. Elmer Carpenter and family.

We are very sorry to hear of Mrs. Marksberry's death.

M. Elmer Carpenter and family and Mrs. Gladys Carpenter and son Irvin, called on Mrs. Maggie Glacken Sunday evening.

Mr. Wm. Copher and Miss Dorothy Wilson, of Richwood, were married one day last week.

We are very sorry to hear of little Donnea Bresser being taken to the hospital, Thursday night.

Citizens of this community welcome the arrival of the new family which is moving into the residence of J. D. Robinson.

FIRST CAPTAIN OF TEXAS RANGER FORCES WAS KENTUCKIAN

Dallas, Texas, Feb. 12.—First of the Texas Ranger captains, the pioneer of this famed force of frontiersmen came from Kentucky more than 100 years ago.

Robert M. Coleman arrived on the state, then a dependency of Mexico, in 1831, and almost from the time of his arrival took a prominent part in the much-muddled affairs of the colonists. Even at this time there were rumblings of revolution, dissatisfaction with the rule of the Mexican-appointed governors, and trouble with the Indians.

The first Texas Rangers were organized in 1835, and Coleman was appointed captain, beginning the line picturesque fighters who for 100 years have guarded outlying sections of Texas from enemies within and without.

Coleman was asked to a consultation at San Felipe in 1835, when Texas were making their momentous decision to revolt against Santa Anna's domination.

His is one of the nmas on the Texas Declaration of Independence, signed at Washington-on-the Brazos, March 2, 1836. His name lives again in marble in a million-dollar Texas Hall of State at the Texas Centennial Exposition in Dallas, opening June 6.

Resigning his commission as Captain of the Rangers, Coleman joined the Texas volunteer army, and become aide on the staff of General Sam Houston at the Battle of San Jacinto.

The battle was an overwhelming victory for Texas, a decisive factor in settling forever her independence from Mexico. But the results of the battle were not happy for Coleman. He severely criticized Gen. Houston's conduct of the battle. He was discharged from the army; Houston, the "Liberator" was not to be criticized in the ecstasy of so recent a victory.

Not long after this Coleman was drownd in the Texas River.

Much discussion has occurred since concerning Houston's tactics at San Jacinto. Today historians agree that the Texas General, taking desperate measures for a desperate situation, was justified by results.

The Texas Legislature, looking back over the 94 years intervening since the death of Coleman, in 1932 erected to his memory a monument at Freeport, near the place he was drownd. Coleman County, Texas was namd for him.

After Coleman's death his wife and six children were living in a log cabin where the town of Webberville now stands. About a year after the tragedy that took away the father, a band of Indians raided his home. Mrs. Coleman and her oldest boy, Albert, fired at the Indians through cracks betwen the logs. The mother, keeping between the children and the enemy, was killed. Albert, who kept on firing, was mortally wounded.

"Be still," he told the younger brothers and sisters, all of whom were too young to handle guns. Too frightened to do else than obey, the children huddled together. The savages listened for a few minutes, then rode away, apparently convinced the entire family was klled.

The five younger children survived and their frightened story now is remembered in the history of pioneer Texas.

Dawson Day was a business visitor in Burlington, Tuesday. Mr. Day was very elated over the outcome of his sale which was held last Saturday.

RECORDER 1 YEAR $1.50

ANDERSON'S FERRY

One of the really historical concerns of Boone County is Anderson's Ferry, located at Constance, Kentucky. Prior to 1884 the ferry was operated by horsepoweer, but when purchased by Charles Kottmyer at that time it was instantly changed into a steamboat concern and has served the citizens of Boone county as a convenient outlet for the past 72 years. Like all other similar concerns, high water, low water, &c., have made navigation impossible, but regardless of these obstacles, Anderson's Ferry has been considered throughout its history as one of the most reliable and dependable institutions in the county.

The ferry is now operated by Ollie and Henry Kottmyer, of Constance, being handed down to them by their great grandfather.

When joy riding in Boone county see this place.

Next week: Peoples Deposit Bank, Burlington.

LOWER GUNPOWDER

Mrs. John Binder passed away at her home Wednesday, Feb. 5: She was buried at Highland cemetery, Friday.

Mrs. Schnenke had a spell of heart trouble Saturday, but at this time is improving.

Garland Huff and wife made a trip to Covington, Saturday.

Quite a few from this vicinity attended the sale of Rachal & Norman at Union, Saturday.

Mr. ohn Binder and wife and his brother, Henry Binder, of Ill., were called here at the illness and death of his mother Mrs. John Binder, Sr.

Mr. Bruce Ryle and family and Mr. Sam Walton and family spent Sunday with S. B. Ryle and family.

Another terrific blizzard struck this community Saturday night.

George Cook, the efficient principal of Petersburg graded school, was a business visitor in Burlington, Saturday.

RUPTURE
SHIELD EXPERT HERE

E. J. Meinhardi, well known Expert of Chicago, will personally be at the Gibson Hotel, Cincinnati, Ohio, on Sunday and Monday, Feb. 16th and 17th, from 1:00 P. M., to 5:00 P. M. and 7:00 P. M. to 9:00 P. M. daily. Please note dates and hours carefully.

Ask the Hotel Clerk for the numbers of Mr. Meinhardi's rooms. Only men are invited.

The Meinhardi Rupture Shield retains the rupture on the average case regardless of size or location—no matter how much you exercise, lift, or strain. The Meinhardi Rupture Shield is skillfully molded to each individual as a Dentist makes false teeth. (No leg straps and no cumbersome arrangements).

It is waterproof, sanitary, practically indestructible, and may be worn while bathing or sleeping (continuously day and night) until no longer desired.

CAUTION—Beware of imitators who copy this notice. Remember the name MEINHARDI. He has been coming here regularly for fifteen years. Do not neglect to see him on the above date. No charge for demonstration. This visit is for white people only.

A NOTE OF APPRECIATION

Mr. E. G. Stephenson, Gen. Mgr.,
Consolidated Telephone Co.,
Florence, Kentucky. February 10, 1936

Dear Sir:

I want to take this opportunity to thank your company and to particularly commend your night operator, Miss Mamie Hawes for the service given last week when my house burned. Also I want to thank all of my neighbors for their prompt response and splendid help.

When the fire was discovered I called the operator and she immediately phoned several of my neighbors who quickly responded and succeeded in removing practically all the furniture before the house was destroyed. Had it not been for the telephone I woul doubtless have lost everything.

I have moved into another house near Bullittsville and, of course, wish to have a phone installed immediately, as, after my recent experience, I do not wish to be without the safety and convenience that the telephone affords.

Again expressing my appreciation, I am

Yours truly,
Burlington R. R. MRS. MAMIE STEPHENS

The above letter illustrates one of the many reasons why a telephone in YOUR HOME is a real necessity.

Mrs. Stephens now has another phone installed at her new home—the number —Burlington 219, remains the same.

THINK IT OVER—
Are you prepared for a like Emergency?

NOTICE OF FIRST MEETING OF CREDITORS.

In the District Court of the United States for the Eastern District of Kentucky. In Bankruptcy.

In the Matter of Bert Marksberry Bankrupt.

of Florence in the County of Boone and district aforesaid, a bankrupt. Notice is hereby given to creditors that on the 29th day of November, A. D., 1935, the said Bert Marksbery was duly adjudicated a bankrupt, and that the first meeting of creditors will be held at my office, Coppin Building, Seventn and Madison Ave., in Covington, Ky., on the 25th day of February, A. D., 1936, at 10 o'clock A. M., at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before the said meeting.

COVINGTON, KENTUCKY, ...

R. C. NORTHCUTT,
Referee in Bankruptcy.

PASTURE IMPROMENT DEMONSTRATIONS

Boone County farmers and Utopia Club members have planned fifty pasture and hay improvement demonstrations for 1936 thru use of seeding mixtures and applications of lime and phosphate fertilizers, according to H. R. Forkner, County Agent.

Boone County farmers received a 20 ton car load of 48 per cent superphosphate fertilizer from the Tennessee Valley Authority last Monday. The phosphate was placed in local storage awaiting the the approval of allotments for individual demonstrations. More than 3000 tons of agricultural limestone has been crushed for Boone County farmers since September 10th.

Both lime and phosphate are essential for the greatest improvement on most of Boone County's 92,000 acres of pasture land. The fifty demonstrations in pasture and hay improvement this year will cover approximately 250 acres and one or more demonstrations wil lbe conducted in each community in the County. If individual cooperators are careful in carrying out the plans some interesting results will be secured during the next three years.

It has just been learned that Mr. and Mrs. Wallace Ryle have named their infant child, Glenn Lee Ryle.

B.B. Grant, who has been ill with pneumonia, is still confined to his home.

Seen And Heard Around The County Seat

Cecil Williamson, of Rabbit Hash, was a very interesting caller in Burlington, last Friday.

Raymond Combs, formerly of the Recorder and Grant County News has accepted a position as Linotype operator in a job printing establishment in Louisville.

W. P. Beemon, one of our well known local citizens, has been confined to bed the past several days with a severe cold.

Kirkpatrick and Gulley, two of our local merchants and butchers, are slaughtering a considerable number of hogs for residents of Burlington. Both are well equipped to do such work and are pleasing their many patrons by their fast and efficient work.

Miss Mary Laubisch, who has been detained from her position as teacher in the local school due to an attack of appendicitis, has returned to Burlington in seemingly good health.

B. S. Vallandingham, of Walton, was a business caller in Burlington Friday of last week.

Ezra Beemon, from the Woolper neighborhood, was calling on his many friends in Burlington, Friday.

Ben Antens, of the Antens Grocery stores of Florence and Erlanger, was a business visitor here last Thursday.

Wm. Phillips, of Lakeland, has returned to that place after a very pleasant visit with friends and relatives here.

Garland Huff, of Hamilton, was a visitor to Burlington, Saturday.

Mr. and Mrs. A. B. Maurer and son, Jimmie, were the week-end visitors of Mrs. Josie Maurer and family.

Bruce Ryle, of the East Bend neighborhood, was a friendly caller here, Saturday.

Mr. and Mrs. J. G. Smith called on Mr. and Mrs. Carl Cason, Friday evning.

D. R. Blythe has been quite indisposed for several days.

E. G. Stephenson, General Manager of the Consolidated Company, and Bill Frazee, of the same concern, were business visitors in Burlington, Monday.

Lloyd Gulley, of near town, was a friendly caller here, Monday.

John Wingate, of Grant, was in the County Seat a short while, Monday afternoon.

FOR SALE—Three year old gelding, has been worked and ridden. Two year old Draft colt. Weight 1,200. Two year old colt, saddle stock. Nice big sow and 9 pigs. O. S. Eddins, Burlington, Ky. County Infirmary.

Calvin Cress, the local blacksmith, has been quite busy for several days shoeing horses, due to the ice and snow.

Leomer Louden, of Belleview, made a brief call here Saturday.

W. C. Weaver, one of our local painters, says he has a number of contracts for painting booked the coming spring and summer. He is very anxious that the weather will permit him to start as soon as possible.

Woodie Sullivan, of Burlington-Belleview pike, received a broken toe one day last week by letting a stick of stove wood fall on it.

R. L. Anderson, of Gunpowder, was a pleasant caller in Burlington, Saturday afternoon.

Frank Rouse, of near Hebron, was in the County Seat Saturday afternoon.

T. B. Cason and wife, of Grant, were Sunday afternoon guests of Mr. and Mrs. Carlos Cason, of near town.

Ed. Hawes, of Covington, was the week-end visitor of relatives and friends in Burlington.

W. C. Weaver has been the victim of a severe cold the past several days.

We are revising our supscription list. You can help us by paying up your subscription.

There were a number of auto wrecks on the local highways over the week-end. However, no one was reported seriously injured.

Newton Herrington and Milton Frederick, of Pt. Pleasant, were in Burlington on business Saturday afternoon.

Harry Cress, who has been employed at Hamilton, Ohio, during the winter months, has returned to his home here.

Elijah Stephens, local mail carrier, had the misfortune of falling one day last week in front of the post office. His injury was only slight, however, it was thought at first by passing pedestrians that he was more seriously injured.

Earl Cropper was visiting with his mother, Mrs. Lorena Cropper duing the week-end.

Ms. A. B. Renaker and daughter Mary Lou, were shopping in the city, Saturday.

Mrs. Garnett Tolin, Mrs. Geo. A. Porter and Marvin Rouse spent Friday in Cincinnati.

Arthur Houston, of near Waterloo, was in town last Friday. Mr. Houston said he had just finished stripping his crop of tobacco and will market one day this week.

Wilford Rouse has been hauling some very fine corn from Elizabethtown, Ohio, the past few days. This corn is very fine and being delivered to the farmer for around 65 cents per bushel.

While returning from Elizabethtown, Ohio, with a load of corn one day last week, Dudley Rouse, who drives a truck for Mr. Wilford Rouse, broke an axle, but was not long in getting it repaired, and was soon on his way. Dud says it is no fun to "get down and under" during this very cold weather we have been experiencing.

A great many of the local coal bins have had to be replenished this winter.

J. J. Maurer, the Belleview coal merchant, has been hauling coal the past couple of weeks by truck from the city—the river so full of ice no coal can be shipped to him.

The frozen condition of the roads this winter has been a greaet protection to them.

Work is progressing rapidly on Dr. Carlton Crisler's residence in North Bend bottoms. J. J. Kirkpatrick, carpenter, and Poston Bros., doing the plumbing work, have been very busy the past few weeks. It will be one of the most modern and up-to-date homes in the county when completed.

More than 7,000 wild animals are killed every day in the U. S. by autos.

Word was received here late today (Wednesday) of the death of Louis Weaver, of Union. We are unable to secure the particulars for this issue, however, full details will be published next week.

ERROR

In the last issue of the Recorder it was stateed that the newly born baby of Mr. and Mrs. Wallace Ryle's was a girl, instead the youngster is a boy.

DRAINAGE IMPORTANT IN MAKING THE LAWN

In making the lawn on a new area, one should first provide good drainage, points out N. R. Elliott of the Kentucky College of Agriculture. Wet soil may be caused by a subsoil that does not drain well, or by surface water from the surrounding area. Tile drainage may be necessary, or the grade may be changed to correct surface drainage.

Deep, fertile moisture-holding soil is best. Cover the entire area with a heavy application of well-rotted barnyard manure, and plow to a depth of 8 inches. Harrow the plowed surface until it is reasonably smooth. Apply 1,000 pounds of superphosphate, 1,000 pounds of hydrated lime and 500 pounds of muriate of potash to the acre.

Disk and harrow the ground until these are thoroughly incorporated into the soil. This application will supply the phosphorus and potash needed for many years. It is much more effective to supply these in quatities before the lawn is established than to add them after the area is covered with sod. Top-dress the soil with another application of well-rotted manure, preferably cow manure.

After this a good seedbed should be prepared by thorough harrowing and rolling. Keep in mind that the seedbed is being prepared to last a long time, and therefore the preparation should be thorough before any grass seed is sown.

For Kentucky, Mr. Elliott recommends sowing a mixture of 4 parts by weight of Kentucky bluegrass seed and 1 part of redtop.

The story is going the rounds that John Hix, author of the "Strange As It Seems" radio series, is all puffed up over his new title. Recently he was appointed to the high command of a Nebraska Navy Admiral. The new admiral has the right among other privileges to command goldfish and tadpoles, since his warrant reads "all officers, seamen, tadpoles and goldfish under his command to be obedient to his orders as Admiral."

He gives such orders, however, not in a stern tone or menacing manner, but with the characteristic Hix smile.

Admiral Hix is always smiling. He smiles when anyone doubts the statements made in his "Strange As It Seems" broadcast—and then smiles even more broadly as he proves his point. Those who doubt the amazing facts he is constantly bringing to light invariably end up by saluting him not only as Admiral of the Nebraska Navy, but as the greatest truth digger-upper extant.

There are more than a million Model T's in use and one-half of them are in Barren county, says the Glasgow Times and one-half are in Harrison county says the Cynthiana Democrat——somebody is wrong, because six just passed thru Burlington.

UNION

Miss Mary Elizabeth Senour was the guest Friday night of Mrs. Cy Hedges.

Mrs. Joseph A. Huey and Mrs. Lassing Huey were among the guests at the delightful dinner given by Mrs. Elza Garrison, Thursday, at her home on Hicks pike.

Mrs. Riley Presser returned from a pleasant visit with relatives in Cincinnati, Saturday.

Mrs. Lora Mullins, who has been ill two weeks with flu is able to be out again.

Mrs. Annie A. Bristow has moved from her farm on Big Bone Road to the Village with her daughters, Miss Lillian and Sue Katherine Bristow.

F. S. Wilson, who has been ill for several months at the family residence, is slowly improving.

Miss Marlyn Dickerson is at home from a visit in Erlanger with her aunt, Mrs. Ben A. Terrell.

Mr. and Mrs. Geo. Allen Slayback (nee Patsy Huey) are receiving congratulations over the arrival of a sturdy son at the St. Elizabeth hospital, Covington. They have named the young Mister, Allen Huey Slayback.

Mrs. Emma S. Taylor has sold her farm on Gunpowder creek and is for the present with her sister, Mrs. O. N. Black, and Wm. Black.

Members of the Presbyterian Woman's Auxiliary wish thru the Recorder to thank their many friends for the helo given them at their dinner Saturday, Feb. 8th.

Mrs. Katherine Rachal. Mr. and Mrs. Harvey Hicks and Miss Patricia Rachal spent the end of the week in Owenton, guest of Mr. and Mrs. George Vallandingham.

All women in the community interested in organizing a Home Maker's Club are invited to meet with Miss Mary Gillespie. assistant Home Demonstration Agent. of Kenton County. Thursday. Feb. 28. at the Presbyterian church. Time: 1:30 p. m. E. S. T.

Raymond Doane, who has been confined to his bed many months with a broken leg was taken to Covington Saturday in Chambers and Grubbs ambulance for special treatment by his physician, Dr. E. W. Northcutt.

An enormous crowd attended Rachal & Norman's sale, Saturday.

FIVE REASONS FOR AGRICULTURAL COOPERATION

L J. Taber, Master of the National Grange, recently put forward the following five reasons why cooperative marketing can do for the farmer what no other method can accomplish.

1. It gives him a voice in the control of his own affairs, increasing his sense of responsibility, his value as a citizen, and his independence.

2. It permits him to control quality of purchases, and standardizes his products.

3. It enables him to secure the type of merihandising, packaging and distribution service that best meets his needs, as well as the needes of the consuming public.

4. It makes it possible for him to use the law of supply and demand to better prices.

5. It permits him to own his marketing machinery, and keep open his avenues of credit, production and sales. This is a great stabilizing influence.

coltoral cooperation. They show how cooperation in farm production and marketing enables farmeers to achieve soond "farm relief ' through their own efforts and abilities.

OWL HOLLOW

Several from here attended the basket ball game at Florence Saturday night.

Mrs. Laura Arrasmith is the guets of Charles Abdon and family.

Mrs. Daisy Presser, Harold and Norma Presser, spent Sunday with Riley Presser and family of Union.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00 in order to avoid mistakes in getting the genuine LION CROSS HERB TEA please fill out the attached coupon.

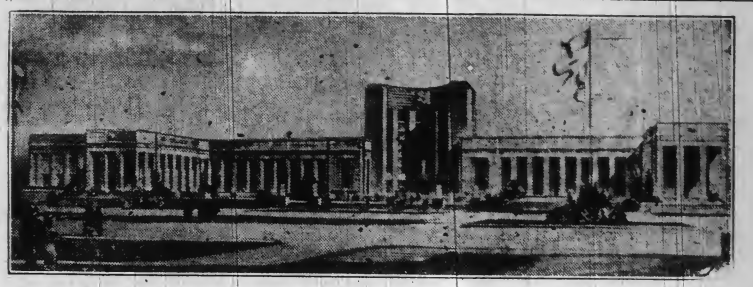
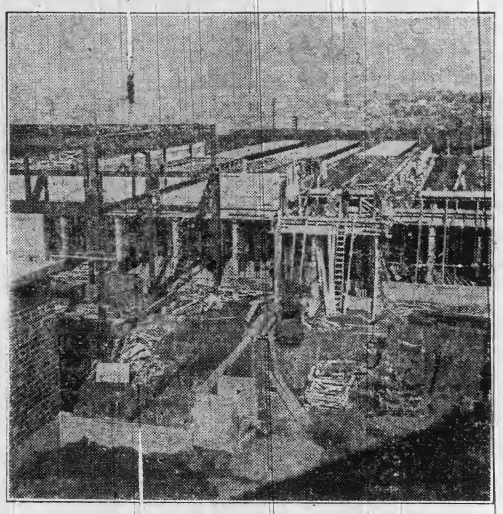
One Ton of Prize Horseflesh



The first exhibit to reach the Texas Centennial Exposition lot at Dallas were the six international champion Clydesdale draft horses of Thomas E. Wilson, Chicago packer. Above, Rangerette Frances Nalle is shown with King, largest of the six, weighing more than 2,400 pounds. The horses now are on a 10,000 mile tour of the Southwest.

Historic Gal!



Marion Rodgers, of Dallas, is the great-great-granddaughter of a Texas soldier who died in the famous "lottery of beans," after the battle of Mier in 1842. Of the 176 Texans captured by the Mexicans, 17 drew black beans from an earthen bowl and were shot to death. 159 drew white beans and were sent to a Mexican prison. Miss Rodgers, whose grandfather, Horace Isa Houston, was a first-cousin of Gen. Sam Houston, is a rangerette for the Texas Centennial Exposition opening in Dallas June 6.

$1,200,000 Going Into Texas Hall of State

Work is well under way on the super-structure of the Texas Hall of State, showpiece of the Texas Centennial Exposition which opens at Dallas June 6. Built of ... one, it will cost $1,200,000.

Exposition Livestock Building Grows

This photograph gives a realistic idea of how rapidly work is progressing on the Texas Centennial Exposition's huge lot in Dallas. All of the frameworks shown above are part of Livestock Building No. 2, one of two structures which will house the greatest stock show the United States has seen. The two buildings, their construction cost close to $400,000, will contain an ultra-modern veterinarian hospital.

Texas Exposition Gathers Speed In Exhibitors' Rush

Building Program Takes Form As 5,000 Workmen Labor 24 Hours a Day

DALLAS, Texas.—Three shifts of workmen—close to 5,000 men working 24 hours a day—are rushing the Texas Centennial Exposition's buildings toward completion by the opening date, June 6.

The Exposition's own $15,000,000 construction program is well under way. The City of Dallas has broken ground on its $3,500,000 program, constituting seven permanent buildings which will form a vast civic cultural center when the Exposition is over. The State of Texas is racing work on the $1,200,000 Hall of State, one of the show pieces of the fair. The Federal Government has its two buildings—the Federal Building and the Hall of Negro Life and Culture—ready to leave the drafting room stage and become realities.

The Midway, probably the greatest the United States has ever seen, is taking a tentative form as entertainment concessionaries fight for choice sites.

Not far from the industrial exhibits—where the latest exhibits of industry and science will be shown—the Exposition two Livestock Buildings are rising.

Here the greatest livestock show the nation ever has seen will be housed.

The buildings alone will cost $400,000, complete with a veterinarians' hospital and every modern device for the care of livestock.

The value of the stock which will be exhibited here between June 6 and Nov. 29 cannot be estimated.

Paul M. Massmann, in charge of the Exposition's exhibit department, already has laid before General Manager William A. Webb contracts for more than 80 per cent of the available Exposition display space.

Included among the exhibitors with whom negotiations have been completed are:

Advance Aluminum Casting Corp., Afga Ansco Corp., Aldridge Seed Farms, Inc., American Thread Co., American Telephone and Telegraph, Ball Brothers Co., Beech-Nut Packing Co., Book House for Children, Catholic Exhibit, Continental Oil Co.

Dr. Pepper Co., Donna Lee Products, E. I. DuPont de Nemours Co., Famous Mineral Water Co., Ford Motor Co., General Electric Co., Genessee Trading Co., Grennan Bakeries, Inc., The Grolier Society, Gulf Refining Co., Harley-Davidson Motor Co., A. Harris and Co., John A. Hertel Co., Hubinger Co., Interstate Cotton Oil Refining Co.

Kellogg Co., Kraft-Phenix Cheese Corp., Missouri-Kansas-Texas Ry., Morten Milling Co., Nassau Pen and Pencil Co., National Life & Accident Ins. Co., H. O'Hayon, National Super Products Co., National Pressure Cooker Co., Peter Pirsch & Sons Co., Portland Cement Association, The Praetorians.

W. F. Quarrie & C., Ratliff's Pure Food Products Co., Reynolds Manufacturing Co., Geo. L. Shuman & Co., Southern Rice Industry, Standard Brands, Inc., Standard Tilton Milling Co., Texas and Pacific Ry., The Texas Co., Westinghouse Electric Co., Walker's Austex Chili Co., L. E. Waterman Co.

Indians Said Devil Lived Here

"The Devil's Tombstone," shown above, is in Palo Duro Canyon, near Canyon City, Texas, 18 miles south of Amarillo. The canyon is one of the beauty spots of Texas that will lure tourists in their 1936 visit to the Texas Centennial Exposition at Dallas and other celebrations throughout the state. The rock drew its name from an Indian belief that it was the burial marker of an evil spirit.

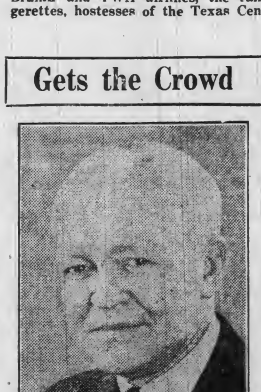
Gun Girl

The gun which Helen Stamps, Texas Exposition Rangerette, holds, is from the collection of A. W. Discher, of Dallas. Eighteen notches on its stock attest to its efficiency in forntier Indian fighting. This, an 1827 Spencer Indian and Buffalo gun, and others from the Discher collection will be displayed during the Exposition which opens in Dallas June 6.

Fly Roses to Dallas' Grave

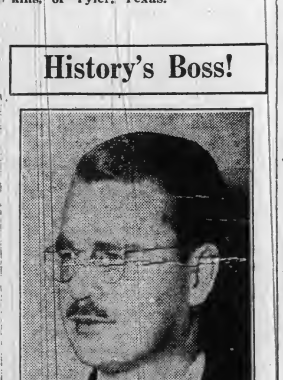
Rangerettes La Vee Kilman, left, and Mabel Rooks are shown above with Mayor George Sargeant as they left Love Field, Dallas, Texas, to place a wreath on the grave of George Mifflin Dallas in Philadelphia. Over Braniff and TWA airlines, the rangerettes, hostesses of the Texas Centennial Exposition, which opens in Dallas June 6, carried Texas' tribute to the former vice president who played such an important part in annexation negotiations. The Centennial Roses were developed by A. F. Watkins, of Tyler, Texas.

Sam Houston's "Man" Gets a Job



"Uncle Ro" Adams, once body servant to Gen. Sam Houston, will be 100 years old, March 2, 1936, the day Texas, where Gen. Houston ever will be a historic figure, celebrates its one hundredth year of independence from Mexico. "Uncle Ro" is shown above as William A. Webb, manager of the Texas Centennial Exposition, which opens at Dallas June 6, assures him he will have an Exposition job.

Real Indian



The Comanche war bonnet and ceremonial shield, displayed by Essie Lee Haynes, are from the collection of Steve Krom, of Dallas. Authentic, made by tribal feather-work experts half a century ago, these and other items of Mr. Krom's collection will be displayed at the Texas Centennial Exposition next summer.

Gets the Crowd

Frank N. Watson, as director of promotion, has the task of informing the public the Texas Centennial Exposition will be in Dallas June 6 to Nov. 29. Apparently it is a task already well done for travel agencies set attandance at 12 million.

History's Boss!

Herbert Gambrell, history professor at Southern Methodist University, noted author and authority on Texas history, is in charge of the historical exhibits at the Texas Centennial Exposition which opens in Dallas, June 6.

To Help Texas Centennial

DALLAS, Texas. — Outstanding church figures are being invited to conduct twilight vesper services at the Texas Centennial Exposition commencing at Dallas June 6 when the Lone Star State will inaugurate a six-months celebration of her 100 years' of independence from Mexico.

Invitations to date have been forwarded to Dr. George W. Truett, president of the Baptist World Alliance; Archbishop Temple of York, England, second in rank of the Church of England; Rabbi Stephen F. Wise of New York, and Dr. Stanley Jones, evangelist.

Hospital for Exposition

DALLAS, Texas.—With almost 5,000 workmen engaged daily in preparing the Texas Centennial Exposition for its June 6 opening, a complete emergency hospital has been set up on the lot here, equipped to handle anything from a splinter in a finger to serious injuries.

First DuPont Exhibit

DALLAS, Texas. — For the first time in more than 100 years of existence, E. I. DuPont de Nemours & Co. will exhibit at a national exposition. Featuring the marvels of modern chemistry. The $100,000 display will be housed in the Hall of Varied Industries when the Exposition opens June 6.

Texas Invites Nation

DALLAS, Texas.—Half a million postcards will go into the mail during the week beginning Jan. 12, addressed to out-of-staters by Dallas residents and inviting them here for the Texas Centennial opening June 6.

$500,000 for Art

DALLAS, Texasfl—Murals, friezes, bas reliefs, works of sculpture and other artistic touches costing more than half a million dollars are provided for in plans of the Texas Centennial Exposition.

Baptists to Honor Houston March 1

DALLAS, Texas.—Baptists all over the United States will join in a religious celebration of the birthday of General Sam Houston, Sunday, March 1.

Houston's birthday falls on Texas Independence Day, March 2, but services will be held in all Baptist churches the preceding Sunday. In his letter to 2,000 Baptist congregations Rev. Howard Williams, secretary of the Texas Baptist Convention, urges union services in every community where there are two or more Baptist churches.

Special services will be held in First Baptist Church, Washington, D. C., which Houston attended when he was United States senator, at Baylor University in Waco, Texas, whose founder Dr. Rufus G. Burleson baptized General Houston and at Independence, Texas, where he joined the church.

The Texas Centennial Exposition which is cooperating with the Texas Baptist Convention in plans for this religious observance will have a $ 0,000 Hall of Religion, a spacious and beautiful building for free exhibit by all denominations. In the Baptist section of the structure special stress will be laid on Houston's services to his state and to the Republic of Texas of which he was the first elected president.

MYRTLE WINGATE, Admx.

what Irvin S. Cobb thinks about:

The "Peasant" Candidate.

HOUSTON, TEX.—To certain candidates: Dear cans., please discourage your campaign strategists, whoever those poor antiquarians may be, who believe you can prove the Spartan simplicity of your rugged souls by inviting distinguished visitors to drop in for pot-luck with you and the family in the kitchen.

Because, dear cans., that's old stuff. It dates back to the McIntyre and Heath era of political vaudeville. The great common people may be common —anyhow the orators keep on telling them they are—but they aren't exactly stupid. Merely because a man has to live in the deep woods doesn't mean he has to think like a woodpecker. I contend it's generally the other way around. With the exception of "Mr. Dooley," practically all the outstanding satiric observers of our national follies sprang from the soil and not from the sidewalk. If there are any true yokels left, their principal center is New York city. And if ever there was a day when Americans in mass believed a man could best qualify for the Presidency by behaving like a peasant, that day has passed.

Odorless Cabbage.

SOME experimental genius at Cornell university has bred a non-odorous cabbage—a thing absolutely guaranteed to remain unsmellable while being cooked. I presume he crossed it with the tuberose.

Now, I never protested when they produced a spring onion with no aftermath to it, no lingering reminiscence. "Fair enough," I said, "after all, why not let bygones be bygones?"

And I shall welcome with glad outcries the evolution of the anti-squirt grapefruit, and the self-opening coconut, and, greatest boon of all, the bicoughless radish.

But to take away from the succulent fried cabbage its only means of self-defense seems a cruel thing. Besides, how in future would a stranger be able after dark to identify an old-fashioned, two-dollar-a-day, American plan hotel? Once he got inside and saw the Gideon Bibles and met the resident cockroaches, he'd know, of course, where he was, but how about approaching in the night-time with no perfume to guide him?

• • •

The Courage of Texans.

THERE'S something about Texans—something different.

The men who tramped the Oregon trail were homesteaders. They took their wives with them, and plows and seed-corn, the forty-niners who went to California had shovels on their shoulders and—if you can believe the Susannah song—banjoes on their knees. But if it came to a pinch they threw away the banjoes first. Because they were looking for gold. But in the beginning those who came to Texas carried rifles and kept their eyes peeled. They were looking for trouble. And, lawsy, how abundantly they found it.

For nobody dreamed then of the incredibly rich and fertile empire this would be. The only prospect was for a fight against the wilderness.

The heritage lives on; Texans still take a chance. A native waylaid me today. First he offered to bet a cool million Mr. Hoover would be nominated. Then he tried to borrow twenty. Both of us came out even. He saved his million. I kept my twenty.

The Happy Warrior's Grammar.

IN THE Sabbath calm following the explosion of Al Smithisms over the palpitant ether, you could almost hear the purists murmuring: "Be sure thy syntax will find thee out"; but the purist vote isn't big enough to count. For culture, a collegiate accent may have it all over the Brooklyn brogue, but there are more people crossing Brooklyn bridge every day than go through Yale or Harvard in 50 years.

Governor Smith may not pronounce radio the correct way—as some critics already have pointed out—but he certainly knows what to do with it when he faces a microphone. All grammar aside—and why not all grammar aside, if leaving it aside keeps simple speech?—when he gets through talking there are no missing word contests, no guessing games afterward. Take it or leave it, you get what he's driving at, the very foist time.

The War in the Papers.

MODERN wars are won by the side with the best advance agent—at least so far as the press notices go. In the inspired reports sent out from Rome, one reads that the white invaders have again routed the dismayed Ethiopians after destroying tremendous numbers of the black warriors, while casualties on the Italian side amounted to two infantrymen suffering from fallen arches and one bystander painfully kicked by an ambulance mule. Or statistics to that gratifying effect. And next day a postscript trickles out from Africa that the victory was so complete the winners only fell back about 20 miles.

LOOK OUT FOR THE MEDICINE FAKER

A. T. McCormack, M. D., State Health Commissioner

Report has reached the State Board of Health of an itinerant vender who recently appeared in Wayne County, offering for sale medicine "guaranteed" to cure blood pressure, high and low, together with nervousness, indigestion, rheumatism, appendicitis and all kinds of liver, kidney and bladder troubles. Three farmers, all residing in the same community, are alleged to have fallen victims to this swindler, each to the amount of $25.00.

The faker is described as an elderly man, rather "fleshy," calling himself "Summers" and claiming to have a laboratory in Nashville, Tennessee, in which he manufactures his own medicine in accordance with a formula known only to himself.

People residing in rural districts are especially warned to be on the lookout for this man and immediately to take out warrants for his arrest should he offer for sale to them any of his so-called medicine. Physician,s particularly health officers, are urged to be on the alert for the appearance of such fakers and swindlers and to report promptly to the State Board of Health and to the proper authorities any suspicious operations.

PROMPTNESS IN REPORTING AND IN TAKING OUT WARRANTS IS ALL IMPORTANT. The harpies that play on human weaknesses and human infirmities are canny birds. They know all too well that their success and their safety lies in changing, rapidly and frequently, the scene of their nefarious activities.

FOUR-H CLUB ENROLLMENT LARGER

Boone County 4-H Clubs are beginning their first 1936 meetings with larger enrollment and increased interest, according to H. R. Forkner, County Agent. Enrollment and organization set up is completed at the first meeting with project record books and instructions to be distributed at the second meetings.

Walton and Verona held their first meetings Mondays. The Walton club had 55 members, the largest enrollment on record for that club. Florence and New Haven clubs met on Tuesday, Burlington on Thursday and Petersburg, Grant, Hamilton and Hebron on the last of this week and the first of next week.

Every boy or girl in Boone county between the ages of 10 and 18 years inclusive who agrees to carry an agricultural or home economics project during 1936 according to approval practices and to keep cost account records is eligible for membership in Boone county 4-H Clubs. Nine Community Clubs are planned for the benefit of members who can attend meetings in the consolidated schools. Enrollment cards may be secured from the County Agent's office or the local officers or adult leaders.

RACE HORSE TRAINER DIES

AT BROTHER'S HOME AFTER SHORT ILLNESS OF PNEUMONIA

The sudden death of John P. Duncan, 78 years old, former race horse trainer of the Walnut Hall stock farm, Lexington, and J. B. Respess farm, Walton, came as quite a surprise to his many friends and relatives throughout this community early Sunday morning. Mr. Duncan had been in bad health for a number of years, however, his condition was not considered serious whn he contracted a light case of pneumonia Friday.

At the time of his death he was residing with his brother, Dr. Edwin Duncan, and wife, of Burlington. It was discovered that he was dead early Sunday morning when Mrs. Duncan went to his room with a cup of coffee.

Mr. Duncan was born in 1858 and from early childhood took a great interest in riding and training horses. He quit school at an early age and went to Missouri where he remained a number of years receiving his primary training, which was to in later years make him one of Kentucky's outstanding trotting and racing trainers.

He is survived by a brother, Dr. E. W. Duncan; three nephews, Hubert Brady, William Duncan and Edwin Duncan; four nieces, Mrs. Emma Brown, Mrs. Kirtley Cropper, Mrs. V. W. Gaines and Mrs. J. M. Lassing and a host of other relatives and friends. A half brother, James Duncan, and a half sister, Susan Brady, preceded him to the grave a number of years ago.

Funeral services was conducted from Dr. E. W. Duncan's home Tuesday afternoon by Rev. Campbell, pastor of Bullittsburg Baptist church, in the presence of his many friends and relatives, after which his remains were conveyed to a vault in the local cemetery awaiting burial as soon as weather conditions permit.

Pall bearers were Lee Cropper, Carroll Cropper, Kirtley Cropper, Walter Brown, Hubert Brady and Lloyd Weaver. Chambers & Grubbs were in charge of the funeral arrangements.

MASS MEETING

OF NORTH BEND WOMAN'S MISSIONARY TO BE HELD AT IMMANUEL BAPTIST CHURCH.

There will be a mass meeting of the North Bend Woman's Missionary Union held at the Immanuel Baptist Church, Covington, Tuesday, Feb. 25th at 10:30 a. m.

Speakers on the program include Miss Kathleen Mallory, Miss Mary Nelle Lyne, Mrs. Ureka Whitaker, State Pres., Mrs. John Stegar, former State Pres., Mrs. Highland, Mrs. R. F. DeMoisey, Supt. of North Bend W. M. U. and Mrs. Ling, who is here from China.

All members of the Missionary Union are urged to attend this meeting and are requested to bring a dish of food to be used for the lunch. Visitors are cordially invited to attend.

Miss Mary Laubisch spent the week-end with friends in Florence.

INJURED

WHILE CLEARING SNOW FROM BRIDGE—HIT BY CINCINNATI CAR.

Thomas Owens, 46 years old, Florence, an employee of the Kentucky State Highway Department, received a fracture of the left leg when cleaning snow from the state owned bridge which crosses the Ohio River from Third and Saratoga Streets, Newport, Monday morning.

Owens was among a number of workmen who were clearing the heavy snow from the bridge when the accident occured. According to reports he was standing on the rear of a truck driven by Jess King, of the same crew, when Jack Martin, Reading Road, Cincinnati, ran into the truck.

Witnesses of the accident said that Owens was flagging traffic with a red lantern. Martin said he was unable to see the lantern due to the snow and darkness.

He was removed to Spears Hospital by police, where his condition is reported fair.

NAMED BANK EXAMINER

H. A. ROGERS

H. A. Rogers, cashier of the Farmers Bank, Petersburg, was appointed a State Bank examiner yesterday by Gov. Chandler. Mr. Rogers served as assistant cashier at Grant and had four years of experience with the Fifth-Third Union Trust Co., Cincinnati, before accepting the position at Petersburg. He is 34 years old.

ALL-DAY MEETING SOILS AND CROPS

LEADING RESEARCH MEN TO SPEAK AT CROPS MEETING AT BURLINGTON.

George Roberts, head of the Soils Department, and E. J. Kinney, head of the Crops Department of the Kentucky State Experiment Station, will speak at the Boone County Soils and Crops Meeting to be held at Burlington Friday, February 28th, according to H. R. Forkner, County Agent.

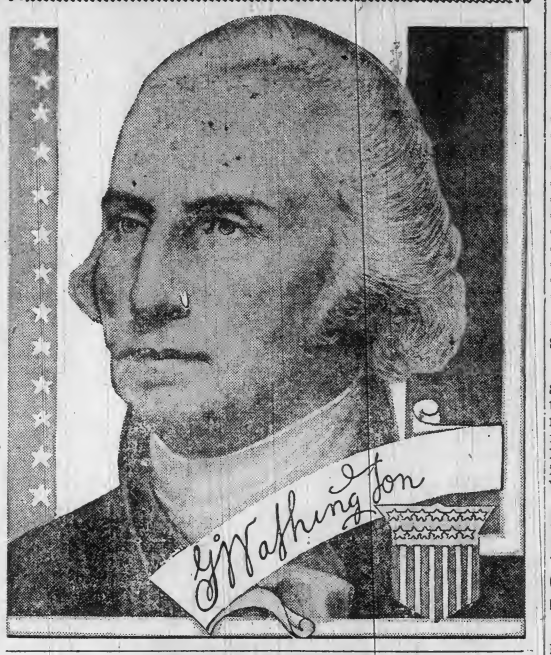
Both of these men are recognized nationally as authorities in their respective fields, and are in constant demand to address farmers' meetings throughout the State. "Boone County is fortunate," said Mr. Forkner "in securing these two veteran research men to address our meeting."

The farmers of this county, along with those of the entire country, are awakening to the importance of the problem of Soil Conservation and Pasture and Hay improvement. Never before has the interest in these projects been what it is today and it is expected that a big audience will be on hand to hear Mr. Roberts and Mr. Kiney.

During the meeting, which will last the entire day, there will be periods of round-table discussions, to give the farmers attending a chance to ask questions applying directly to Boone County problems. Mr. Roberts is authority of the statement that practically any land in the state can be built up to a highly productive level equal to the best, by the following practies of soils and pasture improvement now recommended as the result of years of research work under actual farm conditions carried on at the experimental farms throughout the state. Mr. Roberts points to farm in all sections which have adapted these practices.

Maurice Blair, 36 years old, Erlanger, was sriously injurd Sunday night when an automobile struck him as he was crossing the Dixie Highway in Erlanger. He was takn to the St. Elizabeth hospital where it was learned that he had a possible skull fracture and a fractured collar bone. His condition was reported to be fair.

OLD MAIDS TO PLAY



The Florence high school gymnasium will be the scene of an old maids basket ball game Friday night, Feb. 28th, at 8:00 P. M., when two teams of former Florence high school girl players tangle. Only the graduates of several years ago are permitted to participate.

The game is being sponsored by the Florence Junior class.

ANOTHER CALL FOR HELP

It has been estimated that a third of the game birds of northern Kentucky have perished during the prolonged cold period, therefore, all organizations of wild life and interested individuals are requesting that every person interested in the preserving of this wild life do his part by scattering grain and putting out water in spots where the birds may have access to it.

Our First Leader

GEORGE WASHINGTON

In a month replete with notable birthdays and anniversaries, February 22 stands out in the minds of Americans as the date of greatest significance, the birthday of George Washington.

As a national holiday it is perhaps second only to the Fourth of July, while as a matter of fact it is probably an anniversary of even higher importance, because without a Washington the struggling colonies might not have made the Declaration of Independence effective.

Although much that is legendary has been associated with the life of Washington, due probably to the zeal of Parson Weems, his early biographer, the main facts of his inestimable service stand unimpeached, and his fame taken on added luster with the years.

Leading a poorly trained, ill equipped and sometimes mutinous army, Washington kept aflame the fires of patriotism when a less determined and less capable commander might have given up in despair. While aid from France finally turned the scale in favor of the colonies, without Washington's genius and heroic persistence the Continental Army would have been crushed into submission before that aid arrived.

It is well that we should honor his memory on his birthday and on all other days, but nothing we may say or do can add to or subtract from the priceless heritage pitomized in the deathless name of Washington.

If You Don't Enjoy Eating, A Good Washing Will Do

"If you don't like spinach it will be just as healthful to wash," says Dr. George Sperti, internationally known among scientists for his work in irradiation of foods. The vitamins A and D which are obtained through the eating and digesting of spinach can be obtained through the skin by washing with a new soap recently discovered by Dr. Sperti.

Scientifically speaking, this research emphasizes the importance of the skin's function as a means of "feeding the body." However, Dr. Sperti declares that this does not mean people of the future will wash three times daily rather than to eat at their regular intervals. "There's no substitute for the pleasure of eating a meal," he exclaimed.

Dr. Sperti has made numerous discoveries during his few years in scientific research work. He was director of the Basic Science Research Laboratory of the University of Cincinnati for 10 years, leaving that post a year ago. Patents developed at the University by Dr. Sperti on the irradition of foods were sold for $300,000, which was used in building the present laboratory at the University. He also is co-author with Dean Herman Schneider, University of Cincinati, of the "Quantum Theory in Biology," which deals with biological application of physical principles.

The young discoverer is well known throughout this community and frequently spends his vacations at his beautiful lodge just south of Burlington, on Gunpowder Creek. Only several months ago he gave an old fashion square dance at his summer resort for the local townspeople. It is through common connections such as these that Dr. Geo. Sperti has become known as "George" by his many friends here.

CONSTANCE YOUTH SUCCUMBS AT ST. ELIZABETH HOSPITAL

Jesse Wilburn Hood, 11 years old of Constance, Ky., died at the St. Elizabeth Hospital, Covington, on Monday, Feb. 17th, from an attack of appendicitis.

Young Hood was the son of Irvin Hood, Constance.

We have been unable to secure particulars concerning the funeral arrangements.

J. P. Brothers, of Limaburg, was a caller in Burlington, Monday. Mr. Brothers reports that there has been a good sale on tickets for the Young Men Democratic Club Dance.

ATTENTION EX-SERVICE MEN

The Office established by Boone Post No. 4, American Legion, in the Court House at Burlington for the purpose of assisting all Veterans in Boone County make application for their Bonus will be open Thursday night, February 20th, and Tuesday night February 25th, beginning at six-thirty, Central Standard Time.

All Veterans are urged to take advantage of one of the above mentioned nights as the office will be closed after Tuesday night February 25th.

BOONE POST No. 4
AMERICAN LEGION

AAA PAYMENTS TO BE MADE

Government obligations and commitments to producers under AAA contracts will be completed, according to an official notice received by H. R. Forkner, County Agt., on last Thursday, February 13th.

This means that the several thousand dollars due Boone Co. growers for compliance under AAA Corn-Hog, Wheat and Tobacco contracts will be paid in full. Growers will greatly assist in securing their final payments if they will cooperate when called upon to complete proper compliance forms where required. All growers will be notified by the County Office when these forms are required or when payments are to be made. All tobacco allotment cards should be turned in as soon as possible.

SIDEBOTTOM MAY RUN FOR U. S. REPRESENTATIVE

It has been reported that P. L. Sidebottom, state representative of the fifth district, may decide to run for the democratic nomination for U. S. Representative against Brent Spence. Other reports also indicate that J. Lyter Donaldson, Warsaw, will be a candidate.

DREDGING CREW SAFELY RESCUED

FROM ICE-LOCKED BOAT BY THE STEAMER GENERAL CRAIGHILL, SUNDAY—LLOYD PRESSER AMONG THE EIGHT MAROONED MEN

After being marooned on an ice-locked dredge boat for nine days, eight government workers, including Lloyd "Shucks" Presser of near Belleview, were rescued by the steamer General Craighill, under the leadership of Captain Roger Smith, Sunday.

The men became trapped on their boat in a narrow stretch of water between two islands in the Ohio river 35 miles north of Paducah on Friday, Feb. 7th, when heavy ice flows prevented their reaching either Kentucky or Illinois shores.

At one time it was feared that the maroond workers would not have sufficient food to last them until the ice cleared enough to permit a rescue party, later however it was learned that the men had access to Hurricane Island, which had a number of hogs on it.

When rescued the men joked with their families about their experience. Their boat, a barge and dredge also was brought back to Paducah.

DEMOCRATS TO DANCE

According to those in charge of the ticket sales for the Young Men's Democratic Club dance to be given Friday night, Feb. 21, at Zimmers Club House, Ft. Mitchell, approximately 200 couples will be present to enjoy the evenings entertainment. Music will be furnished by Sammy DuVall and his orchestra.

ANDY SCHEBEN

ELECTED PRESIDENT OF NEW ERLANGER BANK — M. J. MITCHELL, VICE-PRESIDENT.

Andy Scheben has been elected president of the newly organized Erlanger Community Bank, which opened its doors for business Saturday, February 15.

The institution is located in the building occupied until rcently by a branch of the Peoples-Liberty Bank & Trust Co., Covington. The branch office of this bank has been transferred to the bank's main headquarters at Sixth and Madison Avenue.

M. J. Mitchell will serve as vice president and William Faulmer as cashier.

Other officers of the new bank are O. M. Rogers, C. F. Blankenbeker and Phil Tamaferro.

NEW HAVEN TEAMS TO TANGLE WITH BURLINGTON

The New Haven basketball teams will clash with the local fives Friday night on the Burlington hardwood. Neither the New Haven or Burlington quintets have had outstanding season, but a friendly rivalry between the two schools insures two good games. The first game will be called at 7:15 p. m.

MORE HAY AND PASTURE NEEDED

FOR THE IMPROVEMENT OF DAIRYING IN BOONE COUNTY SAYS COMMITTEE.

The work of the Boone County Planning Committee has brought out some facts of special interest as to farm conditions in the county. Of first importance is the feed crop situation. It was found that the county is producing only about two-thirds of the hay that its livestock actually requires for proper maintenance. Most of the older farmers can recall the day when hay was a surplus cash crop in Boone county, and seasons of the year when the roads were filled with a procession of wagons hauling hay to the city markets. That was before the dairy industry was developed. For a while there was no need for the hay as the city market dwindled with the going of the horse and before the dairy cows were brought in.

Now, with dairying the leading industry of the county there is a great need for more hay. The Planning Committee is expected to recommend an increase in Korean lespedeza and in alfalfa, particularly, along with some increase in red clover, alsike and timothy.

The County is not producing all the corn it uses but on the average Boone County farm it is not considered advisable to increase the corn acreage, due to the losses in the growing of the corn crop.

Tobacco a Problem

Due to the good price received the past season for tobacco it was conceded that there would be an acreage increase in Boone for 1936 but the Planning Committee is strong in its recommendation that the acreage be held to that of 1935. It felt that time devoted to other crops or to livestock might pay the farmer better, in view of the lower price that is bound to result from a larger crop, and at the same time the one who restricts his acreage will contribute his part toward a reasonable level of production.

Sheep Outlook Favorable

An increase in sheep production has been recommended. Boone County in the past has been a much heavier producer of sheep than it is today. Since no increase in dairy production is thought advisable, sheep, along with horses and mules were recommended for increased attention. It was pointed out that Kentucky as a whole is most favorably situated and has many advantages for livestock production.

Planning National In Scope

The work of the county committee, composed of representative farmers from each community, has been summarized into a report that goes to a central state committee, where it will be joined by reports from every county in Kentucky. A state summary will then be sent on to Washington and be used in the work of a National Planning Committee. Recommendations based on conditions throughout the country will eventually be sent back to the local committee.

It is expected that through this planning work farm production will be more accurately adjusted to market demands, that great strides will be made in Soil Conservation, and that a better program of land use will develop.

HONOR STUDENTS

OF BURLINGTON SENIOR CLASS INVITED TO ATTEND SERIES OF LECTURES — "APPLICATIONS OF THE PHYSCIAL SCIENCES" IS TOPIC.

Cincinnati, February 18—Names of junior and senior honor pupils from Burlington high school who have been recommended by their chemistry, physics, and advanced mathematics teachers to receive invitations to the University of Cincinnati complimentary series of Saturday morning lectures on "Applications of the Physical Sciences" were announced today by the University.

These students rank among the upper ten per cent in their high school science and advanced mathematics classes. They will next hear Dr. Henry M. Goettsch, professor of inorganic chemistry, speak February 22 on "Oxidation and Combustion."

Attending from Burlington high school are: Franklin Bethel, Howard Garrison, Ivan Norris.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

THE MOST FOR THE LEAST MONEY

The space given to worthy causes by every newspaper is accepted as a matter of course by most persons, who never stop to think that space to a newspaper is what merchandise is to a store.

The editor, in proportion to his means, does more for his town than any other ten men, and in all fairness he ought to be supported, not because you like him, or admire his writing, but because the local paper is the best investment a community can make. Today the editors of local newspapers do the most for the least money of any people on earth.

To help worthy causes is instinctive with most newspapers and much of it is done without the slightest hope or expectation of any reward outside the satisfaction derived from proper performance of duty.—Kentuckian-Citizen.

THE NEW CONSTITUTION WRITERS

With each generation there springs up a crop of individuals who seem to think they could have done a better job of writing a Constitution than did George Washington, James Madison, Charles Pinckney, Edmund Randolph, Alexander Hamilton, et al.

There is such a crop in Washington now. For instance, Representative Marcantonia proposes a Constitutional amendment giving the federal government control over agriculture, industry, child labor, hours of labor, rates of pay, old age pensions, natural resources and unemployment insurance, and to take over all business and industry. His amendment adds: "The power of the several states to enact social welfare legislation is unimpaired by this article, but no such legislation shall abridge or conflict with any act of Congress under this article." In other words, the states may do as they choose so long as they do what the federal government tells them to do.

Representative Cross and another small group would deprive lower federal courts of the right to pass on the constitutionality of acts of Congress, a proposal rejected at the first Constitutional Convention. Cross, of course, knows about the principles on which this government was founded than did Washington, Madison, Pinckney, and the rest of them. To use the vernacular, the answer is: "Oh, yeah?" Or maybe even: "prrrrt!"

Senator Noris would depive the Supreme Court of the right, save by 7 to 2 decisions, of holding laws unconstitutional. Such an idea also was discussed at the first Constitutional convention and forgotten.

We wonder if these would-be Madisons, had they been alive when our nation was founded, could have given us what we now have—the best country on earth?

The fathers of our country were just amateurs at politics; but they knew how to build a structure that would last.

SHOW THE YOUNGSTERS NOW

Among children of school age no disease takes as many lives as accidents. These accidents occur at an age when there has not yet been time for habit to gain ascendency over conduct. Most educational authorities recognize that a child can be educated to behavior safe for himself and for others. Safety education in the elementary schools has made great strides both in development and results.

Three methods, says the Education Division of the National Safety Council, are being used most successfully in teaching of safety in the schools. "First, the teaching of safety in actual situations where the need for it is apparent. Second, the injection of the subject matter of safety into the regular subjects of the curiculum. This provides opportunity for children to follow interests which lead into the more general aspects of safety, thereby greatly adding to their fund of information. Third, the organization of extra-curricular activities such as junior safety councils, schoolboy patrols and the safety clubs. These activties present an opportunity for the child to apply his knowledge to the benefit others, thus assuring definite civic responsibilities."

The result of this work is that since 1922 accidental deaths of children have decreased in every category except traffic accidents, while adult deaths have increased sharply. It is estimated that safety education is saving the lives of 8,500 children a year.

A movement to expand this educational program to the incorporation of good driving courses into the curriculums of the high schools has been gaining strength for several years. A number of states have already instituted such couses and a number of others, as well as counties and communities, are ready to inaugurate them.

This movement deserves unqualified backing and encouragement. If our youths can really be made responsible users of the street and highways, then we can look forward to gradually supplanting the adult motoring population of today which is responsible for the deaths of 36,000 persons annually.

EDITORIAL PARAGRAPHS

We hear of the great American Wonders—here's one—we wonder why a dozen men cannot be rescued from an island in the middle of the Ohio River.

Kentucky failed to pass the bill which would legalize dog racing in the state, therefore, letting thousands of Northern Kentuckians and Jefferson Countains drive directly across the River and wager their money on tracks at Harrison and Jeffersonville, respectively. Kentucky money gone for Indiana and Ohio revenue.

Indications point to the fact that there will possibly be five or six candidates seeking the Democratic nomination for United States Representative, from Northern Kentucky.

Guess—you can be a weather prophet. One day last week it turned warmer, it turned colder, it rained, it sleeted, and it snowed. It also froze and it thawed.

When we heard that the coal supply was at a low ebb in the Western states our thoughts turned to the old story that they would start burning corn.

NEED NOT HURRY TO CUT BACK SHRUBBERY

There is no need for haste in cutting back shrubbery believed to have been injured by severe winter weather, says N. R. Elliott, landscape gardener at the College of Agriculture, University of Kentucky. More damage may be done by hasty and unwarranted pruning than was done by freezing.

It is better, says Prof. Elliott, to wait until growth reveals just how much damage really was done. It may be much less in some instances than appears now. Pruning may be done any time in the spring or early summer.

It is feared that considerable damage was done to hedge and other kinds of ornamental shrubbery used in landscaping.

The Charches

For God so loved the world that he gave his only begotton son, that whosoever believeth on him shall not perish, but have everlasting life. —John 3-16.

SAND RUN BAPTIST CHURCH

Rev. C. J. Avery, Pastor

Rev. Avery delivered two inspiring, spirit filled messages last Sunday.

Sunday school and church attendance both above the average.

Sunday School 10 a. m., Feb. 23.
Earl Washmuth, Supt.
B. Y. P. U. 11 a. m.

Prayer meeting Wednesday evening in charge of Sunday school officers.

HOPEFUL LUTHERAN CHURCH

Rev. H. M. Hauter, Pastor

Sunday, Feb., 23rd, Bible School at 10:00 a. m. Mr. John Surface, Supt. Morning Worship at 11:00 a. m. Subject of sermon (The Philosophy of Love).

Postponed Communion Service will be held at this time.

HEBRON LUTHERAN CHURCH

Rev. H. M. Hauter, Pastor

Sunday, Feb., 23rd, Bible School at 10:00 a. m. Mr. D. E. Dolwick, Supt.

Luther League Devotional Service at 8:00 p. m.

Subject for disoussion (The Parables of Christ).

PETERSBURG CHRISTIAN CHURCH

Rev. Don Walter, Pastor.

Sunday School .....10 a. m.
Raymond Witham, Supt.

Preaching 11 a. m., and 7 p. m., every first and third Sundays.

PETERSBURG M. E. CHURCH

Rev. DeArmond, Pastor.

Preaching every first Sunday 11 a. m., and 7 p. m.

BAPTIST CHURCH

Florence, Ky.

Bible School .....10 a. m.
Joe Surface, Supt.
Morning Worship.....11 a. m.
B. Y. P. U. .....6:30 p. m.
Evening Worship .....7:30 p. m.
Mid-week Prayer Service.
Wednesday night at 7:30

Come worship with us; you are always welcome.

PETERSBURG BAPTIST CHURCH

Rev. W. T. Dunaway, Pastor.

Sunday School .....10 a. m.
John H. Cook, Supt.

Preaching Services 11 a. m., every second and fourth Sundays an 7 p. m.

FLORENCE W. M. U.

The Florence W. M. U. and Ladies Aid spent a most delightful day with Mrs. Blanche Beemon on Feb. 13th. She proved herself a genial hostess and led the program too. It was very interesting and instructive. The next meeting will be with Mrs. Cecil Fraim on Shelby St. Every one is looking forward to the Baked chicken dinner given by the Ladies of the Florence Baptist church on Feb. 22nd, from 5 till 8. The members will be delighted to have you there not only to help them (which it will certainly do), but also they hope you will enjoy the holiday meal out. Let's go and have a good time. Prayer service on March 4th in afternoon at the church.

The Womans Missionary Society of Burlington Baptist church held their monthly meeting Feb. 13 at the home of Mrs. W. B. Cotton, beginning at 2o'clock with President Mrs. Alice Yelton in charge.

Song—Lead on King Eternal.
Scripture—Matt. 13-39 and Lesson—Topic—Parable of the Sower—Mrs. Alice Yelton.
Prayer—Mrs. Alice Yelton.
Program in charge of Mrs. Pauline Smith. Topic Labors together in Kingdom Task.
Why Cooperative Program—Mrs. Annie Gaines.
Orphanges—Mrs. Jeanie Hensley.
Hospitals—Mrs. Pauline Smith.
Christian Education—Mrs. Catherine Easton.
State Missions — Mrs. Kathryn Brown.
Old Ministers, Relief and Annuity—Mrs. Pauline Smith.
Home Missions — Mrs. Nettie Kelly.
Foreign Missions — Mrs. Annie McMullen.
Prayer—Mrs. Annie Gaines.
Song—Mrs. James and Mrs. Anna Huey.
Baptist Hundred Thousand Club—Mrs. James.
Margret Fund—Mrs. W. B. Cotton.
Prayer—Mrs. W. B. Cotton.
Business.
Prayer—Mrs. James.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. P. B. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago. © Western Newspaper Union.

Lesson for February 23

PEOPLE BEFORE PROPERTY

LESSON TEXT—Luke 8:26-37.
GOLDEN TEXT — No servant can serve two masters; for either he will hate the one, and love the other; or else he will hold to one, and despise the other. Ye cannot serve God and mammon.—Luke 16:13.
PRIMARY TOPIC—Jesus With His Friends in a Storm.
JUNIOR TOPIC — Jesus With His Friends in a Storm.
INTERMEDIATE AND SENIOR TOPIC—Sympathy or Selfishness?
YOUNG PEOPLE AND ADULT TOPIC—Human Welfare Before Financial Profit.

After his teaching by the parable of the soil and the lighted candle, Jesus exhibited his credentials, enforcing his teaching by demonstrations of his mighty power.

I. Jesus Calming the Storm (vv. 22-25).

In this miracle he demonstrated his power over nature.

1. Jesus asleep (v. 23). While the disciples were sailing the ship the Master fell asleep.

2. The frightened disciples (vv. 23, 24). The storm seems to have been an unusual one. These sturdy men were used to storms, but as their ship was being filled with water they awoke Jesus with their cry of fear.

3. Jesus rebuked the wind and water (v. 24). At his word there was a great calm. We can with confidence put our trust in Jesus Christ.

4. Jesus rebuked the disciples (v. 25). After rebuking the raging elements, he turned to the disciples. He did not rebuke them for waking him, but for their lack of faith.

II. Jesus Casting Out Demons (vv. 26-39).

In this mighty act Jesus' power over demons was demonstrated. Demon possession was in that day, and it is today, an awful reality. The characteristics are often similar to cases of insanity, and many are called insane, who are really demon-possessed.

1. Jesus met by the demoniac (vv. 26-29). This poor man's suffering was dreadful. He abode in the tombs without clothing. At the sight of Jesus he made an outcry and fell down before him and besought him not to torment him. There is no doubt in the mind of demons as to the reality of a place of torment.

2. Jesus' question (v. 30). He asked him, "What is thy name?" His purpose was to bring the real man to consciousness, to enable him to distinguish between himself and the demon who held him. The answer shows that the man thought his case was hopeless. He said, "Legion," which meant that many demons had entered into him.

3. The demons' request (vv. 31, 32). They asked permission to enter into a herd of swine.

4. Their request granted (vv. 32, 33). Just why this was done we do not know. Since Jesus did it, we must believe that it was right and wise.

5. The effect upon the people (vv. 34-37).

a. The keepers of the swine went and made it known in the city and country.

b. The people made investigation. They saw the man sitting at the feet of Jesus, clothed and in his right mind, and heard the testimony of those who had seen what was done.

c. The multitude besought Jesus to depart from them. How sad it is that in the face of the mighty works of Jesus men will not open their hearts to him.

6. The request of the healed man (vv. 38, 39). He desired to be with Jesus. This was natural and right, but his responsibility was to go home and show to the people there what great things God had done for him.

III. Jesus' Power Over Disease (vv. 43-48).

Jesus heals a woman with an issue of blood. Observe:

1. Her helpless condition (v. 43). She had been a great sufferer for twelve long years (Mark 5:26).

2. Her faith (v. 44). Her faith was demonstrated by pressing her way through the thronging multitude.

3. Her confession (v. 47). She thought furtively to get the blessing, but Jesus had her make a public confession.

4. Christ's words of encouragement (v. 48). He told her that it was her faith, not her touch, that saved her, and bade her go in peace.

IV. Jesus Raises the Dead (vv. 40-42; 50-56).

1. Jairus' request (vv. 40-42). His only daughter lay dying. He besought Jesus to come to his house.

2. Jairus informed of his daughter's death (v. 49).

3. Jesus' assurance (v. 50).

4. The skeptical mourners (51-53).

5. The daughter raised (vv. 54-56).

A Harsh Word

To be silent, to suffer, to pray whenever I cannot act, is acceptable to God. A disappointment, a contradiction, a harsh word received, and endured as in his presence, is worth more than a long prayer.

Our Relation to God

Vice and virtue chiefly imply the relation of our actions to men in this world; sin and holiness rather imply their relation to God and the other world.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF FEB. 23, 1926

BURLINGTON GIRL WINNING HONORS AT LEXINGTON, KY.

Lexington, Ky., Feb. 20th—Miss Mary Bess Cropper, daughter of Mr. and Mrs. Lee Cropper, of Burlington, Ky., is a senior in the College of Education, Miss Cropper was graduated from Boone County Hi School with honors.

Since entering the University of Kentucky Miss Cropper has made a host of friends. She has gone in for many activities, especially the Y. W. C. A. of which she is a member of the sub-cabinet of this organization. Miss Cropper is a prominent candidate for the Kappa Delta Pi, honorary educational fraternity. She is taking Education as a major subject with Latin as a minor.

MRS. CARRIE CARPENTER

Mrs. Carrie Carpenter, widow of Lum Carpenter, passed away at her home near Florence last Sunday night after a lingering illness. Funeral services were conducted at the late residence by Rev. Cardwell, Wednesday at 2 P. M., after which the remains were interred in the family cemetery nearby.

Mrs. Carpenter is survived by two sons, Ed and Charles, besides a host of relatives and friends. Undertaker Phillip Taliaferro had charge of the funeral arrangements.

LOCAL

Dogs made a raid on H. W. Rouse's flock of sheep last Sunday, but fortunately Mr. Rouse was at home and discovered the dogs before any damage was done.

W. L. Kirkpatrick's sale last Saturday afternoon was attended by a fair sized crowd, and things sold at a bargain. Chester Tanner and Dolpha Sebree were the auctioneers.

PETERSBURG

Mrs. M. T. Grindy of St. Louis, Mo., returned home last Thursday after a month's visit with her parents, Mr. and Mrs. J. B. Berkshire.

Mrs. Claude Tandy has returned to her home in Carrollton, Ky., after an extended visit with relatives.

BELLEVIEW

Prof. Hook and wife, of Burlington spent the week-end with Mr. and Mrs. J. E. Rogers.

Paul Cook, of Uniontown, arrived last Friday to attend the funeral of his sister-in-law, Mrs. Herman Peters.

James H. Aylor and wife gave the young folks a party, last Wednesday night.

Rev. J. A. Kirtley filled his regular appointment at the Big Bone church on the 13th inst.

THIRTY-EIGHT YEARS AGO

Erlanger

The case of Hy Neis Vs. S. P. Owen was tried before Squire Childress and a jury. Both claimed ownership to a horse. The jury gave plaintiff the horse and $10.00 damages. Attorneys—S. W. Adams for plaintiff, W. C. Rchie for deft.

Richwood

Clum Bedinger has volunteered as a home guard in case of war with Spain.

Hon. Reubn Conner spent a few days at home last week during the adjournment of the legislature.

Belleview

Perry Clore is ahead in the checker tournament.

Joseph Maurer and sons, shipped fifty dozen clothes baskets to a firm in Chicago one day last week.

Our city fisherman, Jas. Smith, cast his sein the other day and captured a barrel of fish at one haul, mostly perch. Verily, James knows now and where to get them.

Boone Rogers sold to Miss Coolley & Co., 22 hogs weighing 150 pounds each at $3.70 per cwt.

News Tour

By Wm. C. Walton

The Panama canal is a lock and lake type canal. Traversing the isthmus of Panama between the Atlantic ocean and the Pacific ocean. Panama is due south of Pittsburgh, Pa. It was Feb. 23, 1904 when President Taft was in office that the United States acquired the right to construct a canal across the isthmus of Panama. The canal is 50.42 miles in length, 300 feet wide at the bottom of the channels, 110 feet wide in the lock chambers and the depth is 41 feet. There are three locks on the Atlantic side and three steps or chambers called lower-middle and upper, this lift is up to Gatun lake which is 85 feet above sea leved. The reason for not making the whole canal at sea level was the greater expense and time involved than in the existing lock canal.

On the Pacific side there are three steps made to the ocean. The canal can handle any ship now afloat with the exception of the Normandie and the Queen Mary. These ships are longer than the lock chambers, it is expected that a third set of locks will be built with a large dimension and depth than the present locks.

The canal zone is a strip of land extending five miles on either side of the center of the canal, but extending the cities of Colon, at the Atlantic end and Panama at the Pacific end.

The population of the canal zone is 41,000 persons, including military personnel. The canal was open for navigation on August 15, 1914. Traffic in the first few years was hampered by slides in the Culebra cut, the canal is a great success now and the tolls for 1935 were $23,307,063.

The United States paid Panama $10,000,000 and $250,000 per year after the ninth year and the United States has acquired title to all of the land in the canal zone, reembursing private owners and now no land is available for private ownership.

Now!

Weekly Rates

DILLSBORO

Afford Further Reductions

Effective immediately, weekly rates affording real savings, prevail at Dillsboro. Now you can have a room, three wonderful meals a day, and all the Dillsboro facilities available, for as little as $25 to $35 a week! Think of it—never before have such rates been possible! Decide now to send in your reservation for a week or two at this famous health resort. You'll feel like a new person after taking the Dillsboro mineral baths, and drinking the beautiful White Crane mineral and laxative waters. Drive down Sunday for the dollar chicken dinner, and you can make your arrangements in person.

FARMERS CONSCIOUS OF EROSION LOSSES

It is a hopeful sign that Kentucky farmers are more conscious than ever before of the enermous and menacing losses caused by soil erosion, declares Prof. George Roberts, head of the agronomy department of the College of Agriculture, University of Kentucky.

"But it is just as necessary that they become as fully conscious of the means of preventing erosion, and of their duty to apply these means," he adds.

"There is no possibility of effectively controlling erosion without a vigorous protective covering on the soil as much of the time as possible; but such a covering cannot be produced on poor soils. The ideal for Kentucky is a good covering of grass and legumes to be used for pasture and hay, so that as little of the land as possible will be plowed up to produce tilled crops to feed animals. Good pastures can be grazed much longer than poor ones, and they are much more nutritious. The longer grass can occupy the land in a rotation, the better it is for the soil. In some of the hill regions that are well adapted to grass, it may in the long run be more profitable for some farmers to buy what grain they have to have than to plow up the land very often.

"The wide adaptation of the lespedezas in Kentucky makes the pasture problem much simpler than in regions where lespedeza cannot be used. The abundance of cheap limestone and marl makes its use possible by almost any farmer and, supplemented by phosphate fertilizers good pastures and hay can be made profitably anywhere in the State."

USE CARE IN BUYING BRUISED VEGETABLES

Badly bruised and specked vegetables are rarely good buys. However, if the blemishes are only of superficial nature, and if there is little delay in their use, such vegetables may be bought with economy, points out a statement from the College of Agriculture, University of Kentucky.

Sweet Potatoes—More perishable than Irish potatoes, even slight injury may prove decidedly serious soon, especially if the storage place is at all cool and moist. Dark spots, particularly near the ends of the tubers, may be a sign of black rot. This rot proceeds through the potato and spoils the flavor. Small skinned areas that have become dry cause slight loss in table preparation, but do not affect the flavor or the keeping quality.

Cabbage—Good cabbage is bright in color, firm, crisp and heavy; the greener it is the more food value it has. Excessive wilting and yellowing are signs of age and that the flavor has been impaired. Shallow spots are no objection except for the loss entailed in table preparation, and if the cauliflower is to be used promptly; spotting is, however, a fore-runner of complete breakdown, exceedingly rapid sometimes.

String Beans—String beans owe much of their palatability and flavor to their being crisp and fresh. Moderate wilting does not affect their food value to any great extent, but distinct fading and yellowing does. Any discolored areas should be viewed with suspicion, for these may be the beginnings of any one of several rots and molds that may destroy the whole, even in 24 hours.

LIFE INSURANCE ASSETS CLIMB

In spite of the heavy deflation that took place during the depression years, the total assets of the life insurance industry showed a steady climb.

At the end of 1929, these assets were $17,482,000,000. At the end of 1935, they had reached approximately $23.200,000,000.

Dunring depression it was inevitable that the invested assets of the companies should shrink in value. Even so, very few companies have run into difficulties in meeting their contracts, and the current business betterment is reflected in steady strengthening in the worth of the average company's investment portfolio. It is a well known fact that all life insurance companies maintain a large cash reserve, which obviates the necessity of liquidating investments at unfavorable times.

Life insurance investments fall into two principal fields—real estate mortgages and bonds. Real estate is obviously the soundest of all investments in the long run—the worst of depressions cannot make the land unfertile. And the kind of bonds life companies buy represent all that is necessary and productive in industrial life.

WHO'S WHO IN KENTUCKY

A continuous panorama of native Kentuckians, exponents of art, the sciences, education, government, business and civic progress will be presented in WHO'S WHO IN KENTUCKY, the first representative biographical edition ever to be published in Kentucky. The Standard Printing Co., Inc., Louisville, are compiling and publishing the volume, which will be off the press late in February or early in March.

The first radio broadcasting apparatus was born of the genius of a Kentuckian, who broadcast the first message in Kentucky. Moving picture 'talkies' is the inventive products of a Kentuckian. The first practical steamboat model was not by Fulton, but was the work of a Kentuckian.

Sharing in modern art, Kentucky produced the formost American painter during the past few years. Proclaimed internationany, Dean Cornwell, recognized as the world's greatest illustrator, started his career in Kentucky. In letters there is no more versatile or better beloved author than Irvin Cobb, the world's highest paid short-story writer. The New York Sun is guided by Keats Speed. He and Arthur Kroke ,winner of the Pultizer prize for newspaper writers last year, are native sons. Paul Mallon and others of equally wide journalistic reputation started their careers in Kentucky. One of Hollywood's greatest producers was born in Kentucky and calls this state 'home.' Some of the reigning stars of the movie and theatre world saw the first light here.

All these and thousands more will appear in the first edition of WHO'S WHO IN KENTUCKY along with the descendants of Lincoln, Jefferson, Davis, Boone, Michael, Stoner, Breckinridge, Albert Sidney Johnson John B. Morgan, Shelby, Clay and others of like pioneer caliber.

The publishers are eager to present leaders in every vocational field. The 'deadline' for the work will be set soon and it is important that Kentuckians receiving invitations to submit their biographies are also welcoming any informa- respond readily. The publishers tion that citizens wish to submit.

HOME-MADE BROODER CUTS CHICKEN COST

The home-made brick brooder is one of the ways farmers may reduce the cost of raising chickens. Approximately 5,000 Kentucky farmers are using this type of brooder, thereby escaping the cost of purchasing brooders and also the expnse of fuel, since wood obtained on the farm is used for firing. More work is attached to the operation of a brick brooder than to the factory brooder, since there are no mechanical controls.

Instructions for making brick brooders can be obtained from county agricultural agents or by writing to the College of Agriculture, University of Kentucky, Lexington.

Dallas, Texas, Feb. 12.—Three Kentuckians will serve on the national committee of the National Folk Festival which will be held at the Texas Centennial Exposition here for two weeks beginning June 14. They are: Mary Cummings Eudy, Louisville, Jean Thomas, founder, American Folk Song Society, Ashland and Nelle B. Vaughn director of "My Old Kentucky Home" commission at Bardstown.

Announcement was made of the Kentucky participation in the National Folk Festival by Miss Gertrude Knott, national director of the movement who is now in Dallas arranging for the gathering here in June. The Texas Centennial Exposition will open here June 6 and will continue until November 29 and the festival will be held in its huge stadium, the "Cotton Bowl."

"We are delighted that the folk lore of Kentucky as expressed in songs and dances will be part of the national folk festival program,' Miss Knott says. "The rich traditions of the people of the Kentucky hills have given the nation it's real start in folk culture. The old ballads, century old dances and songs of the Kentuckians are a valuable contribution to native American folk lore. We hope to arrange a series of local festibest groups will be selected to go to Dallas. There have been festivals in St. Louis and Chattanooga during 1934 and 1935 but we believe that the gathering scheduled for the Texas Centennial Exposition will be the most comprehensive and inclusive. Kentucky members of the national committee have always been helpful in this movement."

GEO. W. KEES

Geo. W. Kees, aged 75 years, passed away Saturday night at his home near Elsmere, Ky., after a short illness. The remains were removed to the Taliaferro Funeral Home for preparation.

He is suvived by two sons, Harry Kees, Pawtucket, R. I., George Kees, Erlanger, two daughters, Mrs. Mark Wiberly of Tenessee and Mrs. Howard Oliver, of Latonia, Ky.

Funeral services were conducted at the Taliaferro Funeral Home Wednesday afternoon at 2 o'clock, interment following in Highand cemeterq.

what Irvin S. Cobb thinks about:

Shaw Comes Through

HOUSTON, TEXAS.—I always said there was only one living person who could convince me that George Bernard Shaw was not the smartest man in the world—and that person would be George Bernard Shaw.

And, by gum, he did it! For this admirer he began the disillusioning job the last time he was over here, telling us so frankly what ailed us, and on the present trip he already has finished up the contract. When a man, no matter how great he was in the past, reaches the point where he mistakes rudeness to his hosts for proof of his own brilliancy, instead of just bad manners—well, to me one of the most distressing sights on this earth is that of an extinct crater still trying to be the flaming volcano it once was.

Irvin S. Cobb

* * *

Only for Westerners

WHAT, I ask you, is the use of being a consistent old line Republican back East, with fine banking connections, when all you're permitted to do, as the other fellows start drawing their hands for this year's big game, is to fuss with the discards?

Why, lots of us can remember when it wasn't regarded as fatal to the Presidential prospect of a bright member of the G. O. P. younger set if he happened to reside on the Wall Street side of the Allegheny mountains. In fact, quite the contrary.

Now it seems there's a rule that only westerners may look longingly toward the White House without being accused of trying to peep in the deck before the deal.

* * *

So-Called "Sunny South"

IF THE poetic pioneers who first christened the lower cross section of our country the Sunny South came hither at this season of the year, I think I know what actuated them.

They called Dixie the Sunny South for the same reason that naturalists have named a certain type of African hyena the laughing hyena—not because the creature laughs so often, but because he laughs so seldom that it naturally attracts attention.

After contemplating lowering or leaking skies for a straight ten days, I'm beginning to wonder whether the sun has retired from business permanently. Probably about next July I'll wish he had.

* * *

Valuable Advice

TODAY I ran into my old and wise friend, Bassett Blakely. He stuck to the cow business whereas Will Rogers was weaned from it. Otherwise, these southwesterly ranges might have produced one more corn-fed philosopher-humorist with a national reputation.

During the depression, Bassett tried to borrow a sizable sum from a gentleman with a well-earned reputation for frugality. It was a forlorn hope.

"No," stated Bassett, emerging from the interview, "he didn't let me have any money, but on parting he gave me free of charge some beautiful advice. Bassett, my son, he said, never feed your stock dry fodder in windy weather. I did that in March of 1884 and one shuck blew away on me."

* * *

Long's Machine Endures

LAKE CHARLES, LA.—I mean no disrespect for any man's memory, but for most anyone of us who ever tasted success the verse that was written about little dog Rover might serve as an epitaph: "While he lived, he lived in clover, but when he died, he died all over."

I would have said that Huey Long's machine, being essentially a one-man machine, would start falling to pieces before ever they buried him. But it yet endures and is powerful and, right or wrong, it functions. People here still believe in his policies, still perpetuate his organization, still endorse his designs. Most dictators sip the bitter cup of defeat while they live. Here is one who from the tomb looms almost as tall as he did when he walked in the flesh.

Admire such a man's record or despise it, nevertheless you have to take off your hat to a personality that can project itself back across the grave.

* * *

They're All Ranches

OUT in California, every patch of ground where things grow, regardless of size, is a ranch. So far as I know there are only two farms in southern California; one's a lion farm and the other is an ostrich farm. I look for the day when a Hollywood scalp specialist will refer to his establishment as a dandruff ranch.

In Texas, which we just left behind us, nearly everybody is a rancher, too, or used to be. Today we're in the land of the planters, and if we kept going, bearing north, tomorrow we'd be among the farmers.

The so-called gentleman-farmer, as we know him back east, doesn't flourish anywhere down here. There are show places aplenty along this Louisiana coast, but they weren't built for show places—they were built for homes.

IRVIN S. COBB.

KENTUCKY'S NEW MASTER FARMERS

The selection of five new Master Farmers was announced at the recent Farm and Home Convention at Lexington. They are Albert N. Bottorff, Oldham county; Leslie Ellis, Calloway county; Chas. M. Meacham, Jr., Union county; Geo. Midden, Harrison county, and J. H. Quisenberry, Clark county.

The Master Farmers and their wives were presented to the convention by Dr. Tait Butler, Editor of "The Progressive Farmer," their selection being made by that farm journal and the Kentucky College of Agriculture.

The picture snows four of the farmers and their wives.

ADVOCATES CREEP FEEDING OF LAMBS

The use of creeps for feeding lambs is especialy advisable this year, since many ewes were in poor condition at lambing and are not providing an abundance of milk, says R. C. Miller of the College of Agriculture, University of Kentucky.

Lambs will begin to eat when 10 days to two weeks old. A good grain ration consists of equal parts of corn, oats, wheat bran and linseed oilmeal. After a few weeks the proportion of corn and oats may be increased. The corn should be ground and the oats crushed for the first six weeks or until the lambs are six weeks to two months old. Buy the pea size linseed oilmeal, as the finely ground meal gums in the mouths of the lambs.

Lambs can be fed to best advantage in a creep, which is an enclosure or pen big enough for the lambs to enter but not large enough to admit the ewes. They thus can eat without being molested by their greedy mothers. The feed trough should be so constructed that the lambs cannot put their feet in it. This can be done by placing a narrow strip or board about 8 inches above the top and running the length of the trough. It is important that troughs and feed be kept clean, Mr. Miller says.

There will be no difficulty in getting lambs to eat grain while grazing is not available, but after grass becomes plentiful it may require some effort. A good plan is to have a portable creep which may be moved from field to field with the flock and placed at the shade or resting place where the sheep spend the warm part of the day.

BEAVER LICK

Mr. and Mrs. Omer Kite, Miss Edna Mae Kite and Mrs. Lon Wilson were shopping in Covington, Friday.

Mrs. Lura Wilson is at Walton with her brother John Noell and wife. Mrs. Noell is ill with a cold.

Geo. W. Baker has purchased the Harmon Jones farm. Mr. Jones and family are moving to the Hartman place.

Mrs. Emma Cleek and Miss Anna Cleek visited Mrs. Clint Blankenbeker and Mrs. Molli Cleek, of Florence, one day recently.

Miss Anna Cleek and Miss Rebecca Sleet spent Saturday night with Mrs. Jake Cleek.

Bobby Points Moore attended a Valentine party at the home of Walter Jr., and Bruce Ferguson on Friday afternoon. Other guests were Wanda Pennington, Norma Laibley, Betty Rivard, Mary Kathryn Shields, Nell Jan Craddock, Alin Judge, Billy Clements, Roy Clements and Allan Newman. All reported a fine time.

New Haven basket ball teams played at Hebron Friday night. Enroute home while stopped at Union to let some players off, they were struck by a car and the bus badly damaged. A number of the players were cut and bruised and J. O. Griffith suffered a broken nose.

Mr. and Mrs. Pat Maddin were at St. Elizabeth hospital, Covington, Friday to see Mrs. Kate Maddin, who is convelescing nicely from severely frozen feet, suffered the night her house burned.

Miss Ethel May Davis and Russell Brown were married last Monday night at the Methodist Parsonage here by the Rev. Carl Rayburn. The many friends of this young couple wish them a long happy life together.

FLORENCE WINS OVER LOCALS

QUINTETS IN EASY FASHION FRIDAY NITE—KNIGHTS APPEAR AS STRONG CONTENDER FOR COUNTY LAURELS.

The fast stepping Florence Knights, one of the few Boone county basketball teams composed of seasoned material, added another game to their fast growing list of victories Friday nite at the hands of the Burlington Tom Cats, when they defeated the County Seat boys to the tune of 44 to 27. Led by Grayson, center, and Points guard, two lengthy veterans who massed a total of 20 points, the Stringtown quintet had little trouble in leading during the entire contest. The score at the midway mark was 24-12. R. Scott, J. Scott and Tanner, of Florence, and Sebree and Clore, of Burlington, also showed good form.

In a preliminary game the Florence Knightengales defeated the Kittens 43-21. At the half-way mark the Knightengales had piled up a 20-9 lead and had little difficulty in keeping a safe lead throughout the game. Picket and Cottingham, Florence, lead the scoring parade with 14 and 13 respectively. D. McClure led for Burlington with 8 points.

CARD OF THANKS

We want to express our sincere thanks to our friends and neighbors for their many deeds of kindness during the illness and death of our husband and father, Lewis L. Weaver. We also want to thank the ministers Revs. Beemon and Hauter, the undertaker Philip Taliaferro and those who gave flowers.

The Family.

REAL ESTATE

The following farms, all of Gunpowder, changed ownership during the past week: Wm. Thomas farm, Emma Taylor farm and Lute Aylor farm also the G. P. Black Service Station of Union, the latter being purchased by Melvin Townsend.

John Delahunty, agent, made the transactions.

Wilfred Aylor, who is connected with the Tuxedo Feed & Supply Co., of Aurora, Ind., was in Burlington a short while Sunday evening.

FRUIT GROWERS DISCUSS WORK

COLD DAMAGE EXTENT STILL UNCERTAIN EXCEPT ON PEACHES.

In spite of the unusual weather of last week Boone County fruit growers found it worth while to attend the two field meetings helds under the leadership of W. W. Magill, Fruit Extension Specialist of the College of Agriculture and H. R. Forkner, County Agent. The meetings were held at the farms of J. W. Goodridge, Burlington, and Emmett Riddell, Hebron, both prominent fruit men of long experience.

Those attending were first called together in a round-table discussion in the homes of Mr. Goodridge and Mr. Riddell. Later the orchards were inspected and the trees inspected to measure the effects of the severe cold weather, on the trees as well as the outlook for the 1936 crop.

No definite predictions as to the outlook for the apple crop were made, as it is too early in the season to say with reasonable certainty what damage has been done. It is believed by Mr. Magill and those present that there has been some damage to buds but how much is not known. The peach crop is entirely gone. Both apple and peach trees will show damage from the cold, some trees already showing some splitting of the bark.

Spray schedules were outlined and latest practices discussed.

Those attending the meetings included Elmo Jergens, W. B. Imwall, W. P. Hollis, William Moore, J. E. Riddell, George B. Pierce, L. H. Rouse, John E. Crigler, Lehman Goodridge, George Casper, E. G. Hollis, Will Crigler, Emmett Riddell, C. F. Gardiner, Sterling Rouse, B. C. Stephens, Jas. E. Stephens, A. A. Liggett, J. H. Paynter, Carl Rouse, William Rudicell, Frank Rouse, Carl Cason, J. W. Goodridge Ben Goodridge and R. C. Hume.

BANKERS TO MEET

AT CARROLLTON FEBRUARY 26—MEETING WILL BE CALLED TO ORDER BY PRESIDENT A. B. RENAKER

A group meeting of Bankers of the Northern and Western counties of Group 5 will be held at Carrollton Wednesday, Feb. 26th, according to A. B. Renaker, President of this group.

The meeting will be attended by bankers of Boone, Kenton, Campbell, Grant, Gallatin, Trimble, Carroll and Oldham counties. The meeting will open with a banquet served by the P. T. A. of Carrollton followed by a very interesting program consisting of an address of welcome by Fred Dowd, Cashier, Kentucky State Bank, Carrollton; Response by Judge Otto Wolff, V-Pres., Central Savings Bank, Newport; A Sound Loan Policy for a Country Bank, Larry D. Jones, V-Pres., Federal Intermediate Credit Bank, Louisville; How Junior Officers and Other Personnel May Be of Value To Their Banks, J. R. Miller, Fidelity and Columbia Trust Co., Louisville, and a general discussion by the entire group of bankers.

The meeting will be called to order by the President, A. B. Renaker.

Mr. John M. Yost, Cashier of the First National Bank of Pikeville and president of the Kentucky Bankers Association will be present and take part on the program, in addition to the above mentioned speakers.

A like meeting is to be held at Maysville some time in April to cover the counties in that section and the regular annual Group meeting will be held in Covington some time in June for the whole group.

A number of Boone county bankers will attend this meeting.

UNION

Mr. and Mrs. W. M. Rachal, of Cincinnati, spent Saturday night with their aunt, Mrs. Wm. Thompson Spears.

Mrs. Geo. Allen Slayback and small son came in Saturday from St. Elizabeth hospital where they have been for ten days, and are with her parents, Mr. and Mrs. Jos. A. Huey.

Dick Black has sold his property adjoining New Haven school to M. C. Townsend, of Berry, Ky.

L. L. Weaver, who had been ill several years, died Wednesday, February 12th, at the family residence. Funeral service and burial Friday afternoon at Hopeful, conducted by Rev. Harold Beemon. The sympathy of the community is extended to his bereaved family.

Mr. and Mrs. T. C. Crume's baby son is quite ill.

Mrs. Joseph A. Huey had as guest over the week-end Mrs. Nannie Allen Akin, of Latonia.

Mrs. James S. Head and son, Mr. Clinton Head are pleasantly located in the Baptist Parsonage and will not go back to the farm until weather conditions are improved.

Mrs. Myrtle N. Marsnall entertained the mebers of her Sunday school class with a delightful Valentine Party Friday night at her home in the village.

Miss Mary Gillaspie wishes all women in the community interested in organizing a Home Makers Club to meet with her in the Presbyterian church rooms Thursday afternoon, February 27th, at 1:30 (slow time).

Ralph Coppage, a New Haven Senior, had a knee badly injured in the Hebron-New Haen Baptist Ball game Wednesday night.

Mrs. W. T. Spears, Mrs. Ben S. Houston, Mr. and Mrs. W. M. Rachal were dinner guests Sunday of Mrs. Maud N. Rachal.

ROBERT C. GREEN

Services for Robert C. Green, former president and one of the organizers of the Equitable National Bank, Walton, will be held Wednesday at 2 p. m., C. S. T., at his home, Dixie Highway, Bracht Station. Burial will be at Walton, Ky.

Mr. Green, 75, died Monday at his home. He leaves his widow, Mrs. Eleanor Green, and a daughter, Miss Louise Green. Mr. Green had been retired several years. M. L. Swetnam Sons, Covington, have charge of the funeral.

PERMANENT POST

AS PASTOR OF LATONIA CHRISTIAN CHURCH ACCEPTED BY REV. CHARLES CARTER.

Rev. Charles Carter, who has been serving as temporary pastor of the Latonia Christian Church since the death of Rev. H. C. Runyan, recently accepted the call as permanent pastor of the church.

Rev. Carter is a graduate of the Cincinnati Bible Seminary. He is 32 years old, married and has three childen. He was a former pastor of the Capitol View Christian Chuch, Atlanta, Ga.

In acepting the pastoral duties of the Latonia church, Rev. Carter succeeas a pastor who not only was loved by his own members but by every man, woman and child with whom he had any affiliations whatsoever.

The new pastor will be assisted in his work by his wife, Mrs. Jeanette Carter.

The debate which was to be held at the Burlington High School, Tuesday night, was postponed on account of cold weather.

BLUE RIBBON 4-H CLUB ORGANIZED

The Burlington Blue Ribbon 4-H Club, consisting of 35 members, elected their officers for the ensuing year at a meeting held at the school house last Thursday. The meeting was in charge of H. R. Forkner, County Agent, and W. Hume, Asst. County Agent.

Officers elected were: Pres. Howard Garrison; Vice President Edith Mae Eddins; Sec'y-Treas. Ollive L. Poston; Club reporter, Ruby Cotton; Cheer Leaders, Geraldine Yelton and Carolyn Cropper; Sargent-at-Arms, Thomas V. Hensley.

Prof. E. E. Kirkwood was elected Community Club leader and Mrs. Vernon Pope, assistant leader.

Ruby Cotton, Reporter

LEWIS L. WEAVER

Lewis L. Weaver, aged 54 years, passed away Tuesday night at his home near Union, Ky., after a three years illness with tuberculosis. He is survived by his widow Mrs. Ella Weaver, two sons Harold and Lloyd Weaver, several grandchildren and a host of other relatives and friends.

Services were conducted at the Hopeful Lutheran Church Friday at 2:30 P. M., by the Rev. Harold Beemon, assisted by the Rev. H. M. Hauter, after which he was laid to rest in the nearby cemetery.

The pallbearers were Harry Wilson, Emerson Smith, Noah Zimmerman, Ira Tanner, Will Snyder and Jimmie Head.

Funeral director Philip Tallaferro had charge of funeral arrangements.

Seen And Heard Around The County Seat

Quite a bit of our correspondence has been omitted this week due to lack of space.

Mr. Louvette Rogers, of Grant, was one of the many who renewed their Recorder subscription during the last week.

Geo. Cook, of Petersburg, was a business visitor in Burlington, Monday night.

Arch Rouse, County Road Engineer, was a business visitor in Burlington, Monday.

The local independent basket ball team was defeated by the Walton Pure Oil Peps on the latter's court last Friday night by the one-sided score of 59 to 27.

Join the fast growing list of paid up subscribers of the Rcorder.

Gene Long, of Florence, was calling on friends here, Saturday.

Word has been received here that Judge J. M. Lassing, who has been quite ill at his home in St. Petersburg, Fla., is much improved.

Mr. and Mrs. W. D. Brown, of near McVille, were business visitors in Burlington, Monday.

Mr. Paul Aylor, one of the prosperous farmers of Lower Gunpowder neighborhood, was a business visitor in Burlington, Tuesday.

Geo. Heile, of near Pt. Pleasant, was in Burlington on business Tuesday. Mr. Helle is one of the Recorder's staunch supporters.

Mr. and Mrs. Virgil Mattox, of Independence, spent Saturday evening with Mr. and Mrs. A. J. Ogden and family, of Limaburg.

The local saw mill has not been operating the past two weeks, due to the inclement weather.

Mr. O. T. Edwards, of near Limaburg, was called to Greensburg, Ky., one day last week due to the recent death of his father.

Mr. and Mrs. Robert Kirtley, of Sayler Park, Ohio, were the Sunday guests of Mr. and Mrs. W. L. Cropper.

Hugh Stephens, of Rabbit Hash, member of the Boone Co. Equalization Board, spent Friday night with Susie Stephens and family.

Mr. and Mrs. W. B. Cotton were the guest of Mr. and Mrs. A. J. Ogden and family, Saturday evening.

Wm. Utz, of near Limaburg, was here on business Tuesday.

Mr. and Mrs. B. E. Aylor and Velma Phillips spent Sunday with Gaines Stott of Petersburg.

Miss Margaret Walton spent the week-end with relatives in Walton.

Miss Olive Louise Poston was the Sunday guest of Miss Rebecca Stephenson.

Miss Glenna Lee Clifton was the week-end guest of Miss Frances Finn.

Charles Benson, who has been ill for a good while, is back at school this week.

Miss Laura Pettit has returned to school following a tonsilitis operation.

Mr. and Mrs. John Conner were the Sunday guests of Mr. and Mrs. Harry Wernz, of Ludlow.

Mr. and Mrs. J. F. Moore spent Sunday with his brother, Mr. A. B. Moore, of Union.

Miss Virginia Sullivan, who has been home with a sprained ankle, has returned to school this week.

Mrs. Nannie Riddell has returned to her home in Burlington after a very delightful visit with her daughter, Mrs. Walton Dempsey, of Erlanger.

R. Z. Cason, of Middle Creek, was a business caller at our office, last Friday.

Mr. and Mrs. Claude Stephenson were the guest of Mr. and Mrs. Wallace Ryle, Sunday.

Chas. Fowler, of Hebron, was shaking hands with his host of friends in this community, Friday. Mr. Fowler didn't let the damp drowsy weather interfere with his keen sense of humor as every on with whom he was conversing left with a big smile.

Mrs. Fonnie Easton, of near Burlington, was a business caller here, Friday. Mrs. Easton reports that her husband, Mr. Fonnie Easton, who was ill most of the past summer and fall is somewhat improved, however, his condition is still not up to normal.

CELEBRATION

Mr. and Mrs. A. L. Nichols and family were the guest of Mr. and Mrs. Elbert Clore and family, Sunday. The occasion was the birthday anniversary of Mr. Clore, who was fifty years old on Saturday, Feb. 15th, and Mrs. Nicnols who reached her 51st milestone the day on which the celebration was held.

LETTER BOX

A petition sent to Sen. Alben W. Berkley several days ago to the effect that the town of Burlington was badly in need of a large letter receiving box to accommodate the night mail, received prompt attention of the Senator and thus the box, which will accommodate both large and small envelopes, has arrived and is ready for installation.

The presence of this letter receiving box will eliminate the former method of night mailing, by dropping letters thru a slot in the door which was subject to outside weather conditions.

THE NEW HAVEN 4-H CLUB HOLD FIRST MEETING

The New Haven Boosters held their first 1936 4-H club meeting Tuesday, Feb. 11th, with a total of 42 members enrolling.

The following officers were elected for the coming year: Leader—Mr. A. B. Moore, Asst. leader, Mr. Cleek; President, Chester Sturgeon; Vice-Pres., J. O. Griffith; Secretary, Dorothy Mae Judge. Project tobacco, Mr. J. Cleek; Crops, Mr. Moore; Canning, Mrs. Brown. Project Captains—Poultry, Lulu Robbins; tobacco O. V. Struve; Crops, J. O. Griffith; Canning, Margie Conley; Sewing, Dorothy Newman.

Dorothy Judge, Secretary.

TO ORGANIZE HOME MAKERS CLUB

Miss Mary H. Gillespie of the Extension Department of the University will be at New Haven school Thursday, Feb. 27, at 1:30 o'clock at which time she will form a Home Makers Club.

This service is for all women and girls who are interested in improving their homes as well as those interested in needlecraft chair can work and other duties a home maker needs to know.

There is no charge for this service. Every one in the community is urged to attend this initial meeting as a large attendance is necessary to retain an instruction.

Brown wrapping paper and scissors will be used at the meeting and each person is to supply their own.

DR. E. J. MURRAY ON THE AIR

Let him tell you "What The Public Should Know About Tuberculosis." Be sure and tune in—tell other about. Radio Station WHAS 1:15 P. M. Central Standard Time, February 21st and 28th; March 6th, 13th and 20th.

James Smith, Donald Perry and Wesley Palmer, spent Sunday with Raymond Smith and family.

RABBIT HASH

Dr. Hall, of Rising Sun, Ind., was called to R. M. Wilson's Sunday for a consultation with Dr. Schallenbrg on Mr. Wilson's serious illness.

Others on the sick list are Mesdames Jessie Wilson and Helen Stephens, Jake Cook and Edward Johnson who was injured when a truck load of corn upset on the Walton hill.

Mrs. Walter Ryle spent the weekend helping nurse her uncle R. M. Wilson.

Paul Acra is reported as improving after his serious illness. Jewel Scott is driving the school bus.

Mr. and Mrs. Noel Walton and baby son visited her relatives in Newport and Dayton over the weekend.

Friends and relatives of Mrs. E. M. Bouton (nee Annebel Ryle) of Chicago, will be glad to hear that her husband, who was stricken with pneumonia in New York, on Jan. 11th, while enroute to London, England, is recovering nicely at his home in Chicago. When apprised of his illness Mrs. Bouton made the trip from Chicago to New York by plane in 3 hours and 40 minutes. She remained three weeks and they returned to Chicago on the noted Century Express train. Mr. Bouton who is with the Westinghouse Co., and is an authority on electric elevators has recently been awarded a medal for outstanding merit.

Lavine Stephens and family were Sunday guests of Charley Stephens and family.

Bert Scott has recovered from his recent illness.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced open competitive examinations as follows:

Associate curator (archelogy), $3,200 a year, National Museum, Smithsonian Institution.

Associate public health engineer, $3,200 a yar and assistant public health engineer, $2,600 a year, U. S. Public Health Service, Treasury Department.

Full information may be obtained from the Secretary of the U. S. Civil Service Board of Examiners at the post office or custom house in any city which has a post office of the first or the second class, or from the United States Civil Service Commission, Washington, D. C.

McVILLE

Several of the ladies from here attended W. M. U. meeting held at the home of Mrs. Hugh McArthur in Belleview last Wednesday afternoon.

Mrs. May Williamson is one among our sick folks now.

Mrs. Lou Maurer, Mrs. Bessie Ryle and Mrs. Stella Scott, called on Mrs. Les Ryle and little son last Friday afternoon.

Mr. T. C. Sutton visited his sister a few days the first of the week and attended the funeral of Mr. Pepper Smith.

Miss Elizabeth Craig called on her aunt Mrs. Pearl Scott last Monday afternoon.

Mr. and Mrs. Frank Galiker visited a few days the past week with his parents and other relatives in Lexington.

Mr. and Mrs. Hubert West spent the week-end in Carrollton as the guests of her sister, Mrs. Raymond Hankinson and family.

Mr. and Mrs. Frank Galiker are the proud owners of a new Chevrolet car.

Miss Florence Newman spent last Tuesday night with Miss Louella Cason on Middle creek.

The Willing Workers class held their monthly meeting at the home of Mrs. Kathryn Clore above Belleview. Several from here attended.

Mr. and Mrs. Lillard Scott visited Sunday with Mr. and Mrs. Jno. E. Walton above Belleview.

Mr. and Mrs. Shelby Acra and sons spent Sunday with Mr. and Mrs. Stanley Stephens and family.

Mrs. Christena Kirtley has returned home after spending several weeks with her brother Stanley Stephens and family during their seige of illness.

WATERLOO

Mrs. Lou Williamson was shopping in the city Saturday.

Miss Rose Anna Williamson is visiting her cousin Carol Williamson and family, in Ohio.

Kite and Purdy shipped a load of hogs to Cincinnati, Monday.

Mr. Jacob Cook, W. G. Kite and Mr. Hightower have been on the sick list tne past week.

Jack Johnson is suffering internal injuries sustained in a wreck which was his misfortune, on the icy roads Thursday.

Geo. Walton, Jr., and Mr. Smith Walton left Saturday night for Bakersfield, California for a visit with Joe Walton, Jr.

Sarah McNeely has returned from an extended visit with her grandparents, Mr. and Mrs. Geo. Horton.

Mrs. Jim Rice was calling in town Tuesday afternoon.

Mrs. Geo. Shinkle is visiting her relatives in Petersburg neighborhood.

Mr. and Mrs. Ott Snelling have been entertaining a new son the past two weeks.

Mr. and Mrs. Noel Walton and son spent their first wedding anniversary with her parents in Dayton, Ky., Sunday.

Word was received here Sunday afternoon of the serious illness of Wibbie Hood, son of J. I. Hood, of Constance, who underwent an operation at St. Elizabeth Hospital Sunday morning.

CARD OF THANKS

I take this means to express my sincere appreciation to all my neighbors and friends who assisted in any way during the illness and death of my beloved husband

Mr. John C. Smith

Also to Rev. D. B. Estep and Rev. O. M. Huey for their comforting words, to the singers for their beautiful songs, to Dr. E. J. Love and to Chambers and Grubbs for their efficient services.

Your kindness will never be forgotten.

Lizzie Simth.

BELLEVIEW

Mrs. Franklin Clore entertained the Willing Workers Class of the Baptist S. S. Friday night.

Rev. Raymond Smith has returned home from Denton, Texas, to the delight of his many friends here.

James Ball has bought a vacant house from R. S. Hensley which he expects to tear down and use the lumber to build a house on the lot he owns adjoining the Shoultheis property.

Mrs. Mary Ryle and daughter, Miss Artie, of Petersburg, have returned home after spending several days with Mr. and Mrs. Bernard Rogers.

Mrs. J. A. Riley, of Lexington, is visiting her daughter, Mrs. R. S. Hensley and family.

Mrs. Ephriam Clore received a letter from the daughter of Rev. W. D. Bell saying that her father had died Jan. 31st, after an illness of several weeks at his home in Newmarket, Ohio. Bro. Bell was pastor of the Baptist church here six years ago and he and his family made many friends in this community.

Mrs. Arvin Buffington, who has been quite sick is improving.

Rev. Harmon Eggleston conducted the prayer meeting service here Wednesday night.

Mr. and Mrs. Chancey Jacobs, of Owenton, have been visiting Mr. and Mrs. Forest Brown and family.

Warren Flick is on the sick list.

THE COURIER-JOURNAL STATE SPELLING BEE

"Spelling in the Estill County Schools has improved 50 per cent since the entrance of this county into the Spelling Bee," said Mrs. Mamie West Scott, county school suprintendent, when she submitted a report of her county match to the Spelling Bee editor of The Courier-Journal.

Superintendents of school systems in approximately 100 other Kentucky counties are offering the advantages of the twelfth annual State Spelling Bee to pupils in their schools this year. Other superintendents are expected to start matches in their schools before the State finals, which are to be held in Louisville, April 16, during the Kentucky Education Association.

Only four counties west of Jefferson county have not entered the State Bee this year. They are Livingston, Butler, Edmonson and Hart. Counties East of Jefferson that have not arranged for competitions are Oldham, Owen Bath, Franklin, Bracken, Bourbon, Menifee, Morgan, Elliott, Magoffin, Lawrence, Martin, Johnson, Monroe and Clay.

OUTLOOK GOOD FOR KENTUCKY FARMERS

Kentucky farmers enter the year with prospects for continued improvement, says the annual outlook report of the College of Agriculture, University of Kentucky.

The demand for farm products is expected to increase as conditions improve in the cities. The year opened with the best business condtions since 1930, and 50 per cent better than in 1932, and with prices of farm products generally higher than in several years.

Farmers are in easier financial condition than they were a year ago, according to the report, and they have a good supply of credit. Land values are expected to increase with the generaly improved conditions.

The report carires a warning, however, that lower prices may be expected for burley tobacco unless production is kept near that of the last two years. Stocks on hand are the smalelst in three years and consumption is increasing, but increased production could annul these influences on prices.

The outlook for fire-cured tobacco continues unfavorable, the report points out. Both foreign and domestic consumption continues to decline, and stocks are further increased. It is sugegsted that the dark tobacco situation indicates the need for the reorganization of farm practices in western Kentucky, to meet the need created by a lost tobacco market.

Smaller production in the last two years and greater use helped one-sucker tobacco, but it is believed that increased production would have an unfavorable effect on prices.

Smaller production in the last two years and greater use helped one-sucker tobacco, but it is believed that increased production would have an unfavorable effect on prices.

The stiuation in the case of Green River tobacco is much like that for one-sucker.

Relatively strong prices are in prospect for Kentucky lamb and wool producers. Contrary to last year, lamb prices are expected to be highest during the first half of the year.

Prices of low-grade fed cattle are expected to show the usual seasonal advances and to be in line with prices of last year, while lower prices may prevail for better grades because of larger supplies.

The outlook is for generally lower hog prices, due to increased production and larger marketings and to continued restrictions on imports to foreign markets. However, consumption is expected to grow in industrial centers. Removal of processing taxes also may help prices.

Kentucky dairy farmers enter the year with abundant feed supplies and prospects of steady prices.

It is not expected that egg prices will remain at present levels, and prospects are probably slightly less favorable for chickens and turkeys.

FROM THE CONGRESSIONAL RECORD

Sen. M. M. Logan (Dem. Ky.): It may be that the Supreme Court has not trespassed upon the powers of the Congress; but, looking at the situation without passion or prejudice, it appears to my mind that the Supreme Court has a tendency to trespass upon the powers of the Congress and that if that is true, and the Congress should supinely allow such trespass, it would be failing in its duty to the Republic.

John Delehunty, of Florence, was a business visitor in the County Seat, last Friday.

PEOPLES DEPOSIT BANK
(The largest financial house in Boone County)

Plans were formulated for the establishment of the Peoples Deposit Bank in 1904 by a number of influential Boone county citizens, and from the capital stock of $20,000 of that time the institution has grown into a million dollar business house.

The initial directors of this bank were: O. P. Conner, B. W. Adams, F. J. Walton, W. L. B. Rouse, A. W. Corn, W. P. Beemon, C. W. Riley, Henry Clore and H. C. Duncan. Of this group, several still remain directors.

A. B. Renaker, who was elected cashier of the bank by unanimous vote by the directors in 1905, has capably handled the affairs since that time. Others who have been instrumental in the success of the bank are: B. W. Adams, deceased; W. L. B. Rouse, deceased; Chas. Youell, deceased, and Judge I. E Riddell, now President.

Not only does the Peoples Deposit Bank stand on a strong financial foundation, but the structure itself is one of the most artistic and well planned in the county.

Next Week—Funeral Home of C. S. Chambers.

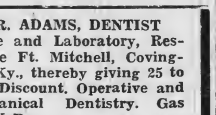
Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.



A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00 in order to avoid mistakes in getting the genuine LION CROSS HERB TEA please fill out the attached coupon.

Mr. Kenneth Stamper and family spent Sunday with her sister, Mrs. Will Horton, who is very ill.

We are very sorry to hear of Miss Sarah Louise McCardle being ill.

Mr. Tom Carpenter and family spent Sunday with Mr. Elmer Carpenter and family.

Mr. Harry Dinn and family and Robert Owen McCardle spent Sunday with Mr. and Mrs. Henry Clore.

Mr. Claude Stamper and family spent Sunday with her sister, Mr. and Mrs. Jim Lents, of Latonia.

Mrs. Henry Dixon spent Wednesday with Dr. Rouse, of Florence.

G. L. Robinson, of Richwood, entertained a number of his friends with a dinner in honor of his 8th birthday Sunday. Those attending were the following: Mrs. Padgett and three children of Devon; Mr. Gaines Robinson and family, Roy Wood and Mr. and Mrs. Robert Robinson and the young host. All left at a late hour wishing him many more happy birthdays.

HAMILTON

Miss Dorothy Hager was the guest Sunday of Mrs. Shields and daughter.

Mr. and Mrs. Orval Hensley entertained in honor of Miss Helen Hager and friend Mr. Chas. Fibbs with dinner Sunday.

Notice—Miss Gillespie, Assistant Home Demonstration Agent from Kenton county, will be at Hamilton school house on Monday afternoon, Feb. 24th, to speak to the ladies from Hamilton school community. Women be sure to be there to hear her, and to find out if you want one of these clubs in Boone county.

Mr. and Mrs. Mullins and Mr. Gadd entertained Rev. R. A. Johnson, Sunday.

Mrs. May Pitcher has returned home after a visit of several days among her children in Covington.

The play and Amateur Contest held at Hamilton school Thursday night was quite a success.

Mr. and Mrs. Everett Jones and son Reuben, were guests of Tim Huff and wife, Sunday.

Mrs. Lillie Huff was in Walton, Thursday having teeth pulled.

Robert Ewalt, of Cincinnati, visited his home folks Sunday.

Unrivalled in the art of the Russian ballet, and the only traveling exponents of that art in the world today, Col. W. deBasil's Monte Carlo Ballet Russe is scheduled to give three performances in Music Hall, Cincinnati, in association with the Cincinnati Symphony Orchestra, on Friday evening, Feb. 21, and Saturday afternoon and evening, Feb. 22.

Glamorous ballerinas and spectacular danseurs, colorful costuming and brilliant scenic investiture will be revealed in al the glory of this most xotic and sophisticated of the arts. The ballets to be presented are thus announced by the Symphony management:

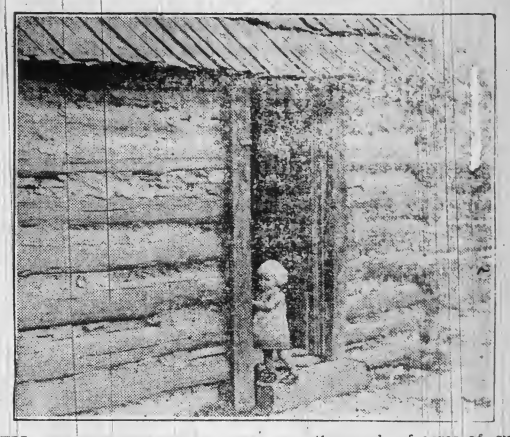
Friday evening at 8:30: "Les Sylphides," by Chopin; "Petrouchka," by Stravinsky; and "Prince Igor," Borodin.

Saturday afternoon, at 2:30: "Lak of Swans," Tschaikowsky; "The Fantastic Toy Shop," Rossini Respighi; and "The Midnight Sun" (from "The Snow Maiden"), Rimsky-Korsakow.

Saturday evening, at 8:30: "The Three-Cornered Hat, DeFalla. "Scheherezade," Rimsky-Korsakow; and "Aurora's Wedding," Tschaikowsky.

Eugene Goossens, conductor of the Cincinnati Orchestra, who some years ago conducted the famous Diaghilev Ballet in London, will conduct at least one ballet at each performance.

There are more than a hundred in the personnel of the Ballet Russe, fifty-five of them premiere dancers, headed by the famous Leonide Massine, Irina Baronova, David Lichine, Tamara Toumanova, Tatiana Riabouchinska, Alexandra Danilova and Yurek Schabelevsky.



Mail orders are now being filled in the order of their receipt by James J. Faran, Symphony ticket manager, 121 E. Fourth St., Cincinnati. Prices are 50 cents, $1, $1.50 $2 and $2.50, tax free.

ERLANGER, KENTUCKY

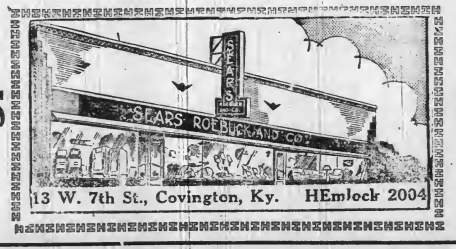
LADIES---SITTING---ROOM

WILL GET NEW CHANCE IN LIFE

This youngster, whose home is typical of hundreds on areas being taken over by the Resettlement Administration in this region, is being given a new chance in life by Uncle Sam. Her father's farm is of a submarginal type incapable of being farmed profitably and is part of an area which Resettlement is converting into a park and forest.

Resettlement has taken over many thousands of acres of such land in this state to be permanently retired from agriculture and put to uses for which the areas are better adapted. Families living on these purchase areas, such as represented by the above child, are being resettled on better farm lands where they will have new opportunities to acquire good homes and become permanently self-sustaining citizens.

ED WYNN RETURNS TO AIRWAVES



Ed Wynn, famous comedian of stage, screen and radio, returns to the air, after a seven months' rest, in a new comedy role, "Gulliver, the Traveler." This photograph was taken as "Gulliver" signed a contract with his new sponsor, D. S. Eddins, president of Plymouth. Wynn's new program, from 9:30 to 10 P. M., E.S.T., over the Columbia network, will be a world-wide broadcast, as it will be sent by short wave to Europe, and all parts of the world. The program will also include Lennie Hayton's orchestra, the King's Men and a feminine ensemble.

BASKETBALL TOURNAMENT

TO BE PLAYED AT NEW HAVEN MARCH 5, 6 AND 7TH—DRAWINGS FOR POSITIONS WILL BE HELD SATURDAY

The annual 37th distrtict basketball tournament will get under way at the New Haven gymnasium Union, Thursday night, March 5, when referees Dan Tehan and Robert Coldwell give the starting signal and winners will not be determined in either boys or girls division until the final whistle is blown Saturday night, March 7th. Other sessions of the tournament will be Friday afternoon and Friday night.

There will be four trophies and twenty individual awards given to the contestants.

It is the general belief of those who have followed the high school quintets this season that regardless of the results of drawings interesting battles will result.

Other officials of the tournament are Courtney Kelly, time keeper, and Garland Huff, scorer. Admission will be 20 and 35 cents throughout the tournament.

A brief line-up on the various teams will undoubtedly be convincing that a really interesting and hard fought tournament will be the outcome.

FLORENCE—Picked by many to carry off honors in both boys and girls divisions. Several players on both teams are veterans of last year.

NEW HAVEN—Undoubtedly will have advantage of playing on home court. Boys have considerable material and Union is known for outstanding girl teams.

HEBRON—Both boys and girls have had successful seasons. Considered by many to be the greatest improved teams of the county.

Hamilton — Girls have made good showing throughout season and boys have defeated some of the strongest teams in the county. The latter is considered the dark horse by many court followers.

BURLINGTON — Neither boys nor girls have had successful season inasmuch as victory is concerned, however, both teams started the year with a number of unseasoned players and have molded together fighting combinations.

WALTON—Not represented in girl's division. Boone County court fans know the quality of basket ball that Walton demonstrates.

ROGERS TO GET HIGHWAY POST

ACCORDING TO REPORTS FROM FRANKFORT—POST WAS FORMERLY HELD BY J. LYTER DONALDSON

Former Senator O. M. Rogers, Erlanger, who is a candidate for the post of Highway Commissioner in the Fifth Road District formerly held by J. Lyter Donaldson, Carrollton, has been tipped for the job.

Senator Rogers said he had not had sufficient time to study the reorganization bill, which provides for appointment of advisory Highway Commissioners at a salary of $3,000 a year. He stated yesterday that he had assurances from administrative sources that he would be named Highway Commissioner for the Northern Kentucky District.

Senator Rogers was one of Gov. Chandler's chief supporters and was instrumental in carrying this part of the state for the Governor. He has one of the largest law practices in this section.

HUGH McARTHUR

Funeral services for Hugh McArthur, farmer, Taylorsport, was held at Taylorspot Monday at 2:30 p. m. Interment followed at the Hebron cemetery. Mr. McArthur died Friday night at his home following a lingering illness.

He is survived by his widow, Mrs. Emma McArthur; two sons, Hugh McArthur, Jr., McVille, Ky., and Ben McArthur, Taylorsport, and two daughters, Mrs. Harley Sprague, Maysville, and Mrs. Miles Barrie, Taylorsport.

Bullock and Catherman, Ludlow, had charge of the funeral arrangements.

SCOTT MOTOR CAR COMPANY IS MOVING

The Scott Motor Car Co., which has been located at 235-237 Scott Boulevard, Covington, for the past seven years, announces in this issue its removal on March 1 to 1526-1528 Scott Boulevard, in the building formerly occupied by the Heizer Motor Co. This will give the company a btter location and a larger and better building, C. O. Scott states.

The company is holding a removal sale at its present location this week, during which every used car must be sold, regardless of price. The management announces that "no reasonable offer will be refused." No down payment will be necessary on cars under $300.00. Show rooms are open until 10 P. M., every night and Sunday, and extra salesmen will be on hand to take care of prospective purchasers.

HAMILTON AND HEBRON WIN

4-H TROPHIES ACCORDING TO FINAL SCORES—HIGH SCORES ANNOUNCED AT LEADERS MEETING.

Winners of the beautiful trophies awarded annually to the highest scoring 4-H Clubs were announced this week, following final checking of the scores by the 4-H Leaders' Council. The Hebron 4-H club won the North-Section Trophy, while the trophy for the leading club on the South-Section went to Hamilton 4-H Club.

The trophies, reproductions of the famous painting "Song of The Lark," bautifully framed, are awarded by the Boone County Bankers' Association. They were first awarded in 1934 and were to become the permanent property of the first club winning them two years. As the Hamilton Club was awarded one of them in 1934 it will now remain in their possession.

The scores of the Clubs are based on the work and recreational activities of the club members throughout the year. Project completion, including a complete written record of progress and results, attendance at meetings, participation in exhibits and fairs, premium awards, attendance at Club Camps, Junior Week at Lexington, and Club Tours, all count in the scoring.

Leaders' Meeting

The adult leaders representing clubs throughout the county were in conference at an all-day meeting Friday with E. E. Fish and Miss Anita Burnam state leaders in club work. The meeting was opened by Professor D. H. Norris, chairman of the Laders' Council, who delivered an interesting talk on the value of 4-H club membership to the young people of Boone county. Professor Norris said that he believed every boy or girl in the county, regardless of what their intentions may be as to their future pursuits, should take advantage of the opportunity which 4-H club projects offer them to become acquainted with the best practices in farming and management of the farm home.

Increase in Membership

It was agreed that every club should make an effort to increase its membership, even though the present enrollment is larger than ever before. It is still not too late for new members to select a project and take part in all club activities during the year. Leaders were reminded that new members count 200 points in the club scoring and this incentive should put present members to work interesting their classmates to join their club.

Those attending the leaders' conferences included Mr. and Mrs. J. F. Cleek, New Haven; Miss Mary Rector, Mrs. Norris Berkshire, Rev. Thos. Dunaway, Petersburg; Mrs. E. E. Newman, Grant; Hubert White, Joel Gray, Prof. D. H. Norris, Mrs. Vernon Pope, Burlington; John Crigler, Robert Graves, Mrs. Sibbia Reimer, Hebron; H. R. Forkner, County Agent, Robert Hume, Assistant.

BLYTHE'S STORE UNDER NEW MANAGEMENT

Blythe's store and lunchroom, formerly owned and operated by D. R. Blythe, has been purchased by Edgar Maurer. Mr. Blythe has been in business for 26 years at the same location. At present he will make his home in Latonia.

Mr. Maurer has been employed at W. L. Kirkpatrick's store for the past eight years.

ENROLLMENT

AT UNIVERSITY OF KENTUCKY IS HIGHEST SPRING ENROLLMENT SECOND LARGEST IN HISTORY OF INSTITUTION

The second largest spring semester enrollment in the history of the University of Kentucky was recorded Monday, February 17th, with the close of registration for the second term of the 1935-36 school year, bringing the total to 3,003. This figure approaches the record enrollment for any spring term at the University which was reached in the second semester of the 1930-'31 school year when the registration totalld 3,169.

Students from 116 of the 120 counties in Kentucky are represented in the student body at the University this semester, and from 36 states besides Kentaucky, and four foreign countries.

Included in the nrollment from Boone county are:

Paul Tanner, Florence, son of A. G. Tanner; Harold C. White, Burlington, son of Cam White; Cornelius Reagan, Florence; Marvin S. Moore, Burlington, son of W. V. Moore; Allen Stewart Kenyon, Constance, son of Thomas Kenyon; Joseph H. Jones, Beaver Lick, son of Harmon H. Jones; Novello Lee Hull, Beaver Lick, daughter of Linville Hull; James M. Huey, Union, son of Joseph A. Huey; Robert B. Hensley, Burlington, son of Thomas Hensley; Lloyd William Hankins, Constance, son of John L. Hankins, Ralph Gaines Edwards, Walton.

AGED MAN PASSES AWAY

AFTER SHORT ILLNESS—LIFE LONG CITIZEN OF BOONE COUNTY DIES AT THE HOME OF HIS BROTHER NEAR LOCUST GROVE, BOONE COUNTY, KENTUCKY.

Mr. Ira Pope, age 73 years, five months and two days, departed this life Friday night, February 21st. 1936. He was born in Boone County in the year 1862 and has made Boone county his home ever since. At the time of his death he was living with his brother, James Pope of the Locust Grove neighborhood, formerly the home of his father, Mr. Lawrence F. Pope.

Mr. Pope was from a family of ten children, five boys and five girls, nine of which he leaves to mourn his passing. The sisters, Mrs. Ida Rice, Mrs. Lucy Aylor, Mrs. Cora Kelly and Mrs. Betsy Clore, his brothers, Lawrence, Dode, Samuel, and Mose, one child died in infancy. He also leaves a host of friends and relatives throughout the entire county that join the family in their sorrows. He was a member of the Old School Baptist church at Union, Ky., for forty-five years.

Funeral arrangements were conducted Monday afternoon by Rev. Raymond Smith, pastor of the Belleview Baptist church, after which his remains were removed to the Belleview cemetery for burial. Chambers & Grubbs were in charge of the funeral arrangements.

Col. Joe Anderson, one time middle wight boxing contender, paid this office a very interesting call Tuesday. Mr. Anderson is the proprietor of one of the most up-to-date lunch rooms and bowling alleys in this section.

NEW HAVEN WINS

OVER LOCAL BASKETBALL TEAMS—GIRLS GAME CLOSE

The New Haven Basketball teams, backed by a large number of their loyal supporters, defeated the Burlington teams in both ends of a double bill Friday nite, at the local gym. The girls contest was one of the most exciting that has been played on the Burlington floor for some time, the score at the midway mark was 13-12 in favor of Burlington, however, by expert team work and some first class shooting in the last half the New Haven lassies emerged victorious 25-32. Alberta Pettit, diminutive forward of Burlington led the scoring parade with 11 points. Rivard and Robbins led New Haven's attack with 6 each.

Led by Coppage, New Haven, and Clore, Burlington, the boys game was breath taking from start to finish. New Haven, however, paved the way during the greater part of the game. The score at the half of the game stood 15-9 in favor of the visitors but the Blue and White put on a gallant finish to make the count 29-21 at the final whistle. Coppage, New Haven, scored 10 points and "Pip" Clore piled up 12 for the losers.

Burlington's next game will be at Hebron this Friday night.

Press West and family moved to the William Ryle farm near Commissary, Wednesday. He moved from what is known as the Joe C. Revill farm near town.

SOIL AND CROP AUTHORITIES

TO SPEAK TO FARMERS HERE FRIDAY—ENTIRE DAY WILL BE GIVEN TO DISCUSSION LED BY ROBERTS AND KINNEY.

There is great interest among all farmers of the county in the meeting Friday in Burlington at which George Roberts and E. J. Kinney, of the Kentucky Experiment Station will be the principal speakers. Both Mr. Roberts and Mr. Kinney are men of long experience in soils and crops research and authorities of national reputation in improvement of soils and crops along practical lines. H. R. Forkner, county agent, stated that it would be worth the time of every farmer in the county to attend this meeting, regardless of whatever his other plans for the day might be.

The program, beginning at 9:30 A. M., and lasting until 2:45 p. m. will be given over entirely to Soils and Crops. There will be periods of round-table discussion, at which everyone will be invited to ask any questions of general interest pertaining to problems of building soils or improving crops in Boone county.

COMMUNITY SALES TO REOPEN

Col. R. G. Kinman, auctioneer, of Florence, paid the Recorder a call and informed us that he and Col. Check Tanner, Florence, will reopen the Florence community sales on March 7th and wants to inform the public that anything they have to sell to bring it in and anything they want to buy that the Community Sale will have it.

It has been many years since the ground was frozen to the depth it is this winter. Maybe it will kill the bean beetle. Who knows?

300 Democrats Attend Dance

With approximately three hundred harmonizing democrats dancing with a victory swing, talking democratic principles from Jackson's day thru to the present, wearing an American flag in honor of the Father of our country, George Washington, and possessing a smile, which signified a victory over hard times. it was impossible to be in this midst and leave feeling other than optimistic. Such was the case last Friday night at Zimmer's Clubhouse, Ft. Mitchell, when the Young Men's Democratic Club of Boone County sponsored a Washington eve dance.

Practically every community in the county was represented and all former political feeling was cast aside and cooperation was the cry.

Among the noted present were M. M. Logan, state President of the Young Men's Democratic Clubs and Walter Ferguson, President of the Boone County Young Men's Democratic Club.

An eight-act floor show which was given in style equal to that of a New York nite club was one of the main attractions and held the jolly Democrats speechless.

The entire affair was such an extraordinary success that a number of request have been entered for another such occasion.

The committee, composed of O. R. Russ, J. P. Brothers and Fred Heile, should be commended for their untiring efforts in making the occasion as it was.

FINAL WEEK OF QUALITY SAMPLE SHOE SALE

The Quality Sample Shoe Shop, 627 Madison Ave., opposite Woolworth's Covington, are offering the women of Northern Kentucky the greatest sale of shoes ever known. All these high priced shoes are conveniently displayed on wall racks at a low price of $1.65. Profits have been forgotten during this sale, as they merely want to acquaint the women of Northern Kentucky, with the high grade shoes on sale at this store. Hundreds of Women who have stormed this store during the past week are now well aware of the high quality shoes at such low prices.

The remains of John P. Duncan which were placed in the vault at the local cemetery east of Burlington, last week, were interred at Bullittsburg Tuesday by Chambers and Grubbs.

4-H CLUBS START YEARS PROGRAM

SPECIAL SEED FOR TOBACCO PROJECTS; CANNING TO BE INCREASED — 125 ENROLLED IN TOBACCO PROJECTS.

Most of the nine 4-H Clubs of the county have announced regular meeting for next week. These will be the second meeting of the year for the clubs and 1936 activities and plans for work will be well under way at their close. Club leaders urge that all boys and girls who have not yet enrolled and wish to become members to attend the next meeting of their club. Project groups will hold their first meetings soon and new members will have the opportunity still to start at the beginning of the project work.

Tobacco, Sewing Popular

About 125 have enrolled in the tobacco projects. Arrangements are being made by H. R. Forkner, County Agent, to secure root-rot resistant "No. 5" seed for members who care to use it. A special price has been made the club members on all amounts.

More of the girls have selected sewing than any other project, but club leaders will urge increased interest in canning, on the advice of Miss Anita Burnam, Assistant State Leader. Miss Burnam, at the County Leaders' Council in Burlington emphasized the great value of a thorough knowledge of canning and its importance in the home. She stated that much importance would be given the 4-H Club canning exhibit at the State Fair this year.

CARD OF APPRECIATION

I wish to take this means to sincerely thank my friends and customers for their patronage during the 23 years that I have been in business in Burlington.

It has indeed given me a pleasure to attempt to serve the citizens of Boone County during this period and their reaction at all times has made my work a pleasure.

I wish to take this opportunity to highly recommend my successor, Mr. Edgar Maurer, who will assume my entire business Thursday, Feb. 27th, at which time my conections there will be severed. It gives me the assured pleasure now to refer all of my friends and patrons to the dependable service which will be offerd by Mr. Maurer.

D. R. Blythe.

COMBS BACK WITH RECORDER

Due to an increased business during the past few months and indications pointing to a continued pick-up, the Recorder has found it necessary to secure the services of another competent and reliable printer and the desire for such a man was fulfilled when Raymond Combs was induced to return to the Recorder force.

Mr. Combs has been an employee of the Grant County News for a number of years and also worked here on several occasions.

At present he will divide his work between The News and Recorder, working here Tuesday nite, Friday and Saturday.

Bernard Sebree, of Woolper, was a business visitor at the Hub Tuesday afternoon.

AGRICULTURAL ROTO SECTION

OF NEXT WEEK TO CONTAIN MANY VERY INTERESTING FEATURES

A spring short course in Kentucky farm practices, presented by extension specialists, outstanding agricultural authorities and staff writers is providyed by The (Name of publication) in our March State supplment next week.

"One picture tells a story better than 1,000 words," says an old Chinese proverb, so next week we're bring (Name of county) county readers a whole batch of timely, informative and entertaining photographs, reproduced as is only possible through rotogravure. We'll have more pictures than usually found in the largest metropolitan newspapers.

Tobacco growers should be keenly interested in a summarization of 300 years of tobacco growing in the United States by E. S. Wrathor of the Kentucky College of Agriculture. Helpful suggestions are also provided in information supplied by Prof. E. J. Kinney of the State College, on planting tobacco, seed beds and other data. L. E. Gooch, president of the Kentucky Beekeepers, Ass'n., contributes an interesting discussion on the proper care of bees.

Numerous other Kentucky features and pictures will have a definite appeal to every member of the farm family. Mother and the girls will enjoy a revue of new spring styles; an analysis of the national 4-H Club porject for girls. "Let's Make Candy!" by Miss Marjorie F. Hoagland of the state college, tells how to make lolly-pops and after dinner mints.

There's many a chuckle in Pete Gotty's column "Jest A- Whittlin' An A-Thinkin for the whole family.

Yes Sir, we believe you're going to really enjoy our March State Farmer roto section!

GEORGE W. LANCASTER

Services for George W. Lancaster was conducted at Walton M. E. church at 2 o'clock yesterday. Burial followed in the Walton cemetery.

Mr. Lancaster died at his home near Walton, Monday, following a brief illness at the age of 33 years. He is survived by his parents, Mr. and Mrs. William H. Lancaster, and one brother, Scott Lancaster.

H. R. HENSLEY

UNANIMOUSLY ELECTED CASHIER OF FARMERS BANK BY DIRECTORS—SUCCEEDS H. A. ROGERS WHO WAS RECENTLY APPOINTED BANK EXAMINER

Howell Riley Hensley, Grant, was unanimiously elected cashier of the Farmers Bank, Petersburg, at a meeting last week of the directors to succeed H. A. Rogers, who was appointed State Bank Examiner by Gov. Chandler.

Mr. Hensley has been assisting Mr. Rogers at the Farmers Bank several weeks and proved himself capable of handling the affairs of the institution. At present is making his home in Petersburg in order to become better acquainted with the citizens of that community. He is 22 years old.

The young cashier received his education at Burlington high school, Eastern Kentucky State Teachers College and the Y. M. C. A. Business School, Cincinnati, making outstanding records in each of the institutions.

GEORGE T. TUPMAN

Last rites for George T. Tupman, former resident of Florence, who died Saturday at his home, Brookfield, Ohio, was held Tuesday at 3 p. m., at the Allison & Rose funeral home, Robbins street and Madison avenue, Covington.

Mr. Tupman was a resident of Florence until three years ago. He leaves his widow, Mrs. Ine Wolf Tupman; two brothers, Stewart and Charles Tupman, and two sisters, Mrs. Mattie Hand and Mrs. Fannie Stevens.

BASKET BALL

In a practice game played Wednesday at noon between the local High School and Independent teams, the Independent team defeated them by the score of 49-47. The High School team showed good form.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

FREEDOM OF THE PRESS: AN ENLARGING LIBERTY

Freedom of the press, a liberty guaranteed by the Constitution, gets a further definition at the hands of the Supreme Court.

Here is one thing that a State may not do without falling foul of the basic law.

It may not, as Louisiana sought to do under the "dictatorship" of the late Senator Huey P. Long, lay a tax on gross revenue of newspapers having a weekly circulation of more than 20,000. The tax was concededly aimed at some of Senator Long's newspaper critics.

Unanimously, the Court holds that the tax restrains the press by curtailing revenue from advertising and by a tendency to restrict circulation. It adds:

"A free press stands as one of the great interpreters between Government and the people. Since informed public opinion is the most potent of all restraints upon misgovernment, the abridgement of publicity can not be regarded differently than with grave concern."
—U. S. News.

INVESTIGATING OLD-AGE PROBLEMS

Congress votes $25,000 to investigate the Townsend plan and other old-age pension movements and fixes up special provisions in its resolution to publish the report, so that it may be distributed to the public whether Congress is in session or not. Representative Smith of the State of Washington, told his fellow-members a "mouthfull," when he said: "We are going to investigate the nickels and dimes of those who contribute voluntarily to the Townsend Plan. We are fiddling while America is burning." Representative Main of Michigan, commented that Congress was suffering from a bad case of the "jitters." Congressman Sweeney of Ohio, suggested that organizations that should be investigated were the Liberty League, and some other big boys. But Congress side-steps the League, manufacturers and other towering self-constituted moguls of America's national life who do not take nickels and dimes. "Jitters."?

WHAT OTHERS SAY

There is no tribute that can be bestowed upon one, even though he will never realize the fact, than the constant good word concerning him, after death. Such is the case of the late Edward A. Skillman, former editor of the Recorder, who spent only a short time in the county—making many friends and no enemies.

This writer, some months ago only knew Mr. Skillman through the medium of this paper, but today feels that he knew him as a long time friend and business man.

We receive numerous letters containing a paragraph or possibly a page concerning the former editor and principal, and never a day passes that a caller does not express a sincere opinion as to the real value that such a man was to the county.

It not only gives the editors but the entire Recorder force a great pleasure in attempting to follow the foot steps of one whom the entire citizenship of the county admired.

EDITORIAL PARAGRAPHS

Recent critical comments directed at the Supreme Court by members of the Cabinet all have "cleared" through the channels that involve high official approval.

Maybe some day some politician will find a way to prime the pump without calling on the United States Treasury for elbow grease—Wichita Eagle.

More than three thousand unemployed writers have been given jobs compiling the American Guide, a book which is designed to be a handbook of the entire country.

Republicans, unbowed by the barrage of Democratic eloquence on Jackson Day, signalized the birthday of their party's first President with a heavy bombardment of Lincoln Day oratory.

Northern Kentucky's representation at Frankfort during the recent session of the assembly was one of the most forceful that the section has had for a number of years.

© Western Newspaper Union.

Lesson for March 1

VISION AND SERVICE

LESSON TEXT—Luke 9:28-43a.

GOLDEN TEXT—He that abideth in me, and I in him, the same beareth much fruit.—John 15:5b.

PRIMARY TOPIC—On a Mountain Top With Jesus.

JUNIOR TOPIC—On a Mountain Top With Jesus.

INTERMEDIATE AND SENIOR TOPIC—With Jesus in Prayer and Service.

YOUNG PEOPLE AND ADULT TOPIC—Worship and Work.

The subject of this lesson as chosen by the lesson committee needs to be most rigidly held to its place as set forth in the Scriptures. The lesson should not be taught in a general way as pertaining to vision and service. The particular vision herein set forth is the unveiling of the majestic person of the Son of God, with an epitome of the messianic kingdom.

Jesus took with him Peter, James, and John, and went into the mount to pray. His chief aim in retirement was to get the disciples into a state of receptivitiy so that he might show them the reality and method of his kingdom. Before going into the mount, he declared that there were some standing in his presence who would not taste death until they should see the Son of man coming in his kingdom (Luke 9:27; cf. Matt. 16:28). That their drooping spirits might be revived and their confidence restored, he was transfigured before them. Two men from the upper world were sent to converse with him about his approaching death in Jerusalem (v. 31)—the very thing about which the disciples refused to talk. Then, too, God's own voice was heard in words of approval of Christ's course, directing them to hear the Master. Surely now they cannot doubt his ability to carry to execution his kingdom plans. The purpose, then, of the transfiguration was to give the disciples a foregleam of the coming kingdom, to enable them to see the kingdom in its embryonic form. That this is true is not only shown by the context and circumstances, but by the inspired interpretation of one who was with him and knew all that transpired (see II Pet. 1:16-19, R. V.). Let us, therefore, note the outstanding features of the kingdom as displayed in the transfiguration.

I. Jesus Christ the Glorified King on Mount Zion (vv. 28, 29).

Jesus glorified on the mount to which they went to pray was intended to symbolize the messianic kingdom as it will be when Christ returns literally to the Mount of Olives in Jerusalem (Zech. 14:4-17).

II. The Glorified Saints With Christ (vv. 30, 31).

1. Moses, who was once denied entrance into Palestine, appears now in glory, representing the Redeemed of the Lord who after death shall pass into the kingdom. Many thousands of the redeemed have fallen asleep, and at the coming of the Lord shall be awakened to appear in the kingdom with him.

2. Elijah, now glorified, represents the redeemed who shall pass into the kingdom through translation. Many shall be living upon the earth when the Lord comes, and shall, without dying, be changed, and thus pass into the kingdom (1 Cor. 15:50-53; I Thess. 4:14-18).

3. The topic of conversation (v. 31). It was the death of Christ, the very thing the disciples refused to believe.

III. Israel in the Flesh in Connection With the Kingdom, Represented by Peter, James, and John (v. 28).

Israel shall be called from their hiding place among the nations of the earth and shall be gathered to Jesus Christ, the King, as the central people in the kingdom (Ezek. 37:21-27). Christ is the King of the Jews.

1. Peter's proposal to build three tabernacles (v. 33). The Feast of the Tabernacles looked forward to the glorious reign of Christ. Peter caught a glimpse of the significance of the transfiguration. His proposition showed that he apprehended the meaning of the Feast of the Tabernacles and, therefore, his proposition substantially was, "The millennium is come; let us celebrate."

2. The divine voice (v. 35). At this time God himself uttered words which assured them that the transfigured one was his Son, Jesus Christ.

IV. The Multitude at the Foot of the Mount (vv. 37-43).

The people here were grievously oppressed by the devil, as illustrated by the demon-possessed lad. There are times when the devil is especially active in the affairs of men. The multitude at the foot of the mount is representative of the nations which shall be brought into the kingdom which shall be established over Israel (Isa. 11:10-12).

Inquiry

Inquiry is human; blind obedience, brutal. Truth never loses by the one, but often suffers by the other.

A Friend of Man

Let me live in a house by the side of the road and be a friend to man.—Sam A. Foss.

Truth

Buy the truth whatever it may cost; sell it not whatever may be offered.—Arnot.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF MARCH 4, 1926

ORIE WARE CLAIMS CHANCES GOOD TO SUCCEED ROUSE

The report continues to circulate that Congressman Arthur B. Rouse will retire and let his mantle fall upon other shoulders. The question generally discussed around the district is the identity of his possible successor.

While several have been mentioned in different quarters it has been stated that Orie S. Ware, Commonwealth's attorney of Kenton county, is pretty sure to make the race. Indeed Mr. Ware has paid this county a visit in that connection, stating that he intended to run if Mr. Rouse did not. He is well pleased with the outlook and says he has received splendid encouragement.

PERSONALS

Little Albert William Weaver, son of Mr. and Mrs. L. C. Weaver, has been very ill the past week.

L. L. Stephens has traded his store at Grant to Bud Rector for a farm near McVille.

RABBIT HASH

Everett Ryle left here las Thursday evening for Missouri where he expects to make hi future home.

The infant child of John Bell died last Sunday night and was buried Monday.

News Tour

(W. C. Walton)

The navigation of the Panama canal is a great sight, on the Atlantic side the first lift is made at the Gatun lock, here the canal starts as there are two lanes and ships can come and go from either ocean. When you enter the first lock, huge electric mules built like a box car pulls the ships into the lock, and the ship is lifted then with the second lock. The steel mules pull the ship into the second lock, and the same process till you reach Gatun lake, which is a fresh water lake 85 feet above sea level and covers 165 square miles. The ships cross this lake on their own power. When they reach the lock Pedro Miguel on the Pacific side, the lock is closed and the water is pumped out and the ship is lowered even with the second lock and so on until you reach the Pacific Ocean, where the city of Panama lies.

This city was founded in 1815 and has a population of 74,000 persons, it is called the cross roads of the world as all ships going around the world stop at Panama. In this city all races of people live, and the chief export from the Republic of Panama is bananas. America has $46,000,000 invested there, tourist and travelers spend $2,000,000 each year there. Spanish is the language used and is compulsory, religion is free but Roman Catholic prevails.

Next week, Statue of Liberty.

The Hamilton Silver Leader 4-H Club held its first meeting Feb. 13, having 18 members. The meting was in charge of H. R. Forkner, County Agent, and W. Hume, Assistant County Agent.

The officers electd for the following year were the following.

Samuel Shinkle has returned to his work of driving a milk truck at Harrison, Ohio.

what Irvin S. Cobb thinks about:

A Texas Front Yard.

HOUSTON, TEX. — Because the Texas rangers merged with a prosaic highway patrol, thereby losing their entity as perhaps the finest fighting force for law enforcement that America ever knew, they're saying romance has suffered a death blow.

But I wouldn't go so far as to say that—not about Texas. There's romance in her scope; raw drama in her business. Superlatives grow on trees out here and distance lives up to its name. We may not always fall in love with the fat lady in the sideshow, but her size commands respect. And sometimes, as in this case, there's beauty along with bulk. Take the famous King ranch—the mightiest domain in the hands of a single family in all the world, probably. There is a saying—and a true one—that it's ninety miles from the front gate to the front yard. Think of trying to shoo the chickens out of that front yard!

Irvin S. Cobb

* * *

Praising Charles Curtis.

DURING his active life, there was a general journalistic tendency to deprecate Charles Curtis' larger achievements and laugh at his little vanities. Now that he's gone, the newspapers, without regard to their politics, are printing tributes to the distinguished career and fine citizenship of this man who went from an Indian lodge to the second highest elective office in our gift.

Since to criticize our leaders is an almost universal instinct, wouldn't it be fine if we reversed the rule about speaking no ill of the dead and praised a deserving fellow-creature while he could hear what we said—but saved up the scoldings until he'd passed on?

I could elaborate on this text, but must stop to try to think up some small gibe at the expense of some prominent man.

* * *

The Yellow Peril.

THEY'VE taken the Japanese war scare from the old cedar what-not and shaken the mothballs out of it and are waving it in the breeze as a signal to the citizens of Los Angeles to remove the women and children to a place of safety and a warning to the folks in Seattle to start building street barricades. Thus we have the annual revival of a time-honored custom.

To be sure, there's a racial difference to be reckoned with. We're a breed of opportunists, the Japanese are a breed of fatalists. The American soldier wants to go home when the mess is over and see if he can get his job back from the lad that smuggled into it while he was at the front; the Japanese craves to rejoin his ancestors instead of his family. So naturally a fellow who'd prefer to go on living is at a handicap fighting a gentleman who thinks you're doing him a personal favor by killing him.

But no matter how acute the peril, I decline to retreat to the Ozark mountains until they prove to me that Japanese explosives will explode when desired, or at all.

* * *

White Folks' Melodies.

LEAVING California, I said: "I'm fed up on the kinds of singing that you hear so much of out here. No matter what a Mexican song starts out with, it winds up with something about a dove. And the trouble with Hawaiian singers is that they're always telling you good-by but they never go. Thank goodness, I'll soon be listening to the stuff I was raised on—spirituals pouring gloriously forth from velvety Afric throats."

But I hear now the distressing news that, even here in the deep South, some of the black people are getting so self-conscious or something they want to sing the white folks' comparatively thin and pithless hymns instead of their own rich, glowing melodies.

Think of the race that made "Swing Low, Sweet Chariot," not wanting to chant it! Think of a day when "Deep River" is forgotten by its very creators! Think of "Joshua Fit the Battle of Jericho" no longer ringing out where the field hands pick the cotton or cut the cane! Think of Little David not being entreated to play on his harp!

Think of that and bust out crying!

* * *

Glasses of Eternal Spring.

PRETTY much all over the country there seems to be general complaint about the weather. People are saying the trouble with this winter is that there's so much winter to it.

But there's a philosophical way of regarding climatic unpleasantness. My friend, Ed Borein, the western painter, knew an aged chief on the Crow reservation up in the Northwest who, when the first freeze came, went to the agency and bought a pair of green goggles. There didn't seem to be anything wrong with the old Indian's sight—he had an eye like a captive hawk—so Borein asked questions.

"I'm no longer young," [illegible] ancient, "and I don't like the snow and ice. Now, wherever I look, I see only green things and it makes springtime in my heart."

Maybe once in awhile we could learn something from the lowly Red man.

IRVIN S. COBB.

©—WNU Service.

PETERSBURG

(Delayed)

Rev. DeArmond was ill several days the past week with the grippe.

A NEW SERVICE

A long-needed service is now available to people of this community in need of electric appliances, electric wiring, etc. Motors or service on any appliances they may have.

The Erlanger Electric Shop in Erlanger, managed by Nick King and Courtney Pope, have for sale all standard makes of appliances, also Philco radios, Maytag washers, frigidaire and Crosley refrigerators, Royal cleaners and a complete line of small appliances.

The service department under direction of Ben Browning and Robt. Cooper is equipped to give better service at the lowest cost, and only ask that you give them a trial for your electrical needs.

BEAVER LICK

Services at the Baptist church Saturday Feb. 29th, at 7 p. m., conducted by the pastor, Rev. Roy Johnson.

Mr. and Mrs. Roy Kenney and children were Sunday guests of John Taylor and wife.

Mrs. Omer Kite and daughter Miss Edna Mae, are ill of scarlet fever. Their many friends are sorry to hear of their illness and hope they will soon recover.

Howe Cleek and family have moved to the Harmon Jones farm.

HAVE YOUR EYES EXAMINED

Our expert eye examination will reveal whatever aid your eyes may require. Properly fitted glasses are vitally important for your general health and comfort.

Strained eyes may cause headaches, nervousness, dizziness, mental dullness, etc. New glasses often make one feel like a different person. Come in for free adjustment of glasses.

"The Store That Saves You Money"

Ellicottville, N. Y.
Feb. 15, 1936

To the Editor
Boone County Recorder
Dear Sir:

Would very much appreciate your printing the enclosed poem written by me in honor of the 91st birthday of Mr. Tom Adams, of Burlington, Ky., on the 27th of this month.

My wife, who was Miss Nellie Adams, and myself would consider it a great favor as we will not be able to see him on that day as was our custom when living in Cincinnati.

Very respectfully,
Mr. and Mrs. Charles M. Stone
P. O. Box 402,
Ellicottville, N. Y.

NINETY-ONE YEARS

Ninety-one years I've traveled on
life's highway
And yet within that span of many
years
Mine eyes have seen the beauty of
God's blessings
Of love and joy and likewise pain
and tears.

And yet I would not have it other-
wise,
Or miss a single moment or a day,
Or miss the smiles that came as
my reward
For helping those less strong along
life's way.

I would not miss the friends that
I have gathered,
Their friendly handclasp or their
cheery smiles,
That gave me faith and kept me
forging onward,
It seemed to help me shorten the
miles.

Or even miss the tears that oft did
come,
As someone dear passed over the
great divide,
To journey through the Heavenly
streets of gold
Because dear ones remained to
dry my eyes.

Ninety-two years and yet, it seems
but yesterday
That youth was mine and life
seemed bright and gay;
I worried not about the years to
come,
And counted not the mile posts by
the way.

For life was sweet and in good time
I knew
The beauty of a home and fertile
lands;
The golden corn and gently nod-
ding wheat,
And the blessing of the touch of
baby hands.

Ninety-one year, each one a Gold-
en treasure in my heart,
There's not a single one that I
would spare,
Because so many brought me joy
and happiness,
And so few of them have brought
me pain and care.

And so, what care I for the march-
ing of the year,
How little do they mean to hearts
still young;
I still can smile and greet the sun
each morn
And give my thanks each night
when day is done.

I had my youth and love and
blessings too,
And perhaps I had my share of
pain and tears;
But God is good and as His bless-
ings flow,
I smile and say, "Who cares for
ninety-one years."

—Charles M. Stone.

LUELLA STEPHENS WILLIAMSON

Hetha Luella Stephens Williamson, daughter of Thomas P. and Elizabeth Stephens, was born August 11th, 1852, and departed this life Feb. 19th, 1936. She was united in marriage to Annziah Hopper in 1867. He preceded her to the grave in 1875.

On December 24, 1878, she was united in marriage to Montgomery Williamson. To this union were born three children, one dying in infancy. She is survived by two sons, Ray and Cecil, eight grandchildren and numerous nieces, nephews, relatives and friends to mourn her death.

Her remains were laid to rest in the Stephens cemetery Friday, Feb. 21st, at 11 a. m. Short service at the grave, conducted by Elijah Stephens.

Chambers and Grubbs, undertakers.

4-H NUMBERS AT NEW HIGH

Nine Boone County 4-H Clubs have just completed their organization meetings for 1936 with a record enrollment of approximately 340 members, according to H. R. Forkner, county agent. This year promises to be one of record work as well as record enrollment says 4-H leaders throughout the county.

COLD DAMAGES SEED CORN; TESTS URGED

In a statement urging farmers to test seed corn this spring, the College of Agriculture, University of Kentucky, notes that much of the 1936 crop contained a large percentage of moisture when cribbed, and that germination has undoubtedly been seriously injured by the severe cold weather.

Farmers who are depending upon getting corn from the crib should by all means make a test of this corn, says the statement. In many instances it is almost certain that germination will be low.

To make a preliminary test, it is suggested that 8 or 10 grains be shelled from each of 40 to 50 ears selected at random. Mix these grains together and sprout in sand or between damp cloths. Be sure that the grains are kept moist and that the room is warm.

If less than 75 to 80 percent of the seeds germinate, the corn is not fit for seed and efforts should be made to obtain old corn from the 1934 crop, or an individual ear test should be made of the 1935 crop so that good seed ears could be picked out.

Evreyone who has old corn on hand ought to keep tnis for seed as there is likely to be a serious shortage of good seed corn this year, it is believed at the college.

STOVES, LANTERNS HELP SAVE PIGS

Many farmers found kerosene stoves or lanterns of assistance in keeping young pigs from freezing during the severe cold weather this winter, according to observations of Grady Sellards, extension field agent in animal husbandry for the Kentucky College of Agriculture.

A gallon of kerosene will keep a stove burning overnight, and may be the means of saving a whole littler of pigs. A smaller amount of kerosene will run a lantern, but a stove is better in severe weather. Care must be taken to fasten the stove securely in a corner of the room, and board up around it with slats, so the sow cannot upset it. A little straw is then placed around the base for bedding for the pigs.

Care of sows include reducing the corn allowance by half immediately before and after farrowing, and substituting an equal amount of wheat bran.

On the day the sow farrows give no feed unless she is very hungry. During the next few days continue her on a medium allowance of wheat middlings, increasing the amount grdually until she is eating 4 to 4½ pounds daily by the end of the first week, at which time corn, tankage or milk may be added.

It is wise to take about three weeks to get the sow on to full feed after farrowing. The reason for this is to prevent the production of more milk than the pigs can take without scouring.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

GUNPOWDER

(Delayed)

Mr. and Mrs. P. J. Allen, of Florence, spent Sunday afternoon with this writer.

W. J. Craig was delivering hay here last week.

Elbert Rice, of Covington, and Frank Bauers, of Florence, were in this neighborhood Monday of last week.

B. E. Northcutt, who has been on the sick list for sveral months, has about recovered.

Lewis L. Weaver, a highly respected citizen of this neighborhood, passed away at his home near Union on Wednesday of last week. He leaves two sons Harold and Lloyd Weaver, both of Covington, and a number of relatives and friends to mourn his passing. An appropriate service was conducted at Hopeful church last Friday by Rev. Harold Beemon, assisted by Rev. Hauter, after which the remains were laid to rest in the cemetery near by. Undertaker Philip Taliaferro had charge of the arrangements.

POINT PLEASANT

(Delayed)

Miss Mollia Kenton and Everett Hays spent Saturday evening with her brother, Erman Kenton, wife and son, Jimmy, of Covington.

Mr. and Mrs. Geo. Wernz spent Wednesday evening with Mr. and Mrs. Frank Shinkle and daughter Elizabeth.

Mr. and Mrs. John Bell and family spent Wednesday evening with his mother and brother Mrs. Margaret Bell and son David of Crescent Springs.

Mr. and Mrs. Geo. Wernz and sons entertained Saturday evening Mr. and Mrs. Jake Rill and children of Ludlow Mr. and Mrs. J. E. Kenton and family and Mr. and Mrs. John Bell and children.

J. S. Eggleston called on Sterling Rouse Monday.

Mrs. Elnora Riddle and son J. D. attended a social at Sand Run, Saturday evening. Miss Alice Eggleston returned home with them.

Chas., Jake, and Kenneth Blaker spent one evening last week with Mr. and Mrs. Geo. Wernz and sons, Adam and Harry.

Roscoe Newman has begun wrecking the Walton house and will replace it with an up-to-date dwelling.

Rev. Noble Lucas, who is pastor of the Bullittsville Christian Church, will preach at the Pt. Pleasant church the first Sunday in March.

Mr. and Mrs. Dexter Carder and mother and daughter entertained relatives, Sunday.

A portion of this news was omitted due to insufficient space.

FLORENCE

(Delayed)

Tom Owens, state highway employe, suffered a possible leg fracture and knee laceration when knocked from a highway truck on the L. & N. Bridge. Mr. Owens was a flagman on the truck while other men scattered cinders on the bridge.

Mr. and Mrs. Paul Renaker and children, and Mrs. W. R. Miller and son were the guests Sunday of their sister, Mrs. Kirk Ammerman, of Cynthiana, Ky.

Mr. and Mrs. M. Moss and daughter of Latonia, Ky., attended services here Sunday.

Miss Elva Smith, of Ludlow, spent Sunday with Virginia Miller.

Several here attended the funeral of Mr. Lewis Weaver Friday at Hopeful.

Mr. Newton Marksberry, a former resident of Boone Co., passed away at his home in Erlanger, Ky., Monday morning.

Mrs. S. J. Zapp has been on the sick list but is now much better.

Mr. and Mrs. Robt. Eads have for their guest Miss Bernadine Eades, of Bloomington, Ill.

Correction

It was stated last week that Mrs. Annie Collins was a teacher in the John G. Carlisle Jr., Hi at the time of her death. This should have read to the effect that her husband is now teaching at that institution.

HEBRON

(Delayed)

This correspondent would appreciate it very much if any one having news in this community would call Hebron 114.

Homer and John Baker, of Ludlow, were the guests Saturday afternoon of their mother, Mrs. Nan Baker.

Mrs. James Tanner was called early Sunday morning to the home of her parents, Mr. and Mrs. Ambrose Easton of Price pike, where her mother was ill.

Miss Alline Stephens, of Bullittsville, spent one day last week with Mrs. Joanna Graves at the home of Mr. and Mrs. Owen Acra.

Mrs. Chas. Clore had as her house guest last week Miss Catherine McArthur, of Newport.

Mr. and Mrs. Harges, of Covington, spent Friday evening with Mr. and Mrs. Wm. Crigler.

TWELFTH ANNUAL COURIER-JOURNAL SPELLING BEE

Every pupil competing in the Twelfth Annual State Spling Bee, conducted by The Courier-Journal, has an equal chance to carve a niche for himself in the "Spelling Bee Hall of Fame." For twelve years, farm lads and lassies, bankers' sons, mayors' daughters, laborers' children and children from other varied walks of life have won renown for themselves in matches similar to the one conducted by The Courier-Journal.

In 1935, Audrey Robey, a farm girl from Scott County, spelled for three hours to down the last of 100 county and city champions who competed in the State Bee during the Kentucky Education Association. As a reward for her triumph, Audrey spent a week in Washington, D. C., where she competed in the National Spelling Bee, finishing fifth. The visit to the Nation's most important city and the never to be forgotten historic sights will live long in the memory of the girl, whose home community consists of a house or two, a church and a store.

School superintendents conducting city or county-wide matches have until April 1 to select their champions for the 1936 Bee. Some child will represent the State in the National Spelling Bee in Washington. Other county champions share in $500 casn and dictionaries. But win or losee, every child competing in any stage of the match will have a better understanding of words in the English language.

J. F. CLEEK HAS FIRST U. S. APPROVED POULTRY FLOCK IN BOONE COUNTY.

A large leghorn poultry flock of J. F. Cleek, of Walton, route 2, was inspected by a representative of the Kentucky and U. S. Poultry Improvement Associations the past week and given a U. S. Kentucky approved rating. This is the first flock in this county to receive this new rating.

The U. S. Kentucky approved flock rating means: (1) Females shall be rigidly and thoroughly selected once each year for constitutional vigor and for egg production, such selected females to combine standardbred and production qualities to a reasonably high degree. (2) Males shall be from U. S. Approved flocks or better and shall be selected especially forconstitutional vigor and standardbred qualities. (3) The selection of the flocks shall be approved by an official State inspector.

The U. S. Kentucky Poultry Improvement Association has accepted five grades of breeding flocks that may be sold under the Association approval. These flocks include: (1) U. S. Kentucky Approved, (2) U. S. Kentucky verified, (3) U. S. Kentucky Certified, (4) U. S. Kentucky Record of Performance, (5) U. S. Kentucky Register of Merit.

Poultrymen who buy baby chicks or hatching eggs can buy with greater confidence from hatcheries of flocks that have met the above requirements.

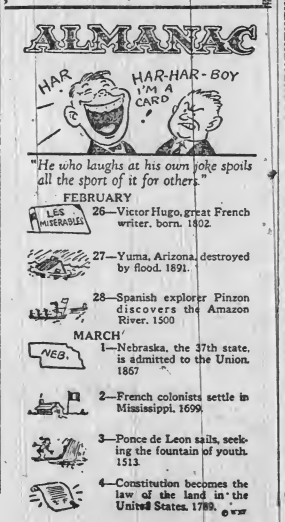
Stanley Clore and wife, of Waterloo, were business visitors in Burlington Friday.

BURLINGTON HOME MAKERS ORGANIZE

A temporary Home Makers Club was organized in Burlington, Feb. 11 with twenty members. The following officers were elected: Chairman, Mrs. Galen S. Kelly; Vice-Chairman, Mrs. Stanley Eddins and Secretary Mrs. Howard Ryle. Miss Mary Hood Gillaspie, Asst. Home Demonstration agent of Kenton county, assisted by Mrs. Joe Walton, Erlanger, demonstratd the making of closet accessories.

The next meeting will be held Thursday, March 5th, at 1:00 p. m., in the court house (grand jury room).

We hope that every interested lady in the community will make an effort to attend the next meeting. This is your invitation. Remember the date, March 5.



Mrs. Walter Brown.

FLORENCE HOME MAKERS TO MEET

Miss Mary Hood Gillaspie wishes all women in the Florence community interested in organizing a Home Maker's Club, to meet with her in the Lloyd House on Shelby street Friday afternoon, Feb. 28th, at 1:00 p. m., (EST).

DEVELOPMENT OF GAME AND FISH PROPAGATION AND PROTECTION IN KENTUCKY

It appears that many people have the erroneous impression that the game and fish laws are new creations that have not been in effect for a sufficient length of time to have proven their value, and that these laws have recently been enacted at the instigation of a group of persons whose interest was limited to the benefit that might come to their particular form of recreation.

Without any desire to detract from the great recreational value of wild life, we are making the statement that economic value and not the recreational value of game was responsible for our first game laws.

In the year 1775 Col. Richard Henderson, on behalf of the proprietors of the colony of Transylvania, sent a message to the House of Delegates of the colony, urging passage of certain necessary acts. In that message he referred to the wanton destruction of game and urged the necessity of an act for its protection.

The laws of Virginia, under which we operated when first admitted to the Union recognized the damage done when killing deer for their hides and permitting the flesh to be wasted, and unsportsmanlike and destructvie method of taking game by what was known as fire hunting, and the inconvenience caused by trespassing. Penalties were provided for anyone committing these offenses. By act of the Legislature in the year 1894, protection was giva to fish and practically all the wild birds and animals now on the protected list. By act of the Legislature in 1904, the office of County Game and Fish Warden was created, and the warden was vested with the same authority that is now exercised by them.

Real state-wide organized enforcement of conservation laws came in 1912 when the recreational, as well as the economic value of wild life began to be recognized. In that year the Lgislature provided for the sale of hunting licenses, the funds thus raised to be used for the support of a State Game and Fish Commission, whose duty it would be to propagate and protect the game and fish of Kentucky. With a few minor changes, these laws are still in effect and under their provision much has been accomplished in the conservation of wild life.

When the Game and Fish Commission was established in 1912 an appropriation of $5,000.00 was made to cover the expenses of the first year's operations. A provision was attached to this appropriation which stipulated that this amount was to be repaid to the State Treasury from the first money belonging to the Game and Fish Commission. From that date until 1928 the money derived from the sale of hunting license was the sole support of the propagation and protection of both game and fish.

With the coming of good roads, the number of fishermen began to increase at a surprising rate. The fishermen of the State, realizing that an increasing number of people were becoming followers of their sport, and that many of these fishermen were not paying part of the expense of propagating and protecting fish, and that it was unfair to the hunters to pay for their sport; were successful in a movement to have a fishing license law, a size limit, and closed season law passed by the 1928 Legislature. The closed season was established with the idea of giving the fish protection during the spawning season, when it is easy to destroy great numbers. The size limit was passed with the reach maturity and spawn one idea of permitting the fish to season before being taken from the waters. The only aim of the fishing license law is to raise additional revenue for the establishment of fish hatcheries, and the propagation of valuable game fish. The provisions of this law were very liberal, as all women and minors who are citizens of Kentucky were exempt from buying license.

Since the passage of the fishing license law, the Commission has been able to have a special Department devoted to the propagation of game fish for distribution in the streams of the State. This has been done without robbing the hunters of the money that was paid in for hunting licenses and which rightfully should go to restocking and protecting the game in the State. At each session of the Legislature since the passage of the new fishing laws in 1928, an unsuccessful effort has been made to repeal the fishing license law. Repeal of this important piece of legislation would mean that the propagation of fish would have to cease, or that the burden of supporting this work would again fall on the hunters of this State.

The fish distributed since passage of the fishing license law has made it possible for anglers to continue following their favorite sport. In years to come the work done by the Game and Fish Commission, since passage of the fishing license law gave it sufficient funds to properly carry on a first class propagation program, will be more greatly appreciated than at present.

During the period covered by this report, the calendar years of 1933 and 1934, fish produced in State owned hatcheries or seined from overstocked ponds and lakes leased or used by the Commission, were placed in the public streams of the State.

In this report it is the intention of the Commission, while pointing with pride to its own worthwile accomplishments, to point out what it considers unwise practices followed by it and its predecessors.

For many years the Commission, due to limited facilities, has been forced to deposit the fry, or what is generally known as fish of few days age, in the public streams. Careful observation has proven that a very small percentage of these fry were successful in evading the cannibalistic habits of mature fish, the result being that a major portion of the Commission's efforts at propagation proved futile.

During the period covered by this report, the Commission has as far as its funds would justify, adopted the policy of leasing or constructing holding pools in which the output of the hatchery right be held until of sufficient size to liberate in the public streams.

From close observation it has been estimated that of the output of hatcheries released in public strams at the age or size known as fry, 3 percent reach the legal size for fishermen to take.

In contrast to this low average of fry, released in public streams which reach maturity, we cite the example of 150,000 fry taken from floating fish hatcheries on Herrington Lake in the early part of the year and transferred to holding pools and held until late in the year. These fish when transferred from ponds to Lake, represented in numbers 37,000 or 24 2-3 percent of the total amount of fry hatched.

Not only did the Commission save on numbers of fish placed in public waters, but the fish transplanted were of sufficient size to guarantee a future supply for the waters stocked.

A great aid to the Commission is the aggressiveness shown by several County Game and Fish Protective Associations that have constructed rearing pools to care for the fry furnished by the Commission from the State owned hatcheries.

By such cooperation local game and fish associations are insuring themselves of a much greater number of adult fish than could be obtained by placing young fish in the public streams.

From the experience of the past three years we would recommend that insofar as its funds will permit, that the Commission increase its holding pools in an equal ratio to the production of its hatcheries and that by the allotment of fry, it encourages the construction of rearing ponds or pools by the various County Game and Fish Protective Associations.

It is an undisputed fact that Herrington Lake formed by Dix River Dam, a Hydroelectric power project, is Kentucky's most noted fishing resort. Since the creation or Herrington Lake, one of the chief concerns of this Department has been to maintain an adequate supply of fish to justify its reputation of being one of America's foremost recreational spots.

Due to the fact that the power plant uses a great volume of water the depth on shore line of Herrington Lake varies from day to day, the result being that eggs deposited by fish during the spawning season may by reason of the lake being lowered by use of water for power, left on dry land and an absolute loss for propagation purposes.

The Commission after a careful consideration of the problem, had constructed what was probably the first floating fish hatchery. These floating hatcheries are of wood construction, divided into separate pools for spawning purposes and through which the natural lake water enters by means of copper screen in the sides. These natcheries are supported and floated in the lake by air tight casks under the framework. By reason of their construction these hatcheries rise or fall with the level of the lake and insure that the spawn deposited in the pools will be covered with water until hatching time.

Floating hatcheries are now in operation on Herrington Lake, and to guarantee an adequate supply of fish for the anglers who visit this noted lake we advise that the floating hatcheries be continued and if available funds will permit, that additional floating hatcheries be constructed.

The Commission owns and operates fish hatcheries at Wofford, Whitley County, Kentucky; Glen Springs, Lewis County and Glasgow, Barren County. When compared with the record of hatcheries in many other places, we can feel well satisfied and recommend their continuance as a part of Kentucky's propagation program.

Because a greater number of people are interested in game fish than in commercial or rough species of fish, the attention of the present and previous Commissions has been directed in a great measure to the propagation and protection of game fish. From our experience we deem it advisable to call attention to the fact that the Commission has probably not given the proper consideration to the commercial value of the rough or non-game fish in Kentucky streams.

Kentucky probably has more miles of streams than any State of the Union, and by reason of that fact, should have more fish suitable for food purposes. Many people who have no opportunity of fishing for sport, depend upon fish as a staple food product. To protect game fish it is necessary to license and regulate those fishermen who take rough fish for commercial purposes.

In view of the importance of rough or commercial types of fish, we believe that the Commission should maintain an adequate patrol of our navigable rivers that would protect the licensed commercial fisherman from competition of the outlaw fisherman.

We would recommend as a protection to this industry and to the citizens who depend upon it for a staple food, that the State Legislature enact stricter laws in regard to the pollution of our public streams.

While fishing is the sport enjoyed by thousands of people, the sale of hunting and fishing license for the two years covered by this report shows that sixty two thousand three hundred and eighty-eight more people purchased hunting license than there were who purchased fishing license.

This preference for nunting places upon the Commission the duty of seeing that every effort is made to propagate and protect the small upland game which furnishes the chief sport of Kentucky hunters.

Most people who have studied the habits of hunters believe that the desire to hunt is a characteristic inherited from ourforefathers who lived by the skill they displayed in the chase or hunt.

In late years this natural desire of the Kentucky people has been handicapped because many people do not own land and the State does not provide a public shooting ground for those citizens who do not have access to privately owned property. While no fair-minded hunter or fisherman denies the legal right of the landowner to prohibit trespassing on his private property, all sportsmen believe that when the funds of the Game and Fish Commission will justify the expenditure, public Hunting and Fishing Ground should be provided for.

By cooperating with the Federal Government, Fiscal Courts of various counties and game and fish protective associations, the present Commission has been able to provide many places which will be set aside as permanent hunting or fishing grounds. We would recommend that successding Commissions follow this policy where feasible.

As set out in the beginning of this article, game and fish has both an economic and a recreational value, but it is our opinion that not all game and fish should be considered from either viewpoint. It is our opinion that several of the fur bearing animals and the rough class or non game fish should have serious consideration from the viewpoint of their commercial value, and that the other species of game and fish should be considered for their recreational value.

After careful study it is impossible to separate the economic from the recreational when considering the value of wild life, as the seeker of recreation must of a necessity spend money which adds to the financial well-being of many Kentucky citizens.

While all funds for the protection of wild life are derived from those people who hunt or fish, the Commission is charged with the duty of protecting song and insectivorous birds which are either a pleasure or direct benefit to all the people.

If a citizen is not interested in the recreational value of wild life, he or she should advocate protective measures so that an organization may be maintained for the protection of non game birds.

The work of the Commission can be defined by the use of three words, propagation, education and protection.

GASBURG

Master Allen Berkshire spent last Monday with his grandparents, Mr. and Mrs. Howard Huey.

Mrs. Ira McGuire was called to Petersburg last Monday on account of the illness of her father, Mr. Lyman Christy. Glad to report that he is now somewhat improved.

Master John Campbell White spent last Wednesday and Thursday nights with his sister, Mrs. Wm. Bradburn, of Petersburg.

Mrs. Nat Rogers entertained relatives from Cincinnati, recently.

Mrs. Alex Washnock is ill with grippe.

Master Billie Burns called on Master Marvin Campbell Sunday afternoon.

Miss Mary Rector with Mrs. Norris Berkshire and Rev. W. T. Dunaway, of Petersburg, attended the 4-H club leaders conference and luncheon at Burlington, last Friday. It takes our County Agent to plan such an enjoyable and educational day as last Friday.

Mrs. "Lige" Acra and daughter Lucille, called on Mrs. Louis Geisler, Sunday afternoon.

Mr. and Mrs. E. E. Klopp moved to the ferry house Friday.

One of our good citizens reports that the pet house dog went out the other day to explore the country and met up with a cat—the result was that pet dogie was introduced to Lifebuoy soap and a tub of water before he was allowed to come near the house.

Miss Mary Rector called on Mrs. Lulu Stephens, Sunday afternoon.

Mr. and Mrs. Wm. Bradburn called on Mr. and Mrs. Chas. White Sunday evening.

Mr. and Mrs. Kirtley McWethy plan to finish moving this week.

This neighborhood was very sorry to hear of the death of Mr. Richard Kittle.

Miss Martha Campbell called on friends in Petersburg, Sunday afternoon.

News reached here last Friday of the death of Mr. Will Fleek. Mr. Fleek lived on the L. S. Chambers farm here several years ago. Sympathy is extended to his family.

Mr. Geo. Batchelor spent Monday with Mr. Charles White.

Mrs. Andy Cook and son John Harold, called on Mrs. Frank Biddle, Sunday afternoon.

Mr. and Mrs. Allen Rogers and daughter, spent one day last week with Mr. and Mrs. John Rogers and Mr. and Mrs. Russell Rogers.

Glad to report Madams Jno. Rogers and Allen Buffington are somewhat improved.

Mr. Russell Cook spent Friday with Mr. and Mrs. Tom Rice, of Burlington.

Mr. and Mrs. Karl Keim and daughter, of Florence, and Mr. and Mrs. Herbert Snyder, of Burlington, spent Saturday with Mr. and Mrs. H. E. Arnold.

Mr. and Mrs. Jacob Nixon and Mr. and Mrs. "Lige" Acra moved Saturday. They exchanged places.

Mr. Wilbur Rice bought some nice hay from Mr. Chas. White last week.

Mr. and Mrs. Wilson Leek spent a part of last week with Mr. and Mrs. E. E. Klopp.

Mr. and Mrs. Andy Cook and family and Mr. Ray Cook spent Sunday with Mr. and Mrs. Charles White.

The ice has cleared out of the river and the Aurora ferry boat made her first trip yesterday (Sunday).

Mr. and Mrs. H. E. Arnold were business visitors in Burlington on Monday afternoon.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 60 — BURLINGTON, KENTUCKY THURSDAY MARCH 5TH, 1936 — NUMBER 47

DOUBLE DEFEAT ENDS SEASON

FOR LOCAL BASKETBALL QUINTETS—CATS AND KITTENS HAVE SHOWN GREAT IMPROVEMENT IN LATE SEASON GAMES—ONLY FEW PLAYERS WILL BE LOST THRU GRADUATION.

The Burlington Tom Cats and Kittens closed their regular basketball season during the past week end with Cats on the short end twice and Kittens once, making their won and lost column one of the most disasterous that the Blue and White have experienced for some years. Their record, however, cannot be considered from a percentage basis, as both boys and girls teams were made up of first year players, with few exceptions, and a close tabulation of the scores show that many of their games were very close and might easily have gone either way.

The Cats lose two regulars, Norris and Captain Sebree. The Kittens lose only one regular, Ethel Snow.

The first defeat of the week for the Cats came at the hands of the fast stepping Hebron Cardinals, who had little difficulty in holding a safe lead during the entire game. The half ended 14-9 and the final score was 35-25. Wohrley and Judy led for the losers with 10 and 9 points respectively. Pip Clore led the Burlington assault with 14.

In one of the most remarkable last half spurts that this writer has ever witnessed, the Kittens after trailing 13-12 at the half-way mark, formed a stone wall defense and started looping baskets from every angle, and when the final whistle blew they were leading 32-13. McClure was high point maker for Burlington with 13 points and Selkman looked best for Hebron with 8.

The Burlington Juniors defeated the Hebron reserves in a preliminary game 23-18.

Saturday night the Cats and Kittens fell prey to Williamstown at the latter's floor. The Kittens were defeated 36-26. Kinman was the best offensively for the Grant countians with 13 points with A. Pettit showing best for the losers with 11.

Led by Carter, who scored 13 points, the Williamstown boys had little trouble in defeating the Cats 31-22. Sebree connected for nine points for the locals.

CHARLES LEE BURNSIDE

Charles Lee Burnside, aged six months, passed away last Sunday morning at St. Elizabeth Hospital, after a few days illness with pneumonia. The remains were removed to the Taliaferro Funeral Home for preperation.

Little Charles is survived by his parents, Mr. and Mrs: John Burnside, of Crescent Springs, Ky., several brothers and sisters.

Funeral services were conducted Tuesday afternoon at 2 o'clock by the Rev. Spahr, of the Crescent Springs Baptist church, at the Taliaferro Funeral Home, after which he was laid to rest in Highland cemetery.

AUTO OVERTURNS WITH THREE LOCAL BOYS

A car owned by Charles Robinson in which he and two companions, Boyd Snow and Tousey Porter, all of Burlington, were riding early Sunday morning in Covington skidded on the car tracks and overturned. Mr. Snow suffered a cut left hand in which 16 stitches were taken. He was taken to the St. Elizabeth hospital immediately after the mishap where he was treated. Neither Roolnson nor Porter were injured.

WHEN AND HOW THEY PLAY

Thursday Nite

Burlington-Hebron (Girls) 7:00
New Haven-Hamilton (Girls) 8:00
Walton-Hebron (Boys) 9:00.

Friday Afternoon

Florence-Walton (Girls) 1:30.
Florence-New Haven (Boys) 2:30
Burlington-Hamilton (Boys) 3:30.

Friday Nite

Burlington-Hebron Winner and New Haven--Hamilton Winner (Girls) 7:30.
Walton-Hebron Winner and Florence-Haven Winner (Boys) 8:30.

Saturday Nite

Boys Final
Girls Final.
AWARDING OF TROPHIES

BE A LOYAL SUPPORTER OF YOUR TEAMS

The annual 37th district basketball tournament, to be played at the New Haven gymnasium March 5, 6 and 7 promises to be one of the most interesting and closely matched that this section has had the pleasure of witnessing for a number of years, but no team of high school athletes, or for that matter any other team, can be expected to play their best unless they have the heartfelt backing of every court fan of their particular community.

There is a great amount of expense attached to promoting a first class basketball tournament, which will give every high school basketball player in the county an opportunity to exhibit skill and sportsmanship, therefore, it is the duty of those interested in seeing youth have such an opportunity to support this sporting event..

HIGHWAY EMPLOYMENT

IN MAINTENANCE CREWS WAS GIVEN 63 MEN FROM NORTHERN KENTUCKY COUNTIES

Sixty-three men obtained employment in maintenance crews in nine Northern Kentucky counties from the State Highway Commission Wednesday. Of this group of workmen a number were formerly connected with the department.

It has been estimated that recent freezing and thawing has caused a $2,000,000 damage to the roads. The commission is giving considerable thought to the financial prospects for the future year as several unexpected problems have arrived such as the recent road damage and reduction in auto license.

Those who received appointments from Boone County were: James Cason and Wallace Clore, Burlington; Cecil Dickerson and C. A. Ashcraft, Walton; George Hensley and John Dursey, Petersburg and Richard Roberts of Verona.

SEVEN UTOPIANS CONDUCT PASTURE DEMONSTRATIONS

Boone County Utopia Club members are making a special study of pasture and hay improvement during 1936, according to H. R. Forkner, County Agent. Seven members are conducting lime and phosphate demonstrations on fields covering from five to ten acres. These members include Grant Maddox, Alvin Stephens, Wilton Stephens, William Moore, Robert Graves, Wilfred Siekman, and William Cox.

Utopia Club members were the first to plan demonstrations thru use of T. V. A. phosphate.

U. K. STUDENT WRITES AMERICA'S FIRST FOLK OPERA, BOOMER OF POEMS

"Cumberland Daybreak," is the title of an attractive collection of poems just published by Harrison Elliott, former University of Kentucky student. Elliott, whose home is in Martin, Ky., wrote "The Call of the Cumberlands" America's first folk opera, which was given its initial performance last year, and several of the poems in this collection are from this work.

At the University, Elliott was a member of the University of Kentucky band and did considerable broadcasting from the University studios of WHAS, Louisville.

NEW HAVEN HOMEMAKERS

A temporary Home Makers Club was organized at New Haven School Feb. 27th with twenty-two members, the largest of any club in the county.

The following officers were selected to serve: Chairman, Mrs. J. F. Cleek; vice Chairman, Mrs. Walter Ferguson; Secretary, Mrs. Marie Pennington.

Miss Mary H. Gulaspie, Assistant Home Demonstration Agent, of Kenton County, demonstrated the making of closet accessories. It is the desire of the club to have all women residing in the Union community interested in beautifying the home to be present at our next meeting, March 26th.

CONVENTION

TO BE HELD AT CAPITOL HILL, FRANKFORT

Hopkinsville, K , Feb. 29.—Mrs. T. C. Underwood, president of the Democratic Woma 's Club of Kentucky, announces that the state convention will be held in Frankfort, Kentucky, at the Capitol Hill, April 23-24, 1936. The dinner for the executive board and directors, and alll Democratic women who wish to attend, will be given on the evening of the 23rd, and the regular convention and luncheon will be on the 24th.

The chairman of the arrangements committee is Mrs. C. W. Longmire, who is president of the Franklin County Democratic Woman's Club, and the following Frankfort women will serve with her: Miss Dorothy Shackelford, State President of Young Women's Clubs; Mrs. Alexander Gayle, President of Young Women's Club of Franklin County; Mrs. J. Campbell Cantrill; Miss Margaret Parrish; Mrs. Emma Guy Cromwell; Mrs. Bowman Gaines; Mrs. Albert Kaltenbrun; Mrs. Elnor Offutt; Mrs. R. A. Brawner, and Mrs. Geo. Ireland, Secretary of Franklin County Woman's Club. Mrs. A. B. Chandler and Mrs. Keen Johnson are honorary members of the committee.

435,000 ACRES OPTIONED BY RA IN FIVE STATES

Land scouts and appraisers of the Resettlement Administration have optioned a total of 435,000 acres of land in Tennessee, Kentucky, Virginia, North Carolina and West Virginia for land use demonstration and resettlement community projects, according to figures released by regional RA officials in Raleigh, N. C.

This total covers approximately 80 per cent of the designated areas allotted for projects in the five states.

Optioning has almost been completed for the land use demonstration projects . A total of 412,435 acres has been allotted for this purpose and 400,843 acres have been optioned to date. Options have been actually exercised by the government on 226,547 acres and titles are vested in the U. S. for a substantial part of this acreage.

Acreages optioned to date for land use projects, by states:

Tennessee, 108,754 acres; Kentucky, 101,288 acres; Virginia, 80,-984; North Carolina, 103,278 acres; West Virginia, 8,539 acres.

The resettlement community projects, on which a limited number of qualified families will be given a chance to acquire farmsteads by extending the payments over many years, are distributed as follows: Tennessee, six, 57,100 acres proposed, 7,058 acres optioned, Kentucky, two, 23,625 acres proposed, 4,814 acres optioned; Virginia, two, 9,500 acres proposed, option total unreported; North Carolina, five, 40,450 acres proposed, 18,950 acres optioned; West Virginia, two 9,500 acres proposed, 3,822 acres optioned.

DAIRY RECORDS

303 POUNDS OF FAT FROM COWS ON TEST

The six dairy herd improvement associations in Kentucky made an average production of 303 pounds of butterfat per cow last year, according to the annual report for the associations, summarized at the College of Agriculture, University of Kentucky. Ninety-eight herds containing 2,801 cows were tested.

Five hundred and fifty cows in the Shelby-Boon-Carroll association averaged 335 pounds of butterfat, with the Oldham-Jefferson association next, with 331 pounds from 617 cows. Other associations reported as follows. Purchase, 304 pounds; Blue Grass, 295; Dix River, 275, and Warren-Simpson-Logan, 251.

The following herds averaged more than 400 pounds; Hugh Gingles, Kirksey; Walnut Hall Farm, Donerail; M. D. Harrison, Farmington; P. B. Gaines, Carrollton, and A. Moser & Son, Anchorage. Forty-nine herds averaged 300 pounds or more. Only five herds went under 200 pounds.

The testing resulted in rigorous culling, a total of 507 cows being sold for beef during the year.

Every association reported a substantial profit above feed cost. The best record was by the Shelby-Boone-Carroll farmers, who made $101.67 per cow over the cost of feed. The average for all associations was $79 per cow over the cost of feed.

The average dairy cow in Kentucky produces approximately 158 pounds of butterfat in a year, according to the report. Members of dairy herd improvement associations nearly doubled this production.

COURT NEWS

There were three wills probated in County Court this week. They were as follows: John Smith, Ira Pope and John C. Duncan.

Among the visiting attorneys attending County Court were Judge John Dillon, of Ludlow, Commonwealth's Attorney Ward Yager, Warsaw, D. E. Castleman, Erlanger, Charles Riley, Hebron, and John Crigler, Hebron.

The Boone County Equalization Board and the Boone County Fiscal Court were in session Tuesday.

U. K. MAN NAMED CONSULTANT

Dr. J. W. Martin, director of the Bureau of Business Research at the University of Kentucky, on leave to serve as Kentucky's new chairman of the State Tax Commission, has been appointed consultant ex-officio, for the Educational Policies Commission, Washington, D. C.

News was received here at 6:00 P. M. Wednesday of the death of County Attorney Ben Riley, Union, who has been the unfortunate victim of several paralytic strokes in the past few weeks.

Complete details will be published in the next issue.

Productivity Of Soils And Prosperity Closely Related

The advancement of civilization and prosperity of people are closely related to the productivity of the soils, according to Prof. Geo. Roberts at the Boone County Soil and Pasture Improvement meeting held at Burlington Court House last Friday past. Prof. Roberts stated the failure to preserve soil fertility and prevent wasteful erosion in China hundreds of years ago resulted in the muddy waters of the yellow river, floods, famines and the starvation rations in China today. Several hundred million acres of agricultural land in the U. S. because of uncontrolled erosion has passed the redeemable agricultural stage during the past 150 years. Unless the people awaken to this enormous loss of productivity in this country may experience in a few years hence agricultural conditions similar to those in China today.

The solution to the loss of soil productivity lies in the efficient use of pasture and cover crops. Twenty times as much plant food is lost thru erosion in a year than is used by the growing crop. Practically all soils of Kentucky will grow excellent pasture and hay crops provided proper seedings are made and lime and phosphate are applied where needed. Through the efficient use of soil prodctivity lies an important corner stone of our civilization.

Prof. E. J. Kinney, Manager of the Lexington Experiment Station farm, gave the results on pastures and hay work. Legume and grass mixtures have been found to be the best combination for increased yields, improved soil fertility and produce more valuable feed. Disease in aifalfa, red clover, sweet clover and other clovers and grasses are increasing. He recommended that a rotation system be followed and that adapted seeds be used. Grass of some kind should be sown in all pasture mixtures

Seventy-five farmers attended the meeting. Interest in soil and pasture improvement is the greatest at any time in the history of Boone county. A large number of pasture and meadow improvement demonstrations have been planned in Boone County Soil Improvement program.

TO THOSE INTERESTED IN OLD AGE PENSIONS

The Townsend Plan, about which you have heard much has become the topic of national discussion, on radio, pulpit, platform, and street, and in the press, club, social circle—and in millions of American homes. It is more than an old-age pension program. It is a social security plan . . . .

There will be a meeting held at the Boone County Court house, Burlington, in the near future at which time all citizens interested in the social security plan are urged to attend. There will be speakers to better acquaint you with this plan, to explain its principles and possibly organize a Townsend Club in the community. Watch the next issues of the Recorder for further details. Also read editorial in this issue, "A National movement for Permanent Recovery."

ILLNESS IS FATAL

TO PROMINENT NORTHERN KENTUCKIANS.

MRS. NETTIE KENDALL

Mrs. Nettie Kendall, wife of Clem Kendall, age 56 years, passed away Sunday at 2:00 p. m., in her home on Burlington-Florence pike following an illness from Carcimonia. She leaves her husband, Clem Kendall, one son, Marvin Kendall, one daughter, Dorothy Nell, her mother, three sisters, one brother and a number of other relatives and friends to mourn her passing.

Funeral service was conducted at the grave by Rev. Harold Beemon in the Hopeful cemetery.

Chambers and Grubbs were in charge of arrangements.

MRS. RHODA ACRA

Mrs. Rhoda Acra, age 87 years, passed away at the home of her daughter, Mrs. Ira Kittle, Garrison Heights, Wednesday, February 25.

She leaves two daughters, eight grandchildren, her husband, Bud Acra, and many other friends and relatives to mourn her going.

Funeral service was conducted from Bullittsburg Baptist church Friday 11:00 a. m., by Bro. Campbell. Burial followed in the Bullittsburg cemetery.

Chambers and Grubbs were in charge of the funeral arrangements.

GEORGE W. SLEET

George W. Sleet, age 87 years, passed away Thursday evening at 8:00 p. m., at his home on Green Pike, Kenton county, due to infirmities of old age. He was born at Beaver Lick, Boone county, and was a member of one of the pioneer families.

He leaves one son, John; one grandson; one brother, C. C. Sleet, of Beaver Lick, a number of nieces and nephews to mourn his passing.

Funeral service was conducted from Walton Baptist church Saturday 10:00 a. m., by Rev. A. H. Johnson in the presence of a concourse of friends. Interment followed in Highland cemetery.

Chambers and Grubbs were in charge of funeral arrangements.

MRS. MARGARET S. HARPER

Mrs. Margaret S. Harper, aged 78 years, passed away Monday nite at the home of her daughter, Mrs. J. W. Stephens, No. 111 Home St., Erlanger, Ky. The remains were removed to the Taliaferro Funeral Home for preparation. In addition to Mrs. Stephens, she is survived by another daughter, Mrs. H. L. McLarin of Fairburn, Ga., and several grandchildren. The remains were forwarded to Fairburn, Ga., Tuesday evening, following a short service by the Rev. R. D. Martin. Funeral services and interment to take place Thursday afternoon at her old home in Fairburn, Ga.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

FOUND DEAD

Miss Florence Dazen, niece of Mrs. Joel Gray, who has been residing with Mr. and Mrs. Gray for the past year, was found dead in bed Monday morning. Funeral service was held yesterday morning at Christ Church in Cincinnati.

BANKERS MEET AT CARROLLTON

WAS BIG SUCCESS—TO HOLD MEETING AT MAYSVILLE IN APRIL

92 bankers were in attendance at the Bankers meeting at Carrollton last Wednesday evening. A delicious Turkey dinner was served by the Parent Teacher Association in the High School Auditorium followed by a program of several good addresses.

Mr. John M. Yost, Cashier of The Pikeville, Ky., National Bank and President of the Kentucky Bankers Association was present and delivered a very interesting address in which he invited every one to come to Pikeville in June to attend the Group Meeting to be held in his town at that time as well as to attend the State meeting in Louisville next fall.

The following Boone County Bankers attended the Carrollton meeting: Chas. W. Riley, Dr. S. B. Nunnelley, J. G. Renaker, C. F. Blankenbeker, N. E. Riddell, A. B. Renaker, C. L. Cropper, L. C Beemon and G S. Kelly.

Group 5 will hold another meeting at Maysville April 23rd.

PROMINENT BANKER MAKES A CALL IN BURLINGTON

Mr. John M. Yost, Cashier of The First National Bank of Pikeville, Ky., and President of The Kentucky Bankers Association, made a pleasant call on the officials of the Peoples Deposit Bank last Friday afternoon and discussed with Group President, A. B. Renaker, future activities of the Association. Mr. Yost is a man of unusual personality and a real banker, calculated to inspire in those whom he contacts a higher ideal in banking. He is a man 35 years of age but possesses such superior knowledge of the banking business that one would regard him as of a more mature age.

PETERSBURG HOMEMAKERS CLUB

Last Wednesday afternoon the Petersburg Homemakers Club was organized on a temporary basis with ten charter members, namely: Mrs. J. H. Huey, Mrs. J. J. Klopp, Miss Gladys Klopp, Mrs. L. S. Chambers, Mrs. E. A. Stott, Mrs. Charles White, Mrs. W. O. Rector, Miss Mary A. Rector, Mrs. Louis Hitzfield, and Miss Edna Berkshire Miss Mary H. Gillispie, Asst. Home Agent of Kenton county and Miss Lulie Logan, Asst. State leader of Homemakers met with us and gave us patterns of closet accessories.

Officers elected were: Mrs J. H. Huey, Pres.; Miss Edna Berkshire Vice-Pres.; Miss Gladys Klopp, Sec'y. and Treas.; Leaders selected to attend leaders' meeting March 3 are Mrs. J. H. Huey and Miss Edna Berkshire.

Next regular meeting March 12 at school house 1 p. m. Let your slogan be, "Bring your neighbor and keep the good work going."

—Mary A. Rector, Club Reporter

4-H CLUB MEETING SECOND SERIES

Boone County 4-H Clubs are holding their second series of 1936 meetings this week and next, according to H. R. Forkner, County Agent. The schedule of meetings are as follows:

Walton and Verona—March 2nd.
Florence—March 3rd.
New Haven—March 3rd.
Grant—March 4th.
Hamilton—March 4th.
Petersburg—March 6th.
Hebron—March 9th.
Burlington—March 9th.

Members will receive their project outlines and record books at these meetings. Most project groups will be ready to start work immediately.

The organization and enrollment spirit of both leaders and members is outstanding and all are looking forward to a splendid 4-H Club year.

R. C. HUME ELECTED GRANT COUNTY AGENT

Mr. R. C. Hume last Thursday was elected as County Farm Agent of Grant county to succeed J. Hughes Evans, who resigned to return to his farm. Mr. Hume served the past month with H. R. Forkner as Assistant County Agent in Boone county.

A NATIONAL MOVEMENT FOR PERMANENT RECOVERY

There have been hectic discussions, both pro and con, concerning the Townsend Plan of old age pensions since the skeleton principles of this plan were releasd and in these discussions, addresses, arguments and tongue fights, it has not only been the aged that have supported this bill but many youths, who feel that it will not only give those over 60 years of age plenty to spend, but rather to put sufficient buying power into the hands of the masses so that the spending by these elders will create jobs for the youth, and those under sixty years of age; that such a plan will stimulate business, keep money in circulation and curtail unemployment for once and all.

A few things that the Townsend Plan advocates claim such a law will do: Give those unemployed youths, that formerly went west when times became hard, a chance for steady employment and income; to give the people, who live in a land of over supply of food supplies, of clothing, of minerals, etc., a balanced ration, decent clothing and comfortable living quarters and to again get the wheels of business turning and keep them turning.

Convincing enough when the plan is considered from the above standpoint, but can the government carry out such a program? Can they check every person over the age of 60 years to see if they are spending their 200 dollars for commodities or services within the confines of the United States within 30 days after it is received. Will it be a popular tax to levy 2 per cent on all business transactions in the United States? Can a country that is heavily burdened with taxes at the present to meet charity programs, agricultural undertakings, defense programs, soil and power projects, etc., afford to add another tax which will amount to billions monthly?

These are the questions, both pro and con, and these are the reasons that there have been so many discussions, addresses, arguments and tongue fights since the origin of this bill.

BRING BACK THE EPITAH

Bainbridge Colby, famous international lawyer and Secretary of State under President Wilson, proved recently that he knows a lot about human psychology as well as law. Speaking at the national convention of the memorial industry held recently in New York, he told the monument builders that their best asset is Sentiment. Then he went on to tell his audience how to make the best use of this fact.

The way to bring home to the public the sentimental and ethical importance of cemetery memorials, said Mr. Colby, is to place more stress upon epitaphs. "It is a great pity," he declared, "that in our generation we tend to forego the epitaph. The mere mention of a name and of two dates, those of birth and death, has been accepted as the standardized inscription on modern memorials. There is something utterly cold about this form. It is more like an uninspired bookkeeping record of life and death, without the warmth of affection and intimacy and nobility that the epitaph alone can convey. I want to use this occasion particularly to make an earnest plea for the revival of the epitaph. Insofar as your memorial craftsmen can assist in this revival, you will be making a genuine inscription to our time."

Some monument men assert that the epitaph is already on the way back into favor. Does this mean also a general revival of interest in sentiment, after the hard-boiledness and matter-of-factness that engulfed us after the World War?

If so, more power to the memorialists!

UNUSUAL ITEMS CLIPPED FROM OUR KENTUCKY EXCHANGES

In Russian one has to go to a politician for a job which isn't so different from Kentucky, except that in Kentucky about the time one gets a job another batch of politicians come along and throw him out.—Cynthiana Democrat.

Four-Foot Billy Goat

Dr. Albert Slade, local veterinarian, has a billy goat at his barn on Second street that is attracting a good deal of attention due to its enormous size. He is 4 feet tall and weighs about 200 pounds.

Dr. Slade bought this goat from a party at Johnsville in Bracken County, and is the largest one ever seen here.

Many boys about town have enjoyed a ride on the goat and William seems to join in the fun as he exhibits a gentle and kind disposition.—Falmouth Outlook.

EDITORIAL PARAGRAPHS

Proposed forms of Highway department organization: One-man director, one-man director with nine advisory commissioners, one-man director with nine-man advisory board comprised of district engineers, and three-man commission representing Western, Middle, and Eastern sections of the State. Are any of the proposed forms more logical and suitable than the one recently discarded?

Joe Lovett, of the Murray Ledger-Times, calls attention to the removal of Kentucky's unofficial capital from Russellville to Bardstown.—Cynthiana Democrat.

Much is said about where the consumer's dollar goes, but the consumer is satisfied of just one fact and that is that it is gone.

Some people are opposed to keeping wild animals in captivity, and they are right as far as boys are concerned.

Some of these reckless drivers need a period of probation on a child's express wagon before being allowed to have the use of a car.

POLITICAL FARMERS

The new farm legislation to substitute for the AAA is getting lots of bumps as it is being whipped into shape. What's to be done about the 4,500,000 bales of cotton on which the Government has advanced loans? The dairy situation is complicated by the charge that the Agriculture Department is preparing to expand its output by converting large acreage into pasturage and forage. To this the livestock interests urge strong opposition. Besides, where are the taxes going to come from to administer the new legislation?

And—believe it or not, a number of Congressmen are concerning themselves in making sure that the new farm legislation is constitutional so that it will not be upset by the Supreme Court.

Having had twenty years practice in passing inadequate "farm relief," it really would seem that a practical measure for the relief of agriculture is not an impossibility. There's hope!

The Churches

Bear ye one another's burdens and so fulfil the law of Christ. Gal. 6:2.

Evening "The Significance of a Name."

Everyone is cordially invited to worship with us.

JAMES MELBURN HOOD

Again God in his wisdom has visited this earth and taken unto himself a fair flower in the person of little James Melburn Hood, who passed on to his eternal home on Feb. 17, 1936.

Melburn was the only son of Nettie Maud and Irwin L. Hood, born unto them on July 28, 1924, being eleven years old at the time of his death.

"Wibbie" was a pupil of the Constance school, being a member of the sixth grade class.

He was stricken with appendicitis on Feb. 12th, and rushed to St. Elizabeth hospital where everything in human power was done to save his life, but Jesus said, "Suffer Little Children to Come Unto Me, for such is the Kingdom of God," and he joined his mother who preceded him to the grave less than three years ago.

He leaves to mourn his passing his father Irwin, his sisters Vivian and Avalon, his grandmother Mrs. Addie Ryle (who took his mother's place in his home at her death) and a host of other relatives and friends.

Gone but not forgotten,
Still alive within our hearts,
Where we cherish the hope forever
That in Heaven no more will part.

One Who Loved Him

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for March 1

VISION AND SERVICE

LESSON TEXT—Luke 9:28-43a.

GOLDEN TEXT—He that abideth in me, and I in him, the same beareth much fruit.—John 15:5b.

PRIMARY TOPIC—On a Mountain Top With Jesus.

JUNIOR TOPIC—On a Mountain Top With Jesus.

INTERMEDIATE AND SENIOR TOPIC—With Jesus in Prayer and Service.

YOUNG PEOPLE AND ADULT TOPIC—Worship and Work.

The subject of this lesson as chosen by the lesson committee needs to be most rigidly held to its place as set forth in the Scriptures. The lesson should not be taught in a general way as pertaining to vision and service. The particular vision herein set forth is the unveiling of the majestic person of the Son of God, with an epitome of the messianic kingdom.

Jesus took with him Peter, James, and John, and went into the mount to pray. His chief aim in retirement was to get the disciples into a state of receptivity so that he might show them the reality and method of his kingdom. Before going into the mount, he declared that there were some standing in his presence who would not taste death until they should see the Son of man coming in his kingdom (Luke 9:27; cf. Matt. 16:28). That their drooping spirits might be revived and their confidence restored, he was transfigured before them. Two men from the upper world were sent to converse with him about his approaching death in Jerusalem (v. 31)—the very thing about which the disciples refused to talk. Then, too, God's own voice was heard in words of approval of Christ's course, directing them to hear the Master. Surely now they cannot doubt his ability to carry to execution his kingdom plans. The purpose, then, of the transfiguration was to give the disciples a foregleam of the coming kingdom, to enable them to see the kingdom in its embryonic form. That this is true is not only shown by the context and circumstances, but by the inspired interpretation of one who was with him and knew all that transpired (see II Pet. 1:16-19, R. V.). Let us, therefore, note the outstanding features of the kingdom as displayed in the transfiguration.

I. Jesus Christ the Glorified King on Mount Zion (vv. 28, 29).

Jesus glorified on the mount to which they went to pray was intended to symbolize the messianic kingdom as it will be when Christ returns literally to the Mount of Olives in Jerusalem (Zech. 14:4-17).

II. The Glorified Saints With Christ (vv. 30, 31).

1. Moses, who was once denied entrance into Palestine, appears now in glory, representing the Redeemed of the Lord who after death shall pass into the kingdom. Many thousands of the redeemed have fallen asleep, and at the coming of the Lord shall be awakened to appear in the kingdom with him.

2. Elijah, now glorified, represents the redeemed who shall pass into the kingdom through translation. Many shall be living upon the earth when the Lord comes, and shall, without dying, be changed, and thus pass into the kingdom (1 Cor. 15:50-53; I Thess. 4:14-18).

3. The topic of conversation (v. 31). It was the death of Christ, the very thing the disciples refused to believe.

III. Israel in the Flesh in Connection With the Kingdom, Represented by Peter, James, and John (v. 28).

Israel shall be called from their hiding place among the nations of the earth and shall be gathered to Jesus Christ, the King, as the central people in the kingdom (Ezek. 37:21-27). Christ is the King of the Jews.

1. Peter's proposal to build three tabernacles (v. 33). The Feast of the Tabernacles looked forward to the glorious reign of Christ. Peter caught a glimpse of the significance of the transfiguration. His proposition showed that he apprehended the meaning of the Feast of the Tabernacles and, therefore, his proposition substantially was, "The millennium is come; let us celebrate."

2. The divine voice (v. 35). At this time God himself uttered words which assured them that the transfigured one was his Son, Jesus Christ.

IV. The Multitude at the Foot of the Mount (vv. 37-43).

The people here were grievously oppressed by the devil, as illustrated by the demon-possessed lad. There are times when the devil is especially active in the affairs of men. The multitude at the foot of the mount is representative of the nations which shall be brought into the kingdom which shall be established over Israel (Isa. 11:10-12).

Inquiry

Inquiry is human; blind obedience, brutal. Truth never loses by the one, but often suffers by the other.

A Friend of Man

Let me live in a house by the side of the road and be a friend to man.—Sam A. Foss.

Truth

Buy the truth whatever it may cost; sell it not whatever may be offered.—Arnot.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF MARCH 11, 1926

DEATH HEADLINES

Death of Joel C. Clore Severe Shock to Boone County People... Chas. E. White, 82, Dies of Paralysis...Mrs Martha Jane Utz Passes Away...Mrs. Noah Tanner, Dead. (limited space will not permit us to print the detailed stories of these deaths).

SHERIFF AND DEPUTY WITNESS EXECUTION

Sheriff L. T. Utz and Herbert Snyder, deputy, drove to Lexington last Friday morning to witness the hanging of Ed. Harris, negro, confessed rapist and murderer of three, in the county jail yard.

WINS PRIZE AGAIN

B. B. Hume again won the prize last week for selling the most Hudson and Essex cars. This is the third week that he has been the winner.

LOCAL

The new addition to the Boone County High School is nearing completion.

Mr. and Mrs. D R Blythe will leave Saturday night for Detroit, to drive back a new Hudson purchased from B B. Hume. They will return Tuesday.

It is reported that Dr. J. M. Grant, of Petersburg, for many years recognized as one of the county's leading physicians, is not improving from a recent paralytic stroke.

NONPARIEL PARK

John Newman has accepted a position with the Florence Farm Bureau.

Chas. Corbin and wife purchased a beautiful bungalow from Tobe Marshall.

Gordon Lail and wife (nee Nora Brown) are rejoicing over the arrival of a fine 10 pound girl since Tuesday.

DEVON

Mrs. John Pruett is at Christ hospital, Cincinnati, where she will undergo a surgical operation one day this week.

Mr. and Mrs. Frank McCoy have purchased a farm and stock near Hinton Station. The entire community regrets to have these good people leave.

PETERSBURG

Mr. Chas. Cox, who has been in Christ Hospital for the past three months, has returned home.

Miss Lulu Northcutt, of Covington, was the week-end guest of her sister, Mrs. Chas. Shinkle.

ISSUE OF MARCH 3, 1897

BIG BONE

Born to Bert Smith and wife on the 27th ult., a bouncing baby girl.

The mud roads between Big Bone and Beaver Lick are in an awful condition at present, and much complaint is heard from the candidates for county office. We hope all who are elected will take a direct interest in their improvement.

UNION

The private school taught by Miss Pearl Quisenberry had its closing exercises, last Friday afternoon. An enjoyable feature of the program was a debate, subject: "Is Life Worth Living?" Affirmative, George Crouch, Anna Aylor, Walter Lassing and Elmo Conner; Negative, Bertha Baker, Martha Lassing, and Stanier Crouch.

BELLEVIEW

The local nimrods visited Laughery Island just before it was inundated and killed rabbits by the dozens.

Perry Clore's five year old daughter has inflamatory rheumatism.

CONSTANCE

The Bromley ferry boat got loose last Saturday night and floated down the river a considerable distance before it was located.

The Riverside rolling mill is shut down for the want of orders.

"THEY NEVER LET US DOWN"

Outside of the power intetests and certain political opposition to President Roosevelt there has been general satisfaction in Washington and elsewhere, over the TVA decision by the Supreme Court.

It would be impossible to expect the Supreme Court to hold its prestige with the people if the Court was "against the New Deal" as has been claimed by many noisy politicians. That narrow view of the Court possessed the danger of classing it with other official oranches of the Government, that sometimes pay more attention to party politics than to our national welfare. The Court is the only part of our great Government of whom it may be said —"they never let us down."

In its momentous decision the Court upholds the rignt of the Government to distribute and sell power. If this means that the rates will be so cheap that there will be two bulbs in every home instead of one, the public is not likely to object. It certainly is as good an idea as one of the old ones that advocated two chickens in every pot.

The Supreme Court has performed another great service to the American nation. It has always been the bulwark of safety in troublesome times.

Worthy of careful consideration is the fact that for many years it has been the custom of the Republican party to warn the country of disaster if the Democratic party should ever get a chance to put its platform into effect. But Republicans are now proclaiming disaster on the ground that the Democratic party has failed to put its platform into effect.—Kentuckian-Citizen.

E. K. Stephens, of Bullittsville, made the Recorder a pleasant call, Saturday morning. Mr. Stephens is one of the county's finest gentlemen.

PETERSBURG

(Delayed)

This community was saddened by the death of D. R. (Dick) Kittle, who passed away at his home on Petersburg-Burlington pike last Saturday. The funeral was held at the Baptist church here Monday at 10:00 a. m. conducted by Rev. J. W. Campbell and Rev. W. T. Dunaway. Burial followed in the Petersburg cemetery. The family, through this medium wishes to thank every one who so lovingly and kindly assisted them in any way in this sad hour.

Mrs. Norris Berkshire is suffering from an attack of appendicitis.

Mrs. Herbert Snyder spent Friday with Miss Nell Stephens.

Mr. and Mrs. Sherman Bryant are the proud parents of a newly born son, Charles Richard.

Mrs. Mary Terrill remains ill with an attack of flu.

Miss Leola Kittle spent several days the past week with Mr. and Mrs. Albert Kittle and family.

Mrs. C. S. Chambers and Mrs. Aileen Conner spent Sunday with Mrs. Mary Terrill and family.

Mrs. Mary Berkshire was called to nurse D. R. Kittle last week.

We congratulate our fine young friend H. A. Rogers on his new position as State Bank Examiner. We indeed regret to lose such a brilliant man, however, we wish to welcome as our new cashier, Mr. H. R. Hensley, Belleview, and hope him much success.

LOWER GUNPOWDER

(Delayed)

Prof. Asbury, J. R. Huey, and Garland Huff were in the city Saturday.

Mr. and Mrs. Orville Hensley have adopted a 17 month old baby boy from the Baptist home of Louisville. The youngster's name is Jackie Parker.

Mr. and Mrs. Dallas Ogden's baby is quite ill at this writing.

Omer Shinkle, the village blacksmith, took a high dive in his automobile, went through a barb wire fence, breaking all four wires and landed in a brier patch in F. H. Sebree's pasture. Fortunately however, he did not hurt anything but the fence.

It has been reported that Mrs. Dave Wallace Miller has pneumonia.

F. H. Sebree and family were the dinner guests of Garland Huff and family Saturday evening.

Mrs. Jimmie McCubbins and two children spent Sunday afternoon with Mrs. Dick Schwenke.

LUMBER DEALERS TO HEAR DISCUSSION OF RIDGE VENTILATORS

The tobacco barn ridge ventilators will be the principal subject considered at a dinner meeting of the Central Kentucky Retail Lumber Dealers Association at the Phoenix Hotel in Lexington at 6:30 o'clock March 10.

Speakers will include several members of the association, two or three farmers who are using ridge ventilators, and Russell Hunt and Prof. J. B. Kelley, of the College of Agriculture. J. Ed. Parker, Fayette county agent, and Ben P. ingEubanks, president of the lumber dealers association, are cooperating in arranging the meeting.

According to reports received from county agents, a total of 697 ridge ventilators were built in the state last year. They are simple and inexpensive in construction, it is said, and improve the quality of tobacco by providing improved means of carrying off humidity rising from the tobacco in cure in the barn.

Plans for the construction of the ventilators are furnished by the agricultural engineering department of the College of Agriculture, of which Prof. Kelley is head. Much work to encourage the use of the ridge ventilator has been done over the state by Mr. Hunt, as a field agent for the college.

HEBRON

Chester Dryer, of Erlanger, called on Mr. and Mrs. W. R. Garnett Wednesday afternoon.

Mrs. Nan Baker has the sympathy of her friends in the death of her brother, Robert Clutterbuck of West Covington.

Cover the old walls

HOW frame houses are improved when covered with Careystone Siding! Instead of weather-worn surfaces which require frequent painting, we see attractive walls which will never need any such protection. And the extra thickness added to the walls by Careystone will make the house cooler in summer and warmer in winter.

Modernizing a house with Careystone is an investment, not an expense—an investment which repays its cost many times in paint savings, comfort and improved appearance. Let us give you a free estimate.

KENTUCKY FARMER REPORTS PROFITS

A cash gain of $1,041 from his poultry for the period of Oct. 1 to Feb. 1, and a net profit of $1,-099.96 for last year, are reported by Grant Maddox, a Boone county farmer.

Maddox gathered 44,885 eggs in the four months from Oct. 1 to Feb. 1. He began the laying year on Oct. 1 with 1,095 hens, but on February 1 had culled the flock to 800. Production for the four months averaged 45 eggs, or more eggs, or more than half of the average yearling production for Kentucky hens.

His flock last year contained 600 Rhode Island Reds, which averaged 178 eggs for the year.

In addition to having a profitable poultry flock, Maddox makes money from vegetables and fruit.

Maddox was graduated from the College of Agriculture, University of Kntucky, in 1929, and refused offers of several jobs, including a government position, saying he could be happier and make more money on the farm.

657 WOMEN AT FARM AND HOME CONVENTION

Official registration figures show that a total of 657 women attended the homemakers' sessions at this year's Farm and Home Convention at the Agricultural Experiment Station at Lexington. Homemakers' clubs in 44 counties sent a total of 505 delegates who attended throughout the four days. Miscellaneous attendance added 152 women. Henderson county sent 25 women, the largest number from any county other than Fayette.

GOOD WILL 4-H CLUB

The Good Will 4-H Club of Petersburg held its organization meeting at the Petersburg school, February 17th. The following officers were elected: Clara Lou Huey, president; Edward E. Klopp, vice president; Ruth Klopp, secretary-treasurer; Frances Deck sargent-atarms; captains of project groups as follows: Harry Baye, livestock project; Mary E. Hodges, sewing project; Wilma Huey, canning project.

The adult leaders of the club for this year are Mary Rector, community club leader; Mrs. Norris Berkshire, sewing project leader; Mary Rector canning project leader; Rev. Thomas Dunaway, livestock project leader; James Russell Williamson crops project leader.

H. R. Forkner and R. C. Hume met with us and gave some good talks. Mary Rector, our community club leader also met with us. Our next meeting will be March 6th at the school house. All members are asked to be present.

Raymond Witham, Jr.,
Club Reporter.

FARMERS TO DISCUSS LAMB FEEDING, NEW KENTUCKY INDUSTRY

Lamb Feeding, which might be called a new Kentucky industry, will be among the subjects discussed at a meeting of sheep producers at the Bourbon Stock Yards in Louisville March 6. Tried out in Kentucky last year, when 12,000 lambs were fed in the Louisville territory, farmers are interested in the possibilities in feeding lambs on an extensive scale, as is done in cornbelt states.

Speakers at the Louisville meeting will include William Burnett, general manager of the Nashville Union Stock Yards, who will discuss lespedeza and lamb feeding; Richard C. Miller, Prof. E. S. Good and Harold Barber of the Kentucky College of Agriculture; a packer-buyer, and several sheepmen. The Emmart Packing Company will entertain the farmers at lunch.

A similar meeting fo sheep farmers will be held at the Experiment Station at Lexington March .. Speakers will include Mr. Miller, Prof. Good and Mr. Barber; Jack Dennis, Woodford county; A. C. Reed, Fayette county; Jay D Weil, Fayette county; a packer-buyer and Dr. F. E. Hull and Prof. L. J. Horlacher of the College of Agriculture.

The Louisville and Lexington meeting will be among a series of 15 conferences to be held in Kentucky this spring in the interest of sheep breeding and lamb feeding.

In addition to the speaking at Lexington, there will be an exhibit of hay racks, feed troughs, creeps, shearing machines, dipping equipment and docking and castrating instruments.

Courtney Walton, of Erlanger, was a very interesting caller in Burlington, Saturday morning.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00

what Irvin S. Cobb thinks about:

Kidnaping Laws.

BEVERLY HILLS, CALIF. —Do you remember the feverish, the almost hysterical eagerness to make kidnaping a capital offense which swept legislature on legislature—Missouri and California and other states besides—after the Lindbergh baby was stolen? You must remember; it wasn't long ago.

And now will some bright little boy or girl tell the rest of the class just how many kidnapers, who were tried, convicted and condemned under these laws, have been legally put to death since then?

Irvin S. Cobb

And does anyone seriously believe that anywhere in the Union, Bruno Hauptmann would today stand appreciably closer to the electric chair, had not child-murder been added to the other hideous crime of child-stealing?

We're a great people for laws—not for enforcing laws; dearie me, no, we're much too tender-hearted for that rough stuff—but just for having nice ornamental laws on the statute books.

Let's see how many more we enact before the spring thaw comes.

* * *

Old "Uncle Wilbur"

SO THIS ex-kaiser is getting on toward eighty. It seems only yesterday when I was one of three American correspondents with the invading German forces in 1914. Among ourselves we wanted to be able to refer freely to our imperial host without giving offense to anybody in his army. So we twisted Emperor Wilhelm Hohenzollern into "Uncle Wilbur Hennebury of Chambersburg, Pa.," and went about speaking of him as one to whom we were indebted for diverse favors but whose policies and methods frequently were open to criticism.

To the world today, he's the woodchopper of Doorn; to the suppressed royalists of the Vaterland he's still, I suppose, the all-highest. But so long as I can remember those mad days in Belgium and France, he'll be "Uncle Wilbur," a good fellow while he had it.

Maybe if he hadn't figured his divine right was better than the devastating left hook of world opinion he might still be the all-ages heavyweight champion of European royalty. And there might be more European royalty than there is.

* * *

Reviving the Old

I WALKED into a beer parlor today, but, if that was the parlor, I'd hate to visit the pantry—and there in front of the mirror was an old friend—a friend I hadn't seen for full thirty years. It was a framed sign reading as follows: "Don't ask us to charge. The Light Brigade charged and look at what happened to them."

Now then, if I could only run across the one which says: "All Nations welcome except Carrie Nation," and a free lunch counter featuring whole pickled pigs-feet.

* * *

Wrestling As an Art

EVERY time I go to a so-called wrestling contest, I say to myself that, if only we revived the ancient Roman sport of matching gladiators to murder one another publicly, no building anywhere could hold the multitudes that would flock to the blood-lettings.

It can't be the posing, posturing, cheap acting, deliberate fouling, obvious hippodroming, the fixed victories and the faked defeats that bring the crowds swarming about the mastodonic masters, of the manly art of self-pretense, these blubber-laden practitioners of the pleasant science of mayhem.

All the cruel agony can't be make-believe, all the seeming suffering isn't rehearsed beforehand. That's what makes the business pay. The creak of the dislocated ankle and the brisk snap of the splintering knee-joint, the scream as a brutal thumb gouges at a tortured eyeball—it's so much music to the popular ear.

That reminds me I must see about getting my tickets for this week's bouts. I hear the house is sold out. That's no way to treat a regular customer.

* * *

Stifling the Urge

IT'S almost time for the master tailors to announce that this year men will wear bright colors. They do that regularly and nothing ever comes of it except vain longings for us, poor cowardly worms that we are. Being a race of 'fraid-cats, we'll go right on encasing ourselves in garments suitable for pallbearers at a Dunkard funeral.

I'm typical of the whole thwarted male species. My impulse is to go pick out something suitable for a fancy vest and then have a whole suit made of it. Right now I've got my eye on a nobby checked pattern in black and white squares that would make me look a good deal like a marble-tiled entry hall. But will I indulge my stifled natural cravings? Don't make me laugh!

It's not one another's scorn we fear. It's our womenfolk. Well, if you were a hen and the poor foolish rooster had surrendered to you all his gay feathers, alwong with most of his other perquisites, would you give 'em back to him?

IRVIN S. COBB.

KENTUCKY WOMEN TO WASHINGTON MEETING

The Kentucky Federation of Homemakers is planning to be represented at the third triennial conference of the Associated Country Women of the World in Washington, D. C., the first week in June. Plans include a motorcade, if enough women desire to attend from this state. One thousand delegates representing nationally organized associations of rural women from many nations are expected at the conference.

GOVERNMENT HAS NO FREE SEEDS

The United States Department of Agriculture at Washington has no free seeds for distribution, says a statement sent to the College of Agriculture, University of Kentucky.

"For 13 years the United States Department of Agriculture has been trying to convince 100,000,000 people that it has no free seeds or plants," says the department's notice. "Yet each year, as spring approaches, thousands of requests pour in from farms, suburbs and penthouses. And all of the writers of these letters meet disappointment. Years ago, before 1923 an annual appropriation provided free seeds for congressmen to distribute through the Department of Agriculture. But in that year the Government discontinued the practice. The Department of Agriculture not only has no free seed; it also has none for sale."

MARCH MARINE ENLISTMENTS

Macon, Ga., Feb. 25—The U. S. Marine Corps District Recruiting Headquarters here, has received a quota, for March, that will pemit of the enlistment of outstanding applicants who write at once for full information and application blanks. Men between 18 and 25 years of age only are qualified for enlistment.

There are Marines today in Peiping and Shangai, China; the Philippines, Guam, Hawaii, Panama, and Cuba, and aboard the battleships airplane carriers, and cruisers in the Marine detachments, Kipling spoke of them, "As soldiers and sailors, too." It is a life of endless change and variety, and their duties do not permit them to get rusty, ashore and afloat.

All Marines are encouraged to go in for athletic sports, and to indulge in the sport that most appeals to them, and competent coaches and instructors are provided at every station. All large posts have bowling alleys, pool tables, athletic fields, and moving picture shows.

STATE TOURNEY PLANS FORMULATED

Lexington, Ky., Feb., 28.—Arrangements are practically completed for the 19th annual Kentucky High School basketball tournament to be held March 19, 20 and 21 at the University of Kentucky gymnasium. The tournament will be sponsored by the Kentucky High School Athletic Association, of which W. F. O'Donnell, superintendent of schools at Richmon, is president, and Ralph Hill, Louisville, is secretary-treasurer.

Officials for the tournament—all out-of-state men—already have been selected. They are Dick Bray and Dan Tehan, Cincinnati, former Xavier University athletes, and Bowser Chest, Nashville. All three have officiated in University of Kentucky basketball games this year and are recognized as outstanding officials.

S. A. "Daddy" Boles, graduate of athletics at the University of Kentucky, will direct the tournament, all proceeds from which will go to the high school association.

Sixteen boys' teams will take part in the tournament. In former years a girls' tourney also was held but girls have not participated in the tournament since 1931 when Woodburn won the championship.

The first of these state tournaments was held in 1918 in Danville, sponsored by Centre College. Owensboro won the title that year. In 1919 the tournament was shifted to Lexington and the Lexington High School Blue Devils won the championship. Last years' tournament was won by St. Xavier High School, Louisville, with Newport as runner-up.

These Kentucky tournaments have produced two national championship teams. Lexington won the national title in 1924 and Ashland won it in 1928 after defeating Carr Creek in the finals here. More than 300 teams will take part in the preliminary tournaments with the regional winners meeting here to play for the state championship.

S. C. Wilson, of near Burlington, was transacting business in Burlington, Saturday.

GEORGE W. SLEET

Funeral services for George W. Sleet, Bracht Station, were held at the Walton Baptist church Saturday, Feb. 29, at 10:00 a. m. Burial was at Highland cemetery.

Mr. Sleet died at his home on Thursday, Feb. 27. He is survived by a son, John Sleet; a brother, Charles Sleet, and a grandson, all of Boone county.

HAVE YOUR EYES EXAMINED

Do not delay having your eyes examined if, when you read, words are not clear, or seem to run together, or your eyes smart, itch, or feel weak. Straining your eyes is a useless and dangerous thing to do.

Come to us for a thoroughly dependable examination and glasses that will give you complete satisfaction.

DEVELOPMENT OF GAME AND FISH PROPAGATION AND PROTECTION IN KENTUCKY

Rabbits

Rabbits are unquestionably more sought after than any other game in this State. In many sections of Kentucky, rabbits are so numerous that they are considered as a pest by orchardists and gardeners, while in other sections they are so scarce as to cause real reason for alarm among sportsmen who enjoy this particular form of sport.

The majority of hunters start their experience as rabbit hunters. The pursuit of the rabbit furnishes more sport thany other animal or bird, to the farmer and small boy. If for no other reason, the above is sufficient for well laid plans to conserve or increase the supply of this popular game animal.

No effort has been made to propagate or increase the supply of wild rabbits. In view of the bountiful supply in certain sections of the State, we consider it the most logical manner of preserving or increasing the numbers of this animal for the Commission to authorize and employ farmers in overstocked sections to trap and deliver for liberation rabbits for those sections of the State which are not properly stocked.

One of the Commission's field men reports that at four p. m. on the opening day of the rabbit season in 1934, he interviewed five hunters who had killed a total of two hundred and fifty rabbits. This clearly indicates that if we are to preserve a supply of rabbits sufficient to justify the expenditure of time and money spent by hunters who seek no other bird or animal, we must of a necessity place a limit on the number that may be killed per day.

Quail

Quail comes second as furnishing sport to hunters.

For many years quail were in danger of extermination from market hunters who were permitted to sell quail without limit as to numbers. Since the sale of quail has been made illegal their danger has been from inclement weather condtions. In many counties this hazard has been minimized by local game protective organizations which have established a fund to be used for the feeding of quail during protracted preiods of snow or sleet.

We believe it would be sound policy for the Commission to appropriate and set aside an adequate sum of money to be used for purchase of food to be used for quail during abnormal weather conditions. This fund to be ordered used by the field men of the Department when ordered by the official in charge of their work.

Many sincere sportsmen and hunters of quail advocate an absolute closed season on quail for a period of five years. While giving them credit for absolute scincerity and sacrifice in giving up their hobby, the Commission feels compelled to differ from their opinion. This opinion of the Commission is based upon its own observations and the experience of states which have absolutely forbidden the shooting of quail. We give the following reasons for our opinion.

No provision is made for the propagation and preservation of game and fish except the sale of hunting and fishing license. Quail hunters being representative of the second largest class of hunters, a considerable part of the Commission's revenue would be obliterated. The result would be that while the true sportsman and conservationist was staying at home, the game hog and market hunter, due to the Commission's depleted resources, would have no offfcer to curb his activities. The Commission due to depleted revenues would be forced to discontinue the purchase of quail to release in various sections of the State.

The major objection to an absolute closed season, is the fact that thousands of quail hunters who now are willing and do contribute to feeding of starving quail purchase of quail for restocking purposes, and who are organized into clubs to assist conservation officers in preventing unscrupulous persons from wilfully destroying quail, would during this five year period, lose interest in quail and withdraw their valuable support.

It is tne opinion of the Commission that for years it has probably failed to do the necessary reseach work to justify the expenditure that has been made for quail for restocking purposes. We recommend that more research work be done to ascertain the results being realized from the liberation of imported or commercialy reared quail. We further recommend that more attention be devoted to the feeding and preserving from illegal destruction, our native wild bred quail.

Dove

The mourning dove probably ranks third in interest with the hunters.

Doves are classed as a migatory bird and for that reason comes under regulations o the Federal Government. The Kentucky Game and Fish regulations being established by act of the Legislature and not by proclamation of the Commission, it is an impossible task to keep our laws regulating the taking of doves so they will be uniform with the Federal regulations which are established by proclamation and are subject to frequent changes.

Doves furnish good shooting for a very short period of time. They become scarce after September 15. Doves are not found in sufficient numbers to encourage hunting in all parts of the State. The dove hunting is centered in the bluegrass and western sections of the State.

Waterfowl

Hunting of waterfowl is chiefly followed on the Ohio River and the lakes of western Kentucky. There is not a sufficient number of inland lakes to nave a statewide distribution of waterfowl.

Waterfowl being migratory, the same obstacles as apply to doves, are met in regard to regulations.

While migratory waterfowl is not considered in the first rank as furnishing sport to Kentucky hunters, yet the sportsman who has the opportunity of bagging a wild duck or goose, will claim that the pursuit of no other game is so interesting.

The Commission should assist in preserving the diminishing supply of wild waterfowl. This can best be accomplishd by as near as possible cooperating with the Federal authorities and by preserving as much swamp and marsh land as possible. It is our opinion that many acres of swamp land has been drained that would have a greater value as a resting place for migratory waterfowl, than it has proven to have for agricultural purposes.

Squirrels

Squirrels hold a high rank among the animals and birds furnishing sport for the hunters. No other species of wild game affords shooting over as long a period as the squirrel. This is another type of game that is a great favorite with the farmers and young boys.

No noticeable success has been attained in the propagation of this animal in captivity and for that reason, the pleasure of hunting this animal must depend upon protection of our present supply rather than upon propagation in a semi-domestic state.

Destruction of our forests, especially those containing nut bearing trees, has been the most unfavorable condition squirrels have had to face. Any landowner who enjoys having squirrels on his property, should give serious consideration to the matter before disposing of any hickory or walnut trees.

Our opinion is that the supply of no other animal or bird has shown more beneficial results from protective laws than has the squirrel. In view of the widespread distribution of squirrels, and the state-wide interest shown in them as a game animal, we recommend that the present protective measures be continued and if the supply shows any material decrease, that the sale of same be prohibited.

Fur-Bearing Animals

The fur-bearing animals are considered both from the standpoint of sport and economic value.

Foxes

The fur-bearing animal considered to be in the lead as a favorite of sportsmen is the red fox. The conditions that apply to rabbits as regards distribution and the public's opinion, also apply to foxes. In some sections of the State they are highly prized while in others they are so numerous they are considered a pest. By transferring foxes from sections of the State where they were so numerous as to be considered a pest to sections where they were wanted, the Commission has been able to maintain a balance pleasing to the various sections of the State without resorting to artificial means of propagation.

Many noted fox hunts are held in Kentucky and on no other occasion can more of the pomp and ceremony of forefathers, as handed down by history and tradition, be observed.

No other sport brings to the field as divrgent an aggregation of hunters. We find the hunter afoot with his horn and pack of unpedigreed hunds issuing forth at night for the pleasure of determining the fleetest dog. We have the hunter arrayed in clothes tailored for the occasion and mounted on the finest of steeds, riding with the hounds and on the spot at the finish of the chase. We also have the hunter and trapper who pursues the fox for the economic value of its pelt Certainly with this interest a Kentucky Game and Fish Commission can never ignore proper regulations regarding the pursuit of the fox.

Raccoon

The raccoon ranks second among the fur-bearing animals affording sport. The raccoon is the sport of the night hunters and is found in heavily timbered areas especially along streams or in swamp land.

The raccoon does little, if any damage, and there is no good reason for it ever being considered as a pest.

It has been conclusively proven that the raccoon can be successfully reared in captivity. The chief difficulty encountered has been that a raccoon has a natural tendency to curiosity and when raised in captivity has an inclination to return to the habitat of man. Some of the raccoons released by the Commission have been destroyed by dogs when their curiosity led them to visit farm buildings.

The hunting of the raccoon being confined strictly to the night who have no other opportunity of hours, it affords sport to many engaging in field sports. For that reason the Commission should continue its policy of purchasing and liberating raccoons when they can be purchased at a reasonable price and the funds of the Department will justify the expenditure.

The Commission should also study the progress being made by other states which operate their own raccoon farms, and if the results obtained there justifies the experiment, it should inaugurate a plan for rearing raccoons for distribution.

It is recommended that raccoons should be released only in isolated regions where they will have little opportunity to return to farm houses.

Opossum

The opossum and skunk are the most valuable fur-bearing animals when analyzed from a strict economic viewpoint.

The opossum is used by many people for food, but is hunted chiefly for the value of its pelt.

Skunk

The skunk has no other value than the fur it produces. Due to the low price of fur, during the past few years, and the short hunting and trapping season, opossums and skunks have probably shown an increase.

Mink

Mink is considered as a valuable fur-bearer, but does not have a wide distribution, being found only along the waterways. The Commission has no suggestion to make in regard to mink except enforcement of laws preventing its destruction during breeding season or at times when its fur would be of little value.

Otter

The otter is so near extinction that few people would recognize one.

Beaver

There are no beaver in Kentucky.

Wild Cats

A few wild cats are found but not valued as a fur-bearer and considered an enemy of other valued game.

Wild Turkey

Wild turkey were practically extinct when the Commission inaugurated its program of restocking. We do not now have nor do we hope to have a supply of wild turkey in all sections of the State, but the results obtained by restocking heavily can be brought back in sufficient numbers to justify a short hunting season in years to come.

The closed season on wild turkey, which expires in 1936, should be renewed by the passabe of a suitable act by the 1936 Legislature.

The main points where turkey have been liberated is on The Bernheim Game Refuge in Bullitt county; the Hillman Refuge in Trigg and Lyon counties, and the Mammoth Cave region. There are small scattered bunches found in various parts of the mountain regions.

Ring-Neck Pheasant

The pheasant is not native to this country and insofar as Kentucky is concerned, remains an experiment.

The Commission for several years has been releasing pheasants and furnishing a large number of eggs for hatching purposes. Experience has proven that if tne Commission is to continue the propagation of pheasants it would obtain better results by releasing the pheasants in protected areas than it can by furnishing eggs. In purchasing eggs we find that we have either received many infertile eggs or the eggs reached and were handled by people who did not follow proper directions for hatching.

Until further observati s are made of the stock already introduced, we would recommend that the expenditure for pheasants be limited to an amount that can be justified as an experiment.

The supply of pheasants is not sufficient to permit an open season at this time and an act should be passed by the 1936 Legislature extending the closed season. If such an act is not passed there will be an open season in November 1936. An open season now would be deplete the supply that the Commission could not hope to successfully stock the State.

DEER

The deer is a native of Kentucky and is our one sure chance of again seeing big game hunting. The State has many sections ideally located for the propagation of deer. In many of thes sections deer can live in surroundings little different from those found when this State was inhabited by the Indians.

At one time deer were considered extinct in this State and the sight of one would have made headlines for the newspapers.

Several years ago the Commission planted deer on the Hillman Game Refuge between the Kentucky and Tennessee Rivers. This herd has had a remarkable increase and now that the land on which the refuge is located is to be purchased by the Federal Government, we will be assured of a still greater increase in the herd.

The herd on the bernheim property in Bullitt county is showing a good increase in numbers and is having splendid protection.

During the period covered by this report the Commission has planted deer on the State owned Jones-Kenney Game Refuge at Dawson Springs; The Bernheim Refuge on the Berea College land in Madison county; in Harlan and Boyd counties and on the Mammoth Cave property.

The overflow from these herds and the ones that have escaped or been released from private estates, has brought back an almost state-wide distribution of deer The report of a deer being seen in any county is no longer considered as being unusual.

The citizens of practically all sections of the State display a keen interest in the propagation of deer and if an absolute closed season is maintained for a few years longer, Kentucky can see an increase sufficint to justify th interest being shown.

Unless the Legislature takes action there will be an open season on deer in November 1936. This should not be allowed to happen as our visible supply will not justify the killing of any within the next few years.

Woodchuck or Ground Hog

This animal is found to be very numerous in some sections. Many sportsmen enjoy hunting this animal and declare its meat to be a table delicacy.

It is a rare thing for a farmer to object to anyone killing the woodchuck as his vegetable diet sometimes proves destructive to farm crops.

It is not classed either as a furbearer or a game animal and there is no demand for its protection.

Public Relations

The importance of educating the public to appreciate their natural resources, has in the last few years demonstrated how little is actually known of Kentucky's wild life, and for that reason the Public Relations Department was created.

The objective of this department is to furnish a lecturer with motion pictures, who visits schools colleges, game clubs, service clubs and woman's clubs, asking their assistance in conservation. Other duties are editing a monthly publication known as the Bulletin, judging and assisting in field trials, making Kentucky's own motion pictures, inspecting game refuges and compiling reports on game, fish and their habitat.

(The End)

The citizens of Hebron regard their school basketball teams as a real asset to their community and back them in large numbers both at home and abroad.

GASBURG

Mr. and Mrs. H. E. Arnold spent Tuesday with Mr. and Mrs. L. E. Keim, of Petersburg.

Mr. and Mrs. Charles White were business visitors in Grant and Burlington last Wednesday morning. In the afternoon Mrs. White attended the Homemakers meeting at Petersburg.

Master Galen Biddle is the guest of his grandparents, Mr. and Mrs. Andy Cook.

Mrs. Albert Vastine and daughters, of near Dillsboro, Ind., spent a portion of last week with her mother, Mrs. Louisa Aylor and family.

Mrs. George Bowman and son spent Thursday night and Friday with her parents, Mr. and. Mrs Tom Campbell.

Mr. and Mrs. Ott Snelling moved Saturday to the farm they purchased of the Snelling heirs. We are glad to have them back in the neighborhood.

Mrs. Lige Acra and daughter called on Mrs. Louie Guisler one afternoon the past week.

Several of the women in this neighborhood attended the meeting of the Homemakers Club at Petersburg and were very much pleased with the work. They are now telling all their friends about the next meeting Thursday, March 12th at Petersburg School house.

Mrs. Nat Rogers spent Friday with her daughter, Mrs. Alvin Buffington.

Mr. and Hrs. Shelton Stephens and daughter, of Norwood, spent the week-end witn Mrs. Louisa Aylor and family.

Messrs Russell and John Harold Cook and Elmer Acra and Miss Lucille Acra were callers on the Rector family Sunday afternoon.

Mr. and Mrs. Russell Rogers called on Mr. and Mrs. John Weisickle of Petersburg Saturday evening.

Mr. and Mrs. H. E. Arnold spent Sunday with Mr. and Mrs. L. E. Keim, of Petersburg..

Mr. and Mrs. Allen Rogers were business visitors in Burlington Saturday, afternoon. While there they called on Mr. and Mrs. W. W. Green.

Mrs. W. O. Rector and daughter of Gasburg and Ben Hensley and Mrs. Lena Grant, of Petersburg, attended the funeral of Mrs. Albert Acra at the Bullittsburg Baptist Church last Friday. Deep sympathy is extended to her loved ones.

Glad to report that Mr. and Mrs. John Rogers are somewhat improved.

Ray Cook returned to Covington last Thursday, after several weeks' visit with his brother, Mr. Andy Cook and Mrs. Cook.

See us for real BARGAINS in FARMS. We can meet all competition in prices. We have city property for exchange.

BIRTHDAY CELEBRATION

Mr. Thomas C. Adams celebrated his 91st birthday Thursday, February 27th at his home in Burlington.

Those present to help celebrate the grand occasion were Rev. and Mrs. James, Mr. and Mrs. Arlie Adams, Mr. and Mrs. L. Leavell and two sons, Cincinnati, Mr. and Mrs. Robert Moore, Dayton, Mrs. Myrtie Atha and daughter, Wilma, and Mr. and Mrs. Douglas Rector, Erlanger.

It is said there will be a very large acreage of tobacco planted in Boone county this season.

Col. Lute Bradford, of Union, was a caller at our office last Thursday. Mr. Bradford is one of our staunch supporters and never fails to make us a call when in the County Seat.

Marvin Moore, who is attending law school at the University of Kentucky, spent the week-end with his parents, Mr. and Mrs. William Moore, of near Burlington.

O. M. Rogers is having gravel hauled from Belleview to put on his road leading from Camp Ernst road to his farm. This road has been in bad condition for many years.

Mr. and Mrs. William Rudicell and Mr. and Mrs. Franklin Maurer spent last Thursday morning at Berry, Ky.

GOOD LIGHTING
helps prevent this on
HIS REPORT CARD

IF YOUR child is not making the progress in school that you think he should, check on the light under which he studies his home work. Poor lighting makes concentration difficult, brings on fatigue and drowsiness, is damaging to young eyes and is often responsible for faulty posture, which is a danger to be guarded against.

In many schools, the lighting is still poor, so it is especially important to provide good light where children's home work is being done. An ideal lamp for this purpose is an I. E. S. Better Sight Lamp . . . the first low-priced lamp expressly designed for safe seeing. A special glass diffusor inside the shade directs a flood of soft, glareless light upon the surface of the study table and at the same time provides enough general room illumination to eliminate harmful shadows and annoying contrasts.

The New I.E.S. Better Sight Lamp

(1) Wide opening at top throws light to ceiling, eliminating shadows. (2) Glass diffusor eliminates glare. (3) Wide shade throws ample direct light on work. (4) Shade lining is white to reflect more light. (5) Lamp is high enough to light a large working area.

$2.95 up

Ask any of our employees to bring you an I. E. S. Better Sight Lamp for a free trial. You will be delighted with the improvement in lighting that results.

300 Years of Tobacco Growing

By S. E. WRATHER
Kentucky College of Agriculture

Beginning in 1612, on a commercial basis, tobacco production in America has increased until the present time it is a leading commodity in our agricultural industry and our foreign trade. Rapid development of the industry in the American colonies was attributable to the following factors:

S. E. WRATHER

First, England through her mercantilistic policy, emphasized the necessity of a favorable balance of trade to prevent too much bullion from flowing out of the country. The expansion of the tobacco industry was a means of developing her colonial resources, and at the same time create markets for home manufacturers.

Second, the English government sold monopoly privileges to tobacco dealers and since the value of these privileges varied directly with the extent of business done, it was to the government's interest to encourage the tobacco trade. When it was learned that tobacco could be grown in the American colonies, Parliament prohibited the importation of tobacco from other countries.

Despite these favorable influences, tobacco growers experienced many difficulties during the colonial period, many of which seem rather modern in light of recent developments. The first General Assembly of Virginia met in 1619, and the first law passed was one "fixing" the price of tobacco. Later, in 1631, an attempt was made to limit production to 1500 plants per poll.

Tobacco growers, in 1666, and again in 1683, signed petitions for cessation of planting and in an effort to enforce the "cut-outs" banded themselves together and went through the country destroying tobacco plants. The "cut-out" of 1908, which is still fresh in the minds of many tobacco growers, and present-day reduction programs are remindful of colonial experiences.

During the colonial period, Virginia and Maryland produced practically all the tobacco grown in this country. With the close of the Revolutionary War, movement to the country beyond the Alleghenies increased rapidly. Tobacco culture in Kentucky was begun by these early settlers from the older tobacco producing states.

Sold At Auction

As the population increased in the new territory so did the production of tobacco. By 1840, Kentucky was producing more tobacco than Maryland, ranking second to Virginia. After the war between the states, which completely prostrated tobacco production in Virginia, Kentucky passed into front place as a tobacco producing state, a position she only recently relinquished to North Carolina.

One of the most interesting features in connection with the tobacco industry in Kentucky has been the changes in methods and places of marketing. When the culture of tobacco was introduced into Kentucky the only available market was New Orleans and the only means of transportation was by water. This arrangement resulted in long waits for returns from tobacco and restricted production to river and near-by river counties.

Tobacco marketed in New Orleans was prized in hogsheads by growers and placed on flat boats in charge of agents whose duty it was to look after the farmer's interests in the transportation and sale of the tobacco. Sales were made, at auction, in New Orleans from samples drawn from the hogsheads by the market inspector.

This, and other early markets where sales were made by the hogshead, were known as "hogshead markets." Tobacco shipments from Kentucky reached New Orleans as early as 1775 and continued to gain in importance until local hogshead markets were established.

Long waits for returns from tobacco and increased production were largely responsible for the abandonment of New Orleans as a tobacco market and the establishment of markets within the producing area.

Speculators Operate

A hogshead market was established at Louisville in 1825, and continued to function as such until 1912. Similar markets were soon established at Cincinnati, St. Louis, and Clarksville. Establishment of local hogshead markets made it possible for farmers to get returns from their tobacco sooner, but it necessitated prizing tobacco into hogsheads. Thus the place of marketing had been changed, but no material change had been made in the method of marketing.

Because of inconveniences involved in each farmer prizing and shipping his own tobacco, local buyers or speculators began operations. This was a distinct change in the method of marketing. Farmers sold their tobacco loose, passing on to the local dealer the responsibility of prizing and shipping to central markets. Previous to this arrangement, the farmers had dealt directly with the manufacturer's representative at the central markets. Under the new setup, tobacco was sold to local dealers who in turn sold it to buyers at the central markets. For awhile, all parties concerned seemed to be pleased with this method of marketing. Farmers were getting returns from their tobacco immediately and the manufacturers were still making their purchases at the central markets, thereby making it possible for local dealers to buy and ship to these markets.

Local Dealers Hit

Eventually changes pointing toward a different marketing arrangement began. Manufacturers instead of making their purchases at the hogshead market as formerly, began buying direct from the farmer. From the farmer's standpoint this caused no disruption in the marketing procedure, they continued to sell their tobacco as before even though they were selling to different interests. The parties that felt the immediate effect of this change were the large corps of local dealers who were accustomed to buying tobacco and shipping it to central markets for sale. Since manufacturers were making their purchases direct from farmers the independent dealers were without buyers at the central market and were therefore forced out of business, leaving the manufacturer the direct purchaser of the farmer's tobacco.

Two reasons have been advanced for this latter change. Perhaps both have merit. The manufacturers maintain that the practice of "nesting," or hiding inferior tobacco in the hogshead, had reached such proportions and threatened to continue on such a large scale that they were forced to abandon the hogshead method of buying tobacco. Farmers and independent dealers maintain that they buyers were working in unison and that the move was to get control of the market.

For the most part these changes in methods and places of marketing have been a natural sequence brought about by increased production and improved methods of transportation. In each instance the popularity of the new market has caused the abandonment of the older one. Each change brought the market nearer the producing area, resulting in our present system, where the manufacturers have buying and storing facilities throughout the producing area.

The March Farm Calendar

Put in the tobacco plant bed.

Finish sowing clovers and grasses.

If not finished, complete the winter spray program for fruit trees, and prune both fruit and shade trees.

Sow oats.

Plant first crop of potatoes.

Begin plowing for corn.

Sow early peas, beets, carrots, parsnips and other early vegetables.

Start cold frames for cabbage, tomato and other garden plants.

Complete sale and delivery of tobacco.

Finish hauling and spreading of winter manure accumulation.

Breed brood mares.

Inspect farm machinery and order needed parts.

Repair fences.

Recommended seeding dates in Tennessee—garden crops: Asparagus seeds March 1-15. Bush beans, May 1-30. Pole beans, April 24-July 4. Beets, March 1-30. Cabbage, Feb. 15-Mar. 15 (slips in field). Cantaloupes, May 1-July 1. Carrots, Mar. 1-20 (spring use). Cucumber, May 1-July 1. Egg plant, Feb. 1-28. Kale, Aug. 20-Sept. 20. Lettuce, Mar. 1-15 (garden). Okra, Apr. 15-May 10. Onions, Jan. 15-Mar. 15 (seed). Parsnips, Mar. 1-15. Peas, Jan. 15-Mar. 15 (round). Peas, Mar. 1-Apr. 1 (wrinkled). Pepper, Feb. 1-28 (seed). Pepper, May 1-10 (plants).

Potatoes, Jan. 1-Mar. 15. Potatoes (second crop), July 15-Aug. 5. Sweet potatoes, Mar. 15-Apr. 1 (in hotbed). Sweet potatoes, Apr. 20-May 15 (transplanted). Pumpkin, May 1-15. Radishes, Mar. 1-15 (spring) Spinach, Mar. 1. Squash, Apr. 15-30 (bush). Squash, May 1-15 (running). Strawberry plants. Mar. 1-30 (earlier if weather permits). Tomatoes, Jan. 15-Feb. 15 (seed in beds). Tomatoes, May 1-June 15 (transplanted). Turnips, Aug. 1-10. Watermelons, May 1-June 10.

Recommended seeding dates in Tennessee—general crops: Corn, Apr. 15-May 7 to June 15. Cotton, May 1-10. Alfalfa, Aug. 15-Sept. 7. Barley, Sept. 15-Oct. 7. Broom corn, May 15-30. Buckwheat, July 15-30. Cowpeas, May 20-June 20. Bermuda, May 1-30. Red Top, Mar. 1-15, also Aug. 1-30.

Timothy, Mar. 1-15. Japan clover, Mar. 1-30. Millet, Apr. 20-July 15. Oats—Spring, Feb. 20-Mar. 15. Peanuts, Apr. 20-May 20. Sorghum, May 15-June 15. Soy beans, May 1-June 30. Tobacco, Feb. 1-Mar. 1 (in beds). Tobacco, May 15-June 10 (in fields).

CECIL'S BUSINESS COLLEGE
ASHEVILLE, NORTH CAROLINA, in "Land of the Sky," Eastern Entrance to Great Smoky Mountains National Park. Enjoy spring, summer and fall in glorious mountains. Climate renews energy and stimulates ambition. Coed, high standards, cultural influences. Secretarial, Accounting, Allied subjects, Business Administration, Stenotypy-Court Reporting. 30th year. Efficient Placement Service. Address CECIL'S, Dept. "S.F." Asheville, N. C., or Spartanburg, S. C.

STARTING *the* Tobacco Crop

Care Of The Bed Is The First Step In Producing A Quality Crop And Future Profits

By a Staff Writer

Steaming of tobacco plant beds increases as the wood supply diminishes. A thorough job of steaming with an ordinary steam thresher completely eliminates the work of weeding. Other equipment needed includes a shallow wooden or sheet iron pan, and steam hose or iron pipe for conveying the steam from the engine boiler.

Editor's Note: Credit for the information in this article is given to Prof. E. J. Kinney of the Kentucky College of Agriculture.

TOBACCO growing begins with the selection of a location for the plant bed. It seems hardly necessary to suggest the selection of good land for the bed—a clearing in the woods or an old fence row. Old sod ground is considered good, maybe the best. The drainage should always be good.

A clearing in the woods provides some protection against cold spring winds. Such soil also is usually supplied with organic matter, rich and mellow. Soil that bakes just won't do. The general practice in Kentucky is to change plant bed sites every year.

Many farmers plow their beds in the fall, particularly if sod ground is used. Manure also is usually applied in the fall. If applied in the spring, it should be well rotted. The bed should be deeply plowed, and the soil disked several times.

Tobacco plants are so small that they cannot stand much competition from weeds. Weeding the bed is a slow and tedious job, and much injury may be done to the tobacco plants if too much of it must be done.

Use of Steam Gains

To help reduce the weeds, tobacco plant beds are burned or steamed. Burning with wood is still universal, although more steam is used every year. In burning, best results are obtained by laying poles on the bed and putting brush and other wood on the poles so as to allow circulation of air at the bottom of the heap. It takes a rather large pile of brush and wood to do the job well.

The bed should be leveled and made ready for seeding before burning, as burning usually kills weed seeds to only a slight depth. Re-stirring the soil, then, would bring weed seed to the top and cancel results obtained from burning.

Steaming of plant beds is increasing as the wood supply diminishes. If a thorough job of steaming is done, it almost completely eliminates the work of weeding. Steaming destroys disease germs as well as weed seed, which is another reason why more of the best tobacco growers use it every year.

Thresher Engines Used

Ordinary steam thresher engines usually are used for furnishing steam. Other equipment includes a shallow wooden or sheet iron pan, and steam hose or iron pipe for conveying the steam from the engine boiler.

A pan that will cover an area of 80 to 100 square feet is usually used; one smaller than 50 square feet is hardly practical. A steam pressure of at least 80 pounds should be maintained for at least 30 minutes. Owners of thresher engines do custom steaming in many communities, and it is often best to employ them to do the work, unless enough tobacco is grown to warrant the expense of owning steaming equipment.

In the burley belt, about 200 square feet of bed is allowed for each acre of tobacco to be set; for dark tobaccos only half this size is needed, since only about half as many plants to the acre are set. The burley plant beds are usully 9 or 12 feet wide and the dark tobacco beds 9 to 24 feet wide. Narrow beds are more convenient for weeding and pulling plants.

Nitrogen Best

Many farmers use fertilizer in the plant bed, even thought the soil is fertile. Fertilizers containing a rather high percentage of nitrogen are best, as a 4-8-4 or 6-8-6. While commercial fertilizers are often used in plant beds at the rate of 10 pounds or more per 100 square feet, applications of 3 to 5 pounds are usually ample. The fertilizer should be spread evenly, after the bed is burned or steamed, and raked very lightly into the soil.

Use of nitrate of soda or other soluble nitrogen fertilizer, as a means of stimulating plant growth, is increasing rapidly. It is well to use it when the appearance of the plants indicate its need. A good way to apply it is to dissolve 10 pounds of nitrate of soda or 8 pounds of sulfate of ammonia to a 50-gallon barrel of water, using five gallons of the solution to 200 to 300 square feet of bed. Two light applications, using a sprinkling can, are better than one heavy application. Sprinkling with clear water should follow use of the nitrogen solution, to prevent burning of plants. It is best to remove the tobacco cotton when applying the nitrogen solution.

Cover Seed Lightly

March is the common seeding month. It is a mistake to work the ground and burn the bed when wet, in order to seed early. Sow half a level teaspoonful of sound, recleaned seed per 100 square feet of plant bed. An ounce of tobacco seed contains about 12 teaspoonfuls, enough to sow 2,000 to 2,400 square feet of bed.

Since it is difficult to sow the fine tobacco seed evenly unless mixed with some other material, it is often stirred into screened wood ashes, air-slaked lime or commercial fertilizers. Slightly moist sand, mixed at the rate of a peck or more for each ounce of seed, does well in windy weather. The best way to get an even stand is to sow the bed several times, using only a portion of the seed each time.

The seed should be covered lightly. The old practice of tramping the bed after sowing, to cover the seed and firm the soil so it will hold moisture, has not been improved upon.

Put on the tobacco cloth immediately after sowing. This keeps the soil from drying and prevents packing by rains. Where the bed is boxed, the cloth may be fastened to the side boards; otherwise it can be pinned down or held with logs. A wire is generally stretched lengthwise through the middle of the bed to hold the cloth off the ground.

The tobacco cloth is placed on the bed immediately after sowing. This keeps the soil from drying and prevents packing by rains. A wire is generally stretched lengthwise through the middle of the bed to hold the cloth off the ground.

Tennessee Pushes Comeback of Saddle Horse Breeding

HORSEMEN from Middle Tennessee towns and rural sections have formed the Middle Tennessee Horse Show Association and are now perfecting a permanent organization.

The association was formed to stimuate interest in horse shows, whether in city, town or community, with the objective of furthering the interests of saddle horse breeding.

For years before the World War, Tenneessee walking horses were known favorably in many sections of the country. During the last ten years, more farmers in the pasture areas of Middle Teennessee began turning their attention to breeding saddle horses. Shows, stimulated by the State Fair exhibition at Nashville, are now held not only at practically every county fair, but in scores of small communities. The consequence is that during the winter, suggestions began to be made relative to formation of a horse show association.

Present officers, besides Mr. Woods, follow: Mack Gant, Franklin, vice-president; Murray Hill, Nashville, secretary; Miss Pauline Landis, Nashville, treasurer.

The executive committee, in charge of permanent organization, includes J. T. Young, Lebanon; John W. Taylor, Eagleville; W. W. Ogilvie, Allisonia; Turnley Rudolph, Springfield; E. Burt Hunter, Lewisburg, and Mrs. A. B. Herron, Brentwood

Nursery scene in the Blue Grass.

County, town and community horse shows are on the increase in Kentucky and Tennessee.

JEST A-WHITTLIN' AN' A-THINKIN'

BY PETE GETTYS

A young fellow up from town the other day was tellin' "how grand was nature—the trees and grass and birds and sunshine!" An' "how peaceful it all is—no hurry, no worry, nor strife."

Yes, the trees and birds and flowers make a pretty picture—but "no hurry, no worry, nor strife!" Nowhere in nature is there the slightest bit of kindness, of consideration for the suffering or weak. No landscape is so beautiful, or day so balmy, but the cry of suffering rends the air.

The fight to live and stay up on top never stops. Most animals die by violence. The snake darts out on the toad and swallows him alive. The spider spins his web to snare the unwary fly. The hawk swoops down on the hen. Certainly, the big trees crowd out and smother the little weaker ones. Some are born in rocky ledges. It's a struggle for existence. Others are at home on beautiful lawns where they're pruned and trimmed and fertilized and sprayed and get every care and attention—and can't you imagine the little yellow dandelion casting envious eyes at an orchid?

You never have had any kind of a pet until you've tried a pet crow—plain ornery and destructive—but the most intelligent and amusing of all feathered life. And if there's anything in your yard you don't want eaten—raise a pet lamb.

And speakin' of birds, I've been areadin' a book about birds. There's a whole lot of unsolved mysteries about 'em. People used to think a buzzard could locate a dead horse or a dead cow by smell, but tests pretty well show none of the birds has a very highly developed sense of smell.

And this business of bird migration has 'em all stumped. Course they know the winter weather and food supply has got something to do with it, but there's more than that back of it. Take Purple Martins, they come here from South America in March when it's so cold and bad there isn't a bug in the air, so cold many of 'em actually freeze, when they could still be in sunny Brazil.

Now they got an idea how they know directions. Been experimenting with homing pigeons, and find these birds are all upset by rado broadcasting stations, and think a pigeon's sense of direction bears upon the "electro-magnetic" hypothesis, whatever that is. Pigeons have been freed near broadcasting stations when the station was on or off the air. During broadcasting experienced pigeons took as long as three minutes to find directions as against a normal 20 seconds. Once 169 birds were let loose. More than half lit or returned after repeated failures to find directions. This suggests that birds may be sensitive to the earth's lines of magnetic force.

Anyhow, at milking time when the cows come up we like to see the old bull stick his nose down to the ground and bellow just as deep and scarey-like, and paw up the dust, and the calves bawl and when the cows are in the stalls everything gets as still . . . and directly you hear the milk playin' a tune in the buckets, and the old spotted cat stands around with her tail straight up and rubs her sides against the corner of the barn, purring just as contented like . . . and away over yonder a little owl screeches . . .

"And the day is done! And slowly from the scene the stooping sun upgathers his spent shafts and puts them back in his golden quiver."

Trout Season Around Corner

BY DICK WOOD

In most states, the season opens on trout in April. Rubber boots or waders will be in order in Southern states, where trout streams head in the mountains. Few trout streams in the South can be fished from the banks with flies. At this time of the year, streams may be discolored too much for artificial lures, and the natural fly season isn't until May, so the only recourse may be bait or worm fishing.

The ardent dry fly fisherman holds up his hands in horror at worm fishing, but I don't blame the impatient angler, who may be fish hungry, for acquiring a few trout by any legitimate means during the open season. The method is not exactly sportsmanlike, inasmuch as a worm caught trout is invariably hooked too deeply to release with any assurance of its living.

Nevertheless, when the stream is roiled, as it often is during April, about the only way to catch a trout is via the garden hackle route. The trout are lying in the pools, heads up stream, grabbing such food as the current brings them.

The still fisherman spirals a worm around a tandem hook tied on gut weighted down with a few split shot, and lets it drift down stream, near the bottom. Trout are generally taken near the head of pools, or by boulders or sunken logs, in swift water. They are seldom caught in placid pools, except late in the evening, or at night.

Nymph fishing is the next step above worm fishing. Nymphs represent the larval stage of insects before they rise from the bottom of the streams to shed their skins and emerge as winged insects. The helgramite is one of the best examples.

Nymph fishing is really indicated by early Spring conditions. While the sport of nymph fishing doesn't compare with fishing flies, it is preferable to worms and other messy bait.

The nymph of the Caddis, Stone and May fly are known to all trout fishermen. Every boy living near a trout stream in the Smoky Mountains is familiar with "stick bait," the Caddis nymph. It is found in small eddies of trash along banks, encased in the peculiar stick-like substance, and in lieu of artificial lures, may be fished on the point of a fly hook.

Other nymphs are the Olives—Dark, Green, Orange—Large Stone, March Brown, Pink Lady and Alder. Nymphs shyould be fished with a long, dark colored leader. They are dropped into the swirl at the head of a pool and permitted to drift down with the current. No attempt should be made to fish them near the surface. Only one nymph should be fished on a leader. The line should be kept taut to facilitate hooking.

Late in April, if the water is clear, flies may be fished quite successfully. Some of the best early patterns are Mosquito, March Brown, Black gnat and Royal coachman, fished wet.

BETWEEN THE ROWS

BY ROY H. PARK

We should do a lot this year—for we have one more day in which to do it.

Incidentally, Leap Year also brings us two Friday-the-13ths—one in March and another in November.

ELEGY—1936

The curfew tolls the knell of parting day,
A line of cars winds slowly o'er the lea;
The pedestrian plods his absent-minded way—
And leaves the world quite unexpectedly.

—Rotary News

Walkers are often just as much to blame for road accidents as drivers. They hang to the road to maintain their "rights," but being "right" is little satisfaction to a dead man.

"77 North Carolinians Draw in Excess of $15,000 Salary Each," said a headline the other day.

"But," commented North Carolina's Ike London, "none of them is an editor, a preacher, teacher, or farmer."

A friend of mine in Tennessee, wrote inviting me to visit his state. Commenting on places of interest in Tennessee, he said: "Why I could take you on a little trip through the ancient capitals: Rome, Athens, Sparta, Antioch, Alexandria, Memphis, Carthage, Palmyra, and Troy . . . or on a swing around modern Europe by visiting Winchester, Manchester, Rugby, Bristol, Dover, Paris, Loretta, Cordova, Milan, Florence, Dresden, Moscow, Frankfort, Hamburg, Christiana, and back to Belfast."

I wrote him that perhaps I may come later but that first I want to visit Niagara, Quebec, Japan, Ararat, Troy, Bombay, St. Pauls, Minneapolis, Milwaukee, Broadway, Toledo, Denver, Reno, Cleveland, Dublin, Nazareth, Hudson, Bahama, Genoa, and Congo, all located in North Carolina.

Incidentally, I'll be glad to hear from readers in Virginia, West Virginia, Maryland, Kentucky, South Carolina, Delaware and Florida about towns with unusual names in their states.

Pointing out how little things may often mean a lot, O. O. McIntyre offered the following the other day to show how a comma may change the meaning of an entire sentence: "Woman, without her, man would be a savage." And: "Woman, without her man, would be a savage."

FRANK FARMER Says ---

By A. E. Bryan

The biggest waste in farming is the waste of time and energy in an unbalanced farming plan.

* * *

Sunshine must be mixed liberally with the ration for growing chicks.

* * *

A fruitful way to spend a little spare time is to prune and spray the fruit trees of the home orchard.

* * *

It costs me less to buy absolutely needed farm implements than to do without them.

* * *

Farmers who have supplies of home-grown feed are better off than those who have a margin of money in the bank from cash crops.

* * *

I don't mean to wait until mistakes make it too late for this season to get valuable information and suggestions from my county agent.

By using better seed and more suitable fertilizer on my crops this season I expect to be more thankful next Nov. 26.

* * *

The hundred million pounds of dairy products imported into the South yearly is a good source of income—to dairymen in other states.

* * *

Investigate the most successful farmer in any community and you will find a soil-builder, not a soil-robber.

* * *

Beware of the lazy cow that does not mind going into debt to her owner for feed consumed.

* * *

Rusting out is worse than wearing out—which is true of farmers' machines and of farmers' minds.

* * *

The best investment I have made in fertilizers is the cent I spent for a post card asking my agricultural college for fertilizer formulas.

Kentucky's 4-H Hall of Fame

These Kentucky 4-H'ers are defending championships which they won in 1935. The titlists are, reading from the top down: James Charlotte Sanders, Lancaster, beef cattle; A. Percy Adair, Paris, swine; Noma Arnold, Louisville, room improvement; Louis Hartung, Camp Taylor, poultry; Minnie Ruth Pyle, Hopkinsville, canning; Mickey Malone, South Gate, foods; Greta Moss, Erlanger, clothing.

FARMER BRINKLEY REAPS *PROFITS from* CROPS *of NEW* IDEAS

Erosion Control, Crop Rotation and Livestock Production Part of His System

IN these days, with talk of soil erosion control and soil conservation in the air, it might be interesting to consider a Cheatham county farmer who has practiced the most approved methods of soil erosion control for better than a decade.

Middle Tennessee farmers generally know the name of S. F. Brinkley, the Cheatham county resident mentioned above. He has a small farm. Much of its acreage has a grade of nearly 45 degrees.

Some twenty-five years ago, when Mr. Brinkley first took over the farm, located several miles from Ashland City, the county seat, the place looked hopeless for using more than some 20 or 25 acres for growing any sort of crop. There was sassafras, there were sawbriars, there were gullies. It was "thin" land generally.

This terracing demonstration brought out a big delegation of Rutherford county, Tennessee, farmers. County agents, U. T. extension service specialists and Farm Bureau members attended, preceding the formation of a county soil erosion control association. Mr. Brinkley was one of the first men in the state to show interest in this now popular movement.

Had Own Ideas

Mr. Brinkley had his own ideas of keeping any more of his soil from washing away. He began plowing side furrows. He filled in gullies. He got out the sawbriars and sassafras.

And then, about twelve years after Mr. Brinkley had his farm going, with some livestock and a tobacco crop, along came P. W. Worden, county agent, who viewed Mr. Brinkle's tilted acres and expressed a yearning to do things about it. Mr. Brinkley was responsive. So he and the county agent went into a huddle.

Neighbors began to talk about the unusual doings at the Brinkley place. The first procedure was the now well known one of grade terracing.

Runs Beef Cattle

This was kept up, until every one of the tilted acres was covered by the serpentine, flat ditches.

Today, Mr. Brinkley grows lespedeza and other feed crops on his terraced land. He runs beef cattle at present, dropping the idea of having both sheep and cattle at the same time. He believes his profit is greater by having either sheep, or cattle on the small pasture acreage his farm affords.

In addition, Mr. Brinkley keeps a stable number of hog litters. It is his practice to keep his number of hogs about the same, not selling out entirely when prices are high, or dropping out of the hog producing business when prices lag. Thus he has been able to furnish hogs at any season when prices started mounting sharply.

Usually twelve acres of dark-fired tobacco are produced by Mr. Brinkley. This crop also is raised on the terraced hillsides of the farm.

Thermometer Pioneer

According to Roy H. Milton, U. T. extension service specialist, Mr. Brinkley was the first man to use a thermometer in his tobacco barn, and also a hygrometer. Use of both was due to the fact Mr. Brinkley sought other means than employing a watchman at his barn to check moisture and heat. Together with the use of the regulating instruments, Mr. Brinkley altered his barn roof and put in round ventilator. The "soft cure" method largely came from experiments on the Brinkley farm.

Mr. Brinkley has two tobacco barns. Both are located at the foot of a hill near running water. He has built a stripping room into the bank of the hill, installed a laundry stove heater in it and has a steam hose to the barns so he can moisten tobacco when there is a lack of moisture.

During his tenancy, Mr. Brinkley has by virture of good rotation practices, held to the soil and also has built it up.

Mr. Brinkley's theory of farming, agriculture specialists who have visited his place say, is that of the successful, all around farmer anywhere. He sells his surplus.

He keeps poultry, usually Orpingtons. He sells his products as much throughout the year as is practicable.

County Agent Worden now is with the U. T. Extension Service in East Tennessee, directing terracing in the TVA area. His work on the Brinkley and other Cheatham County farms brought him into wide notice.

And Farmer Brinkley continues to keep his eyes open for more new ideas.

Dark-Fired Growers Warned

MILDER tobaccos are being substituted to some extent in various dark fired type producing counties of Tennessee, Roy H. Milton, U. T. Extension Service specialist, reports, in giving an outlook for the 1936 crop.

"The dark fired crop is selling today somewhat lower than it did a year ago," Mr. Milton said. "The price is none too encouraging. At the same time, the value of choice cigar leaf has depreciated considerably in recent years. Some of the purchasers of cigar leaf have gone off the market." In addition, Mr. Milton pointed out, tariffs and duties are high on leaf tobacco, as well as the rate of exchange.

For 1936, Mr. Milton advised holding down acreage to "from five to ten per cent of the cleared area of the farm and strive to grow a choice leaf. Heavy bodied leaf," he added, "seems to be in keener demand."

Dark fired growers must "turn part of their attention to other enterprises," Mr. Milton said. "The dark fired industry is a declining one and the earlier the mass of growers realize this, the better it will be for the welfare of the district."

Mr. Milton urged selection of good soil for growing tobacco. "Too much dark tobacco is set on twenty bushel corn acres," he said. "Land of that character produces tobacco that sells at starvation prices. Set the 1936 crop on a two or three year lespedeza sod. If not that, a red clover, or a grass-lespedeza sod. Early, stocky plants are the first essential.

Acid phosphate and manure, Mr. Milton declared, constitute the lowest cost fertilizer. He advised drilling it in the rows, or scattering it in the hills. A good home mixed fertilizer is made up of 50 lbs. ammonium sulphate to 200 lbs. of cotton seed meal; 200 lbs. acid phosphate or bone meal, and 50 lbs. sulphate of phosphate to the acre.

It takes good fertilizer to make a good crop of burley tobacco, as shown by this test on the farm of John Stephens, Stanton, Ky.

Homemaker's Pages

Clothing Work *Brings Opportunity* to 4H Girls

Sew Their Way To Feminine Happiness

Naomi E. Shoemaker, Woodbine, Md., is pictured here in the outfit in which she won national style revue honors in 1933 at Chicago. The cost? A total of $21.61 with all accessories.

By L. E. TROEGER

EVERY girl loves pretty things to wear. It's a craving found in all races and climes. The American farm girl is no exception. No depression will crush her desire for ornamentation.

This love of finery, when not satisfied, is pathetic. It cannot be swept aside with an amused smile or a stern manner. It may induce a feeling of inferiority; that her life is not worth while, or, that she has no chance in the world. Many girls leave home under such circumstances; others become serious family problems.

Girls and their families are being saved from this situation through 4-H Club clothing projects.

The girl enrolls in a group of her own age and inclinations. She chooses to carry a project or "study" in sewing. She first learns how to sew by hand; later by machine. How to design and cut first such simple things as a towel or napkin. There are no 4-H Club dues. Her local leader gives her time free. She in turn is supervised by the county home demonstration or club agent. If the girl's club entails any expenses it is because members choose to. But such amounts are small and the girls through their club projects have a number of ways open to raise money.

During the first year, the girl learns the fundamentals in sewing. In another year or two, the girl, if she has been industrious, is ready to make part or all of her own clothes.

A girl can learn to launder her clothes to make them show to best advantage, and to remodel and obtain garments that are useful and beautiful. All this before she is out of her 'teens.

Many a club girl after a few years of 4-H training becomes independent in matters of her clothes, even to paying for them.

Girls become amazingly resourceful through 4-H clothing training. Laurine Varn, a South Carolina 4-H'er exhibited a dress at her state show which was so good it was entered in the national show in Chicago in 1933. A reporter described it: "Dainty as a humming bird's plumage, but not fussy. If you saw it in a store window you would think the fabric something new and fashionable." This dress was made out of sugar bags and it cost just 52 cents.

Another girl won first at the state fair, and it helped her win state honors and a free trip to the National Club Congress in Chicago where more than 1,000 outstanding 4-H Club members of the nation assemble annually. The girl remodeled an outfit. This was its history: Her black skirt was once her mother's woolen dress, then her sister's jumper. Her white vestee blouse was once a skirt, then a light jacket and pillow cover. Her black and white swagger coat once belonged to an aunt, then to her daughter, and before the club girl got it, it was made into a short full coat for her sister.

Every clothing club girl has an ambition to enter a product of her handwork in competition with other girls. County achievement days are held for exhibits of 4-H Club work in which cash or merchandise prizes or both are offered. The National Style Revue for 4-H outfits offers a medal to county champions. The county champion is eligible to model her outfit in the state show. The winner receives a free trip to the national contest held in Chicago. Competition in four classes of outfits is provided, and national prizes awarded. Prizes are provided by the Chicago Mail Order Co., which sponsors this contest to aid the 4-H movement.

The contest is conducted by the National Committee on Boys and Girls Club Work in co-operation with state, federal and local club leaders.

These 4-H Club Girls, Eleanor Acker, Junction City, Kas., and Alexandria Hoevel, Creve Coeur, Mo., demonstrate the new and old in girls' tailored costumes. They were among the headliners in the 1935 national style revue at the 4-H Club Congress at Chicago.

SHORT STEPS

By VIRGINIA LEE

To keep rag or hooked rugs from "skidding" on hardwood floors sew a fruit jar rubber at corners on the underside.

* * * *

Keep a bottle of milk of magnesia on the kitchen shelf. It will prevent blisters if applied immediately.

* * * *

An old fashioned corn popper is fine for roasting weinies over a fire. This keeps them from falling in the ashes.

* * * *

Where there are several children in the family—to simplify sewing, ordering clothes, etc., keep a card for each child giving complete measurement for shoes, dresses, etc.

* * * *

Starch tea towels and they will not leave lint on dishes.

Let's So...

By MARJORIE H...

AFTER dinner mints are pleasant and attractive to serve any time, particularly at the close of the main meal of the day. The following recipe has been approved by the home economics department of the Kentucky College of Agriculture:

Ingredients: 2 cups sugar, ¾ cup water, 4 tablespoons butter, 2 tablespoons vinegar, and 10 drops of peppermint.

Mix sugar, water, butter and vinegar together. Stir until sugar dissolves, wipe edges of kettle with a moist cloth. Boil rapidly and cook without stirring until the hard ball stage is reached; that is, until the mixture will form a hard ball. Pour onto an oiled platter. When cool enough to handle add peppermint and pull. When stiff, stretch candy on table into a rope, and cut in one-inch lengths. Wrap in oiled paper. This recipe makes 100 pieces.

Lollypops

Both children and grown-ups often like lollypops. This recipe is unusually good:

Ingredients: 2 cups of sugar, 2/3 cup of white corn syrup, one cup hot water, ½ teaspoonful of oil of peppermint, and coloring material.

ade at the farm home of Mr. and Mrs.
t-in cabinet, with recessed work shelf.

Smart Styles For Early Spring

Patterns for these distinctive styles may be obtained from the Pattern Department of THE STATE FARMER, by sending 25 cents with the coupon below.

CLAUDETTE'S CHOICE

Pattern H-3117. This flattering spring frock is sponsored by captivating Claudette Colbert. There is a clever military appeal in the soldierly rows of buttons; sleeves do their bit; welt edge shoulder seams give the stylish, squared-off note and conform perfectly to the no-collar neckline. This smart dress demonstrates that good appearance is no farther away than the sewing machine.

Pattern is available in sizes 14, 16, 18, 20, 40 and 42. Corresponding bust measurements 32, 34, 36, 38, 40 and 42. Size 16 (34) requires just 4 yards of 39-inch fabric.

EASY TO MAKE

Pattern 3030. This charming afternoon frock is surprisingly easy for even the least experienced home dressmaker to "run up." The ruffled edging, the demure collar and youthful puffed sleeve add charming feminine touches to the draped blouse. The low-placed pleats on the skirt are very new and are designed for ease of construction on slender lines.

Pattern designed for sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 (32) requires 4⅝ yards of 39-inch fabric plus 1 yard contrasting material.

DINNER DRESS

Pattern H-3119. Kay D'Arcy's looking at you in a perfectly gorgeous dinner frock featuring the season's smartest combination black and white. Fashioned along princess lines to mold the figure, this delightful model features a set-in piece or narrow panel.

Although rich-looking, this frock can be made simply and inexpensively. Pattern designed for sizes 14, 16, 18, 20, 40 and 42. Corresponding bust measurements 32, 34, 36, 38, 40 and 42. Size 16 (34) requires 3¾ yards of 39-inch fabric and 2-3 yard of 35-inch material.

Patterns of dresses pictured above 25c. Please remit in coin or stamps, Give your name, address, pattern number and size. Mail order to Pattern Department, State Farmer Section, Fletcher, N. C. A 32-page Spring and Summer Pattern Book is available at 15c each, or if bought in combination with pattern, 35c for pattern and book.

Encouragement in the production of sheep such as these is being urged in Tennessee.

Strip cropping with corn, lespedeza and spring oats in rotation checks soil wash and builds up the soil.

Vigilance Best Remedy Against Loss of Lambs

CONSTANT vigilance is the remedy against loss of animals during the lambing season, and immediately thereafter, according to C. C. Flanery, University of Tennessee Extension Service specialist, who advises, among other precautions, early morning and late evening visits to flocks.

"At least the loss will be small," he explained, "if proper precautions are made. Last year we raised an average of 103 lambs per 100 ewes compared with 80 per 100 ewes in 1920."

Objectives of production of stocker ewes, wool and feeder lambs, as set forth by Mr. Flanery, are to help provide a market at home for hay and grain produced, to provide a method of using the range land nearby, to better advantage, to encourage farmers to sow small grain for winter feed and to provide a uniform method of production and marketing which may interest more growers to raise a few sheep.

Program Outlined

A program, to be followed in the principal sheep producing counties of Tennessee this year, has these main points:

Saving a few ewe lambs each year until the flock is sufficiently large.

Use of a good, registered ram that will improve the native sheep.

Control of internal and external parasites. Drenching every 30 days from April 1 to October 1 is recommended.

County listing of prospective sheep producers to distribute flocks to better advantage.

Encouragement of sheep exhibition, particularly by younger farmers.

Field meetings, shearing, dipping and other demonstrations.

Old Sheep Country

"From the earliest period of which any record has been kept," Mr. Flanery said," the range, or marginal counties of Tenneessee have raised sheep and lambs for home consumption. The wool has been used for clothing and mutton has been used to eat, and in addition, there were sheep to sell to the basin counties and other states.

"Certain counties in the above mentioned soil areas are proven stocker ewe producing territory. Parasites have never seriously interfered with the production of sheep because the land is seldom overstocked, usually drains well, the territory is large and the elevation is often high. The people, too, are lovers of sheep.

"In restricted areas, cliffs and bluffs as well as deep hollows and dense forest, there appears to be the necessary protection in bad weather. Foot rot is unknown and scab is seldom, if ever, found. This make sour wooded lamb areas especially inviting for the production of stocker ewes and feeder lambs.

Flanery pointed to the need of improving the quality of native sheep in such sections. He also suggested a "definite plan of marketing" as one of the best ways of stimulating the production of sheep in this area. He warned that the dog menace should be studied and advised winter enclosures so that better attention could be paid lambs, marking and other sheep problems.

Sawmill Men!

Lumber turned out on Farquhar Mills brings highest market prices. . . . Strong . . . Rugged . . . Lively and Accurate. For over 75 years our Sawmills powered by Farquhar Steam Rigs have provided sure profits to thousands of operators.

Lespedeza Ammunition To Combat Soil Robbers

LESPEDEZA is the answer to the problem of soil that is being robbed by the washing away of its most productive layers and continuous cropping without regard to soil improvement.

Experiments show that approximately sixty-three tons of soil erode from an acre of land in one year on a ten per cent slope. This is the most productive part of the soil and carries away about twenty times as much plant food as one crop would use. By growing lespedeza on the same slope and type of soil, it has been found that the loss was reduced to less than one ton per acre.

Lespedeza is the ammunition to use if you want to kill a pair of destructive birds with one shot. Lespedeza is not only a crop that will hold the soil in place, but it is one of the best soil improvement crops. It has a wide range of adaptation and will grow on many types of soils.

From an erosion and fertility viewpoint, it is the most important soil-saving crop that has been introduced into the South in the past few decades. It has been the salvation of many farmers and will be for many others if grown and properly managed on their farms.

Following are nine "dont's" to observe in growing Lespedeza:

1. Don't plant seed of unknown quality and origin. Plant only seed which has been tested and found to be of high quality.

2. Don't plant seed which contains obnoxious weed, especially dodder or Johnson grass.

3. Don't wait too long in the spring to seed lespedeza. Lespedeza should be seeded early enough for it to start to grow immediately after the last hard, killing frost.

4. Don't fail to plant plenty of seed. For Korean, thirty-five to forty pounds per acre should be seeded for the best hay crop, twenty-five to thirty for the best seed crop. For other varieties plant five to ten pounds less per acre.

5. Don't cover seed too deep. This is one very common mistake. If the ground is mellow it is seldom necessary to cover seed at all. This is especially true when seedings are made in small grain. When seeding on hillsides, there should be contour marks of some type made, either by drill furrow, drag harrow, or other farm implements giving similar results. These contour marks prevent the seed from drifting during heavy spring rains. If this practice is not observed, the seed will drift in spots, resulting in an uneven stand.

6. Don't fail to overlook the value of lespedeza in your permanent pasture mixture. Don't fail to use at least two varieties in this pasture mixture; preferably Korean and Common, certainly Korean and one of the other varieties. Korean gives much earlier grazing than the other varieties. Either Common, Tennessee 76, or Kobe will give much later grazing during the fall of the year.

7. Don't graze lespedeza too early where it is seeded alone. Give it an opportunity to become well established.

8. Don't be misled by the idea lespedeza will not reseed itself in a pasture. It is almost impossible to graze lespedeza so closely it will not reseed itself.

9. Don't permit lespedeza to grow to maturity when being harvested for hay. Lespedeza should be harvested for hay while in early bloom. In great many cases both the hay crop and seed crop may be obtained if the hay crop is harvested early in the season before the blooming stage.

Mules Provide Loan Collateral

These Kentucky Mules furnish the security for a loan to produce corn and hogs.

E. L. and M. C. Shaw, brothers, who own and operate a 320-acre farm near Cayce, in Fulton County, Kentucky, are two of the 9,000 Kentucky and Tennessee farmers who financed crops and livestock last year with loans from production credit associations.

The twelve production credit associations in Kentucky and the ten in Tennessee loaned over $3,300,000 in 1935, and at the recent annual meetings of these associations, farmer-members planned a sizeable increase in loan business for 1936.

The ten head of mules in the picture are part of the collateral offered by the Shaw brothers on a $1,000 loan obtained from the Jackson Purchase Production Credit Association at Mayfield, Kentucky.

The picture shows an appraiser of the association, W. T. Lyell of Hickory, Kentucky, appraising the mules.

The proceeds of this loan were used, in part, to pay bills owed to a local hardware store for farm equipment. The loan is being repaid through the sale of hogs produced on the Shaw brothers' farm.

The production credit associations covering Kentucky are located at Paintsville, Flemingsburg, Williamstown, Louisville, Lexington, London, Danville, Elizabethtown, Owensboro, Mayfield, Hopkinsville, and Glasgow.

The Tennessee associations have their headquarters at Paris, Dyersburg, Jackson, Memphis, Springfield, Columbia, Murfreesboro, Chattanooga, Knoxville and Cookeville.

Agricultural Brevities

Pelts

New uses for silver fox furs have resulted in a pelt crop this year, twenty-eight times larger than in 1923. In less than fifteen years the annual crop has increased from 6,000 pelts to more than 170,000. The pelting season starts in November and runs through the winter months. Last season's pelts brought fox farmers $7,114,500.

* * *

Foreign

Cotton acreage in Argentina this season is officially estimated at 909,000 acres compared with 707,000 acres in 1934-35. Planting was completed early in December. Harvesting usually begins late in May. The Argentine government is encouraging cotton cultivation. The Argentine crop last season was 295,400 bales of 478 pounds each.

The 1936 series of Colonial wool sales opened in London with prices for practically all descriptions registering advances over the closing rates of the previous series on December 6, 1935.

The hog census in Germany just completed reveals a substantial increase in the number of bred sows over a year ago. This indicates heavier market supplies of hogs during the second half of 1936.

Drastic restrictions on imports will limit German purchases of American apples and pears during the 1935-36 season (November 1 to May 31). Whatever fruit is allowed to enter Germany this year, will probably sell at very high prices because of the scarcity of good apples and pears.

* * *

Soybeans

Because increases in soybean acreage in the future will be largely for commercial uses, the job of developing new varieties becomes more complex than in the past when plant breeders worked for varieties with high forage, says W. J. Morse, soy bean specialist in U. S. Department of Agriculture. The job is more complex because the breeder is now concerned with oil, protein, amino acids, lecithin, iodine, minerals, texture, carbohydrates, flavor, cooking quality and vitamins of the bean—qualities demanded in some or all commercial uses.

About one-half of the beans harvested last year will be used in the manufacture of industrial and food products such as flour, soy sauce, diabetic and infant foods, breakfast food, lard and butter substitutes, candies, roasted beans with a nutlike flavor, health drinks, paints, varnish, glue, plastics, printing inks, oilcloth, linoleum, rubber substitutes, glycerin, insecticides and livestock feeds.

* * *

Wages

During this winter farm hands have been getting the highest pay they have received in four years, according to the Bureau of Agricultural Economics of the Department of Agriculture. Day wages without board ranged from an average of 70 cents in South Carolina to $2.50 in Massachusetts and California with an average for all states of $1.37.

ACTION IN THE TOBACCO FIELD—This type of machine shown here in use in Maryland sows, mixes fertilizer with soil and lists all in one operation.

* * *

Prices

Wool prices which were stimulated by an unexpected pickup in trade late in December are expected to continue near the present level for the next few months. In January, buying declined somewhat but wool prices continued to advance. Wool imports have not kept pace with the increased consumption during the past three years with result of a marked reduction in the heavy stocks which had accumulated during 1929 to 1932.

* * *

Bovine T. B.

A baffling outbreak of bovine tuberculosis in the government's herd of dairy cattle at Beltsville, Md., was discovered in a test made late in January. The outbreak involved 82 positive reactors and 11 "suspects" in the herd of 378 animals. All the cattle involved were cows, heifers and calves. No bulls of the 25 in the herd were affected.

The cause of the infection has baffled officials. For 18 years the herd has been in an accredited status. A regular test in October of 1935 disclosed one reactor. The cattle of the herd are housed in eight different buildings. The possible source of the infection is now the subject of a special investigation.

* * *

Hog Cholera

Crystal-violet vaccine for the prevention of hog cholera is announced by the U. S. Department of Agriculture as a promising addition to the products developed for the control of destructive animal diseases. Crystal-violet is a chemical dye, one of many substances the biochemists have used in their efforts to destroy the infective elements and at the same time preserve the protective element. Tests have given about 99% satisfactory protection against hog cholera.

* * *

Housing

A farm building is no more durable than its roof. Up to date information to help a farmer choose right kinds of roofing materials for different buildings appears in Farmers' Bulletin 1751-F, Bureau of Agricultural Engineering, U. S. Department of Agriculture. The title is "Roof Coverings for Farm Buildings and Their Repair."

Farmers' Bulletin 1749, Modernizing Farmhouses, U. S. Department of Agriculture, contains comprehensive information on costs and details on remodeling to meet a variety of needs. It contains floor plans, photographs or sketches of 13 typical farm houses which have been remodeled by their owners with descriptions and costs of the work.

* * *

Free Seeds

Ten thousand times "NO" to requests for free seeds says the U. S. Department of Agriculture. In a special release to the farm press the department says that for thirteen years it has been trying to convince 100,000,000 people that it has no free seeds or plants, yet again this spring, thousands upon thousands of requests are pouring in from farms, suburbs and penthouses.

Lives of 36,000 persons were crushed out in automobile accidents in 1935. Ninety per cent of these fatal accidents were due to careless drivers. The greatest increase in auto fatalities is on rural roads.

Proper Care of *BEES*

By L. E. Gooch
(President, Kentucky Beekeepers' Association)

THE problem of proper and adequate care of bees by any farmer who desires to have a few colonies to produce honey for his family and perhaps even have a little to sell, is in reality not such a great problem. The first of a farmer's problems is contentment; satisfaction comes from contentment.

The main thing is to get a farmer to realize that he has time to work with his bees. It is important for any one who undertakes to handle bees to be thoroughly familiar with all their traits. Experience will be his best teacher.

L. E. Gooch, president of the Kentucky Beekeepers' Association demonstrates how to handle bees—when you know how.

Of course, every beekeeper should subscribe for at least one of the bee journals, of which there are several good ones. He also should obtain from the U. S. Department of Agriculture and from his state agricultural college, circulars and bulletins dealing with bee culture.

Bees Not Dangerous

If honey bees are properly handled there is no more danger in caring for them than there is in raising poultry. However, the belief that bees learn to know their master and will not sting him is without foundation.

During the active season, the average life of a bee is six weeks. The first two weeks are lived almost exclusively within the hive. But thereafter the bee passes most of the daylight hours in the field, when the weather is fair, in search of pollen and nectar. Since the beekeeper rarely opens the hive more than once a week there is little opportunity for the bees to become acquainted with him. Careful handling with the use of a little smoke is the best way to avoid stinging.

Reason For Swarming

Attention must be given to a vast number of details. There is plenty of grief in connection with the bee business. Loss of bees during the winter is heavy, disease takes a large annual toll, and wax moths destroy the comb. These problems require close personal attention, and the work must be done on time.

During the building up period in the spring, and the honey season which follows soon after, the activity of the bees is like clock-work, and should be watched closely, in order to see that the queen has plenty of room to expand her brood nest. A congested brood nest is the main cause of swarming.

Many farmers think that when their bees are swarming they are progressing. Swarming usually comes at the beginning of the main honey flow and therefore greatly interrupts the storing of surplus honey. The surplus honey is the farmer's profit.

Use Standard Hives

Too often the farmer is busy with other work on the farm and will not stop to look after the bees until it is too late. The time that a farmer often spends talking to a neighbor over the fence will more than care for a few colonies of bees.

One often can judge a man's business by his equipment, and most farmers have improvised equipment. By all means every beekeeper should use standard hives. It is far better and cheaper in the long run to buy all material from a reliable concern that makes a specialty of manufacturing supplies for beekeepers.

One should not fail to use full sheets of comb foundation in all frames, both in the brood chamber and in the super. Many farmers talk about having their bees on moveable frames, but do not use full sheets of foundation. Where foundation is not used, by the time the bees get through crossing the combs the frames are far from moveable, and there is little chance to examine the inside of the hive.

Prospects Bright

Bees should be kept in a place where they are least likely to come in direct contact with livestock and people, and if possible where there is a good windbreak for winter protection.

We must not get too enthusiastic over a good yield, thinking we will have it every year. Through my section of Kentucky we did not get much surplus honey the past two years, but prospects look fairly good for the coming season.

The amount of surplus we get this year depends largely upon the condition of the bees in the spring.

THE GRAND NEW
"PENN STATE" TOMATO
Has Made Good Every Claim for It!
Wins in the All-America Selection for 1936

Reforestation plays a major part in the war on soil erosion. CCC boys here are spotting in tree seedlings in the Norris reservoir area.

Erosion Greatest Destroyer of Tennessee's Plant Food

EROSION control is the big farm problem, because the loss of plant food through erosion is much greater than the loss from the removal of crops, warn farm management specialists of the University of Tennessee Agricultural Extension Service.

Statistics of the Soil Conservation Service, U. S. Department of Agriculture show that at least 126,000,000,000 pounds of plant food elements valued at $2,000,000,000 are removed by erosion from the nation's crop and pasture land each year.

More than 85 per cent of the land in Tennessee has been damaged by erosion. Gullies have practically destroyed 3,000,000 acres for profitable cultivation and on approximately 11,000,000 acres, sheet erosion has removed from 75 to 100 per cent of the top soil. The results are most pronounced in the East Tennessee Valley, on cleared land on the Cumberland Plateau, Highland Rim and in parts of West Tennessee.

Based on average fertilizer prices according to available plant food, the plant food removed by an acre of corn yielding 35 bushels was valued at $4.97 by the Missouri Experiment Station. Loss of plant food from erosion on a similar plot planted continuously to corn was valued at $36.29. Removal of plant food from an acre of wheat yielding 20 bushels per acre was valued at $3.56, while the loss from erosion of land planted continuously to wheat was valued at $16.47.

Loss of plant food from erosion on land where a three year rotation or corn, wheat and clover was practiced was only $9.16, less than from land planted to either corn or wheat.

Tennessee Cotton Production Still Remains in Doubt

COTTON production in Tennessee, according to farm leaders and agricultural forecasters, still remains in doubt on the eve of spring.

The normal five year average production in the state is 468,000 bales. In 1935, production was estimated at 355,154 bales, but with reductions, have not yet exceeded 320,000, with ginnings not yet over.

Thus, it is not believed that actual production, as obtained from ginning reports, the 1935 crop will not pass the 330,000 bale mark.

Should no means of crop production control be authorized by Congress before spring planting, it is believed by cotton men that the state's 1936 yield may go very near the five year average of 468,000 bales. The unusually cold weather has killed the boll weevil, it is thought, and the menace of the army worm, which caused damaging effects in a dozen counties last year, probably will be minimized this season, due to the prolonged freezing of the ground.

However, it has been pointed out, shoould an emergency program be authorized in time to be put into effect, the cotton yield will be held well under the 400,000 bale mark.

It is a well known fact that any sort of control program will have to be in operation this month, to be effective, due to contracts necessary in advance of planting.

March also is expected to see the cotton subsidy loan setup in operation again. State offices at Nashville have been ready for orders from Washington for several months, with all preliminary work already finished.

The county agent inspects field inter-cropping of cotton and Irish potatoes on a farm near Elizabeth City, North Carolina.

Decrease Loss of Chicks to Make Poultry Pay

By C. E. HARRIS
(Kentucky College of Agriculture)

One way to cut the cost of poultry production and increase profits is to decrease losses of young chicks and growing stock. Good pullets, to replace 60 to 70 per cent of old hens, should be raised as cheaply as possible. If a large percentage of the chicks dies nothing can be done to offset the loss. Forty-five Kentucky flock owners co-operating with county agents started 20,913 chicks and raised 19,187, or 91.7 per cent, by following the clean chick program of the College of Agriculture.

Clean Chicks: The term "clean chicks" refers to chicks that will live if properly cared for. Pullorum disease or B. W. D. causes high mortality. Disease is transmitted from the infected hen to her chicks through eggs, and cannot be cured by drugs. Loss of chicks from this disease can be practically eliminated by following the recommendations.

1—Test flock by standard tube blood agglutination test, if eggs are to be set or sold for hatching.

2—Sell all birds that react to the test.

3—Clean poultry house and premises.

4—Disinfect house, use clean nesting material and keep clean litter on floor.

5—Do not incubate eggs from tested and non-tested flocks in same incubator.

6—Do not brood chicks from tested and non-tested flocks under same brooder.

7—Buy chicks from breeders or hatcheries who hatch only eggs from blood-tested flocks.

Have Clean Equipment: Healthy chicks will thrive only when comfortably housed. The house need not be expensive, but so built that uniform temperature can be maintained. It should be large enough to accommodate the number of chicks to be brooded, up to 300 chicks. Not more than 300 chicks should be put in one brooder.

Necessary Equipment: A 10 by 12 foot brooder house mounted on skids, or a remodeled structure to meet requirements is the most important equipment. There should be a good coal-burning brooder with a 48 to 52-inch canopy and a large coal chamber or a home-made brick or double barrel brooder.

Feeders should be used which will allow free access to feed and prevent contamination. Three reel-type feeds, 4 feet long, 4 inches wide and 2 1-2 inches deep should be provided for each brooder house. One quart jar water container should be used for each 30 chicks.

To Clean Equipment: Sweep the walls and scrape floor of brooder house. Scrub floor and at least 3 feet up walls with boiling water containing a 13-ounce can of lye to each 5 gallons. Spray brooder house and equipment with a 5 per cent solution of compound cresol disinfectant. After the house has been cleaned and disinfected it should be moved to ground where poultry has not ranged for two years. If the house cannot be moved, a sunporch should be provided.

Sun Porches: For a sun porch, a run 10 by 12 feet may be made on the east or south side of the brooder house, using 1-inch mesh poultry netting for the sides and top and 3-4 inch mesh hardware cloth or slats 1 by 2 inches, spaced 1 inch apart, for the floor. Chicks can be brooded to 10 to 12 weeks of age in the house and in this sun porch. They should not be allowed to get on contaminated ground. When chicks are 10 to 12 weeks old the house may be moved to clean ground.

MARCH FLOCKS

March is a good month for hatching the general-purpose breeds, and April the best time for all breeds. It is probable most Kentucky chickens are hatched in that month.

Brooding—If a colony brooder is used care should be taken that chicks do not become chilled. The brooder stove should be run a day or two before the arrival of chicks. Holding an even temperature is essential. Plenty of ventilation is necessary. Temperature under the brooder should be 90 to 95 degrees at the start and gradually decreased each week, running about 85 degrees the second week and 80 degrees the third. Behavior of the chicks is a better guide as to heat requirements than a thermometer. At night, chicks should hover in a circle about the brooder. During the day they should be comfortable in all parts of the house. They should not be overcrowded. Chicks should be turned out in the sunshine when about one week old, but not until morning dew is off the grass.

Feeding—Chicks should remain in the incubator or chick shipping boxes until ready for the first feed. Requirements for chick growth, protein, fats and vitamins, should be provided in the ration. A good commercial mash or home mixtures will meet requirements for chick growth. If a commercial mash is fed do not also give milk.

Hamilton Boys and Hebron Girls Win Basketball Tourney

Walton Bearcats and Florence Nightengales win Runner-Up Awards—Winners go to Regional Tourney this week

The annual thirtyseventh district basketball tournament of 1936 has been made into history. Though only two teams could emerge victorious in as far as not being defeated was concerned, the entire group of entries were victorious in fair play and demonstrating outstanding ability. The general good feeling among the teams and those in charge of them added to the genial atmosphere. The officials were efficient and well received and the cooperation given by pupils, teachers, Parent-Teachers Association and all concerned was of vital importance in making the tourney a success. ..

In the first round games, boys Burlington and Hamilton were fortunate in drawing byes; Walton defeated Hebron in one of the most interesting games of the tourney and Florence defeated New Haven. In the first round games, girls, Florence and Walton drew byes; Hebron girls, after trailing at the half, tightened up and defeated Burlington and New Haven defeated Hamilton.

In the semi-finals found Hamboys emerging victorious over Burlington by a lop-sided score and Walton boys defeated a much larger and more experienced Florence team. In the girl semi-finals Florence defeated Walton and Hebron, in another gallant fight trimmed New Haven.

The final games Saturday nite were two of the most interesting that have ever been played on a Boone County Basketball Court. In the opening game the Hebron girls, after trailing Florence 6-8 at the half, put on a late rally to win 16-15. Likewise the Hamilton boys, who trailed Walton 9-12 at the half, exhibited some first class floor work and goal shooting to have a one point margin when the final whistle sounded. The score was 21-20.

All tourney teams composed of ten outstanding boys and ten outstanding girls were selected. They were as follows: Girls—Delilah Dolwick and Frances Siekman, Hebron; Virginia and Margie Miller, Hamilton; Dorothy Judge and Lula Robbins, New Haven; Thelma Simpson, Walton; Betsy Eddins, Burlington; Margie Picket and Margie Cottingham, Florence.

Boys—Melvin Moore, Wm. Aylor and Herbert Doolin, Hamilton; Alvin Clore, Burlington; Ralph Coppage, New Haven; Samuel Shinkle, Hebron; Robert Scott, Florence; Morris Arnold, Jean DeMoisey and Homer Osborne, Walton.

AGRICULTURAL LIMESTONE WORK BEGINS IN COUNTY

The lime pulverizer of R. W. Auton has begun work completing the agricultural limestone pulverizing program organized by the Boone County Soil Improvement program. Two hundred and fifty tons were crushed the past week in the Beaver community. Three thousand tons remain to be crushed.

The lime pulverizing program is expected to soon be completed. This program offers an unusual opportunity for farmers to secure cheap agricultural fertilizer on their own farms. Those farmers who have not signed for this service and are interested are urged to contact the County Agent's office at Burlington immediately.

CCC CAMP ENLARGES FARM PROGRAM

The Soil Conservation Service of the CCC Camp have enlarged their services to farm cooperators to pile limestone rock to crush for agricultural purposes according to J. H. Hardin, Camp Superintendent. The service will also include breaking the rock and feeding the pulxerizers.

The limestone work is available only to farmers who agree to cooperate with the good farming practices recommended in soil Conservation. Farmers interested should contact Mr. Hardin or the County Agent's office.

SEED CORN SCARCE

Farmers should test all seed corn before planting this year. Several samples tested recently shows the germination on much of the corn will be too low for seed purposes according to H. R. Forkner, County Agent. Some samples have tested as low as 28 per cent.

The rag doll test for individual ears is the simplest and cheapest test. Where a composite test of 100 grains from sample ears in the crib is desired—a box of dirt will furnish a satisfactory method. Some farmers use tin cans filled with dirt for individual ear tests.

MR. W. H. BROWN

The many friends of W. H. Brown, better known as Harvey, were shocked to learn of his sudden death as Lansing, Michigan, which occurred early last Sunday morning. Mr. Brown's foster parents Mr. and Mrs. Jno. F. Brown, U. S. Highway 42, who were planning to leave early Tuesday for Lansing where funeral and interment took place Wednesday, were forced to alter their plans due to the illness of Mrs. Brown.

The young Mr. Brown leaves to mourn his passing his wife and infant son, several brothers and sisters and father.

HOMEMAKERS ORGANIZED

IN NINE BOONE COUNTY COMMUNITIES—WORK OF MISS GILLASPIE IS OUTSTANDING.

Nine communities in Boone county have held meetings during January and February for the purpose of organizing temporary Homemakers Club. Seven groups have elected their officers and project leaders; while Hebron and Hamilton are planning to organize this week. The meetings have been very well attended considering the bad weather. Membership is open to any woman that wishes to become affiliated with the University of Kentucky. One hundred and fourteen women have joined the local clubs.

Women of Boone county have been interested for the last few years in extension work but until this year the University of Kentucky was not able to send some one to organize the work in order that the women could decide whether they were interested in a permanent extension program with a full time Home Demonstration Agent. Miss Gillaspie, Asst. Home Demonstration Agent is dividing her time between Boone and Gallatin.

Boone county had their first Leaders' Training Class on "Personality of the Home," March 3 at the home of Mrs. F. Cleek. Miss Ida Hagman, Specialist in Home Improvement of the Extension Department, College of Agriculture, University of Kentucky gave the lesson. The afternoon session of the April training class to be held in the court house at Burlington will be open to anyone interested in improving their home.

The seven clubs and their officers are, Burlington, President, Mrs. Galen S. Kelly, vice - president, Mrs. O. S. Eddins and Secy-Treas. Mrs. Howard S. Ryle; Florence, President, Mrs. Joe J. Berkshire, Vice President, Mrs. Clifford Coyle and Secy.-Treas., Mrs. Floyd Roberts; Grant, President, Mrs. R. S. Hensley, Vice President, Mrs. J. E. Rogers and Secy.-Treas., Mrs. C. E. McNelly; New Haven, President Mrs. Jake Cleek, Vice President, Mrs. Shirley Ferguson, and Secy.-Treas. Mrs. Marie Pennington; Petersburg, President, Mrs. J. H. Huey, Vice President, Miss Edna Berkshire and Secy.-Treas. Miss Gladys Klopp; Verona, President, Mrs. Mattie Mae Hamilton, Vice President, Mrs. O. K. Powers and Secy.-Treas. Miss Lillian Harris and North Walton, President, Mrs. John L. Vest, Vice President, Mrs. J. C. Bedinger and Secy.-Treas., Mrs. John E. Stephenson.

REPORT OF TAX SUPERVISORS

FOR YEAR OF 1936 IS FAVORABLE TO TAX COMMISSIONER AND PROPERTY HOLDERS.

We, the Board of Tax Supervisors, appointed by the Boone County Court met in the Court House at Burlington on the second Monday in February, this being the 10th day of said month and being sworn began our duties.

We checked the assessment of each property owner in Boone County against the assessment for the previous year and we want to compliment Wilton Stephens, your Tax Commissioner, for the accuracy and neatness of the Tax Books and the fairness he had shown to property owners of Boone County in helping to see that their lists were given in correctly.

We performed our duties as the law requires and after hearing all complaints the assessed value of real estate was increased $20,460, and the assessed value of intangibles and personal property was increased $12,240.

Huoert Conner,
Hugh Stephens,
L. D. Renneckar,
Supervisors.

LOSE CONTROL OF FIRE

While attempting to burn dry weeds and grass from the local school yard Wednesday afternoon a fire assisted by sweeping winds became uncontroable and those in charge were forced to secure assistance of a number of pupils to extinguish it. Little damage was done, however, at one time it appeared that the leaping blaze would reach a residence nearby.

ROGERS SPEAKS TO DEMOCRATIC CLUB

Jimmy Rogers, popular young lawyer, addressed the Young Men's Democratic Club of Boone county at their regular monthly meeting, which was held at the Court House in Burlington Monday nite, March 9. "You and your club stay out of Democratic primaries," Rogers told the club. Rogers criticized the newspaper reports to the effect of their over emphasizing the squabble between certain members of the Kenton County Democratic Club. He said the misunderstanding would soon be ironed out. Mr. Rogers had great praise for President Roosevelt and the entire Democratic administration and predicted victories for the entire ticket.

The Club will meet at Hebron next month.

UTOPIA MEETING

Boone County Utopia Club No. 2 members will meet next Wednesday night, March 18th.

ON EXHIBITION

J. J. Kirkpatrick, local representative of the Westinghouse Electric Company, wishes to announce that he has on exhibition at the Boone County Service Station, now operated by Les McBee, a Westinghouse refrigerator. For inspection call at the Boone County Service Station or see Mr. Kirkpatrick.

SEWING CIRCLE MEETS

Good Will Sewing Club met at the home of Miss Mary E. Hodges in Petersburg, March 8th with 7 members and their assistant leader. Our club leader was unable to be with us because of illness. We want to thank Mrs. Hodges for her kindness in letting us use her home.

We started our unit by making a towel.

Mary E. Hodges,
Sewing Club Reporter.

NEW HAVEN P. T. A.

The New Haven Parent Teachers Association wishes to express their appreciation of the donation of food and help during the tourney By the splendid cooperation of the patrons, the treasury has been replenished. On April 7, Tuesday, the association will entertain the graduates with a dinner and musical. It is hoped a large number of the New Haven community will join in this farewell party. which will serve two purposes. Besides the graduates, the present officers will be replaced by the report of the nominating committee and voted on by the membership. The price of the dinner will be 25c a plate and is called for 6:30 p. m. Reservations can be made, not later than April 1, by telephoning Mrs. Joseph Huey, Secretary of the association, Florence 623.

P. T. A. NOTES

The regular meeting of the Constance P. T. A. will be held Wednesday, March 18th at 2:30 P. M., in the school basement. All members are requested to be present at this meeting.

Mrs. F. D. McGlasson,
Pub. Chairman.

STATE HIGHWAY APPROPRIATION

PROVIDED BY HIGHWAY DEPARTMENT TO ASSIST IN IMPROVING COUNTY ROADS UNDER STATE DEPARTMENT IS ALLOTED

Frankfort, Ky., March 3.—Boone county will receive $13,166.56 annually which will be spent for improvement of county roads under supervision of the State Highway Department.

This money will be spent in the county under provision of the recently enacted law which provides substantial aid in county road improvement by the Highway Department. This action was sponsored by Governor Chandler in accord with his pledge for road improvement.

The money is to be spent by the highway department "in accordance with previously agreed to and accepted plans prepared jointly by the fiscal courts of the several counties and the highway commission." It is further specified the money "shall be expended by or under the direction of the highway commission and no part of the money shall in any event be turned over to the fiscal court of any county.

Effect of the law will be to give considerable aid to the counties in improving the roads which are the responsibility of the fiscal court. Road machinery and equipment of the highway commission will be used, as will its engineering facilities, to improve the roads which the fiscal courts regard as most needful of improvement. This aid is supplemental and in no way interferes with the fiscal court's road program as now administered.

BUYS LOTS IN SUBDIVISION

Four lots in the Maple Grove sub-division, South Burlington, have been purchased by James Rice from Ed Botts. It is reported that Mr. Rice will construct some modern dwellings on the lots.

NORBEH CHAMPION

The Hebron Nerbeh Champion 4H Club held their meeting March 9th, 1936. We opened the meeting by having the secretary call the roll and read the minutes of the last meeting. The Vice-President then had each captain report from their different projects. The record books and circulars were also given out. After repeating the Club Pledge we adjourned.

Members present—45.
Leaders present—3.

Anna Mary Grant,
Club Reporter.

INTERESTING ARTICLE WRITTEN BY LOCAL BOY

The Recorder received a copy of an article published by The Courier-Journal issue of Sunday, March 1, written by Robert Hensley, Chairman of the State College Young Democratic organization. The article is one of the most forceful and intelligent that this writer has read for some time. It is entitled "Party Organization Aid."

Due to insufficient space we are forced to withhold the article for publication until the issue of March 19th.

GIVES AWAY MERCHANDISE

Fox's Shop, 526 Madison Ave., Covington, is celebrating the spring season by giving away valuable merchadise each week.

Mrs. Fox announces that she is not only offering new lines of spring dresses and hats at very low prices, but gives customers a chance to get $5.00 worth of merchadise free. Readers are requested to visit her store for free detils.

4-H MEETINGS

The 1936 4-H Club program is progressing rapidly. The second series of meetings was one of the best ever held with good attendance of both leaders and members. Many leaders have already organized their projects and members have their work started, according to H. R. Forkner, County Agent.

The dates for the third series of meetings have been set as follows:

Florence—10:15 a. m., March 24.
New Haven—1:30 p. m., March 24th.
Grant—10:30 a. m., March 25th.
Hamilton—12:30 p. m., March 25.
Petersburg—2:30 p. m., March 27
Hebron—9:20 a. m., March 30th.
Walton—12:45 p. m., March 30.
Verona—2:00 p. m., March 30th.
Burlington—1:00 p. m., March 31

Popular County Attorney Is Victim Of Paralytic Strokes

Ben H. Riley was known Throughout Boone County as an Efficient Public Official—Large crowd attended last Rites.

The funeral service of Ben H. Riley, 47, was held at the Hopeful Lutheran church, Florence, Saturday afternoon, March 7, at 1:30, in the midst of a throng of friends, relatives and brother legionaires. He died at his home near Union Wednesday, March 4, at 6:00 p. m. after having been in failing health for the past several years due to paralytic strokes.

Mr. Riley was born in Kenton County. He prepared himself in law, was admitted to the bar and began the practice of his chosen profession in Burlington with Edgar C. Riley. March 17th, 1919, he was appointed County Attorney by Judge N. E. Riddell, who gave up the position as County Attorney to serve as County Judge, hence the appointment of Mr. Riley to the office that he so faithfully served since that date, was made. He was an efficient public servant and it will not be an easy matter to select one to assume his duties as he was well versed in the law, and an outstanding citizen.

He was married to Alma Blankenbeker and to that union one child was born, Ben Al, 7, as he is familiarly called.

Funeral services were conducted by Rev. H. M. Hauter, pastor of Hopeful Lutheran church, assisted by Rev. Roy Johnson, of Big Bone Baptist church. The church service was attended by a large crowd of friends and relatives, which more than filled the seating capacity of the church. At the grave the American Legion, of which he was a faithful member, under the leadership of R. C. Eastman, had charge of the closing ceremonies. Also members of the army, with which he served, and a firing squad from Fort Thomas assisted in the final rites. The presentation of the American flag to the son was most impressive. Ben Al Riley accepted the flag with tears in his eyes but like a gallant hero carried it to his mother.

Taps, after a performance by the firing squad, was very pathetic. It was the last rites for mortal man to perform for one "Buddy" who has answered the last call and is at rest with the Creator of all. Good-bye Ben—but not forgotten—we hope to meet across the river from which no traveler returns.

The active pall-bearers were: John L. Vest, Walton; Ward Yager, Warsaw; A. B. Renaker, Burlington; N. E. Riddell, Burlington; Leslie Barlow, Union, and Arch Rouse, Union. All county officials were honorary pall-bearers. The court house and all offices, Peoples Deposit Bank, Burlington, Union Deposit Bank, Union, were closed at noon Saturday, March 7th, in respect of Mr. Riley. County Judge N. E. Riddell, ordered that the county offices close at noon and the flags be placed at half mast.

Ben Riley will be remembered, by those who knew and were in contact with him as a man well versed in law and at all times his best efforts were exerted for the benefit of Boone County. His home life was ideal and the Recorder extends to his wife, son and mother our sympathy, which we realize in no wise will repay for the loss of a husband and father.

A successor will have to accept the responsibilities of the deceased in this public office and who ever he may be we sincerely hope that he will to his best efforts serve the people of our county as has the decendent.

BOONE MAN NEW DIRECTOR

OF PRODUCERS COOPERATIVE LIVESTOCK COMMISSION ASSOCIATION.

John C. Bedinger, prominent farmer of Walton was elected director of Producers Cooperative Livestock Commission Association of Cincinnati at the Annual meeting held at Hotel Netherland Plaza last Thursday, March 4th.

Mr. Bedinger will represent Northern Kentucky counties consisting of Boone, Kenton, Campbell, Pendleton, Bracken, Grant, Owen, Gallatin and all counties east. Boone county, the past year was the second highest county in Kentucky in numbers of head of stock sold through the Producers Association.

McBEE TO OPERATE SERVICE STATION

The Boone County Service Station, which was opened during the first week in February has recently been taken over by Les McBee, of Burlington. Many car owners in this community have found the new station to be a great convenience.

4-H LEADERS' MEETING

Boone County 4-H Sewing and Canning Project leaders will hold an all-day conference at Burlington, Thursday, March 26th.

Miss Edith Lacy, Field Agent in Home Economics will meet with the leaders. Plans and methods in 4-H Club work for 1936 will be discussed.

W. M. U. PRAYER SERVICE

The Union Baptist W. M. U. met at the church last Wednesday, March 4th, and observed their day of prayer for Home Missions and Anna Armstrong Program. Mrs. Hedges opened our program with a word of welcome to all. Mrs. Holden from Florence W. M. U. brought us our morning of devotion which was very inspiring. Ten members and five visitors were present, each member taking part on the program. Mrs. Butler gave us several harp solos.

In the afternoon Maggie Baker, colored, gave a very beautiful message taking the verse John 12:32 as her subject, she also told us of the origin of the colored race and what the white people had done toward christianizing them. For this she said they were very thankful.

Our program was dismissed by our president, Mrs. Hedges.

Mrs. Ray K. Newman,
Pub. Chairman.

CHARLES A. KING

Charles A. King, aged 70 years, passed away Thursday night at the home of his son, Nick King, Dixie Highway, Erlanger, after a short illness with heart trouble. The remains were removed to the Taliaferro Funeral Home for preparation. He is survived by two daughters, Miss Pauline King and Mrs. Jos. Teipen, both of Indianapolis, Ind., and two sons Nick and Louis King, both of Erlanger.

The remains were forwarded Saturday morning to his old home in Indianapolis, Ind., where funeral services will be held Monday morning at 9:00 a. m. in St. Roch Church, interment to take place in that city.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

CLEAN UP CAMPAIGN URGED

Members of Homemakers Clubs in Boone county are making plans to have "clean-up" campaigns in their local communities. Many yards and lawns can be greatly improved by removing trash, dead rose vines and hedge and then white washing surrounding buildings. The women want Boone to be noted for its neat and attractive yards.

Mr. N. R. Elliott of the Extension Department, College of Agriculture says that roses should be pruned to 3 or 4 inches from the ground, and hedge rows pruned to 2 or 3 inches from the earth before the 20th of March.

BLUE RIBBON 4-H CLUB

The Burlington Blue Ribbon 4-H Club held their monthly meeting at the local school house Monday, March 9, with Miss Betsy Eddins, V-pres., in charge. Interesting talks were given by H. R. Forkner, County Agent, and Mrs. Vernon Pope, community club leader.

Record books and circulars were distributed to the members in order that they might get an early start in keeping an efficient record. A number of new members were taken into the club.

Ruby Cotton, Reporter.

Much to our regret quite a bit of our correspondence have been omited this week. Published next week

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1868

Editorial of the Week

THE TVA DECISION

The Supreme Court's recent decision respecting one phase of the Tennessee Valley Authority's activities has been rather widely misunderstood because of an impression given by early press dispatches to the effect that the entire TVA Act and the operations conducted under it had been declared constitutional by the court.

Such, however, was by no means the case, the only matter decided being the affirmation of the TVA's right to purchase a relatively insignificant amount of electrical property from the Alabama Power Company in pursuance of a contract made a little more than two years ago.

The court, in its opinion handed down by Chief Justice Hughes, clearly emphasized the following facts:

No ruling was made on the constitutionality of the TVA Act; nor on the disposition of power generated at any government dam except Wilson Dam at Muscle Shoals; nor on the TVA's right to acquire or operate municipal distribution systems.

The court did not rule on the right of the Public Works Administration to make loans or gifts to municipalities for the purpose of acquiring electrical distribution plants. This question will come before the court later, as several district Federal courts have ruled that the PWA can not much such loans or gifts, and appeals have been taken, but not yet decided.

The much-heralded Supreme Court decision, therefore, is more notable for what it did not say than for what it did say. The questions not ruled upon were not before the court, and that tribunal very properly refrained from expressing any opinion concening them.

PRODUCER AND DISTRIBUTOR PULL TOGETHER

From the Pacific Coast comes an interesting example of how up-to-date food merchandisers can operate with producers to mutual advantage.

The Safeway Stores, one of the West's largest chain grocery systems, recently inaugurated an intensive week-long campaign to stimulate demand for citrus fruits—a major industry of California. This special drive, a spokesman for the stores said, is in line with Safeway's belief that the best form of farm relief lies in waging aggressive sales campaigns on behalf of agriculture.

Previous to the citrus-selling campaign, the same system performed a similar service for apple growers, who were faced with an exceptionally large crop, that was difficult to dispose of. Safeway Stores advertised apples and featured apples, with the result that sales were far in excess of normal expectations.

It would be an excellent idea if grocery stores, in all states, chain and independent, followed similar plans. They cost the retailer little or nothing—and both he and the producer reap substantial benefits. Good display methods, plus good newspaper advertising, can attract public interest to all manner of worth-while products, and create a much larger demand than would exist if no special sales effort were employed.

The modern food producer and the modern food distributor have a great deal in common—and the interest of each can be greatly advanced by cooperation.

POLICE LAWS AND CONGRESSMEN

Congressional cars in Washington carry special tags. The reason is that Congress passed a law to this effect so that members could park where they pleased and drive as they please. Howard E. Went worth, a clever newspaper reporter is publishing a series of articles about the conduct of Congressmen under the heading "You Can't Arrest Me." That started a debate on Capitol Hill, which came to a head when Senator Borah and Senator King—Republican and Democrat, went into the matter. Borah declared that "members of Congress are subject to the same laws as ordinary citizens," and he thought they ought to be arrested if they knowingly violated traffic laws. From the Borah speech it is evident that there is about as much to this immunity of Congressmen as there is to the myth about Abraham Lincoln, George Washington and Robert E. Lee. The police are gaining public support that may compel the "immunity" lawbreakers to be as good as private citizens.

UNUSUAL ITEMS CLIPPED FROM OUR KENTUCKY EXCHANGES

EXCHANGE CLIPPINGS CAR DEALER'S NIGHTMARE

When an automobile dealer trades for a used car his troubles begin, but Ed. Hampton, salesman reached the acme of something or other in a recent deal.

After taking in a used car on a new Plymouth Ed. began to trigger around to make the most of the trade. He bartered the used car for another, repeated until he finally wound up with a fairly good used car.

Then as a climax he traded it for another used car and received as boot four shoats, a calf and $2.49 in real money—Cynthiana Democrat.

FOR MEN ONLY

One of the most popular jokes about 50 years ago was intended for men only. Hence in order to avoid offending the sensibilities of a host of ladies whose friendship we so highly value we are springing it upside down so that any woman will find it very easy to skip. Futhermore we disavow all responsibility for it and throw all the blame on whatever male concocted it about 1886:

If she had to stand on her head! now

We knew she would get at it some- tarthing

This poem she has already read— somehow.

Now we'll wager ten cents to a

But you may bet she'll find it out to know

It's something she ought not to man

If there's anything worries a woman

—News Democrat

Morning Worship at 11 a. m. Sermon, "Prayer."

Evening Worship 7:30 p. m. Serman, "Lions Den."

Pre-Easter Services start April 5th, close Easter.

Everybody Welcome.

OBSERVANCE OF LENT

The Lenten season, which is observed by the Roman and Greek Catholic churches, as well as in some degree by the Church of England, the Protestant Episcopal church in America, and others, began on Ash Wednesday, February 16, and will continue until Easter Sunday, April 12, a period of forty days, not counting Sundays.

In the early years of the Christian era the fast of Lent was observed for varying periods, by some only one or two days and by others for a longer time, according to the writings of Ireneaus, Greek Bishop of Lyons, in the second century. Pope Leo I, in the fourth century, recommended the fast of 40 days as having apostolic authority. This period was taken to commemorate the 40 days' fast of Moses, of Elijah, and especially that of Christ.

Theoretically, at least, the faithful abstain from food on fast days until evening, worldly amusements and secular celebrations are to be avoided and marriages are held to be undesirable during Lent.

The duty of fasting is modified with respect to laboring people, children, and women under certain conditions, but increased diligence in works of charity is enjoined upon all, as well as extraordinary attention to all extraordinary attention to all religious observances, throughout this period.

In an old edition of the Recorder we found a clipping to the effect that there were two drummers in Belleview on the same day—today there is usually two awaiting you at your place of business when you arrive.

Lesson for March 15

JESUS TEACHES HIS DISCIPLES TO PRAY

LESSON TEXT—Luke 11:1-13.

GOLDEN TEXT—If we ask anything according to his will, he heareth us.—I John 5:14.

PRIMARY TOPIC—When We Pray.

JUNIOR TOPIC—Teach Us to Pray.

INTERMEDIATE AND SENIOR TOPIC—What Jesus Says About Prayer.

YOUNG PEOPLE AND ADULT TOPIC—Why Should We Pray?

Prayer is a matter which ought to be of great concern to every believer, for, "The Lord is nigh unto all them that call upon him, to all that call upon him in truth. He will fulfill the desire of them that fear him; he also will hear their cry, and will save them" (Ps. 145:18, 19). There was something about the praying of Jesus that so impressed the disciples that they requested him to teach them to pray (Luke 11:1). May everyone of us enroll at once in the school of prayer with Christ as our Teacher. In response to the disciples' request, Jesus set forth the following principles of prayer.

I. The Right Relationship of the One Praying (v. 2).

1. Filial—"Father." The suppliant in prayer must be a child of God. God's gifts and blessings are for his children. This relationship can only be entered into through regeneration. Not all men have a right to say, "Our Father," when addressing God. Only those who are children of God by faith in Jesus Christ can so address him.

2. Fraternal—"Our Father." God has many children. His children are bound up together in nature and interests. Even in our secret prayer we should address him as "Our Father," which is a recognition of the interest of others alongside of ours.

II. The Right Attitude in Prayer (v. 2).

1. Reverent adoration—"Hallowed be thy name." As children we have certain rights and privileges, yet holy reverence becomes us.

2. Loyalty—"Thy kingdom come." When praying to God we should come with a spirit of loyalty which cries out, "Thy kingdom come." We should not only receive him as the Lord of our lives, but should loyally labor with him in inducing others to submit to him.

3. Submission—"Thy will be done." We should have no will of our own regarding the rule of God. We should let him direct us in all things.

III. The Right Spirit in Prayer (vv. 3-8).

1. Dependent faith—"Give us this day our daily bread" (v. 3). We should realize that not only bread, but life itself is ours to enjoy because of him and he is able to do for us "exceeding abundantly above all that we ask or think."

2. Penitence and love—"Forgive us our debts" (v. 4). We should come to him realizing that we have sinned, and cry out to him for forgiveness. Our heart should be so filled with love for others that we will forgive those who sin against us, as God has so willingly forgiven us.

3. Holiness and caution—"Lead us not into temptation" (v. 4). Because we are God's children, and realizing the depravity of our natures and the consequent tendency to practice that which displeases him, we should shrink from that which, if indulged in, would dishonor him, and earnestly cry unto him to lead us not into the place where we would likely fall.

4. Intercessory (vv. 5, 6). The man who asked for bread did not ask for himself, but for a friend. Prayer which pleases God is unselfish in its requests.

5. Perseverance (vv. 7, 8). Though the friend refused at first and offered excuses, because the one making the request would not take "No" for an answer, he arose from his bed and gave him as many as he needed. Prayer pleases God and gets results.

IV. Encouragement to Pray (vv. 9-12).

1. God's promise (vv. 9, 10). True prayer cannot fail of an answer, because God definitely promises that, "Every one that asketh receiveth; and he that seeketh findeth; and to him that knocketh it shall be opened."

2. Example of an earthly father (vv. 11-13). No father will give a stone to his son who asked for bread, nor a serpent instead of a fish, nor a scorpion instead of an egg. God is infinitely more willing to answer the prayers of his children than earthly parents are to give good gifts to their children.

V. The True Goal of All Prayer (v. 13).

God's best gift is himself in the person of his Holy Spirit. All those who practice the principles which Jesus taught in this model prayer shall experience the blessing of the Holy Spirit.

An Inner Life

A man who has no inner life is the slave of his surroundings, as the barometer is the obedient servant of the air at rest, and the weathercock the humble servant of the air in motion.—H. F. Amiel.

Mercy

As freely as the firmament embraces the world, or the sun pours forth impartially his beams, so mercy must encircle both friend and foe.—Schiller.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF MARCH 18, 1926

HEADLINES: Orie S. Ware, of Covington Is Candidate For Congress....Another Term In Congress Is Declined by A. B. Rouse ....Miss Aleen Chambers and Mr. Reuben Conner are Quietly Married at Walton.....

Robert Clore sold one day last week a fine registered cow and heifer calf to W. L. Bradley, of Oxford, Ohio, for a fancy price. The cow was a State Fair Winner. Mr. Clore believes in keeping registered stock and sells them for fancy prices.

GOLDEN ROD IS THE STATE FLOWER

The House passed to the Senate a resolution of Senator Hamilton, Lexington, making the golden rod the Kentucky state flower.

LOCAL

Stanley Eddins, who was operated on last week at the Deaconness Hospital in Cincinnati, for appendicitis. is reported doing nicely. Mrs Eddins, who went to be with him, is reported sick.

Work on Dr. Crisler's house in the North Bend bottoms is nearly completed. It will be a modern up-to-date home in every way.

Mrs. Karl Rouse was operated on at Christ Hospital, in Cincinnati, for tumor last week. She is recovering nicely and expects to be able to return home in a short time.

LIMABURG

C. W. Rouse has been very ill the past few days.

Mrs. Ed Riggs has been on the sick list the past week.

RABBIT HASH

Wm. Hankinson was kicked on the knee by a horse Saturday, causing him much pain.

Miss Helen Clore is now an employee of the Rising Sun coat factory.

NONPARIEL PARK

Robert Lucas and family returned home from a few months' stay in St. Petersburg. Fla.

Miss Stella Carpenter, of Cincinati, was called here Tuesday night by the death of her mother, Mrs. Butler Carpenter, of Price pike.

VERONA

John E. Goodpaster has taken over the store of Mr. Griffin.

Rev. DeMoisey, of Walton, filled his appointment at New Bethel Baptist Church here last Sunday.

HEBRON

Harry Hicks, of Covington, was the week end guest of Mr. and Mrs. Stanley Graves.

Friday afternoon we had a spelling match between the high school and 7th and 8th grades. Miss Carrie Williams, senior, won first prize.

IDLEWILD

H. H. Grant was called home from Louisville Thursday on account of the illness of his brother, Doctor James Madison Grant.

JEST A-WHITTLIN' AN' A-THINKIN'

By Pete Gettys

A State Farmer Section Feature

Let the subject of bees come up and some feller will purty near always speak up and say: "My old Grandfather, Zeke Daniels,"—or maybe 'twas his uncle—"could jest go 'round bees and hive 'em and handle 'em and do anything he wanted and never get a single sting—but a bee'll fly a mile to sting me."

But there ain't a bit of truth in that. Some fellers, of course, are handier with bees than others—even if he is perfect with them and obeys all their rules, there will always be one or two bad humored fussy ones in the hive dead set on stinging some one even if they have to go out of their way to do it.

And any feller who has lived in the country, or even in the mountains, knows of somebody in the neighborhood who you can jest turn loose anywhere or start him out anywhere and he can go right straight to where he wants to—jest can't lose him—seems to have some sot of "sense of direction." But like the bees not stinging Old Grandpap, there ain't a word of truth in it.

Tests were tried on Canadian woodsmen who had great reputations for getting about in the big forests and never getting lost. A spot half a mile away was pointed out—the woodsman was blindfolded and started toward it. In less than 200 feet he was traveling in circles. When he arrived at what he figured was his objective, he was about as far away from it as when he started.

Science has proved conclusively people have no "sense of direction" and travel in circles when lost or blindfolded. The boys used to have a saying that he has "wheels in his head."

Maybe there's more truth than slang in that old expression, for it's certain most folks think in circles—for a few can take up a thought and follow it through to the end; a few minutes steady thinkin' and his mind is going round and round.

But what about animals and birds? Who doesn't know of a cow or a mule or any old hound who hasn't come home from miles and miles away. And homing pigeans travel hundreds of miles over unknown courses—and migrating birds. What is it—an instinct—or sense of direction—or what? If these things were blindfolded could they find their way?

—o—

What's a young feller going to decide on to make a living for himself and future family? Ask a dentist if his is a good calling for a young feller—er doctor, er a banker, er a lawyer. Without fail will come a negative answer. "Law, Son, no. The woods are full of dentists, doctor and lawyers—half of 'em starving to death. And so many "No's" will come from the various professions the young feller will decide there jest ain't no need or place on earth for him.

FLORENCE

The Ladies Auxiliary of Florence Christian church expect to have a Bakery Sale at Mr. "Check" Tanner's on Saturday, April 11th. We will be glad to see all our Florence friends. Pub. Chmn.

Mr. and Mrs. Perry Allen entertained his cousins Mr. Harry Smith and brother Carl, of Hendersonville, N. C., Tuesday.

A large number from here attended the funeral of Ben Riley, Saturday.

The Missionary Society of the Florence M. E. church met with Mrs. McKibben March 4th, 1:30 p. m. A large crowd attended. Had a business session followed by a devotional program which was very interestingly discussed by several members. Was dismissed with prayer to meet in April with Mrs. John L. Jones. The Ladies Aid will also meet on this date.

The M. E. Bakery Sale will be held Saturday 28th, as usual.

Many here regret to hear of the death of Harvey Brown, who formerly lived with Mr. and Mrs. John Brown. He was killed while driving a truck which was hit by a passing car. He was making his home in Detroit, Michigan. He leaves his wife and a six week's old baby, besides relatives and a host of friends here.

Evelyn Aylor remains ill at her home on Burlington pike. We wish her a speedy recovery.

About forty friends gathered Thursday night with lots of good eats to surprise Mr. and Mrs. Nelson Markeberry, who have moved back to our community, in their house on Youell St. We are glad they are back.

NEW LOCATION

We are now at No. 429 Madison Ave., Covington—Ready to serve you—FARMS — HOMES — —IN-SURANCE.

CLAY BLACBURN

NEW HAVEN BOOSTERS 4-H CLUB

The New Haven Boosters 4-H Club held its second in the series of 1936 meetings Tuesday, March 3rd. A majority of members were present and a number of new members were enrolled.

All members received their project outlines and record books at this meeting. Most of the various project groups are ready to start work immediately.

From all indications the cooperative spirit shown by leaders and members alike, this year promises to be a most successful one in 4-H Club work.

Lucian M. Bradford, Reporter

TRUE BLUE 4-H CLUB MEETS

True Blue 4-H Club held their second meeting of the year. Roll was called and twenty-one members were present. There were six new members. Reports were given, but not very many had started their work yet.

Juanita Ryle was elected Sargent-at-Arms. Margie Berkshire was elected cheer leader. Alpha Lee Rogers was elected Assistant Cheer Leader. Mrs. Edith Caudill was the only adult leader present.

The date of the next meeting was set for Wednesday, March 25, at 10:30 A. M.

Florence Newman, Club Reporter

OTIS F. BIDDLE

TO THOSE INTERESTED IN THE TOWNSEND PLAN

I have some splendid news for you and the people everywhere in reach of the Boone County Court House at Burlington, March 14th. at 7:30 p. m. The opportunity came our way in the person of Judge Harvey H. Smith, one of the best posted jurors in Constitutional law or any other law in these days. He will explain in his own way the various matters which interest thousands today.

This meeting is to be held in the interest of the Townsend Old Age Revolving Pension Plan, and Mr. Henry Jackson the Manager of Northern Kentucky will be in charge of the meeting, have literature, books and all necessary literature for organizing a club in the community.

People are seeking facts on this subject by millions, and the more that they learn of this great possibility the better. It is for the good of all ages, not the elderly alone. Judge Smith is a wonder on the subject and will be the principal speaker of the evening. Mr. Jackson will also have words of encouragement.

Everybody should attend this meeting; business people in all branches and the lady of the house as well as the help. There is no charge for admission, your presence is most welcome. Extend the invitation.

—HENRY JACKSON, Organizer.

Mr. and Mrs. Raymond Goodridge and son were visiting Mr. and Mrs. William Carpenter, Monday.

Weaver and Easton, local painters, are painting the Boone County Service Station, which is being operated by Les McBee.

Mr. and Mrs. Lloyd Barker, of Cincinnati, Mr. Maberley and charming lady escort, of Ludlow, spent Sunday evening with Mr. Barker's grandfather, Mr. Thomas Adams.

Mr. and Mrs. L. T. Utz and family, of Florence, were visiting Miss Nell Martin and mother and Miss Pink Cowen, one evening last week.

KOTOFOM

A NEW WAY TO CLEAN

Never have you seen things cleaned so quickly and easily as with KOTOFOM. No duplicate for this new scientific discovery. It cleans, sanitizes and renews clothing; rugs; carpets; upholstery; drapes; ties; hats; gloves—even walls, floors, tile; glassware! Wonderful for auto interiors and exteriors; too.

Use only 1 part KOTOFOM and *16 parts water*. Tremendously economical. Squeeze a sponge and see the millions of snow-white bubbles that instantly eradicate dirt; grease; grime — ink, tar; gum; stains. Kills moths. No scrubbing. Soothes hands. Really amazing!

Try KOTOFOM today. Manufactured by Kotofom Corporation of America, South Bend, Indiana.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00

In order to avoid mistakes in getting the genuine LION CROSS HERB TEA please fill out the attached coupon.

CITY ..... STATE .....

what Irvin S. Cobb thinks about:

Making Money in "Stir"

BEVERLY HILLS, CALIF.—Things certainly are lovely for the boys in the big stone bide-a-wee homes, is it not so?

At San Quentin here in California, chosen groups turning out counterfeit money and never having to worry about getting in jail, since they are already in. And a nice jolly strike on at Alcatraz. And in my old home state, the inmates just seeming to come and go at will, as it were.

Irvin S. Cobb

But in Illinois is where the chaps enjoy all the benefits of congenial society without the bother of paying dues. It must be grand, serving as a member of the house committee of the Joliet Indoor Country club, what with crap games and poker parties and liquor made right there on the premises and shots in the arm at the low rate of one dollar per shot.

The day is at hand when "prison break" in the headlines won't mean that some of the fellows on the inside are trying to get out but that some of the fellows on the outside are trying to get in; and who could blame them?

* * *

The Yellow Peril's Peril

AT THIS moment the question before the house is whether it is more perilous to be a statesman in Japan and give offense to the soldiers or a soldier in America and give offense to the statesmen?

Howsomever, at the risk of being penalized for punning, this innocent bystander ventures the prediction that amongst us there won't be any more of these summary removals for the Hagood of the service, as it were.

Because when something happens off or on a military post to make Tom Blanton, the blood-sweating behemoth of Texas Democracy, line up with a lot of Republicans—well, I never thought I'd live to see the day. I don't believe Uncle Tom did, either. I'll bet nobody is more surprised than he is.

* * *

Abolishing Potlatches

AT LAST accounts, the Canadian parliament had a bill before it to abolish potlatches. When an Indian gets prosperous, he gives a party, with free food and drink for all, and whatever he has left over he bestows upon the guests and so winds up beggared but happy. That's a potlatch. Although at present confined to the Indians, it's not their own idea. They borrowed it from some of the early settlers. It's an old Scotch custom.

Tracing the genesis of traditional things is interesting. I thought the famous motto of the Northwest Mounted police had originated within the force until once when I tackled some native smoking tobacco at a trading post in upper Ontario. As soon as I recovered consciousness I knew whence came the slogan, "Always Gets Its Man!" That was years ago, but I still have dizzy spells in humid weather.

Speaking of borrowing or rather of trading, we could make a profitable deal—from our standpoint—by swapping Canada a great gross of parole boards and overly sentimental governors and judges who put technicalities before common sense and common justice for about half a dozen of their trial courts and one or two square-jawed prison wardens.

* * *

'Tis Holdout Time

IT IS the gladsome season when last year's stars swear they'll never put on uniforms again unless they get better contracts; while the managers just as loudly declare the boys will accept what's offered or stay out of the game forevermore. Through anxious weeks each group proclaims that, from the position thus taken, it will never, never abate one jot or tittle.

But when the first robin starts north and the last training squad starts south, something always happens. One side decides to abate quite a few of the jots. And the other side says, "Oh shuckins, after all, what's a tittle more or less between friends?"

So this spring's hold-outs become this fall's pennant-winners, or otherwise as the case may be, and frequently is. And behind the scenes, everything in either championship team will be just as peaceful as a cage full of panthers until this time next year.

* * *

Which Is the Leisure Class?

WHEN Mr. J. Pierpont Morgan said any American family that kept a maid belonged to the leisure class, he touched a responsive chord in the bosom of this household, only he got the proposition mixed as it applied to our little home-nest.

'Twas a maid we had for a short spell who really qualified. Possibly we didn't give satisfaction. Anyhow, one evening she took umbrage and some guest towels and a ham and one thing and another and silently stole away. But looking back, I can't recall anybody else who could be so leisurely and so classy, both at once.

We are wondering now what class we belong to on the present maid's night out. Probably Mr. Morgan isn't worried in that regard. He could ask the second man to stick around. We haven't a second man, though—haven't even worked up to the first one yet.

IRVIN S. COBB.

MRS. RHODA ACRA

Mrs. Rhoda Acra was born Jan. 20, 1894, departed this life Feb. 26, 1936, age 87 years and 27 days.

At an early age she was united in marriage to Fayette Smith. To this union were born two sons Seburn Terrell and Arthur Fayette, who with the father, preceded her in death. She was united in marriage to Albert E. Acra, April 29. 1885. To this union was born one daughter, Mrs. Ira Kittle.

She leaves her husband, one daughter, one step-daughter, Mrs. Artie Kittle and thirteen grandchildren.

When quite young she gave herself to Christ and united with the Baptist Church in the old school house on Woolper Creek. Taking her membership to Burlington, she has remained a faithful member always; faithful in all duties assigned her. No sacrifice too great for her to make; no night too stormy or dark to minister to the needs of the sick.

Funeral services were held by Rev. J. W. Campbell at the Bullittsburg Baptist Church at 11 a. m. February 28th.

Grandma, we sadly miss thee,
But thy time on earth was done,
And the Lord wished for thee,
So He softly bid thee come.
Your time came for rest,
After toiling on earth so long.
You have gone home to be blessed
And listen to the angel's song;
God thought it best to take thee
Although you're sadly missed,
We hope some day to greet you
In that land of heavenly bliss.

Her Granddaughter

Quite a number from Burlington attended the funeral of Ben Riley at Hopeful, Saturday afternoon.

HAVE YOUR EYES EXAMINED

Do not delay having your eyes examined if, when you read, words are not clear, or seem to run together, or your eyes smart, itch, or feel weak. Straining your eyes is a useless and dangerous thing to do.

Come to us for a thoroughly dependable examination and glasses that will give you complete satisfaction.

1913 OWNER GETS NEW CHEVROLET

Hiram H. Dohner, 70, of Quentin, Lebanon County, Pa., was found to be the owner of the oldest Chevrolet licensed and in daily used in the United States in a contest conducted by Chevrolet Motor Company recently. Mr. Dohner will be presented the one millionth car built in 1935, a 1936 model.

Mr. Dohner owns and drives Chevrolet No. 470, a 1913 Royal Mail roadster, which he purchased from a Chevrolet dealer in Lebanon, Pa. He has already received official notification from Chevrolet officials, and will shortly drive his 22-year old car to Detroit, where he will inspect Chevrolet factories and take delivery of his new 1936 model.

KENTUCKY 4-H BOY YOUNGEST CHAMPION

The youngest 4-H Holstein boy ever to be selected as a state champion in the United States is 11-year-old John Elmer Kalmey of Valley Station in Jefferson county, Kentucky. He is designated as the Kentucky state champion 4-H Holstein boy for 1935 by the Holstein-Friesian Association of America. While John has only been old enough to be a member of the 4H club for two years, his work with registered Holsteins really began when he selected a calf for his own when he was 4 years old. This calf soon became a cow and with her offspring became John's 4-H club project in 1934. In the two years his Holsteins have won $114 in prize money which included six blue ribbons, five seconds, three thirds, one fourth, two fifths and a sixth. Last year John served his local club as secretary.

NATIONAL HONORS FOR J. M. FELTNER

J. M. Feltner, London, Ky., assistant State Agent in 4-H Club work for the University of Kentucky College of Agriculture, has been selected as one of three persons in the Central States to receive national honors for services to agriculture. The honors were bestowed by the Epsilon Sigma Phi, national honorary fraternity of agricultural extension workers.

Mr. Feltner began agricultural extension work in 1910, when he established, as a cooperative project for the Sue Bennett School at London and the College of Agriculture of the University of Kentucky the first soil experiment field in the state. For 18 years he has been actively engaged in 4-H Club work in Eastern Kentucky, and now supervises the activities of more than 10,000 boys and girls.

TEST SEED CORN

Tests made at the Agricultural Experiment Station at Lexington point to the need of testing seed corn this spring. Samples received from a large number of counties showed much poor germinating corn. While many samples of corn grew well, others sprouted poorly, there being much variation in the way the corn germinated. As a result of these tests, the Experiment Station is advising careful selection of seed corn and if possible a complete germination test.

J. D. McNeely, of Grant, was a business caller in Burlington, Monday.

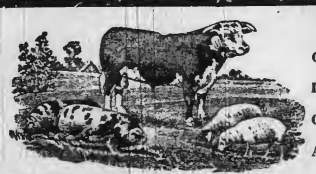
Cover the old walls

End Painting Expense



HOW frame houses are improved when covered with Careystone Siding! Instead of weather-worn surfaces which require frequent painting, we see attractive walls which will never need any such protection. And the extra thickness added to the walls by Careystone will make the house cooler in summer and warmer in winter.

Modernizing a house with Careystone is an investment, not an expense—an investment which repays its cost many times in paint savings, comfort and improved appearance. Let us give you a free estimate.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 60 — BURLINGTON, KENTUCKY THURSDAY, MARCH 19TH, 1936 — NUMBER 47

COUNTY SCHOOL ATTENDANCE

FOR FEBRUARY GOOD DESPITE EXTREME COLD WEATHER REPORTS FROM SUPT. OFFICE SHOW.

In spite of the cold weather of the first two weeks of February some of the schools of the County were able to keep their attendance to 90 per cent and above. Others had good attendance but because of sickness or some other unavoidable reason fell below their usually good record. Next month you will read many more grades with 90 per cent attendance.

Taylorsport—Ruth Allen, 94 per cent; Constance—R. V. Lents 99; Rachel Pottinger, 91.

Petersburg — Lucille Bradburn 95; Geo. Cook 94; Laura Mae Matthews 92.

Burlington—J. F. Moore 91.

Hebron—Laura Katherine Evans 90; Mary Bess Cropper, 93; Edwin Walton, 93; C. V. Lucy, 96.

Florence—Eunie Pettit 92; Frances Rennackar, 96; Olive Vice, 92; F. D. Caton, 92.

New Haven—James R. Allen, 90; Jane Bristow, 92; Rebecca Sleet, 94.

Hamilton—J. R. Huey, 90; R. Z. Asbury, 92.

Good attendance is essential to successful work in school. If schools are to educate a child we must see that he not only enrolls in school but also that he attends school regularly. Records show that a child who is irregular in his attendance at school is frequently not promoted at the close of school. This is a loss of many years of time to the child.

PETERSBURG HOMEMAKERS CLUB

The Petersburg Homemakers met at the school house March 12th for their second meeting with Mrs. J. H. Huey in charge.

Four new members joined the club making 14 names enrolled.

Miss Edna Berkshire as leader, gave a very interesting lesson on "The Personality of the Home."

Miss Gillaspie was with us and gave a very helpful talk on "The Lawn."

Next regular meeting will be on April 9th at the home of Mrs. J. H. Huey.

BUILD BRICK BROODER

Mrs. Cad Sullivan of near Burlington recently constructed a new poultry brooder house with a brick brooder. Many Boone county poultrymen have constructed both the Brick brooders and the Double Barrell brooders recommended by the College of Agriculture. The chief advantage of these type brooders is low cost, use home grown fuel and do a satisfactory job of heating.

Plans for the brick and double barrell brooders are available at the County Agent's office.

Boone County poultrymen as a whole are doing a much more successful job of poultry raising. The reason for this improvement is better equipment and the clean chick brooding program.

HEBRON HOME MAKERS

A temporary Home Makers Club was organized at the Hebron school last Wednesday afternoon, March 11th, with twelve ladies present.

The following officers were selected to serve: Chairman, Mrs. Parker Hollis; vice-chairman, Mrs. Bertha Conrad; Secretary, Mrs. Edgar Graves. Miss Mary H. Gillaspie, Asst., Home Demonstration Agent, of Kenton county, talked on Walls, Paper, Draperies and Exterior beautifications. We hope that all ladies residing in the Hebron community interested in improving their home will be present at our next meeting April 8th, Wednesday, at 1:30 P. M. (E. S. T).

D. C. Benson and two sons, Charles and "Socks," Donald L. Kirkpatrick, Ralph Maurer and William Jarrell were among the local basketball fans that witnessed the downfall of Boone County's entrants in the Regional turney, at Newport, Friday afternoon.

Mrs. John Botts and Mrs. Geo. Porter were calling on friends in Petersburg, Tuesday.

I. M. Tanner, of near Florence, was a business caller in Burlington, Wednesday.

Mr. John Rogers and son, Russell, of Grant, were business visitors in Burlington, Wednesday.

STORE TO OBSERVE ITS 39TH BIRTHDAY

George C. Goode's Grocery, 23 Pike street, Covington, will celebrate its 39th birthday beginning Saturday, it was anounced today.

Beginning in 1897 in a small store on Pike street. Goode has grown steadily. Last year the owners moved into the present modern food store.

Mr. Goode said today the store is planning the biggest food sale in its history to celebrate the event. This sale opened last Saturday and will continue until March 21st.

BI-COUNTY CO-OP REPORTS GOOD YEAR

The Boone-Kenton Bi-County Farm Bureau Cooperative Association at the Annual Meeting held at Woodwards Garage at Devon Saturday, March 14th reported a successful year for 1935. The association had purchased a total of $44,141.26 worth of farm equipment needs for its members and had a net profit of $3,103.20 above all expenses. The services for 1936 are to be enlarged for the members.

The following officers were elected for 1936: John Shumaker, Kenton county, President; O. R. Russ, Vice President, Hayden Ware, Kenton county, Secretary-Treas., C. L. Hempfling and John Shumaker were elected directors for a three year term.

Mrs. T. J. Stevenson

Mrs. Thomas J. Stevenson, passed passed away Wednesday afternoon at her home on Stevenson Road, Erlanger, Ky., after a long illness. The remains were removed to the Taliaferro Funeral Home for preparation. She was Past President of the Covington Art Club, and was one of those responsible for the origin and promotion of the Erlanger Library, now a branch of the Covington Library and served as Libririan for many years. She was a charter member of the Erlanger Woman's Club, and for many years had been a member of the Fourth Street Presbyterian church of Covington. She is survived by one daughter, Mrs. Mayo Taylor, four grandchildren and two sisters, Mrs. Wm. H. Wood, Charlottsville, Va., and Mrs. Hunter Dickson, White Sulphur Springs, Va., besides a host of other friends and relatives.

The honorary pall-bearers were Wm. Corry, H. C. Buckner, H. B. Mackoy, O. M. Rogers, Edward Hawkins and Dr. C. R. Slater and the active pall-bearers were Robert Squair, Henry Childress, Russell Victor and Lyttleton Taylor.

ROUSE BUYS STORE

Wilford Rouse, Burlington, purchased the corner store, formerly known as Blythe's store, from Edgar Maurer, who recently succeeded Mr. Blythe as proprietor. Mr. Rouse has a complete line of new stock in groceries, vegetables and hardware following last week's clearance sale. He also plans to continue his lunchroom and pool parlor.

FLORENCE W. M. U.

The Ladies Aid and the W. M. U. were delightfully entertained at the lovely home of Mrs. Cecil Fraim on March 12th. There was a large crowd present. An interesting program was led by Mrs. Sarah Blackwell. She represented parts by pantomines and it was very effective. The next circle meeting will be at the home of Mrs. Eliza Crisler on April 2nd at 2 o'clock. The W. M. U. will be entertained all day by Mrs. Emma Rouse. The president, Mrs. DeMoisey, was presented with a beautiful hand bag in appreciation of her recent election as Superintendent of the W. M. U. of North Bend Association.

MRS. ALICE JANE STEPHENS

Word was received here of the death of Mrs. Alice Jane Stephens on March 13. Mrs. Stephens was the wife of R. J. Stephens, known thru-out Boone County as "Dick." She and Mr. Stephens have been residing at Huntington, Missouri.

CARD OF THANKS

We wish to express our heartfelt appreciation to the neighbors and friends for their assistance, and sympathy, during the illness and death of our sister and aunt, Mrs. Mollie E. Rouse. Also we thank Rev. H. M. Hauter and Mr. Philip Taliaferro for their kindly efficient service.

The Family.

INITIAL WORK ON NEW CHURCH

IS BEING DONATED BY MEMBERS — GROUND BREAKING CEREMONIES TO BE HELD SATURDAY, MARCH 21st.

Ground breaking ceremonies are to be held for the proposed new Methodist Church at Florence. Ky. at 4 p. m. (fast time) on Saturday, March 21. A fish and oyster fry will follow immediately at 5 p. m. on the same date and will be served in the Odd Fellow's Hall at Florence.

The ground breaking ceremonies will be conducted on the site of the proposed new church, which site is located on the east side of the Dixie Highway near the center of the town. Dr. M. N. Waldrip, pastor of the First M. E. Church, South, Covington, Ky. will deliver the principal address. Dr. O. B. Crockett, Presiding Elder, of Ft. Thomas Rev. G. B. Traynor, Newport, Rev. H. C. Martin, Covington, and other ministers are expected to be present and to participate in the service. Rev. R. R. Rose, pastor of the Florence Church, will preside.

The fish and oyster fry, given by the men of the church, will be served at the Odd Fellow's hall from 5:00 to 8:00 p. m. and will be only ten cents a serving.

Actual excavation is to be started Saturday, March 28th and is to be done by donated labor. When the excavation is finished the concrete foundation, and the concrete wall to the grade line, will be poured, then will follow the brick work and the remaining structure.

AAA TOBACCO ALLOTMENT CARDS

Quite a few AAA tobacco contract signers have not returned their 1935 tobacco allotment or sales card to the county office, according to John E. Crigler, Secretary of the Tobacco Association.

The Tobacco Section will probably call for these cards in the near future and your cooperation in returning these cards will assist in the work of completing the 1935 tobacco contract.

BOONE COUNTY MEDICAL SOCIETY

REORGANIZE IN MEETING HELD AT HOME OF DR. GLADYS ROUSE, TUESDAY NIGHT.

The Boone County Medical Society met at the home of Dr. Gladys Rouse, Florence, Tuesday night and reorganized.

Dr. S. B. Nunnelley was elected president, and Dr. R. E. Ryle, secretary-treasurer.

Meetings are to be held at 3:00 p. m., the second Tuesday of each month. Plans were also made for papers to be presented by visiting physicians and surgeons each month.

The members of the Boone County Medical Society are: R. E. Ryle, Walton; S. B. Nunnelley, Bullittsville; M. A. Yelton, Burlington; R. N. Lawson, Burlington; Gladys L. Rouse, Florence; H. R. Daugherty, Florence; H. R. Shallenberger, Rabbit Hash; G. R. Coe, Union, and F. E. Bedinger, Walton.

CO-ED BEAUTY PRESIDES AT ANNUAL MILITARY BALL AT UNIVERSITY OF KY.

Miss Lucy Maddox, Blakely, Ga., freshman in the College of Arts and Sciences at the University of Kentucky and a member of Chi Omega, social sorority, was chosen queen of the annual miltary ball, most colorful event of the University's social season, and presided with grace and beauty over the festivities held the latter part of February.

Miss Maddox was accorded the signal honor of pledging the Hon. Albert Benjamin Chandler, governor of Kentucky the alumnus of the University, to memoership in Scabbard and Blade, honorary military fraternity on the University campus, during the ball.

Miss Maddox is the daughter of Mr. and Mrs. S. G. Maddox, Blakely, Ga.

Stanley Easton, of Burlington, Mr. and Mrs. Oakley Easton, of Richwood, spent Sunday with their mother, Maggie Easton, of Idlewild.

LEGACY . . FOUND IN ASYLUM NMATE'S OLD RAGGED COAT

"In the pocket of an old ragged coat belonging to one of the insane patients of the Chicago poorhouse there was found after his death a will—the man had been a lawyer. So unusual was it that it was sent to an attorney; and so impressed was he with its contents, that he read it before the Chicago Bar Association and a resolution was passed ordering it probated. And it is now on the records of Cook County, Illinois. And this is the will of the old insane patient of the Chicago poorhouse:

"I, Charles Lounsberry, being of sound and disposing mind and memory, do hereby make and publish this my last will and testament in order to justify as may be, to distribute my interest in the world among succeeding men.

"That part of my interest which is known in law and recognized in the sheepbound volumes as my property, being inconsiderable and of no account, I make no disposition of this, my will. My right to live, being but a life estate, is not at my disposal, but, these things excepted, all else in the world I now proceed to devise and bequeath.

"Item: I give to good fathers and mothers, intrust for their children, all good little words of praise and encouragement, and all quaint pet names and endearment; and I charge said parents to use them justly, but generously, as the deeds of their children shall require.

"Item: I leave no children inclusively, but only for the term of their childhood, all and every flower of the field and the blossoms of the woods, with the right to play among them freely according to the custom of children, warning them at the same time against thistles and thorns. And I devise to children the banks of the brooks and the golden sands beneath the waters thereof, and the odors of the willows that dip therein, and the white clouds that float high over giant trees. And I leave the children the long, long days to be merry in, in a thousand ways, and the night and the train of the Milky Way to wonder at, but subject, nevertheless, to the rights hereinafter given to lovers.

"Item: I devise to boys, jointly, all the useful idle fields and commons where ball may be played, all pleasant waters where one may swim, all snowclad hills where one may coast, and all streams and ponds where one may fish, or where, when grim winter comes, one may skate, to hold the same for the period of their boyhood. And all meadows, with the clover blossoms and butterflies thereof; the woods with their beauty; the squirrels and the birds and the echoes and strange noises, and all distant places, which may be visited, together with the adventures there found. And I give to said boys each his own place at the fireside at night, with all pictures that may be seen in the burning wood, to enjoy without let or hindrance or without any encumberance or care.

"Item: To lovers, I devise their imaginary world, with whatever they may need, as the stars of the sky, the red roses by the wall, the bloom of the hawthorn, the sweet strains of music, and aught else they may desire to figure to each other the lastingness and beauty of their love.

"Item: To young men jointly I bequeath all the boisterous, inspiring sports of rivalry, and I give to them the disdain of weakness, and undaunted confidence in their own strength. Though they are rude, I leave to them the power to make lasting friendships and of possessing companions, and to them, exclusively, I give all merry songs and grave choruses to sing with lusty voices.

Item: And to those who are no longer children or youths, or lovers, I leave memory; and bequeath to them the volumes of poems of Burns and Shakespeare and of other poets if there be others, to the end that they may live the old days over again, freely and fully without tithe or deminution.

"Item: To the loved ones with snowy crowns, I bequeath the happiness of old age, the love and gratitude of their children until they fall asleep.—Cincinnati Times Star.

TO ORGANIZE A TENNIS CLUB

Plans are being formulated by a number of Burlington high school students and local tennis enthusiasts to organize a tennis club for the coming season. In cooperation with the school beautification project, courts are being constructed on the school campus and at present the work is under the leadership of several of the students. It has been proposed that each member of the club be assessed a small sum annually or monthly on which the club will function.

Such clubs and organizations are upbuilding to communities in that they promote competetive games and create a real athletic interest. Those who are heading this project are to be commended for their efforts to make life in small communities more wholesome.

STUNT NIGHT

In order to collect books for the library, the Sophomore Class is sponsoring a Stunt Night Program to be given Friday, March 27, at 8 p. m., at the Florence School Auditorium.

The admission is to be a good book, not necessarily new. Anyone, who has more than one book they don't want, if given to the library, would be very much appreciated.

Classes that will participate in this entertainment are the 7th and 8th grades and high school. The program promises to be very amusing.

Mrs. Mollie Rouse

Mrs. Mollie Rouse, aged seventy-five years, passed away Saturday night at her home in Florence, after a two months illness with heart trouble.

She is survived by one sister Mrs. Anna Boyce and several nieces and nephews, besides many other relatives and friends.

Funeral services were conducted at the Hopeful Lutheran church, of which she was a member on Tuesday morning at 11 o'clock, by the Rev. H. M. Hauter, pastor, after which she was laid to rest by the side of her husband, Spencer Rouse, who preceded her to the grave about five years ago.

The pall-bearers were George Rouse, Wallace Rouse, Ira Tanner, Noah Zimmerman, Albert Robbins and Perry Utz.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

TO REPUBLICANS OF BOONE COUNTY:

A mass meeting of the Republicans of Boone County will be held at the Court House in Burlington, Ky., Saturday, March 28th, at 1 p. m., for the purpose of selecting delegates to the District Convention.

GEO. W. BAKER, Chairman

APPOINTED TREASURER OF CLASS

Lexington, Ky.—Robert Hensley, Burlington, son of Thomas Hensley, has been appointed treasurer of the senior class at the University of Kentucky by Elvis Stahr, president of the class. Mr. Hensley is a student in the College of Law, and is a member of Lambda Chi social fraternity.

TELEVISION PROJECTS OF OLYMPIC GAMES

Germany is planning television broadcasts of the Olympic games, according to report just received by the Louisville District Office of the Commerce Department. A new television broadcasting station has just begun operating in Berlin under the German Ministry of Propaganda. The television station just opened consists of a picture and sound transmitter on ultra short wave, uses intermediate film, 170 lines, 25 pictures per second. Pictures are broadcast on a wave length of 6,772 meters. At experimental tests on the Brockon mountain, in the Harz, reception was clear over a range of 100 kilometers, and from this station the Olympic games will be broadcast.

NO VOTING RIGHTS

The city of Washington, with a population of 500,000, has more inhabitants than seven of the 48 states. While it is the Capital of the greatest republic in the world, its people are disfranchised and have no voice in the selection of a single official, whether local or national.

Word has been received here that Harold K. Clore, Richmond, has been quite ill the past week.

PROMINENT PART IN HOME CONCERT

TO BE TAKEN BY FORMER BURLINGTON STUDENT

James L. McNeely, son of Mr. and Mrs. C. E. McNeely, of Grant, and a former student of the local school, will take a prominent part in the annual home concert of the Men's Glee Club of Western Teachers College which will be held in Van Meter Auditorium on Friday evening, March 13, at 8:00 o'clock.

Nine concerts in Louisville and Jefferson county, at which approximately 14,000 people heard the Glee Club sing, opened the 1936 season for the Western singers. The organization is directed by Dr. D. West Richards, head of the music department, and is under the faculty managership of Kelly Thompsson, director of publicity. D. H. Mosser is president of the organization and Miss Elizabeth Taylor is pianist. James Rutan, saxaphonist, will be heard on the home program of the Club.

The home concert of the Men's Glee Club, one of the outstanding musical events of the school year, will follow two month's intensive preparation by the twenty-five members of the organization and will include part songs, folk songs, glees, madrigals, classics, spirituals, novelty numbers in special costume, and chorales.

JOHN R. EDGETT

John R. Edgett, aged 83 years, passed away Tuesday afternoon at his home 107 Erlanger Road, Erlanger, after a short illness. The remains were removed to the Taliaferro Funeral Home for preparation.

He was a retired lumberman, a member of the Erlanger Methodist church, a Knight Templer of lodge No. 111, Somerset, Ky.

He is survived by his widow, Mrs. Minna Edgett and one daughter, Miss Grace Edgett, Atlanta, Ga. The pall-bearers were H. Roberts, Blaine Fulton, Mayo Taylor, John McCollum, P. J. Carter, R. C. McNay.

A mixed quartette from the M. E. church sang two of his favorite hymns.

Funeral services, in charge of Rev. Davis, of Covington, a former pastor, assisted by Rev. King and Rev. Reid, were held Friday afternoon at 2:30 at the Taliaferro Funeral Home. Interment following in Highland cemetery.

GOODWILL 4-H CLUB

Goodwill 4-H Club met at the school house March 6th with twenty-seven members present.

Mr. Forkner gave out circulars and record books.

After a short talk by the community leader, the meeting was adjourned until March 27th. All members and leaders are requested to be present.

Raymond E. Witham, Club Rep.

Burlington Baptist W. M. U. met at the church Friday, March 6th, for an all day meeting and observed the Day of Prayer with Mrs. Alice Yelton, president presiding. Eighteen members were present and members taking part on program.

Afternoon program was in charge of Mrs. Robert Clore which was very interesting. Having 21 present and members taking part on program. All enjoyed the day, hoping to meet April 8th at church.

CLOSE CULLING PAYS

Mr. Grant Maddox, owner of a large commercial poultry flock of near Florence, believes in close culling of his laying flock during the winter months. Those birds that slow up in egg production are immediately sold for meat.

The above flock was composed of 1091 birds on November 1st and 712 birds on March 1st. During the four month period 323 birds or approximately 30 per cent were culled and sold for meat. During this four month period this flock paid a labor income above expenses of approximately $1.35 per bird and was one of the most profitable flocks in the State for this period.

Strong, healthy pullets to put in the laying house in the fall is another secret to Mr. Maddox's success. All birds are raised strictly according to the Clean Chick brooding plan. These plans may be secured at the County Agent's office on request.

Prof. Norris was a business visitor in Frankfort, Wednesday.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

THE REORGANIZATION ACT

The reorganization bill, enacted into law by the recent extraordinary session of the legislature, marks a notable advance in statecraft in Kentucky. With its enactment there is redeemed another of the campaign pledges made by Governor Chandler as he promised a "reorganization of the state government from top to bottom."

The new law provides for a compact, systematized administrative mechanism, placing in the hands of the governor every possible opportunity to prudently and efficiently direct the affairs of the state. Larger responsibilities are placed upon the governor than ever before, but at the same time he is given the authority and opportunity to meet these responsibilities.

In the words of Gov. Chandler before the state senate, the act gives him the opportunity to be a good governor and so definitely fixes responsibility that if improved government does not result there can be no doubt as to whose fault it is. Hitherto the governor has been held accountable in the eyes of the people for the type of government enjoyed but has had little power to influence the public service given by his administration. Under the new act full and complete power is vested in the chief executive.

No fear was expressed in the legislature as the measure was debated, that Governor Chandler would maladminister the increased authority delegated to him.

Occasionally a legislator expressed concern over the possibility that there might in the future be elected a governor who would abuse the power conferred in the new act. That possibility should not and did not deter the legislature from devising the best possible plan by which the state government can be operated with the maximum of efficiency and economy. The state governmental machine has been as obsolete as a Model T Ford. The newly created governmental machine is as modern as the streamlined, high-powered 1936 model motor car.

An individual who is dependent upon a chauffeur to drive his automobile certainly would not be deterred from changing from an antiquated model to a modern vehicle because of the fear that the chauffeur would drive the new car too fast or without due regard for safety. If the chauffeur should be guilty of such indiscretion he would doubtless be replaced. The same principle is applicable to the reorganization act. We have abandoned a plan under which it was not possible to secure the maximum in efficient operation. It has been replaced with a well synchronized administrative set-up, in which the cogs of the governmental mechanism mesh with those in each of the 22 departments which have replaced approximately 100 agencies of state government.

Power and responsibility are centered in the governor who is the chaffeur chosen by the people to guide the governmental car. He will be in position to direct the course to be followed, to restrain expenditures which appear unwise, steer the craft toward the highways of improved government. It is a decided step toward better government. It offers possibilities of becoming one of the most significant chapters in Kentucky history that has been written in recent decades.

Governor Chandler is anxious to demonstrate that the act promotes better administration. We anticipate that he will set such a high standard of excellence in administering the act that its efficiency will be proved and his administration become a challenge to future governors to attain the high standard attained.

WHY WOMEN BUY

It is well known by all live merchants, and by husband as well, that practicaly all buying for the home is either actually done by women or directed by them. For this reason the merchant's greatest problem is to attract the favorable attention of women to his wares.

Women are alert to grasp opportunities to secure merchandise at a bargain and they are more discriminating buyers than men, as a rule. They read advertisements and act upon the information obtained thereby.

In order to determine just what advertising mediums have the greatest influence on women's buying, a recent survey made by a Los Angeles advertising club developed some interesting facts. Replies from 1,000 women of all classes were obtained in answer to a questionnaire listing the various advertising mediums and asking what form of advertising influenced them most.

Newspapers were credited with most influence by 36% of these women,. magazine advertisements 22%, street car advertising by less than 4%, while booklets, pamphlets and circular letters influenced less than 2 per cent.

Thus again is demonstrated what every wide-awake merchant must have already observed—that newspaper advertising is the most potent medium for reaching women buyers. And this applies with equal force to men buyers, too.

UNUSUAL ITEMS CLIPPED FROM OUR KENTUCKY EXCHANGES

Washington, March 12.—President Roosevelt Wednesday cancelled a luncheon engagement with one of his Democratic Senate leaders in order to be host to his 81-year-old mother.

Roosevelt was scheduled to dine with Senator Barkley, Kentucky, but when he found that Mrs. Sara Denlano Roosevelt was coming to town for a few hours he invited Barkley to come some other day. —Kentuckian-Citizen.

BABY LEFT ON LOCAL DOORSTEP

Awakened by infant cries at about three o'clock Wednesday morning, Dr. and Mrs. Allen Donaldson discovered a baby boy had been left by some unknown party on their front porch. Arrangements are being made to send the child to an orphans' home.—News-Democrat.

EDITORIAL PARAGRAPHS

A French scientist says the year 3000 will mark the zenith of a workless age. But probably there will still be efficiency experts about.

While the public is mighty sorry to see people laid up for injuries incurred in automobile accidents, the roads are safer with the absence of some of them.

"Don't work too hard" used to be the advice given to people when you parted from them. Not usually necessary these days.

A pessimist is a man who has been listening to a mechanic explain what his car needs.

The time has gone by when a politician could get elected merely by delivering orations on America's mighty empire and the greatness of our country.

The Churches

Save LORD: le^ the king hear us when we call.

Lesson for March 22

JESUS TEACHING TRUE VALUES

LESSON TEXT—Luke 12:13-34.

GOLDEN TEXT—Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.—Matthew 6:33.

PRIMARY TOPIC—God's Good Gifts.

JUNIOR TOPIC — When Is a Man Rich?

INTERMEDIATE AND SENIOR TOPIC—What Is Most Worth Living For?

The common tendency of men is to be engrossed with the gifts of God instead of knowing him as the heavenly Father and enjoying his blessed fellowship. Man's supreme need is to know and enjoy God himself.

I. A Warning Against Covetousness (vv. 13-21).

1. The occasion (vv. 13-15). One of the company requested Jesus to be umpire in a disputed estate. Two brothers were in trouble over an inheritance. Christ refused to enter the sphere of the civil law and warned against the spirit of avarice. His mission was pre-eminently spiritual.

2. The warning enforced (vv. 16-22). This was done by the parable of the rich man. He showed most clearly that to be concerned with earthly riches while neglecting God is the highest folly. Concerning this man, note:

a. His increased goods (v. 16). His riches were rightly obtained, for the ground brought forth plentifully. A man may be rich because the Lord's blessing is upon him.

b. His perplexity (v. 17). His lands were producing more than his barns would hold. He did not want it to go to waste. No frugal man wants to see the fruits of his toil perish. If he had possessed right views of life and a sense of stewardship before God, he would have seen that his barns had enough for his personal needs, and would have distributed the surplus to the needy.

c. His fatal choice (vv. 18, 19). He chose to enlarge his barns, and give up his life to ease and luxury. It ought to be a delightful task for men whom God has made rich to devote their time and energy to the distribution of their possessions to benevolent objects.

d. The awful indictment (vv. 20, 21). God calls him a fool and this is no arbitrary judgment. Riches furnish neither contentment in life nor guarantee of the continuance of life. It is not only foolishness but madness to forget God while engaged in heaping up riches. Soon the man must die and his riches may get into the hands of unworthy men or even curse the lives of the children who inherit them.

II. The Certain Cure for Anxiety (vv. 22-34).

Having shown the folly of the rich man who gained gold and lost God, he now urged the disciples to trust God and dismiss all anxious care.

1. The argument (vv. 22, 23). This is summed up in one brief sentence: "The life is more than meat, and the body is more than raiment."

2. The illustrations (vv. 24-28).

a. God's care for the fowls (vv. 24-26). The ravens do not sow nor reap, they have neither storehouses nor barns, yet they live, for God feels them. If God does not forget the fowl, certainly he will do more for his children who have been created in his likeness and image and redeemed by the precious blood of his Son.

b. God's care for the flowers of the field (vv. 27, 28). If God is so careful of those flowers which appear but for a day, how much more will he clothe his children?

3. The exhortations (vv. 29-34).

a. The getting of food and clothes should not be man's chief concern.

b. Seek the kingdom of God (v. 31). Those who make God's kingdom first shall have all of their needs supplied (Phil. 4:19).

c. Be not afraid (v. 32). God's good pleasure is upon his own and all good things he will give them.

d. Practice self-denial in order to give gifts to those in need (vv. 33, 34).

III. Be Ready for the Coming of the Lord (vv. 35-40).

Having warned the disciples against the acquisition of worldly goods, while forgetting God, and shown them the needlessness of anxiety for food and clothes, he shows them the blessedness of being in a state of readiness when the Lord shall come. Conviction as to the certainty of the Lord's coming is a sure cure for worldliness and anxious care.

This attitude of heart he made clear by two parables; that of the return of the Lord, and that of the thief. The Lord will be so pleased with those who are waiting for him that he will take delight in sitting at the banquet with them, and he will even serve them.

Goodness Before Wealth

You are much in the wrong if you do not prefer the good qualities of the mind, before the advantages of fortune; a good man before a wealthy one; a man capable of being a faithful friend, before a rich unfaithful pretender to friendship.

Littleness of Soul

Envy is a littleness of soul, which cannot see beyond a certain point, and if it does not occupy the whole space, feels itself excluded.—Hazlitt.

TEN YEARS AGO

From the Files of The Boone County Recorder

ISSUE OF MARCH 25, 1926

Headlines—J. F. Cleek Farm is Sold at Good Price . . . D. R. Blythe Local Mason Takes Scottish Rite Work . . . Gus Foster, Dead . . . Mark Cook as Deputy County Clerk.

LOCAL

Born—To J. E. Walton and wife, Erlanger, Friday, March 19, a fine baby. Dr. Yelton attending physician, reports all doing nicely.

Hazel Popham, 34, of Burlington, and Miss Carrie McCarty, 28, of Belleview were married at the court house last Saturday by Rev. Paul G. Gillispie.

R. F. Butler, 25, of Florence, and Pauline E. Rice, of Grant, were married in Covington, Saturday, March 20th.

NONPARIEL PARK

A large crowd attended the Edward Newman sale Saturday afternoon.

About three hundred people attended the play given by the Hebron folks "Belle of Blackville" Friday evening. It was the best play ever given here and was enjoyed by all who attended.

Mrs. Nell Metzer, of Covington, spent Wednesday with her sister, Mrs. M. Yealey and family.

RABBIT HASH

Young people, when you haven't another single place to go, hunt up an ancient History dating from creation to the downfall of Rome 476, and when you have finished it will give you something to think about awhile.

BEAVER LICK

Geo. Baker broke his arm last week while cranking his truck.

Mr. and Mrs. J. O. Griffith write from Tampa, Fla., that they are planning to drive north in a few days.

CONSTANCE

We are shocked by the news of the death of Wm. Kenyon, who was a life-long resident of this community. He died Saturday, March 20, 1926 at his home here. Funeral arrangements have not been completed.

PETERSBURG

Mrs. B. J. Crisler returned home last Tuesday from an extended visit with Mr. Bernard Gaines and family of St. Petersburg, Fla.

The many friends of Dr. J. M. Grant will be sorry to know of his serious illness.

JEST A-WHITTLIN' AN' A-THINKIN'

By Pete Gettys

A State Farmer Section Feature

You read in the papers the awful cost of bad colds in this country—multiply this by all the other losses from all the other ailments, and it runs into billions and billions. Was jest a-thinkin'—suppose there were no losses from sickness—it wouldn't be all profit, think what it would cost the doctors and drug stores and medicine people.

Did you ever think what'd happen if there were no losses on the farm—every litter of pigs a full one—every calf, every colt, every egg hatched and every chick raised, no crop failures, no erosion, no insect and disease losses? Well that wouldn't work—be about like the statement if fish weren't cannibals the sea'd be so full of fishes the big boats couldn't get through.

Was a 'readin' a speech a feller made the other day up in Wisconsin, "Why I want my boy to be a farmer," and there's lots of good sense in it!

"I want our boy to be a farmer and live in what the Germans call an 'erbnaf,' or hereditary home, to which his sisters can return in times of depression, should they marry city men, because:"

"1. The farmer has more and better food to eat than most city people. In times of depression he is more certain of a livelihood—if he hasn't mortgaged the farm."

"2. The farmer has better health than city men and lives about 5 years longer, according to recent study of an insurance company."

"3. The farmer accumulates more property—becomes a wealthier man than the average city person. Millions of city people have almost no property at all—except an automobile. Wealth in the cities is probably four or five times more concentrated than in the rural territory."

"4. The farmer is more likely to enjoy his work than most city people. Most city work is monotonous—tending a machine in a factory, operating a typewriter, standing behind a counter in a retail store hour after hour—"

"5. The farmer is more likely to rear a family and do his part to promote the welfare of the nation and the race. The family is becoming smaller and weaker in the cities. Only two-thirds enough children are now being born in our large cities to maintain their population premanently. Conditions of living and the philosophy of life in the cities tend toward extinction. The rural philosophy of life, with its recognition of the family as the fundamental economic as well as social institution, tends toward survival."

But the trick in that is for the young fellow to inherit the farm.

HIGH PRAISE FOR THE PRESIDENT FROM CALIFORNIA'S GOVERNOR

President Roosevelt was accorded the highest possible praise by Gov. Frank F. Merriam, Republican governor of California," according to an Associated Press dispatch from Sacramento. He was quoted as saying the President "was raised up by Almighty God to meet the country's present crisis." And in an address of the same date, February 18:

"History will show that Providence raised the proper man to meet present emergencies and will demonstrate, I think, that the man who now holds the Presidency was just the one to meet the emergency."

Now!

Weekly Rates

at

DILLSBORO

Afford Further Reductions

Effective immediately, weekly rates affording real savings, prevail at Dillsboro. Now you can have a room, three wonderful meals a day, and all the Dillsboro facilities available, for as little as $25 to $35 a week! Think of it—never before have such rates been possible! Decide now to send in your reservation for a week or two at this famous health resort. You'll feel like a new person after taking the Dillsboro mineral baths, and drinking the beautiful White Crane mineral and laxative waters. Drive down Sunday for the dollar chicken dinner, and you can make your arrangements in person.

Mr. and Mrs. Wm. Aylor and Mr. and Mrs. Harry Shinkle visited Mr. and Mrs. Bolivar Shinkle, last Sunday, being Mr. Shinkle's birthday.

Mr. and Mrs. Robt. Aylor spent Sunday with her mother, Mrs. Emma Stephens.

AFTER A CENTURY OF BASEBALL

Baseball, as we know it, is nearly 100 years old. History tells us that the national pastime was originated by the late General Abner Doubleday, then a West Point cadet, at Coopersown, N. Y., in 1839. Today, there are 16 major league clubs, some 150 in the minor leagues, and literally thousands of amateur teams throughout the country. Development of the game to its present high standards is truly remarkable, for like Topsy, "it just growed." It has never been taught in our schools and colleges to the extent that have other sports. There are some text books on the subject, but it is generally conceded that most of them are rather poor. It remained for an American League unmpire, a man to whom baseball is life itself, to produce a remedy for the situation. Believing the adaptability of the game to the spectator, its speed and infinite variety, its cleanliness as a wholesome diversion that sharpens wits and builds stronger bodies entitles baseball to even a more prominent position in the world of sport, George Moriarity, whose career as a player, manager and umpire dates back to 1904, conceived the idea of a motion picture that would record the scientific aspects of the game. He succeeded in interesting not only the officials of his league but those of a large industrial concern known to have a genuine interest in the youth of American through its sponsorship of other activities of an educational nature. As a consequence, "Take Me Out to the Ball Game," the official motion picture of the American League, is now making its appearance. Aptly described as an "animated text book," the new sound film illustrates the fundamentals ofbatting, pitching, catching, fielding and base running, as well as giving the spectator an insight into the difficult job of umpiring a game. Practically all the American League stars appear in the picture, demonstrating their skill and telling in their own words how they play their positions for the benefit of young players who would emulate them. Such well known characters as Connie Mack, manager of the Philadelphia Athletics and Judge Kenesaw Mountain Landis, "czar" of baseball, likewise proper words of wisdom from the screen. The film, produced and distributed by the Fisher Body division of General Motors, is a noteworthy venture in the field of education, the more so when it is known that prints are being made available without charge to schools, colleges, clubs and other social and educational institutions.

STICK TO YOUR LAST

Agricultural cooperation is an indefinite term.

But basically it means the selling of farm products through farmer-owned and controlled central organizations. This is sound cooperation, based on definite business principles of proven worth, that can do a great deal for the farm prosperity and stability.

But where it is distorted to tempt farmers into fields which are in no way connected with farming, Old Man Trouble has things his own way. Failure—expensive, often ruinous failure—is usually the result. And the unhappy example of such a failure endangers the whole farm cooperative movement, the true purpose of which is to improve farm production and sales methods.

"Stick to your last" applies to industrialists, shop keepers, farmers and everyone else, as well as the shoemaker. Experiments in somebody else's business are almost inevitably a short cut to bankruptcy.

WALK—DON'T RUN IN CASE OF FIRE!

Panic again took a terrible toll when six persons were killed and thirty seriously injured in a fire which attacked a restaurant in New York recently.

Fire prevention education has done much to acquaint the general pubuc with the dangers of fire, and the work of the city fire departments and the fire insurance companies has made the nation safer. However, the instinct of self-preservation still causes people to rush in naci to escape flames, instead of walking calmly to exits. In this fire, as in many others, panic made the crowd block and jam the exits, with the usual tragic result.

One of the first considerations of fire prevention engineers is to see that there are sufficient exit facilities of approved type. Conditions, however, do not always permit of the ideal, and in many cases disorderly and panicky crowding results in disaster. Perhaps the fire drills being held in the schools as part of fire prevention education for children will produce a new generation of adults who will be more orderly in emergencies.

The "Safeguarding" series of books and pamphlets published by the National Board of Fire Underwriters is now being used in our schools in all parts of the country, and in these books special emphasis is placed on safe escape from burning structures. Fire prevention eduction is required by law in 18 states and, in addition, the subject is now being taught in practically ever state in the Union.

May this work bring wisdom in governing the actions of those who are now being taught to walk—not run—toward the exit in case of fire.

HOME FARM TO GIVE MORE ABUNDANT LIFE

Jackson, Ky., March 17—Gathed in a county planning conference, Breathitt County farmers turned to the old home farm as the way to more abundant living.

One or more milk cows on every farm to provide milk, cream and butter for the family; at least five hens for every member of the family, to provide eggs and meat; enough home-grown potatoes, and gardens large enough to furnish vegetables through the growing season and a surplus to can and store for winter, comprise the major planks in the county farm program.

Soil improvement, hay and pasture crops, more corn on fewer acres, and purebred sires, were othe planks deemed worthy of important consideration, according to the report of County Agent H. B. Cravens.

Donald Kirkpatrick, Marvin R. Porter, Winfred Huey, Chas. Benson and William Sullivan attended the basketball tournament at Newport Saturday afternoon.

Watch for the date of publication of the High School Annual. "The Stringtownian" published by the Senior Class. It is the first time that your school has attempted this undertaking, so let us all cooperate and purchase one for our home.

Cline Vice, who is attending the Baptist Seminary at Louisville, was visiting his parents Mr. and Mrs. Vice and family of Woolper.

HIGHWAYS TO RECEIVE MOST OF PWA MONEY.

Louisville, Ky., March 18—Approximately 75 per cent of the money for WPA projects in Kentucky will be spent for highways, roads and streets, public buildings, both educational and governmental; parks and playgrounds; flood control and other conservation; water supply and sewer systems and transmission and distribution lines according to an announcement made today by George H. Goodman, Work Progress Administrator.

A listing by types and costs of projects show that of the total of $22,372,046 worth of projects selected for operation, as of December 31, 1935, the following classes of projects accounted for the bulk of the money to be spent.

Highways, farm-to-market roads, and streets, $11,884,477, or 53.1 per cent; public buildings of all types $2,946,204, or 13.2 per cent; parks and playgrounds $417,522, or 1.9 per cent; flood control and other conservation, $252,040, or 1.1 per cent; water supply and sewer systems, $1,103,356, or 4.9 per cent; and transmission and distribution lines, $14,670, or 0.1 per cent.

The balance of the money will be spent to provide work for women, white-collor and other professional and technical unemployed workers.

Rev. H. C. Beemon, of near Florence, was a business visitor in Burlington, Tuesday night.

L. C. Weaver and Elbert Louden were among the first from this locality to catch a string of fish of which were not ashamed to display.

Frank Allen, Big Bone, was a business visitor in Burlington, Wednesday.

Edson Maurer, of Maysville, is spending a few days with relatives here.

Harry Cress, of near McVille, spent Sunday with relatives here.

Julius Smith, of Latonia, was caling of friends in Burlington Wednesday night.

Frank Walton and family were guests of relatives in Walton, Sunday.

Lloyd Akins, of near Hebron, was in Burlington a short while, Wednesday night.

Your county paper for one year $1.50.

BOONE COUNTY HIGHWAYS

The present condition of Boone County highways, due to the recent frigid weather conditions, is endangering the lives of many motorist. On several of the main routes of the County there are ruts and ditches, which are unnoticable to a driver during the night, therefore, making good death traps.

There will be a different pastor in the pulpit at the local Baptist church each night next week. Don't fail to attend.

COMFORT FOR THE

RUPTURE

NON-SKID
SPOT PAD TRUSSES

Hold your rupture with one-half the pressure required by ordinary trusses.

This newly invented Spot Pad, when attached to one of our spring or Elastic NON-SKID Trusses, holds just like your fingers. The surrounding NON-SKID surface keeps the pad in place, thus increasing your chances of obtaining a cure. Recommended by physicians. Many different styles—Single and Double Spring and Elastic. Let our expert fitter prescribe a "NON-SKID" Truss for your requirements, and end your rupture troubles today.

RESOLUTIONS OF RESPECT

Whereas. It has pleased our Heavenly Father to remove from our midst our dear Sister, Mrs. Lulu Huey Baker.

First:—That we the members of the W. M. U. of Big Bone Baptist church have a feeling of personal loss. Mrs. Baker was a member of our intercessory Prayer League for shut-ins, being a patient sufferer for many years, yet always kind and cheerful, a living example of Falth.

Second:—That we express our deepest sympathy to the bereaved family.

Third:—That a copy of these resolutions be placed on our minutes, one sent to the county paper and one sent to the bereaved family.

Mrs. Frank Allen,
Mrs. Kenneth Aylor,
Mrs. G. M. Harrison.

CHAIN GROCERY SALES BETTER THIS JANUARY

Daily average sales of grocery chain stores for January showed an increase of 3½ per cent as compared with January 1935, and were 10½ per cent above the same month of 1934, according to preliminary estimates just received by the ouisville District Office of the Commerce Department. Sales for January decreased about 5½ per cent from December 1935 or about the average decrease from December to January for the past six years.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00 in order to avoid mistakes in getting the genuine LION CROSS HERB TEA please fill out the attached coupon.

What Irvin S. Cobb thinks about:

Idolatry of Self-Destruction.

SANTA MONICA, CALIF.—Once upon a time there was a strange race that, while in some ways quite civilized, yet worshiped a murderous and a monstrous god.

Now this god demanded human sacrifice. He had high priests who ministered to his images; he had countless devotees who traveled about, gathering in the victims to feed his cravings. The feeble and the careless, the aged dodderer and the unwary child—these were the favorite offerings. Yet the collectors spared none at all, neither the strong nor the halt nor the helpless. Often, in their madness, they destroyed one another. Each year the cruel tally mounted—so many thousands dead, so many hundreds of thousands crippled and broken.

Irvin S. Cobb.

These curious people lived in a place called America, and the god they worshiped was called Speed.

* * *

The World-Problem-Solvers.

I'M CONSTANTLY running into somebody who knows exactly what's wrong with the world and what ought to be done about it, but can't make up his mind whether to have his eggs fried on one side or turned over.

At lunch today, I encountered one gentleman who could diagnose all our political and economic ills—just like that!—and name the remedies, too. In fact he did name quite a few while I was looking after the check. And yet I know for a positive fact that his wife won't let him pick out his own neckties and he can't be trusted to cross the street by himself, owing to not being able to decide off-hand which automobile he prefers to be hit by.

Sometimes I think one of our troubles is that we have among us too many who know practically everything and too few who can do anything practically.

* * *

The Passing of Kipling.

TWENTY-THREE years ago, I visited Rudyard Kipling at his home in Sussex. Gracious in his hospitality, he nevertheless was already showing signs of the mania for seclusion which, following the death of his only son in the World war, made of him an entrenched recluse.

He shunned people; shunned things; shunned the pageantry of life. He developed an active dislike for Americans—the people whom he once loved and who constituted perhaps his most loyal following. He became that most lamentable of figures among literary folk—the spot marked "D," denoting where a quenched genius was last seen.

Most of us who write are but assimilators and assemblers. Here was a real creator, and real creators don't happen often. His jungle books and his barrack-room ballads; his Mulvaney and his Kim—these will live while men read English and speak it. May that be balm to his passing soul!

* * *

Acting for the Movies.

OUT here on this lot, we're finishing up the first moving picture in which Ye Scribe has had a real chance to give his all to art. The picture's to be called "Everybody's Old Man"—that is unless the producers change their minds at the last minute, as is customary, and re-title it "The Rollo Boys in an Igloo" or something.

None of us seemed to feel it while we were shooting scenes, but if everybody is as tired as the old man is, they won't have to rock anybody to sleep. The head cameraman goes on a rest cure soon, and the director's wife just telephoned that she's a little bit worried about him—he keeps hearing brass bands playing, and a while ago he ran out and tried to stop a runaway horse that wasn't there.

I've found out one thing: acting for the movies provides a complete mental rest, but it's very hard on the feet.

* * *

Tattooed Ladies.

IN A theatrical paper I read that one of the most copiously illustrated tattooed ladies in the business is fixing to be divorced from a husband who's also of the sideshowing profession. I remember the lady well, sitting on a platform and, in response to requests, slowly turning around so the audience could see what she had to say on the other side.

Well, every man to his taste, but I've always figured life would be kind of fascinating with a tattooed lady for a helpmate. Any time you got tired of talking, you could ask her to let you look at the pictures. And what a boon t'would be for the children, having a comic section for a parent, and vice versa.

* * *

Namesakes of Heroes.

IT'S getting so you can tell when twenty-one years have passed since some great national figure—a president, or maybe a military hero—was at the peak of his popularity. It's when a lot of his namesakes get too old for the reform school and are just the right age for the penitentiary. Once in a while one of the crop goes into the ministry, but apparently not enough of them to make much difference in the grand total.

POINT PLEASANT
(Delayed)

Dr. Nunnelley, of Bullittsville, was called to see Mrs. Elnora Riddle last Thursday, who is ill.

Mr. and Mrs. Roth who live on the Clutterbuck farm, moved to Ludlow last Thursday and a family of the upper county moved in Saturday.

Mr. and Mrs. John Beil and children called on his uncle, Julius Beil and daughters, of Constance, Sunday evening.

There will be Sunday school every Sunday at 10:30 at the Pt. Pleasant Christian church. Every one is invited.

Mr. and Mrs. Geo. Wernz and sons spent Sunday with relatives at Ludlow.

Mr. and Mrs. Jess Jackson, of Sedamsville, Ohio, were week-end guest of Wm. Gross and wife.

Miss Lucille Beil spent Saturday with Mr. and Mrs. Walter Sullender and daughters Mary and Virginia.

Mr. Henry Jergens, Mrs. Mary Robinson, Mr. and Mrs. Elmo Jergens and Miss Mary C. Jergens, were the guest Sunday of Mr. and Mrs. Adam Dolwick and daughter Carolyn Jean.

Mr. and Mrs. A. B. Colyer have moved from the Utz farm to the home of Mr. and Mrs. A. Cummins.

Mr. and Mrs. J. E. Kenton entertained Saturday evening Mr. and Mrs. Herman Kenton and sons, of Covington, and Mr. and Mrs. Geo. Wernz.

Miss Rachel Darby spent Friday afternoon with her sister, Mrs. Elmer Cummins.

This community was shocked to hear of the death of Mr. Ben Riley, as he was liked and loved by everybody. We extend our sympathy to his dear wife and son, and his mother.

Charlie Eggleston, of Petersburg, called on his father last Wednesday. He purchased a horse from Ralph Jones, of near Florence.

HERE AND THERE
(Delayed)

Mrs. Russell Kittle and son spent Thursday with Mrs. Adam Dolwick and family.

Mrs. Grace McMurray and Walter Durham spent Saturday evening with Mr. and Mrs. Wm. Gray and family.

Mrs. Wm. Gray spent Tuesday afternoon with Mrs. Ed. Black.

Mr. and Mrs. John Hudson have moved on Mr. Geo. Pfalzgraf's farm.

Mrs. Ed. Kippler, Mrs. William Gray and Mrs. Edward Delph were shopping in Lawrenceburg, Saturday.

Mr. and Mrs. Earl Locke and Mr. and Mrs. John Bowman spent Sunday with the Gray-Delph family.

Mr. and Mrs. Earl Locke are leaving soon to make their home in Washington county, Ohio.

Miss Mary Eliza Delph spent Sunday with Mr. and Mrs. Edward Black.

Mr. James Rice, who purchased some lots of Edwin Botts in Maple Sub-division, last week, will start building in the next few days. Mr. Rice is one of the best carpenters in Boone county.

SOIL CONSERVATION PROGRAM ABOUT READY

Lexington, Ky., March 17—Following a regional conference in Memphis, Tenn, called by the Secretary of Agriculture to consider provisions of the Soil Conservation and Domestic Allotment Act, Dean Thomas P. Cooper of the Kentucky College of Agriculture announced that the new program probably would be ready to be placed before farmers of the state within a week or two.

Kentucky farmers were represented at the conference by Ford Patterson, Mt. Sterling; Perry B. Gaines, Carrollton; Leslie Ellis, of Murray; M. D. Royse, Winchester, and Roscoe Stone, Hickman.

In the meantime, Dean Cooper suggested that farmers, in preparing to participate in the program, could be assembling information on the normal acreage of soil-depleting crops grown on their farms and wherever practicable the normal acreage devoted to soil improving crops; the normal yield of the major soil-depleting crop grown, and the acreage to be devoted to soil-conserving and soil-depleting uses in 1936.

Preservation and improvement of national soil resources, reestablishment and maintenance of the farmers' purchasing power, assurance of adequate supplies of foods and fibers for consumers, and the protection of rivers and harbors against the effects of soil erosion are provided for in the new act.

Temporary Federal aid in the form of payments direct to individual farmers to assist voluntary action by them designed to accomplish the soil conservation purposes is authorized until 1938. Commencing in 938, grants will be made only to states upon approval of state programs by the Secretary of Agriculture in accordance with the provisions of the act. Grants may be made to states under plans approved before 1938. These state plans are to include as a principal objective the restablishment of farmers' purchasing power, and may provide for production control. The act authorizes an annual appropriation of not more than $500,000,000.

Under the temporary plan of Federal aid, the Secretary of Agriculture is authorized to make soil conservation payments to producers measeured by (1) their treatment or use of land for soil restoration, conservation, or erosion prevention, (2) changes in the use of their land, and (3) the domestic allotments of one or more tivity of the land affected is to be designated commodities. Productaken into consideration in making payment measured by changes in use of land or treatment for soil conservation.

The act contains a requirement that the interests of share-croppers, tenants, and small producers be protected, and tenants and share-croppers are specifically included in the act as agricultural producers.

The act authorizes the Secretary of Agriculture to utilize county and community committees of agricultural producers in carrying out the provisions of the act.

The August, 1909, to uly, 1914, balance between agricultural and non-agricultural living standards, as measured by the relative purchasing power of the net income per person on farms and the income per person not on farms, is the objective in reestablishing and maintaining far mincome.

Authorization is included for the use of funds for expansion of domestic and foreign markets or for seeking new markets for agricultural commodities or for the removal , or disposition of agricultural surpluses.

Provision for administration by the Agricultural Adjustment Administration is continued in the act.

Under the permanent policy providing grants to states, which may be made immediately upon approval of state plans, the state plant must include provisions for a state administrative agency. Such state agency must be authorized by the state and approved by the Secretary of Agriculture. State plans must also include provisions for participation by county and community committees or associations of producers organized for the purpose, and provisions for submitting such reports as the secretary finds necessary to assure that the plan is being carried out.

JANUARY FARM INCOME HIGHEST IN FIVE YEARS

January cash income of farmers was the highest for January, 1936, in five years, according to the Bureau of Agricultural Economics, Washington. Totalling $566,000,000, the January cash farm income included only $1,000,000 in benefit payments, yet was 46 million dollars higher than the January, 1935, income, which included $70,000,000 of benefit payments. The January cash income of 1934 was $490,000,000 and included $60,000,000 of benefits. Cash income in January, 1933, when there were no benefit payments, totaled only $348,000,000, having fallen from $437,000,000 in January, 1932, and $589000,000 in January, 1931.

The Bureau reported the total farm cash income for the year 1935 was $6,943,000,000—11 millions above the estimate issued in December. This included sales of products plus benefit payments. Total cash income in 1934 was $6,387,000,000 and in 1932—the low point of the depression—it was $4,328,000,000.

To Editor of the Courier-Journal:
PARTY ORGANIZATION AID.

NOTE—The following article is a reprint from the Courier-Journal, written by Robert Hensley, Chairman of the State College Young Democratic Organizations. Mr. Hensley is a senior in the University of Kentucky Law School.

As chairman of the State College Young Democratic organizations, I feel that I am not only voicing their opinions, but those of the Young Democratic organizations throughout the State, upon a most vital question of the hour.

No time in the history of the State has there been a more imperative time for the people to voice their opinion in the State's affairs, than at this immediate time. Those who were responsible for the nomination and election of Governor Chandler, should now take up arms and defend him. It was that plank in Governor Chandler's reorganization that received most comment and for which he received many votes. Our people were buoyed up by the fact that he said he would make a more effective and a more commercial Government. And our present legislators were elected on the strength that the voters thought they would help to carry out such a wise and widely necesitated program.

But now when those who are most experienced, those who have spent years of valuable service in the administration of governmental affairs, have put before our Legislature a program that will be the means of perfecting a wise and efficient system of Government, we find them doubting it and seriously questioning it for dubious and ill-founded reasons. They are not fulfilling their campaign pledges; nor are they permitting Governor Chanler to fulfill his pledges to the people of our State.

We are not to be misunderstood, it is not their doubting its expediency, for every bill, regardless of its purpose, drawn for legislative enactment, should be studied closely and in many instances changed to some extent. But only slight observation will reveal that those objections raised are ill founded and without a logical just basis.

First objection is made to the Kentucky School for the Deaf being placed under the Department of Education. Where would such a department ordinarily be placed? Common sense would dictate that under the Department of Education is the only perceptible place for it.

Second, they say, continue the Kentucky Progress Commission, instead of abolishing it. Do the people of our Commonwealth remember when Kentucky was laughed at by residents of every State in the Union for their Kentucky Progress." We sincerely believe in progress, but let us make this progress become so evident by our administration of government that it will not have to be propagandised through a commission. The steps that are attempting to be carried out at the present by our Governor and some members of our Legislature are the most effective means of showing that Kentucky stands for progress, and that Kentucky is progressive.

Third, keep the Kentucky Horticulture Society intact instead of transferring its functions to the Department of Agriculture. Although, there are members of our present Legislature who are said to be agriculturists, we presume their number is too small to have informed the majority that horticulture is very closely related to agriculture. In fact, it is agriculture in its very sense. Let those who so strongly oppose it, show that it will accomplish the purpose more effectively under the present system and that the State will save more money. Let the burden be upon those who oppose reorganization, for the people by popular vote have proved that they are strongly in favor of it.

Fourth, Kentucky's past powerful political machines, built around our Road Commission have been severely criticized by every Kentuckian who has enough wisdom to observe and then it only requires a slight observation. But the very minute a step is taken in the direction of remedying this chaotic situation, those who have most severely criticised, balk. They who have in any way accepted favors are those who are first to find fault. There is no question, that what ever system is instituted will be abused if we do not have a wise choice of administrators, but thru that system whereby the least foul play can be practiced, that one will prove the most effective. And who can rightly and justly deny that the one man commission will prove the wisest? Would their argument be that, we should abolish the seat of presidency of the United States and the Governor of the State and set up respectively forty-eight administrators' and some 120 County Judges' offices? Let them again prove that they are right and the people wrong.

It will be observed that the greatest majority of the objections made to the plans drawn by the Reorganization Committee are no more rightly founded than those set out above.

Such proposals as those drafted by the committee, in the past have been taken as a referendum to the people. Should our present Legislature refuse to so enact them, for unknown and unproved reasons, the people that desired that they be so enacted should be given their preference.

The Young Democratic Clubs of this State were given the credit of electing Governor Chandler to his office, or at the least, for the great majority that he acquired. That act was a very minor role for them to play. In fact, they may just as well have been expending their time at something more profitable. Are they now to let a few undo all that they have done, and worked laboriously and diligently to do?

A great power lies within their grip, if only they should see fit to use it. Every legislator was elected by those same votes that elected Governor Chandler. They are most likely going to want those same votes again, and they are not going to go against the greatest majority in their respective counties, if these Democratic clubs will show strong enough evidence that they feel otherwise. Or at least the majority of them will not. That is all that is required.

Only recently in Congress, when the Administration was endeavoring to legislate against the power interests, great pressure was brought to bear upon those legislating, by telegrams and letters. Washington was flooded with them and they had their effect too. Why should not the people of Kentucky, who saw fit several months ago to cast a ballot, choose to do this suggested thing, and bring their pressure to bear upon our Kentucky legislators. Every Democatic club president in the State, should he be the progressive leader that he is supposed to be, can get the unanimous consent of his organization to support such a plan.

Then, and only then, will our Young Democratic Clubs be playing the part that it was originally intended that they should perform, when first organized. Their purpose was to perfect a satisfactory and efficient system of government and not primarily for the purpose of electing greedy office holders.

Let every club resolve to get behind Governor Chandler in carrying out his program, that he is attempting to unselfishly succeed in so doing and we shall find a more efficient and economical Government. For those who have spent time and labor in submitting it, surely can not be doubted for their integrity, for they have abolished offices instead of creating them and are lowering instead of raising expenditures.

ROBERT HENSLEY,
University of Kentucky,
Lexington.

The Florence Homemakers Club will meet Tuesday afternoon, March 31, at 1 p. m. at the Lloyd House. Everyone is invited.

RABBIT HASH

Rev. Deormand and wife were dinner guests of Mr. Chas. Craig and family, Sunday.

Mrs. Peter Hager passed away at the home of her daughter, Mrs. Clarence Long, in Covington, last Thursday. Her remains were conveyed to East Bend Saturday where her funeral was preached by Rev. Traynor, of Newport, Ky., Rev. Deormand and Rev. Smith, of Belleview. The family have the sympathy of this community, where she lived many years.

Quite a lot of sickness here.

W. D. Kelly and two daughters, Mrs. J. T. McCreary and little daughter Joanna, and Mrs. Chester O'Conner, visited his sister, Mrs. Joe Stephens, who is poorly. Mrs. McCreary remained for a longer visit and visited her aunt, Mrs. B. W. Clore and family Sunday, and helped to celebrate Edgar Clore's 21st birthday.

Mrs. Emma Stephens left Saturday to stay with her daughter, Mrs. Wm. Aylor in McVille.

Mr. Thad Ryle and family spent Sunday with their aunt, Mrs. Vida Stephens, who has been quite ill.

Mr. Harry Louden and family from Sayler Park, O., spent the week-end with his father, Mr. John Louden and family here.

Mrs. Mayme Stephens, of Aurora, Ind., is at the bedside of her daughter-in-law, Mrs. Russell Stephens, who is very ill.

The Aid of the M. E. church met with Mrs. Lou VanNess Thursday.

H. M. Clore and family spent Sunday night with Mr. Wilbur Acra, who has been ill.

Mr. Solon Stephens is now living in his new house, which he built on Lick Creek, last week.

Mr. A. G. Hodges and family and with Mr. F. L. Scott and wife Mrs. Mrs. Mollie Ryle spent last Sunday with Mr. F. L. Scott and wife. Mrs. Ryle called on her brother, Mr. Wallace Stephens.

Mr. Roy Ryle and wife were in Burlington Saturday. They moved to their farm on Lick Creek, last Thursday.

Mrs. Jesse Wilson has been ill.

Mr. Walton Rogers and wife spent Sunday with Mr. Wilbur Bodie and wife.

Mrs. Minnie Stephens called on Mrs. Myra Ryle and mother Thursday afternoon.

Don't forget the fish fry at the Old Grist Mill at Limaburg Sunday. Twenty-five cents for all the fish you can eat.

BANKERS ARRANGING REGIONAL MEETINGS

Studying New Legal and Economic Conditions Affecting Bank Management

STRESS PUBLIC RELATIONS

American Bankers Association Sponsor of Meetings as Part of Nationwide Program of Banking Development

PHILADELPHIA.—Fifteen hundred bankers from fifteen eastern states met here in January in a two day conference devoted to discussions on legislative, managerial, operating and public relations problems of the banking business. This was the first of a series of meetings planned by the American Bankers Association in its nationwide program of banking development under the leadership of Robert V. Fleming, president of the association. Similar conferences will be held in southern and western sections of the country.

"It is the purpose of these working conferences to bring to association members and other bankers a thorough knowledge of the changes in banking laws and rules, provide discussion of better public relations so that there shall be greater cooperation and understanding between the banker and his customers, and to give opportunity for a survey of the problems incident to the Government's competition with our chartered institutions," Mr. Fleming said in opening the meeting.

To Help Government Quit Banking

The discussions at the conference showed that the bankers are ready to make it easier for the Government to relinquish many of its emergency financial services as soon as possible by demonstrating how their institutions are able to render full banking facilities to the public on sound lines.

Bankers generally have recognized that in times of emergency the Government had to come to the assistance of the people where chartered institutions were unable to do so on account of such conditions, Mr. Fleming said. They also realize that possibly many functions which the Government is performing are of a nature which cannot be handled by chartered institutions under the principles of sound banking.

On the other hand, he said, "we should survey all emergency lending measures of the Government to judge which of these activities can be properly and soundly taken over by banks in their respective communities."

The attending bankers devoted time to considering the Banking Act of 1935 and the many related regulations and discretionary powers under the Federal law. These were explained by O. Howard Wolfe of Philadelphia, who said he had made a count of the various places in the act where provision is made for discretionary power to be exercised by government officials through regulations.

"Confining the count only to the sections which affect practically all of us, I found there are forty-eight places where discretionary power is given," he said. "It is a problem of no mean importance, therefore, to master banking law as it is today and may be tomorrow."

Bank Taxation and Solvency

Bank taxation was discussed by Charles H. Mylander of Columbus, Ohio, who declared that "the average American is vitally interested in taxation of banks because solvency may depend to a large degree upon the way in which the taxing power is exercised upon them."

To prove his point he cited earnings figures which showed that, in the year ended June 30, 1934, "for the United States as a whole, national banks used $14.89 out of each $100 of net operating earnings, before taxes, in payment of taxes; but in seven of the twelve Federal Reserve Districts the percentage of earnings used for taxes was above the average. It was in practically these same seven districts that the greatest number of bank failures occurred in those hectic years from 1920 to 1933."

As an example of how far taxation can go, he quoted official figures showing that in 1934 a large number of small state banks paid on the average $34.20 of every $100 of operating profits for taxes. Mr. Mylander urged that there be "brought home to the average American the self-evident truth that banks, dealing as they do only in intangible property, are not proper subjects for property taxation; that the true measure of a bank's ability to pay taxes is the earnings it can make."

WHEN BANK CROOKS SHOW PREFERENCES

The American Bankers Association reports that non-member banks suffer twice the percentage of burglaries and hold-up robberies as compared with members. Member banks display a sign showing that they receive the protection of the association's detective agents, who cause the arrest of from 150 to 400 bank crooks every year, the organization, which is a non-profit body, says.

"Professional criminals often boast of having sense enough to dodge the far-reaching system of man hunting available to members, so long as there are other banks without this protection," it says. "They recognize that once on the record of the Association's Protective Department, they must pay for every crime with which they can be identified. Detainer warrants have followed them from place to place so that penal servitude for one crime would not expiate other offenses."

SHORT ILLNESS PROVES FATAL

TO HOWARD AYLOR—WAS FORMER RESIDENT OF COUNTY

Howard Aylor, 42 years old, passed away at his home in Albany, Ohio, after a short illness of pneumonia. Mr. Aylor was a former resident of Boone County and had many friends here. He is survived by his wife, Mrs. Christine Jones Aylor, one son and one daughter. his parents, Mr. and Mrs. Ezra Aylor, one brother and one sister, besides many other relatives and friends.

Mr. Aylor was a World War Veteran and was wounded during his term in service. At the time of his death he was a salesman, being employed by the Early & Daniel Co., of Cincinnati, Ohio.

His remains were brought to the Taliaferro Funeral Home in Erlanger Friday afternoon and following services at that establishment Saturday morning at 11:00 o'clock by Rev. McNeely, assisted by Rev. Roy Johnson, they were returned to Albany, Ohio, for interment at that place.

THREE CHARGES FACED BY FLORENCE MOTORIST — AUTOMOBILE RUNS AGAINST POLE

Charged with driving an automobile when he was intoxicated, driving recklessly, and leaving the scene of an accident, Ray Miller, Florence, was held yesterday for the Kenton Grand Jury under $750 bond by Judge Joseph Goodenough in Covington Police Court. Miller was arrested March 18, after police charged he wrecked his automobile against a pole on West Third Street. He was charged also with having collided with another machine.

LEAVING SUNNY SOUTH

Mr. and Mrs. H. S. Tanner, St. Petersburg, Fla., are leaving that fair city soon to return to their home near Ludlow, according to information received from the tropical state. Mr. and Mrs. Tanner say that they have immensely enjoyed swimming and fishing in the Florida waters during their two months' vacation there.

Mr. and Mrs. W. B. Cotton gave a rook party at their home last Thursday night. The guest were: Mr. and Mrs. W. T. Renaker, Mr. and Mrs. Jesse Hamilton, Mr. and Mrs. J. T. Roberts, Mr. and Mrs. O. K. Powers, Mr. and Mrs. Jesse Wilson and Mr. and Mrs. John Myers, all of Verona; Mr. and Mrs. D. Hess Vest and Mrs. Blanche Coffman, of Walton. High scores were held by Mrs. W. T. Renaker and Mr. J. T. Roberts.

Evening Worship at 7 p. m.

Supt. D. H. Norris and family called on Prof. E. E. Kirkwood, who has returned to his home here after an appendicitis operation, Sunday afternoon.

The Homemakers Club will hold its monthly meeting Thursday, April 2nd at 1:00 o'clock at the Court House. Everyone is cordially invited to attend.

Mrs. Virginia Monroe, of Erlanger, is spending a few days with her parents, Dr. and Mrs. M. A. Yelton, of Burlington.

Now is the time to clean your garden and lawn.

ATTENTION CORRESPONDENTS!

Beginning with the issue of April 3rd, the name of each correspondent of the various communities will be published following the name of their respective community. This is being done to make it more convenient for persons having news items in the respective localities, as they will then know the correspondent representing their locality. If, however, any correspondent does not wish to have his name published, please inform us immediately.

We are greatly appreciative of the fact that our correspondents have made such marked improvement in their work during the past several months.

4-H LEADERS CONFERENCE

Boone County 4-H Sewing and Canning project leaders from the nine community 4-H Clubs will hold an all day project conference at Burlington this coming Thursday, March 26th. Miss Edith Lacy, Home Economics Specialist, and Miss Gillaspie will meet with the leaders.

PUBLISHER PAYS CALL

R. D. Stamler, Puolisher of the Walton Advertiser, was a brief caller in Burlington, Friday afternoon. While in town Mr. Stamler stopped in for a little chat with the Recorder force.

MAN WEDGED BETWEEN CARS

WHILE ATTEMPTING TO MOVE MIRED CAR FROM A DITCH NEAR PETERSBURG

William Johnson, 55 years old, of near Ludlow, became wedged between two cars near Petersburg Sunday as he was attempting to remove one of the cars from a ditch in which it was mired. As he was hooking a chain onto the mired car the second car slipped from the highway and pinned him between the two vehicles. According to authorities of the St. Elizabeth hospital he suffered three broken ribs, a cut ear, and possible spinal injuries. His condition, however, is reported not serious.

He was removed to the hospital by his son.

HOMEMAKERS TRAINING CLASS TO MEET

The April Leaders' Training Class of the Homemakers Club will meet Thursday, April 2nd, 10 A. M., to 3 P. M., at the Burlington Court House to study "Floor Finishes" the second lesson on the spring project. "Personality of the Home." Two women from each of the nine organized Homemakers Clubs in Boone County have been elected by their local club to attend the Leaders Training Class.

The afternoon session 1:30 P. M., (C. T.) to 3 P. M, (C T) is open to any one of Boone interested in Home Improvement. Miss Ida C. Hagman, specialist in Home Improvement, Extension Dept., College of Agriculture, U. of Ky., will give a talk on Personality of the Home at the afternoon meeting. Many women who are not project Leaders have been interested in attending a Leaders Meeting to hear Miss Hagman and see just how a Training Class is conducted for a county group.

The Leaders attend the monthly meeting at some central place to get the lesson direct from the specialist. They give the lesson to the local clubs with the help of the Asst. Home Demonstration Agent.

The following Leaders have been elected — Burlington, Mrs. Lou Pope, Mrs. C. H. Sullivan, Florence, Mrs. M. G. Martin, Mrs. Joseph J. Berkshire, Grant, Mrs. Kathryn Clore, Mrs. J. E. Rogers, Hamilton, Mrs. R. S. Schivenke, Mrs. Orville E. Hensley, Hebron, Mrs. Sibbia Reimer, Mrs. Geo. Casper, New Haven, Mrs. Walter Pennington, Mrs. Catherine Rachal, Petersburg, Mrs. J. H. Huey, Miss Edna Berkshire, Verona, Mrs. W. T. Renaker, Miss Lillian Harris and Walton, Mrs. John L. Vest and Mrs. J. C. Bedinger.

Mr. and Mrs. M. E. Kirkwood and Mr. and Mrs. C. D. Kirkwood and daughter Sue Helen were visiting Mr. and Mrs. E. E. Kirkwood Sunday. Mrs. C. D. Kirkwood and daughter remained for a few days.

W. C. Weaver, Wendel Easton and Albert William Weaver were in the city, Tuesday.

ATTENTION OF FARMERS

CONCERNING LESPEDEZA WEEK IS CALLED GY GOV. CHANDLER.

Mr. R. R. Giltner, Sec'y.,
Kentucky Lespedeza Growers Assn.
Eminence, Kentucky,
My dear Mr. Giltner:

Because of the importance of Lespedeza and other soil building legumes in the Soil Conservation and Erosion Control Plan of the Federal Government, I am glad to call the attention of the farmers of Ky., to LESPEDEZA WEEK, March 23rd—28th.

This type of clover is proving of inestimable value to Kentucky Agriculture in rebuilding the soil, furnishing valuable pasture, hay and seed, and promoting the development of a greater interest in live stock. I am informed that this crop is adapted to any character of soil in this State.

It is my hope that County Agents, Teachers of Vocational Agriculture, Agricultural Workers and Farm Leaders will stress the importance of this week.

Cordailly yours.
A. B. CHANDLER,
Covernor.

No LEGUME OR GRASS yet discovered has proven more valuable for the prevention of SOIL EROSION and the BUILDING UP OF DEPLETED LAND, than Lespedeza.

It fits perfectly into the NEW SOIL CONSERVATION PLAN, recently adopted at Washington, to take the place of the Invalidated A. A. A. and land sown to Lespedeza will undoubtedly meet the requirements of the New Plan.

APRIL Is The Right Time To Sow Lespedeza and any Kentucky farmer, who has not already grown this Miracle Legume would do well to investigate its merits.

MRS. ALMA GEIGER

Mrs. Alma Geiger, aged 69 years, passed away Friday night at her home on Stevenson Road, Erlanger, after a long illness. The remains were removed to the Taliaferro Funeral Home for preparation.

She is survived by her husband, Joseph Geiger, one daughter. Mrs. Everett Yelton and one son Ira Geiger, seven grandchildren, one brother, Joseph White mb and one sister besides many other relatives and friends.

The pall-bearers were Walter Coe, J. C. Mills, J. W. Taliaferro, Chas. Yelton, L. L. Childress and Ab. Gaines.

Funeral services were conducted Monday afternoon at 2 o'clock, by the Rev. R. D. Martin, at the Taliaferro Funeral Home. Interment following in Highland Cemetery.

CONSUMPTION TAX AND SMALL LICENSE FEE ADVOCATED

A delegation representing Campbell county liquor dealers was to be introduced today to James W. Martin, state tax commissioner, by Representative Carl Scheben of Newport.

The delegation was to include Judge William Buten, John Huck and Jake Rust.

The liquor dealers were to discuss proposed liquor taxes under the revenue program now being drafted. Many of the dealers favor a consumption tax on retail sales of liquor, but smaller license fees.

Mrs. Louisa Forkner, of Winchester and Mrs. Conner, of Cincinnati, have been visiting Mr. and Mrs. H. R. Forkner and family.

CHAS. E. CRISLER DIES IN MICHIGAN

AFTER BRIEF ILLNESS OF PNEUMONIA. WAS NATIVE OF BOONE COUNTY.

Word was received here Tuesday of the death of Charles E. Crisler, age 63, of Wyandotte, Mich., who was the victim of a brief illness of pneumonia. Mr. Crisler was a native of Boone County. He was born and reared to young manhood at Bullittsville. At the time of his death Mr. Crisler was foreman of the Wyandotte Soap and Powder Co.

He is survived by his wife and son, one brother, Dr. L. H. Crisler, and one sister, Mrs. Fannie Rice, Burlington, besides a number of other relatives and friends.

His remains will be taken to Moberly Mo., where he also resided a number of years, for burial.

WEDDING ANNIVERSARY CELEBRATED

Mr. and Mrs. Marshall Easybock, of Dixie Highway entertained Sunday in honor of her parent's wedding anniversary, Mr. and Mrs. Price Conner (nee Clara Tanner) of Independence.

The following were present: Albert Tanner and wife, Ed Rice and wife, Chas. Fulton and wife, Chas. Tanner and wife, Albert Lucas and wife, Cecil Martin and wife, Earl Schulker and wife, Douglas Rector and wife, Arch Woodyard and wife, of Cincinnati, O, Frank Rouse, Chas. and J. D. Conner, Edgar Tanner, Alice Lucas, Mable and Albert Lee Martin, Price Conner and wife and Virginia Lee Easyboch.

MENINGITIS CASE FATAL TO ERLANGER LAD

Thomas Allen, 4, of Erlanger Road, Erlanger, died at the St. Elizabeth Hospital, Covington, on Tuesday morning, about an hour after he had been brought to the hospital, as a result of spinal meningitis. His brother, Martin, is in a critical condition, according to report Wednesday.

The city of Erlanger faces a possible partial quarantine as a result of these cases.

BIG BONE W. M. U.

The Big Bone Baptist W. M. U. met at the church for an all day meeting on March 12, to observe the day of prayer for Home Missions. A very interesting program was arranged by our Program Committee Mrs. Ella Rouse, Scripture reading by our President Mrs. Bertha Huff.

Lift up your eyes and Look—Mrs. Mullins.

Lift up your voice and pray—Mrs. Jas. Aylor.

A chapter in the life of Mary Belluccio—Mrs. Edith Jones.

Song—Here am I send me—Mrs. Robt. Rouse and Mrs. Kenneth Aylor.

Prayer for work among the Negroes—Mrs. Joe Aylor.

Lift up your feet and go—Mrs. Kenneth Aylor.

Appeal for the Marca offering—Mrs. Ivaree Huff.

Lift up your hands and give—Mrs. Geo. Harris.

Song by Sunbeams—Barbara Huff and Alma Fay Afterkirk.

Prayer—Mrs. Mary Aylor.

There were 18 present. Next meeting will be at the church.

Mrs. Raymond Combs and son, of Williamstown, were calling on Mr. and Mrs. H. R. Forkner and family, Tuesday nite.

MRS. HATTIE STEWART

Mrs. Hattie Stewart died at her home on Richwood-Beaver pike Sunday morning following an illness of cerebral hemmorrhage. She leaves her husband, Frank Stewart, and one son. Funeral services were from Chambers and Grubbs funeral home Tuesday at 11:00 a. m. by Rev. D. E. Bedinger. Interment followed at the Independence cemetery

NEW AUCTION COMPANY OPENS IN COVINGTON

The Dixie Auction and Trading Co., announces in this issue of The Recorder that it will hold a public auction at 219-221-223 Pike St., Covington, every Tuesday, at 10:00 a. m., Eastern Standard Time.

The company buys and sell furniture, household goods and anything saleable—will buy for cash or sell on consignment. Manager H. C. Glessner states the company will sell farms, live stock and real estate at public auction. E. P. Pinkston is the auctioneer.

LEFT OVERS DISTRIBUTED

Garden seeds, fertilizers and other materials left over from the Kentucky Emergency Relief Administration's 1935 home garden program have been distributed by the commodities division of the Works Progress Administration to the most needy families of the State.

LIME PROGRAM BEING DELAYED

DUE TO CONDITION OF ROADS AND EXTREME WET WEATHER

The agricultural limestone crushing project of the Boone County Soil Improvement Association is being temporarily delayed due to the wet weather. The condition of the roads and soft ground has not only delayed the movement of the pulverizer but farmers and CCC workers in piling the rock for the crusher.

Mr. R. W. Auter operator of the pulverizer reports that approximately 50 tons per day is being crushed where a full day's work is secured. The majority of the farmers originally signing up for agricultural limestone have been served. All farmers listing stone will be taken care of before the completion of this program providing their stone is piled when the pulverizer gets to their place. A closing date will be set for new requests. It is then before, highly important that all new requests be turned in to the County Agent's office at Burlington immediately.

TO BE APRIL BRIDE

Mr. and Mrs. Bernard Gaines 1140 Fourteenth Avenue, St. Petersburg, Fla., have issued invitations to the forthcoming marriage of their daughter, Miss Helen Ruth Gaines, to John Russell Warner, Jr., Milwaukee, W

The ceremony will be performed Saturday, April 4, at 4 o'clock at St. Peter's Episcopal Church. The Rev. Evan Edwards, St. Petersburg will officiate.

Immediately after the ceremony a reception will be held at the Soreno Hotel. Miss Gaines' only attendant will be Miss Mary Jane Herman, Fort Mitchell, Ky. Bill Warner, brother of the bridegroom will be best man.

Miss Gaines and her parents were formerly residents of this county and have a number of relatives and friends here.

NEW HAVEN JUNIOR CLASS PLAY

The Junior Class of New Haven has begun practice on the three-act comedy, "Chintz Cottage," which will be presented on Friday night, April 3, at 7:30 p. m.

This is an uproariously funny play with many exciting situations. The heroine, accompanied by a somewhat nervous English maid, played by Mary Elizabeth Senour, who acted so successfully last year in Miss Adventure, has come to the country for rest and quiet and freedom from Men—but a handsome young man is seemingly murdered on her front lawn! Will the girl be able to free herself from suspicion and discover the real criminal? Could it have been the boy's own father who would inherit a fortune at his son's death? A lovable aunt, a terrified sister, and an efficient but unwelcome spinister complicate the problem?

A complete list of characters will be given in next week's paper.

JOHN W. CLOUD PASSES AWAY

AFTER A SHORT ILLNESS OF PNEUMONIA AND HEART TROUBLE — WAS LIFELONG RESIDENT OF BOONE COUNTY

The death of John W. Cloud, 71 years old, of Burlington-Belleview pike, came as a shock to his host of friends throughout this county, Monday, March 23rd. Mr. Cloud had been ill only a short time of pneumonia but this strain combined with a weakened heart proved fatal.

He leaves a sister, Mrs. Lenora Walton; two nephews, Wallace Walton and Rex Berkshire; three nieces, Mrs. Clara Ellis, Mrs. Lutie Eilis and Mrs. Nellie Rose.

Funeral service was conducted at the grave in the I. O. O. F. cemetery, Burlington, Wednesday morning, with Rev. Campbell, of the Bullittsburg Baptist church in charge.

Pall bearers were: Raymond Goodridge, Elmer Goodridge, Rex Berkshire, Walter Gaines, Vermon White and Edgar Smith.

Mr. Cloud was one of the most progressive farmers of Boone county and devoted his entire life in that undertaking. He took great interest in the upbuilding of his community and county. His entire life was spent in Boone County where his contacts made him many friends and few enemies.

Chambers and Grubbs funeral directors, Walton, were in charge of the arrangements.

MINSTREL

SEWANEE JUBILEE, a minstrel, will be given April 2 at the Walton School Auditorium. It is being sponsored by the Willing Workers Class of the Walton Christian Church.

Signed, Mrs. Lulu Huey.

RIVER RISING AT DAM 38

ACCORDING TO LOCKMASTER E. E. NEWMAN, 59.9 FEET AT 10:30 WEDNESDAY

The Ohio River at U. S. Lock 38, McVille, was 57.9 feet, rising at 1-10 ft. per hour at 10:30 a. m., Wednesday morning, according to E. E. Newman, Lockmaster. From locks 16 to 24, inclusive, is reported falling slow; locks 13 and 14 reported rising.

River stages at the various dams at 10:30 a. m., Wednesday were: 13.31.5; 14:31.0; 15-30.2; 16:30.6; 17.29.7; 18:33.6; 19-36.6; 20:37.4 21.33.2; 22-41.6; 24-49.8; 25:55.1 28.54.9; 29-60.9; 30-60.8; 31-61.2; 32-59.2; 33-58.8; 34-56.1 35.59.9; 36.59.7; 37-58.6; 38-57.8; 39- 1.2.

There has been a rise of 2.5 since yesterday (Tuesday) morning. The crest at Pittsburg at present is 32 feet.

The rainfall at the various dams, reported Wednesday morning, is as follows Dam 16-.30; 17-.28; 18-.19; 19-.23; 20-.30; 21-.41; 22-.41; 24.33; 25-.36; 28-.34.

There has been no damage by flood waters in Boone county but at the present stage a high wind may cause considerable damage.

BURLINGTON BAPTIST CHURCH
R. Lee James, Pastor

You are most cordially invited to worship with us at all services.

Attorneys Ward Yager, of Warsaw, Dave Castleman, of Erlanger, John Vest of Walton and E. R. Rivard of Union were business visitors in Burlington Monday.

To The People Of The United States:

Flood waters raging throughout eleven states have driven 200,000 people from their homes, with every indication that this number may be materially increased within the next twenty-four hours. In this grave emergency the homeless are turning to our great national relief agency, the American Red Cross, for food, clothing, shelter and medical care.

To enable the Red Cross to meet this immediate obligation and to continue to carry the burden of caring for these unfortunate men, women and children until their homes are restored and they can return to normal living conditions, it is necessary that a minimum relief fund of three million dollars be raised as promptly as possible.

As President of the United States and as President of the American Red Cross, I am, therefore, urging our people to contribute promptly and most generously so that sufficient funds may be available for the relief of these thousands of your homeless fellow citizens. I am confident that in the face of this great need your response will be as immediate and as generous as has always been the case when the Red Cross has acted as your agent in the relief of human sffering."

"FRANKLIN D. ROOSEVELT"

Boone County has been asked to contribute $100.00 in behalf of these disaster stricken families and I know that the people of Boone County will immediately raise this quota.

Please mail your donation at once and I will forward the amount raised to the National Red Cross.

C. L. CROPPER, Chairman,
Boone County Red Cross,
Burlington, Kentucky.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

THE LEGISLATIVE INVESTIGATION

A joint legislative committee, representing the house and senate, is conducting an investigation in an effort to find out who it was that interlined an alteration in the reorganization bill, with the obvious intent of materially changing its meaning.

Governor Chandler acted quickly and decisivley to correct the altered measure after it was found to have been changed in an irregular way. Because of that action and the effort being made to place the blame where it belongs, there has been much publicity given the matter.

Truth is, legislation by stealth and trickery is not new at Frankfort. Legislation has often been enacted in the same way. There have been instances in recent years in which regularly enacted bills have been lost before reaching the office of the governor for his signature. The mysterious interlineations were nothing new.

The new thing about it is that the subversive act was caught in time to correct it and that a sincere effort is being made to place responsibility on the person or persons who are guilty of trickery. Whether the investigation clears up the mystery or not, its effect will be fortunate. The vigor with which action has been taken to correct the amendment made by stealth and expose the offenders has put fear in the hearts of those who might be inclined toward surreptious legislation.

Those who tried to put over a fast one and were thwarted are badly scared, are not likely to be so brazen as to try a stunt again. So regardless of outcome of the investigation, it will have a good effect, go far toward putting an end to the activities of cunning connivers.

A HARD WINTER ON ROADS

It has been a hard winter on roads. Never before in history of the state highway department has the weather been so destructive of highways.

Road surfaces and the earthen bed beneath were frozen as result of the prolonged snow and frigid temperatures. When warmer temp. eratures brought a tnawing .out, there resulted in many instances a considerable disintegration. It was worse in spots, depending largely on the nature of the tarthen bed beneath the surface. The highway department went to work is quickly as possible after the snow cleared and weather conditions made work possible, in an effort to repair the damage.

There have been captious critics who assert that action of Governor Chandler in severely curtailing highly activity the latter part of December was false economy. These critics fail to consider the fact that the severe weather supplied increased justification for the release of more than six thousand road employes. The weather was so unfavorable to road maintenance activity that had the employes not been released they would have been unable to do any work which would have prevented the road destruction that resulted.

It will be recalled that for many weeks the roads were covered with snow and ice. The frozen condition of the roads lasted for an even greater length of time. There was no type of work that could have been performed on the roads during this extended period of severe weather. The fact that several thousand road workers had been laid off in an effort to cut the overhead expense of the highway department made no appreciable contribution to the going to pieces of roads as result of the bad weather.

As quickly as the sub-zero temperature moderated and snow melted from the roads, the highway department maintenance crews tackled the job of repairing the ravages of an unprecedented winter. Had every road worker who was released in an effort to effect economies been retained on the highway payroll, disintegration of roads would not have been diminished in the least, nor could any of the destruction been prevented. The job of repairing the damages would have been just as great and as costly had not the labor personnel been cut.

UNUSUAL ITEMS CLIPPED FROM OUR KENTUCKY EXCHANGES

WHERE'S THE FIRE

When a man bits a dog that's news and when a man calls up to find out where the fire is and it's his own house that's news, too.

W. W. VanDeren heard the fire bell Saturday morning before breakfast and went to the phone (very optimistic of him at that) to inquire where the blaze was. He was told it was on East Pike street. Grabbing his coat he went to the door to see if by any chance it was a neighbor's house.

As he was going out the door the fire truck rolled up, out jumped the firemen and asked him where the fire was. Mr. VanDern told them he didn't know; was looking for it himself. About that time his nephew, John Billy Wiglesworth arrived to tell him his house was on fire.

R. T. Jacobs, living on Bridge street, had seen the smoke at the VanDern house and turned in the alarm. —Cynthiana Democrat.

EDITORIAL PARAGRAPHS

There isn't as much back talk amoung Democratic Senators and Representatives as there was a month or two ago. The Democrats on Capital Hill have been doing a lot of political talking among themselves and it is important to not that they have agreed along in these Ideas of March days that President Roosevelt will be renominated and re-elected.

A thousand good reasons have been urged in behalf of safety of the highways. The one that stands out among them all appears to be "don't be in such a—hurry."

Country boys coming back from the cities say jazz music is not very satisfying to a hungry person.

When the modern motor sees "Stop, Look, and Listen," he proceeds to speed up, look at his speedometer, and listen to his motor.

One rotten apple will be the ruination of an entire basket of fruit. . . . and one unattractive front yard will ruin the appearance of an entire street or avenue.

JAPAN CHIEF FOREIGN BUYER OF U. S. CARS

For the third successive year United States exports of automotive products in 1935 registered substantial improvement over the preceding year, according to a report to the Louisville district office of the Commerce Department. Sales abroad of all items were valued at $235,813,245 compared with $196,313,555 in 1934, an increase of 20 per cent. Japan again ranked as the chief purchaser. followed by Australia, Egypt, Spain and Argentina.

Lesson for March 29

JESUS EXPLAINS THE KINGDOM

LESSON TEXT—Luke 13:18-30.

GOLDEN TEXT—And they shall come from the east, and from the west, and from the north, and from the south, and shall sit down in the kingdom of God.—Luke 13:29.

PRIMARY TOPIC—Good News to Men.

JUNIOR TOPIC—Jesus Talks About His Kingdom.

INTERMEDIATE AND SENIOR TOPIC—My Part in Extending Christ's Kingdom.

YOUNG PEOPLE AND ADULT TOPIC—Requirements for Citizenship in the Kingdom.

I. Jesus Teaching in the Synagogue (vv. 10-21).

The presence of a sorely afflicted woman called forth Jesus' sympathy and he, therefore, healed her. This action on the Sabbath day provoked severe criticism on the part of the ruler of the synagogue. Jesus quickly silenced his objections by showing that this good deed was entirely in keeping with the purpose of the Sabbath day.

1. The parable of the mustard seed (vv. 18, 19).

a. Its unimportant beginnings (v. 19).

It begins as the least of all seeds and grows to be the greatest among herbs. The parentage and humble circumstances of Jesus the King greatly perplexed the people. That twelve unlettered fishermen should be selected as his advisers was still more amazing.

b. Its vigorous growth (v. 9). Though small in its inception, the work inaugurated by Jesus Christ has become mighty in power.

c. Its lodging capacity. The birds which find lodgment in a tree do not represent the children of men who find safety and salvation in the church, but they are predatory beings waiting to pluck the tender buds or to prey upon the ripened fruit. The effects of such lodging are evil, blighting even to the spoiling of the tree.

2. The parable of the leavened meal (v. 21). When the scriptural significance of the meal, the woman, and the leaven is known, the interpretation is easy.

a. The meal. Meal in Scripture means something wholesome and nutritious. It was used in one of the sweet savour offerings which typify Christ (Lev. 2:1-3) and was the food for the priests (Lev. 6:15-17).

b. The leaven (v. 21). In the Scriptures leaven is invariably a type of evil, as the following examples show (Exod. 12:5, Lev. 2:11; Matt. 16:6, 12; I Cor. 5:6-8).

c. The woman. In normal life the woman is the administrator of the home, not its head. Her responsibility is to take the bread provided by the head, prepare and distribute it to the household. In Scripture we find false doctrine being taught by a woman. Dealing with doctrine is forbidden to women (I Tim. 2:12). In I Timothy 4:1-3 we find that apostasy will be brought in through false teaching in the ranks of God's people. The meaning of the parable, therefore, is that the true doctrine of the meal given for the nourishment of the soul will be officially corrupted by false doctrine. The children's food is thus corrupted by their mother.

II. Jesus Teaching in the Villages and Cities (vv. 22-30).

Jesus knew that he was on the way to Jerusalem to be crucified. He was, therefore, making an effort to reach every person possible with the gospel.

1. A question asked (v. 23). We do not know just why this question was asked. It may have been out of curiosity or by some Jew who prided himself on being of the elect.

2. The Lord's answer (vv. 24-30). He did not answer directly, but by likening the blessing of the kingdom to a banquet hall in a palace.

a. The gate of the kingdom is strait and the way narrow. It is easy to see from his teaching, as well as from observation, that the saved are few. The fewness is not due to either Christ's unwillingness or inability to save, but the unwillingness of the sinner to come to him.

b. The immediate duty to set forth (v. 24). Regardless of what others are doing, the personal obligation is upon everyone to strive to enter.

c. The door to be shut (v. 25). God's patience will not last forever. His mercy is to end and his judgment will follow. Love and grace spurned will eventuate in the manifestation of divine wrath.

d. Pleading for entrance on the ground of knowing Christ (vv. 25, 26). This plea is met by the awful command to depart, and even calling them "workers of iniquity."

e. A day of weeping and gnashing of teeth (v. 28). The very sight of the faithful ones enjoying the blessing of the kingdom, while they themselves are shut out, will be extremely awful.

Laughter and Tears

God made both tears and laughter, and both for kind purposes; for as laughter enables mirth and surprise to breathe freely, so tears enable sorrow to vent itself patiently. Tears hinder sorrow from becoming despair and madness.—Leigh Hunt.

Truth

Truth and reason are common to everyone, and are no more his who spake them first than his who speaks them after.—Montaigne.

LOCAL

Ford Capsizes

Last Tuesday morning while returning from Florence, O. R. Porter's Ford Roadster became unmanageable and turned a complete somersault in front of Alonzo Beemon's residence. The auto was badly damaged, the top being completely demolished. Mr. Porter was badly bruised and received lacerations about the face, although none were serious. He was extremely fortunate.

Old "Sam" a horse belonging to Morgan Barlow, passed away last Sunday. According to Mr. Barlow, Sam was about 40 years young.

The protracted illness of L. C. Beemon, assistant cashier of the Peoples Bank. coupled with the illness of Miss Nell Martin's mother, Mrs. Laura Martin, has left Cashier A. B. Renaker without help at the bank. His wife. however, has come to his rescue and proven herself a very capable understudy.

FLORENCE

Miss Mary Marksberry, who has been confined to her home the past week, is able to be out again. Her many friend wish her a continued recovery.

Raymond Beemon and family will move into their new bungalow, which has just been completed, this week.

IDLEWILD

H. H. Grant's flock of sheep were raided by dogs last week, but no serious loss was reported.

Dr. Henry Lee Grant, Dr. Raymond Grant, of Louisville, and Dr. Carl Grant, of Winchester, were here Friday to attend the funeral of their kinsman, Dr. James Madison Grant.

HEBRON

The Hebron Graded School will close this week.

Mr. and Mrs. Albert Willis, of Cincinnati, expect to move this week to the residence belonging to W. R. Garnett.

PETERSBURG

The committe of the Methodist church wish to thank all who helped in filling the case of eggs which was expressed to the Methodist Orphan's Home last week.

Our town was overshadowed with sadness when the news went abroad of the passing of Dr. J. M. Grant. He was very kind, gentle and sympathetic in service. We will greatly miss him and miss too his cheery "good morning" as we pass along.

BELLEVIEW

Ralph Cason had the misfortune of breaking his leg one day last week when he was thrown from a wagon and a wheel passing over the lim. He is recovering very nicely at present.

JEST A-WHITTLIN' AN' A-THINKIN'

By Pete Gettys

A STATE FARMER FEATURE

"Plagued weeds have taken my garden—What are weeds for anyway?—Jest a nuisance is all I know."

That ain't what you think, is it? Please don't think that. Believe that "A weed is only a flower out of place." Think of 'em like that, and then, if you like, you can preach yeself some of the purtiest sermons on that thought as the text.

"Flowers out of place"—maybe the thought even fits you. Perhaps you're workin' so hard—tryin' yer best and accomplishing apparently so little. Maybe you've got every natural talent to be a great lawyer, but circumstances willed differently—you're astruggling along as a storekeeper or a miller—a flower out of place.

Some years back a survey was made in a certain state to find out the cause of failure of so many farmers in that section. It showed 50 per cent of the men who'd moved onto farms and made failures had no previous farming experience, and 30 per cent had no capital to start with. These farmers included barbers, paper hangers, cigar makers, a pair of rasslers a brick layer, a deep sea diver, six old maids and a milliner. Maybe all capable in their regular jobs but as farmers—weeds—flowers out of place!

—o—

We praise or laugh at a lot of queer ideas to help or hinder things in these hectic times of ours—but did you know they have a law in Tennessee, passed way back younder and copied from a North Carolina law—that if a feller takes grist to the mill and the miller doesn't grind it in rotation as it comes in, he can be fined $5 even if one feller lives a little ways from the mill and another three miles away and wants to get home by milking time, the grinding's got to be done in the order as they come.

If it's a water mill, if the miller takes more than the one-eighth toll, he is subject to $5 fine—if it's a steam mill, he can take a tenth—any more or less and the Court can put a $5 fine on him and slap him in jail too.

—o—

Here's the "Old Maid's Creed" for yourscrapbook:

"I believe in Fate—inexirable master of destinies—which consigns one woman to the happy slavery of marriage, and another to the limbo of the unclaimed."

"I believe in the law of compensation, which gives in exchange for listening to her master's voice, the right to carry her own latch key, and tell other people how to raise their children."

BELLEVIEW

Mrs. Richard Marshall is recovering from a severe illness.

Mr. and Mrs. Geo. Walton were restored to full fellowship in the Baptist church last Sunday during the evening service. Miss Mazella Flick and Chas. Newman were received for baptism. Floyd McArthur is also a candidate for baptism.

Mr. and Mrs. Robt. Aylor moved from McVille to the Lampkin property here Monday. We are glad to have them as citizens of our town.

Mrs. Cordie Brindley, who has been a guest of Mrs. Lizzie Smith, has returned home.

Mrs. Minnie Abdon, of Hathaway, is visiting her daughter, Mrs. W. M. Deck.

R. S. Hensley is having quite a lot of improvements made on his residence. Wm. Presser is doing the carpenter work.

J. J. Maurer had a barge of coal unloaded at his coal yard last week.

Mrs. J. A. Riley, of Lexington, is visiting her daughter, Mrs. R. S. Hensley.

Al Rogers and Forest Brown made a business trip to Frankfort, Wednesday.

The body of Mrs. Julia Staley Beck, wife of Dr. Condie Beck, of Rising Sun, Ind., was brought here for burial Thursday afternoon. She was well known here as she formerly lived in McVille and was a sister-in-law of Warren Flick.

Mrs. Margaret Feldhaus, of Columbia, Park, Ohio, arrived Friday for a visit with her brother, C. R. Kite and family.

We wish to extend heartfelt sympathy to Mr. and Mrs. Ezra Aylor and family over the death of their eldest son Howard, whose funeral was conducted at the Taliaferro funeral home in Erlanger, Saturday morning.

Orville Rice and small son Edgar Allen, spent Friday with his parents, Mr. and Mrs. Robt. Rice. Mr. and Mrs. Elmer Rice, of Newport, also visited over the week-end at the Rice home.

Mrs. Chas. Thies, of Rising Sun, Ind., spent Sunday with her sister, Mrs. Ephriam Clore.

Mr. and Mrs. Luther Smith and son were guests Sunday of Mr. and Mrs. John Maurer.

Mrs. C. R. Kite entertained Sunday at dinner in honor of her husbands birthday anniversary the following relatives: Gid Kite, Mr. and Mrs. Jack Purdy and two children, Everett Clore, Mrs. Leila Kite, of Burlington, Mrs. Margaret Feldhaus and Mr. and Mrs. Richard Marshall.

Mr. and Mrs. Joe Brady and daughter, of Florence, Ind., were visitors here Sunday.

Mr. and Mrs. Elmer Jarrell spent Sunday with Mr. and Mrs. Alton Buckler at Waterloo.

CONSTANCE

(By S. D. Hempfling)

Miss Nell Hempfling entertained Mr. and Mrs. Arthur Connley Saturday evening.

Kottmyer Bros., are very busy with the ferry during the flood stage.

Mr. and Mrs. John Hempfling entertained friends from Cincinnati, Sunday.

Mr. Elmer Peeno is recovering from a recent illness.

Mr. and Mrs. Geo. Heist entertained friends from Hebron Sunday.

Mrs. Freda Truel, of Cincinnati, was the charming guest of her sister, Mrs. Alfred Dolwick, one last week.

Rev. Charles E. Hamilton and Mrs. Hamilton have purchased a home near Bromley.

Quite a few from our town attended the minstrel show given by the Junior O. U. A. M. at Covington.

Mr. Elmer Peeno and son. Clarence, and Mr. Earl Dolwick motored to Hebron last Friday night and attended the stunt show given at Hebron high school.

POLITICS AND W. P. A.

Louisville, Ky., March 24.—That politics and the Works Progress Administration in Kentucky were foreign each to the other was further emphasized in a recent communication from Harry L. Hopkins, national administrator, to George H. Goodman, Kentucky administrator.

Squarely to the point Mr. Hopkins said:

"No employee of the Works Progress Administration, either administrative or engaged on a project, is required to make any contribution to any political party.

"No Works Progress Administration employee's job will be in jeopardy because of the failure of said employee to make such contribution.

"No employee of the Works Progress Administration shall at any time solicit contributions for any political party and evidence of such solicitation will be cause for immediate discharge. The question of whether or not to contribute to any political party is a matter entirely for the voluntary decision of said employee.

"No person shall be employed or discharged by the Works Progress Administration on the ground of his support or non-support of any candidate of any political organization."

FLORENCE HOME MAKERS

A Homemakers Club was organized at Florence the 1st of March with twelve ladies present.

The following officers were elected: Mrs. Joe Berkshire, Chairman; Mrs. Clifford Coyle. Vice-Chairman; and Mrs. Floyd Roberts, Secretary-Treasurer. The next meeting will be held March 31, at the Lloyd Home on Shelby Street at 1 o'clock (E. S. T). Miss Mary H. Gillaspie, Asst. Home Demonstration Agent, of Kenton county, will be present. The lesson will be on the selections of wall papers, exterior beautifications. We hope that all ladies residing in the Florence community interested in improving their home will be present.

NO PENSION MONEY UNTIL JULY 1

County officials are being besieged for information concerning the old-age pension law which was recently passed by the Legislature. County Clerk R. A. Thompson, was in Frankfort last week and called at the Department of Public Welfare to seek what information he could concerning application blanks for old age pensions.

The department at Frankfort is now working on the details and just as soon as the matter is finished, application blanks will be sent to each county. Applicants for the old age pension are advised to be patient as this law does not take effect until July 1. The present Legislature, must, however, make provisions to meet the expense before the law will become operative.

All applicants are advised that they should not employ a lawyer or pay fees or charges for any counsel or assistance in securing a pension. Full information and assistance will be given without cost by the State of Kentucky as soon as details of the act have been set up.

All applicants for ald age pension have plenty of time during the coming four months as payments will not start before July 1.

(Falmouth Outlook)

PRESCRIBES SIMPLE TREATMENT FOR LAWN

In response to numerous inquiries regarding lawn treatment this spring, N. R. Elliott of the College of Agriculture, University of Kentucky, is recommending 4 things:

Sow 2 pounds of bluegrass seed per 1,000 square feet.

Apply nitrogent bearing fertilizer, preferably nitrate of soda, at the rate of 5 lbs., per 1,000 square feet. Broadcast after the bluegrass sed is sown.

Roll or tamp the lawn, as the freezing and thawing of the severe winter lifted much of grass out of the ground .

Do not use steel garden rake 'n cleaning lawn, as this will tend to tear out the grass. Sweep the lawn or rake gently with a wooden rake.

RECORDER 1 YEAR $1.50

THE RAILROAD CRISIS

The most important industrial development of the century is transportation. In the present century the Nation has stepped up from the horse and buggy days and crude railroads to enjoy excellent service furnished by automobiles, busses, trucks, railroads, airplanes and steamships. There is deep concern regarding the future of the railroads because of what the President correctly points out are conditions that depend "on sustained ability to improve service, and in many cases, reduce rates.' Railroad management and railroad labor rarely ever have been in perfect agreement and the necessity for greater efficiency and increased economy has resulted in additional differences between the managers and the laborers.

Th Government started in to legislate the railroads out of their troubles during the World War and laws upon laws have been heaped upon another until the burden of the statutes have become so heavy that they are like the straws that broke the camels back. The problem is one in which every comlem is one in which every finger of fate seems to point more and more directly to the possibility of Government ownership of the railroads. And if anybody can find any virtue in the Government ownership of anything they are apt to be in disagreement with the best observers and students of economics.

RABBIT HASH

Mr. Ezra Aylor and family have the sincere sympathy of this community in the loss of their dear son Howard Aylor, which occurred at his home in Ohio last Wednesday evening. His funeral was held at the Taliaferro Funeral Home in Erlanger last Saturday in the presence of a host of relatives and friends. His remains were taken back to Ohio for burial.

Mrs. John Louden and family attended the funeral of their aunt, Mrs. Mike Bailey in Rising Sun Ind., last Sunday. They have our deepest sympathy in their loss. She moved from here several years ago.

Dr. Shallenberger has been very busy lately.

Mr. and Mrs. Harry Acra were Sunday guest of their son Paul Acra and family. They also visited their daughter, Mrs. Thaddie Ryle and family, the past week.

Mrs. Dave Lustenberger was the Tuesday guest of her son and family near Petersburg.

Mrs. Mellie Scott called on her cousin Lena Wingate, Monday.

Mr. Roy Ryle and family were Sunday guest of their son Ivan and family. It was little Betty Dean Ryle's birthday.

Edgar Clore spent Sunday night with his aunt, Mrs. Viola Ryle and family.

Mrs. Addie Scott visited friends in Covington, last week.

McVILLE

Mr. Harold White, who is attending school at Lexington, gave his parents a surprise visit over the week-end.

Several from here attended the funeral of Howard Aylor, at Erlanger, Saturday. Heartfelt sympathy is extended to the bereaved.

Mr. and Mrs. Robt. Aylor moved from here to Belleview last Monday. We were sorry to lose these good neighbors. Mr. and Mrs. Stanley Clore and family have moved into the house they vacated and we welcome them.

Mr. and Mrs. Vernon Scott and sons visited Sunday with her mother, Mrs. Anna Ryle and son Herman, in Rabbit Hash neighborhood.

Mrs. E. E. Newman entertained the teachers, Mrs. Sleet and Miss Grant on Thursday night of last week.

Miss Lena Stephens is staying with Mrs. Grace S. Brown. Miss Zophee Stephens spent last Sunday with her there.

Mr. and Mrs. Hubert West took dinner with her parents, Mr. and Mrs. Bert Smith, Sunday.

Mr. and Mrs. W. D. Brown and Mr. and Mrs. O. Y. Kelly went driving Sunday.

Lillard Scott and wife entertained Sunday Mr. and Mrs. R. Z. Cason and family, Mr. and Mrs. T. B. Oason and Miss Anna Cason.

Mr. and Mrs. Wm. Aylor and Mrs. Stella Scott called on Mr. and Mrs. Stanley Clore Sunday afternoon.

The Willing Workers Class held their monthly meeting at the home of Mrs. E. E. Newman on Friday night.

Several from this community attended the burial service for Mrs. Julia Staley Beck last Thursday afternoon at the cemetery above Belleview. She formerly lived in this community.

what Irvin S. Cobb thinks about:

High Collars and Adams' Apples

BEVERLY HILLS, CALIF. —The moot question of whether the east coast or the west coast is America's artistic center is one of the most mootful you ever encountered. Temporarily, though, it's being eclipsed by the burning issue touching on what the well-dressed man will wear around his goozle.

Irvin S. Cobb

New York's tastiest dressers are encasing their necks within high linen walls—the highest since Jericho, I hear—whereas Hollywood's defenders fight on for the rakish, not to say winsome, open-throated effect—in other words, 'tis a war between the shutins and the fresh-air fiends. Maybe you don't think this is important, but they do.

Today, typical champions of these clashing schools of thought met here face to face. Sunset boulevard's entry was unbuttoned so far down in front he practically was being served on the half-shell, and one and all had a fascinating view of his Adam's apple as it raced up and down, the same as a fox squirrel on a snag. Like a boy chinning himself on a board fence, Fifth avenue's challenger was hidden behind the tallest, stiffest, flaringest collar I ever beheld.

* * *

Kid Movie Actors Stampede

ACCORDING to honest estimates, exactly one child in 3,000,000 gets a chance to qualify as a child actor in the pictures—not an outstanding star, mind you, but just a reasonably successful juvenile performer.

These figures have been broadcast in a laudable effort to check the flood of hopeful parents who pour into Hollywood, seeking large salaries and fame for Junior or precocious little Doris, and finding, instead, only disappointment and heartbreak and finally despair and often destitution.

So I'm repeating the doleful warning. It won't do any good, grown-up vanity and greed and ambition being what they are.

* * *

Headaches From Economic Messiahs

ALBERTA, in Canada, produced an economic Messiah, a spouting John the Baptist of the dispensation, who came out of the wilderness with a lovely device called a "social credit system" which, among other pleasant things, guaranteed every adult in the land $25 a month for life.

So the voters overwhelmingly elected him as premier and from over the dominion flocked in thousands to share in the distribution. Now they're busted; the budget is a sieve; citizens are faced with ruinous taxes—and nobody yet has collected that twenty-five a month.

Industrial depression always spawns its self-anointed saviors who promise to restore prosperity by giving money they haven't got to people who haven't earned it. After a while, in spite of human folly, good times return.

* * *

Crystal Gazing in World Affairs.

TODAY we have a few fresh-laid predictions by good old Doctor Cobb, palm-reading, crystal-gazing, numerology (during income tax week) and car washing.

France will save her face and Ethiopia will lose its pants.

The Rhineland, being German, will keep right on being German, as it should.

Although perhaps making some snoots at each other—for public consumption—behind the scenes Adolph H. and Benito M. will have many a hearty laugh together.

Several smaller nations will get painfully crushed in the jam, as usual. England will positively not get crushed in any jam, also as usual.

Japan will discover the Chinese are responsible for the whole mess and grab off another slice of territory.

* * *

Gov. Hoffman Overlooks a Bet

IN THEIR efforts to impeach the prosecution's key witnesses, Governor Hoffman and the other attorneys for the defense in the Bruno Hauptman case are overlooking a bet.

There was one person who testified most damagingly against the cause to which they have devoted themselves. Under oath, this person solemnly declared that, on a certain night, alongside a certain cemetery, he recognized the voice of the kidnaper, falsely bargaining for the return of a baby already murdered, as the voice of their client.

True, this individual has gone abroad since a trial jury and a high court decided the proof justified conviction. But his whereabouts is known. In accordance with the present campaign, why not fetch him back and attack his evidence as spurious—attack his credibility as an honest and a truthful man? The name is Lindbergh.

IRVIN S. COBB

©—WNU Service.

In Her Own Class

Mr. Sapp—Oh, you're just like all other women.

His Wife—In what way?

Mr. Sapp—You think you're so different.

CHICKENS, LIKE PEAS, DO BEST IN THE SPRING

Chickens, like peas, and many other crops, do best in the spring, points out Dr. J. Holmes Martin of the College of Agriculture, University of Kentucky. When hatching is early enough to give the chicks a good start by hot weather, success is almost assured. Hot weather retards growth, and diseases and parasites that come with it harass the chicks in more ways than one.

Green, tender feed, which is almost an essential for young chicks, is available more readily in spring. Early friers sell best. Then, too, early winter eggs usually command the best price, and only pullets hatched in March or April lay well in early winter.

COWS BRING HOME THE CASH

—When it comes to producing cash for farmers, milk is at the top of the list, contributing more than many other basic products combined, according to the Milk Industry Foundation.

Since 1925 when milk was less than one-seventh of the total farm income it has grown until it now represents more than one-fifth according to Government estimates Three-fourths of all American farms produced approximately $1-600,000,000 milk income in 1935.

Value of milk to th farm economic picture is best illustrated by records during depression lows. Agriculture grossed $11,941,000,000 in 1929 and gross milk income was 2,323,000,000. By 1932 total gross farm income dropped 55 percent to $5,324,398,000 but gross milk income dropped only 46 per cent to $1,260,424,000. In that year the income from milk was more than the income from all grains, all cotton and all tobacco combined.

Consumers seldom realize that prices of home delivered fresh milk are dependent on factors that do not apply to butter, cheese and the dairy products.

Milk sold for cooking and drinking, known as fluid milk, is bulky perishable and must be speedily and carefully handled from the cow until safely home delivered. In the case of most farm products the housewife provides the only "bacteria count" by watching her purchase in the kitchen but an entirely different situation applies to milk.

Constant inspection from the farm to home delivery; exacting and highly technical processes of safeguarding against bacteria; use of sterile, intricate and expensive equipment for pasteurizing; bottling and capping are essential for pure milk. Sterilization of bottles, utensils, cans and equipment alone is an exacting daily process.

Fluid milk cannot be shipped around as desired. While most farm produce can be shipped easily across the continent if necessary fluid milk must be used fairly close to the source of production. While efficient refrigeration and transportation might permit fluid milk to be transported long distances, the cost would be prohibitive.

Those restrictions do not apply to the milk products. Butter, cheese and the other dairy foods can be shipped anywhere with the result that prices are dependent on nation-wide supply and demand.

BEAVER LICK

(Delayed)

Mrs. Mary Ann Noell is on the sick list.

There will be services at the Christian Church Sunday, March 22nd at 2:15 p. m. All are invited.

Mrs. Leslie Moore and sons Howard and Earl were Sunday guests of Mr. and Mrs. Lon Wilson.

Ms. Mattie Griffith and son J. O., called on Mr. and Mrs. John Conley Sunday evening.

Sam Sleet and wife spent Sunday with Mrs. Emma Cleek and Miss Anna Cleek.

Mr. and Mrs. Joe Poole, of Verona visited Mrs. Poole's parents, Mr. and Mrs. Elisha Allen Sunday.

A large number of friends and relatives attended the burial of Ed McAllister at the Baptist cemetery Sunday.

George Baker, Raymond Roter and Walter Vest left in their car Sunday for Florida. They expect to be gone two weeks.

Mrs. Frank Davis invited a number of relatives to her home last Wednesday as a surprise to her husband, the occasion being his birthday. The guests were, Mr. and Mrs. George Fisher, Mr. and Mrs. Lou Wilson, Mrs Laura Wilson. Ms. Harry Moore and R. E. Moore. All present enjoyed the day very much.

Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00 in order to avoid mistakes in getting the genuine LION CROSS HERB TEA please fill out the attached coupon.

OWL HOLLOW

Mr. and Mrs. Doolin and family and Lloyd Stephens spent Sunday with Mm. Arrasmith and niece Alberta.

Twelve of the neighbors went to Albert White's corn field Saturday and shucked his corn, and moved it out of reach of the back water.

Several of the young folks were at the home of Norma and Harold Presser Wednesday night, playing "Rook."

Cathryn Abdon was in the city Thursday.

Mr. and Mrs. Hayes Feldhaus and daughter and Norma Presser spent Sunday afternoon with Ed. Sullivan and family.

Mrs. Daisy Presser, Harold Presser and James Smith, spent Sunday with Leonard Riggs and wife, of Rabbit Hash.

Mrs. Raymond Smith is quite ill at the home of her daughter, Mrs. Beulah Riggs.

Donald Perry, age 20 years passed away at his home in Dayton, Ky., Friday night with a complication of diseases. He is survived by three brothers and six sisters, a father and mother.

Don, as he was known by all his friends, was a graduate of Hamilton High School, class of 1935. He was a loyal Baptist and had a place as leader among the young people of his church.

Don was loved by all who knew him, he had a pleasant word for everyone, and a ready smile. He will be sadly missed by the community, the church and his home. But we are sure that Don is in a brighter world, where sorrow never comes, and he is always greeted by the Savior's smile.

A Friend.

ORDER NOW FOR MEMORIAL DAY

..Our new 1936 Spring showing of memorials is now on display at our two convenient show rooms. More than 50 monuments to select from. Hundreds of markers in all the leading granites. Naturally our prices are lower because we buy in carloads lots.

We can duplicate any marker or memorial and save you money.

Phone or write for estimate. Specify what cemetery (also section and lot number, if any).

Higher quality or better workmanship is not to be had!

Northern Kentucky's Largest Monument Erectors.

BIG BONE

Mr. and Mrs. Ralph Sparks are rejoicing over the arrival of a baby girl—mother not doing so well.

Glad to report Mrs. Tom Huff is able to be out again.

The death of Donald Perry was a shock to all of us, as he was one of our boys. This time last year he was here among us, getting ready to finish school Everybody that knew Don loved him. He was a fine boy. Also Howard Aylor, one of our boys. He married Christine Jones. They lived in Ohio, had a new home and were doing well. God knows best.

Mrs. Mary Noell is very poorly at this time. She is near 80.

Glad to report Mrs. Gertrude Jones, of Erlanger, is better after being threatened with pneumonia.

Mr. Williamson and brother, of Cincinnati, were in our town Saturday.

Wm. Wilson has rented Elijah Hamilton's house and will move this week.

Louise Storey is visiting Mrs. Alta Hamilton.

POINT PLEASANT

Mr. and Mrs. John Hayes and family have moved to A. D. Hunter's house and Earl Johnson, who lived with Mr. B. H. Tanner, moved to the late Billy Cloud place.

J. S. Eggleston and wife went to Newport Saturday night to see the Jr., Minstrel show, which was held in the High School Auditorium which was given by the Kenton and Campbell county Jrs.

Mr. Spence Tanner and son Howard called on his brother, B. H. Tanner, Thursday and Friday afternoon.

Mr. B. H. Tanner has been staying with Mr. and Mrs. Clyde Anderson for some time.

Mr. and Mrs. John Beil and son Johnny, were shopping in Covington, Saturday.

J. S. Eggleston attended the sale at Mt. Zion, Saturday.

Mrs. Elnora Riddle attended the funeral of Mr. Roth, of Sayler Park, last Wednesday.

J. S. Eggleston and wife and Mrs. Elnora Riddle and son J. D., and Charlie Lucas, spent Sunday with Mr. and Mrs. Otto Muntz and daughter Jaunita, of Westwood, O. In the afternoon they called on Mr. and Mrs. Chas. Muntz at Sayler Park. Sorry to report Mrs. Muntz has been very ill, but is some better at this writing.

Mr. and Mrs. Geo. Wernz and sons gave a six o'clock dinner last Wednesday evening in the home of her brother, Lou Dolwick and wife, of New Boston, Michigan. Twenty-eight relatives were present.

Mr. and Mrs. John Beil called on relatives at Elsmere, Wednesday evening.

Mr. and Mrs. J. E. Kenton and children entertained relatives from Harrison, Ohio, woy koy wak wak Harrison county, Ky.

Mr. and Mrs. John Beil spent Saturday evening with Mr. and Mrs. Bill Gross.

Mr. and Mrs. Geo. Wernz and sons entertained a number of their friends Sunday evening.

Mr. and Mrs. Bill Gross called on J. E. Kenton Wednesday evening.

Mr. James Franklin Brown called on Harry and Adam Wernz one evening last week.

Mrs. Mary Robinson is spending several days with Mr. and Mrs. Adam Dolwick.

Miss Mary Elvena Tupman and sister spent Sunday with Miss Lucille Beil and attended Sunday. school.

There were twenty at Sunday school Sunday.

UTOPIA MEETING

Boone County Utopia Club No. 2 members enjoyed a good program rendered at their March meeting held at Burlington last Wednesday evening.

The next meeting will be held Thursday evening, April 16th at 7:15 P. M. The following program has been planned:

Discussion by Robert Graves—"What is the Best Method for a Young Man to get Started in Farming in my Community."

Discussion by William Moore—"What Size and Quality of Farm will Maintain the Living You Desire, Pay Ordinary Farm Expenses and Leave you Free From Debt after 20 to 30 Years of Ownership."

Discussion by Piola Anderson—"Flowers for the Out Door Garden—When and How I Plant Them."

Discussion by Earl Tanner—"Constructing a Home Made Fly Trap."

Hebron Group will be in charge.

POULTRY EXPANSION THRU CLEAN CHICK PROGRAM

There will be considerable expansion of poultry production in Boone County this year, according to H. R. Forkner, County Agt. This expansion will for the most part be conducted under the five point system of the Clean Chick program, namely: 1. Clean Chicks—B. W. D. free. 2. Clean Ground—No poultry on for two or more years. 3. Clean Equipment—Scalded and disinfected. 4. Balanced Rations—Clean feed. 5. Clean Managemnt.

Poultry production expanded on this basis, (ignoring the meat and feed price changes) will be on a sound plan.

Two breeders Grant Maddox of Florence, and J. F. Cleek, of Beaver, have enlarged their capacity to hatch and sell baby chicks. Both breeders are close followers of the clean chick program and expect to raise more birds themselves and have made larger than usual sales of baby chicks this year.

The national poultry outlook for 1936 indicates there will be increased production but that feed prices will likely be favorable. Despite the general market outlook Boone County is most favorably situated for greatly increasing the amount of poultry produced.

College of Agriculture circulars giving recommendations on the Clean Chick Brooding program, feeding, management and other important poultry problems are available at the County Agent's office upon request.

BOONE SEVENTH BANG'S DISEASE CONTROL

Fifty seven hundred cattle and 558 herds have been tested in Boone County for Bang's disease since the beginning of the work up until January 31, 1936, according to reports of Dr. W. F. Bile, Inspector in charge U. S. Bureau Animal Industry at Frankfort. Six hundred and thirty-two or 11.1% of these animals have reacted and were sold for slaughter.

Boone County ranked seventn among all counties in the State in number of cattle tested. Christian county ranked first with 10,831 head tested followed by Nelson county, Shelby county, Hardin county, Graves county and Warren county. A total of 200.753 cattle in the State have been tested with 15,766 or approximately 8% reacting.

The elimination of Bang's disease has not only eliminated the disease itself but many secondary factors including general health of the cows. many udder diseases and other problems. The Federal Government for a limited time is paying all costs of testing and is paying on the difference between the appraised value and slaughter value of reactors up to $25.00 for grades and $50.00 for purebreds. Dr. Kenneth Ryle, Burlington, is in charge of the testing work in Boone County. Any farmer may have his herd tested by calling Dr. Ryle. Farmers wishing to have their herds cleaned up must request this service as it is strictly a voluntary program and is available only on request. Requests should be made before the present appropriations are exhausted.

HIS ONE OVERSIGHT

This is the story of a prudent man, as told by a Kansas newspaper:

He brushed his teeth twice a day, wore rubbers in wet weather, did his daily dozen, slept with windows open, was careful with his diet, had a medical examination twice a year, never smoked, drank or indulged in any kind of excesses. He was all set to live to be 100 years old.

The funeral was held last Wednesday. He is survived by 18 specialists, four health institutes, six gynasiums and numerous manufacturers of health foods and antiseptics.

He had forgotten to look out for a train at a grade crossing.

WHY NOT?

It is claimed in Waterloo neighborhood that there are quite a few wild Guineas. Some of the local sportsmen seem to think they would be better shooting than the Pheasant and could stand the severe winter weather better.

Why not try some of both—Guineas and Bantam chickens?

Mr. and Mrs. Bob Gaines, and daughter, of Erlanger, were in Burlington a short while, last Thursday nite.

CAREY CORK INSULATED SHINGLES

When the summer sun beats down, Carey Cork Insulated Shingles make houses much cooler. The cork layer provides real insulation, while the extra thickness makes a beautiful, deep shadow-lined roof.

Yet this unusual shingle costs much less than the price of ordinary roofing plus the price of separate roof insulation. Let us supply samples and quotations.

WHOLESALE & RETAIL

COVINGTON, KENTUCKY

HAMILTON

This community extends sympathy to the families of Howard Aylor and Donald Perry, who passed away the past week. They were formerly of this community and both were splendid young men and highly esteemed by all who knew them.

Tom Huff and wife and Garland Huff and family, were guests of Mr. and Mrs. Fritz Hermesh, Sunday.

Hamilton school will be closed several days this week on account of high water.

Prof. Asbury and family are visiting home folks in Mt. Olivet, Ky., while school is closed.

Mr. Mills and family have moved into the cottage of Mrs. Moore at Big Bone Springs.

Geo. L. Pitcher, Jr., of Newport, Ky., spent Sunday with his parents.

Glad to report Mrs. Gertie Jones, James McCubbins and Mrs. Sparks are recovering.

Robt. Ewalt, of Cincinnati, Ohio, spent Sunday with home folks.

Several from here attended the funeral of Howard Aylor, Saturday.

Many people were in Hamilton Saturday and Sunday to see the Ohio river.

According to the outlook there will be a very large crop of tobacco pitched in this county the coming season. Plant beds are dotting the hills in every direction.

ESTABLISHED 1875

VOLUME 60 | BURLINGTON, KENTUCKY THURSDAY APRIL 2ND, 1936 | NUMBER 50

FREEING OF TOLL BRIDGES

IS BEING PUSHED BY THE KENTUCKY FREE BRIDGE ASSOCIATION—BEN JOHNSON FAVORS PLAN

Prospects of freeing Kentucky's eight intra-state highway bridges of tolls this year are so bright that the Kentucky Free Bridge Association, recently organized in Paducah, will concentrate its efforts in Frankfort during the next few weeks, according to Herbert L. Wallerstein, Paducah, president of the Association. Mr. Wallerstein said the Association is hopeful of bringing the matter before the General Assembly at one of its special sessions this spring. Should the Assembly approve a bill abolishing the tolls, the Highway Commission could immediately free the bridges. Tolls now range from 55 to 80 cents for passenger cars.

Chairman Johnson of the Highway Commission, at the last regu. meeting of the Commission, said he favored the movement to free the bridges and added that he would make this his principal interest in the future. Gov. Chandler said that if a suitable plan for retiring the bonds without the collection of tolls can be worked out, he will bring the matter before the Legislature this spring.

Bonds outstanding on the eight bridges now total $4,340,000. At the present rate of toll collections, the bridges will not pay for themselves for another eighteen years or so. It is hoped the Highway Commission within the next few weeks will be successful in devising a plan to set up a sinking fund out of its present revenues and thus free the bridges immediately.

The Kentucky Free Bridge Association was organized and incorporated in Paducah for the sole purpose of freeing the toll bridges, Mr. Wallerstein said. It has no political motive and when its work is completed it will be disbanded.

Besides Mr. Wallerstein, officers of the Association are: Charles G. Vahlkamp, vice-president; George F. Runge, secretary-treasurer, and the following directors: Mr. Wallerstein, Mr. Vahlkamp, Mr. Runge, Harry L. Meyer and Dr. Henry C. Pepper. The officers have appointed Joe LaGore, Paducah newspaperman, as executive secretary and field man. LaGore will carry on the Association's work at Frankfort.

The eight bridges in the intra-state system are located as follows: Over the Cumberland river at Burnside, Canton and Smithland; over the Kentucky river at Boonesboro and Tyrone; over the Green River at Spottsville and over the Tennessee River at Eggner's Ferry and near Paducah.

INDIANA GOVERNOR

BEING BOOMED AS KEYNOTER OF THE DEMOCRATIC NATIONAL COVENTION

A petition, sponsored by Eugene B. Crowe, Representative, Bedford, Ind., urging the selection of Gov. Paul V. McNutt for temporary chairman to deliver the keynote address of the emocratical National Convention in June was forwarded last week to James A. Farley, Democratic National chairman, and all the members on the committee on arrangements for the convention. The entire Indiana Democratic delegation in the House of Representatives joined in signing the petition.

"As Governor of Indiana he ranks at the top," the petition stated," and his outstanding administration has been copied and surveyed by many state executives. Gov. McNutt is known throughout the United States and is in constant demand for speaking engagements from coast to coast. As a speaker he is not excelled by anyone in public life today. He is striking in poise and dignity and his eloquence and sound logic would inspire the nation."

DINES COMPLETING REMODELING

Dines Furniture house, Marching on with times, have almost completed remodeling of their store. When completed, the public of Northern Kentucky, will see one of the most modern stores inside and outside. Watch for the many events to follow completion of this work.

SCIENCE CLASS OBSERVES RECORDER PRINTING PLANT

The general science class of the Burlington high school, accompanied by Prof. Moore made on observation of the Recorder printing plant on Wednesday press day, of last week. The class appeared very interested in the operation of the various pieces of machinery.

WM. T. GIBSON

Wm. T. Gibson, aged 87 yeas, passed away Saturday afternoon at the home of his daughter, Mrs. James Bonham, Florence, Ky. The remains were removed to the Taliaferro Funeral Home in Erlanger for preparation.

He was a stone mason contactor in Covington for 30 years and was a member of the Latonia Baptist church.

He is survived by three daughters, Mrs. James Bonham, Florence, Ky., Mrs. John Reimer, Richmond, Ind., and Mrs. Geo. Wolke, Clarksburg, Ky.

The remains were forwarded Monday morning to Clarksburg, Ky. Services and interment will take place Tuesday in that city.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

PORTABLE RADIO RECEIVING SETS

FOR ISOLATED FAMILIES OF EASTERN KENTUCKY—BEING SPONSORED BY U. OF K.

An experimental portable radio listening center, the first of its kind in America, has been established by the University of Kentucky in the "mountain" area of the state, it has just been announced. This unique center will be under the immediate supervision of officials of Caney Junior College, Pippapass, Ky., and will be taken to the more isolated mountain cabins to be left for several days at a time.

Since 1933 the University of Kentucky has been steadily building up its system of radio listening centers in remote portions of eastern Kentucky, to enable the inhabitants of those areas to enjoy the educational, cultural and recreational advantages of radio. About a score of these centers are now in operation under the supervision of community center directors, school principles and others.

The new type will serve the mountain inhabitants by reason of infirmity, illness or bad climatic conditions are unable to reach the regularly established centers.

The equipment being sent to Pippapass consists of a small box about a foot and one half square, which contains the set, built-in aerial, tubes, loud speaker and miniature batteries. The entire outfit can be carried by one man as easily as he could transport a suitcase.

If the experiment in Knott county proves worthwhile, additional portable listening centers will be provided for other parts of eastern Kentucky.

CLYDE OURSLER

Clyde Oursler, aged 51 years, passed away Wednesday morning at his home Virginia Ave., Erlanger, after several months illness with heart trouble. The remains were removed to the Taliaferro Funeral Home for preparation.

Mr. Oursler was an employee of the Federal Reserve Bank in Cincinnati, Ohio, and had been a resident of Erlanger two years.

He is survived by his widow, Mrs. Susie Oursler, one brother, and three sisters.

The pallbearers were R. F. Oursler, Ernest Beaver, George Oursler, Geo. Greenwood, Mr. Bruce and M. Schneider.

Funeral services were conducted Friday afternoon at 2:30 o'clock by the Rev. Williams of the Mount Washington Presbyterian church, at the Taliaferro Funeral Home, interment following in Highland cemetery.

FORMER BOONE COUNTY LADY EXPIRED IN CALIFORNIA

Mrs. Mary Vaughn, widow of the late Johnson Vaughn, died recently in Los Angeles, Calif., and was buried in that city. Mrs. Vaughn was born and reared in Boone County and lived at Burlington fifteen years in the residence now occupied by Mr. and Mrs. W. C. Weaver. Three daughters survive. They are Misses Sallie and Lucy Vaughn, Los Angeles, and Mrs. Nellie Borders, Florence.

KENTUCKY OPTOMETRISTS

TO MEET AT LEXINGTON APRIL 5, 6 AND 7.

Optometrists from all over the State of Kentucky will meet in Lexington at the Lafayette Hotel April 5th, 6th and 7th to attend the Twenty-Third Annual Convention of the Kentucky Association of Optometrists and the Graduate Clinic in Optometry which will be conducted at this time.

A very extensive educational program has been arranged with Dr. A. M. Skeffington, Chicago, Internationally known authority on Optometry, conducting the Clinics. Dr. Thomas G. Atkinson, Member of the Faculty of Northern Illinois College of Optometry, Chicago will lecture. Added features of the Program will be "New Developments in Polarization of Light," by Department of Physics, University of Kentucky and "Sub-Normal Vision" pictures shown by Dr. L. N. Leonard.

The annual election of officers of the Association will be held Sunday evening April 5th.

Dr. Jos. B. Schnippering of Covington, is a member of the Law Enforcement Committee of the Association and also Chairman of the Covington Study Group of the Association.

MAKES EARLY HATCH PAY

John W. Cain, of near Devon made his early hatched pullets pay the past winter. One hundred and twenty-three White Rock pullets averaged 11.2 eggs per bird for October, 12 eggs in November, 11.8 in December and 15.8 per bird in January or a total of 50.8 eggs per bird for the four months in which eggs are usually highest. These birds returned a gross profit above feed cost of $6.37 or an average of 78½ cents per bird.

There is usually not much money made from poultry but good practices pay. Poultry in fact, can be made one of the most profitable farm enterprises, provided good practices are followed. Good practices generally mean early hatched disease free chicks grown in clean surroundings and given careful management.

Mr. Cain is former postmaster of Erlanger. He has retired to his farm near Devon where he raises chickens and is an expert Dahlia, Peonia and Gladiola grower.

OPENS FURNITURE STORE IN COVINGTON

Edward Baldwin, of Madison County, opened a new furniture store at 41 Pike Street, Covington, last Saturday.

Mr. Baldwin has had 20 years experience in the furniture business, having held positions as salesman, decorator, buyer and manager of stores and departments. He states low prices will be the policy of his store, which occupies the entire building of three floors, with entrance also at 36 West Seventh Street. Mr. Baldwin carries an announcment in this issue of the Recorder.

NEW FARM PROGRAM OUT THIS WEEK

The New Soil Conservation program will be announced to Boone County farmers this week according to H. R. Forkner, County Agt.

A district conference was held at Falmouth Wednesday to make plans for starting the program in the county.

Boone County farmers are much interested in the farm program and most of them are hoping for a program that will be equally effective as the old AAA. The County Agent's office thru use of local committeemen will use every effort to inform farmers at the earliest possible date the detils of tre new program.

LIME PROGRAM POSTPONED

UNTIL FALL DUE TO THE BAD WEATHER CONDITIONS AND RUSH OF SPRING WORK

The Boone County Soil Improvement Executive Committee voted Monday afternoon to postpone the lime pulverizing project until this fall. Practically all rock piled has been crushed and present spring work is too rushed to expect many farmers to pile rock for the next three months.

Hubert Conner, Secretary, reports that 3400 tons of the 7200 tons originally listed had been pulverized to-date. Joel Gray, President, reported the winter had been adverse to farmers collecting rock and the ground in recent weeks had been too soft to haul stone if they were available on the farm.

Plans are to complete this work this fall for all farmers listed provided they will pile their stone and be ready when the pulverizer makes the second trip over the county.

CONGRESS PASSES SPECIAL COIN BILL

A bill providing for the minting of 15,000 special half-dollars in in commemoration of the 50th anniversary of Cincinnati as a music center was passed last Wednesday by the House of Representatives and sent to the White House.

Introduced jointly by Senator Robert J. Bulkley, Cleveland, and Representative William E. Hess, Cincinnati, the bill passed in the Senate several weeks ago.

DISTINGUISHED VISITOR

Mr. William Finn, a former Boone Countian, who is now connected with the United States Department of Agriculture and who has recently returned from Europe where he made an extensive study of agricultural conditions of that continent, made a very brief visit with relatives and friends of this county Monday night and Tuesday.

ERLANGER UNDERPASS

WELL UNDERWAY—DETOUR OF ONLY TWO BLOCKS NECESSARY DURING CONSTRUCTION

An underpass of several hundred yards extending from Brown's Dry Cleaning establishment to Dempsey's Motor Company, Erlanger, eliminating all traffic passage over the Southern Railway tracks, is well under way and completion is expected by the latter part of spring. A portion of the work is being done by PWA labor, however, construction companies and local laborers constitute a greater part of the employment.

First reports indicated that traffic would be detoured via Crescent Springs, later reports however show that a detour of only two blocks will be necessary during the construction of the underpass.

The Shell Service Station, located just west of the Southern tracks will be closed definitely due to the fact that the new construction will entirely prohibit entrance to the station. It is thought that the underpass will not interfere to any great extent with the entrance of other business houses fronting the project.

S. L. M. SOCIETY TO MEET

The Sophia Lloyd Memorial Society, of Florence, will meet at their home, Shelby St., for an all day meeting Saturday, April 4th. All members are urged to attend as important business will be discussed.

Sarah Marksberry, Pub. Chm.

Constable McKnight On Duty

With privileges to wear a shinny badge, with authority to arrest and serve papers and with power vested by law Vincent McKnight, a resident of Kentaboo, sub-division of Florence, is now known as Constable Vincent McKnight and his authorized jurisdiction includes the magisterial district of Burlington-Florence-Union. Not since Thomas Johnson qualified in 1922 has Boone County had an officer of peace, who bears the title once so sought after by officers of high rank in medieval monarchies.

All citizens and especially motorists of this constabulary should be awawre and must beware as Constable Vincent McKnight will now be on duty.

Constable McKnight qualified for his office Saturday, March 28 and his time will not expire until January 1, 1938.

WOOL GROWERS MEET

Boone County Wool growers will meet at Burlington Court House, Monday afternoon, April 6th to make plans for selling the 1936 clip. All growers are invited to attend.

The county pool sold approximately sixty thousand pounds last year and has sold more than fifty thousand for the past four years. The County Association has proven highly satisfactory to growers. The price of wool this year is considerable higher than last year.

THOMAS ALLEN

Thomas Allen, the four year old son of Mr. and Mrs. Thomas Allen passed away Monday night at St. Elizabeth Hospital, Covington, Ky., following a day's illness with cerebro spinal meningitis. The remains were removed to the home of his parents on Erlanger Road, Erlanger, Ky., and private services were held there Wednesday afternoon at 2 o'clock, interment following in Verona cemetery.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

Paul L. Sidebottom, State Represenetative, Williamstown, was a business visitor in Burlington, Saturday.

EASTER FEATURE IN NEXT ROTO

SECTION WILL BE OF OUTSTANDING INTEREST TO WOMEN READERS. RECORD NUMBER OF PICTURES IN NEXT WEEK'S ROTOGRAVURE SECTION.

Easter's the theme of women's features in our April all rotogravure STATE FARMER SECTION which comes to you next weeks as a part of The Recorder. But with the flowers, Easter bonnets and the general holiday trend of things, you'll find plenty of good common sense farm facts and figures.

This editorial privilege of getting an advance look at the Recorder's "picture paper" convinces us that every member of the farm family will just about revel in our April issue. One story that should prove rather amazing to many readers, by John S. Gardener of the Kentucky College of Agriculture, shows the gigantic part of the simple potatao has played in world's history. "Golden fleece tarnishes unless burs are removed," warns Prof. L. J. Horlacher in suggesting methods for shearing sheep. Another colorful feature, profusely illustrated, tells how old fences now sweeten the Bluegrass they guarded for over a century. ennie Holland and reveals how farm women in 24 Kentucky counties made their own Easter Bonnets.

If you've been pondering over over the new Soil Conservation and Domestic Allotment Act, you'll be keenly interested in a clear cut analysis of the measure and what it will mean to Boone County.

Next week, you'll see The Recorder setting a record in the number of pictures we'll be bringing you in our rotogravure farm magazine. We think they're mighty interesting and attractive. Watch for them!

MRS. MINNIE M. TAYLOR

Mrs. Minnie Moore Taylor aged 72 years, passed away Friday morning at her home on the Dixie Highway, Erlanger, Ky., after a long illness. The remains were removed to the Taliaferro Funeral Home for preparation.

She is survived by two daughters, Mrs. P. J. Carter, Miss Nancy Taylor, four sons, J. O. Taylor, Mayo Taylor, Dwight Taylor and Lyttleton Taylor, several grandchildren and a host of other relatives and friends.

Services were conducted at the late residence Saturday afternoon at 2:30 o'clock by the Rev. Frank J. King, pastor of Erlanger Methodist church, after which the remains were taken to the Cincinnati Cremation Co., for cremation.

The four sons acted as pallbearers.

Funeral Director Philip Taliaferro had charge of the funeral arrangements.

Rev. A. R. Hoe, who has been preaching in the Mountains of Kentucky, delivered the morning address at Burlington Baptist church, Sunday morning.

CIVILIAN CORP CAMP SCS-5

DOING MUCH TO AID BOONE COUNTY FARMERS—APRIL 1 MARKS 3RD ANNIVERSARY

The first day of April marks the end of the third year since the first Civilian Conservation Corps camps were organized.

Camp SCS-5 Ky., Walton, Boone County, Ky., was first set in tents as a preliminary camp by twenty-five men on July 1, 1933. It is located on the old Walton Baseball Park about one-half mile west of the Main Street of the town. The main body of enrollees arrived on August 8, one hundred fifty-two in number, and on September 5 additional enrollees came to raise the company strength to two hundred ten.

Work in the field was begun on August 22 Consttruction of portable wooden barracks was begun on September 20, and on October 26 all the personnel was housed.

Unusual interest in the work of the camp has been displayed by the farmers of the immediate vicinity, as is evidenced by the fact that over one hundred were included in a prospect file who had sought the technical personnel of the camp for consultation before the first of October. This file has grown to approximately two hundred names, and these owners are next in line for examination and planning of their farms.

Cooperative agreements have been made with twenty-two farm owners. This involves the mapping of a total of 3,100 acres, soil testing of 600 acres, rotation plans for 2,000 acres, retirement to trees or permanent pasture of 900 acres, contour cultivation of 300 acres, terracing of 200 acres, "strip" cropping of 150 acres, the gathering and hauling of 1,500 tons of field limestone for crushing, and the building of 14,500 feet of fence.

The work of helping these owners to start out these plans has been completed on twelve of these properties, with the exception of fencing and the planting of locusts. There are two hundred fifty thousand locust seedlings on hand to be set out before the end of this planting season. The work done includes building 1,274 erosion control structures, sloping in 21,000 square yards of gully banks; seeding torye 70,000 square yards of gully banks and sheet erosion.

The camp has gatnered 6,900 pounds of seeds which were delivered to the Soil Conservation Nurseries for planting. These were mostly walnut, hickory, and locust, and will furnish seedlings for future use.

ORDINATION SERVICES

CONDUCTED AT THE LOCAL BAPTIST CHURCH SUNDAY WHILE LARGE CROWD FROM ALL PARTS OF THE COUNTY WITNESS CEREMONY

Rev. Cline L. Vice, Burlington, who has for the past several years has been preparing himself for the ministery was ordained at the local church Sunday evening, following the examination which took place Saturday afternoon by ministers from the most outstanding churches in this section of the North Bend Association.

The members of the examining council were: Rev. R. Lee James, Burlington, moderator and questioner, Rev. Raymond Smith, Bellevieww, Clerk, Rev. B. A. Miller, Dry Ridge, Rev. W. T. Dunaway, Petersburg, Rev. T. L. Wooten, Walton, Rev. J. W. Campbell, Bullittsburg, Rev. C. J. Avery, Sand Run, Rev. Johnson, Big Bone, and Rev. Harmon Eggleston, Versailles, Indiana.

Those participating in the Ordination Services were: Sermon by Rev. R. Lee James, Ordination prayer by Rev. W. T. Dunaway, Charge to the Candidate by Rev. W. A. M. Wood, presentation of Greek Bible and Diploma by Rev. James, and closing prayer by Rev. Cline Vice.

Rev. Vice is to be congratulated for his knowledge of the Bible as he was unanimously recommended for ordination by the members of the Examining Council, and at this time has already been called as pastor of the Mt. Moriah church of Boston, (Nelson County) Kentucky.

MEMBER KENTUCKY PRESS ASSOCIATION ORGANIZED JANUARY, 1860

Editorial of the Week

"THE FIFTH HORSEMAN" RIDES FASTER

The National Board of Fire Underwriters reports that the estimated fire loss for January, 1936, was more than 18 per cent in excess of the loss for the same month last year. This loss, it adds, reflects only the beginning of an outbreak of serious fires whose ravages will be reflected in the statistics for succeeding months.

The unusually severe weather of January and February was, of course, largely responsible for the increase. But to put the blame entirely on weather, and to admit no failure on our parts, is certainly not justified by the facts. The average man is not "ready" for bad weather, because of human ignorance carelessness, or plain slothfulness. How many of us carry on periodical inspections of furnaces, pipes and other heating devices in order to make sure that they will operate safely at high capacity? Very few do that—the rest just take a chance that the "old furnace is okeh," and a disastrous fire often results.

Warm weather will come again, eliminating the heating plan hazard for the time being—but that doesn't mean that we are safe from fire. Each season brings its own hazards, and all are vitally important. Dry weather bakes out fields setting the stage for disastrous grass fires—and fires of this character have, on many tragic occasions destroyed whole communities. And dry shingles are the perfect target for a fireplace or cooking stove spark that can set a house aflame in an incredibly short time.

Fire loss is rising, after a period of years in which it was slowly but steadily declining. That fact lenge by every citizen, and give us the impetus we need to eliminiate hazards on our property, cooperate with fire prevention bodies, and thus do our part to rid the nation of the dread menage of "the Fifth Horseman."

BUSINESS PRINCIPLES HELP BUYING

A recent booklet issued by the Extension Department of Cornell University forecasts marked improvement for the dairying industry this year.

Already, the bulletin says, there has been a better adjustment of production costs to prices, and a higher level of farm income has resulted. The decline in consumption of fluid milk, which was one of the most serious problems faced by dairymen up to recently, has apparently stopped. And it is expected that any changes in the general price level will be reflected by equivalent changes in the price level of dairy products.

Progress of this kind is largely the consequence of higher consumer incomes and better economic conditions in general. But the work of farm cooperatives in studying production and distribution proolems to improve conditions for their members has been of the utmost importance. Some of the best co_ops in the country are the dairy groups—long established, well managed, and operated on the best principles. They have done splendidly in seeking to balance supply with demand, to improve farming efficiency, and to obtain fair prices. They have applied sound business principles to farming. Without this work, it is safe to say that the dairy farmer would have found recovery much slower than it has been.

THE YARD STICK OF EDUCATION

Amidst the confusion among various schools of thought regarding present_day education, it is really difficult to find a satisfactory yardstick with which to measure that elusive individual, the educated man.

Many hold the view that no one is truly educated unless he is familiar with the classics, proficient in several languages living and dead, versed in higher mathematics, and so on. Another school, while recognizing the desirability of a classical education when circumstances permit denies that the classicists haxe exclusive claims to real education.

In this connection as though expressed by the Boston philanthropist, Edward A. Filene, is pertinent. He declares that "the educated mind today is the mind which apply to the thing which he is doing."

And that seems to be a very good definition.

UNUSUAL ITEMS CLIPPED FROM OUR KENTUCKY EXCHANGES

MAKING AN ASS OF HIMSELF

Governor Hoffman, of New Jersey, is making an ass of himself in the Hauptmann case. It is very plain now that when he granted a reprieve several weeks ago he had no semblance of evidence to justify that action. Apparently he merely hoped that something might turn up to cast reasonable doubt on Hauptmann's guilt or to show that Hauptmann was not the only person involved in the kidnapping and murder of the Lindbergh baby. Now it is reported that Gov. Hoffman is working on the theory that police "framed" Hauptmann by reconstructing the kidnap ladder with pieces of wood sawed from the attic floor of Hauptmann's home. If Gov. Hoffman wants to become the chief defense counsel for Hauptmann, he should resign as Governor. He can't represent the State and defend a convict murderer at the same time.—Kentuckian_Citizen.

HORSE WEARY OF STALL TRIES TO BE MECHANIC

Mr. and Mrs. Roy Belcher, Campbell county citizens, were surprised in an unusual way recently when they went to their stock barn to do the milking, according to the Outlook's Brayville correspondent. They noticed one of their horses was not in his stall.

After searching the grounds about the home they found the animal under their automobile in the driveway. He had in some way broken loose from the stall and gotten under the car.

It was necessary to jack the auto up and back it off the animal before it could be released.—Falmouth Outlook.

EDITORIAL PARAGRAPHS

A very important thing going on now is—spring clothes.

—o—

Another sign of spring is when the small boy hides the rake and the carpet beater.

—o—

If a little of the time spent in growling about high prices were spent in reading the newspaper advertisements, some people would be better off.

—o—

About now the men show their entire confidence in their wives by trusting them to do all the work of housecleaning.

—o—

Everyone, even newspaper men, like to do favors, also everyone, including newspaper men, appreciate returned favors.

—o—

Only a few of the citizens of Boone county realize that they are living in one of the most progressive counties of the State.

When, and if the Townsend plan becomes effective a lot of young people will begin charging their parents for board—Philadelphia Inquirer.

what Irvin S. Cobb thinks about:

A Bride for King Edward

BEVERLY HILLS, CALIF.—According to tradition—or maybe it's law—King Edward is limited in the choice of a bride to one of five European princesses. Even so, his majesty would find nearly everybody over here giving loud cheers—and some of his loyal subjects at home doing the same thing, too, I bet you—did he just up and marry the healthy, sweet, normal-minded, clean-blooded daughter of some English country family.

Irvin S. Cobb

Indeed, he might go further and fare no worse, by taking for his queen a well-born Canadian girl. Still, this would severely shock a certain type of Britisher who always refers to a Canadian as a "colonial," with a lower case "c" or, how about a maiden from a quarter which, like Canada, produces some of the loveliest women in the world—the Antipodes? By the way, does that same breed of insular Englishman call a native of those parts an Antipathy?" Probably so.

* * *

Hamlet and Hams

THE papers say a peasant audience in Rumania broke up a Shakespearean performance because it wasn't funny. Well, could they but watch some of the Hamlets I've watched, they'd die laughing.

Likewise, if those riotous peasants really have a sense of humor they'd get a giggle out of a certain not altogether unfamiliar pattern of classical screen production, never realizing, of course, that they were laughing at an epic.

One thing, though, we can do superlatively in these parts and that's putting on a ballyhoo. That gigantic flaming meteor which scared folks along the eastern coast wouldn't have caused a ripple out here. We'd just think somebody was opening a new lunch stand over on Hollywood boulevard.

* * *

Perkins Versus Roper

I DO so wish the Tommy Manvilles would make up their mind, one way or the other, so we could all concentrate on those plaintive tapping sounds emanating from the cabinet at Washington.

Dame Rumor hath it that it's Uncle Dan Roper signaling faintly for help because somebody in the administration is trying to snatch his playthings from him. Now Uncle Dan is a patient soul and a true southern gentleman, so not for worlds would he antagonize any good Democrat, much less a lady Democrat. But they do say he harbors a secret gnawing grievance.

As the report filters through out here he doesn't mind Mme. Perkins taking her own job so seriously, but does object to her trying, with equal seriousness, to take his.

It may be only a base Republican slander. Still, say what you will, Mme. Perkins has got a mighty determined jaw.

* * *

Reading 5,000,000 Telegrams

WHILE it may have been sort of care-free for Senator Black's committee to seize all those musty mountains of private telegraph messages, why invoke the law to enjoin 'em? Surely anybody who deliberately sits down to wade through 5,000,000 stale telegrams has been punished before he starts and will suffer from pollen in the pod before he's through. Think of the wires a fellow gets on birthdays and holidays. Some of them aren't so good even when fresh, are they?

Apparently the present investigation aims to find out whether any lobbying has actually gone on in Washington—and indeed there has been a suspicion to that effect for quite some time.

* * *

Farewell to Shaw

AFTER his recent trans-continental scorning tour he has left us—once our venerated idol and always our severest critic.

Somebody overlooked a chance as the world's most ex-distinguished vegetarian, having in advance deplored it for showing the bad taste to be a Yankee institution, stood on the rim of America's noblest scenic wonder, shaking a petulant whisker over that incredible void and munching a carrot and poison-ivy sandwich. The Grand canyon certainly would have been such a swell place for throwing your old George Bernard Shaws.

With war-clouds thickening on half of Europe's frontiers—not to mention Asia's—the League of Nations is functioning as usual. In other words, it is to menacing armies what a weather-vane is to the weather.

IRVIN S. COBB.

Following One's Ambition

Don't let people discourage or kill your ambition by telling you that the thing you propose to do is absurd, that "it can't be done." Those "practical" souls can't see the vision that you see. They don't feel that inner urge which is constantly bidding you up and on. You yourself may not realize that it is the call that runs in your blood, a divine call to do the thing that you were sent into this world to do.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. P. B. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago. © Western Newspaper Union.

Lesson for April 5

JESUS INVITES ALL PEOPLE

LESSON TEXT—Luke 14:15-24.

GOLDEN TEXT—Come; for all things are now ready.—Luke 14:17.

PRIMARY TOPIC—How Jesus Kept the Sabbath.

JUNIOR TOPIC—A Great Invitation.

INTERMEDIATE AND SENIOR TOPIC—The Excuses We Make.

YOUNG PEOPLE AND ADULT TOPIC—Our Response to Christ's Invitation.

In this chapter Luke pictures Jesus freely mingling with his fellowmen in worship and social intercourse. While thus freely mingling with his fellowmen, he was aware of their inner hostility to him and set forth under the parable of the great supper the sinful folly of men who reject his gracious offer of salvation.

I. The Great Supper (v. 16).

This great supper represents God's gracious provision of salvation through the vicarious atonement of Jesus Christ. Christ himself declared that he was the bread of life. As bread is to the physical body, so is Jesus Christ to the soul. It is called a supper because it is the last meal of the day. Jesus Christ's sacrificial death is God's last effort for the salvation of men. The one who misses supper goes hungry through the night; the one who neglects and rejects the gracious offer of salvation in Jesus Christ shall forever perish. It is a great supper because its provision was made in the counsels of the eternal Godhead. It was wrought out by the Son of God and avails for the salvation of all races and kindred and tongues. There is no one whose sinful condition debars him from this precious feast.

II. The Gracious and Urgent Invitation (vv. 16, 17).

These words, "Come; for all things are now ready," reveal the attitude of God toward a sinning race. Truly it is not the will of God that any should perish, but that all should come to repentance. His servants have been going up and down the world for thousands of years saying to men dead in trespasses and sins, perishing for want of the bread of life, "Come; for all things are now ready." God is never behind time. There is absolutely nothing lacking in his provision for needy souls. The only thing demanded of the hungry and dying world is that it accept his urgent invitation. Man's responsibility is to receive Jesus Christ. All who accept his invitation are assured of a welcome at his table.

III. Men's Attitude Toward God's Gracious Invitation (vv. 18-20).

"They all with one accord began to make excuse." They feigned a willingness to come, but their excuses showed that they were completely absorbed in selfish interests and, therefore, disregarded the invitation of the divine Host. This is a vivid picture of the reception which men are everywhere giving the gospel.

1. The first one was taken up with the buying of land. On this account he begged to be excused. Supper time is a poor time to go to see a piece of ground. Besides, he had already bought the ground and, therefore, he was under no necessity of going to see it at supper time.

2. The second man desired to be excused in order that he might test a yoke of oxen which he had bought. Supper time is not a proper time to test oxen. Then, too, he had already bought them; therefore, there was no urgency in testing them.

3. The third excuse was perhaps the flimsiest of all. In all probability his wife would have been glad to accompany him. It is to be noted that the excuses made are plausible, as they concern things that are right in themselves. It is right for a man to have land, have oxen, and live with a wife, but when these legitimate interests crowd out God and the things of the Spirit, they are to be ignored.

IV. Guests From the Highways and Hedges (vv. 21-24).

1. The anger of the master of the house (v. 21). It should not be forgotten that God, while great in mercy, is capable of anger toward those who reject his mercy. It is a great mistake to remove anger from the character of God. To reject his mercy exposes to his fierce anger.

2. The Lord's house filled (vv. 21-23). The places of the very ones who were first bidden were filled with other guests, some of them poor and helpless, from the lanes and streets of the city and others the vagrants from the highways.

3. The awful condition of those first bidden (v. 24). The master of the house declares that none of them shall taste of his supper. Since the supper represents the free grace and mercy of Jesus Christ, to refuse him is to be eternally deprived of the high privilege of sitting at the Master's table.

Why We Are Lonely

Loneliness is often our own fault. We have not brought others enough into our own life, or we have repelled others by making too many claims upon them, or by seeking too much sympathy for ourselves.—Stopford A. Brooke.

Goodness

As the presence of salt is not so noticeable as its absence, so the good are most appreciated when they are gone.

TEN YEARS AGO

HEADLINES — Virginia Yelton Winner in Spelling Match...Will Represent County at Louisville;.. Mrs. J. C. Layne May Make Race for Congress...Republicans Nominate Richard P. Ernst for U. S. Senator...Mrs. Susie Rice Succumbs.

LOCALS

Misses Isabelle Duncan and Mary Bess Crossper, of Kentucky State University, spent their spring vacation with their parents in Burlington.

Mrs. J. B. Arvin was called to Louisville last week on account of the serious illness of her mother.

Raymond Acra, 27, Grant, Ky., and Ruth Devine, 21, Clermont county, Ohio were married in Covington, last Saturday.

UNION

Mr. A. M. Stephenson, of this place, and Miss Lizer, of Covington, were married last Wednesday.

The local school has been closed the past several days, due to the influenza epidemic.

NONPARIEL PARK

Lucian Layne, of New York, arrived here the past week to visit his parents, Mr. and Mrs. J. C. Layne.

Paul Renaker, who has a position in Louisville, spent the week-end with J. G. Renaker and his wife.

PETERSBURG

Misses Emelyn McCord, Margaret Walton and Cordelia Berkshire and Robert Lee Mathews, of Transylvania University, Lexington, spent their Easter vacation with home folks.

GUNPOWDER

Some one went to the J. P. Snyder farm last week while the house was vacant and took the pump from his cistern.

A house on Ira Tanner's farm burned on Friday of last week. He had moved to the house he bought of his mother a short while ago and fortunately there was nothing of value that burned.

WATERLOO

Don't forget the Belleview High School play "Miss Fearless & Co." at the Belelview High School auditorium Saturday evening, April 17th.

Lewis Merrick and family have moved to the house vacated by Jas. Feely and family, who have moved to Wm. Arnold's farm.

JEST A-WHITTLIN' AN' A-THINKIN'

By Pete Gettys

A State Farmer Section Feature

If a feller has a store er a mill er something he can keep books and tell how he is coming out—big end or little end of the horn—but that's hard to do on the farm.

There were two farmers in our end of the county—pretty well to do fellers with good farms and gettin' along better than the average, and say of about equal education and intelligence—one never would raise any colts—figger'd by the time he fooled and worried with 'em and fed 'em long enough to sell they'd have more in them than he'd ever get out. T'other fellow would say,

"I ain't disagreein' with you, but I jest go on raisin' a few colts each spring—they're a lot of trouble but it jest seems like to me that I'm ahead of you jest that much—I've got a few colts to sell every year and you ain't."

—o—

Still there can be more bookkeeping on the farm than is generally done. Some feller said once that "when you can measure what you're speaking' about and show it in numbers, you know something it, but when you can't measure it, when you can't eixpress it in numbers, your knowledge is of a meagre and unsatisfactory kind,"—and there's a lot of truth in that.

While figures may lie a little and not always balance up to cases like the two fellers with and without the colts—yet all of us here in the country could get along better if we'd figure more.

And there's one more thing a good farmer must be—"farming is a business that requires more shrewdness than law, more technical training brains than teachin'.

—o—

The trouble with figuring and arithmetic on the farm is to get the feller to believe the figures right before his eyes.

We knew a professor at an agricultural college who had a farm and would tell his farm man what to do—how to cultivate and amounts of fertilizer to use—but gettin' it done was the trick—he'd go back and it wasn't done—soil too wet or too dry to plaw—"the moon was dry and all that town fertilizer would burn the crop and sap the ground."

Still, farming is the greatest business of the nation and no science or business has in the past made definite progress until reduced to a mathmetical basis—and our farmers are headed that way.

GARDENS FOR NEEDY

Favorable weather over the past few days in most parts of Kentucky has given added impetus to the planting of hundreds of home gardens by needy families. These gardens are being planted solely upon individual initiative and without assistance from the Federal Government. Families who previously raised gardens under the direction of the Kentucky Emergency Relief Administration have been brought to realize their economic value, while th practical educational value of these programs is demonstrated in 1936 by home gardens wherever space is available.

CONSTANCE

S. D. Hempfling

Mr. Ellis Hall and family have moved on the Stanley Graves farm near Hebron.

Folks living on the river side of the pike are having their troubles with high water.

Mrs. Fred Gross, of the hill top, was calling on Mr. and Mrs. Virgil Heist and family, last Thursday.

Virgil Heist is on the sick list at this writing.

We are glad to see Mrs. Elmer Peeno out again.

Bro. and Sister Hamilton are moving to Ludlow R. D. 2 on Highway one mile east of Constance in their new home.

Mrs. Barney Turner and children were calling on Mrs. Geo. Heist last Thursday.

Mr. and Mrs. Elmer Peeno, Mrs. Ben Reeves and Miss Pheobe Price motored to the Home Coming of Church of Brethren atTrotwood, Ohio, Sunday.

Don't forget our Pre-Easter Service beginning Sunday April 5th, lasting a week. Sun Rise Service Easter Sunday morning 6 a. m.
Sunday School 10 a. m:
Sunday morning services 11 a. m. Subject—"A Firm Foundation."
Evening services 7:45 p. m.
"Jesus Entering Jerusalem."
Supt.—Paul Craven.
Asst.—Virgil Heist.

BELLEVIEW

(Mrs. Richard Marshall)

Mrs. J. A. Riley is having some repairing and painting done on her vacant house here, also papering.

Lee McNeely and family moved from the parsonage to his farm in the Beech Grove neighborhood.

The Homemakers Club that was organized some time ago at the home of Mrs. R. L. Hensley, met with Mrs. Laura Clore Tuesday afternoon.

Miss Anna Cason is visiting her sister, Mrs. L. E. Love, near Union.

Mr. and Mrs. Chas. Dolph entertained their two granddaughters from Newtown, Ohio, last week.

Mr. and Mrs. Robt. Rice spent Thursday with their son Orville and family.

Miss Julia Smith, Miss Julia and George Buchner, of Newport, and Mrs. Lizzie Smith, gave Mrs. Henry Clore a surprise visit Sunday in honor of her birthday anniversary. Mrs. Belle was also a caller in the afternoon.

Mr. and Mrs. John Maurer entertained the following guests at dinner Sunday: Mr. and Mrs. Kenneth Elliott, of Cincinnati, Mr. and Mrs. James Ransom, of Falmouth and Mr. and Mrs. Luther Smith and son of the Belleview and Burlington pike.

The members of the Christian church here were glad to have their former pastor Rev. Arthur Brewer, of Cincinnati, preach for them Sunday afternoon.

Miss Betty Breashear is visiting relatives in Cincinnati, this week.

Mrs. Alvin Buffington has returned home from a Louisville hospital very much improved.

Mrs. Forest Brown is spending some time with her brother, Dr. Clayton Rogers and family, in Louisville.

HEBRON

(Miss Nannie Lodge)

Vernon Tupmon is recovering from the measles.

Mrs. Barrott Grant and son returned home Friday after a visit with her mother at Owenton, Ky.

Mrs. Virginia Kathleen Ryle and son, of Limaburg, spent Tuesday with Mrs. Ottie Aylor.

Robert Bradford, Jr., is the owner of a Chevrolet car.

Mrs. Lillie Youe returned home last week after several months with friends near Richwood and Burlington.

Mrs. Nan Baker spent Monday with Mrs. Harve Baker, of Florence.

An oil well is being drilled on the Hafer Bros., farm.

Miss Arby Long was taken to St. Elizabeth hospital Wednesday for treatment. She was in a critical condition. At last report she was improving.

Mrs. Norris Riddell is recovering nicely from an appendicitis operation at St. Elizabeth hospital.

Mr. and Mrs. H. S. Tanner and Mrs. Bessie Harding of this place, and Dr. and Mrs. L. C. Hafer, of Ft. Mitchell, returned last week after a six weeks sojourn in St. Petersburg, Florida.

Mr. and Mrs. Hubert Conner, Mr. and Mrs. Cecil Conner, Miss Dorothy Conner, Benj. Paddack, Mr. and Mrs. H. L. Crigler and family attended the banquet at the Sinton Hotel Thursday, given by the Cooperative Milk Association.

Rev. H. M. Hauter, pastor of the Lutheran church, and Mrs. Hauter, spent last week with their parents at Canton, Ohio.

Howard Ledford, of Lexington, spent the week-end here.

Mrs. W. O. Hafer, of Ludlow, was the guest Friday night and Saturday of her parents, Mr. and Mrs. John Clore.

After spending the winter with her son Emmett, Mrs. Emma Kilgour came to the home of her daughter Mrs. Frank Aylor, Sunday for the summer.

The Home Makers Club will hold their meeting at the school house Wednesday afternoon, April 8, at 1:30. Leaders Mrs. Robert Reimer and Mrs. Geo. Casper. All are welcome to attend.

IDLEWILD

This community was saddened to hear of the passing of Mr. Homer Grant at a hospital in Louisville, Saturday, March 28th. His body was interred Sunday at Petersburg.

Geo. Pfalzgraf left Saturday to enter the Baker hospital at Muskateen, Iowa. His condition for the past two weeks has been somewhat discouraging.

Mrs. Walter Scothorn is spending several days this week with her aunt, Mrs. Garnett Dolph.

Mr. and Mrs. Elmer Spence, of Ohio, were Sunday visitors at Fritz Shinkles.

Mrs. Fritz Shinkle and Mrs. E. Spence were calling on Miss Louisa Delph Sunday evening. Miss Delph is very poorly. Her cousin, Mrs. James Feeley, is with her for a few days.

Wesley Fogle has moved on Aubrey Finn's farm.

Ira Kittle has moved from Kippler Bros., house into the tenant house of Mrs. Pauline Walton. He will work this year for Charlie Stevens.

Mrs. Wm. Hill and Mrs. Fred Birkle and daughter Wanda Lea, were calling on Mrs. Mattie Shinkle, Saturday afternoon.

Ray Hill and Bessie Jones were Sunday evening guests of Mr. and Mrs. Wm. Hill.

Mrs. Albert Willis enjoyed the day Monday with Mrs. Graddy.

Mary Christine Stevens and brother, James Albert, were at home over the week-end.

Little Patty Hill, of Cincinnati, is visiting her aunt, Mrs. William Hill.

Owen Acra and wife visited Mrs. Mayme Stevens and Mrs. Nora Souther, Sunday.

Mr. Burton Yates is getting along so nicely. He will soon be able to be out.

Mr. and Mrs. Fritz Shinkle and Wm. Hill are receiving chiropractic adjustments from a doctor at Erlanger.

HERE AND THERE

(Mrs. Lallie Marie Delph)

Mrs. Artie Kittle spent Friday with her son Russell and family.

Mrs. Russell Kittle and little son spent Monday and Tuesday with her parents, Mr. and Mrs. Barney Turner.

Mrs. Grace McMury spent Thursday with her parents, Mr. and Mrs. Everett Souther.

Ed. Barnard and Mrs. Adam Delph are on the sick list.

Wm. Barnard, of Lawrenceburg, Ind., has returned to Ky., again to spend the summer.

Miss Mary Eliza Delph has returned to her home after a two weeks visit with her aunt, Mrs. Ed. Black.

Mr. Ira Kittle has moved to Mrs. Pauline Walton's place near Petersburg.

Mr. and Mrs. Oscar Nye, of Covington, Ky.,———with Mr. and Mrs. Wm. Bowman.

Mr. and Mrs. Ed. Kippler and family and Mark Kinaton, spent Saturday evening with Mr. and Mrs. Wm. Gray and family.

Mr. and Mrs. Edward Delph spent Sunday with his parents, Mr. and Mrs. Adam Delph and family.

BOLIVIA TO ERECT HUGE POWER PLANT

Cheap Electricity Is Greatly Needed by Country.

Washington.—Proposals to construct one of the largest hydro-electric plants in Latin America near Lake Titicaca, on the horder between Peru and Bolivia, direct atention to this large body of water, remarkable for being the highest steam-navigated lake in the world.

"Situated some 12,500 feet above sea level, on a mountain plateau between two towering ranges of the Andes, Lake Titicaca spreads its blue mirror in a region where the air is so intensely keen and cold that horses cannot work, and even some of the sure-footed burros must have their nostrils slit in order to breathe," says the National Geographic society. "Tourists frequently suffer from the thumping heart and nausea of mountain sickness, but Aymara Indians, native to the place, have developed massive chests and large torsos which enable them to carry heavy burdens on their backs up steep paths without distress.

Water Never Reaches Sea.

"Thought to have once been much larger, and to have receded, Lake Titicaca covers over 4,500 square miles (an area almost equal to that of Connecticut). Into it flow several streams fed hy glacial ice and melting snow on the Andes, but it has only one outlet, the Desaguadero river which runs 185 miles southeast into Lake Poopo. Water from the later never reaches the sea, for it overflows into a salt marsh, where it is absorbed, or evaporates.

"Plans for the new power plant would include digging a canal which would send water from Lake Titicaca plunging over steep precipices to furnish electric power for the entire Bolivian plateau, as well as for the country's railroad lines.

"What cheap electric power means to Bolivia, which produces no coal and must import it at terrific cost, is realized in La Paz, only 45 miles southeast of the lake. Electricity provides the city with light and heat, as well as runs the street cars and busses, and the railroad to the heights above the city.

"To fully comprehend what electricity would mean to dwellers on the bleak, wind-assailed plateau containing Lake Titicaca, one must remember that it is practically treeless. Wood is so scarce that fishermen make boat masts by splicing together small sticks. Indian huts on the lake shore are built of stone or adohe, and thatch. Walls enclosing corrals for herds of llamas and alpacas are built of adobe, as are ovens in which the cooking is done.

"Lake Titicaca presents a scene of cold, grim majesty. In the distance, towering above the dreary landscape, gleam the snow-clad summits of the Andes over which Andean condors soar. Along the lake shores sway tall bulrushes, which natives bind together in huge canoe-shaped bundles to make their balsas, or boats. Propelled by sails woven from reeds, they glide over the cold, gray-blue waters from place to place carrying fish, alpaca woll and other products, or ferrying passengers and mules.

Steamers Carried on Mule Back.

"Steamers ply back and forth between the Peruvian port of Puno, on the northwest shore of the lake, to the Bolivian port of Guaqui, on the southwest shore. These steamers were sent over in sections from Great Britain and assembled at Puno. Before the railroad was built from the Pacific ocean to Puno, parts of steamers were carried on muleback up the mountain trails to the lake.

"On account of the high altitude, only potatoes, (whose habitat was the Andes), barley, quinoa, and a few other crops can be cultivated with success by the Indians. Herds of alpacas, cousins of the llama, graze over large areas near Lake Titicaca.

"Lake Titicaca holds considerable historical interest. The ancient Incas are said to have lived on some of its more than 30 islands. On a few of them, and on the mainland, tombs of Inca chief's have been found. Tradition says it is into this deep lake that the Incas threw much of the gold and silver they stripped from their temples to prevent Pizarro from seizing it.

"About ten miles from the lake are the pre-Inca ruins of Tiahuanacu, thought to be about three thousand years old."

Unions of Cousins Not Dangerous, Survey Shows

Berkeley, Calif.—It's all right if you want to marry your cousin. The children won't be feeble-minded or even a wee bit dull.

Take it from Dr. Olga Bridgman, professor of psychology at the University of California, who has made many tests on the subject for ten years.

"In fact," Doctor Bridgeman says, "the marriage of cousins tends to improve the racial stock if the couple are both of high intelligence."

The frequency of feeble-mindedness increases through blood marriages, Doctor Bridgman believes, only because custom frowns on cousin marriages and custom is a powerful deterrent to normal individuals not so strong on influence with the subnormal. Therefore the subnormal are more likely to marry cousins.

FIND REMNANTS OF ANCIENT MONSTERS

Devonian Age Beasts Lived 40,000,000 Years Ago.

Madison, Wis.—Strange skeletal remnants of monsters existing 40,000,000 ago have been collected for the University of Wisconsin geological museum from Devonian rock scattered along Milwaukee county park roads by WPA workers.

Gilbert O. Raasch, curator, learning that WPA workmen deepening the Milwaukee river to prevent floods, were digging out rock of the Devonian age, or the "age of fishes," obtained hundreds of specimens on the project site and along the roads where the rock from it was distributed. His finds included remains of scales from the ancient sluggish water beasts, segments of cutting bones which served them as teeth, parts of fin and dorsal spines and portions of the hard skull plates which armored the first backboned animals known to the world.

Estimate Forty Varieties.

Retreat of the Devonian sea some 40,000,000 years ago left imbedded in the last Wisconsin rock formation to be laid down the remains of the dominating water life of the period comprising some forty varieties of fish animals, according to geological interpretations explained by Raasch. The large size attained by some of the animals is demonstrated by a reconstructed skull in a Buffalo museum which is large enough for a man to crawl through its jaws, he said.

Specimens of this interesting geological period first were uncovered years ago when a company found that the rock—a water lime—was a natural cement, but the university failed to obtain any of them before changing production methods resulted in abandonment of the digging 30 years ago.

Fish Heavily Armored.

Many of the Devonian fish were heavy and sluggish with head and forehody heavily armored, the remainder covered with thick scales, Raasch said. The larger ones must have fed on those smaller, since little other food apparently was available.

The Devonian sea probably covered much of Wisconsin, extending farther inland than Milwaukee, Raasch said.

The age was termed Devonian because it was first studied from deposits unearthed at Devonshire, England. Several widely scattered deposits are known in North America.

Deposits from the Silurian period, immediately preceding the Devonian, also have been found in Miuwaukee county, near Waukatosa, where specimens of coral, shellfish and trilobites have been picked up.

"Black" Lightning Theory Upset by Camera Views

Phoenix, Ariz. — Photographs of "black" lightning, phenomenon which has puzzled scientists, may upset a frequently given explanation, according to Norman G. Wallace, amateur photographer, noted for camera studies of desert scenes.

Basing his interpretation upon pictures which show vivid flashes of "black" and ordinary, or white lightning side by side, Wallace believed the former might be a distinct type of electrical phenomena.

A suggested explanation that black lightning is merely an illusion resulting from too intense light reversing silver images of photographic plates, fails to account for "black" feeder lines on lightning pictures, while the central flashes register white, Wallace said. Additionally, white flashes frequently may be photographed immediately preceding and following the "black" flashes, or sometimes caught side by side with the black.

The phenomena is said to occur most frequently in Arizona desert storms.

Non-Inflammable Tree Developed by Botanist

Los Angeles.—Creeping vines that won't burn, growing in a tiny botanical garden in San Fernando valley, offered federal forestry experts a possible answer to southern California's annual fire hazard.

Non-combustible trees, growing 30 feet high, have been developed by Dr. Arthur D. Houghton, internationally noted botanist, after years of experimenting in an effort to grow a natural fire curtain around fire-ravaged brushlands.

The trees have been attacked with every kind of inflammable temptation, from matches and kerosene to blowtorches, and have failed to show a spark of interest.

Doctor Houghton has interbred plants from all parts of the world in his effort to get a non-combustible tree.

Tutors Provided Free at Vermont University

Burlington, Vt.—A free tutorial bureau to aid students having difficulties with their studies has been established at the University of Vermont.

The tutorial bureau, named the Mortar Board, is the women's senior honorary society. Although the tutoring is free to students, the tutors are paid 25 cents an hour by the society.

Find Prehistoric Needles

Moscow.—Prehistoric knitting needles, five-teeth combs and spoons of mammoth bone have been found in an ancient settlement near Obdersk, northern Siberia, by an expedition sent out by the Institute of Anthropology and Ethnography of the Academy of Science. The expedition excavated 12,000 articles of pottery and bone.

BEAVER LICK

Miss Mamie Moore

R. E. Moore was called to Walton last week to see his sister, Mrs. Geo. Burris, who is seriously ill.

Miss Wanda Pennington spent last Tuesday night with her friend Miss Hazel Stevenson, of Union.

Mr. and Mrs. Harry Moore were at Sherman Sunday where they visited Mr. Moore's sister, Mrs. J. F. Points and Mr. Points.

There will be a business meeting at the Beaver Christian church Saturday, April 4th, at 2 p. m. All members are urged to be present at this time.

Rev. R. A. Johnson will conduct regular services at the Baptist church Saturday, April 4th, at 7. p. m. Everybody is cordially invited to attend.

Mr. and Mrs. Garfield Hamilton and Mr. and Mrs. Sam Kite spent Sunday with Omer Kite and family.

Geo. Baker and Raymond Roter are home after two weeks spent in Florida.

Mrs. Ira Huey Jones was hostess to the "Friendly Circle" Club at her home in Union last Tuesday. A delightful meeting was held. Those present were Mrs. Roy Kenney and daughters Kathleen and Roberta, Mrs. Felix Pennington and daughters Louise and Betty Jane, Mrs. Ralph Carpenter and daughter Margie, Mrs. Walter Pennington, Mrs. Harry Moore and Miss Sara B. Melvin.

ANTICIPATING THE FUTURE

There are two things every man wants in the future. One is the assurance that his family will be economically secure in case he should die. The other is that he will be financially independent in old age if he lives.

Money put aside toward those ends must be placed where it is as safe as human intelligence can make it. Every possible risk must be anticipated and guarded against. "Safety first—profit second" must be the guiding motto.

It is for that reason that life insurance holds so high a place in the esteem and judgment of the average forward-looking citizen. He knows the supero record of stability it has made during the worst depression in history—he realizes that in its almost limitless range of policies are contracts adapted to every conceivable financial need and condition. And so it is his basic investment.

The first radio telephone service between Japan and China was recently inaugurated. For the time being, Shanghai is the only point in China connected with the service.

The workmen who are employed at the local saw mill, have over 600 logs sawed in Boone and Kenton county ready to be delivered at the mill.

J. S. Cason left Tuesday for Carrollton, Ky., where he has accepted a position with the State Road Department with headquarters at that place.

ATTENTION DEMOCRATS ! !

THE MONTHLY MEETING OF THE YOUNG DEMOCRATIC CLUB OF BOONE COUNTY WILL BE HELD AT HEBRON, APRIL 6th AT THE LODGE HALL. EVERY MEMBER IS URGED TO BE PRESENT AND INVITE ALL PROSPECTIVE MEMBERS TO BE PRESENT.

PUB. CHAIRMAN

FLORENCE METHODIST CHURCH

Special Services Sunday
(R. R. Rose. Pastor)

A Special Communion Service will be conducted at 11:00 A. M. (fast time) Sunday in which the sacrament of the Lord's Supper will be administered by the pastor, assisted by any other ordained minister present. Sermon topic. "Christ on the Cross."

At 7:30 P. M., the Presiding Elder, Rev. O. B. Crockett, D. D., will preach. The Walton Choir will also be present and will render a special program of Easter Music, Mrs. F. E. Bedinger directing, with Mrs. J. B. Johnson at the piano.

The place of meeting is that of the Odd-Fellow's Hall in Florence. The public is cordially invited.

NORBEH CHAMPION 4-H CLUB

The Hebron Norbeh Champion 4-H Club held their third meeting Monday, March 30, 1936. Our President, George Hankins Riley, called the meeting to order by having our Secretary, Louise Elkin, call the roll and read the minutes of the last meeting. Then the President had each captain report as to what they were doing with their projects.

We were very glad to have three of our leaders present: Mrs. Sibbia Reimer, C. V. Lucy and John Crigler. Mrs. Sibbia Reimer, leader of the canning group, gave us a very interesting talk on how to get points for our club. Let's try and have more leaders present at our next meeting which will be April 30, at the school house.

We adjourned by repeating the club pledge and by giving one peppy cheer for our leaders.

Anna Mary Grant,
Club Reporter.

THANKS A MILLION

Thanks friends for your cooperation in helping us build a complete electric shop. We have been for several years selling and servicing electrical appliances. Now we offer you an up-to-date electrical display room, where you can select anything you want that operates by electricity.

We have a service department and an expert mechanic of which we are proud of. Once tried you'll like our service and our rates. We service everything we sell and anything the other man sells. Speaking of selling we believe we have the leaders: Maytag washers, Philco Radios, Electrolux Crosley Refrigerators and Fairbank Morse water systems. Don't go any further than the Erlanger Electric Shop for Electrical service and remember we are as near as your phone, nite or day. We invite you to inspect our Electric Shop. Just pay a look around visit. No obligations. We are proud of it and want you to see it.

ERANGER ELECTRIC SHOP
Erlanger, Kentucky

P. S.—We also have a used appliance department.

Licenses are now being approved in the Irish Free State for the growing of tobacco in the 1936 season, and will be granted for the growing of total area not exceeding 1,500 acres.

DEMOCRATIC CONVENTION

OF WOMEN'S CLUBS TO BE HELD APRIL 15TH AND 16TH

Dear Club President;

The Democratic Woman's Club of Kentucky will hold its 10th Convention in Frankfort at the Captial Hotel, April 15th and 16th. On the evening of the 15th there will be a reception at 6:30, followed by the annual dinner for the Executive Board and Directors at 7:00 P. M. All democratic women in the State are invited to attend our dinner. We wish to introduce the wives of our State Executives, and have an interesting program.

The 16th is our regular Convention Day. We will meet at 9:30. Reports from Clubs will be given in the morning, also the afternoon we will have Governor A. B. Chandler's and Lieutenant Governor Keen Johnson's greetings. Senator Alben W. Barkley will be the principal speaker of the afternoon.

Please call a meeting of your Club at your earliest convenience and urge your members to attend. If your Club has not sent in your annual dues, please send at once to Mrs. Lawrence Hagar, Owensboro, Kentucky.

Try to get subscribers and renewals of subscriptions to our Journal, which has had a remakkable year, and interesting editions, to Mrs. V. O. Gilbert, Treasure, 309 Cresent Court, Louisville, Ky.

Your cooperation will be necesary. You can render a service if you will see that announcements are made in your papers, and help with publicity.

The Women's Club did wonderful work in our campaign, and we now face another busy time in a Presidential year.

Please communicate with Mrs. C. W. Longwire, of Frankfort, Chairman of arrangements, who will be glad to make your reservations.

Yours truly,
Mrs. Thomas C. Underwood

Dinner $1.00
Luncheon 75c

Mrs. Smith Hogan of Frankfort, Ky., is coming to Boone County, Burlington, April 13th to organize the Young Women into a Young Democratic Club and also to speak to the women that are already organized into a Women's Democratic Club.

We want to pay our dues of 10c a member and make arrangements for the Democratic Convention in Frankfort. If you want to have a real good time go to Frankfort to Democratic Women's Convention April 16 and 17,or for the 17th all day.

Mrs. Jake Cleek

The local B. Y. P. U. held services at the County Infirmary Tuesday night.

PETERSBURG

Mrs. J. T. Bradburn

Funeral services were conducted by Rev. Campbell at the Baptist church here Sunday at 2:30 for Mr. Homer Grant. Interment in Petersburg cemetery. His family have the deepest sympathy of a host of friends.

The many friends of Dr. E. J. Love are sorry to hear of the illness of his wife. Mrs. ove is in the Bethesda hospital where she underwent an operation. We wish her a speedy recovery.

Mr. and Mrs. Jimmy Jarrell are happy over the arrival of a little son, since March 27th.

Mr. and Mrs. Geo. Porter spent Sunday with their parents, Mr. and Mrs. Otis Rouse.

Miss Dorothy Mae Burns was the Sunday guest of Miss Sarah Lucille Smith.

Quite a number of relatives and friends were calling on Grandma Helms, Sunday.

Rev. Dunaway and family spent the week end with Mrs. Dunaway's parents, Mr. and Mrs. Beach, of Erlanger.

Mr. and Mrs. D. B. Hoffman and Mr. Raymond Witham were calling on Mrs. Laura Sebree, who is quite ill at the home of her sons.

Mr. Milton McWethy has been confined to his bed again with hemmorhages.

Mr. and Mrs. Raymond Witham were calling on the Alden sisters Sunday evening.

Mrs. Linnie Howard was the dinner guest at home of her son Mr. Burgess Howard, Saturday.

Mr. and Mrs. Louis Hitzfield and sons, spent Sunday with his parents, Mr. and Mrs. Albert Hitzfield and family.

Mr. and Mrs. Elmer Spence and children, Mrs. Mattie Shinkle and children were calling on Mr. and Mrs. Luther Surface, Sunday afternoon.

Mrs. Lawrence Chambers entertained with a bridge party one afternoon the past week.

Frank Helms spent the weekend with his mother.

Mrs. Russell Trailer and children of Lawrenceburg, Ind., were the week end guests at home of her sister, Mr. and Mrs. Bolivar Shinkle.

Mr. and Mrs. Wm. Hill took dinner Sunday with her parents, Mr. and Mrs. Lyman Christy.

Mr. Milard Nixon spent the weekend with his parents, Mr. and Mrs. Robert Nixon.

Rev. and Mrs. W. T. Dunaway and Mrs. Burgess Howard were callers on Mrs. Laura Sebree, Monday afternoon.

LaGUARDIA PICTURES PLIGHT OF CITIES WITHOUT WPA

"I want to say on behalf of the city of New York, and in so saying I speak with authority for the mayors of the largest cities of this country," said Mayor LaGuardia in an address in New York Saturday night, "that we sincerely appreciate the help and cooperation which we as cities have received from the federal government and WITHOUT IT THERE WOULD HAVE BEEN NO CITIES AT THIS TIME." (Mayor La Guardia's own emphasis.) He is the executive head of the national association of mayors.

"I don't think it is necessary to defend the WPA," he continued, "Let those who criticise provide a substitute or keep their mouths shut. God help this country when the unemployed will be at the mercy of the Liberty Leaguers who would continue to feed the hungry on ticker tape, epigrams, wisecracks and slogans.

"It might be useful to consider how responsible government failed in the past and permitted such a condition to exist in this country. If those criticising now had raised their voices or their hands in the boomperiod it would not have happened. Let industry get together to snorten hours so we can adjust machinery to our lives instead of expecting human beings to adjust themselves to machinery. We can't expect it to be done through the uniform action of legislatures functions in 48 different states, especially since it has been held that when a chicken from Kansas gets uptown to the market it becomes a citizen of the Bronx."

4-H CLUB NEWS

On March 25th the True Blue 4-H Club of Belleview held their third meetting of the year. Seventeen members and one leader was present. Reports were given by each member and quite a few have started their projects.

Our County Agent gave a very interesting talk. The date of our Annual Tour was set for July 9th. Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach, which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee.

ONE WEEK TREATMENT $1.00. SIX WEEKS TREATMENT $5.00 in order to avoid mistakes in getting the genuine LION CROSS HERB TEA please fill out the attached coupon.

HAVE YOUR EYES EXAMINED

We shall be glad to assist you in obtaining real eye comfort and satisfactory vision.

Most eye discomfort is NOT caused by DISEASE, but by subjecting the eyes to unnatural conditions. The eyes often are used for close work until they become strained or weakened. Then they need help in the form of properly-fitted glasses.

INTERESTING PROGRAM PLANNED FOR ANNUAL K. E. A. CONVENTION

Louisville, Ky., March 26—The Kentucky Education Association, through Secretary W. P. King, makes the following announcements:

Mr. P. H. Hopkins, President of the K. E. A., has planned one of the most interesting and delightful programs for the annual K. E. A. Convention that has been offered in many years. Mr. Hopkins has provided for the teachers of Kentucky outstanding men and women from various fields of educational service. Great leaders from every section of the country will be on both the general and sectional programs of the Convention which is to be held in Louisville on April 15-18. Advance registration indicates that the attndance will be the largest in the history of the Association.

The speaker on Wednesday evening will be Hon. Pat M. Neff, former Governor of Texas, and President of Baylor University, Waco, Texas.

On Thursday afternoon, the teachers will hear Dr. Harold Rugg Columbia University, New York. Hon. Harry W. Peters, Supt. of Public Instruction, Frankfort, Ky. Miss Agnes Samuelson, President of the National Education Association, Washington, D. C., will also be on the program.

Thursday night the speakers will be Dr. Sigmund Spaeth, nationally famous "Tune Detective," New York, and Hon. A. B. Chandler, Governor of Kentucky.

Dr. Sidney Hall, State Superintendent of Schools, Richmond, Va. Mrs. J. K. Pettengill, Vice President of the National Parent-Teachers Association Detroit, Mich. and Dr. William McAndrew, Editor of School and Society, New York, will be the speakers on Friday morning, April 17th.

Friday night, Hon. Gerald P. Nye, United States Senator, North Dakota, will be he chief speaker.

Dr. H. A. Webb, Peabody College, Nashville, Tenn., will give an address before the Mathematics and Science Teachers on Thursday, April 16th, at the Kentucky Hotel.

An interesting feature of the K. E. A. program will be an exhibition of physical culture directed by H. T. Taylor of the Louisville Public Schools in which will be shown the successive stages of the development of physical culture over a period of 100 years.

Hon. M. M. Logan, United States Senator, Washington, D. C., will speak before the Special Education Association on Wednesday, April 15th at the Brown Hotel.

An added feature of interest to the K. E. A. program will be a special section devoted to the interest of school board members, The speaker for this section will be H. H. Filer, a nationally known Board of Education member from the state of Florida. This meeting will be held on Friday afternoon, April 17th, at the Kentucky Hotel. Board members throughout the state are being urged to attend tend this meeting.

Dr. Jean Betzner, Columbia Un the Department of Elementary Ed versity, New York, will address at Columbia Auditoriu n.

The educational leaders of Kentucky and the members of the K. E. A. are deeply appreciative of the fine spirit manifested by the Governor and the legislature of Kentucky in granting support to the public schools. Governor Chandler's promise to provide $12 per capita and to continue the free textbook program has been kept. The Kentucky Education Association appreciates the difficulties which confront the Governor and the legislature in providing a fair and adequate revenue program.

The commercial exhibits at the K. E. A. Convention will be very elaborate and will cover a great variety of subjects.

The K. E. A. is an incorporated organization under the laws of the State of Kentucky. Its membership is made up of teachers, school superintendents principals, supervisors and college presidents. Only persons actually engaged in the direct handling of students and who are paid by the state or by private institutions are eligible for membership. Persons who are not engaged professionally in school work are eligible for associate membership.

The state is divided into 11 educational districts, each of which has its president and secretary and each of which holds an annual convention in the fall of the year. These district conventions make a significant contribution to the members in tne K. E. A. and practically every county in the state is represented by 100 per cent of its teachers.

Herbert Agar, distinguished author and journalist will be one of the outstanding speakers on the K. E. A. program of the Social Science Section.

The subject of music will be given considerable prominence. One of America's most distinguished authorities on music will be a prominent speaker. Many music groups, including college glee clubs and string ensembles will be heard. A special feature will be a group of songs by the Buffalo Club, an aggregation of Northern Kentucky school masters.

The newly organized Department of Elementary Education will meet for the first time at the April K. E. A. meeting. The leaders in this movement are J. K. Powell, Harrodsburg, Thelma Drinnon Bailey, Paducah, Mae K. Duncan, Lexington, Mary Browning, onisville, Bianca Esch, Louisville, Mary I. Cole, Bowling Green and Nellie May Wyman, Murray. This group has arranged an outstanding program on which Agnes Samuelson, President of the N. E. A.; Dr. Harold Rugg, of Columbia University and Dr. Jean Betzner of Columbia University will be speakers.

OTHER STATES SEEK KENTUCKY'S MARKET FOR QUALITY LAMBS

The keen competition of packers for Kentucky lambs comes from the fact that this state has been producing the best lambs that go to market, points out R. C. Miller of the College of Agriculture, University of Kentucky. "During the past few years, however," he continued, "other states have been improving the quality of their lambs. Hence, it now is more important than ever before that Kentucky sheep producers give attention to quality.

"This year's lamb crop is getting off to a poor start, due to the severe winter. Lambs will be slow to grow into good quality unless given extra attention. Creep feeding until there is plenty of grazing is necessary for best results, and will pay even after grass comes.

"For many years packers have demanded that lambs for which they pay top prices be properly finished ewes and wethers. Bucks are worth less to them and are accordingly discounted. The castration operation is simple, and any farmers who does not know how to perform it can secure the assistance of a neighbor, or ask his county agent for a demonstration.

"No work on the farm will pay more in proportion to the time spent than will castrating and docking lambs. These operations may be performed any time from the age of a few days until the lambs are six weeks to two months old. The best time is between one and two weeks of age.

"Farmers who fail to castrate their lambs may expect to have a larger percentage in the lower grades and, if sold on a competitive market, to receive a lower price for them."

CALL FOR BUILDING PLANS ON INCREASE

The College of Agriculture at the University of Kentucky at Lexington reports continued heavy demand for farm building plans, particularly for tobacco barns. Approximately 250 sets of plans have been sent out this year, upon request from farmers. Nearly a fourth of them were for tobacco barns.

The increased call for building plans began last year, when 86 percent more plans were distributed than in 1934. A total of 660 plans were distributed upon request to farmers in 93 Kentucky counties and 96 sets sent to farmers in 17 other states last year.

While major interest appears to be in the building of tobacco barns Prof. J. B. Kelley, head of the agricultural engineering department. reports activitiy in all kinds of farm building. Large numbers of poultry houses, dairy barns, hog houses, storage houses. general barns and dwellings are under construction throughout the state he said. Much remodeling also is being done.

Part of the interest in constructing and remodeling tobacco barns is said to be due to the face that leaf cured in modern barns and according to the latest practices has been selling much higher in recent years. More farmers are equipping barns with ride ventilators, using artificial heat and otherwise controlling curing so well that they are able to market a higher quality of tobacco than they did in former years, it is said.

INDIAN BURIAL GROUND UNEARTHED ON UNIVERSITY OF KENTUCKY CAMPUS

What is thought to be an Indian burial ground has been unearthed on the University of Kentucky campus by PWA workers who are building a new running track on the University's athletic field.

Within less than a week's time two full-grown Indian skeletons have been discovered a few feet beneath the old cinder track, the skeletons have been placed in the Museum of Anthropology and Archaeology on the University campus.

These two latest "finds" on Stoll field bring the total of skeletons which have been unearthed near that location to approximately six, over a period of years.

BULLETIN OF U. OF KY. SUMMER SESSION IS AVAILABLE TO STUDENTS

The 1936 Summer Session Bulletin, listing courses, faculty and extra-curricular activities for the two five-week terms, is now off the press and available at the office of the director of the Summer Session.

The first term of the 1936 session will open June 15 and continue to July 18 and the second term is scheduled to begin July 20th and continue to August 22. Graduation exercises for those students completing their work in either of the two summer terms will be held Friday afternoon, August 21.
